(3) If the law judge wishes some clarification as to the Administrator's factual assertions of good cause, he shall obtain this from the Administrator in writing, with due service made upon the respondent, and proceed to an informal determination of the good cause issue without a hearing. A hearing to develop facts as to good cause shall be held only where the respondent raises an issue of fact in respect of the Administrator's good cause issue allegations.

(b) In those cases where the complaint alleges lack of qualification of the certificate holder:

(1) The law judge shall first determine whether an issue of lack of qualification would be presented if any or all of the allegations, stale and timely, are assumed to be true. If not, the law judge shall proceed as in paragraph (a) of this section.

(2) If the law judge deems that an issue of lack qualification would be presented by any or all of the allegations if true, he shall proceed to a hearing on the lack of qualification issue only, and he shall so inform the parties. The respondent shall be put on notice that he is to defend against lack of qualification and not merely against a proposed remedial sanction.

LAW JUDGES

§ 421.26 Assignment, duties, and powers.

(a) *Assignment of law judge and duration of assignment.* The chief law judge shall assign a law judge to preside over the proceeding. Until such assignment, motions, requests, and documents shall be addressed to the chief law judge. Thereafter, all such motions, requests, and documents shall be addressed to the law judge assigned. The authority of the law judge shall terminate upon certification of the record to the Board, or upon expiration of the period within which appeals from initial decisions may be filed, or upon the law judge's withdrawal from the proceeding upon considering himself disqualified.

(b) *Powers of law judges.* Law judges shall have the following powers:

(1) To give notice concerning, and hold, prehearing conferences and hearings;

(2) To administer oaths and affirmations;

(3) To examine witnesses;

(4) To issue subpenas and to take or cause depositions to be taken;

(5) To rule upon offers of proof and receive evidence;

(6) To regulate the course of the hearing;

(7) To hold conferences, before or during the hearing for the settlement or simplification of issues;

(8) To dispose of procedural requests or similar matters; and

(9) To make recommended and initial decisions.

(c) *Disqualification of a law judge.* A law judge shall withdraw from the proceedings if at any time he deems himself disqualified. If, prior to the initial decision, there is filed in good faith an affidavit of personal bias or disqualification, with substantiating facts, and the law judge does not withdraw, the Board will determine the matter as a part of the record and decision in the proceeding, if an appeal from the law judge's initial decision is filed. The Board will not otherwise consider any claim of bias or disqualification. The Board, in its discretion, may order a hearing on a charge of bias or disqualification.

HEARINGS

§ 421.27 Notice of hearing.

(a) *Notice.* The chief law judge or the law judge to whom the case is assigned

V 38 I 137
JUL 18 73
XUM

shall set the date, time, and place for the hearing, at a reasonable date, time, and place, and shall give the parties adequate notice thereof and of the nature of such hearing.

(b) *Hearings in several sessions.* Where appropriate, the law judge may determine that a hearing will be held in one or more sessions at the same or different places.

§ 421.28 Evidence.

Every party shall have the right to present his case or defense by oral or documentary evidence, to submit evidence in rebuttal, and to conduct such cross-examination as may be required for a full and true disclosure of the facts.

§ 421.29 Argument and submissions.

At the hearing, the law judge shall give the parties adequate opportunity for the presentation of arguments in support of, or in opposition to, motions, objections, and exceptions to rulings. Prior to the initial decision, the parties shall be afforded a reasonable opportunity to submit for consideration proposed findings and conclusions and supporting reasons therefor.

§ 421.30 Record.

The transcript of testimony and exhibits, together with all papers, requests, and rulings filed in the proceeding shall constitute the exclusive record of the proceeding. The record shall also include any proceeding upon an affidavit of personal bias or disqualification of a law judge. Copies of the transcript may be obtained by any party upon payment of the reasonable cost thereof. A copy may be examined at the National Transportation Safety Board Public Reference Room No. 806D, at 800 Independence Ave., SW., Washington, D.C. 20591.

§ 421.31 Certification to the Board.

At any time prior to the close of the hearing, the Board may direct the law judge to certify any question or the entire record in the proceeding to the Board for decision, except an interlocutory ruling. In cases where the record is certified to the Board, the law judge shall not render an initial decision but shall only recommended to the Board a decision as provided in 5 U.S.C. 557 (Administrative Procedure).

INITIAL DECISION

§ 421.32 Initial decision by law judge.

(a) *Written or oral decision.* The law judge may render his initial decision orally at the close of the hearing, or he may render such decision in writing at a later date, except as provided in § 421.40(b).

(b) *Contents.* The initial decision shall include a statement of findings and conclusions, as well as the reasons or bases therefor, upon all material issues of fact (including credibility of witnesses, where such finding is material), law, or discretion, presented on the record, and the appropriate sanction or denial thereof.

(c) *Service of written decision and extension of time for appeal.* If the initial decision is in writing, it shall be served upon the parties. At any time before the date for filing an appeal from the initial decision has passed, the law judge or the Board may, for good cause shown, extend the time within which to file an appeal from the initial decision, and the law judge may also reopen the case for good cause upon notice to the parties.

(d) *Furnishing copy of oral decision and issuance date.* If the initial decision is rendered orally, a copy thereof, excerpted from the transcript of the record, shall be furnished the parties by the Office of Administrative Law Judges. Irrespective of the date of mailing of such copy, the issuance date of the decision shall be the actual date of the rendering of the oral decision.

§ 421.33 Effect of law judge's initial decision, and filing an appeal therefrom.

If no appeal from the initial decision is filed with the Board by either party within the time allowed, or no motion by the Board on its own initiative is made to review the initial decision, it shall become final, but shall not be deemed to be a precedent binding on the Board. The timely filing of such an appeal or motion shall stay the order in the initial decision.

APPEALS FROM INITIAL DECISIONS

§ 421.34 Notice of appeal.

A party may appeal from a law judge's order or from the initial decision by filing with the Board and serving upon the other parties (pursuant to § 421.5) a notice of appeal within 10 days after an oral initial decision has been rendered or a written decision has been served. Exceptions are not required.

§ 421.35 Briefs and oral argument.

(a) *Appeal briefs.* Each appeal must be perfected within 40 days after an oral initial decision has been rendered, or 30 days after service of a written initial decision, by the filing with the Board and the serving on the other party of a brief in support of the appeal. Appeals may be dismissed by the Board on its own initiative or on motion of the other party, in cases where a party who has filed a notice of appeal fails to perfect his appeal by filing a timely brief.

(b) *Contents of appeal brief.* Each appeal brief shall set forth in detail the objections to the initial decision, and shall state whether such objections are related to alleged errors in the law judge's findings of fact and conclusions or alleged errors in his order. It shall also state the reasons for such objections and the relief requested.

(c) *Waiver of objections on appeal.* Any error contained in the initial decision which is not objected to may be deemed to have been waived. Where any objection is based upon evidence of record, such objection need not be considered by the Board unless specific record citations to the pertinent evidence are furnished in the appeal brief.

(d) *Reply brief.* A brief in reply to the appeal brief may be filed by the other party within 30 days after the appeal brief has been served upon him. A copy of the reply brief shall be served upon the party who has appealed from the initial decision. Where the reply brief relies upon evidence of record, specific record citations to the pertinent evidence shall be furnished in the reply brief.

(e) *Other briefs.* No further briefs may be filed, except upon specific leave of the Board upon a showing of good cause therefor.

(f) *Number of copies.* Five copies of briefs shall be filed with the Board.

(g) *Oral argument.* Oral argument before the Board will normally not be held in proceedings under this part. However, when need therefor appears, the Board may permit oral argument, either on its own initiative or on motion of a party.

§ 421.36 Issues on appeal.

On appeal, the Board will consider only the following issues:

(a) Is the finding of a material fact or facts erroneous?

(b) Is a necessary legal conclusion without governing precedent or a departure from or contrary to law, Board rules, or precedent?

(c) Is a substantial and important question of law, policy, or discretion involved?

(d) Has a prejudicial procedural error occurred?

If the Board determines that the law judge erred in any respect or that his order in his initial decision should be changed, the Board may make any necessary findings and may issue an order in lieu of the law judge's order, or may remand the case for such purposes as the Board may deem necessary. The Board on its own initiative may raise any issue, the resolution of which it deems important to a proper disposition of the proceedings, in which event a reasonable opportunity shall be afforded to the parties to submit argument thereon.

§ 421.37 Petitions for rehearing, reargument, reconsideration, or modification of an order of the Board.

(a) *General.* Any party to a proceeding may petition for rehearing, reargument, reconsideration, or modification of a Board order on appeal from an initial decision. Initial decisions which have become final because they were not appealed from shall not be deemed orders for this purpose.

(b) *Form and number of copies.* The petition shall be in writing. Five copies shall be filed with the Board and a copy shall be served upon each of the parties within 30 days after service of the Board's order on appeal from the initial decision.

(c) *Contents.* The petition shall state briefly and specifically the matters of record alleged to have been erroneously decided, the ground or grounds relied upon, and the relief sought. If the petition is based, in whole or in part, on allegations as to the consequences that would result from the order of the Board, the basis of such allegations shall be set forth. If the petition is based, in whole or in part, upon new matters, it shall set forth such new matter and shall contain affidavits of prospective witnesses, authenticated documents, or both, or an explanation why such substantiation is unavailable, and shall explain why such new matter could not have been discovered by the exercise of due diligence prior to the date the case was submitted for decision.

(d) *Grounds for dismissal.* Repetitious petitions will not be entertained by the Board and will be summarily dismissed.

(e) *Reply to petition.* Within 10 days after the service of the petition upon an adverse party, he may reply thereto by filing a copy of the reply with the Board, with proof of service upon the petitioner.

(f) *Stay of effective date of order.* The filing of a petition under this section shall operate to stay the effective date of the Board order, unless it is otherwise ordered by the Board.

RULES APPLICABLE TO EMERGENCY PROCEEDINGS

§ 421.38 General.

(a) *Applicability.* This section shall apply to any order issued by the Administrator as an emergency order, or any order issued by the Administrator not designated as an emergency order, which is later amended to be an emergency order, as provided in § 609 of the Act, in cases where the respondent appeals or has appealed to the Board therefrom.

(b) *Effective date of emergency.* The procedure set forth in this section shall apply on the date when the Administrator's advice of the emergency character of his order has been received by the Office of Administrative Law Judges or by the Board.

(c) *Computation of time.* Time shall be computed in accordance with § 421.7, including the provision that Saturdays, Sundays, and legal holidays of the Board shall always be counted in the computation.

§ 421.39 Appeal, complaint, answer to the complaint, and motions.

(a) *Time within which to appeal.* Within 10 days after the service of the Administrator's emergency order on the certificate holder, he may file an appeal therefrom to the Board.

(b) *Form and content of appeal.* The appeal may be in the form of a letter to the Board signed by the aggrieved party. It shall identify the Administrator's order and the certificate affected, shall recite the Administrator's action from which the appeal is taken, and shall identify the issues of fact or law on which the appeal is based and the relief sought.

(c) *Complaint.* Within 3 days after receipt of the appeal from the Board, the Administrator shall file with the Board his emergency order as his complaint and severe a copy upon the respondent.

(d) *Answer to the complaint.* Within 5 days after service of the complaint upon respondent, he shall file his answer thereto. Failure to deny any allegation or allegations of the complaint may be deemed an admission of the allegation or allegations not answered.

(e) *Motion to dismiss and motion for more definite statement.* No motion to dismiss or for a more definite statement shall be made, but the substance thereof may be stated in the respondent's answer. The law judge may permit or require a more definite statement or other amendment to any pleading at the hearing, upon good cause shown and upon just and reasonable terms.

§ 421.40 Hearing and initial decision.

(a) *Notice of hearing.* Immediately upon the timely filing of the answer with the Board, or within the time set for such filing, the law judge shall set the date and place for hearing upon motion to the parties, not to exceed 7 days.

(b) *Initial decision.* The initial decision shall be made orally on the record at the termination of the hearing and after opportunity for oral argument. The provisions of § 421.32(b) and (d) shall be applicable, covering content, furnishing of a copy of the initial decision excerpted from the record, and issuance date.

(c) *Conduct of hearing.* The provisions of §§ 421.28, 421.29, and 421.30, covering evidence, argument and submissions, and record, shall be applicable.

(d) *Effect of law judge's initial decision.* If no appeal to the Board by either party, by motion or otherwise, is filed within the time allowed, the law judge's initial decision shall become final but shall not be deemed to be a precedent binding on the Board.

§ 421.41 Notice of appeal from initial decision, briefs, issues, and petitions for reconsideration.

(a) *Time within which to file a notice of appeal and content.* Within 2 days after the initial decision has been orally rendered, either party to the proceeding may appeal therefrom by filing with the Board and serving upon the other parties a notice of appeal. Exceptions are not required.

(b) *Brief and oral argument.* Within 5 days after the filing of the notice of appeal, the appellant shall file a brief with the Board and serve a copy upon the other parties. Within 5 days after service of the appeal brief, a reply brief may be filed with the Board and a copy served upon the other parties. The briefs shall comply with the requirements of § 421.35 (b), (c), (d), (e), (f), and (g), covering contents, waiver of objections on appeal, reply brief, other briefs, number of copies, and oral argument. Where oral argument is granted, the Board will give 3 days' notice of such oral argument.

(c) *Issues on appeal.* The provisions of § 421.36 shall apply to issues on appeal. However, the Board may on its own initiative raise any issue, the resolution of which it deems important to a proper disposition of the proceeding. In such case, not more than 2 days shall be afforded to the parties to submit argument thereon.

(d) *Petitions for reconsideration, rehearing, reargument, or modification of order.* The only petitions for reconsideration, rehearing, reargument, or modification of an order which the Board will entertain are petitions based on the ground that new matter has been discovered. Such petitions must set forth the following:

(1) The new matter;

(2) Affidavits of prospective witnesses, authenticated documents, or both, or an explanation of why such substantiation is unavailable; and

(3) A statement that such new matter could not have been discovered by the exercise of due diligence prior to the date the case was submitted to the Board.

Adopted by the National Transportation Safety Board at its office in Washington, D.C., on the 11th day of July 1973.

[SEAL] JOHN H. REED,
Chairman.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

ORGANIZATION, FUNCTIONS, AND DELEGATIONS OF AUTHORITY

Pursuant to the authority of the Administrator, Animal and Plant Inspection Service, appearing at 7 CFR 2.7 and 2.51, the following Statement of Organization, Functions, and Delegations of Authority of Animal and Plant Health Inspection Service is made:

ORGANIZATION AND FUNCTIONS

SECTION 1. *General.* Animal and Plant Health Inspection Service, hereinafter referred to as "APHIS," was created by the Secretary of Agriculture on April 2, 1972, (37 F.R. 6327; March 28, 1972).

SEC. 2. *Central office.* The central office of APHIS is located at Washington, D.C. and consists of the Office of the Administrator, Associate Administrator, and five Deputy Administrators as follows:

Office of the Administrator
Operations Review Staff
Planning and Evaluation Staff
Information Division
Associate Administrator
Deputy Administrator, Plant Protection and Quarantine
Deputy Administrator, Meat and Poultry Inspection, Field Operations
Deputy Administrator, Meat and Poultry Inspection, Scientific and Technical Services
Deputy Administrator, Veterinary Services
Deputy Administrator, Administrative Management

SEC. 3. *Field organizations.* The location of principal field offices is as follows for each major program:

PLANT PROTECTION AND QUARANTINE

Northeastern Region: Flynn Avenue and Park Boulevard Moorestown, New Jersey 08057
Western Region: Building 2-B, Room 103 620 Central Avenue Alameda, California 94501
Southeastern Region: 3505 25th Avenue Gulfport, Mississippi 39501
South Central Region: 400 Boca Chica Tower 2100 Boca Chica Boulevard Brownsville, Texas 78520
Mexico Region: Apartado Postal #815 Monterrey, N.L., Mexico

MEAT AND POULTRY INSPECTION, FIELD OPERATIONS

North Central Region: Room 419, United States Courthouse Building East 1st and Walnut Street Des Moines, Iowa 50309
Northeastern Region: 7th Floor 1421 Cherry Street Philadelphia, Pennsylvania 19102
Southeastern Region: Room 216 1718 Peachtree Street, N.W. Atlanta, Georgia 30309
Southwestern Region: Room 5-F41 1100 Commerce Street Dallas, Texas 75201
Western Region: Room 102, Building 2-C 620 Central Avenue Alameda, California 94501

MEAT AND POULTRY INSPECTION, SCIENTIFIC AND TECHNICAL SERVICES (LABORATORIES)

Room 612, Annex Building 12th & C Streets, S.W. Washington, D.C. 20250
Room 203, Stock Yards Section 4101 South Halsted Street Chicago, Illinois 60609
Room 417, Federal Building Kansas City, Kansas 66101
Room 1034 641 Washington Street, New York, New York 10014
Room 207, South Omaha Post Office 4730 South 24th Street Omaha, Nebraska 68107
941 United States Court and Customhouse Building 1114 Market Street St. Louis, Missouri 63101
630 Sansome Street, San Francisco, California 94111
Building 318 Agricultural Research Center Beltsville, Maryland 20705

Veterinary Services—Regional offices are not established for this program as supervision is provided by five regional directors, who are all located in the following rooms of 6505 Belcrest Road, Hyattsville, Maryland 20782:
North Central Region: Room 847
Northern Region: Room 841A
Southeastern Region: Room 847
South Central Region: Room 840
Western Region: Room 841A

SEC. 4. *The Office of the Administrator.*—(a) The Administrator. The Administrator of APHIS, under the direction of the Assistant Secretary for Marketing and Consumer Services, formulates, directs, and supervises the execution of APHIS policies, programs, and activities. The Administrator is authorized to execute any document, authorize any expenditure, and promulgate any rule, regulation, order or instruction required by law or deemed by him to be necessary and proper to the discharge of the functions assigned to APHIS and to delegate and provide for redelegation of his authority to appropriate officers and employees consistent with and with due regard to his personal responsibilities for the proper discharge of functions assigned to APHIS. Delegations and provision for redelegation are stated in section 13, 14, 15, 16, 17, and 18.

(b) *The Associate Administrator.* The Associate Administrator shares overall responsibility with the Administrator for the general direction and supervision of the programs and activities assigned to APHIS and is authorized to act for the Administrator in performing all functions for which the Administrator is responsible.

(c) *Deputy Administrator, Plant Protection and Quarantine.* The Deputy Administrator, Plant Protection and Quarantine, is responsible for:

(1) Participating with the Administrator in the overall planning and formulation of all policies, programs, and activities of APHIS; and

(2) Directing and coordinating the administration of the Plant Protection and Quarantine Program and related activities involving the Mexican Pink Bollworm Act, Sec. 102 of the Organic Act of 1944, as amended, the Act of April 3, 1937, as amended, the Mexican Border, Golden Nematode, Federal Plant Pest, Plant Quarantine, Terminal Inspection, Honeybee, and Halogeton Glomeratus Acts, and other related programs and activities. This program is carried out by two functional units, Program Development and Application, located in Hyattsville, Maryland, and the Training Facility located at Battle Creek, Michigan, and by regional and field offices; and

(3) Issuing regulations (including quarantines) pursuant to law relating to matters within his area.

(d) *Deputy Administrator, Meat and Poultry Inspection, Field Operations.* The Deputy Administrator, Meat and Poultry Inspection, Field Operations, is responsible for:

(1) Participating with the Administrator in the overall planning and formulation of al policies, programs, and activities of APHIS; and

(2) Directing and coordinating the administration of the Meat and Poultry Inspection program and related activities involving the Federal Meat Inspection Act, as amended, the Poultry Products Inspection Act, as amended, and other related programs and activities. This program is carried out by three functional staffs, the Compliance Staff and Foreign Programs Staff which are located in Washington, D.C., and the Program Training Staff which is located in Denton, Texas, and by regional and field offices. The directors of regional offices of this program are responsible for granting, refusing, suspending, or withdrawing inspection service in accordance with applicable provisions of the law(s) under which such service is required; and

(3) Participating with the Deputy Administrator, Meat and Poultry Inspection, Scientific and Technical Services, in the development of regulations relating to meat and poultry inspection.

(e) *Deputy Administrator, Meat and Poultry Inspection. Scientific and Technical Services.* The Deputy Administrator, Meat and Poultry Inspection, Scientific and Technical Services, is responsible for:

(1) Participating with the Administrator in the overall planning and formulation of all policies, programs, and activities of APHIS; and

(2) Directing and coordinating the establishment and maintenance of inspection standards and procedures, specifications for plant facilities and equipment, marking, labeling, and packaging of products, and providing chemical and biological laboratory services involving the Federal Meat Inspection Act, as amended, and the Poultry Products Inspection Act, as amended. The program is carried out through the Scientific Services Staffs, Technical Services Staffs, and Statistical Services Staff, all of which are located in Washington, D.C.; and

(3) Participating with the Deputy Administrator, Meat and Poultry Inspection, Field Operations, develops regulations relating to meat and poultry inspection.

(f) *Deputy Administrator, Veterinary Services.* The Deputy Administrator, Veterinary Services, is responsible for:

(1) Participating with the Administrator in the overall planning and formulation of all policies, programs, and activities of APHIS; and

(2) Directing and coordinating the administration of the Veterinary Services Program and related activities involving Sec. 306 of the Tariff Act of June 17, 1930, as amended; Act of August 30, 1890, as amended; Act of May 29, 1884, as amended; Act of February 2, 1903, as amended; Act of March 3, 1905, as amended; Act of February 28, 1947, as amended; Act of June 16, 1948; Act of September 6, 1961; Act of July 2, 1962; Act of May 6, 1970, Horse Protection Act; Animal Welfare Act, as amended; 28-Hour Law, as amended; Export Animal Accommodation Act, as amended; Pure Bred Animal Duty Free Entry Provisions of Tariff Act of June 17, 1930, as amended; Virus-Serum-Toxin Act; Anti-Hog-Cholera Serum and Hog-Cholera Virus Act. This program is carried out by three functional units, Programs Development and Application, Professional Development Staff, and Emergency Program Staffs and by regional and field offices; and

(3) Issuing regulations pursuant to law relating to matters within his area.

(g) *Deputy Administrator, Administrative Management.* The Deputy Administrator, Administrative Management, is responsible for:

(1) Participating with the Administrator in the overall planning and formulation of all policies, programs, and activities of APHIS; and

(2) Directing and coordinating the administration of the overall administrative management programs of APHIS including budget and finance, personnel, administrative services, management improvement, as necessary to meet the requirements of APHIS programs, and activities. These programs and activities are carried out by the Budget and Finance Division, Administrative Services Division, Personnel Division, and Management Improvement Division; and

(3) Coordination of civil rights in APHIS; and

(4) Coordination of General Accounting Office and Office of Inspector General audits; and

(5) The execution of cooperative agreements and Master Memoranda of Understanding; all agreements between APHIS and other agencies; all agreements which would require signature of more than one Deputy Administrator; and

(6) Approval for the Administrator of all foreign travel; and

(7) Approval for the Administrator of all attendance at international meetings.

SEC. 5. *Operations Review Staff.* The Operations Review Staff under the direction and supervision of the Administrator, is responsible for administrative reviews and line inspections of program operations to test implementation of policies, procedures, program administration, and accomplishment of program objectives.

SEC. 6. *Planning and Evaluation Staff.* The Planning and Evaluation Staff under the direction and supervision of the Administrator, is responsible for advising the Administrator in multiyear planning, programming, and evaluationg of APHIS activities toward stated goals.

SEC. 7. *Information Division.* The Information Division, under the direction and supervision of the Administrator, is responsible for planning and administering a public information program involving APHIS activities, and for cooperating with the Office of Communication in the overall information activities of the Department.

SEC. 8. *Plant Protection and Quarantine.* The units of the Program Development and Application and the Professional Development Staff, under the administrative direction of the Administrator and the functional and technical direction of the Deputy Administrator

V 38 I 137 JUL 18 73 XUM

for Plant Protection and Quarantine are responsible as follows:

(a) *Program Development and Application.* Program Development and Application is responsible for planning and administering the development and evaluation of programs; the establishment of standards, regulations, and model laws; development of methods and procedures; and other scientific and technical support for the Plant Protection and Quarantine programs.

(b) *Professional Development Staff.* The Professional Development Staff is responsible for:

(1) Identifying and evaluating development and training needs, and in the development and implementation of such programs for Plant Protection and Quarantine programs; and

(2) Developing and providing technical training in biological and related fields; and

(3) Providing training to foreign students; and

(4) Maintaining liaison with professional and technical institutions.

SEC. 9. *Meat and Poultry Inspection, Field Operations.* The Compliance, Program Training, and Foreign Programs Staffs under administrative direction of the Administrator and the functional and technical direction of the Deputy Administrator for Meat and Poultry Inspection, Field Operations are responsible as follows:

(a) *Compliance Staff.* The Compliance Staff is responsible for:

(1) Planning and conducting reviews of shipping, handling, and other allied industry engaged in the transportation, storage, and distribution of meat and poultry products in commerce to assure compliance with meat and poultry inspection laws, including monitoring of voluntary recalls of suspect meat and poultry products; and

(2) Planning and conducting technical evaluations of inspectional activities and operational practices, management attitudes, available facilities, and equipment of the meat and poultry processing industry; and

(3) Cooperating with States in the development of their compliance review programs and monitors their programs to assure they meet Federal requirements.

(b) *Program Training Staff.* The Program Training Staff is responsible for:

(1) Developing and implementing a program for training of Federal, State, and other personnel engaged in meat and poultry inspection programs; and

(2) Cooperating with APHIS personnel, State inspection officials, industry representatives, university officials, and others in planning and conducting training programs.

(c) *Foreign Programs Staff.* The Foreign Programs Staff is responsible for planning and conducting inspection of imported and exported meat and poultry products involving the review of foreign meat and poultry inspection systems and plants, followed by acceptance or rejection of these systems and plants for exporting meat and poultry products to the United States.

SEC. 10. *Meat and Poultry Inspection, Scientific and Technical Services.* The Scientific Services Staffs, Technical Services Staffs, and Statistical Services Staff under the administrative direction of the Administrator and the functional and technical direction of the Deputy Administrator for Meat and Poultry Inspection, Scientific and Technical Services are responsible as follows:

(a) *Scientific Services Staffs.* The Scientific Services Staffs are responsible for directing, coordinating, and controlling activities in chemistry, microbiology, pathology, toxicology, parasitology, epidemiology, and related fields, and in residue evaluation and planning that guides and supports the Meat and Poultry Inspection Program.

(b) *Technical Services Staffs.* The Technical Services Staffs are responsible for directing, coordinating, and controlling activities concerned with the development of standards, regulations, procedures, and instructions that will guide and support the Meat and Poultry Inspection Program.

(c) *Statistical Services Staff.* The Statistical Services Staff is responsible for providing analytical and consultative services in the field of statistics in support of the Meat and Poultry Inspection Program.

SEC. 11. *Veterinary Services.* Programs Development and Application, Emergency Program Staff, and Veterinary Services Programs under the administrative direction of the Administrator and the functional and technical direction of the Deputy Administrator, Veterinary Services, are responsible as follows:

(a) *Programs Development and Application.* The units of Program Development and Application are responsible for:

(1) Coordinating and controlling activities concerned with the development and evaluation of programs; and

(2) Establishing standards, regulations, and model laws; and

(3) Development of methods and procedures; and

(4) Providing scientific and technical support for the Veterinary Services programs.

(b) *Professional Development Staff.* The Professional Development Staff is responsible for:

(1) Identifying and evaluating staff development and training needs in veterinary services programs; and

(2) Developing and providing for technical training in veterinary medicine and related fields; and

(3) Administering veterinary accreditation program, including development of policies, procedures, and applicable regulations; and

(4) Providing training of foreign visitors; and

(5) Maintaining liaison with veterinary and other educational institutions.

(c) *Emergency Program Staffs.* The units of Emergency Program Staffs are responsible for:

(1) Directing an emergency program organization capable of controlling and eradicating outbreaks of foreign diseases and other hazards of animals; and

(2) Cooperating with certain foreign countries in the detection and control of animal diseases that are a potential hazard to the United States.

(d) *Veterinary Services Programs.* The Veterinary Services Programs are responsible for coordinating a regional program to protect the health of livestock, poultry, and other valued animal life through the:

(1) Detection, control and/or eradication of animal diseases and parasites; and

(2) Enforcement of quarantines governing the importation and exportation of live animals, semen, eggs, and other life animal tissues and specimens; and

(3) Enforcement of regulations governing the humane handling, care, and treatment of warm-blooded animals used for research, exhibition or held for sale as pets.

SEC. 12. *Administrative Management.* The Budget and Finance, Administrative Services, Personnel, and Management Improvement Divisions under the administrative direction of the Administrator and the functional and technical direction of the Deputy Administrator, Administrative Management are responsible as follows:

(a) *Budget and Finance Division.* The Budget and Finance Division is responsible for operating budgetary and financial management services and assistance to APHIS managers and program leaders in the areas of budget formulation, obligation estimates, allotments, accounting, fund control, and financial reporting.

(b) *Administrative Services Division.* The Administrative Services Division is responsible for operating administrative services and assistance to APHIS managers and program leaders in the areas of real and personal property management and utilization, procurement, records management, contracts and agreements, and related activities.

(c) *Personnel Division.* The Personnel Division is responsible for operating personnel management services and assistance to APHIS managers and program leaders in the areas of organization, position management, position classification, wage administration, recruitment and placement, equal employment opportunity, safety, and employee relations.

(d) *Management Improvement Division.* The Management Improvement Division is responsible for:

(1) Operating administrative services and assistance to APHIS managers and program leaders in the area of management system design, and improvement, automated data processing systems, and directives management; and

(2) Reviewing and recommending approval of the acquisition of all electronic data processing equipment proposed for use within APHIS prior to purchase.

DELEGATIONS OF AUTHORITY

SEC. 13. *Associate Administrator.* The Associate Administrator is hereby delegated the authority to perform all the duties and to exercise all the functions and powers which are now, or which may hereafter be, vested in the Administrator, including the power of redelegation except when prohibited, and including authority reserved to the Administrator outlined in Section 21 below. He is also authorized to act for the Administrator in his absence or from time to time when the Administrator is not available.

SEC. 14. *Deputy Administrators.* The Deputy Administrator, Plant Protection and Quarantine; the Deputy Administrator, Meat and Poultry Inspection, Field Operations; the Deputy Administrator, Meat and Poultry Inspection, Scientific and Technical Services; the Deputy Administrator, Veterinary Services; the Deputy Administrator, Administrative Management; and the officers they designate—with prior specific approval of the Administrator—to act for them, are hereby delegated the authority, severally, to perform all the duties and to exercise all the functions and powers which are now, or which may hereafter be, vested in the Administrator (including the power of redelegation except when prohibited) except such authority as is reserved to the Administrator. Each Deputy Administrator shall be primarily responsible for the programs and activities of the Animal and Plant Health Inspection Service herein or hereafter assigned to him.

SEC. 15. *Assistant Administrator.* The Assistant Administrator who directs the Operations Review Staff, is hereby delegated authority, in connection with the respective functions herein assigned to him, to perform all the duties and to exercise all the functions and powers which are now, or which may hereafter be, vested in the Administrator (including the power of redelegation except when prohibited) except such authority as is reserved to the Administrator.

SEC. 16. *Director, Planning and Evaluation Staff.* The Director of the Planning and Evaluation Staff is hereby delegated authority, in connection with the respective functions herein assigned to him, to perform all the duties and to exercise all the functions and powers which are now, or which may hereafter be, vested in the Administrator (including the power of redelegation except when prohibited) except such authority as is reserved to the Administrator.

SEC. 17. *Director, Information Division.* The Director of the Information Division is hereby delegated authority, in connection with the respective functions herein assigned to him, to perform all the duties and to exercise all the functions and powers which are now, or which may hereafter be, vested in the Administrator (including the power of redelegation except when prohibited) except such authority as is reserved to the Administrator.

SEC. 18. *Plant Protection and Quarantine, Meat and Poultry Inspection, Field Operations, Meat and Poultry Inspection, Scientific and Technical Services, Veterinary Services, Administrative Management.* The Directors of Program Development and Application, Professional Development Staff, Compliance Staff, Program Training, Foreign Programs Staff, Scientific Services Staffs, Technical Services Staffs, Statistical Services Staff, Programs Development and Application, Professional Development Staff, Emergency Program Staffs, Veterinary Services Programs are hereby delegated authority, in connection with the respective functions herein assigned to each of them, to perform all the duties and to exercise the functions and powers which are now, or which may hereafter be vested in the Administrator except the authorities reserved to the Administrator and Deputy Administrators. The Directors of Budget and Finance, Administrative Services, Personnel, and Management Improvement Divisions are hereby delegated authority in connection with the respective functions herein assigned to them, to perform all the duties and to exercise all the powers which are now, or which may be, vested in the Administrator except such authority as is reserved to the Administrator and Deputy Administrators.

SEC. 19. *Concurrent Authority and Responsibility to the Administrator.* No delegation or authorization prescribed herein shall preclude the Administrator, or each Deputy Administrator, from exercising any of the powers or functions or from performing any of the duties conferred upon them herein, and any such delegation or authorization is subject at all times to withdrawal or amendment by the Administrator, and in their respective fields, by each Deputy Administrator. The Officers to whom authority is delegated herein shall (a) maintain close working relationships with the officers to whom they report, (b) keep them advised with respect to major problems and developments, and (c) discuss with them proposed actions involving major policy questions or other important considerations or questions including matters involving relationships with other Federal agencies, other agencies of the Department, other Divisions and Staffs or offices of the Agency or other Governmental or private organizations or groups.

SEC. 20. *Prior Authorizations and Delegations.* All prior delegations and redelegations of authority relating to any functions, program, or activity covered by the Statement of Organization, Functions, and Delegations of Authority, shall remain in effect except as they are inconsistent herewith or are hereafter amended or revoked. Nothing herein shall affect the validity of any action heretofore taken under prior delegations or redelegations of authority or assignments of functions.

RESERVATION OF AUTHORITY

SEC. 21. *Reservation of Authority.* There is hereby reserved to the Administrator, or to the individual designated to act in his stead, the following:

(a) The initiation, change, or discontinuance of major program activities.

(b) The issuance of regulations pursuant to law, except as provided in Section 4 (c) and (f).

(c) The transfer of functions between Deputy Administrators.

(d) The transfer of funds between Deputy Administrators.

(e) The transfer of funds between work projects within each Deputy Administrator's area, except those not exceeding five percent of base funds or $50,000 in either work project, whichever is less.

(f) The approval of any change in the formal organization including a section, its equivalent, or higher level.

(g) The making of recommendations to the Department concerning establishment, consolidation, change in location, or abolishment of (1) regional, state, area, and other field headquarters offices, and (2) any region or other program area that involves two or more States, or that crosses State lines, except Plant Protection and Quarantine districts and Meat and Poultry Inspection circuits which are under the authority of the respective Deputy Administrators.

(h) Authority to establish, consolidate, or change a location, or abolish any field office or change program area boundaries not included in (g) above.

(i) Approval of all appointments, promotions, and reassignments in GS–14 and above.

(j) Authorization for foreign travel, and approval of attendance at international and foreign meetings including those held in the United States.

(k) Approval of all appointments, promotion, and reassignments of employees to foreign countries.

(l) Approval of budget estimates.

(m) Authority to issue subpoenas relating to the efficient administration and enforcement of the Federal Meat Inspection Act, as amended, and Poultry Products Inspection Act, as amended, pursuant to 15 U.S.C. 49 as authorized by 21 U.S.C. 677 and 21 U.S.C. 467d.

AVAILABILITY OF INFORMATION AND RECORDS

SEC. 22. *Availability of Information and Records.* Any person desiring information or to make submittals or requests with respect to the programs and functions of the Agency should address his request to the appropriate Deputy Administrator, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250. The availability of information and records of the Agency and its offices is governed by the rules and regulations as published in the Code of Federal Regulations, Title 7, Chapter III, Part 370.

Issued at Washington, D.C., this 13th day of July, 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

MAYO FOUNDATION

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00470-01-06200. APPLICANT: Mayo Foundation, 200 First Street Southwest, Rochester, Minn. 55901. ARTICLE: Vickers multichannel 300 automated analysis system. MANUFACTURER: Vickers Ltd., Medical Engineering of Basingstoke, United Kingdom. INTENDED USE OF ARTICLE: The article is intended to be used in a diagnostic clinical chemistry laboratory to perform quantitative analysis of plasma for chemical constituents, alteration of which are indicative of disease processes. In addition to the clinical use, the article will be used to support ongoing research and education programs at the Institution. COMMENTS: No comments have been received with respect to this application. DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. REASONS: The applicant's use in various clinical research projects such as correlations of biomedical data with studies of cancer and metabolic diseases requires high-speed automated blood chemical analysis system of very large capacity. The foreign article is capable of analyzing 300 samples per hour. The Department of Health, Education, and Welfare (HEW) advised in memorandum dated June 22, 1973 that the capability described above is pertinent to the purposes for which the article is intended to be used. HEW also advised that domestic analyzers do not match the pertinent specifications of the article.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director, Special Import Programs Division.

MAYO FOUNDATION ET AL.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Ultramicrotomes

The following is a consolidated decision on applications for duty-free entry of ultramicrotomes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 73-00480-33-46500. Applicant: Mayo Foundation, Mayo Medical School, and Mayo Graduate School of Medicine, 200 First Street SW., Rochester, Minn. 55901. Article: Ultramicrotome, model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of muscle biopsy specimens from human and experimental muscle diseases to reveal the ultrastructural basis of the diseases that are being studied. In addition, the article will be used in training of independent investigators enrolled in the Mayo Graduate School of Medicine in research in muscle diseases. Application received by Commissioner of Customs: April 1973. Advice submitted by Department of Health, Education, and Welfare on: June 22, 1973.

Docket Number: 73-00482-33-46500. Applicant: University of Alabama Medical School, University Station, Birmingham, Ala. 35294. ARTICLE: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in experiments concerned with calcification and resulting hardening of the arteries, as well as other related pathological conditions. The materials to be examined will be primarily the aorta and connective tissue proteins obtained from the aorta. Application received by Commissioner of Customs: April 20, 1973. Advice Submitted by Department of Health, Education, and Welfare on: June 22, 1973.

Docket Number: 73-00483-33-46500. Applicant: University of Minnesota, Purchasing Department, 2610 University Avenue, St. Paul, Minn. 55114. ARTICLE: Ultramicrotome, model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of biological, mainly human tissue but also mammalian tissues derived from experimental animals. The investigations to be conducted include the study of (a) gingival inflammation, (b) immunological responses in the periodontal tissues to various bacteria and (c) dental plaque formation. Application received by Commissioner of Customs: April 20, 1973. Advice Submitted by Department of Health, Education, and Welfare on: June 22, 1973.

Docket Number: 73-00487-33-46500. Applicant: Veterans Administration Hospital, 13000 North 30th Street, Tampa, Fla. 33612. Article: LKB 8800A. Ultrotome III Ultramicrotome. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in experiments which include experiments on the normal, physiological behavior of cells and tissues in regard to the transport and ingestion of macromolecules. In addition, variations in the behavior of cells and tissues under experimental pathological conditions will be studied. Application Received by Commissioner of Customs: April 24, 1973. Advice Submitted by Department of Health, Education, and Welfare on: June 22, 1973.

Comments: No comments have been received with respect to any of the foregoing applications.

Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles for such purposes as these articles are intended to be used, is being manufactured in the United States.

Reasons: Each of the foreign articles provides a range of cutting speeds from 0.1 to 20 millimeters per second. The most closely comparable domestic instrument is the Model MT-2B ultramicrotome which is manufactured by Ivan Sorvall, Inc. (Sorvall). The Model MT-2B has a range of cutting speeds from 0.09 to 3.2 millimeters per second. The conditions for obtaining high-quality sections that are uniform in thickness, depend to a large extent on the hardness, consistency, toughness and other properties of the specimen materials, the properties of the embedding materials, and geometry of the block. In connection with a prior application (Docket Number 69-00665-33-46500), which relates to the duty-free entry of an article that is identical to those to which the foregoing applications relate, the Department of Health, Education, and Welfare (HEW) advised that "Smooth cuts are obtained when the speed of cutting, (among such [other] factors as knife edge condition and angle), is adjusted to the characteristics of the material being sectioned. The range of cutting speeds and a capability for the higher cutting speeds is, therefore, a pertinent characteristic of the ultramicrotome to be used for sectioning materials that experience has shown difficult to section." In connection with another prior application (Docket No. 70-00077-33-46500) which also relates to an article that is identical to those described above, HEW advised that "ultrathin sectioning of a variety of tissues having a wide range in density, hardness etc." requires a maximum range in cutting speed and, further, that the "production of ultrathin serial sections of specimens that have a great variation in physical properties is very difficult." Accordingly, HEW advises in its respectively cited memoranda, that cutting speeds in excess of 4 millimeters per second are pertinent to the satisfactory sectioning of the specimen materials and the relevant embedding materials that will be used by the applicants in their respective experiments.

For these reasons, we find that the Sorvall Model MT-2B ultramicrotome is not of equivalent scientific value to the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director, Special Import Programs Division.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before August 7, 1973.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 73-00589-98-20700. Applicant: The Ohio State University, 190 North Oval Drive, Columbus, OH 43210. Article: 14 PEMG2 Lead Glass Blocks. Manufacturer: Ohara Glass, Japan. Intended use of article: The article is intended to be used as shower detectors to measure gamma rays from the reaction of interest in a high statistics study of *W*-Meson productions. Application received by Commissioner of Customs: June 22, 1973.

Docket Number: 73-00590-98-20700. Applicant: Michigan State University, Physics Department, East Lansing, Michigan 48823. Article: 14 PEMG2 Lead Glass Blocks. Manufacturer: Ohara Glass, Japan. Intended use of article: The articles are to be used in high energy experiments to measure the energy of gamma rays. Application received by Commissioner of Customs: June 22, 1973.

Docket Number: 73-00591-90-46500. Applicant: University of Wisconsin, Purchasing Department, 750 University Avenue, Madison, Wisconsin 53706. Article: Ultramicrotome, Model Om U3. Manufacturer: C. Reichert Optische Werke AG, Austria. Intended use of article: The article is intended to be used to section a variety of materials including insects, fungi, vascular plants, algae, viruses, symbionts, bacteria, nematodes and diseased plant and animal (insect) specimens. These materials will be examined by the electron microscope in the following research areas:

(1) Ultrastructure of host-pathogen relationships,
(2) Characterization of the nature of virus induced inclusions,
(3) Localization and studies on sites of virus synthesis,
(4) Ultrastructure of receptor sites in insects, and
(5) Ultrastructure of fungi, e.g., microbodies, mitosis and meiosis.

In addition the article is to be used for the training of electron microscopists.

Application received by Commissioner of Customs: June 22, 1973.

Docket Number: 73-00592-33-46040. Applicant: The University of Texas Medical School at Houston, 243 John H. Freeman Bldg., Texas Medical Center, Houston, Texas 77025. Article: Electron Microscope, Model JEM 100B. Manufacturer: JEOL Ltd., Japan. Intended use of Article: The article is intended to be used in experiments to be conducted which will include: differentiation of forms of glomerulonephritis by ultramicroscopic means, the classification and categorization of white cell granules, the classification for prognostic purposes of soft tissue neoplasms, tissue changes (transformation) induced by normally non-pathogenic viruses, subtle changes induced in cell organelles and enzyme distribution in the process of aging, intracellular localization of tagged antibody molecules and the fine detail of ribosome-membrane defects induced by lipid peroxidation and its prevention by biological antioxidants. Application received by Commissioner of Customs: June 22, 1973.

Docket Number: 73-00593-33-43780. Applicant: UNC-CH, Carolina Population Center, International Fertility Research Program, NCNB Plaza, 136 East Rosemary Street, Chapel Hill, North Carolina 27514. Article: 10,000 Spring Coil IUD's, 1,000 Combination Sound/Dilators and 1 stainless steel mold. Manufacturer: Ekder Plastic Works, Hong Kong. Intended use of article: The articles are to be used in a study (1) to determine the most desirable IUD over a two-year period of time among persons without gynecologic abnormalities who have not previously used an intrauterine device and who are in one of the following categories:

(a) Immediate post-abortion period,
(b) Immediate post-delivery period,
(c) Not recently pregnant state (multigravida), or
(d) Nulligravida, and

(2) To profile the continuation rates and specific complications of each IUD. Application received by Commissioner of Customs: June 22, 1973.

Docket Number: 73-00594-01-20800. Applicant: University of Hawaii, Department Of Biochemistry and Biophysics, 1960 East West Road, Honolulu, Hawaii 96822. Article: Quartz Dewar. Manufacturer: Canamec Scientific Glassblowing Ltd., Canada. Intended use of Article. The article is intended to be used for studies of fluorescence polarization spectra of proteins and amino acids at low temperatures in the ultra-violet region to learn more of the conformational flexibility of proteins, which will aid in understanding better the mechanism of enzyme action. Application received by Commissioner of Customs: June 26, 1973.

Docket Number: 73-00595-65-46070. Applicant: University of Wisconsin, Department of Geology, Science Hall, Madison, Wisconsin 53706. Article: Scanning Electron Microscope, Model JSM-50A. Manufacturer: JEOL Ltd., Japan. The article is intended to be used in the study of clay minerals and other layer-lattice minerals (micas, chlorite) to determine on as fine a scale as possible the chemical and mineralogical homogeneity of these materials and the relationship of any variation to the physical form of crystallites. Another application of the article will be to study the relationship between composition and crystal imperfections in thin films of materials such as aluminum or gold. The article will also be used in the course, Geology 349, Electron Microprobe Analysis, to teach students and interested staff members how to use the electron probe to obtain elemental analysis data and how to handle the data collected to obtain quantitative results. Application received by Commissioner of Customs: June 15, 1973.

Docket Number: 73-00597-01-10100. Applicant: The Johns Hopkins University, Charles and 34th Street, Baltimore, Maryland 21218. Article: Messanlagen Temperature-Jump Transient Spectrophotometer. Manufacturer: Messanlagen Studiengesellschaft mbH., West Germany. Intended use of article: The article is intended to be used to study the time course of the protein unfolding processes, and examine its implication to the conformational aspect of protein molecule. Fluorescence kinetic measurement will also be carried out in this study. The article will also be used for the instruction of rapid kinetic technique to graduate and medical students in the

V 38 I 137 JUL 18 73 XUM

course entitled "Physical Biochemistry." Application received by Commissioner of Customs: June 27, 1973.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6 (c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before August 7, 1973.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 73-00577-33-46040. Applicant: Yale University, Purchasing Department, New Haven, Connecticut 06520. Article: Electron Microscope, Model EM 301. Manufacturer: Philips Electronic Instruments, NVD., The Netherlands. Intended use of article: The article is intended to be used for studies of animal (including human) tissues, cells and subcellular components in the investigation of the following phenomena: (1) structural aspects of capillary permeability in the heart, kidney, intestine and other organs; (2) changes introduced in the blood vessels by inflammation and degenerative vascular disease (arteriosclerosis); (3) pathway followed across the vessels' wall by particulate or molecular tracers. The article will also be used in part in advanced training in research at the postdoctoral fellow and research associate level. Application received by Commissioner of Customs: June 18, 1973.

Docket Number: 73-00586-33-46040. Applicant: University of Delaware, Newark, Delaware 19711. Article: (2) Two Electron Microscopes, Model EM 201 and (1) One Goniometer Stage. Manufacturer: Philips Electronic Instruments, NVD, The Netherlands. Intended use of article: The articles are intended to be used in experiments consisting of basic biological studies involving the preparation of material for (a) thin-section examination of lower vertebrate tumors, and of infectious processes in reptilian cell lines at varying temperatures, (b) morphological analysis of host-virus interaction in a blue-green algal system, (c) studying properties of cellular membranes during active intake and egestion of materials, (d) determining the content and purity of cell fractions, (e) training of students in use of high-resolution electron microscopy of biological materials. The articles will also be used in the course B-617, "Laboratory Techniques for Electron Microscopy." Application received by Commissioner of Customs: June 19, 1973.

Docket Number: 73-00587-33-46500. Applicant: Virginia Commonwealth University, Medical College of Virginia, Box 17, Room 530, MEB, Division of Neuropathology, Richmond, Virginia 23298. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in ultrastructural research on both animal and human (biological) material. Animal tissue is used in studies of experimentally produced diseases of the nervous system and in studies of subcellular fractions of brain prepared for use in neurochemistry experiments. Application received by Commissioner of Customs: June 20, 1973.

Docket Number: 73-00588-33-46500. Applicant: The University of Michigan, 1335 E. Catherine Street, Ann Arbor, Michigan 48104. Article: Ultramicrotome, Model Om U3. Manufacturer: C. Reichert Optische Werke AG., Austria. Intended use of article: The article is intended to be used to section areas of tissue which have been preselected from 1 micron-thick sections-serial thin sections of leukemic cells and other neoplastic tissue of the preselected areas will be cut for viewing in the electron microscope. The work to be carried out will be part of research projects involving the ultrastructure of the organelles of human leukemic and other neoplastic cells. The article will also be used to cut serial thin sections of renal biopsies from patients in the hospital and to cut thin sections of other tissue biopsies from patients. The article will also be used in a course for advanced medical students, graduate students, residents and faculty in the Department of Pathology and other departments. Application received by Commissioner of Customs: June 20, 1973.

Notice of Consolidated Decision on Applications for Duty Free Entry of Image Analyzing Computers

The following is a consolidated decision on applications for duty-free entry of Image Analyzing Computers pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892) et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket Number: 73-00465-33-14200. Applicant: University of Iowa, College of Dentistry, Iowa City, Iowa 52242. Article: Image Analyzing Computer, Quantimet 720. Manufacturer: Image Analysing Computers, Ltd., United Kingdom. Intended use of article: The article is intended to be used for quantitative image analysis in the following research projects:

(1) Distribution and Dynamics of Blood Flow in Gingiva,

(2) Patterns of Organization of Skin and Mucosa,

(3) Quantitative Microradiography of Enamel, Dentin and Bone, and

(4) Quantitative Ultrastructural studies. Application Received by Commissioner of Customs: April 9, 1973. Advice Submitted by Department of Health, Education, and Welfare on: June 22, 1973.

Docket Number: 73-00474-33-14200. Applicant: Department of Health, Education, and Welfare, 944 Chestnut Ridge Road, Morgantown, W. Va. 26505. Article: Image analyzing computer system, quantimet 720. Manufacturer: Metals Research Ltd., United Kingdom. Intended use of article: The article is intended to be used in the biological study of human lung specimens. This study includes quantitative measurements of the lung (which includes alveolar diameter, circumference, area, appropriate measurements of the airways, quantitative measurements of emphysematic lungs) and compare these with similar measurements made on standard specimens. The article will also be used for the explicit training of graduate and postdoctorate students from the University of West Virginia in pulmonary pathology, how these measurements are related to the function of the human lung and how the change in these features is significant in the course of various diseases, including coal workers; pneumoconiosis, asbestosis, emphysema, and others. Application received by Commissioner of Customs: April 16, 1973. Advice submitted by Department of Health, Education, and Welfare on: June 22, 1973.

Comments: No comments have been received with respect to any of the foregoing applications.

Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for such purposes as these articles are intended to be used, is being manufactured in the United States.

Reasons: Each foreign article provides 720 line resolution and discriminates better than 30 levels in the grey scale from

black to white. The Department of Health, Education, and Welfare (HEW) advised in its respectively cited memoranda that the characteristics described above are pertinent to the purposes for which each article is intended to be used. HEW further advises that domestic instruments do not match the pertinent specifications of the article.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director, Special Import Programs Division.

GOVERNMENT-OWNED INVENTIONS

National Technical Information Service

Notice of Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for licensing in accordance with the GSA Patent Licensing Regulations.

Copies of Patent applications, either paper copy (PC) or microfiche (MF), can be purchased from the National Technical Information Service (NTIS), Springfield, Virginia 22151, at the prices cited. Requests for copies of patent applications must include the PAT-APPL number and the title. Requests for licensing information should be directed to the address cited with each copy of the patent application.

Paper copies of patents cannot be purchased from NTIS but are available from the Commissioner of Patents, Washington, D.C. 20231, at $0.50 each. Requests for licensing information should be directed to the address cited below for each agency.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. FDC-D-648; NDA 2-133, Etc.]

BURROUGHS WELLCOME CO., ET AL.

New Drug Applications; Notice of Withdrawal of Approval

The holders of the new-drug applications listed herein have not submitted annual reports of experience with the drugs as required, have advised the Food and Drug Administration that marketing of the drugs involved has been discontinued, and have requested withdrawal of approval of the new drug applications, thereby waiving opportunity for a hearing.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505(e), 52 Stat. 1053 as amended; 21 U.S.C. 355(e)), and under authority delegated to the Commissioner (21 CFR 2.120), approval of the following new-drug applications, and supplements thereto, is hereby withdrawn on the grounds that the applicants have failed to make reports under section 505(j) of the Act (21 U.S.C. 355(j)) and § 130.13 or § 130.35 (e) and (f) of the new-drug regulations (21 CFR 130.31 and 130.35).

NDA Number	Drug Name	Applicant's Name and Address
2-133	Ryzamin-B Powder (thiamine chloride, riboflavin, vitamin B-6, and nicotinic acid)	Burroughs Wellcome Co. 3030 Cornwallis Road Research Triangle Park, North Carolina 27709
7-152	Dodecavite Injection (Crystalline vitamin B-12)	USV Pharmaceutical Corporation 1 Scarsdale Road Tuckahoe, New York 10707
9-379	Cortef Injection, Intravenous (hydrocortisone)	The Upjohn Company Kalamazoo, Michigan 49001
10-207	Dexserpine "5" Tablets (reserpine, dextroamphetamine sulfate)	USV Pharmaceutical Corporation 1 Scarsdale Road Tuckahoe, New York 10707
10-282	Reserpine Nyscaps (Timed Disintegration Capsules)	USV Pharmaceutical Corporation 1 Scarsdale Road Tuckahoe, New York 10707
10-316	C.S.A. Tablets (salicylamide, acetaminophen, caffeine citrate)	International Playtex Corporation 888 Seventh Avenue New York, New York 10019
10-583	Radio-Cobalt (Co^{60}) Interstitial Needles	Abbott Laboratories North Chicago, Illinois 60064
10-887	Resciunamine Tablets	USV Pharmaceutical Corporation 1 Scarsdale Road Tuckahoe, New York 10707
11-140	Delvex Tablets (dithiazanine iodide)	The Lilly Research Laboratories Eli Lilly and Company Indianapolis, Indiana 46206

[DESI 6902; Docket No. FDC-D-597; NDA 12-410]

ROCHE LABORATORIES

Capsules Containing Nicotinyl Alcohol as the Tartrate and Trimethobenzamide Hydrochloride; Notice of Withdrawal of Approval of New Drug Application

A notice was published in the FEDERAL REGISTER of March 5, 1973 (38 FR 5920) extending to Roche Laboratories, Division of Hoffmann-La Roche, Inc., 340 Kingsland Street, Nutley, N.J. 07110 and to any interested person an opportunity for hearing on the proposal of the Commissioner of Food and Drugs to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act withdrawing approval of NDA 12-410 for Tigacol Capsules (nicotinyl alcohol as the tartrate and trimethobenzamide hydrochloride). The basis of the proposed action was the lack of substantial evidence that the drug is effective for its labeled indications.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, October 21, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

Neither the holder of the application nor any other person filed a written appearance of election within the 30 days provided by said notice. The failure to file such an appearance constitutes election by such persons not to avail themselves of an opportunity for hearing.

The Commissioner of Food and Drugs, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355) and the Administrative Procedure Act (5 U.S.C. 554), and under the authority delegated to him (21 CFR 2.120), finds that on the basis of new information before him with regard to the drug, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

V 38 I 137 JUL 18 73 XUM

Therefore, pursuant to the foregoing finding, approval of new drug application No. 12–410 and all amendments and supplements thereto is withdrawn effective on July 30, 1973.

Shipment in interstate commerce of the above-listed drug product or of any identical, related, or similar product, not the subject of an approved new drug application, will be henceforth unlawful.

Dated: July 11, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

BLADDER-PROSTATE CANCER ADVISORY COMMITTEE

Notice of Meeting

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the Bladder-Prostate Cancer Advisory Committee, National Cancer Institute, July 24, 1973, 9:00 a.m. to 1:00 p.m., Conference Room, Massachusetts General Hospital, Boston, Massachusetts. This meeting will be closed to the public to review individual grant applications in accordance with the provisions set forth in section 552(b)4 of Title 5, U.S.C., and 10(d) of P.L. 92–463.

Mr. Frank Karel, Associate Director for Public Affairs, NCI, Building 31, Room 10A31, National Institutes of Health, Bethesda, Maryland 20014 (301/496–1911) will furnish summaries of the closed meeting and roster of committee members.

Dr. Thomas J. King, Executive Secretary, Westwood Building, Room 853, National Institutes of Health, Bethesda, Maryland 20014 (301/496–7194) will provide substantive program information.

Dated: July 7, 1973.

JOHN F. SHERMAN,
Deputy Director, National Institutes of Health.

(Catalog of Federal Domestic Assistance Program No. 13.391, National Institutes of Health.)

BIOASSAY SEGMENT ADVISORY GROUP

Notice of Meeting

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the Bioassay Segment Advisory Group, National Cancer Institute, July 19, 1973, 1:00 p.m. to 5 p.m. and July 20, 1973, from 9:00 a.m. to 4:30 p.m., National Institutes of Health, Landow Building, Conference Room 418C. This meeting will be open to the public from 1:30 p.m. to 4:30 p.m. on July 20, 1973, to discuss the Bioassay Program within the context of the Carcinogenesis Area, experimental design for proper bioassay, and the concept of a Bioassay Prime Contract, and closed to the public from 1:00 p.m. to 5:00 p.m. on July 19, 1973 and from 9 a.m. to 12:30 p.m. on July 20, 1973, for the review of three contracts in the fields of chemical and physical agents, in accordance with the provisions set forth in section 552(b) 4 of Title 5 United States Code and section 10(d) of P.L. 92–463. Attendance by the public will be limited to space available.

Mr. Frank Karel, Associate Director for Public Affairs, NCI, Building 31, Room 10A31, National Institutes of Health, Bethesda, Maryland 20014 (301/496–1911) will furnish summaries of the open/closed meeting and roster of committee members.

Dr. James M. Sontag, Executive Secretary, Landow Building, Room B–304, National Institutes of Health, Bethesda, Maryland 20014 (301/496–5472) will provide substantive program information.

Dated: July 7, 1973.

JOHN F. SHERMAN,
Deputy Director, National Institutes of Health.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No. NFD–108]

NEW HAMPSHIRE

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11725 of June 27, 1973; and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D–73–238; and by virtue of the Act of December 31, 1970, entitled "Disaster Relief Act of 1970" (84 Stat. 1744), as amended by Public Law 92–209 (85 Stat. 742); notice is hereby given that on July 11, 1973, the President declared a major disaster as follows:

I have determined that the damage in certain areas of the State of New Hampshire from severe storms and flooding, beginning about June 26, 1973, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 91–606. I therefore declare that such a major disaster exists in the State of New Hampshire. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11725, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D–73–238, to administer the Disaster Relief Act of 1970 (Public Law 91–606, as amended), I hereby appoint Mr. John F. Sullivan, HUD Region 1, to act as the Federal Coordinating Officer to perform the duties specified by Section 201 of that Act for this disaster.

I do hereby determine the following areas in the State of New Hampshire to have been adversely affected by this declared major disaster:

The Counties of:

Belknap	Hillsborough
Carroll	Merrimack
Cheshire	Rockingham
Coos	Strafford
Grafton	Sullivan

Dated: July 11, 1973.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

ATOMIC ENERGY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON LOFT

Notice of Meeting

JULY 16, 1973.

The FEDERAL REGISTER notice published at 38 FR 18480 (July 11, 1973), announcing the July 25, 1973 meeting of the Advisory Committee on Reactor Safeguards' Subcommittee on LOFT, is revised to change the location of the meeting from the Basement Conference Room of the AEC Idaho Operations Office at Holmes Avenue and Second Street in Idaho Falls to the Conference Room of the Ponderosa Inn at 888 North Holmes in Idaho Falls. There are no other changes to the July 11, 1973 Notice of Meeting.

JOHN C. RYAN,
Acting Advisory Committee Management Officer.

[FR Doc.73–14886 Filed 7–17–73;8:45 am]

[Docket No. 50–261]

CAROLINA POWER & LIGHT CO.

Opportunity for Hearing

The Carolina Power and Light Company (the licensee) is the holder of Operating License No. DPR–23 (the operating license), issued by the Atomic Energy Commission on July 31, 1970. The operating license authorizes the licensee to possess, use, and operate a pressurized water nuclear reactor, designated as the H. B. Robinson Unit No. 2, at steady-state power levels up to a maximum of 2200 megawatts (thermal) at the licensee's site in Darlington County, South Carolina, in accordance with technical specifications appended thereto.

The facility is subject to the provisions of section B of Appendix D to 10 CFR Part 50, which sets forth procedures applicable to review of environmental considerations for production and utilization facilities for which construction permits or operating licenses were issued in the period January 1, 1970–September 9, 1971. Notice is hereby given, pursuant to the Commission's rules of practice, in 10 CFR Part 2, and Appendix D of 10 CFR Part 50, "Implementation of the National Environmental Policy Act of 1969," that the Commission is providing an opportunity for hearing with respect to whether, considering those matters covered by Appendix D to 10 CFR Part 50, the existing full-term facility operating license should be continued, modified, terminated or appropriately conditioned to protect environmental values. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's rules of practice in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed within the time prescribed in this notice, the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel will rule on the request and/or petition and the Secretary of the Commission or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

A petition for leave to intervene must be filed under oath or affirmation in accordance with the provisions of 10 CFR 2.714. As required by 10 CFR 2.714, a petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) the nature of the petitioner's right under the Atomic Energy Act of 1954, as amended ("the Act"), to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

A request for a hearing or a petition for leave to intervene must be filed either by mail with the Office of the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, or by delivery to the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., not later than August 17, 1973. A petition for leave to intervene which is not timely will not be granted unless the Commission, the presiding officer, or the Atomic Safety and Licensing Board designated to rule on the petition or request determines that the petitioner has made a substantial showing of good cause for failure to file on time and after the consideration of those factors specified in 10 CFR 2.714(a).

For further details with respect to the matters under consideration, see (1) the licensee's Environmental Report dated November 5, 1971, and (2) the Commission's draft environmental statement on environmental considerations pursuant to 10 CFR Part 50, Appendix D, dated April 1973, both of which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Hartsville Memorial Library, Home and Fifth Avenues, Hartsville, South Carolina 29550.

The Commission's final detailed statement on environmental considerations will also be available at the above locations upon issuance. A copy of this item may be obtained when available by request to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director of Licensing.

Dated at Bethesda, Maryland, this 6th day of July 1973.

For the Atomic Energy Commission.

A. BURGER,
Acting Chief, Operating Reactors Branch No. 1, Directorate of Licensing.

[FR Doc.73–14302 Filed 7–17–73;8:45 am]

[Docket No. 50–213]

CONNECTICUT YANKEE ATOMIC POWER CO.

Proposed Issuance of Full-Term Facility Operating License and Opportunity for Hearing

On July 13, 1971, a notice of proposed issuance of a full-term operating license was published by the Atomic Energy Commission (the Commission) in the FEDERAL REGISTER (36 FR 13051) in the captioned proceeding. That Notice provided an opportunity to intervene with respect to the proposed action specified in the Notice to persons whose interests may be affected by the proceeding. No request for a hearing by the applicant or petition for leave to intervene by any interested person was filed with the Commission pursuant to the notice.

The proposed full-term facility operating license would authorize Connecticut Yankee Atomic Power Company (the licensee) to possess, use and operate the Haddam Neck Plant (the facility), located in the town of Haddam, Middlesex County, Connecticut, at its presently licensed steady state power levels up to 1825 megawatts (thermal) in accordance with the provisions of the proposed facility license and the Technical Specifications appended thereto.

The proposed full-term operating license, which would bear the same number, would supersede the existing Provisional Operating License No. DPR–14, and be effective for a period of 40 years from the date of issuance of Construction Permit No. CPPR–14.

The full-term license will not be issued until the Commission has made the findings, reflecting its review of the application under the Atomic Energy Act of 1954, as amended, which will be set forth in the proposed license, and has concluded that the issuance of the license will not be inimical to the common defense and security or to the health and safety of the public. The licensee has satisfied its obligation concerning indemnification as required by section 170 of the Act and 10 CFR Part 140 of the Commission's regulations. Therefore, the license would only be issued upon the completion of the environmental review required by the Commission's regulations in 10 CFR Part 50, Appendix D. The facility has been operated since June 30, 1967, under Provisional Operating License No. DPR–14.

Notice is hereby given, pursuant to 10 CFR Part 2, Rules of Practice, and Revised Appendix D of 10 CFR Part 50, Implementation of the National Environmental Policy Act of 1969, that the Commission is providing an opportunity for a hearing with respect to whether, considering those matters covered by Appendix D to 10 CFR Part 50, the proposed full-term operating license should be issued as proposed or appropriately conditioned to protect environmental values.

On or before August 17, 1973 the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a petition for leave to intervene with respect to the issuance of a full-term facility operating license. Requests for a hearing and petitions to intervene shall be filed in accordance with the Commission's rules of practice in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed within the time prescribed in this notice, the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel will rule on the request and/or petition and the Secretary or the designated atomic safety and licensing board will issue a notice of hearing or an appropriate order.

A petition for leave to intervene must be filed under oath or affirmation in accordance with the provisions of 10 CFR 2.714. As required by 10 CFR 2.714, a petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) the nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets

V 38 I 137 JUL 18 73 XUM

forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

A request for a hearing or a petition for leave to intervene must be filed with the Office of the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention Chief, Public Proceeding Staff not later than August 13, 1973. Such requests or petitions may be delivered to the Commission's Public Document Room, 1717 H Street, N.W. Washington, D.C. A petition for leave to intervene which is not timely will not be granted unless the Commission, the presiding officer, or the Atomic Safety and Licensing Board designated to rule on the petition or request determine that the petitioner has made a substantial showing of good cause for failure to file on time and after consideration of those factors specified in 10 CFR 2.714(a).

This notice supersedes the notice of proposed issuance published on July 13, 1971, with respect to the matters which may be raised under Appendix D of 10 CFR Part 50, but does not provide an additional opportunity to any person to intervene on the basis of, or to raise matters encompassed within, the issues pertaining to radiological health and safety and the common defense and security specified in the prior above-referenced notice of proposed issuance.

For further details pertaining to the matter under consideration, see the licensee's Environmental Report dated June 27, 1972, and the Commission's draft environmental statement on environmental considerations pursuant to 10 CFR Part 50, Appendix D, dated March 1973, both of which are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Russell Library, 119 Broad Street, Middletown, Connecticut 06487. When available, the Commission's final detailed statement on environmental considerations will also be available at the above locations.

A copy of the final detailed statement on environmental considerations may be obtained when available by request to the U.S. Atomic Energy Commission, Washington, D.C., 20545, Attention: Director of Licensing.

Dated at Bethesda, Maryland, this 6th day of July 1973.

For the Atomic Energy Commission.

A. BURGER,
Acting Chief, Operating Reactors Branch #1, Directorate of Licensing.

[Docket No. 50-382]

LOUISIANA POWER AND LIGHT CO.

Notice of Reconstitution of Board

Dr. Gerard A. Rohlich was a member of the Atomic Safety and Licensing Board established to consider the above application. Dr. Rohlich is unable to continue his service as a member of the Board.

Accordingly, Dr. J. V. Leeds, Jr., who was the technically qualified alternate, is appointed a member of this Board. Reconstitution of the Board in this manner is in accordance with § 2.721 of the rules of practice, as amended.

Dated at Washington, D.C., this 13th day of July 1973.

NATHANIEL H. GOODRICH,
Chairman, Atomic Safety and Licensing Board Panel.

[FR Doc.14986 Filed 7-17-73;8:45 am]

CIVIL AERONAUTICS BOARD

[Docket Nos. 25151, 25206; Order 73-7-50]

FRONTIER AIRLINES, INC.

Order Denying Temporary Suspension and Setting Application for Hearing

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 12th day of July 1973.

Application of Frontier Airlines, Inc., for permission to suspend service at Moab, Utah, Docket 25151; application of Frontier Airlines, Inc., for the amendment of its certificate of public convenience and necessity for Route 37 so as to delete Moab, Utah therefrom, Docket 25206.

By applications filed on January 23, 1973, (Docket 25151), and February 12, 1973, (Docket 25206), Frontier Airlines, Inc., requests that its certificate of public convenience and necessity be amended so as to delete Moab, Utah, from Route 73, and, pending such deletion hearing, that it be permitted to suspend service at the community involved.

In support of its application, Frontier alleges, inter alia, that the subsidy paid it from 1968 to 1972 for serving marginal points fell far short of meeting its subsidy needs and resulted in an aggregate net loss to Frontier of $24 million for the period; that Moab has been a poor traffic-generating point,[1] resulting in a subsidy need per passenger at Moab of $38.89 or a figure 4.7 times greater than the average for Frontier's subsidy-eligible services; that in the absence of service at its own airport, Moab would not be isolated since the airport at Grand Junction, Colorado can be reached in one hour and 48 minutes driving time; [2] and that Moab's airport requires substantial renovations (estimated by Frontier at $412,000) which would be unwarranted in light of the high subsidy need of serving Moab and the alternate service at Grand Junction.

Three answers in opposition were filed to Frontier's application, by Yvonne and Bill McIntosh of Dallas, Texas; the City of Cortez, Colorado; and the Utah Agencies (Utah).[3]

The McIntosh's stress the need for service to Moab and to three national parks in the area. Cortez contends that the grant of Frontier's requests would remove a vital transportation link for the population centers in isolated areas of the Colorado plateau and points to forecasts for substantial growth in the area. Utah alleges that Frontier's own exhibits show that, after subsidy, the carrier presently realizes an operating profit of $37,000 in service to Moab; points to Moab's isolation from major communities of interest; argues that suspension and deletion of Frontier's service at Moab should be ordered only after an investigation of "more viable and less drastic" solutions; contends that Frontier's air service at Moab has been permitted to deteriorate in recent years, resulting in the depressed passenger statistics brought forward by Frontier, which statistics should, therefore, not be taken into account by the Board; and states that it hopes to present a petition to the Board for the institution of an investigation to determine the adequacy of service to the small communities of the West. Frontier filed a reply to Utah's answer.

Upon consideration of the pleadings and all the relevant facts, and in light of the objections of the civic parties, we have decided that Frontier's application for temporary suspension at Moab should be denied and that the carrier's application for deletion of Moab from its certificate should be set for hearing.

We believe that the issues presented by Frontier's application can most appropriately be explored in a full evidentiary hearing. Moreover, we shall not authorize a temporary suspension of service pending the outcome of that hearing. This action is similar to that which we have taken under comparable circumstances.[4]

Accordingly, it is ordered, That:

1. The application of Frontier Airlines, Inc. for permission to suspend service at Moab, Utah, pending a permanent deletion of Moab from the carrier's certificate of public convenience and necessity, be and it hereby is denied;

2. The application of Frontier Airlines, Inc. for amendment of its certificate of public convenience and necessity so as to delete Moab, Utah, from Route 73, in Docket 25206, be and it hereby is set for hearing before an Administrative Law Judge of the Board at a time and place to be hereafter designated; [5] and

3. A copy of this order shall be served upon Frontier Airlines, Inc.; Utah Agencies; Governor, Moab and Salt Lake City, Utah, and Grand Junction and Cortez, Colorado; Utah Aeronautics Commission; and the Postmaster General.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.73-14697 Filed 7-17-73;8:45 am]

[Docket Nos. 23682, 25659; Order 73-7-45]

INVESTIGATION OF THE LOCAL SERVICE CLASS SUBSIDY RATE

Order Denying Petition

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 11th day of July 1973.

On Friday, June 29, 1973, the Board issued Order 73-6-119, instituting the above entitled investigation in Docket 25659 and reopening (as of Sunday, July 1, 1973) the final subsidy rate presently in effect for the local service carriers.[1] On that same date, Hughes Air West (Airwest) and Frontier Airlines, Inc. (Frontier), jointly filed a petition requesting that the Board refrain from reopening the local service class subsidy rate until it has prepared and is ready to place into effect a new class rate to succeed that which is presently effective, or, alternatively, that oral argument be held on the issue of whether such existing rate should be reopened.

Petitioners' request for relief is grounded on the contention that maintenance of the status quo—i.e., a closed-rate situation—pending establishment of the new class rate is necessary to protect petitioners against the "recognized disadvantages" of operating under an open rate and to afford the local carriers a fair opportunity to participate in the development of the new class rate without the "penalty" of remaining on an open rate while the new rate is being formulated. In support of this contention, petitioners argue, inter alia, that the order instituting this investigation and reopening the rate will raise numerous substantive issues concerning the final rate which will inevitably take many months to resolve; that during these months the local carriers, as well as various other interested parties, will be uncertain as to the composition of the final rate; and that this state of "uncertainty" will put the carriers in a weak position to follow all of the procedural steps needed to obtain thorough Board consideration of the aforementioned substantive issues. Petitioners also point to the recent report of the Senate Appropriations Committee relating to the Board's appropriation for fiscal 1973 [2] as evidencing a Congressional desire that the Board defer action on reopening Class Rate VI until it has constructed and promulgated Class Rate VII.

They further allege that the subsidy for the local industry has not changed significantly since 1971 (the base year for Class Rate VI) related to what is asserted to be the fact that improvements in operating incomes, which would decrease subsidy need, are roughly offset by larger income tax allowances, which would increase subsidy need. Thus, they say, there is at this time no compelling need to reopen the existing class rate.

In light of our action in Order 73-6-119, we find that the matters raised in the petition are moot, and, therefore, that it should be dismissed.

Moreover, we find nothing in the petition which would persuade us to depart from our determination to reopen Class Rate VI or to grant petitioners leave to present oral argument with respect to that determination. Boiled down to its essential ingredients, petitioners' argument is that we cannot, consistent with the requirements of procedural due process, reopen an existing subsidy rate unless we first allow the local service carriers to present their views on the appropriate structure of the new class rate, an argument which we find totally lacking in substance. It is clear that under the subsidy determining powers enumerated in section 406 of the Act, in conjunction with the broad investigatory powers embodied in section 1002(b) of the Act, the Board has discretion to open a subsidy rate on its own initiative without soliciting the advice of the local service industry or any other person on either the desirability of such action or the composition of the class rate to be ultimately established; indeed, it is at least noteworthy that the Board has reopened each of the class rates preceding Class Rate VI pending the establishment of their successor rates.

The Board's objective, under the class rate concept, is to effect timely adjustments to the subsidy need determination, as reflected in the class rate, of the local service carriers and each individual carrier. To implement this objective, it is imperative that we take prompt and decisive action to reopen the existing rate and establish a new rate when it appears that the present level of subsidy payments is significantly above or below the reasonable need of the carriers as expected by current information. As reflected in our order instituting this investigation, we found that the increasing subsidy need trend which had so long characterized the local industry had in recent months undergone a sharp reversal, with estimates of earnings and subsidy need through fiscal 1973 indicating a continuing strong financial picture, and we reopened the present class rate to reflect this apparent trend of decreasing subsidy need.

It may be true that for some of the time during which the rate is open the local carriers will be uncertain as to the structure of their new subsidy rate; yet, we fail to see how this "uncertainty" in and of itself results in making the entire procedure for establishing such rate unfair to these carriers. Although petitioners' document is replete with general averments concerning the "coercive effect" and "recognized disadvantage" of operating under an open rate, it is conspicuously silent as to any particular ways in which this situation will hamper the local carriers' ability to participate in the development of the new class rate. Moreover, the Board expects to formulate and issue the interlocutory and final orders necessary to establish the new class rate as expeditiously as possible, so that the time the carriers are required to spend on an open rate should be held to a minimum. In light of the foregoing, we have no present basis for concluding that placing the local carriers on an open rate will result in depriving them of a fair hearing in this proceeding.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, particularly sections 102, 204, 406, and 1002(b) thereof,

It is ordered, That:

The joint petition of Hughes Air Corp. d/b/a Hughes Airwest and Frontier Airlines, Inc., in Docket 23682 to defer action on reopening the local service class subsidy rate be, and it hereby is dismissed.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND,
Secretary.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN PAKISTAN

Entry or Withdrawal From Warehouse for Consumption; Correction

JULY 12, 1973.

In FR Doc. 73-13543 appearing at page 17526 in the issue of Monday, July 2,

[1] 6.59 passengers per day and an average of 2.61 passengers per departure over the past four years.

[2] Frontier relies on the staff study of the Bureau of Operating Rights, Service to Small Communities (March 1972), which concluded that any community within 111 minutes driving time of Grand Junction was not isolated. That study further concluded, however, that Moab is a 2 hour and 5 minute drive from the Grand Junction airport—not the one hour, 48 minutes alleged by Frontier.

[3] Utah Agencies is an association comprised of the State of Utah, Salt Lake City Corporation, Salt Lake City Area Chamber of Commerce, and Pro-Utah, Inc. It answers in behalf of the State of Utah, the Board of Commissioners of Grand County, Utah, and the City Commissioners of Moab, Utah.

[4] See *e.g.*, Order 70-11-72, November 18, 1970, and Order 71-12-68, December 16, 1971.

[5] The hearing shall determine whether the public convenience and necessity require that Frontier's certificate be altered, amended, or modified so as to suspend or delete Moab. As an alternative to amending Frontier's certificate, we shall place in issue whether the public interest requires the temporary suspension of service by Frontier, with or without conditions.

[1] Class Rate VI as established by Orders 72-6-72, June 16, 1972 and 72-7-82, July 25, 1972, Docket 23682.

[2] Report No. 92-865, 92nd Cong., 2d Sess. p. 32. This report states as follows: "Class rates are supposed to be prospective in order to avoid making the carriers operate under an open rate for an extended period of time. Notwithstanding this fact, during the past eleven months, an open rate has been in effect. The Committee desires that the CAB extend Class Rate VI until formulation and approval of Class Rate VII. It is imperative that the local service air carriers be provided forward visibility in forecasting their anticipated revenues so that business decisions can be intelligently and knowledgably made on matters such as debt management and budgeting for needed capital improvements."

COST OF LIVING COUNCIL

FOOD INDUSTRY ADVISORY COMMITTEE

Notice of Change in Meetings

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770), notice is hereby given that the meeting of the Food Industry Advisory Committee scheduled, as previously announced, on July 23 and 24, 1973 in Washington, D.C. has been cancelled.

Issued in Washington, D.C. on July 16, 1973.

HENRY H. PERRITT, JR.,
Executive Secretary, Cost of Living Council.

[FR Doc.73-14830 Filed 7-16-73;4:13 pm]

HEALTH INDUSTRY WAGE AND SALARY COMMITTEE

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) notice is hereby given that the Health Industry Wage and Salary Committee, established under the authority of section 212(f) of the Economic Stabilization Act, as amended, section 4(a)(iv) of Executive Order 11695, and Cost of Living Council Order No. 14, will meet on July 25, 1973 and the meeting will be open to the public on a first-come, first-served basis at 10 a.m. in room 8009, 2025 M Street NW., Washington, D.C.

The agenda will consist of a discussion of health industry wage cases currently pending before the Cost of Living Council.

The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business.

Issued in Washington, D.C. on July 16, 1973.

HENRY H. PERRITT, JR.,
Executive Secretary, Cost of Living Council.

[FR Doc.73-14831 Filed 7-16-73;4:13 pm]

HEALTH INDUSTRY ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (P.L. 92-463, 86 Stat. 770), notice is hereby given that the Health Industry Advisory Committee, created by Section 6(b) of Executive Order 11695, will meet on July 23, 1973 at the Cost of Living Council offices, 2000 M Street, NW., Washington, D.C.

The morning portion of the meeting, which will be held from 10:00 a.m. to 12:30 p.m. in the second floor auditorium, will be open to the public. The meeting will be opened by introductory remarks by the Director, Cost of Living Council, followed by a discussion of possible coverage of the health industry under Phase IV.

The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Only members of the Committee, and its staff, may question the witnesses. Due to space limitations, it is possible that there will not be enough seating. For that reason, persons will be admitted on a first-come-first-served basis.

While no unscheduled oral presentations will be entertained, anyone may submit a written statement by mailing it to Robert Saner, 2000 M Street, N.W., Washington, D.C. 20508.

Any statement received three or more days prior to the meeting will be provided to the Committee before the meeting. Any statement over three pages in length should be submitted with twenty copies.

The afternoon portion of the meeting, to run from 12:30 to 4:00 p.m., will be closed to the public. Since the afternoon meeting will be discussing the substance of Phase IV and other possible governmental actions therewith, I have determined that the meeting will fall within Exemption 5 of 5 U.S.C. 552(b) and it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with the operation of the Committee.

Issued in Washington, D.C. on July 17, 1973.

WILLIAM N. WALKER,
General Counsel, Cost of Living Council.

[Docket No. CI61-433, etc.]

FEDERAL POWER COMMISSION

AMERICAN NATURAL GAS PRODUCTION CO. ET AL.

Findings and Order After Statutory Hearing

JULY 11, 1973.

On May 19, 1973, American Natural Gas Production Company (American) filed in Docket Nos. CI61-433 and CI63-1046 a request that it be authorized to continue the sale of natural gas from its own interest in the Shuteston Field, St. Landry Parish, Louisiana, to Michigan Wisconsin Pipe Line Company, (Mich-Wis) all as more fully set forth in request in this proceeding.

American's interest of natural gas in the subject acreage has heretofore been sold under authorization granted to Falcon Seaboard, Inc., in Docket Nos. CI61-433 and CI63-1046 (temporary certificate). With the issuance of a small producer certificate to Falcon on February 29, 1972, in Docket No. CS72-503 [1] the certificates in Docket Nos. CI61-433 and CI63-1046 were terminated and the related rate schedules were cancelled. American requests that it be substituted as the certificate holder in Docket No. CI61-433 and that it be granted a permanent certificate in Docket No. CI63-1046 to permit it to cover its own interest in the subject acreage. The last effective rate under Falcon's rate schedules was 22.375 cents per Mcf effective subject to refund in Docket No. RI71-963.

Inasmuch as American and Mich-Wis are affiliated companies and the gas involved herein is produced from leases acquired before October 7, 1969,[2] the rate authorized herein will be made subject to refund pending a determination as to the proper rate.

After due notice by publication in the FEDERAL REGISTER no petition to intervene, notice of intervention or protest to the granting of the request has been filed.

At a hearing held on July 5, 1973, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the request and exhibits thereto, submitted in support of the authorizations sought herein, and upon consideration of the record,

The Commission finds:

(1) Applicant, American Natural Gas Production Company, is engaged in the sale for resale of natural gas in interstate commerce subject to the jurisdiction of the Commission and is, therefore, a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission.

[1] Order issued in Docket No. CS71-68, *et al.*

[2] In Commission Opinion No. 568, *Pipeline Production Area Rate Proceeding (Phase I)*, Docket No. RP66-24, 42 FPC 738 (1969), the Commission determined that the just and reasonable area rates would be used to value gas produced by pipeline affiliates for on-system sales from leases acquired after October 7, 1969.

(2) The sale of natural gas hereinbefore described in Docket No. CI63-1046, as more fully described in the request in this proceeding, will be made in interstate commerce subject to the jurisdiction of the Commission; and such sale by Applicant, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, is subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) Applicant is able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules and regulations thereunder.

(4) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the Commission's order of February 29, 1972, in Docket No. CS72-503 should be vacated in part as hereinafter ordered.

(5) The sale of natural gas proposed to be made in Docket No. CI63-1046 by Applicant is required by the public convenience and necessity and a certificate therefor should be issued as hereinafter ordered and conditioned.

(6) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the order issuing a certificate of public convenience and necessity in Docket No. CI61-433 should be amended as hereinafter ordered and conditioned.

(7) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that American should be made a co-respondent in the proceeding pending in Docket No. RI71-963 and that said proceeding should be redesignated accordingly.

(8) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the rate schedules related to the authorizations granted in Docket Nos. CI61-433 and CI63-1046 should be redesignated as those of American Natural Gas Production Company.

The Commission orders:

(A) The Commission's order of February 29, 1972, in Docket No. CS71-68 *et al.*, is vacated insofar as it pertains to the termination on Docket Nos. CI61-433 and CI63-1046 and the cancellation of the related rate schedules, Falcon Seaboard, Inc. (Operator), *et al.*, FPC Gas Rate Schedule Nos. 8 and 15.

(B) A certificate of public convenience and necessity is issued in Docket No. CI63-1046 upon the terms and conditions of this order authorizing the sale by Applicant of natural gas in interstate commerce for resale for ultimate public consumption, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, all as hereinbefore described and as more fully described in the application in this proceeding.

(C) The certificate issued herein in Docket No. CI63-1046 is not transferable and shall be effective only so long as Applicant continues the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the rules, regulations, and orders of the Commission.

(D) The grant of the certificate issued in paragraph (B) above shall not be construed as a waiver of the requirements of section 4 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's regulations thereunder and is without prejudice to any findings or orders which have been or which may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against Applicant. Further, our action in this proceeding shall not foreclose or prejudice any future proceedings relating to the operation of any price or related provisions in the gas purchase contract herein involved. The grant of the certificate herein for service to the particular customer involved shall not imply approval of all of the terms of the contract, particularly as to the cessation of service upon termination of said contract, as provided by Section 7(b) of the Natural Gas Act. The grant of the certificate herein shall not be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sale of natural gas subject to said certificate.

(E) The order issuing a certificate of public convenience and necessity in Docket No. CI61-433 is amended by substituting American Natural Gas Production Company as the certificate holder in lieu of Falcon Seaboard, Inc. (Operator), *et al.*, and in all other respects said order shall remain in full force and effect.

(F) Within 90 days from the date of this order American shall file three copies of a rate scheduled quality-statement in the form prescribed in Commission Opinion No. 598 for both of the subject sales.

(G) The authorizations granted herein are subject to the Commission's findings and order accompanying Commission Opinion Nos. 598 and 598-A.

(H) American Natural Gas Production Company is made a co-respondent in the proceeding pending in Docket No. RI71-963 and said proceeding is redesignated accordingly. American shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the Regulations thereunder.

(I) American shall charge and collect a rate of 22.375 cents per Mcf at 15.025 psia, subject to refund in Docket No. RI71-963, for the subject sales.

(J) The authorizations granted herein determine the rates which American Natural Gas Production Company may legally charge its affiliate, Michigan Wisconsin Pipe Line Company, under the subject authorizations, and are without prejudice to any action which the Commission may take in any rate proceedings involving said companies.

(K) The following rate schedule and rate schedule supplements are redesignated effective February 29, 1972:

Docket No.	Description of Instrument	Rate schedule designation: American Natural Gas Production Company FPC Gas Rate Schedule No.	Rate schedule designation: Supplement No.
CI61-433	Falcon Seaboard, Inc. (Operator) et al., FPC Gas Rate Schedule No. 8 and Supplement Nos. 1-5 thereto	6	1-5
CI63-1046	Falcon Seaboard, Inc. (Operator) et al., FPC Gas Rate Schedule No. 15 and Supplement Nos. 1-5 thereto	7	1-5

(L) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[FR Doc.73-14664 Filed 7-17-73;8:45 am]

[Docket No. CI73-937]

ANADARKO PRODUCTION CO.

Notice of Application

JULY 11, 1973.

Take notice that on June 29, 1973, Anadarko Production Company (Applicant), P.O. Box 9317, Fort Worth, Texas 76107, filed in Docket No. CI73-937 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Panhandle Eastern Pipe Line Company from the Cities Service "A" Well, Texas County, Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell up to 3,000 Mcf of gas per day at 40.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment, for one year after the first day of the month following the date of initial deliveries, within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 24, 1973, file with the

V 38 I 137 JUL 18 73 XUM

Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14592 Filed 7-17-73;8:45 am]

[Docket No. CI73-934]

ARKLA EXPLORATION CO. AND STEPHENS PRODUCTION CO.

Notice of Application

JULY 11, 1973.

Take notice that on June 28, 1973, Arkla Exploration Company (Arkla) and Stephens Production Company (Stephens), P. O. Box 1734, Shreveport, Louisiana 71151, filed in Docket No. CI73-934 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natual gas in interstate commerce to Arkansas Louisiana Gas Company from the South West O'Keene Field, Blaine County, Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Arkla and Stephens propose to sell, from the Weber No. 1 Well in which each owns a 50 percent interest, approximately 60,830 Mcf of gas per month for one year at 45.0 cents per Mcf at 14.65 psia within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 24, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

Secretary.

[FR Doc.73-14672 Filed 7-17-73;8:45 am]

[Docket No. CI73-920]

BRUNSON & McKNIGHT, INC. ET AL.

Notice of Application

JULY 10, 1973.

Take notice that on June 25, 1973, Brunson & McKnight, Inc. (Operator), *et al.* (Applicant), P.O Box 1039, Hobbs, New Mexico 88240, filed in Docket No. CI73-920 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transwestern Pipeline Company from the South Carlsbad Area, Eddy County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on May 17, 1973, within the contemplation of section 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the sixty-day emergency period within the contemplation of section 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell approximately 40,000 Mcf of gas per month at 52.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment. Initial upward Btu adjustment is 0.26 cent per Mcf.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 23, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14596 Filed 7-17-73;8:45 am]

[Docket No. CP73-342]

COLUMBIA GAS TRANSMISSION CORP.

Notice of Application

JULY 11, 1973.

Take notice that on June 27, 1973, Columbia Gas Transmission Corporation (Applicant), 1700 MacCorkle Avenue, S.E., Charleston, West Virginia 25314, filed in Docket No. CP73-342 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of synthetic gas (SG), as mixed with natural gas, between Applicant and its subsidiary, Columbia LNG Corporation (Columbia LNG) and the construction of certain facilities at the Downingtown Compressor Station in Chester County, Pennsylvania, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to receive and deliver certain volumes of SG which its customers have purchased from Columbia LNG. The SG will be produced by a subsidiary of Apco Oil Corporation at a reforming plant to be constructed in Delaware County, Pennsylvania, and will be transported by Applicant to its existing Downingtown Compressor Station for re-delivery to the purchasers at existing delivery points along its pipeline according to the monthly load factors represented by maximum monthly volumes for each customer as contained in Sheet Nos. 90 through 94 of Applicant's FPC Gas Tariff, Original Volume No. 1 or, for SGS customers, according to monthly estimates for the year ending October 1972. Applicant states that it is advised that approximately 43,125,000 Mcf of SG will be delivered annually at an average rate of 125,000 Mcf daily (for 345 days) beginning November 1, 1975, and will be sold to all CD, G, and SGS customers of Applicant on a pro rata basis depending on each customer's current delivery entitlements. Applicant proposes to charge SG purchasers approximately 13.0 cents per Mcf for the transmission and storage services rendered. It is stated that Applicant will not be obligated to deliver SG to a customer when the customer is receiving its total daily entitlement of gas under the applicable Rate Schedule in Applicant's FPC Gas Tariff, Original Volume No. 1, or the equivalent volumes of gas under Applicant's FPC Gas Tariff, Original Volume No. 2.

Applicant also proposes to construct interconnecting piping facilities, to replace regulating facilities, and to replace and/or modify existing compressor facilities at the Downingtown Compressor Station in order to facilitate the proposed exchange. The cost of the proposed facilities is $406,000 which will be financed from cash on hand.

The purpose of the proposed exchange service and construction and/or replacement is to augment Applicant's ability to meet its customers' requirements during the 1975-76 winter season and thereafter. It is stated that Applicant expects that its historic gas supply will be insufficient to meet existing levels of gas requirements beginning with said period and the proposed exchange will partially offset the estimated declines in deliveries.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14665 Filed 7-17-73;8:45 am]

[Docket No. E-8105]

CONNECTICUT POWER & LIGHT CO.

Order Accepting Initial Rate Schedule

JULY 10, 1973.

On April 2, 1973, the Connecticut Light and Power Company (CL&P) tendered for filing on behalf of the Northeast Utilities System (NU) a proposed Rate Schedule consisting of a Purchase agreement (Agreement) between the members of NU (CL&P, The Hartford Electric Light Company (Hartford) and Western Massachusetts Electric Company (Western Massachusetts)) as the renderers of service, and New Bedford Gas and Electric Light Company (New Bedford), as the receiver of service. CL&P's transmittal letter states that the Agreement provides for sales to New Bedford of specified percentages of capacity and energy from either eight or eleven gas turbine generating units, depending on the period, between March 1, 1973 to April 30, 1974, together with related transmission service. The Agreement is signed by representatives of the four parties and certificates of concurrence from Hartford and Western Massachusetts are included in the filing.

CL&P requests waiver of the Commission's thirty-day notice period in order to permit the rate schedule to become effective on March 1, 1973. However, subsequent to the filing a deficiency letter was issued which the Company responded to by a curative filing on May 31, 1973.

The filing was noticed on April 11, 1973, with petitions to intervene and protests due on or before April 23, 1973. No such petitions or protests were received.

The previous agreement among these parties is on file with this Commission and, although that agreement has expired by its own terms, notice of cancelation of the rate schedules thereunder has not been received. The rate formula under the prior rate schedules is identical to that being proposed in this filing. The instant agreement replaces the expired agreement and does not involve a change in rates. Therefore we will treat the filing as an initial filing. Accordingly, we shall deny the request for waiver, accept the proposed rate schedule for filing to become effective thirty days after the filing was completed or July 1, 1973. The proposed rates, according to CL&P, would include overall rates of return for CL&P, Hartford, and Western Massachusetts of 10.6 percent, 10.95 percent, and 8.73 percent respectively. Our review of the filing indicates that the proposed rates may not be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful. Accordingly we will institute an investigation under section 206 of the Federal Power Act to determine the justness and reasonableness of the filed rates.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon an investigation to determine if the rates and charges contained in CL&P's proposed Rate Schedule are in the public interest.

(2) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(3) The requested waiver of our notice requirement should be denied.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act, particularly section 206 thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR, Chapter I), a public hearing shall be held, commencing with a prehearing conference on September 21, 1973, at 10:00 A.M., EDT, in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, to determine if the rates,

V 38 I 137 JUL 18 73 XUM

charges, classifications and services contained in CL&P's proposed Rate Schedule are in the public interest.

(B) At the prehearing conference on September 21, 1973, CL&P's prepared testimony and exhibits together with its entire rate filing shall be admitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to this conference prepared to effectuate the provisions of section 1.18 of the Commission's rules of practice.

(C) On or before September 14, 1973, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of all intervenors shall be served on or before September 28, 1973. Any rebuttal evidence by CL&P shall be served on or before October 12, 1973. The public hearing herein ordered shall convene on October 24, 1973, at 10:00 a.m., EDT.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control the proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(E) CL&P's proposed rate schedule tendered on April 27, 1973, is accepted for filing to become effective July 1, 1973, thirty days after the official filing date and subject to the terms and conditions of this order, particularly ordering paragraph (F) hereof.

(F) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970 (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(G) The request for waiver of our notice regulations is denied and the rates are permitted to become effective July 1, 1973.

(H) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[FR Doc.73-14668 Filed 7-17-73;8:45 am]

[Docket Nos. RP72-47; RP73-115]

CONSOLIDATED GAS SUPPLY CORP.

Notice of Request To Withdraw Tariff Sheets and Filing of Proposed Curtailment Plan

JULY 10, 1973.

Take notice that on June 14, 1973, Consolidated Gas Supply Corporation (Consolidated) filed a request in Docket No. RP72-47 to withdraw certain tariff sheets[1] from its FPC Gas Tariff, First Volume No. 1. The tariff sheets were originally filed June 21, 1972 and suspended until August 22, 1972. Consolidated has not moved to place the suspended sheets into effect.

On August 11, 1972, the Commission rejected some of the tariff sheets filed on June 21, 1972. Thereafter, Consolidated requested reconsideration of the order rejecting its tariff sheets. On March 15, 1973, the Commission issued an order deferring action on Consolidated's application for reconsideration in order to permit Consolidated to file tariff sheets conforming to the curtailment priorities set forth in Order 467-B. The March 15 order also provided that prior tariff sheets relating to curtailment could be withdrawn in the event Consolidated filed tariff sheets consistent with the priorities set forth in Order 467-B. Consolidated's request for withdrawal of the tariff sheets is in response to the March 15 order.

Take further notice that on June 14, 1973, Consolidated submitted for filing, in Docket No. RP73-115, revised tariff sheets[2] to its presently effective FPC Gas Tariff, First Revised Volume No. 1, constituting its permanent curtailment plan. Consolidated requests that its tendered sheets become effective sixty days from the date of the filing.

In summary, Consolidated's proposed permanent curtailment plan provides:

(1) Curtailment to be applied according to the priorities set forth in Order 467-B, except that Consolidated has included small volume industrial sales (up to 300 Mcf/d) in Category (2), separating them from the other industrial categories.

(2) An annual percentage curtailment for certain customers that receive a small fraction of their supply from Consolidated under Rate Schedules SG-2, CQ-2, CQ-3, SCQ-4, and ACR-4.

(3) An emergency provision to permit deliveries to lower priorities than would otherwise be delivered under the order of priorities specified, in order to prevent irreparable injury to life or property.

(4) Adjustment of rates to reflect curtailment, computed at the end of each calendar quarter on a rate schedule by rate schedule basis.

(5) General rules to be applied during curtailment under the proposed specific curtailment provisions.

Consolidated states that Consolidated and its customers make few interruptible sales that fall within Categories (6) through (9), as enumerated in Order 467-B, but that all of such categories were included to conform with that order.

Consolidated states that the above-described permanent curtailment plan was formulated to provide for end-use curtailment which conforms substantially to Order 467-B. The plan is on file with the Commission and is available for inspection.

Any person desiring to be heard or to make any protect with reference to this filing should on or before July 23, 1973, file with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to participate as parties in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Any order issued in this proceeding will be subject to the Commission's statement of policy implementing the Economic Stabilization Act of 1970 (P.L. 91-379, 84 Stat. 799, as amended by P.L. 92-15, 85 Stat. 38) and Executive Order 11616 including such amendments as the Commission may require.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14597 Filed 7-17-73;8:45 am]

[Docket No. CI73-914]

CRYSTAL OIL CO.

Notice of Application

JULY 10, 1973.

Take notice that on June 25, 1973, Crystal Oil Company (Applicant), P.O. Box 1101, Shreveport, Louisiana 71163, filed in Docket No. CI73-914 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to Louisiana-Nevada Transit Company (Louisiana-Nevada) from acreage in the Shongaloo Field, Webster Parish, Louisiana, and delivery of said gas to Beacon Gasoline Company, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on June 15, 1973, within the contemplation of section 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sales for two years from the end of the sixty-day emergency period within the contemplation of § 2.70 under the Commission's general policy and interpretation (18 CFR 2.70). Applicant proposes to sell approximately 10,000 Mcf of gas per day at 45.0 cents per Mcf at 15.025 psia. Applicant states that deliveries will initially be made at the Beacon Gasoline Plant in Webster Parish for transmission through Beacon Gasoline Company's 6-inch pipeline to Louisiana-Nevada's Haynesville Lateral pipeline. Apllcant further states that it is a small producer within the meaning of § 157.40 of the Regulations (18 CFR 157.40) and is filing the instant application solely to secure pre-granted abandonment authorization and does not intend to file a rate schedule for the proposed sale.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 23, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14599 Filed 7-17-73;8:45 am]

[Docket No. E-8189]

DAYTON POWER AND LIGHT CO.

Order Accepting for Filing and Suspending Revised Tariff Sheets

JULY 9, 1973.

The Dayton Power and Light Company (Dayton) on May 11, 1973, tendered for filing revised tariff sheets to its FPC Electric Tariff, Original Volume No. 1, proposed to become effective July 10, 1973.[1] The revised tariff sheets, applicable to service to 13 municipalities for resale, include increased rates and charges which would increase annual revenues from jurisdictional sales and service approximately $371,045, based upon operations for the calendar year 1972.[2] The rate filing also includes changes to the fuel adjustment and tax adjustment clauses contained in the rate schedule.

In support of its proposed increased rates, Dayton claims that it is entitled to an 8.0 percent rate of return allowance and that on the basis of its 1972 cost of service study, the proposed rates would yield a return of 7.5 percent. The cost study includes the following adjustments to per books figures:

(i) annualized effect of wage increase effective October 29, 1972;

(ii) restated test period fuel cost to a level said to be based on fuel costs experienced in December 1972; and

(iii) restated depreciation expense to reflect application of depreciation accrual rates to average plant in service balances.

Copies of the rate filing were served upon Dayton's municipal resale customers. Notice of the filing was issued on May 30, and was published in the FEDERAL REGISTER on June 4, 1973 (38 FR 14716). The Villages of Jackson Center and Tipp City, Ohio, jointly, and the Villages of Versailles, New Knoxville, New Bremen, and Minister, Ohio, jointly, filed petitions for leave to intervene. The petitioners contend that the rate increase is not needed or justified and request that the filing be suspended for five months. Petitioners also contend that the proposed revisions to the fuel adjustment clause do not meet the standards in Section 35.14 of the Commission's regulations Under the Federal Power Act, and that the tax adjustment clause is neither provided for by regulation nor by the Act and appears to be in violation of Section 205 of the Act.

It appears that under Dayton's proposed fuel adjustment clause, the company's own fuel cost would be imputed to the cost of power it purchases. Such procedure is inconsistent with Commission Opinion No. 633, New England Power Company, Docket No. E-7541, issued October 30, 1972 (48 FPC —). Accordingly, this feature of the proposed fuel clause should be eliminated.

Our review of Dayton's filing, including the tax adjustment clause, and the pleadings indicates that the proposed increased rates and charges raise issues which require development in an evidentiary hearing. The proposed increased rates and charges have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

The Commission finds:

(1) It is necessary and appropriate in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Dayton's FPC Electric Tariff, Original Volume No. 1, as proposed to be amended by the rate filing tendered by Dayton on May 11, 1973, and that the tendered revised tariff sheets be accepted for filing, suspended and their use deferred as hereinafter ordered and conditioned.

(2) The participation of the above-named petitioners may be in the public interest.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act, including sections 205, 206, 308 and 309 thereof, the Commission's rules of practice and procedure, and the regulations Under the Federal Power Act, a public hearing shall be held, commencing with a prehearing conference on December 6, 1973, at 10:00 a.m., e.s.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, concerning the lawfulness of the rates and charges contained in Dayton's FPC Electric Tariff, as proposed to be amended by the revised tariff sheets filed on May 11, 1973.

(B) The revised tariff sheets and the proposed increased rates and charges contained therein, filed by Dayton on May 11, 1973, as described above, are accepted for filing, pending hearing and final decision herein, and are suspended and the use thereof deferred until September 10, 1973.

(C) The Commission Staff shall serve its direct case on or before November 9. Intervenors shall serve their direct case on or before November 27. At the Prehearing Conference on December 6, Dayton's prepared testimony (Statement P), as its case-in-chief, together with its entire rate filing, and all testimony and exhibits served by other parties, shall be admitted to the record, subject to appropriate motions of the parties. Dayton may serve rebuttal evidence on or before December 21, 1973. Cross-examination of witnesses shall commence at 10:00 a.m., e.s.t., on January 9, 1974.

(D) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (18 CFR 3.5(d)) shall preside at the hearing in accordance with the terms of this order, the Commission's rules of practice and procedure, and the Federal Power Act.

(E) The above named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That participation of such intervenors shall be limited to the matters affecting asserted rights and interests specifically set forth in their petitions to intervene; and *Provided, further,* That the admission of such intervenors

---

[1] Consolidated requests that the following sheets be withdrawn: Original Sheets Nos. 53-B, 53-C and 53-D. The aforementioned tariff sheets contain a list of industrial gas applications where natural gas is the only feasible form of energy.

[2] The tariff sheets are designated as follows: Third Revised Sheet No. 51; First Revised Sheet No. 51-A; First Revised Sheet No. 51-B; First Revised Sheet 51-C; Original Sheet No. 51-D.

[1] Second Revised Tariff Sheets Nos. 4 and 5.

[2] City of Celina and Villages of Arcanum, Eldorado, Jackson Center, Lakeview, Mendon, Minster, New Bremen, New Knoxville, Tipp City, Versailles, Waynesfield, and Yellow Springs, all of Ohio.

V 38 I 137 JUL 18 73 XUM

shall not be construed as recognition by the Commission that they or any of them might be aggrieved by any orders entered in this proceeding.

(F) Any future change in rates resulting from application of the tax adjustment clause of Dayton's FPC Electric Tariff should be accompanied by appropriate data and computations showing the basis for the change in rate.

(G) Within 30 days from the date of this order, Dayton shall file an amendment to its fuel cost adjustment clause in compliance with the requirements of Commission Opinion No. 633, as described above.

(H) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(I) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[FR Doc.73-14679 Filed 7-17-73;8:45 am]

[Docket No. E-8297]

DELMARVA POWER AND LIGHT CO.

New Facilities Agreement

JULY 11, 1973.

Take notice that on June 26, 1973, Delmarva Power and Light Company (DPL) tendered for filing an agreement to sell generation facilities to Philadelphia Electric Company (PE), becoming effective on July 28, 1973, and lasting until April 30, 1975.

DPL states that the agreement not only transfers one-half the generating capacity at its Edge Moor #5 unit, but also provides for (1) construction of an interconnection between the electrical supply systems of both companies; (2) carrying charges to be paid to DPL by PE for DPL's remaining investment in the unit and maintenance of the unit; and (3) carrying charges to be paid by both companies to each other for use of the interconnection.

Any person desiring to be heard or protest said application should file a petition to intervene or protest with the Federal Power Commission 825 North Capitol Street, N.E., Washington, D.C., in accordance with the Commission's rules of practice and procedure. All such petitions or protests should be filed on or before July 19, 1973. Protests will be considered by the Commission in determining the appropriate action, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14669 Filed 7-17-73;8:45 am]

[Docket No. CI73-940]

D. L. HANNIFIN AND JOE DON COOK

Notice of Application

JULY 11, 1973.

Take notice that on June 29, 1973, D. L. Hannifin, P.O. Box 182, Roswell, New Mexico 88201, and Joe Don Cook, P.O. Box 159, Roswell, New Mexico 88201, filed in Docket No. CI73-937 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to El Paso Natural Gas Company from the South Carlsbad Morrow Field, Eddy County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants state that they commenced the sale of natural gas on June 9, 1973, within the contemplation of § 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29) and proposed to continue said sale for 14 months from said date within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicants propose to sell approximately 210,000 Mcf of gas per month at 55.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 24, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-347]

LONE STAR GAS CO.

Notice of Application

JULY 10, 1973.

Take notice that on June 29, 1973, Lone Star Gas Company (Applicant), 301 South Harwood Street, Dallas, Texas 75201, filed in Docket No. CP73-347 an application pursuant to section 7 of the Natural Gas Act and § 157.7(g) of the regulations thereunder (18 CFR 157.7 (g)) for a certificate of public convenience and necessity authorizing the construction and for permission and approval for the abandonment, for the calendar year 1973, of field gas compression and related metering and appurtenant facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in the construction and abandonment of facilities which will not result in changing Applicant's system salable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of the proposed construction and abandonment will not exceed $700,000 with no single project costing in excess of $175,000. These costs will be financed from working funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7734]

MID-CONTINENT AREA POWER POOL AGREEMENT

Extension of Time

JULY 6, 1973.

On May 31, 1973, Intervenors, Alexandria Board of Public Works, et al., pursuant to an order of the Commission in this proceeding [1], filed its Status Report. On June 11, 1973, Alexandria filed a motion for Further Extension of Time; on June 18, 1973, a Joint Answer in Opposition to the Motion for Extension of Time was filed by participants; and on June 20, 1973, a response to the Joint Answer was filed by Alexandria. On June 25, 1973, pursuant to section 1.12(c) of the Commission's rules, Staff filed comments on these motions which supported Alexandria's request for an extension of time, provided the Presiding Administrative Law Judge has discretion to reduce the extension if he determines that such reduction is appropriate under the circumstances.

Alexandria, et al., contend that this docket should not proceed to hearing or that it should not be required to submit testimony until the outstanding matters of document production have been resolved. In light of the inability of Counsel to obtain a reasonable, voluntary agreement with respect to document production and inspection to be afforded the intervenors, Alexandria requests that resolution be had by formal application to Judge Fribourg and that Judge Fribourg be permitted to move these matters ahead in a timely manner. Alexandria, et al., therefore, moved that this Commission grant an extension of ninety (90) days for submission of its case in chief, with discretion vested in the Presiding Administrative Law Judge to reduce the requested extension if he determines it is appropriate to do so.[2]

The extension requested by Alexandria in its motion dated June 11, 1973 is intended to provide Judge Fribourg and the parties with reasonable time to resolve the present disagreement with respect to document production and afford an adequate period to conclude this phase of the proceeding including preparation of additional direct testimony.

Judge Fribourg is hereby ordered to set the matter for hearing and rule on the allowable scope of discovery and the relevancy of the requested documents. All other dates previously provided by the Commission for filing testimony and commencing hearing are hereby extended accordingly.

The Commission finds:

It is appropriate and in the public interest to grant intervenors a 90 day extension of time for the filing of prepared testimony.

The Commission orders:

(A) Alexandria, et al., are hereby granted a 90 day extension of time, for the additional filing of prepared testimony. Accordingly, all additional dates previously set by the Commission for filing of the Company's and Staff's testimony and the Commencement of Hearing will also be extended for 90 days.

(B) The extension of time granted by this Commission will be for a 90 day period, without prejudice to the Administrative Law Judge reducing the 90 day period if he in his discretion determines that amended testimony should be submitted earlier than the 90 day period.

(C) Alexandria, et al., shall file with the Commission a report on or before August 17, 1973, on the progress and status of the revisions of its request for documents with respect to that date and other steps that it has taken with respect to these proceedings.

(D) All requests not specifically granted by this order are hereby denied.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[FR Doc.73-14666 Filed 7-17-73;8:45 am]

[Docket No. CP73-345]

MIDWESTERN GAS TRANSMISSION CO. AND PANHANDLE EASTERN PIPE LINE CO.

Notice of Application

JULY 10, 1973.

Take notice that on June 28, 1973, Midwestern Gas Transmission Company (Midwestern), P.O. Box 2511, Houston, Texas 77001, and Panhandle Eastern Pipe Line Company (Panhandle), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP73-345 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas between them and the construction and operation of certain facilities therefor, all as more fully set forth in the application which is on file with the Commssion and open to public inspection.

It is stated that Peoples Gas Light and Coke Company (Peoples), a customer of Midwestern, buys and sells natural gas for domestic, commercial, and industrial consumption in the City of Chicago, Illinois, and that Peoples has undertaken an underground storage exploration and testing program in Edgar County, Illinois. Peoples desires to have a portion of the gas purchased from Midwestern at Joliet, Illinois, delivered, instead, to it for testing purposes in Edgar County.

Panhandle and Midwestern, pursuant to an agreement dated June 5, 1972, as amended July 13, 1972, and April 19, 1973, propose to exchange up to 10,000 Mcf of gas per day for two years without monetary compensation. Panhandle proposes to deliver gas to Peoples at its existing 6-inch blow-off valve on its F-200 pipeline in Edgar County and receive equivalent volumes of gas from Midwestern at the interconnection of its and Midwestern's existing 24-inch pipeline in Edgar County. Midwestern states that it will reduce its current deliveries to Peoples at the Joliet delivery point by the quantity of gas delivered to Panhandle for redelivery to Peoples in Edgar County. The exchange agreement provides for deliveries on a volume basis without adjustment for the thermal content of the gas. Imbalances in deliveries will be corrected monthly.

It is stated that Peoples will either construct or reimburse Panhandle and Midwestern for the construction of certain taps, side valves, and gas measurement facilities at the point of interconnection between Panhandle's and Midwestern's pipelines and that upon completion of the proposed construction Panhandle and Midwestern will each own and operate the proposed facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.-10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition

[1] Order Denying Indefinite Extension of Time and Granting a Ninety Day Extension of Time, April 30, 1973.

[2] However, in its response to the Joint Answer in opposition to the Motion for an extension of time, Alexandria, et al., stated that pursuant to the order of this Commission dated April 30, 1973, it is preparing direct testimony of several witnesses to be served on the parties to this proceeding by June 22, 1973. Direct testimony was served on the parties to the proceeding on June 25, 1973, but Alexandria, et al., reserved the right to serve testimony of additional witnesses or modify, revise or supplement such testimony as will be served under the present deadline.

V 38 137
JUL 18 73
XUM

for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14673 Filed 7-17-73;8:45 am]

[Docket No. CP73-348]

NATURAL GAS PIPELINE OF AMERICA

Notice of Application

JULY 10, 1973.

Take notice that on June 29, 1973, Natural Gas Pipeline of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP73-348 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the replacement of a portion of two parallel 30-inch pipelines with two parallel 36-inch pipelines on Applicant's Gulf Coast line, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that Commonwealth Edison Company (Commonwealth Edison) is constructing an electric generating plant and a 1990 acre cooling lake in Grundy County, Illinois, and said lake will inundate approximately 1.61 miles of Applicant's two existing 30-inch main pipelines in Grundy County. Applicant proposes to replace these portions of said pipelines with two 36-inch heavy wall pipelines that are properly weighted to provide sufficient negative buoyancy for the continued safe operation of the Gulf Coast line. The estimated cost of the replacement is $1,353,000 which will be financed from funds on hand. It is stated that Commonwealth Edison will reimburse Applicant $1,158,200 for the proposed replacement.

The Gulf Coast line presently consists of the two parallel 30-inch pipelines which are partially looped with a third 36-inch pipeline. The 36-inch line terminates approximately 15.3 miles upstream from the proposed area of replacement. Applicant states that should it be required at some future date to extend the 36-inch loop beyond the area of the cooling lake, construction would be significantly affected by the existance of the lake and that, therefore, Applicant has determined that the most economical and prudent solution would be to eliminate the need for an extension of the third loop line through the inundated area by using the 36-inch pipe at this time.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14671 Filed 7-17-73;8:45 am]

[Docket No. E-8176]

SOUTHERN CALIFORNIA EDISON CO.

Suspension of Proposed Rate Increase

JULY 6, 1973.

Southern California Edison Company (Edison) on May 8, 1973, tendered for filing 15 Supplements to its FPC Rate Schedules applicable to its seven small resale (R-1) and five large resale (R-2) customers.[1] The proposed rate changes which would become effective on July 7, 1973, would increase annual revenues from jurisdictional sales and service by an estimated $335,088 (46.6%) increase to R-1 customers, and $17,631,941 (51.2%) to R-2 customers, an overall increase of 51.1 percent, based upon sales forecasted for the twelve month period ending June 30, 1974. The proposed increase ranges from 23.9 percent to 49.3 percent for the R-1 customers and from 38.6 percent to 52.2 percent for the R-2 customers.[2]

The proposed changes in the R-1 schedule include increased demand charges in all blocks, elimination of a 40,000 kW block after 10,000 kW billing demand (which does not affect any customer at present), and increased energy charges in all blocks. Proposed changes in the R-2 schedule include increased demand charges in all blocks, elimination of the 40,000 kW billing demand block after the first 10,000 kW billing demand (which affects all customers on the R-2 rate) and increased energy charges in all blocks.

In addition to the changes in basic rates, Edison proposes to change the added facilities charge rule of the Description of Service, of both R-1 and R-2 rate schedules. This change would increase the monthly charge from 1.25 percent of "* * * the added investment as determined by the utility * * *", to 1.50 percent. At present, this change would only affect billings to the City of Azusa.

In support of the proposed rate increase, Edison states that its existing rates were made effective as of November 14, 1971, pursuant to Commission Opinion No. 654, issued March 19, 1973, in Docket No. E-7618, and that on the basis of the cost study for the year 1972, presented in its rate filing, Edison's earned rate of return was 0.6 percent, as adjusted. Edison states that the proposed increased rates would produce a rate of return of 5.7 percent, including 5.5 percent for common equity. The adjustments to jurisdictional cost of service reflected in the supporting statements include: increase in labor expense, cost of fuel, research and development. State and local taxes and exclusive use costs. Edison requests that if the rate filing be suspended, it be suspended for one day only, asserting that the proposed rates will yield a rate of return of only 5.7 percent, whereas, it claims, a rate of return of 8.3 percent is justified. Copies of the rate filing were served upon Edison's 12 jurisdictional customers and interested State commissions. The Commission issued notice of the filing on June 7 which was published in the FEDERAL REGISTER on June 14, 1973, (38 FR 15666).

Several petitions to intervene have been filed. These will be acted upon by subsequent order. Certain petitioners contend that the rate increase should be rejected for filing requirements deficiencies and some request that the proposed rates be suspended for the five-months statutory period.[3] Our review of the filing and the pleadings indicates that the filing satisfactorily complies with our filing requirements and that there is no justification for a five-month suspension.

Our review of Edison's rate filing and the pleadings filed indicates that the proposed increased rates and charges raise issues which require development in an evidentiary hearing. The proposed increased rates and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

[1] The subject rate filing and rate schedule supplements are more specifically described in Appendix A hereto.

[2] Percentages exclude the proposed increase in charge for "added facilities" of $1,476 to the City of Azusa, California.

[3] Numerous letters and telegrams have been received from citizens, school districts, and commercial and industrial interests, objecting to the rate increase and asking that the rates be suspended for five months.

The Commission finds:

It is necessary and appropriate in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Edison's FPC Electric Rate Schedules as proposed to be amended, and that the proposed rate schedule supplements described above be accepted for filing, suspended and their use deferred as hereinafter provided.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act, the Commission's rules of practice and procedure, and the regulations Under the Federal Power Act, (18 CFR, Chapter I) a public hearing shall be held, commencing with a prehearing conference, on November 29, 1973, at 10:00 A.M. (EST) in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, concerning the lawfulness of the rates, charges, classifications and services contained in Edison's FPC Electric Rate Schedules, as proposed to be amended by the supplements described above.

(B) Pending hearing and decision thereon, Edison's proposed Rate Schedule Supplements, described above, and the rates and charges therein contained, as filed on May 8, 1973, are hereby suspended and the use thereof deferred until September 7, 1973.

(C) The Commission staff will serve its direct case on or before November 9, 1973. Intervenors will serve their direct case on or before November 23, 1973. At the Prehearing Conference on November 29, 1973, Edison's prepared testimony (Statement P), as its case-in-chief, together with its entire rate filing, and all testimony and exhibits served by the other parties shall be admitted to the record, subject to appropriate motions of the parties. Edison may serve rebuttal evidence on or before December 14, 1973. Cross-examination of witnesses shall commence at 10:00 A.M. (EST) on January 8, 1974.

(D) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (18 CFR 3.5(d)) shall preside at the hearing initiated by this order, and shall conduct such hearing in accordance with the terms of this order, and the Commission's rules of practice and procedure, and the Federal Power Act.

(E) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(F) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[Docket No. CI73-935]

STEPHENS PRODUCTION CO.

Notice of Application

JULY 11, 1973.

Take notice that on June 27, 1973, Stephens Production Company (Applicant), 115 North 12th Street, Fort Smith, Arkansas 72901, filed in Docket No. CI73-935 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Arkansas Louisiana Gas Company from the Mathers Ranch Field, Hemphill County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 56,250 Mcf of gas per month for one year at 35.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment, within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 24, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14591 Filed 7-17-73;8:45 am]

[Docket No. CI73-912]

SUN OIL COMPANY

Notice of Application

JULY 10, 1973.

Take notice that on June 22, 1973, Sun Oil Company (Applicant), P.O. Box 2880, Dallas, Texas 75221, filed in Docket No. CI73-912 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Company from the North Bayou Fer Blanc Field, LaFourche Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on June 13, 1973, within the contemplation of § 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the sixty-day emergency period within the contemplation of section 2.70

V 38 I 137 JUL 18 73 XUM

of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell up to 600 Mcf of gas per day at 50.0 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment. Applicant expects to sell approximately 20,000 Mcf per month. Applicant states it is willing to accept a certificate conditioned to a rate of 45.0 cents per Mcf at 15.025 psia.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said applications should on or before July 23, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14595 Filed 7-17-73;8:45 am]

[Docket No. CI73-925]

TEXAS AMERICAN OIL CORP. ET AL.

Notice of Application

JULY 10, 1973.

Take notice that on June 28, 1973, Texas American Oil Corporation, *et al.* (Applicant), Suite 1012, 300 West Wall, Midland, Texas 79701, filed in Docket No. CI73-925 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to El Paso Natural Gas from acreage in the Lower Penn Field, Eddy County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to commence the sale of natural gas, upon the completion of the construction of gathering line facilities, within the contemplation of § 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.299) and proposes to continue said sales for two years from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell up to 3,000 Mcf of gas per day at 45.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment. Initial upward Btu adjustment is estimated at 2.25 cents per Mcf.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 23, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any persons wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-346]

TRUNKLINE GAS CO.

Notice of Application

JULY 10, 1973.

Take notice that on June 28, 1973, Trunkline Gas Company (Applicant), P.O. Box 1642, Houston, Texas 77001, filed in CP73-346 an application pursuant to section 7 of the Natural Gas Act and § 157.7(g) of the regulations thereunder (18 CFR 157.7(g)) for a certificate of public convenience and necessity authorizing the construction and for permission and approval for the abandonment, for a 12-month period commencing on the date of issuance of such certificate, of field gas compression and related metering and appurtenant facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in the construction and abandonment of facilities which will not result in changing Applicant's salable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of the proposed construction and abandonment will not exceed $3,000,000 and the cost for any single project will not exceed $500,000. These costs will be financed from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI73-749]

WESTERN OIL PRODUCERS, INC.

Extension of Time and Postponement of Hearing

JULY 11, 1973.

On July 6, 1973, El Paso Natural Gas Company filed a motion for an extension of the procedural dates established by the order issued June 29, 1973, in the above-designated matter. The motion states that staff counsel does not oppose the request. On July 7, 1973, Western Oil Producers also requested an extension of the procedural dates.

Upon consideration, notice is hereby given that the procedural dates are postponed as follows:

Service of testimony and exhibits July 30, 1973.
Hearing August 6, 1973 (10:00 a.m., e.d.t.)

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14667 Filed 7-17-73;8:45 am]

FEDERAL RESERVE SYSTEM

CITIZENS BANK OF POQUOSON

Order Approving Application for Merger of Banks

Before the Federal Reserve Bank of Richmond acting under delegated authority from the Board of Governors of the Federal Reserve System.

Citizens Bank of Poquoson, Poquoson, Virginia ("Poquoson Bank"), a member State bank of the Federal Reserve System, has applied to the Board of Governors of the Federal Reserve System for prior approval pursuant to the Bank Merger Act (12 U.S.C. 1828(c)) to merge with First Virginia Bank of the Peninsula ("Peninsula Bank"), also a member State bank of the Federal Reserve System, the resulting bank to continue as a member State bank under the charter of Poquoson Bank with the name of Peninsula Bank. As an incident to the merger, the existing office and approved but unopened branches of Peninsula Bank, along with an approved but unopened branch of Poquoson Bank, would become authorized branch offices of the resulting bank.

As required by the Bank Merger Act, notice of the proposed merger, in form approved by the Board of Governors, has been published and reports on competitive factors have been requested from the Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation.

The Federal Reserve Bank of Richmond ("Reserve Bank") has considered the application and all comments and reports received in the light of the factors set forth in the Bank Merger Act, and finds that:

1. Both Poquoson Bank and Peninsula Bank are wholly-owned subsidiaries of First Virginia Bankshares Corporation, Falls Church, Virginia ("First Virginia"), a registered bank holding company. Poquoson Bank, originally organized in 1924, was acquired by First Virginia in January 1970; Peninsula Bank was opened in August 1971, as a subsidiary of First Virginia.

2. As of December 31, 1972, First Virginia, with deposits of $706 million, was the sixth largest banking organization in Virginia, holding 6.6 percent of total commercial bank deposits in the State.

3. Deposits of Poquoson Bank as of March 31, 1973, were $9,571,000. It has only one office at present, but has received approval to establish a branch in the city of Williamsburg, about 22 miles northwest of the location of its existing office. Peninsula Bank had deposits of $2,227,000 as of the same date, and operates a single office in the city of Hampton. Two branch offices have been approved to be located in the adjacent city of Newport News.

4. The relevant geographic market for purposes of the proposed merger is the Newport News—Hampton SMSA, which includes York County except for the extreme northern sections, in addition to the cities of Newport News and Hampton. Poquoson Bank and Peninsula Bank each operate one office in this area, and, as noted, Peninsula Bank has received permission to open two additional offices. Both banks are owned by First Virginia, and were acquired with prior approval of the Board of Governors. Combined, the two banks ranked eighth out of 12 banking organizations competing in the relevant market on June 30, 1972, accounting for only 2.7 percent of total deposits. The merger would have no adverse effect on banking competition.

5. The financial and managerial resources and the future prospects of the two banks proposing to merge and the resulting institution have been considered. There are some asset problems in Poquoson Bank of which First Virginia is aware and to which it is giving appropriate attention. With the addition of the experienced management of Peninsula Bank, it is believed that the condition of the resulting bank would be generally satisfactory. Economies to be derived from merger of the two banks should enhance the future prospects of the resulting institution.

6. Both the Newport News—Hampton SMSA and the city of Williamsburg are among the more rapidly growing areas of the State. Although the consolidated bank will not provide any new services, the convenience and needs of the communities will be equally as well served by the resulting bank as by the two separate institutions, and perhaps will be better served in light of the possible economies of scale that may result.

On the basis of the record in this case, the application is approved for the reasons summarized above. However, the transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the date of this order, unless such period is extended for good cause by the Board of Governors of the Federal Reserve System or by the Federal Reserve Bank of Richmond pursuant to delegated authority.

By order of the Federal Reserve Bank of Richmond, acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System, effective June 28, 1973.

[SEAL] ROBERT P. BLACK,
First Vice President.

[FR Doc.73-14613 Filed 7-17-73;8:45 am]

FIRST COMMERCE CORP.

Order Approving Acquisition of Money, Inc.; E-Z Finance Plan of Biloxi, Inc., and E-Z Finance Plan of Gulfport, Inc.

First Commerce Corporation, New Orleans, Louisiana, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of Money, Inc., New Orleans, Louisiana; E-Z Finance Plan of Biloxi, Inc., Biloxi, Mississippi; and E-Z Finance Plan of Gulfport, Inc., Gulfport, Mississippi ("Companies"). All of the companies engage in the activity of making or acquiring consumer loans or other extensions of credit. In addition, the Louisiana companies engage in the activity of acting as insurance agent or broker in the sale of credit life, accident and health insurance incident to extensions of consumer credit. Such activities have been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)(1),(9)). The Louisiana companies have not applied for permission to engage in the sale of property insurance; and the Mississippi companies are not presently engaged in any insurance activities.

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (38 FR 14203). The time for filing comments and views has expired, and none has been timely received.

Applicant controls one banking subsidiary, First National Bank of Commerce, New Orleans, Louisiana ("Bank"), which is the second largest bank in the New Orleans SMSA. Bank's deposits of $573 million, represent approximately 20 per cent of the total deposits in commercial banks in this area. (All banking data are as of June 30, 1972.)

Money, Inc. is based and operates entirely in Louisiana, while the other two companies are based and operate entirely in Mississippi. The Mississippi companies have a total of six offices, while the Louisiana company has 11 offices, five of which are located in the banking market in which Bank is located. These five offices had $1.3 million in consumer loans outstanding in 1972; Bank had $8 million in consumer loans outstanding, representing approximately 12 per cent of the total bank-originated consumer loans in the SMSA.

Although Bank and Money, Inc. both compete for consumer loan business in New Orleans, it appears that consummation of the proposed acquisition would

V 38 137 JUL 18 73 XUM

not have a significant effect on existing competition since Applicant's share of the consumer loan business in the market would be increased only slightly. Moreover, a substantial number of independent competitors would remain in the market. There are approximately 100 consumer finance companies which compete in the New Orleans area, and many of these companies have national affiliation. Those offices of Money, Inc. located outside of the New Orleans SMSA do not presently compete with any of Applicant's subsidiaries. Furthermore, it does not appear likely that significant competition would develop in the future between such offices and any of Applicant's subsidiaries.

None of Applicant's subsidiaries presently competes in any market in which offices of the Mississippi companies are located; nor does it appear likely that any significant competition would develop in the future, due to the distances involved. The Mississippi companies, combined, ranked seventeenth among the twenty largest consumer finance companies in Mississippi in 1971. Consummation of the transaction should increase the financial resources available to each of the companies. The introduction of management expertise and sophisticated operating systems by Applicant should enable the companies to better serve their respective markets. Accordingly, the Board concludes that competitive considerations and public interest factors are consistent with approval of the application.

The Louisiana companies also sell credit life insurance and accident and health insurance in connection with loans it originates. Due to the limited nature of its insurance activities it does not appear that Applicant's acquisition of such insurance activities would have any significant effect on either existing or potential competition.

There is no evidence in the record indicating that consummation of the proposed acquisition would result in undue concentration of resources, unfair competition, conflicts of interest, unsound banking practices, or other adverse effects.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[1] effective July 10, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

SECURITIES AND EXCHANGE COMMISSION

ALLEN GROUP, INC.

Notice of Applications for Unlisted Trading Privileges and of Opportunity for Hearing

JULY 11, 1973.

In the matter of applications of the PBW Stock Exchange, Inc. for unlisted trading privileges in certain securities.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the common stocks of the following company, which securities is listed and registered on one or more other national securities exchanges:

Allen Group, Inc., File No. 7-4417

Upon receipt of a request, on or before July 27, 1973 from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C., 20549 not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Recording Secretary.

[FR Doc.73-14645 Filed 7-17-73;8:45 am]

AMERICAN EDUCATIONAL SPECIALISTS ET AL.

Order Permanently Suspending Exemption

JULY 10, 1973.

In the matter of American Educational Specialists, Inc., 24FW-1569; Tronics Corporation, 24FW-1570; U.S. Environmental Systems, Inc., 24FW-1571; Erie-Niagara, Ltd., 24FW-1572; Med-Peds, Inc., 24FW-1573.

I. American Educational Specialists, Inc., Tronics Corporation, U.S. Environmental Systems, Inc., Erie-Niagara, Ltd., and Med-Peds, Inc., Nevada corporations incorporated on December 21, 1972, with offices located at 351 West Jefferson, Dallas, Texas, filed with the Commission

[1] Voting for this action: Vice Chairman Mitchell and Governors Daane, Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Chairman Burns.

V 38 I 137 JUL 18 73 XUM

on January 29, 1973, separate notifications on Form 1–A, with attached exhibits, including offering circulars, relating to an offering under each notification of 50,000 shares of 1-cent par value common stock at an offering price of $1.00 per share for an aggregate offering price to the public under each notification of $50,000 for the purpose of obtaining exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) of that Act and Regulation A promulgated thereunder. Amendments were filed naming Glendale Securities Corporation of Ridgewood, New York, as underwriter for each filing.

The Commission on April 19, 1973, temporarily suspended the Regulation A exemption of American Educational Specialists, Inc., Tronics Corporation, U.S. Environmental Systems, Inc., Erie-Niagara, Ltd., and Med-Peds, Inc., stating that it had reason to believe that the terms and conditions of Regulation A had not been complied with in that:

A. the notification and offering circulars were incomplete, inaccurate, and contained untrue statements of material facts and omitted to state material facts necessary to make the statements made in the light of the circumstances under which they were made not misleading, particularly with respect to:

1. Disclosure of all promoters and affiliates.

2. The identity and background of undisclosed affiliates and promoters.

3. Disbarment proceedings pending against a promoter and affiliate who is also counsel for the underwriter in all of the proposed offerings except Tronics Corporation.

4. The fact that each of these companies is an affiliate of the other companies in that they are all under the common control of undisclosed affiliates.

B. The terms and conditions of Regulation A had not been complied with in that:

The Offering Circulars failed to include statements of Cash Receipts and Disbursements.

C. The offering proposed by each of the issuers if commenced would have been made in violation of section 17 of the Securities Act of 1933, as amended.

III. No hearing having been requested by American Educational Specialists, Inc., Tronics Corporation, U.S. Environmental Systems, Inc., Erie-Niagara, Ltd., and Med-Peds, Inc. within thirty days after the entry of an order temporarily suspending the exemption of each of the Issuers under Regulation A, the Commission finds that it is in the public interest and for the protection of investors that the exemption of each of the Issuers under Regulation A be permanently suspended;

It is ordered, Pursuant to Rule 261(a) of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemption of each of the Issuers under Regulation A be, and it hereby is, permanently suspended.

By the Commission.

JULY 11, 1973.

In the matter of applications of the Boston Stock Exchange, Inc., for unlisted trading privileges in certain securities.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the common stocks of the following companies, which securities are listed and registered on one or more other national securities exchanges:

The Clorox Company (California), File No. 7-4418

Upon receipt of a request, on or before July 27, 1973 from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Recording Secretary.

NEW ENGLAND ELECTRIC SYSTEM AND NEW ENGLAND POWER CO.

Notice of Proposed Issue and Sale of First Mortgage Bonds at Competitive Bidding

JULY 12, 1973.

Notice is hereby given that New England Power Company, 20 Turnpike Road, Westborough, Massachusetts 01581 (NEPCO), an electric utility subsidiary company of New England Electric System, a registered holding company, has filed an application-declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating sections 6(b), 9(a), 10, and 12 of the Act and Rules 42(a) and 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application-declaration, as amended, which is summarized below, for a complete statement of the proposed transaction.

NEPCO proposes to issue and sell, subject to the competitive bidding requirements of Rule 50, $40,000,000 principal amount of First Mortgage Bonds, Series S, ___ percent, due ____. The interest rate (which shall be a multiple of ⅛ of 1%) and the price, exclusive of accrued interest, to be paid to NEPCO (which shall not be less than the principal amount nor more than 102¾ percent thereof) will be determined by the competitive bidding. The Series S Bonds will bear interest from August 1, 1973. NEPCO will notify prospective bidders not later than 12 noon, on the second full business day prior to the time designated for the submission of bids (i) the date on which the Bonds shall mature, which date shall not be more than 30 years from August 1, 1973, and (ii) whether or not the Bonds shall be redeemable during the first five years of their term, or some lesser portion thereof, in connection with refunding at a lesser effective interest cost to NEPCO. The Bonds will be issued under an Indenture of Trust and First Mortgage dated as of November 15, 1936, between NEPCO and New England Merchants National Bank (successor to the New England Trust Company), as Trustee, as amended and supplemented, and to be further supplemented by an Eighteenth Supplemental Indenture, dated as of August 1, 1973.

The net proceeds from the sale of the bonds will be used to reduce the amount of NEPCO's outstanding short-term promissory notes, which were issued to pay for capitalizable expenditures or to the reimbursement of its treasury therefor.

NEPCO states that The Massachusetts Department of Public Utilities, the New Hampshire Public Utilities Commission and the Vermont Public Service Board have jurisdiction over the proposed transaction and that no other state commission or federal commission, other than this Commission, has jurisdiction over the proposed transaction. Fees and expenses related to the proposed transaction are estimated at $115,000, including New England Power Service Company expenses (at cost) of $40,000, Trustee's fees and expenses of $8,000 and accounting fees of $6,000. The fees and expenses of counsel for the bidders will be supplied by amendment and will be paid by the successful bidders, except as provided in the Purchase Agreement relating to purchase of the bonds.

Notice is further given that any interested person may, not later than August 6, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration, as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Recording Secretary.

DEPARTMENT OF LABOR

Office of the Secretary

[Secretary's Order No. 16-73]

ASSISTANT SECRETARY FOR EMPLOYMENT STANDARDS

Delegation of Responsibility for Administration and Enforcement of Parts of the Federal Coal Mine Health and Safety Act

1. *Purpose.* This Order delegates authority and assigns responsibility to the Assistant Secretary for Employment Standards for the performance of the functions assigned to the Secretary of Labor pursuant to Parts B and C of Title IV of the Federal Coal Mine Health and Safety Act of 1969, as amended, with the exception of those functions vested with the Benefits Review Board by Secretary's Order 38-72.

2. *Background.* Secretary's Order 13-71 delegated to the Assistant Secretary for Employment Standards responsibility for Part C of Title IV of the Federal Coal Mine Health and Safety Act of 1969. Secretary's Order 38-72 delegated to the Benefits Review Board responsibility for making appeals of decisions on claims for compensation or benefits under those portions of the Federal Coal Mine Health and Safety Act of 1969, as amended, administered by the Secretary of Labor.

3. *Redelegation of authority.* The Assistant Secretary may redelegate authority vested in him by this Order.

4. *Reservation of authority.* a. The following functions are reserved to the Secretary:

(1) Submission of reports and recommendations to the President and the Congress concerning the administration of the Federal Coal Mine Health and Safety Act of 1969, as amended.

(2) The bringing of legal proceeding under the Act, with the Solicitor of Labor to make the determination in each case whether such proceedings are appropriate.

b. Those functions of the Benefit Review Board as presently described in Secretary's Order 38-72 are reserved.

5. *Directives affected.* Secretary's Order 13-71 is modified accordingly.

6. *Effective date.* This order is effective immediately.

Signed at Washington, D.C., this 29th day of June, 1973.

PETER J. BRENNAN, *Secretary of Labor.*

STABILIZATION OF RATES AND CHARGES, JUNE 1973

Order. At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 13th day of July 1973.

The President of the United States, by virtue of the authority vested in him by the Constitution and statutes of the United States, particularly the Economic Stabilization Act of 1970 (P.L. 91-379, 84 Stat. 799), as amended, has issued an Executive order dated June 13, 1973, providing for the freezing of prices for a maximum period of 60 days from the date of the said order at levels not greater than the highest of those pertaining to at least 10 percent of actual transactions by the seller during the period of June 1 to June 8, 1973, for like or similar commodities or services. The Executive order also provides, inter alia, that no seller shall charge and no purchase may pay a price for any commodity or service which exceeds the freeze price as defined in the Executive order.

It appearing, that there have been filed with the Interstate Commerce Commission schedules setting forth new increased rates, fares and charges and new rules, regulations and practices having the effect of increasing rates, fares and charges, applicable to movements in interstate or foreign commerce, to become effective July 14, 1973, through August 12, 1973;

And it further appearing, that the said schedules would, if permitted to become effective, result in rates, fares, charges, rules, regulations or practices which would result in price increases in violation of the Executive order described above; and good cause appearing therefor;

It is ordered, That the operation of the said schedules be and it hereby is suspended, and that the use thereof on interstate and foreign commerce be deferred for an indefinite period pending further order of this Commission, except that this paragraph does not apply to schedules voluntarily postponed prior to their effective date to a date not earlier than August 13, 1973.

It is further ordered, That neither the schedules hereby suspended nor those sought to be altered thereby shall be changed until further order of this Commission, except that rates, fares, charges, rules, regulations and practices may be changed if such change results in a reduction below the highest level which existed during the period of June 1 to June 8, 1973.

It is further ordered, That all carriers, respondents to this order, be, and they are hereby, directed to file with this Commission supplements containing notice of suspension of all increased rates, fares, charges, rules, regulations and practices which are subject to this order.

And it is further ordered, That a copy of this order be posted in the Office of the Secretary and in the Section of Tariffs of the Interstate Commerce Commission and that a copy be delivered to the Director, Office of Federal Register, for publication in the FEDERAL REGISTER and that all carriers subject to the jurisdiction of the Interstate Commerce Commission be, and they are hereby, made respondents to this order.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[No. 35766]

TRAFFIC EXECUTIVE ASSOCIATION EASTERN RAILROADS AND SOUTHERN FREIGHT ASSOCIATION

Investigation Regarding Transportation of Feed Grains to New England

Order. At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 29th day of June 1973.

By joint petition filed on February 8, 1973, the New England Governors' Conference and numerous other New England interests, as listed below, seek the institution of an investigation into the matter of the transportation of feed grains by all-rail and by lake-rail routes from certain midwestern origins to New England destinations. A statement in support of the petition was filed by the Secretary of Agriculture of the United States of America on March 5, 1973, and the eastern railroads filed a reply to the petition on March 2, 1973, urging that the petition be denied without prejudice to the filing of a formal complaint in accordance with the Commission's General Rules of Practice.

Prior to the filing of the said petition, this general subject was considered in an informal conference open to the public and attended by New England and other interests and conducted by staff members of the Commission, and thereafter on June 2, 1972, by notice headed "Feed Grains to New England", we declined to reconvene the informal conference upon request therefor, but stated:

Nevertheless—considering the extent of the interest shown; the importance of the particular transportation service to the economic welfare of an entire region of the nation, as demonstrated by the expressions of all the New England governors and their respective departments of agriculture in particular; and the innovative nature of the proposed operation, involving self-unloading vessels and "exploding" unit-trains, which holds a possibility of providing more efficient transportation by the joinder of the inherent advantages of two modes—we believe that the matter should not be precipitately terminated.

We concluded that we could not institute an investigation on our own motion and develop the record due to our limited resources, which, if committed to such a task, would interfere with the performance of our many other duties to the detriment of the general public interest, and noted that the Water Transport Association, one of the principal participants, had indicated the belief that the participants in the conference would be willing to develop the record.

We further concluded that if those interested in the matter were to file a petition requesting the institution of an investigation, we would tend to view it favorably, subject of course, to consideration of replies thereto, provided that the petitioners affirmatively indicated that they would be prepared to make the necessary record and bear the burden of proof, including more details concerning the proposed operation and data directed to such critical factors as:

1. The probative cost of all equipment and facilities required;
2. The probative cost of performing the present service over actual routes;
3. The probative cost of the proposed service over routes including all necessary carriers;
4. The economies accruing to the shippers, receivers, and ultimate consumers, if any; and
5. The environmental impact of the proposal; and

It appearing, that the request for the institution of an investigation contained in the joint petition filed February 8, 1973, rests on the following contentions:

(1) That existing rail rates for transporting Midwestern grain to New England producers are so high in comparison with rates applicable to such feed-grain movements from the same or similar origins to competing producers in the Southeast as to impose a severe and unduly prejudicial and disadvantageous burden upon the agriculture and industry of New England, contributing significantly to the economic distress of the region, and are therefore unjust and unreasonable;

(2) That these inequities can be most effectively remedied, and the provisions and objectives of the Interstate Commerce Act, including the national transportation policy, most effectively fulfilled by requiring the railroads to offer, for movement of grain to New England, railroad services of such types and at such rates as are comparable, cost considered, with the most efficient and expeditious services and accompanying rates applicable to grain movements from Midwest origins to other Northeastern points or

V 38 1 137 JUL 18 73 XUM

to the Southeast; and [redacted] that the Commission should act to prevent the frustration of healthy intermodal transport competition and the denial of the benefits of such competition to the public by requiring that comparable rail services and rates be offered on the railroad segments of water-rail routes as well as on all rail routes from Midwest to New England and other Northeastern points.

It further appearing, that the petitioners state that they are—

prepared to make the necessary record, and to present relevant, detailed data reasonably available to them with regard to: (1) the nature of discriminations and inequities to which the New England region is subject in railroad services and rates for the movement of feed grains from the Midwest; (2) the prejudice and disadvantage to the competitive position of New England producers caused by such discriminations and inequities, and the resulting injury to the economy of the region; (3) the willingness and ability of New England receivers to accept terms and conditions of service applicable to grain movements from the Midwest to the Southeast, to Morrisville, or to Albany or Atlantic ports if comparable rates were offered to New England; and (4) the willingness and ability of Great Lakes carriers to provide efficient and economical transportation for the movement of midwestern feed grain by water for transshipment by railroad to New England and other Northeastern points in competition with present or proposed all-rail service.

It further appearing, that, however, the petitioners suggest that—

they should not be burdened with the necessity of establishing the costs of railroad service.

It further appearing, that the petitioners are willing to go forward in making a record, although not with respect to all of the matters set forth in the notice of June 2, 1972; that the evidentiary considerations set forth in that notice do not necessarily constitute the elements required to make a prima facie case on any particular issue, the notice being merely advisory in nature; and that, without deciding whether the evidence sought to be presented by the petitioners is sufficient to make a prima facie case on any issue, petitioners should be afforded an opportunity to present their evidence and contentions on a formal record; therefore,

It is ordered, That an investigation be, and it is hereby, instituted in this proceeding under the authority of sections 13 and 304 of the Interstate Commerce Act into the matters set forth in the said petition.

It is further ordered, That the railroads represented by the Traffic Executive Association-Eastern Railroads and by the Southern Freight Association be, and they are hereby, made respondents herein.

It is further ordered, That this proceeding will be referred to an Administrative Law Judge for hearing and the recommendation of an appropriate order thereon and pre-hearing conference shall be scheduled at a time and place to be designated in a subsequent order.

And it is further ordered, That a copy of this order shall be served upon all participants in the informal conference, that a copy be posted in the Office of the Secretary of this Commission for public inspection, and that a copy be delivered to the Director, Office of the Federal Register, for publication therein as notice to all interested persons.

By the Commission.

U.S. SAVINGS BONDS, SERIES E

Dept. Circular No. 653, 8th Rev., 5th Supp.

No. 137—Pt. II——1

V 38 - 137 JUL 18 73 XUM

Title 31—Money and Finance: Treasury

CHAPTER II—FISCAL SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER B—BUREAU OF THE PUBLIC DEBT

PART 316—OFFERING OF UNITED STATES SAVINGS BONDS, SERIES E

Redemption Values and Investment Yields

The purpose of this fifth supplement to Department of the Treasury Circular No. 653, Eighth Revision, dated December 12, 1969, as amended (31 CFR Part 316), is to show the redemption values and investment yields for the next extended maturity period for United States Savings Bonds of Series E bearing issue dates of December 1, 1943, through May 1, 1944; December 1, 1953, through March 1, 1954; April 1 through May 1, 1954, and December 1, 1966 through May 1, 1967. Accordingly, the tables to the circular are hereby supplemented by the addition of Tables 9–A, 34–A, 35–A and 79–A, as set forth below.

Dated: July 9, 1973.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

TABLE 9–A

BONDS BEARING ISSUE DATES FROM DECEMBER 1, 1943, THROUGH MAY 1, 1944 [1]

Issue price	$18.75	$37.50	$75.00	$375.00	$750.00	Approximate investment yield (annual percentage rate)		
Denomination	25.00	50.00	100.00	500.00	1,000.00			
Period after second extended maturity (beginning 30 years after issue date)	(1) Redemption values during each half-year period (values increase on first day of period shown) — THIRD EXTENDED MATURITY PERIOD					(2) From beginning of third extended maturity period to beginning of each half-year period	(3) From beginning of each half-year period to beginning of next half-year period	(4) From beginning of each half-year period to third extended maturity
						Percent	*Percent*	*Percent*
First ½ year [2]	(12/1/73)	$53.99	$107.98	$215.96	$1,079.80	$2,159.60	0.00	5.48	5.50

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

■

Handbook of Departmental Policies, Responsibilities and Procedures for Protection and Enhancement of Environmental Quality

V 38 - 137 JUL 18 73 XUM

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[Docket No. N-73-182]

PROTECTION AND ENHANCEMENT OF ENVIRONMENTAL QUALITY

Procedures

On October 20, 1972 (37 FR 22673) the Council on Environmental Quality published HUD Circular 1390.1, "Departmental Policies, Responsibilities and Procedures for Protection and Enhancement of Environmental Quality" implementing section 102(2)(C) of the National Environmental Policy Act of 1969 (P.L. 91-190). Although this Circular was issued as a draft on July 16, 1971, it was made effective immediately, pending issuance of final procedures.

The Department consulted with the Council on Environmental Quality on the procedures and considered comments from interested parties, including numerous Federal agencies. Major changes and improvements have been made, and the revised procedures are now being issued in the form of HUD Handbook 1390.1, "Departmental Policies, Responsibilities and Procedures for Protection and Enhancement of Environmental Quality." These new procedures will facilitate and promote the Department's implementation of the National Environmental Policy Act of 1969.

On May 2, 1973 (38 FR 10856) the Council on Environmental Quality published proposed revised guidelines on the preparation of environmental impact statements. These proposed guidelines provide that, after they are made effective, each Federal agency shall revise its procedures to respond to requirements imposed by the revised guidelines.

Since the Department's new procedures will substantially improve implementation of its environmental responsibilities and will soon be further revised to comply with the revised CEQ Guidelines, comment and public procedure would be unnecessary and contrary to the public interest and good cause exists for making HUD Handbook 1390.1 effective upon publication.

Interested parties are invited to submit written comments concerning the revised procedures to the Rules Docket Clerk, Office of the General Counsel, Room 10256, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410.

(Sec. 7(d), Department of HUD Act; 42 U.S.C. 3535(d); sec. 102(2), National Environmental Policy Act of 1969; 42 U.S.C. 4332(2))

JAMES T. LYNN,
Secretary of Housing and Urban Development.

[1390.1]

DEPARTMENTAL POLICIES, RESPONSIBILITIES AND PROCEDURES FOR PROTECTION AND ENHANCEMENT OF ENVIRONMENTAL QUALITY

HUD STAFF

Approved June 11, 1973.

TABLE OF CONTENTS

CHAPTER I—GENERAL POLICY AND RESPONSIBILITY

1. Purpose and authority.
2. Terminology.
3. General policy.
4. Office responsibilities for protection and enhancement of environmental quality.
   a. Assistant Secretary for Community Planning and Development.
   b. General Counsel.
   c. Assistant Secretaries and Federal Insurance Administrator.
   d. Assistant Secretary for Administration.
   e. Regional Administrators.
   f. Area Office and Insuring Office Directors.

CHAPTER II—ENVIRONMENTAL CLEARANCES

5. Environmental Clearance Policy on HUD Actions.
   a. General.
      (1) Exemptions.
      (2) Additional requirements.
      (3) Controversy.
      (4) Retroactivity.
      (5) Evaluation of comprehensive activities.
      (6) Properties listed on, or nominated to, the National Register of Historic Places.
      (7) Environmental Clearance Forms.
      (8) Relationship between A-95 procedures and environmental clearance procedures.
      (9) Updating environmental clearances.
   b. Normal environmental clearance.
   c. Special environmental clearance.
      (1) Project level actions.
      (2) Policy actions (legislation, regulations, policy and guidance documents).
   d. Environmental impact statement clearance.
6. Public disclosure.

CHAPTER III—REVIEW OF OTHER AGENCIES ENVIRONMENTAL IMPACT STATEMENTS

7. HUD comments on environmental impact statements. Initiated by Other Federal Agencies.

CHAPTER IV—[RESERVED]

APPENDICES

A. Proposed HUD actions requiring special environmental clearance or environmental impact statement clearance.
   A-1. Project level actions subject to threshold criteria.
   A-2. Other HUD actions with special requirements.
B. Environmental decision making process.
   B-1. Initial determination of required environmental clearance.
   B-2. Flowchart of environmental clearance procedures.
C. Environmental clearance forms.
   C-1. Applicant's environmental information (Form ECO-1) and instructions.
   C-2. Normal environmental clearance worksheet (Form ECO-2).
   C-3. Special environmental clearance worksheet (Form ECO-3).
   C-4. Environmental finding resulting from special clearance.
D. Environmental Impact Statement.
   D-1. Outline of content of environmental impact statement for HUD project level actions.
   D-2. Outline of content of environmental impact statement for HUD policy actions.
   D-3. Format for summary sheet of environmental impact statement.
   D-4. Format for cover page of HUD environmental impact statement.
E. Field Responsibilities for environmental clearance.
F. Format for finding of inapplicability for policy actions.
G. Outline of content for HUD comment on environmental impact statements of other agencies.
H. HUD Areas of jurisdiction by law or special expertise.
I. Title I of the National Environmental Policy Act of 1969 (P.L. 91-190).[1]
J. Executive Order 11514, protection and enhancement of environmental quality.[2]
K. Council on environmental quality guidelines on statements on proposed Federal actions affecting the environment.[3]
L. Advisory Council on Historic Preservation, National Register of Historic Places, Protection of Properties; Procedures for Compliance.[4]
M. Executive Order 11593, protection and enhancement of the cultural environment.[5]

DEPARTMENTAL POLICIES, RESPONSIBILITIES AND PROCEDURES FOR PROTECTION AND ENHANCEMENT OF ENVIRONMENTAL QUALITY

CHAPTER I—GENERAL POLICY AND RESPONSIBILITIES

1. *Purpose and authority.* The National Environmental Policy Act of 1969 (P.L. 91-190) establishes new national policy, goals and procedures for protecting and enhancing environmental quality. The act, effective January 1, 1970, establishes the Council on Environmental Quality to set overall policies to implement the Act.

The National Environmental Policy Act (NEPA) directs the Federal government to use all practicable means, including financial and technical assistance, to implement the national policy. NEPA governs all Federal departments and agencies and requires systematic attention to the environmental consequences of all Federal activities

The purposes of this Handbook are to set forth departmental environmental policy, to assign responsibilities, and to provide procedural guidance to all headquarters and field offices for environmental clearances under NEPA. The Handbook applies to HUD legislative proposals, policy and guidance documents (including guides, regulations, handbooks, circulars, technical standards, etc.), and individual project approval actions on insurance, loans and grants, subsidies and demonstration projects.

This Handbook is based on authority provided in:

a. The Department of Housing and Urban Development (HUD) Act of 1965 (P.L. 89-174) which provides that the Secretary may make rules and regulations as may be necessary to carry out his functions, powers, and duties, and sets forth, as a matter of national purpose, the sound development of the Nation's communities and metropolitan areas;

b. The National Environmental Policy Act of 1969 (P.L. 91-190) which establishes a comprehensive policy for protection and enhancement of environmental quality by the Federal Government, creates the Council on

[3] Filed as part of the original document. See 36 FR 7724, April 23, 1971.
[4] Filed as part of the original document. See 37 FR 24146, November 14, 1972.
[5] Filed as part of the original document. See 36 FR 8921, May 15, 1971.

Environmental Quality (CEQ) in the Executive Office of the President and directs Federal Agencies to carry out the purposes of this Act;

c. Presidential Executive Order 11514, dated March 5, 1970, which directs heads of agencies to monitor, evaluate and control their agencies' activities so as to protect and enhance the quality of the environment (see Appendix J);

d. The Guidelines of the Council on Environmental Quality, dated April 23, 1971, which call for heads of agencies to establish agency procedures for implementing section 102(2)(C) of NEPA (see Appendix K);

e. Office of Management and Budget (OMB) Circular A-95, dated February 9, 1971, and amended March 8, 1972, which provides for inputs by State and local agencies authorized to develop and enforce environmental standards regarding the environmental impact of proposed projects for which Federal assistance is sought;

f. OMB Bulletin 72-6, September 14, 1971, which establishes procedures for environmental statements to accompany legislative proposals and provides for annual budget estimates to be accompanied by a list of specific actions which require preparation of an Environmental Impact Statement;

g. Section 106 of the National Historic Preservation Act of 1966 (P.L. 89-665) and Procedures for Compliance issued by the National Council on Historic Preservation (see Appendix L) and Presidential Executive Order 11593 (see Appendix M), dated May 13, 1971, which require heads of agencies to administer their programs so as to preserve the Nation's cultural environment, particularly sites on the National Register of Historic Places;

h. The Housing Act of 1949 (P.L. 81-171) which sets forth the national goal of "a decent home and a suitable living environment for every American family," affirmed by the Housing and Urban Development Act of 1968 (P.L. 90-448).

2. *Terminology*—a. *Environment.* Environment is not defined in NEPA or in the CEQ Guidelines. However, it is clear from section 102 of the Act and elsewhere that the term is meant to be interpreted broadly to include physical, social, cultural, and aesthetic dimensions. Examples of environmental considerations are: air and water quality, erosion control, natural hazards, land use planning, site selection and design, subdivision development, conservation of flora and fauna, urban congestion, overcrowding, displacement and relocation resulting from public or private action or natural disaster, noise pollution, urban blight, code violations and building abandonment, urban sprawl, urban growth policy, preservation of cultural resources, including properties on the National Register of Historic Places, urban design and the quality of the built environment, the impact of the environment on people and their activities.

b. *Major Federal actions significantly affecting the quality of the human environment.* Those actions taken by a Federal agency which require Environmental Impact Statements in accordance with section 102(2)(C) of the National Environmental Policy Act. As HUD processes between 15,000 and 20,000 applications per year at the project level, not including insurance actions on individual houses, the three level environmental clearance process defined in this Handbook shall be used to determine which action is a major Federal action significantly affecting the quality of the human environment.

c. *Significant environmental impact.* For the purposes of this Handbook, the term "significant environmental impact" is used to describe the consequences of an action significantly affecting the quality of the human environment. This term is defined to some extent in paragraph 5 of the CEQ Guidelines, but the definition in general is a matter of discretion delegated to agency heads for formulation of guidelines subject to the approval of CEQ.

d. *Environmental impact.* An environmental impact is any alteration of environmental conditions or creation of a new set of environmental conditions, adverse or beneficial, caused or induced by the action or set of actions under consideration. Assessment of the significance of the environmental impact generally involves two major elements: A quantitative measure of magnitude and a qualitative measure of importance. Such a determination is a matter of agency judgment and consensus; at the project level, this judgment shall be governed by HUD environmental policies and standards.

e. *HUD environmental policies and standards:* National, Departmental, and program objectives, policies, standards, and procedures. These include: (1) National environmental goals and policies as expressed in the National Environmental Policy Act, other statutes and Executive Orders listed in paragraph 1 above, and guidelines issued by the Council on Environmental Quality; (2) Department-wide standards and policies such as HUD Circular 1390.2; and (3) environmental considerations contained in program policy and guidance documents, including environment-related project selection criteria, minimum property standards, and environmental elements of program circulars, handbooks and other issuances. Further clarification will be provided with the revision of program policies, procedures, standards and criteria and/or issuance of the consolidated office-wide circulars or handbooks of environmental policies and standards as provided in paragraph 4.c.(2).

f. *Major amendatory.* For the purposes of this Handbook, a significant change in the nature, magnitude or extent of the action from that which was originally evaluated and which may have a significant affect on the quality of the human environment, such as an environmentally significant change in location or site, area covered, size or design in which case they require environmental clearance. An increase or decrease in cost is considered a major amendatory only when the increase or decrease reflects such an environmentally significant change in the project.

g. *Threshold.* A criterion of size or of environmental impact above which a Special Environmental Clearance is always required. The threshold is designed to screen out the more important HUD actions for special attention. HUD thresholds are set forth in Appendix A-1 of this Handbook.

h. *Decision points.* Those points of Federal commitment in the decision-making process before which prescribed environmental clearances must be completed. HUD decision points are set forth in Appendix A-1 of this Handbook.

i. *Finding of inapplicability (negative statement).* A determination by an authorized HUD official, under the authority of the HUD Guidelines approved by CEQ, which are issued in accordance with the CEQ Guidelines implementing NEPA, that no Environmental Impact Statement is required for the proposed HUD action under consideration. The Finding of Inapplicability for project level actions is a part of the Special Environmental Clearance. The format for the Finding of Inapplicability for policy actions is set forth in Appendix F.

j. *Comments.* Formal reactions by one Federal agency to the proposed action and the Draft Environmental Impact Statement of another Federal agency; also formal reactions of State and local agencies or of public or private groups to the proposed action. Each Federal agency, including HUD, is obliged to take these comments received on its Draft Environmental Impact Statement into account in the Final Environmental Impact Statement and in the approval or disapproval of the proposal. The HUD format for comments on Environmental Impact Statements of other agencies is set forth in Appendix G.

k. *Areas of jurisdiction by law or special expertise.* The areas in which one agency is asked to comment on major actions by another agency in accordance with NEPA and the CEQ Guidelines. Appendix II to the CEQ Guidelines provides CEQ views on those areas. HUD Draft Environmental Impact Statements shall be sent to those agencies listed under the appropriate areas to solicit their comments. HUD's areas of expertise in which HUD comment will be solicited are listed in Appendix H.

l. *Substantial rehabilitation.* Repair or rehabilitation of a structure which prolongs its useful life for twenty (20) years or more.

3. *General policy.* The national goal of "a decent home and a suitable living environment for every American family"—established by the Housing Act of 1949 and subsequently reaffirmed by Congress in 1968—is central to the mission of the Department of Housing and Urban Development (HUD). The National Environmental Policy Act (NEPA) furthers this goal. While recognizing that adverse environmental impacts are sometimes unavoidable in pursuing other goals, NEPA requires that environmental values be given appropriate consideration in decision-making along with economic and technical factors. The object is to achieve the optimum balance among competing needs and goals—not to stop the building of cities, but rather to build with foresight so that rational development is achieved with due regard for the capacity of natural and man-made systems and for the quality of life attained within the resulting environment.

In addition to the prevailing national emphasis on anti-pollution and conservation aspects, HUD is also concerned with the environment of urban areas and how it affects the quality of life. Efforts to improve the quality of the environment certainly involve the abatement and prevention of many annoying and threatening nuisances—air pollution, water pollution, land pollution, noise—which impinge on our daily living. But efforts to improve environmental quality also include more positive actions such as provision of open space, the development of aesthetically pleasing urban areas, provision of adequate access to employment and cultural opportunities, reductions in structural deficiencies, maintenance of high quality in new construction, and appropriate planning for the proper juxtaposition of spaces for various human activities.

a. It is the policy of the Department to reject proposals which have unacceptable environmental impacts, based on HUD environmental policies and standards, which cannot be avoided, and to encourage modification of project proposals or plans in order to enhance environmental quality and minimize environmental harm. At each stage of the environmental clearance HUD officials shall work with the applicant to seek means for avoiding adverse environmental impact, maximizing environmental quality, and considering superior alternatives.

b. When environmental clearances reveal conditions or safeguards which should be implemented once a project is approved in order to protect and enhance environmental quality or minimize adverse environmental impacts, such conditions or safeguards shall be set forth as requirements in the contract, grant, or other documents which delineate the obligations of the recipient. The con-

V 38 I 137 JUL 18 73 XUM

tractor's performance in meeting such conditions shall be monitored and evaluated as part of the normal project monitoring and evaluation.

c. Environmental impact shall be evaluated on as comprehensive a scale as is feasible, with a view to the overall cumulative impact of HUD actions and programs, as well as the project specific impacts of a particular proposal. Environmental factors shall be considered as early as possible in the review and decision-making process.

d. Section 102(2)(A) of the National Environmental Policy Act directs all agencies to "utilize a systematic, interdisciplinary approach which will insure the integrated use of the natural and social sciences and the environmental design arts in planning and in decision-making which may have an impact on man's environment." When making determinations regarding environmental impacts: HUD officials shall consult HUD professional personnel, such as urban planners, landscape architects, civil engineers, sanitary engineers, architects, economists, demographers, sociologists, lawyers, and others who are qualified to provide advice on specialized and broad aspects of environmental concerns.

e. HUD officials shall continue to establish and review environmental policies, standards and procedures for administering HUD programs to promote environmental quality. HUD policies and procedures must be consistent with this Handbook.

4. *Office responsibilities for protection and enhancement of environmental quality.*—a. *Assistant Secretary for Community Planning and Development (CPD).* The Assistant Secretary for CPD is assigned the overall departmental responsibility for administering and coordinating the department-wide aspects of environmental policies and procedures set forth in this Handbook. He shall be assisted as appropriate by all HUD Assistant Secretaries, the General Counsel, the Federal Insurance Administrator, and the HUD Regional Administrators, and he shall have authority to delegate portions of the total responsibility as appropriate. The Assistant Secretary for CPD shall provide leadership in moving toward a unified departmental set of policies and standards to be applied to all HUD actions. He shall also be HUD's principal point of contact with the Council on Environmental Quality, the Advisory Council on Historic Preservation, the Environmental Protection Agency, other Federal agencies and State and local groups on environmental matters. He shall promulgate such additional internal HUD guidance as may be necessary for carrying out these functions and shall monitor and audit HUD activities pursuant to this policy. He may designate a senior staff member as the Departmental Environmental Clearance Officer (ECO) to act for him in carrying out responsibilities under this Handbook.

b. *General Counsel.* The General Counsel shall:

(1) Designate an Environmental Clearance Officer (ECO) who shall act as his principal advisor on environmental matters and establish environmental clearance procedures for his office;

(2) Require the preparation of the Environmental Impact Statement or Finding of Inapplicability for all new HUD legislative proposals which may have significant environmental impact;

(3) Require the preparation of a Draft Environmental Impact Statement or a Finding of Inapplicability prior to the publication of each notice of proposed rule making in the FEDERAL REGISTER, and a Final Environmental Impact Statement (where applicable) prior to the approval and promulgation of new regulations which may have a potential for significantly affecting the quality of the human environment (see paragraph 5.c.(2));

(4) Be provided the opportunity to review Draft and Final Environmental Impact Statements prior to issuance for policy actions and Central Office project actions.

(5) Support the Assistant Secretary for CPD on matters relating to litigation, interpretation of statutory requirements and other areas as appropriate.

c. *Assistant Secretaries and Federal Insurance Administrator.* (1) Designate an Environmental Clearance Officer (ECO) a senior official (or staff director) who shall act as principal advisor on environmental matters, maintain an environmental reference file of appropriate background and resource material, oversee the development of environmental policies, standards and procedures for the office, monitor proposed policy actions and provide for environmental clearances for those which may have a potential for significantly affecting the quality of the human environment and maintain liaison with the Assistant Secretary for CPD;

(2) Revise existing program policies, procedures, standards, criteria, and application forms promulgated by his office to include provisions for environmental considerations and clearance requirements in accordance with departmental policies and procedures set forth in this Handbook; and/or issue a new document or environmental standards, criteria, and clearance procedures which shall govern all programs under his jurisdiction;

(3) Establish and maintain, in consultation with the Assistant Secretary for CPD, orderly procedures for environmental clearances for proposed policy actions which may have significant environmental impact. These shall provide for an Environmental Impact Statement or a Finding of Inapplicability for proposed legislation, new regulations, policy issuances, guidance documents or revisions to program policies and procedures which may have a potential for significantly affecting the quality of the human environment (see paragraph 5.c.(2));

(4) Assign sufficient qualified personnel to activities required to implement this Handbook and to address general issues of environmental protection and enhancement; and

(5) Provide to the Assistant Secretary for CPD a formal evaluation each year of progress in his program area in those activities specified in (2) through (4) above. This shall include a review of environmental clearances of programs and policy documents accomplished in the previous year and an assessment of what needs to be done in the upcoming year.

d. *Assistant Secretary for Administration.* The Assistant Secretary for Administration or his designee shall support the Assistant Secretary for CPD in budgetary process requirements set forth in OMB Bulletin No. 72-6.

e. *Regional Administrators.* Each Regional Administrator shall:

(1) Designate his Assistant Regional Administrator for CPD as the Regional Office Environmental Clearance Officer (RO–ECO), who shall act as principal advisor to the Regional Administrator on environmental affairs, maintain an environmental reference file of appropriate background and resource material, oversee and monitor environmental clearances throughout the Region including compliance with the review requirements of Section 106 of the Historic Preservation Act, and provide training as necessary;

(2) Assign sufficient qualified personnel to carry out environmental clearances described herein, and take other actions necessary to carry out departmental environmental policies and standards, as directed by this Handbook;

(3) Provide the Assistant Secretary for CPD with a formal annual evaluation of the progress in implementing NEPA and this Handbook for all programs in the Region; and

(4) Bring to the attention of the Assistant Secretary for CPD significant policy issues which appear to require additional departmental guidance regarding their environmental aspects.

f. *Area Office and Insuring Office Directors.* The Area and Insuring Office Directors, shall:

(1) Designate, in the Area Office, the Assistant Director for Planning and Relocation as the Area Office Environmental Clearance Officer (AO–ECO) (a different senior official or staff director reporting directly to him or his deputy may be designated as the ECO with the approval of the RO–ECO and the Assistant Secretary for CPD), who shall act as principal advisor to the Area Director on environmental affairs, maintain an environmental reference file of appropriate background and resource material, oversee and monitor environmental clearances in the Area Office, and provide training as necessary. The ECO's responsibilities shall also include evaluating the adequacy of the performance of the program staff regarding environmental clearances for which they are responsible and recommending changes where necessary to the Area Director. For purposes of compliance with the special review requirements of section 106 of the Historic Preservation Act (see Appendix L), the AO–ECO shall also serve as the staff member responsible for compliance with section 106.

(2) Designate, in the Insuring Office, the Chief Underwriter as the Insuring Office Environmental Clearance Officer (IO–ECO), who shall act as principal advisor to the Insuring Office Director on environmental affairs, maintain an environmental reference file of appropriate background and resource material, oversee and monitor environmental clearances in the Insuring Office, and provide training as necessary. The ECO's responsibilities shall also include evaluating the adequacy of the performance of the program staff regarding environmental clearances for which they are responsible and recommending changes where necessary to the Area Director. For purposes of compliance with the special review requirements of section 106 of the Historic Preservation Act (see Appendix L), the IO–ECO shall also serve as the staff member responsible for compliance with section 106.

(3) Assign sufficient qualified personnel to carry out environmental clearances described herein, and take other actions necessary to carry out departmental environmental policies and standards, as directed in this Handbook;

(4) As directed by the Regional Administrator, provide for periodic evaluation of the progress in implementing NEPA and this Handbook; and

(5) Bring unresolved policy issues to the attention of the Regional Administrator.

CHAPTER 2—ENVIRONMENTAL CLEARANCES

5. *Environmental clearance policy on HUD actions.* The purpose of this section is to establish a procedure for determining whether a proposed HUD action is a "major Federal action significantly affecting the quality of the human environment", and whether the proposal should be accepted, rejected, or modified accordingly.

a. *General.* The procedure involves a three level environmental clearance process: Normal Environmental Clearance; Special Environmental Clearance; and Environmental Impact Statement Clearance.

Normal Clearance is essentially a consistency check with HUD environmental policies and standards and a brief evaluation of environmental impact. Special Clearance requires an environmental evaluation of greater detail and depth. Finally, an Environmental Impact Statement is the complete and fully comprehensive environmental evaluation, including formal review by other Federal, State and local agencies, as prescribed by section 102(2)(C) of NEPA.

Many HUD actions will be subject to a Normal Environmental Clearance. On the basis of that clearance, the proposed project shall be accepted, rejected, or modified accordingly. However, if, even after appropriate modification to mitigate environmental impacts, it is determined that there is potential significant environmental impact, Special Clearance procedures shall be initiated. If, after Special Clearance and the implementation of any changes mitigating environmental impacts, such impacts are still significant as a result of the action, an Environmental Impact Statement shall be prepared on the proposed action.

Not all proposed actions will undergo Normal Environmental Clearance. Some, because of their size or for other reasons, shall be processed directly through Special Clearance or Environmental Impact Statement Clearance. Projects which shall go directly through Special Clearance or Environmental Impact Statement Clearance are described in Appendices A and B–1.

All required environmental clearances shall be completed prior to the decision points described in Appendix A. The environmental clearance process is discussed further in Appendix B.

(1) *Exemptions.* Although HUD's general policy on environmental considerations applies to all HUD actions, the procedural requirements for environmental clearances set forth in this paragraph shall not apply to those HUD actions which have been determined not be "major Federal actions significantly affecting the quality of the human environment". These shall include an individual action on a one-to-four family dwelling, training grants, or rehabilitation and modernization projects which do not extend the life of a structure twenty (20) years or more. Exemptions from environmental clearances do not exempt these activities from the requirements of Section 106 of the National Historic Preservation Act of 1966 when a property is listed on, or nominated to, the National Register of Historic Places. (See Appendix L for Advisory Council on Historic Preservation procedures.)

Planning assistance projects (701 Comprehensive Planning Assistance grants and other planning loans and grants) are exempted from the procedural requirements, but in lieu thereof an environmental assessment of the final planning product shall be required as part of the proposed planning program.

With respect to disaster relief and emergency activities of the Department, procedures for environmental clearance shall not apply to actions designed to meet the temporary housing needs of the affected population. Disaster activities which provide permanent housing and other recovery efforts will follow the environmental clearance procedures. However, where required by the serious nature of the situation and upon the approval of the Assistant Secretary for CPD, activities such as disaster related early land acquisition, clearance of damaged structures and relocation efforts may take place prior to the completion of the environmental review.

Except for these exemptions, all HUD actions must undergo one or more environmental clearances.

(2) *Additional requirements.* The responsibilities and clearance requirements set forth in this paragraph represent minimum Departmental requirements. Regional Administrators and Area and Insuring Office Directors with the concurrence of the Regional Administrator have discretion to require such additional clearances and responsibilities as are deemed necessary for the effective implementation of this Handbook.

(3) *Controversy.* Decisions resulting from Normal or Special clearance shall give adequate consideration to existing or potential environmental controversy. Issues raised by opponents and supporters of the HUD actions shall be carefully examined to determine whether the project involves significant environmental impacts. Major controversy which appears to raise substantive environmental issues is a factor which should contribute to a decision to undertake a more comprehensive environmental clearance procedure than would otherwise be initiated. For example, in the case of projects which would ordinarily require only Normal Clearance, major environmental controversy should weigh heavily in the decision to undertake a Special Clearance. Likewise for projects which normally require only Special Clearance, major controversy on environmental issues should weigh heavily in the decision to undertake Environmental Impact Statement Clearance.

(4) *Retroactivity.* To the maximum extent practicable, environmental clearance shall be required for uncompleted projects which have never gone through an environmental clearance under NEPA, at such time as a subsequent significant HUD action, such as the next stage of program approval or approval of a major amendatory, is proposed. Where it is not practicable to reassess the basic course of action, major attention should be given to measures, which, given the stage of project completion, may reduce adverse environmental impact. It is also important in taking further action that account be taken of environmental consequences not fully evaluated at the outset of the project.

(5) *Evaluation of comprehensive activities.* Individual actions that are related either geographically or as logical parts in a composite of contemplated actions may be more appropriately evaluated in a single environmental clearance. For example, several subdivisions may form a large new development. Likewise, a comprehensive project may be composed of, or include, several interrelated activities, e.g., development of a new community or redevelopment of a center city area. In these cases, and where feasible, HUD offices should aggregate individual activities into a larger package and environmental evaluation shall concentrate on the broad and cumulative impacts of the larger activity, as well as the project specific impact of component activities to the extent known.

The comprehensive environmental evaluation will not satisfy the requirements of this Handbook, however, if it is superficial or limited to generalities. When all significant issues cannot be anticipated or adequately treated in connection with the comprehensive assessment as a whole, environmental clearances of more limited scope will be necessary on subsequent, individual actions in order to fulfill the requirements of this Handbook.

Impacts of individual activities may be singularly limited but cumulatively considerable. One purpose of this provision, therefore, is to stimulate a more comprehensive environmental evaluation. In addition, there may be environmental impacts which are common to all or most components of the larger activity. A secondary purpose, therefore, is to eliminate duplicative evaluative efforts where possible. In no case shall this provision be interpreted to avoid a detailed examination of environmental impacts.

(6) *Properties listed on, or nominated to, the National Register of Historic Places.* Any HUD action or undertaking which has an effect on a property listed on, or nominated to, the National Register of Historic Places will require Special Environmental Clearance and must comply with section 106 of the National Historic Preservation Act of 1966 and implementing procedures. (see Appendix L).

An undertaking shall be considered to have an effect on a National Register listing (districts, sites, buildings, structures, and objects, including their settings) when any condition of the undertaking creates any change in the quality of the historical, architectural, archeological, or cultural character that qualified the property under the National Register criteria for listing in the National Register.

Adverse effects occur under conditions which include but are not limited to: (a) Destruction or alteration of all or part of a property; (b) isolation from or alteration of its surrounding environment; (c) introduction of visual, audible, or atmospheric elements that are out of character with the property and its setting. Cases of adverse effect on a National Register property where the adversity cannot be satisfactorily removed or mitigated and where, therefore, no joint memorandum is executed will require the formal presentation of a report to the Advisory Council as described in their procedures, section B, 5, a and b. This section 106 Report should be included as part of the Draft EIS which is also required in these circumstances.

(7) *Environmental clearance forms.* The environmental clearance forms in Appendix C shall be used in conducting the required environmental clearance(s) for project level actions as directed in this Handbook. Form ECO–1, completed by the applicant, shall be used by HUD principally as a source of factual information. An independent environmental assessment and evaluation shall be conducted by HUD on Form ECO–2 or Form ECO–3 or an Environmental Impact Statement shall be prepared. The completed clearances shall become part of the application file and shall accompany the proposal through the review and decision-making process.

The Applicant's Environmental Information, Form ECO–1 (Appendix C–1), shall be required of applicants for all project proposals except those exempted in paragraph 5.a.(1). The applicant shall be provided with Form ECO–1 along with the required program application forms, and the environmental clearance requirements shall be explained in the earliest stages of contact and application preparation. HUD shall indicate to the applicant the initial level of environmental clearance required for the proposed project, using Appendix B–1. The completed Form ECO–1 shall accompany A–95 notification where required (see paragraph 5.a.(8)). It shall be submitted to HUD with the completed application.

After obtaining information from other sources, HUD shall evaluate and verify the information provided by the applicant on Form ECO–1. HUD may begin preparing the appropriate clearance worksheet at this time or may await the resolution of problems. The applicant shall be asked to modify or supplement Form ECO–1 as appropriate: if there is inadequate information, the applicant shall be asked to supplement Form ECO–1 with documentation as necessary; if there are environmental problems, the applicant shall be asked to present solutions, modify the project, include measures to enhance environmental quality or reduce adverse environmental impacts, provide assurances and documentation as necessary, and amend or revise Form ECO–1 accordingly. HUD shall

V 38 I 137 JUL 18 73 XUM

then complete the appropriate environmental clearance worksheet, Form ECO–2 for Normal Clearance or Form ECO–3 for Special Clearance (Appendices C–2 and C–3), or shall prepare the Draft Environmental Impact Statement.

(8) *Relationship between A–95 procedures and environmental clearance procedures.* OMB Circular A–95 provides a mechanism for securing comments and views of State and local agencies regarding the impact, including environmental impact, of Federal and Federally-assisted projects. The A–95 requirements are coordinated, but not synonymous, with the requirements set forth in Handbook 1390.1. Those programs or projects which are not subject to A–95 requirements are nevertheless subject to environmental clearance requirements unless specifically exempted in paragraph 5.a.(1) above.

The requirements of HUD Handbook 1390.1 and OMB Circular A–95 shall be coordinated in the following manner:

(a) *Project Notification and Review System (PNRS).* The A–95 Project Notification and Review System requires that, for non-housing programs covered by Attachment D of the A–95 Circular, the applicant submit to the appropriate clearinghouses a notice of intent to file an application for Federal assistance. For housing projects exceeding A–95 thresholds listed in paragraph 7c of Attachment A and under programs listed Attachment D, HUD is required to send the application submitted by the applicant to the appropriate clearinghouses. Housing projects under A–95 thresholds are not subject to the A–95 requirements.

Environmental clearance procedures set forth in Handbook 1390.1 require that the applicant prepare Form ECO–1. For programs also covered by the A–95 Circular, such form shall accompany the A–95 submission.

(b) *Review of environmental impact statement.* If an Environmental Impact Statement is required, HUD shall notify the appropriate A–95 clearinghouses of HUD's intent to prepare and file the Draft Statement. When the Draft Statement is distributed, HUD shall send copies of the Statement to the appropriate clearinghouses for review and comment, regardless of whether or not the subject proposal is covered by OMB Circular A–95. The clearinghouses shall also receive copies of the Final Statement for their information.

(9) *Updating environmental clearances.* Environmental clearances shall be updated by revision, amendment or addendum to the original clearance under the following circumstances:

(a) Additional information with significant implications for environmental impact or additional environmental impacts not previously considered is discovered during the review process. Actions which went through Normal or Special Environmental Clearance shall be updated by revision, amendment or addendum to the original environmental clearance worksheet. A new finding shall then be made on the basis of all information, and action taken accordingly. For actions for which a Draft and Final Environmental Impact Statement were prepared and distributed, the Final Statement shall be revised and reissued, or an addendum to the Statement shall be prepared and distributed. Such revision or addendum shall be subject to the same review and comment procedures as was the original Final Statement.

(b) Major amendatories are proposed. For major amendatories, the type and extent of environmental clearance required shall depend on the type, size and scale of the proposed action as amended. If an Environmental Impact Statement is prepared for the amendatory, it shall be prepared and processed pursuant to section 5.d.

(c) HUD approval action is required for component activities whose environmental impacts were not addressed in sufficient detail in original environmental clearance for the larger action. Such clearance shall focus on the environmental impact of the specific project and site and need not treat the environmental impact on the more comprehensive level addressed in the original Environmental Impact Statement. A finding shall then be made as to the significance of the environmental impact of the specific project activity, and action taken accordingly. If an Environmental Impact Statement is prepared for the component activity, it shall be prepared and processed pursuant to section 5.d.

b. *Normal environmental clearance.* Normal Environmental Clearance shall be required for HUD actions for which it is not immediately evident that Special Environmental Clearance or Environmental Impact Statement Clearance is required.

Normal Environmental Clearance is a consistency check with HUD environmental policies and standards and a brief evaluation of environmental impact. Information shall be requested from the applicant on Form ECO–1 and gathered from other sources as appropriate. After modifications to the proposal to mitigate environmental impacts as necessary, HUD shall conduct an independent assessment and evaluation on Form ECO–2.

(1) *Responsibility for clearance.* Responsibility for Normal Environmental Clearance shall rest with the Area/Insuring Office program staff. An information copy shall be sent to the ECO.

(2) *Action resulting from clearance.* (a) Even after appropriate modifications to the proposal there exist environmental impacts which are unavoilable, and, based on HUD environmental policies and standards, such impacts are also considered unacceptable. The proposal shall be rejected.

(b) There is no significant environmental impact. Processing of the proposal may proceed; conditions or safeguards found to be necessary in order to protect and enhance environmental quality or minimize adverse environmental impacts shall be set forth in the contract, grant, or comparable document, as set forth in paragraph 3.b.

(c) Even after appropriate modifications to the proposal to mitigate environmental impacts, there remains significant or potentially significant environmental impact. Special Environmental Clearance or EIS, as appropriate, is required.

c. *Special environmental clearance.* Project level actions found to require Special Environmental Clearance by virtue of their size or scale (in relation to the thresholds in Appendix A–1) or other characteristics indicating significant environmental impact (as listed in Appendix B–1), or as a result of Normal Environmental Clearance, shall be subject to the requirements in subsection (1) below. Proposed legislation, regulations, policy issuances, guidance documents, and revisions to such regulations and documents, which may have significant environmental impact, shall be required to undergo the Special Environmental Clearance for policy actions as set forth in Subsection (2) below.

(1) *Project level actions.* Special Environmental Clearance for project level actions is a preliminary version of the analysis required in the Environmental Impact Statement. It provides the HUD official with a factual basis for determining whether the proposed action has a significant environmental impact and hence, whether it should be approved, rejected, or modified, or whether an Environmental Impact Statement is required. Information required shall be requested from the applicant on Form ECO–1 and gathered from other sources as appropriate. After modifications to the proposal to mitigate environmental impacts as necessary, HUD shall conduct an independent assessment and evaluation on Form ECO–3. On the basis of this assessment an environmental finding shall be made and accompany the application through the review process (see Appendix C–4).

(a) *Responsibility for clearance.* Special Environmental Clearance shall be conducted by the Area/Insuring Office Program staff. The environmental finding following this review shall incorporate the recommendation of the AO/IO–ECO and shall be certified by the Operations Director or the Insuring Office Director.

(b) *Action resulting from clearance.* (i) Even after appropriate modifications to the proposal, there exist environmental impacts which are unavoidable, and, based on HUD environmental policies and standards, such impacts are also considered unacceptable. The proposal shall be rejected.

(ii) There is no significant environmental impact. A Finding of Inapplicability shall be made on the Special Environmental Clearance Worksheet. Processing may proceed; conditions or safeguards found to be necessary to protect and enhance environmental quality or minimize adverse environmental impacts shall be set forth in the contract, grant, or comparable document, as set forth in paragraph 3.b.

(iii) Even after appropriate modifications to the proposal to mitigate environmental impacts, there remains significant or potentially significant environmental impact. Environmental Impact Statement Clearance is required.

(2) *Policy actions (legislation, regulations, policy and guidance documents).* Special Environmental Clearance for legislative proposals, proposed regulations, policy issuances such as handbooks, circulars, standards, and proposed revisions to existing program policies, procedures, standards, criteria and other guidance, consists of determining whether or not an Environmental Impact Statement shall be required.

Certain categories of policy and guidance documents and regulations which are clearly unrelated to environmental concerns need not undergo environmental clearance. These include internal administrative procedures, accounting and fiscal allocation instructions, brochures and pamphlets for public information, internal personnel policies and procedures, and other actions which, in the determination of the program Environmental Clearance Officer designated by the appropriate Assistant Secretary or Administrator, have no potential for significantly affecting the quality of the environment. These determinations are subject to post-audit by the Assistant Secretary for CPD.

For all other policy issuances and proposed legislation, either an Environmental Impact Statement or a Finding of Inapplicability shall be prepared. The decision as to whether an Environmental Impact Statement or a Finding of Inapplicability is required shall be made early in the process of drafting the proposed document, and shall be based on the actual or potential significance of the environmental impact of the proposed action. Responsibility for the decision shall be as follows:

Legislation. General Counsel with the approval of the Assistant Secretary for CPD.

Regulations. The program Environmental Clearance Officer with the approval of the Assistant Secretary for CPD and the concurrence of the General Counsel.

Policy and Guidance Documents. The program Environmental Clearance Officer, with the approval of the Assistant Secretary for CPD and the concurrence of the General Counsel.

If it is determined that an Environmental Impact Statement is not required, a Finding of Inapplicability shall be prepared with the concurrence of the Assistant Secretary for CPD and the General Counsel. With respect to regulations and policy and guidance documents, the Environmental Impact Statement or the Finding of Inapplicability shall be the responsibility of the initiating office director, and shall be written under the supervision of the program Environmental Clearance Officer. With respect to legislation, the Environmental Impact Statement or the Finding of Inapplicability shall be prepared under the supervision of the General Counsel's Environmental Clearance Officer by the HUD office having the principal programmatic interest in the proposal for legislation.

The Finding of Inapplicability or the Environmental Impact Statement shall be subject to the following:

Legislation. The Draft Environmental Impact Statement or the Finding of Inapplicability shall, subject to OMB and CEQ requirements, accompany the proposal through the regular review process. Wherever possible, the Final Environmental Impact Statement shall accompany the proposal to Congress.

Regulations. The Draft Environmental Impact Statement or the Finding of Inapplicability shall accompany proposed regulations through the regular review process, and for those regulations subject to OMB Circular A–85, through A–85 clearance with public interest groups. Notice of the availability to the public of the Draft Environmental Impact Statement or the Finding of Inapplicability shall be published in the FEDERAL REGISTER as part of the notice of proposed rule making. Notice of the availability of the Final Environmental Impact Statement (where applicable) to the public shall be published in the FEDERAL REGISTER along with the rule.

Policy and guidance documents. The Draft Environmental Impact Statement or the Finding of Inapplicability shall accompany the proposed document through the regular review process, including A–85 clearance where applicable. The Final Environmental Impact Statement, where applicable, shall accompany the document through the final clearance process.

d. *Environmental impact statement clearance.* Environmental Impact Statement Clearance shall be required for all major HUD actions significantly affecting the quality of the human environment. These include HUD actions described in Appendix A–2 and Appendix B–1 as requiring an Environmental Impact Statement, and those found to require such a Statement as a result of Normal or Special Clearance.

(1) *Environmental impact statement.* The Environmental Impact Statement is comprised of two stages, Draft and Final. The content of the Statement for policy actions and project level actions, the format for the one-page summary sheet prescribed by NEPA and CEQ Guidelines, and the cover page prescribed by the National Technical Information Service, are set forth in Appendix D.

(a) *Draft environmental impact statement.* Stage one involves the preparation of a Draft Environmental Impact Statement and the summary sheet. The Draft is sent to the CEQ (10 copies), circulated to Federal agencies whose areas of jurisdiction by law or special expertise are involved, OMB-designated A–95 clearinghouses (State and regional/metropolitan), the chief executive and planning agency of the appropriate local (county, city or town) government, appropriate local agencies, and groups with special interest in the proposed action, and made available to the public. Two (2) copies of the Draft Statement and the distribution list shall also be sent to the Assistant Secretary for CPD.

(b) *Final environmental impact statement.* The second stage is the Final Environmental Impact Statement, which takes into account and responds to the comments received as a result of circulating the Draft, and the revised summary sheet. The Final Statement, including the comments received and HUD's response, is filed with the CEQ (10 copies), sent to Federal agencies which commented on the Draft, A–95 clearinghouses, the chief executive and planning agency of the appropriate local government, appropriate local agencies, and groups with special interest in the proposed action, and made available to the public. Two copies of the Final Statement shall also be sent to the Assistant Secretary for CPD. The Final Statement shall accompany the recommendation of or report on the proposed action through HUD's review and decision-making process.

(2) *Timing.* (a) The Draft Environmental Impact Statement shall be filed with the CEQ and made available to appropriate agencies and to the public for a review period of thirty (30) days with a provision for fifteen (15) additional days upon request. The Draft must be on file at least ninety (90) days prior to HUD approval of, or commitment to, the proposed action. (See Appendix A for decision points). The ninety-day period begins on the date of receipt of the Draft Statement by CEQ.

(b) The Final Environmental Impact Statement shall be filed with the CEQ and made available to appropriate agencies and to the public at least thirty (30) days prior to HUD approval of, or commitment to, the proposed action (see Appendix A for decision points). The thirty-day period begins on the date of receipt of the Final Statement by CEQ. After 30 days, and upon consideration of comments on the Final Statement, the initiating HUD Office may approve the project.

The 30-day period and the 90-day period may run concurrently to the extent that they overlap.

Exceptions to the 30 or 90 day time limits are permitted only under unusual circumstances. Exceptions must be approved by the Assistant Secretary for CPD, with the concurrence of the General Counsel and in consultation with the CEQ on a case by case basis.

(3) *Responsibility for clearance.* The Draft and Final Environmental Impact Statements shall be prepared and distributed by the initiating office or appropriate field office with program review responsibilities. Approval of the Statement and the proposed distribution list by the Regional Administrator (or his ECO) for field project level actions, and by the Assistant Secretary for CPD for policy actions and Central Office Project actions, is required prior to distribution.

The Regional or Area Counsel shall be given the opportunity to review Draft and Final Environmental Impact Statements prior to issuance for field project level actions to determine whether there is compliance with the legal requirements of NEPA. This review shall be concurrent with other staff reviews. The General Counsel (or his ECO) shall be given the opportunity to review Draft and Final Environmental Impact Statements prior to issuance for policy actions and Central Office project actions.

For Environmental Impact Statements requiring only the approval of the Regional Administrator, two (2) copies of the Draft Statement shall be sent to the Assistant Secretary for CPD when distribution is made to other agencies. The Assistant Secretary for CPD then has the option of requiring, in exceptional cases, that his concurrence be obtained prior to distribution of the Final Statement. If, in the judgment of the Regional Administrator (or his ECO), or the Assistant Secretary for CPD (or his ECO), there are issues of national significance, controversy or significant environmental policy issues involved, the Draft and/or Final Environmental Impact Statement shall be referred to the Assistant Secretary for CPD for concurrence prior to distribution.

In cases where an adverse impact on a National Register property is unavoidable, the proposal may be rejected. If such a proposal is not rejected, a full expanation of efforts to comply with the recommendations of the Advisory Council on Historic Preservation shall be incorporated as a part of the Final Environmental Impact Statement. For projects involving unresolved cases of adverse impact on a National Register property, the Draft and Final Environmental Impact Statement must be approved prior to distribution by the Assistant Secretary for CPD.

In order to facilitate review and utilize environmental expertise outside HUD to the fullest extent possible, agencies whose areas of jurisdiction by law or special expertise are involved in a proposed project shall be consulted during preparation of the Draft Environmental Impact Statement for such project, where such consultation is feasible and contributes to a more complete environmental evaluation.

If after the specified period of time for review of the Draft Statement, HUD has not received comments from those agencies (Federal, State, areawide, or local) whose input is considered important to the project's environmental evaluation, HUD may contact these agencies and request their comments.

(4) *Action resulting from clearance.* Based on the Environmental Impact Statement clearance, including comments and suggestions by other agencies and interested parties, HUD shall attempt to mitigate adverse environmental impacts to the extent practicable. If there remain adverse environmental impacts which are unavoidable, and based on HUD environmental policies and standards, such impacts are also considered unacceptable, the proposal shall be rejected. Otherwise, unavoidable adverse environmental impacts shall be weighed against benefits to be obtained from approval of the proposal. Where environmental costs which would be incurred outweigh such benefits, the proposal shall be rejected. Where benefits of the proposal outweigh environmental costs, processing may proceed; conditions or safeguards found to be necessary in order to protect and enhance environmental quality or minimize adverse environmental impacts shall be set forth in the contract, grant, or comparable document, as set forth in paragraph 3.b.

6. *Public disclosure.* Draft and Final Environmental Impact Statements and Findings of Inapplicability shall be made available to the public in accordance with HUD policy pursuant to 24 CFR Part 15, Executive Order 11514 and the CEQ Guidelines "to insure the fullest practicable provision of timely public information and understanding of Federal plans and programs."

Copies of Statements for project level actions shall be available for public reading in the appropriate Area/Insuring and Regional Offices. For policy actions, copies shall be available for public reading in the Program Information Division in the Central Office and all Regional Offices. Request for individual copies shall be referred to the National Technical Information Service, Department of Commerce, Springfield, Virginia 22151, for purchase of retention copies by interested

V 38 I 137 JUL 18 73 XUM

members of the public. Additional steps, such as use of local news media and mailing lists of organizations and groups interested in HUD projects in a given area, shall be taken as appropriate to inform the public and other agencies of HUD's intent to prepare and file an Environmental Impact Statement and of the availability of an Environmental Impact Statement once it is released.

CHAPTER 3—REVIEW OF OTHER AGENCIES ENVIRONMENTAL IMPACT STATEMENTS

7. *HUD Comments on environmental impact statements initiated by other Federal Agencies.* Environmental Impact Statements initiated outside HUD will we referred to the appropriate HUD office for jurisdiction by law or special expertise (see Appendix H). Comments shall be sent by the commenting HUD office to the initiating agency and the CEQ within 30 days of transmittal. The CEQ requires that ten (10) copies be mailed to the General Counsel, Council on Environmental Quality, 722 Jackson Place, NW., Washington, D.C. 20006. HUD comments shall also be made available to the public upon request.

Environmental Impact Statements on project level actions initiated outside HUD shall be referred to the HUD Regional Administrator in whose jurisdiction the project falls, or to his designee, for comment. Comments recommending delay or rejection of a major undertaking may be referred to the Assistant Secretary for CPD for concurrence and for forwarding to the requesting agency and to the CEQ. Precedent-making comments of national significance shall be referred to the Assistant Secretary for CPD.

Environmental Impact Statements from other Federal agencies on legislative proposals, regulations, or policy documents shall be sent to the General Counsel and the Assistant Secretary for CPD, respectively, for comment.

Special attention should be given to Environmental Impact Statements for transportation projects which have impacts on parklands and are subject to review under section 4(f) of the Department of Transportation Act of 1966. Under section 4(f), approval rests with the Secretary of DOT, and HUD maintains an important advisory role. Particular care should be exercised in reviewing projects which use lands purchased with HUD Open Space funds and those for which adequate replacement provisions are lacking.

CHAPTER 4—[RESERVED]

Effective date. This document is effective July 1, 1973.

JAMES T. LYNN,
Secretary of Housing and Urban Development.

PROPOSED HUD ACTIONS WHICH REQUIRE SPECIAL ENVIRONMENTAL CLEARANCE OR ENVIRONMENTAL IMPACT STATEMENT CLEARANCE

(For programs not listed, consult the Assistant Secretary for Community Planning and Development.)

APPENDIX A–1—PROJECT LEVEL ACTIONS SUBJECT TO THRESHOLD CRITERIA [1]

A Special Environmental Clearance is required for projects and major amendatories which meet or exceed one or more of the applicable thresholds. Thresholds shall apply to activities which have been aggregated for the purpose of environmental evaluation, both on the level of the comprehensive activity as well as on the level of individual component activities in accordance with paragraph 5.a.(5) and (9). All environmental clearances shall be completed before the applicable decision point.

[1] See Appendix A, page 6 for all footnotes to the Threshold Tables. For innovative programs or approaches such as Planned Variations and Annual Arrangements, an individual HUD-financed or assisted project proposal contained within a larger package or program shall be subject to Special Environmental Clearance if any of the applicable program thresholds is met or exceeded. In addition, environmental evaluation of the broad and cumulative impacts of the larger program shall be conducted prior to individual application processing when feasible (see paragraph 5.a.(5)).

Program	Decision points	Thresholds
Code Enforcement Program	Approval of application or major amendatory.	All new Concentrated Code Enforcement Areas.
Demonstration [1] Projects	Approval of application or major amendatory.	Cost totalling $500,000 (from all sources) in new construction.
Housing Assistance or Insurance: [1]		
New Construction of [1]		
—one-to-four family structures.	Issuance of feasibility letter or major change in letter or project (ASP-6).	50-lot subdivision.
—multifamily structures	Issuance of feasibility letter or major change in letter or project.	100-unit multifamily project (including scattered sites).
	Reservation of contract authority to State and local agencies for interest reduction assistance and rent supplement payments for uninsured projects.[4]	
—public housing	Letter of notification of tentative site approval or approval of major change.	100-unit public housing project (including scattered sites).
—college housing	Approval of fund reservation for college housing or major amendatory.	200-student project.
—mobile homes	Issuance of feasibility letter or major change in letter or project.	100-unit mobile home park.
—nursing homes	Issuance of feasibility letter or major change in letter or project.	100-bed nursing home.
—hospitals [4]	Issuance of feasibility letter or major change in letter or project.	100-bed hospital.
—group practice facilities	Issuance of feasibility letter or major change in letter or project.	Facilities with site acreage of 50,000 sq. ft., or gross floor area of 30,000 sq. ft.
Housing Assistance or Insurance: Substantial rehabilitation or Property Disposition of		
—one-to-four family structures	1. For rehabilitation, feasibility determination.	50 contiguous or noncontiguous one-to-four-family structures.
—multifamily structures	2. For Project Rehab, submission of proposal to Central Office.	100-unit multifamily project (including scattered sites).
—college housing	3. For property disposition, approval of Disposition Program.	200-student project—college housing.
—mobile homes		100-unit mobile home park.
—nursing homes		100-bed nursing home.
—hospitals [4]		100-bed hospital.
—group practice facilities		Group practice facility with site acreage of 50,000 sq. ft., or gross floor area of 30,000 sq. ft.
Model Cities	Approval of application for individual project within Model Cities program.[4,7]	See appropriate categorical program.
Neighborhood Facilities [8]	Approval of allocation order or approval subject to validation of funds (whichever is sooner), or approval of major amendatory.	Site acreage of 50,000 sq. ft., or gross floor area of 30,000 sq. ft.
Open Space Land [9]	Approval of allocation order or approval subject to validation of funds (whichever is sooner), or approval of major amendatory.	1. All sanitary landfill projects. 2. Impoundment of 2 surface acres or 25 acre feet of water. 3. 50 acres. 4. All conversions of open space land acquired with HUD assistance to non-open space uses not originally approved by HUD.
	Approval for conversion.	See Water and Sewer.
Public Facility Loans [9]	Approval of allocation order or approval subject to validation of funds (whichever is sooner), or approval of major amendatory.	All urban renewal projects.
Urban Renewal: [9] Conventional	Approval of Part I or approval of major amendatory.	1. All first year NDP's and conversions from conventional urban renewal to NDP. 2. Subsequent action years: To the extent that the urban renewal plan has not been previously evaluated and/or changes in area or plans.
Neighborhood Development Program.[9]	Approval of allocation order or approval subject to validation of funds, whichever is sooner.	

See footnotes at end of table.

APPENDIX A–2—OTHER HUD ACTIONS WITH SPECIAL REQUIREMENTS [1]

(Where special requirements are imposed in accordance with this appendix, thresholds set forth in Appendix A-1 do not apply.)

Program	Decision point	Thresholds
Water and Sewer	Approval of application or major amendatory.	1. All above ground reservoirs and stand pipes. 2. All source development projects including water river impoundments, raw water reservoirs, well fields, and treatment plants. 3. Treated water transmission or sewage collection lines, regardless of size through, are adjacent to, or serve undeveloped areas of 50 acres or more.
Flood & Disaster Insurance Program.	Issuance of special flood plain or mud-slide area designations. Community eligibility.	1. Listing from normal practice determined by FIA. 2. Variance of land use and control measures from established FIA criteria.

[1] All research projects resulting in new construction of 1,500,000 are included; other research projects are generally exempt unless it has been determined that the results of the effort, when implemented, will have a significant effect on the human environment.

[2] Project selection criteria are not a substitute for environmental clearance.

[3] Phase II and III housing projects are subject to environmental clearance procedures in the same way as other housing projects.

[4] Thresholds listed also apply to HUD approval of interest subsidy on existing properties. However, the environmental assessment does not have to address the impact of the construction of the project on the environment since it has already taken place. All other environmental factors must be assessed.

[5] HEW has the lead role in environmental evaluation and clearance of proposed hospitals. HUD has responsibility for clearance of HUD assisted hospitals to the extent that such clearance is not satisfied by HEW conformance with Departmental policies and standards.

[6] See paragraph 5.a. (5) and (9). For Individual projects within the Model Cities program which receive Model Cities supplemental grants but which derive the majority of their Federal assistance from another agency, such as HEW or DEO, the other agency is considered the agency responsible for the environmental clearance. In cases where a project is financed entirely or most of its funding from Model Cities grants, HUD is responsible for the appropriate environmental clearance.

[7] For projects using supplementary funds which result in the construction or acquisition of capital facilities not included in HUD categorical programs, the appropriate environmental clearance shall be prepared prior to the award of the supplementary grant.

[8] Project selection systems are not a substitute for environmental clearance.

[9] For projects in the National Capital area refer to agreement between HUD and the National Capital Planning Commission.

(Where special requirements are imposed in accordance with this appendix, thresholds set forth in Appendix A-1 do not apply.)

Action	Decision point	Requirement
Title X Mortgage Insurance for Land Development.	Issuance of feasibility letter or major change in letter or project.	Environmental Impact Statement.
Any project which has an effect on a property listed on, or nominated to, the National Register of Historic Places.	Decision point stated in Appendix A-1.	Special Environmental Clearance.
Any project which has an adverse effect on a property listed on, or nominated to the National Register of Historic Places.	Decision point stated in Appendix A-1.	Environmental Impact Statement.
		Request review by Advisory Council on Historic Preservation.
Legislation	Departmental decision to sponsor legislation.	Finding of Inapplicability or Draft and Final Environmental Impact Statement;
Regulations which have potential for significantly affecting the quality of the human environment.	Publication in FEDERAL REGISTER of notice of proposed rule making.	Finding of Inapplicability or Draft Environmental Impact Statement;
	Promulgation	Final Environmental Impact Statement where applicable
Policy and guidance documents which have potential for significantly affecting the quality of the human environment.	A-95 clearance	Finding of Inapplicability or Draft Environmental Impact Statement;
	Promulgation	Final Environmental Impact Statement, where applicable

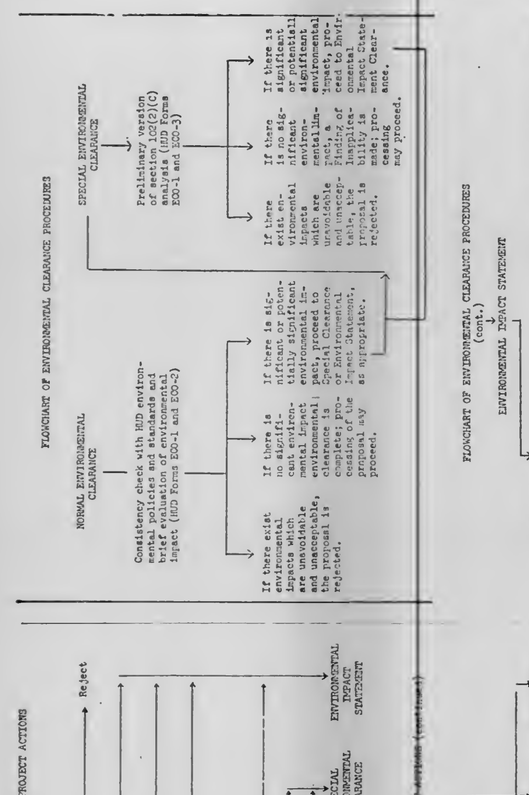
*Project actions affected by Circular 1390.2 require that projects located in the Unacceptable or Discretionary Normally Unacceptable noise exposure zone require special approvals and must incorporate noise attenuation measures.

ENVIRONMENTAL DECISION MAKING PROCESS FOR HUD PROJECT LEVEL ACTIONS

The following flowchart consists of two parts:

B-1. Initial Determination of Required Environmental Clearance for Project Actions.

B-2. Flowchart of Environmental Clearance Procedures.



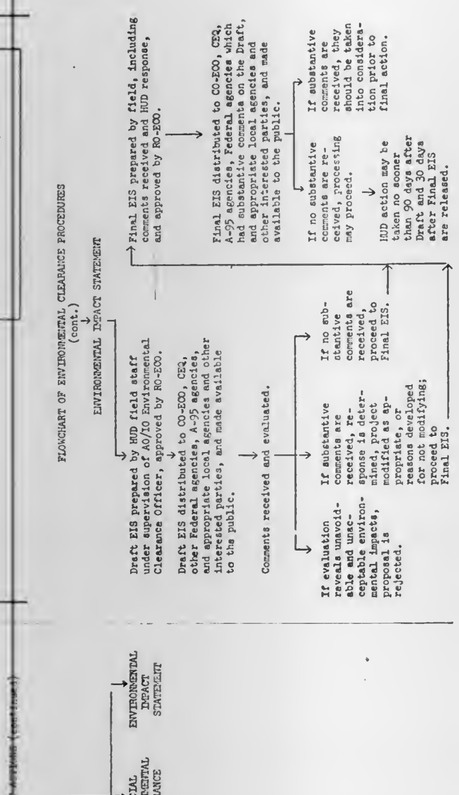
Appendix B–1 shall be utilized to determine the initial level of environmental clearance which is required of a proposed HUD project action. The questions should be asked in sequence. If a question is answered in the affirmative, a Special Environmental Clearance or Environmental Impact Statement Clearance is required as indicated. If a question is answered in the negative, the next question should be asked; if all questions are answered in the negative, a Normal Environmental Clearance is required.

Once the actual environmental clearance process is begun (utilizing the appropriate environmental clearance worksheets in Appendix C). Appendix B-2 shows the procedure for the three levels of environmental clearance.

Action	Decision point	Requirement
New construction or substantial rehabilitation of residential or other noise sensitive land uses such as nursing homes, hospitals, group practice facilities, in Unacceptable noise zone (Circular 1390.2)	Decision point stated in Appendix A-1.	Environmental Impact Statement.
New construction or substantial rehabilitation of residential or other noise sensitive land uses such as nursing homes, hospitals, group practice facilities, in Discretionary (Normally Unacceptable) noise zone (Circular 1390.2) or in new development in currently undeveloped area.	Decision point stated in Appendix A-1.	Environmental Impact Statement.
New construction or substantial rehabilitation of residential or other noise sensitive land uses in Discretionary (Normally Unacceptable) noise zone (Circular 1390.2), which is built in existing development.	Decision point stated in Appendix A-1.	Special Environmental Clearance.
New Communities: Debt Guarantee or Certification of Eligibility or Interest Loan.	Authorization by Community Development Corporation Board of Offer of Commitment or major change to approved plan.	Environmental Impact Statement.
New Communities: Special Planning Assistance Loan or Grant.	Authorization by Community Development Corporation Board of Loan or Grant.	Environmental assessment as part of planning product.

V38 I137 JUL 18 1973 XUM

FLOWCHART OF ENVIRONMENTAL CLEARANCE PROCEDURES



INITIAL DETERMINATION OF REQUIRED ENVIRONMENTAL CLEARANCE FOR PROJECT ACTIONS

Answer each question and follow the appropriate arrow:

Is it immediately evident that the proposed project has an unavoidable and unacceptable environmental impact? ..... Yes		Reject
Is it immediately evident that the proposed project has a significant environmental impact? ..... Yes		
Is the proposed project in an unacceptable noise zone (Circular 1390.2*)? ..... Yes		
Is the proposed project a New Community or a Title X Mortgage Insurance for Land Development project? ..... Yes		
Does the proposed project involve new construction or substantial rehabilitation in a discretionary (normally unacceptable) noise zone (Circular 1390.2*) which is:		
(1) new development in a largely undeveloped area? ..... Yes		
(2) infill in existing development? ..... Yes		
Is the proposed project above threshold (see Appendix A-1)? ..... Yes		
*Circular 1390.2 applies to construction and substantial rehabilitation of residential and other noise-sensitive uses such as nursing homes, hospitals, and group practice facilities.	NORMAL ENVIRONMENTAL CLEARANCE	SPECIAL ENVIRONMENTAL CLEARANCE

FLOWCHART OF ENVIRONMENTAL CLEARANCE PROCEDURES (cont.)

ENVIRONMENTAL IMPACT STATEMENT

ENVIRONMENTAL CLEARANCE FORMS

The following Environmental Clearance Worksheets shall be used in conducting the required environmental clearances for project level actions as directed in Paragraph 5 of this Circular:

Appendix C–1: Applicant's Environmental Information, Form ECO–1[1]

Appendix C–2: Normal Environmental Clearance Worksheet, Form ECO–2

Appendix C–3: Special Environmental Clearance Worksheet, Form ECO–3

Appendix C–4: Environmental Finding Resulting from Special Clearance

APPLICANT'S ENVIRONMENTAL INFORMATION

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Region ---------- Area/Insuring Office ----------

A. Applicant/Sponsor.
B. Project Name and Location.
C. HUD Program.
D. OMB Circular A–95 Review.
Is proposed project subject to A–95 review? ( ) Yes ( ) No
Date submitted to clearinghouses: ----------
Check one: ( ) State/regional clearinghouse comments attached.
( ) No comments received after ---- days before clearinghouses.
E. Description of project.
F. Description of existing environment of the site and area.
1. *Existing physical environment (natural and man-made).*
a. *Land and climate.*
b. *Vegetation, wildlife and natural areas.*
c. *Surrounding land uses and physical character of area.*
d. *Infrastructure.*
e. *Air pollution levels.*
f. *Noise levels.*
g. *Water pollution levels.*
h. *Other.*
2. *Existing social environment.*
a. *Community facilities and services.*
b. *Employment centers and commercial facilities.*
c. *Character of community.*
d. *Other.*
3. *Existing aesthetic environment:* (Including properties listed on, or nominated to, the National Register of Historic Places)
G. How will the environment described in F affect the project?
1. *Physical environment.*
2. *Social environment.*
3. *Aesthetic environment.*
H. How will the project affect the environmental factors in F?
1. *Physical environment.*
2. *Social environment.*
3. *Aesthetic environment.*
I. Where appropriate describe the quality of the environment created by the project and its impact on the expected residents or users of the project.
1. *Physical environment.*
2. *Social environment.*
3. *Aesthetic environment.*
J. What alternatives to the proposed project were considered and why were they rejected: What additional alternatives can be considered to avoid adverse environmental impacts?
a. *Alternative locations or sites.*
b. *Alternative sizes and designs.*
K. Describe provisions of the proposal which were specifically designed to reduce adverse environmental impacts or to enhance environmental quality. Describe abatement measures which were rejected and the reasons for rejection (estimate costs). Describe measures other than those included in the project being taken or planned to enhance environmental quality or reduce adverse environmental impacts.
L. What are the known views of governmental bodies, private organizations, local citizens, etc., concerning the proposed project? Identify known or potential opposition groups and their views.
M. Certification: The applicant/sponsor identified in block A hereby certifies that the information furnished in this Applicant's Environmental Assessment is true and accurate to the best of his (its) knowledge.

[1] Use of ECO–1 subject to approval by OMB.

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

INSTRUCTIONS FOR COMPLETION OF FORM ECO–1 APPLICANT'S ENVIRONMENTAL INFORMATION

For non-housing programs, prepare in triplicate. Attach duplicates to A–95 notice on intent to apply for Federal assistance and send to appropriate clearinghouses; attach original to application and submit to HUD. *For housing projects over A–95 thresholds,* prepare in triplicate and send to HUD with application for transmittal to clearinghouses.

For housing projects under A–95 thresholds, prepare in original and send to HUD with application.

Attach additional sheets as necessary and identify project and item number on each. Reference may be made to information in application or project file.

A. Self-explanatory.
B. Self-explanatory.
C. Self-explanatory.
D. A HUD representative can advise you whether or not your project is subject to A–95 review.
E. Briefly describe the project. Include size or scale, design, type of facilities included, location, cost, and other descriptive features. Include minimum of two (2) maps: one showing location of project within the city, town, or metropolitan area, and another showing the relationship of the project to immediate area and distance from such major landmarks as an airport, highway and roads, parks, and CBD. Attach photo of site if available.
F. Identify positive and negative aspects of the existing environment of the site and area. Discuss under separate headings the environmental characteristics of the site and area:
1. *Physical environment (natural and man-made).*
a. *Land and Climate.*
—soil (general characteristics, load bearing capacity, existing and potential erosion, permeability);
—topography (general characteristics, slope grade of site—maximum, minimum, average);
—Subsurface conditions (geologic characteristics, geologic faults, aquifer recharge);
—Special conditions (flood plain, unique landscape, potential for mudslide, landslide, subsidence, or earthquake, aerial or underground transmission lines and right-of-way);
—Unusual climatic conditions (subject to very high rainfall, flashfloods, hurricanes or tornadoes, strong winds, extremes of temperature, etc.)
b. *Vegetation, wildlife and natural areas.* Extent and type of vegetation and wildlife; existence of on site or proximity to unique natural systems (stream systems, wildlife breeding areas, parks, etc.).
c. *Surrounding land uses and physical character of area.* Type of development (single family or high rise residential, industrial, commercial, open space, mixed); land use configuration (land use map); densities; building height and design; lot sizes; etc.
d. *Infrastructure.* Description (general description, location, responsible body, relation of capacity to existing demand), of water supply, sanitary sewage and solid waste disposal, storm sewers and drainage, energy, and transportation (roads, public transit, parking) facilities servicing site.
e. *Air pollution levels.* Extent of pollution (smog, dust, odors, smoke, hazardous emissions) in relation to local/State standards, and standards of health and safety (frequency or inversions, air pollution alert or emergency); in relation to the rest of the metropolitan area (conditions peculiar to the site and immediate area).
f. *Noise levels.* Source (nearby airport, railway, highway); noise levels in relation to HUD standards in Circular 1390.2 (include worksheet, if appropriate); vibrations.
g. *Water pollution levels.* Ground and surface water relevant to site and area (drainage basin, source of water supply, water bodies with implications for health and recreational uses, etc.).
h. Other—not included in above categories.
2. Existing Social Environment
a. *Community facilities and services.* Description (general description, location, responsible body, relation of capacity to existing demand) of school, park, recreational and cultural, police and fire and health facilities servicing the site and area.
b. Employment centers and commercial facilities servicing site and area.
c. *Character of community.* Socioeconomic and racial characteristics.
d. *Other.* Not included in above categories.
3. *Aesthetic environment.* General aesthetic characteristics; special features (natural or man-made) existence of on site or proximity to significant historic, archaeological, or architectural sites or property, including those listed on, or being considered for nomination to, the National Register or Historic Places, scenic areas, and view.
G. Discuss the quality of the environment of the area and its impact on the expected residents or users of the proposed project. Describe major contraints or opportunities presented by the existing environment which serve to limit or contribute to the viability of the proposed project. Concentrate on critical features described in F.
H. Discuss under each heading listed:
1. What is being impacted;
2. Sources of impact;
3. Degree or severity of impact;
4. Relationship to official local and area-wide planning.
I. Where appropriate (e.g., for urban renewal project, large multi-family housing project, new community or subdivision), discuss the relationship among the various components of the proposed project. Identify design and other features which will assure that a high quality of living environment will be created by the proposed project. Describe how the plans for the project contribute to such environmental factors as:
1. Physical environment—health, safety, comfort, functional quality.
2. Social environment—racial and economic composition
—opportunity for social interaction and privacy
—community life (places to meet, management, organized activities, etc.)
—security.
3. Aesthetic environment — pleasantness, interest, stimulation.
J. Indicate adverse environmental impacts which would be avoided or created by each alternative, and discuss briefly pros and cons of each alternative. Discuss under separate headings:
a. Alternative locations or sites which were considered. Indicate alternatives sites owned, controlled, or potentially available which

V 38 I 137 JUL 18 73 XUM

would be investigated if the recommended site is unacceptable.

b. Major alternatives (at least one or two in each category) which were considered in terms of:

(1) *Size.* Anticipated resident/user population or density extent of coverage, etc.

(2) *Design.* Number and height of buildings and placement on site, architectural and design treatment, land uses, etc.

What additional alternatives, i.e., what modifications to the proposal's size or design plans, not previously considered could be investigated to reduce adverse environmental impacts?

K. Discuss measures that will be taken as part of the project to enhance environmental quality and reduce adverse environmental impacts. Examples of such measures include: Measures to reduce air pollution levels or excessive noise levels (air conditioning noise barriers, setbacks or greenbelts, insulation, etc.); erosion and siltation control measures; drainage systems capable of carrying 50-year frequency rainfall; on-site sewage or solid waste disposal facilities or contribution to establishment or expansion of local or regional system; preservation of natural areas or open space; landscaping and preservation of cover; screening; expansion or new construction of community facilities; discussion of impact with community groups; special architectural treatment; preservation or relocation of historic property; etc. Discuss abatement measures which were rejected and the reasons for rejection (estimate costs).

Discuss, also, measures other than those included in the proposal being taken or planned by local governmental bodies, State agencies, other Federal agencies, or private groups or individuals which will enhance environmental quality or reduce adverse environmental impacts of the project. These may include actions or plans by the locality to expand infrastructure and community facilities and services to meet the demand imposed by the project and by growth in the area; controls imposed by appropriate agencies or governmental bodies to prevent or ameliorate environmental harm; efforts by governmental bodies or private organizations to preserve natural areas, open space, or historic sites; plans to anticipate and cope with the long term impacts of the project specifically and growth in the area in general; efforts to reduce pollution levels in the area and prevent further pollution; public or private projects which will improve the environment of the area or meet the needs of the residents or users of the proposed project. Distinguish between actions underway, firm and tentative plans, and preliminary discussions.

L. Describe the position regarding the proposal of the local and State officials with jurisdiction over planning, zoning, building and subdivision controls and regulations, pollution control, public services needed by the project, conservation and recreation, historic preservation, etc., as appropriate. Does the project conflict with measures taken by governmental bodies to control growth, prevent adverse environmental impacts, or enhance environmental quality for the existing community (e.g., moratorium on building permits, preservation of open space or sites or property of historic, archaeological, architectural, or cultural value or significance, limit on traffic, limitation of load on sewage treatment facilities)?

Describe private organizations, community groups with special interest in the proposal, both for and against the project. Identify actual or potential opposition, issues involved in the opposition, and extent of controversy. Indicate the probability, if any, of litigation regarding the project and the probable grounds for such litigation.

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT NORMAL ENVIRONMENTAL CLEARANCE WORKSHEET

Region ---------- Area/Insuring Office ----------

Instructions. When completed, this form must show that HUD conducted an independent assessment of the environmental impacts of the proposal and that HUD has an adequate basis for its finding. Attach additional sheets as necessary. Reference may be made to factual information in the applicant's form or application file.

A. Applicant/Sponsor.
B. Project Name and Location.
C. HUD Program.
D. HUD Project No.

E. Have A–95 review requirements been met? ☐ Yes ☐ No ☐ Not Required
Do clearinghouse comments indicate significant environmental or regional impact, or any environmental problems? ☐ Yes ☐ No

F. How has HUD verified the accuracy and completeness of the information supplied by the applicant (e.g., site inspections, inquiries to local agencies and private groups, A–95 review, required local approval and public hearings, consultation with areawide/State/Federal agencies, etc.)? Provide additional information needed to supplement or clarify information supplied by the applicant in Form ECO–1.

G. Historic Preservation. (For further information regarding procedures for compliance with Section 106, See Appendix L)

Are there properties listed on, or nominated to, the National Register of Historic Places on the site, or in the vicinity of the proposed action? ☐ Yes ☐ No

If yes, does the HUD action have an effect on the properties? ☐ Yes ☐ No

How has this determination been made?

H. What are the major alternatives which would significantly alter the environmental impacts of the project? Evaluate alternative sites, sizes, and designs described in Form ECO–1 and the applicant's reasons for rejecting alternatives. Discuss additional alternatives from HUD's viewpoint which would alter the environmental impacts.

I. Have there been any modifications to the project or provisions added designed to enhance environmental quality or eliminate or reduce potential adverse environmental impacts? Discuss. How will HUD assure that such provisions will be implemented (inclusion as requirements in contract, grant, or other document) if project is approved?

J. Discuss the probable impact of the proposed project on the environment and of the environment on the project. Assess the significance of the environmental impact in terms of: (1) The magnitude of impact, and (2) the importance of the impact in the context of local/regional/State/HUD/national goals and concerns. Based on the information supplied by the applicant and gathered by HUD from other sources, is there evidence of actual or potential significant environmental impact or controversy as indicated by application of HUD environmental policies and standards? Discuss.

K. *Finding.* Based on the information derived from the review and evaluation of the above items and of supporting documentation, the following finding is made:

☐ The proposal should be rejected. Even after appropriate modifications to the proposal, there exist environmental impacts which are unavoidable, and, based on HUD environmental policies and standards, are also considered unacceptable.

☐ Special Environment Clearance is not required and processing of the proposal may proceed. There is no significant environmental impact.

☐ Special Environmental Clearance, or

☐ Environmental Impact Statement Clearance is required prior to HUD decision. Even after appropriate modifications to the proposal to mitigate environmental impacts, there remains significant or potentially significant environmental impact.

L. Discuss briefly the basis for the finding in K. above.

Date---------- Signature----------
Title ----------

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT SPECIAL ENVIRONMENTAL CLEARANCE WORKSHEET

Region ---------- Area/Insuring Office

Instructions. When completed, this form must show that HUD conducted an independent assessment of the environmental impacts of the proposal and that HUD has an adequate basis for its finding. Attach additional sheets as necessary. Reference may be made to factual information in the applicant's form or application file.

A. Applicant/Sponsor.
B. Project Name and Location.
C. HUD Program.
D. HUD Project No.

E. Have A–95 review requirements been met? ☐ Yes ☐ No ☐ Not Required
Do clearinghouse comments indicate significant environmental or regional impact, or any environmental problems? ☐ Yes ☐ No

F. How has HUD verified the accuracy and completeness of the information supplied by the applicant (e.g., site inspections, inquiries to local agencies and private groups, A–95 review, required local approvals and public hearings, consultation with State/areawide Federal agencies, etc.)? Provide additional information needed to supplement or clarify information supplied by the applicant in Form ECO–1.

G. Historic Preservation. (For further information regarding procedures for compliance with Section 106, see Appendix L)

Are there properties listed on, or nominated to, the National Register of Historic Places on the site, or in the vicinity of the proposed action? ☐ Yes ☐ No

If yes, does the proposed HUD action have an effect on the properties? ☐ Yes ☐ No

How has this determination been made?

If a determination of effect has been made, have the State Liaison Officer and the Executive Director of the Advisory Council on Historic Preservation been consulted to determine whether or not the effect is adverse? ☐ Yes ☐ No

Through the above consultation, the following has been concluded.

☐ A Joint Memorandum acknowledging no adversity is attached.

☐ An adverse effect has been established; no alternative to resolve it can be agreed upon. Review by the Advisory Council on Historic Preservation will be requested and a 102(2)(C) will be prepared.

H. Based on information supplied by the applicant and gathered by HUD from other sources, evaluate and discuss under each heading the major environmental issues involved in the project. This evaluation must address the significance of impact of the project on the environment and the significance of impact of the environment on the project. Identify:

(1) Beneficial and adverse environmental impacts—discuss basis for judgment;

(2) Short-term (immediate impacts of short duration, such as during construction and initial use) and long-term (lasting beyond construction and initial use period, or with implications for secondary impacts in the future) impacts;

(3) Significance of impacts—quantitative measure of magnitude (degree, extent, or severity or impact), and qualitative measure of importance (in context of community needs and goals, areawide and State objectives and planning, HUD and national goals and concerns);

(4) HUD and other Federal, State, or local policies or standards which are in danger of being violated or ignored;

(5) Measures being taken or planned to reduce adverse environmental impacts and how HUD will assure that such measures will be implemented (inclusion as requirements in contract, grant or other document) if the project is approved.

a. *Physical environment (natural and man-made).*

b. *Social environment.*

c. *Aesthetic environment.*

I. What is the full array of possible alternatives to the proposal (including those beyond HUD's immediate control) which would significantly alter the environmental impacts of the project? Evaluate the alternative sites, sizes, and designs described by the applicant in Form ECO–1 and the applicant's reasons for rejecting alternatives. Discuss additional alternatives, including the alternative of not approving the project at all, as well as alternative locations, sizes, and designs, from HUD's viewpoint which would alter the environmental impacts. Compare and evaluate the costs and benefits of these alternatives with those of the proposed project, and discuss why they should be rejected or adopted.

J. Which of the potential adverse environmental impacts described in H. could and which could not be avoided by the selection of an alternative site?

K. Which of the potential adverse environmental impacts described in H. could and which could not be avoided by modification of the project in terms of size or design, at the proposed site location?

L. Will the project stimulate any long-term development or population distribution trends or result in any irretrievable commitment of important resources (e.g., loss of unique areas or properties of natural, social, cultural, or aesthetic value; commitment of community services and resources)? How do these impacts compare with goals and plans on the local, areawide, State, and national levels, as well as with principles of orderly growth? Discuss.

M. Is there evidence of actual or potential controversy on environmental issues as indicated by the applicant or by HUD inquiries? Describe the nature and degree of controversy.

Date ---------- Prepared by----------

APPENDIX C–4

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

ENVIRONMENTAL FINDING RESULTING FROM SPECIAL CLEARANCE

Instructions. Attach this finding to the front of the completed ECO–3, Special Environmental Clearance Worksheet. These documents shall accompany the application through the review process.

Project Name ---------- Project Number --------

Based on the information derived from the review and evaluation of the attached items and of supporting documentation, the following finding is made:

☐ The proposal should be rejected. Even after appropriate modifications to the proposal there exist environmental impacts which are unavoidable, and, based on HUD environmental policies and standards, also are considered unacceptable.

☐ A Finding of Inapplicability is made and processing may proceed. There is no significant environmental impact.

☐ Environmental Impact Statement Clearance is required prior to HUD decision. Even after appropriate modifications to the proposal to mitigate environmental impacts, there remains actual or potential significant environmental impact.

Discuss briefly the basis for the finding made above.

Recommendation of Environmental Clearance Officer.

ENVIRONMENTAL IMPACT STATEMENTS

The following outlines shall be used in the preparation of all HUD Environmental Impact Statements:

Appendix D–1. Outline of Content of Environmental Impact Statements for HUD Project Level Actions.

Appendix D–2. Outline of Content of Environmental Impact Statements for HUD Policy Actions.

Specific formats are prescribed by the CEQ and National Technical Information Service and must accompany both the Draft and Final Environmental Impact Statement. They are as follows:

Appendix D–3. Format of Summary Sheet of Environmental Impact Statement.

Appendix D–4. Format for Cover Page of HUD Environmental Impact Statement.

OUTLINE OF CONTENT OF ENVIRONMENTAL IMPACT STATEMENTS FOR HUD LEVEL ACTIONS

(THE FORMAT, DERIVED FROM NEPA AND CEQ GUIDELINES, SHOULD BE FOLLOWED CLOSELY AND COMPLETELY FOR STATEMENTS FOR PROJECT LEVEL ACTIONS.)

The Environmental Impact Statement should be essentially a self-contained document with sufficient detail to fully inform readers with no prior knowledge of the project, of the environmental impact of the proposal. Supporting documentation, such as reports, studies, and specifications, which is too unwieldly to be included in the Statement should be listed and availability of these documents for reading should be explained. The conclusions and environmental implications of such documents, however, should be contained in the text of the Statement.

Cover Page (see Appendix D–4)
Summary Sheet (see Appendix D–3)
Table of Contents

1. *Description of the proposed action.* Summarize the nature and purpose of the proposed action, the HUD program involved and the process of decision-making, location, sponsor, size, cost, and other pertinent descriptive information. Briefly describe the site and surrounding area. Additional elements may include: (a) The place of the particular HUD action in a more comprehensive process or program; (b) a chronology of events; (c) views of local officials and citizens groups, A–95 agencies, State and Federal agencies concerning the proposal; (d) relationship of the proposal to official goals and plans, and to other relevant actions by HUD, other agencies, or the private sector.

2. *Probable environmental impact of the proposed action.* Discuss beneficial and adverse, short-term and long-term impacts on the physical (natural and man-made), social, and aesthetic environment. Discussion must cover both the impact of the proposed project on the environment and the impact of the environment on the project and should cover: (a) What will be impacted; (b) Sources of impact; (c) Significance of impact (magnitude and importance); (d) relationship to local/area-wide/State planning; (e) HUD and other Federal, State, or local policies or standards which are in danger of being violated or ignored.

3. *Alternatives to the proposed action.* Discuss the full array of alternatives (including no action and those beyond HUD's immediate control) which would significantly alter the environmental impacts of the proposed project, including alternatives which would reduce adverse impacts even though other objectives would be affected or partially sacrificed. Include alternative locations or sites, sizes and designs. Compare and evaluate the costs and benefits of these alternatives with those of the proposed project, and discuss why they were rejected.

4. *Probable adverse-environmental impacts which cannot be avoided should the proposal be implemented.* Discuss the seriousness of the adverse impacts resulting from the recommended action, and what has been done to minimize adverse environmental impact. Identify adverse impacts which: (a) could have been avoided were one of the alternatives adopted; (b) could not be avoided by any alternative; and (c) were avoided by choosing the recommended action. Discuss the costs of abatement measures, including those rejected. Describe why the action is being proposed in spite of adverse impacts (countervailing interests), and show how environmental aspects have been balanced against technical and cost considerations of the project's anticipated accomplishments. Describe any modifications to the project or provisions added designed to enhance environmental quality or eliminate or reduce potential adverse impact. Include a discussion of how HUD will assure that such provisions will be implemented if the project is approved, e.g., requirements in the contract, grant or other documents.

[1] 5. *Relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity.* Evaluate short-term and long-term, environmental and technical/economic costs and benefits. Discuss any future options foreclosed as a result of the recommended action and alternatives which avoid the foreclosure. Identify those who benefit and those who pay the costs over time.

[1] 6. *Any irreversible and irretrievable commitments of resources which would be involved.* Discuss implications for population distribution and land use and development trends, investment of resources such as land and community services, destruction of irreplaceable or unique resources such as historic property and unique natural areas. Identify the extent to which the action curtails the range of beneficial uses of the environment, including options for use of the site or area which are foreclosed.

7. [After circulation to other agencies for comment] *Discussion of problems and objections raised and HUD accommodation.* Show how substantive comments and recommendations of other Federal, State and local agencies and private parties have been incorporated into the project plans and the Environmental Impact Statement, and/or explain why recommendations have been re-

[1] These categories may be combined and reference may be made to other sections of the Statement when appropriate to avoid repetitiveness.

V 38 I 137 JUL 18 73 XUM

jected (if Statement has been changed in response to a comment, reference to the page number of the revision may be sufficient). Annex comments received as appropriate.

8. *Recommended HUD action on proposal.* (one paragraph in Final Environmental Impact Statement *only*) Briefly state the finding made as to whether the proposed project should be approved or rejected based on the discussion contained in the Statement and comments received, and cite the major reasons for the finding.

9. *Appendices.* Include maps showing location (minimum of one map showing location of project within town, city, metropolitan area, or region, and one showing relationship of project to immediate area and distances from major landmarks), land use, infrastructure systems, etc., as appropriate. Additional tables, charts, diagrams, bodies and other documentation should be included as appropriate. Appendices may be helpful to summarize and present data in abbreviated form; however, they should not substitute for narrative evaluation in the text of the Statement.

Appendix D–2

OUTLINE OF CONTENT OF ENVIRONMENTAL IMPACT STATEMENTS FOR HUD POLICY ACTIONS

(The format, derived from NEPA and CEQ guidelines, should be followed closely and completely for Statements for policy actions.)

The Environmetal Impact Statement should be essentially a self-cotained document with sufficient detail to fully inform readers with no prior knowledge of the action, of the environmental impact of the proposal. The proposed legislation, regulations, or policy or guidance document should be attached. The need for the reader to refer to the attached document while reading the Statement should be kept to a minimum. On the other hand, the Statement should not merely repeat standards, criteria, or policies, but instead should present and analyze the possible environmental consequences of implementing the proposal.

Cover Page (see Appendix D–4)

Summary Sheet (see Appendix D–3)

Table of Contents

1. *Description of the proposed action.* Summarize the nature and purpose of the proposed action, the HUD program involved, and the relationship of the proposal to related documents or actions and to national and Departmental goals and policies. Additional elements may include: (a) history of the proposal, (b) views of Congress, other agencies, public and private groups concerning the proposal.

2. *Probable environmental impacts of the proposed action.* Discuss beneficial and adverse, short-term and long-term impacts on the physical (natural and man-made), social, and aesthetic environment. For new programs, estimate expected levels of usage (high, medium, low) and discuss impacts given range of possible usage levels. For new standards or criteria, organize standards into functional or environmental impact categories. Discuss impacts both on the level of specific localized effects of specific standards, criteria or regulations, and on the level of broader, cumulative impacts of implementing the proposal, and cover: (a) What will be impacted; (b) Sources of impact; (c) Significance of impact (magnitude and importance)

3. *Alternatives to the proposed action.* Discuss the full array of alternatives which would significantly alter the environmental impacts of the proposed action, including:

(a) The alternative of not taking the proposed action and the beneficial and adverse impacts which would be avoided;

(b) alternatives which are beyond HUD's control but which may alter the environmental impacts of the proposed action;

(c) alternative ways of taking the action; because of the large number of alternative standards, criteria, and policies that are usually considered in developing and approving a policy action, it may be useful to organize discussion in terms of major alternatives which (1) provide for additional or more stringent standards, criteria, or approval procedures, and (2) provide for fewer or less stringent standards, criteria, or approval procedures. Discuss the extent to which each alternative would enhance or partially sacrifice other objectives. Compare and evaluate the costs and benefits (environmental and other) of these alternatives with those of the proposed project, and discuss why they were rejected.

4. *Probable adverse environmental impacts which cannot be avoided should the proposal be implemented.* Discuss the seriousness of the adverse impacts which would result from the recommended action, and what has been done to minimize adverse environmental impact. Identify adverse impacts which: (a) Could have been avoided were one of the alternatives adopted, (b) could not be avoided by any alternatives, and (c) were avoided by choosing the recommended action. Describe why the action is being proposed in spite of adverse impacts, and show how environmental aspects have been balanced against countervailing objectives and the actions anticipated accomplishments.

5. *Relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity.* Evaluate short-term and long-term, environmental and technical economic costs and benefits. Discuss any future options which would be closed as a result of the recommended action and alternatives which would avoid the foreclosure. Identify those who would benefit and those who would pay the costs over time.

6. *Any irreversible and irretrievable commitments of resources which would be involved.* Discuss implications for population distribution and land use and development trends, investment of resources such as land and community services, destruction of irreplaceable or unique resources such as historic property and unique natural areas. Identify the extent to which the action, if implemented, would curtail the range of beneficial uses of the environment, including options for alternative uses or development courses which would be foreclosed.

7. [After circulation to other agencies for comment] *Discussion of problems and objections raised and HUD accommodation.* Show how comments and recommendations of other agencies and private parties have been incorporated into the proposed action and the Environmental Impact Statement, and/or explain why recommendations have been rejected (if Statement has been changed in response to a comment, reference to the page number of the revision may be sufficient.) (Annex comments received as appropriate.)

8. *Recommended HUD action on proposal.* (one paragraph—Final EIS *only*) Briefly state the finding made as to whether or not the proposed action should be implemented based on the discussion contained in the Statement, and cite the major reasons for the finding.

9. *Appendices.* Include reports, studies, tables, charts, diagrams, or other documentation as appropriate. Appendices may be helpful to summarize and present data in abbreviated form; however, they should not substitute for narrative evaluation in the text of the Statement.

Appendix D–3

CEQ FORMAT FOR SUMMARY SHEET OF ENVIRONMENTAL IMPACT STATEMENTS

(Content prescribed by CEQ and should not exceed one 8 x 10½ page)

Status: (Check one) ( ) Draft ( ) Final Environmental Statement

Subject: (Identify proposal and location)

Name of Responsible Federal Agency: Department of Housing and Urban Development (identify also issuing office in HUD).

1. *Name of Action:* (Check one) ( ) Administrative ( ) Legislative

2. *Brief Description of action:* indicate also States (and Counties) particularly affected.

3. *Summary of environmental impact and adverse environmental effects.*

4. *Alternatives Considered.*

5. (a) (For Draft Statements) *All Federal, State and local agencies from which comments have been requested.*

(b) (For Final Statements) *All Federal, State and local agencies and other sources from which written comments have been received.*

6. *Dates Statements made available to CEQ and public.*

Draft:

Final:

FORMAT FOR COVER PAGE OF HUD ENVIRONMENTAL IMPACT STATEMENTS

(Cover page is required by the National Technical Information Service.)

I. Report number ---------- HUD-R05-EIS-72-13F
Dept. of Housing & Urban Development
Regional Office 5 (for CO actions, use office designations: CD, CPD, HPMC, etc.)
Environmental Impact Statement
1972
Sequential number assigned by CO for CO actions, and by RO for field project actions (D = Draft or F = Final)

II. Title ---------- PARADISE APARTMENTS (236)
NIRVANA, MICHIGAN
Subtitle ---------- Final Environmental Impact Statement
Applicant name and address ---------- Heavens Development Co., Inc.
13 Mecca Avenue
Elysia, Michigan 48001
Date ---------- July 16, 1972

III. Agency name and address ---------- Prepared by:
Detroit Area Office
Chicago Regional Office
U. S. Department of Housing and Urban Development
300 South Wacker Drive
Chicago, Illinois 60606

Appendix E

FIELD RESPONSIBILITIES FOR ENVIRONMENTAL CLEARANCE

	Normal Environmental Clearance	Special Environmental Clearance	Draft Environmental Impact Statement (Draft EIS)	Final Environmental Impact Statement (Final EIS)
Applicant	Prepare HUD Form ECO-1	Prepare HUD Form ECO-1	Supply data as necessary....	Modify project plans as necessary.
AO/IO Program Personnel.	Prepare HUD Form ECO-2; sign-off.	Prepare HUD Form ECO-3; sign-off.	Prepare Draft EIS (and distribution list).	Review comments received, negotiate with applicant for modification; prepare Final EIS.
AO/IO ECO		Make recommendations prior to finding on ECO-3.	Provide guidance, review Draft EIS, return to originator for modifications as necessary and approve.	Provide guidance, review Final EIS, return to originator for modification as necessary, and approve.
RO ECO			Review, return to AO/IO for modification as necessary, and approve Draft EIS and distribution list.	Review, return to AO/IO for modification as necessary, and approve Final EIS.
CO ECO			In controversial or precedent-setting cases, review, return to RO for modification as necessary, and approve; return to RO for distribution.	In controversial or precedent-setting cases, review, return to RO for modification as necessary, and approve; return to RO for distribution.

Appendix F

FORMAT FOR FINDING OF INAPPLICABILITY FOR POLICY ACTIONS

Memorandum

To: (appropriate Assistance Secretary or Administrator)
From: (initiating office director)
Subject: Finding of Inapplicability for ---
It is the finding of this office that the subject HUD action does not have actual or potential significant environmental impact.

1. Briefly describe the proposed action.

2. State the reasons for determining that there is no environmental impact, or that the environmental impact is not significant. Identify the environmental impact, if any, of implementing the program proposal, regulations, or guidance document. Discuss actual and potential, direct and indirect, short-term and long-term environmental impacts, including physical, aesthetic, and social dimensions.

After appropriate concurrences as indicated below, this Finding of Inapplicability shall accompany the proposed action through the HUD review and decision-making process.

Concurrences (Use appropriate category) (proposed legislation) (proposed regulations) (proposed policy and guidance document)

(General Counsel)	(Program ECO)	(Program ECO)
(Assistant Secretary) for CPD	(Assistant Secrctary for CPD)	(Assistant Secretary for CPD)
	(General Counsel)	(General Counsel)

cc: Assistant Secretary for CPD (Attn: Environmental Clearance Officer) General Counsel (Attn: Environmental Clearance Officer)

Appendix G

OUTLINE OF CONTENT FOR HUD COMMENT ON ENVIRONMENTAL IMPACT STATEMENTS OF OTHER AGENCIES

1. *Cross reference to incoming inquiry.* A short summary of the proposal is optional.

2. *HUD Comment on the statement.* Identify HUD's concerns and give a general assessment of the adequacy of the Environmental Impact Statement in treating issues important to HUD. If information concerning issues important to HUD is not sufficient to support a conclusion concerning the existence of unacceptable adverse environmental impacts, the Draft Statement should be returned with a request for further information.

3. *HUD Reservations about the proposal.* Deficiencies in the proposal should be stated and possible solutions prescribed. Reservations should be numbered sequentially for convenient cross reference.

Originating agency may be requested to refer the Statement to local or areawide planning agencies and local executives for identification of issues and views.

Appendix H

HUD AREAS OF JURISDICTION BY LAW OR SPECIAL EXPERTISE (TAKEN FROM CEQ GUIDELINES, APRIL 23, 1971)

Energy. Environmental Aspects of Electric Energy Generation and Transmission (urban areas)

Land use and management. Historic and Archeological Sites (urban areas); Flood Plains and Watersheds (urban areas); Parks, Forests, and Outdoor Recreation (urban areas).

Noise. Noise Control and Abatement (urban land use aspects, building materials standards).

Urban. Congestion in Urban Areas, Housing and Building Displacement; Environmental Effects with Special Impact in Low-Income Neighborhoods; Rodent Control; Urban Planning.

federal register

Area Code 202 Phone 962–8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

ANTIDUMPING—Treasury Department notice of withholding of appraisement on certain ores from Canada; comments by 8–20–73 19255

MEDICARE—HEW proposal on determining physician costs and certain hospital services; comments by 8–20–73 19230

MEETINGS—

Commerce Department: Computer Peripherals, Components and Related Test Equipment Technical Advisory Committee, 7–25–73 19266

Interior Department: Vernal District Grazing Advisory Board, 8–14 to 8–15–73 19257

National Petroleum Council, 7–24–73 19258

DOD: Chief of Naval Operations Industry Advisory Committee for Telecommunications, 7–31 and 8–1–73 19255

NIH: Tobacco Working Group, 7–24 to 7–25–73 19269

Cost of Living Council: Food Industry Wage and Salary Committee, 7–25–73 19282

Contents

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS

Special Freeze Group Questions and Answers No. 19

These "Questions and Answers", which are issued by the Cost of Living Council's Freeze Group, are designed to provide immediate guidance in understanding and applying the new freeze regulations (Part 140 of Title 6 of the Code of Federal Regulations). To achieve the broadest publication, these are hereby added to Appendix A of Part 140. Since they provide guidance of general applicability and are subject to clarification, revision or revocation, they do not constitute legal rulings with respect to specific fact situations.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11723, 38 FR 15765; Cost of Living Council Order No. 30, 38 FR 16267)

Issued in Washington, D.C., on July 17, 1973.

JAMES W. MCLANE,
Director,
Special Freeze Group.

Appendix A of Part 140 is amended by adding the following:

SPECIAL FREEZE GROUP—QUESTIONS AND ANSWERS NO. 19

1. Q: Under Phase II, sellers of products and services through vending machines were permitted to determine their base prices by reference to customary pricing methods which were based on marketing areas rather than by reference to actual transactions at each machine during the 1971 Phase II base period. This special rule was promulgated because a considerable length of time is often required after a price increase decision is made to adjust vending machines to accept additional or different coins or to dispense items of different size or weight. Does the special rule apply in calculating the 1973 freeze price?

A: Yes.

2. Q: Company A imports and resells shirts. On June 15, 1973 Company A bought the shirts for $10 each and resold them for $15 each. It now costs Company A $12 to buy a shirt. May Company A raise the selling price of shirts entered into inventory after June 15 to $17 each to reflect the replacement cost?

A: No. Importers and resellers of imports may pass on increases in the landed cost for imported commodities incurred after June 12, 1973 on a dollar-for-dollar basis so long as the commodity is neither physically transformed by the seller nor becomes a component of another product. However, an importer may not use this rule to reprice his inventory on the basis of replacement costs. The cost allowed to be passed on by the import rule is actual cost, not replacement cost.

3. Q: A public utility bills customers each month for delivery of electrical services during the previous month. Under authority from its State regulatory commission, the utility calculates its overall rate by a formula in a fuel adjustment clause which allows an adjustment to represent changes in the cost of fuel between the third and fourth month prior to the billing month. This adjustment is figured as a percentage of the rate per kilowatt hour. When the service is delivered each month, the utility knows the amount it will charge per kilowatt hour and the percentage that will be added under the formula. May the utility continue to adjust its rates during the freeze under the fuel adjustment formula?

A: No. The fuel adjustment formula should not be treated differently than the rate per kilowatt hour. Under the rules of the freeze, a transaction occurs when a service is performed. Therefore, the overall rate in effect for electrical services delivered during June 1 through June 8, which would be reflected in the July billing, establishes the freeze price. The fact that the fuel adjustment formula is based on costs occurring before the freeze requires no different treatment because costs which are not reflected in a freeze price are not allowed to be passed through during the freeze except under the special rule for imports.

4. Q: A local government has provided free trash collection service during the past year. On July 1, the local government decided to begin charging a fee for the collection service. Can it implement this charge during the freeze?

A: No. Having provided the service free during June 1 through June 8, the local government is considered to have had transactions which established a zero freeze price. The government must continue to provide the trash collection service free of charge for the duration of the freeze.

5. Q: A bank operates a charge card service as a subsidiary. Merchants honoring the charge card pay for the service through a discount system. Under the discount, the charge card service retains 4% of every bill it handles, paying the rest to the participating merchant. The charge card service takes the risk of loss on all bad debts. Is the merchants' discount a fee for a service or a finance charge which is exempt?

A: The merchants' discount is a finance charge and is, therefore, not subject to the freeze. The merchants are paying for a faster receipt of payment on charged items and for protection against bad debts. In effect, they are paying interest on amounts received from the charge card service prior to collection of the bill by the charge card service.

6. Q: If an insurance company has implemented a rate revision for new business prior to the freeze base period in a particular coverage, e.g., private passenger automobiles in South Dakota, may those revised rates be used on renewal business even though the effective date for those renewals is subsequent to the freeze base period? All the business in the particular coverage written during the freeze base period was new business and was written at the new (higher) rate.

A: New business and renewal business are part of the same class of purchaser since the rates charged for comparable risks for both types of businesses are identical. The new business's effective date established a freeze price for both new and renewal business in that particular coverage since at least 10% (in this case, 100%) of the transactions in the particular coverage which occurred during the freeze base period were at the new (higher) rate.

7. Q: To what extent can firms change their business practices during the freeze?

A: Businesses may change their operating practices during the freeze, so long as the change in these practices does not result in a circumvention of the intent of the price freeze. The business must be able to document that freeze prices based on the changed practices are comparable to freeze prices charged for similar products and services during the freeze base period.

For instance, if a firm decides to change from selling only a finished product to selling raw materials and the service of processing raw materials, the firm must sell raw materials to anyone, not just those buying his processing service. The price for a raw material must be determined in accordance with the applicable freeze regulations.

If a firm changes from selling a finished product to selling the processing service, the price for the processing service must relate only to service actually being provided. For example, a firm sold a processed product for $150.00 per unit during the freeze base period and this price included $50.00 for the raw material, thus making the charge for the processing $100.00. During the freeze the price for that service would not be $100.00 per unit since the $150.00 per-unit price for the processed product included (in addition to the $50.00 per-unit purchase price for raw materials) brokerage, inventory-carrying, overhead and other services related to the raw materials. Hence the price for the processing service alone would be lower than $100.00 because the value of the services applied to the raw material cannot be included since the service is not provided.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Regulation 441]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period July 20-26,

V 38-138 JUL 19 73 XUM

1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.741 Valencia Orange Regulation 441.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges is steady to slightly better. Prices f.o.b. averaged $3.20 per carton on a sales volume of 508 carlots during the week ended July 12, 1973, compared with $3.13 per carton on sales of 453 carlots a week earlier. Track and rolling supplies at 272 cars were down one car from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 17, 1973.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period July 20, 1973, through July 26, 1973, are hereby fixed as follows:

(i) District 1: 98,000 cartons;

(ii) District 2: 425,000 cartons;

(iii) District 3: 52,000 cartons."

(2) As used in this section section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 18, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER F—SECURITY SERVICING AND LIQUIDATIONS

[FHA Instruction 465.2]

PART 1872—REAL ESTATE SECURITY

Subpart C—Management and Sale of Acquired Real Estate

Subpart C of Part 1872, Title 7, Code of Federal Regulations (32 FR 8290; 37 FR 13159) is amended to reflect a change in title, "Management and Sale of Acquired Real Estate."

In accordance with 5 U.S.C. 553, these amendments are being published without prior rulemaking because it is impracticable to delay making available assistance provided by these amendments in that Realtors and Agents may be utilized to assist in the disposal of any acquired property expeditiously, thereby avoiding, to the greatest extent possible, damage to such property while it is in Government ownership, and more rapidly reduce the investment of FHA loan funds. The prospective buyer that cannot pay cash will be immediately provided the longer terms to which he is entitled under P.L. 92–419 for the purchase of surplus property. Updating the policies, procedures, and authorizations to conform to the Consolidated Farm and Rural Development Act (P.L. 92–419) is necessary to provide additional services to rural people. Accordingly, it is in the public interest that this subpart shall be effective on July 19, 1973.

It is the policy of this Department that rules relating to public property, loans, grants, benefits or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. See the Secretary of Agriculture's statement setting forth the policy on public participation in rule-making 36 FR 13804, dated July 24, 1971. In accordance with the spirit of that policy, interested parties may submit written comments, suggestions, data, or arguments to the Office of the Deputy Administrator Comptroller, Farmers Home Administration, U.S. Department of Agriculture, Room 5007, South Building, Washington, D.C. 20250, on or before August 20, 1973. Material thus submitted will be evaluated and acted upon in the same manner as if this document were a proposal. However, this subpart shall remain effective until it is amended, in order to permit the public business to proceed expeditiously.

These amendments are effective on July 19, 1973.

As amended, Subpart C of Part 1872 reads as follows:

Subpart C—Management and Sale of Acquired Real Estate

Sec.

1872.61 General.
1872.62 Handling acquired property during redemption.
1872.63 Management of acquired real estate.
1872.64 Disposition and sale of rights-of-way, easements, perishable items, mineral rights, water rights, and mineral, agricultural or other leases.
1872.65 Method of sale of property that was security for a loan made under the Consolidated Farm and Rural Development Act.
1872.66 Sale of property that was security for Rural Housing loans only
1872.67 Additional requirements.

AUTHORITY: 7 U.S.C. 1989; 42 U.S.C. 1480; 40 U.S.C. 442; 42 U.S.C. 2942; 5 U.S.C. 301; delegation of authority by the Sec. of Agri., 38 FR 14944, 14948, 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 38 FR 14944, 14952, 7 CFR 2.70; delegations of authority by Dir., OEO, 29 FR 14764, 33 FR 9850.

Subpart C—Management and Sale of Acquired Real Estate

§ 1872.61 General.

(a) *Purpose.* The purpose of this subpart is to delegate authority and prescribe policies and procedures for management and sale of farm and nonfarm real estate and related property or rights acquired in any manner by the Farmers Home Administration (FHA) for administration or disposal.

(b) *Definitions.*—(1) *Acquired real estate.* Acquired real estate includes any real estate and any growing crop which, according to the advice of the Office of the General Counsel (OGC) is acquired with the land and any improvements or appurtenances which would customarily pass with the land. Also, it includes any items of acquired personal, chattel, business inventory, and other property necessary to the efficient operation of the real estate or business enterprise and such items are to be sold with the real estate.

(2) *Date of acquisition.* The date of acquisition in case of voluntary conveyance will be the date the deed to the Government is filed for record. In all other cases, the date of acquisition will be the date title is vested in the Government. Usually this will be determined by the County Office. If there is any question about the actual date of acquisition, the determination will be made by the OGC.

(3) *Surplus property.* Surplus property is any acquired real estate which is suitable for sale to eligible applicants but not sold within three years from the date of acquisition, not suitable for sale to an eligible applicant under § 1872.65 or § 1872.66, or suitable but not practical for sale to an eligible applicant because of other reasons.

(4) *Taxes.* Taxes include all taxes, assessments, levies, irrigation and water changes, or other similar obligations against the real estate.

(5) *Association programs.* These programs include water and waste disposal, recreation, and loans to grazing associations, Indian tribal corporations, watershed sponsors, rural renewal organizations, irrigation and drainage organizations, timber development organizations, and economic opportunity cooperatives, resource conservation and development loans, and other community program loans.

(6) *Multiple housing.* These programs include rural rental and cooperative housing, farm labor housing, and rural housing site loans.

(7) *Caretaker.* A person who, under contract with FHA maintaining and protecting acquired real estate. If authorized by the contract he may also manage and operate the facility on the acquired real estate.

(c) *Basic policies.* The policy of the FHA is to manage and sell acquired real estate in accordance with the provisions of this Subpart to best accomplish the program goals and to protect the Government's financial interest and preserve the value of the real estate. Acquired real estate will be sold in accordance with the provisions of this Subpart as soon as practicable after it is acquired by the Government. The sale of acquired real estate will not be delayed for the purpose of obtaining a greater speculative recovery.

(1) Acquired real estate suitable for the Farm Ownership (FO), Recreation (RL), Labor Housing (LH), Multiple Housing, or Association programs will, whenever practicable, be sold on a credit basis to eligible applicants in accordance with the policies and authorizations for the type of FHA programs under which the property is being sold, § 1872.65 or § 1872.66, or when not clearly covered by this Subpart any special requirements issued by the National Office and when applicable, OGC. Acquired property may be reclassified by the State Director from suitable for program use to surplus or vice versa. When no interest in the property is shown by eligible applicants, it may be reclassified to surplus. Likewise, when a property cannot be sold as surplus but interest of eligible applicants is generated through the sale notices it may be reclassified for sale to eligible applicants. In making the reclassification, the files should be adequately documented to show the reasons for the change. Any property not sold within 3 years from the date of acquisition must be declared surplus and sold accordingly.

(2) Acquired property, other than that which secured only a Rural Housing (RH) loan, which is to be sold as surplus will be advertised for public sale, either by auction sale, or on a sealed bid basis provided the public is given an opportunity to be present at the bid opening sale. If the property is not sold at such a public sale, negotiations may be entered into with interested bidders and any others on the same terms and conditions outlined in the public sale notice.

(3) Acquired RH properties which are not suitable for program purposes will be sold in accordance with § 1872.66.

§ 1872.62 Handling of acquired property during redemption.

When acquired real estate is subject to redemption rights under State law, the State Director with the advice of OGC is responsible for giving instructions to County Supervisors for the care and management of such property during the redemption period. His instructions may be given in a State requirement or on an individual basis. In either case, the requirement will cover actions such as payment of taxes, leasing, and maintenance and repairs. If under State law the Government's interest may be sold during the period of redemption, the State Director is authorized to sell the Government's interest in accordance with §§ 1872.65 and 1872.66 subject to the following conditions:

(a) The sale price of the property is at least equal to the amount of the inventory debt.

(b) Such a sale would assist in accomplishing the purpose of the loan.

(c) The sale would not result in a financial loss to the Government if redemption was made.

(d) The following special conditions are met in connection with the sale:

(1) A determination must be made that there is no apparent likelihood of redemption being made during the period of redemption allowed by the State statute.

(2) Each applicant must sign a written statement acknowledging that he is buying a property that is subject to the State statutory redemption rights on terms which will be set forth in the statement; if the property should be redeemed, it would divest him of ownership and possession and might result in his loss of any additional investment by him in the property not recoverable under the State statute; and he desires to purchase the property under the conditions set forth. The signed original statement will be filed in the borrower's County Office case folder.

§ 1872.63 Management of acquired real estate.

The County Supervisor will manage acquired real estate in accordance with this Subpart. The State Director will determine, with the advice of OGC, the ownership of any growing crops and small business stocks, portable buildings or irrigation equipment and timber acquired as a part of the real estate and will provide the County Supervisor with any special requirements required for their care and disposition.

(a) *Costs.* When costs are to be paid by the Government to caretakers, prior lienholders or tax collectors, or maintenance and repairs, or for other costs to preserve the Government's interest, Standard Form 1034, "Public Voucher for Purchases and Services Other Than Personal," will be used to make the necessary advance. The cost will be paid from the source of loan funds for the kind of FHA loan with the highest priority of lien before acquisition for which funds are then available except that when both FO and RH loans are involved on the same farm, priority will be given to the use of FO funds.

(b) *Posting the property.* The County Supervisor will display FHA posters "This Property for Sale" and "Warning" on acquired real estate to inform the public that the properties are for sale and that trespassers and perpetrators of acts of thievery, vandalism, or unauthorized entry will be subject to prosecution.

(c) *Reporting damage or theft.* If vandalism or theft occurs, the County Supervisor will handle the case in accordance with appropriate FHA requirements.

(d) *Removal and disposition of personal property not acquired by FHA.* Prior to implementing this paragraph the State Director will obtain the advice

V 38-138 JUL 19 73 XUM

of the OGC as to any necessary changes for the state. If the FHA has acquired title to the property and the borrower has vacated the property but left items that did not pass with the real estate such as furniture, personal effects or chattel property not included in the FHA or any prior mortgage, the County Supervisor will handle the case in accordance with the following:

(1) After the property is acquired by the Government, he will notify the borrower in person or by telephone that the personal property should be removed from the premises within a specified time, usually 10 days. The County Supervisor will keep a written record of notification showing pertinent facts including date and time of contact.

(2) If the borrower or someone authorized to act for him does not remove the personal property within the specified period, the County Supervisor should check the appropriate public records to determine if a creditor has a lien on any of the personal property and, if so, notify the lienholder by registered letter that the property will be impounded and disposed of by the FHA if it is not removed from the premises in five days.

(3) If no lienholder can be located, the County Supervisor will notify the borrower by registered letter that unless the property is removed within five days, it will be impounded and disposed of by the FHA.

(4) If no response is received from the borrower or the lienholder after notification by registered mail, then, as a last resort the FHA will remove the property. This action will be taken only with the prior approval of the State Director with the advice of the OGC. If a decision is made to remove and dispose of the property, it will be appraised by the County Supervisor. If a reasonable amount can likely be realized from the sale of the property, the property may be sold at public sale and the net proceeds after deducting all expenses incurred by the Government applied to the deficiency, if any, on the borrower's loan. Otherwise, the net proceeds after deducting expenses incurred by the Government will be paid to the borrower with an itemized statement listing items sold and their sale price. If the property is not worth selling, authority may be given to the mover to take the property in exchange for his moving cost or, if necessary, payment by voucher can be made to take the property to the public dump for disposal.

(5) The owner may redeem the personal property prior to its sale by paying all expenses incurred by the United States in advertising, gathering, moving, impounding, storing, and otherwise caring for the property.

(e) *Leasing the property.* When acquired real estate cannot be sold immediately and its leasing is necessary to protect the Government's interest, property that was security for any type of FHA loan except Rural Rental Housing (RRH), Rural Cooperative Housing (RCH), Rural Housing Site (RHS), Labor Housing (LH) or loans to RCH organizations, may be leased for a period not to exceed one year or one crop year at a time. RH nonfarm tracts usually should be leased on a monthly basis. Property that was security for an RRH, RCH, RHS, or LH loan to an organization may not be leased but will be handled in accordance with paragraph (f) of this section. However, an exception for the lease of such property may be granted with National Office approval. Real estate taxes, maintenance, repairs, other costs to preserve the security, and similar real estate expenses will be paid by the Government by voucher as authorized in this subpart. Such costs will be considered in establishing the amount of rentals payable to the Government under the lease. No lease agreement will require the Government to pay operating expenses. When it is customary in the area for a portion of the operating expenses of the property to be paid by the landlord, however, such items may be considered in establishing the amount of rentals payable to the Government under the lease.

(1) The County Supervisor will endeavor to locate a suitable lessee of the acquired property if it cannot be sold promptly. When the County Supervisor recommends the leasing of security property, he will determine the best terms available for the property and complete Form FHA 465–2, "Lease of Security Property," in an original and three copies. When the property involves a single family house or a farm, the County Supervisor may approve the lease. If the lease involves an association property, the County Supervisor will submit three copies of Form FHA 465–2 with a complete report on the situation and his recommendations to the State Office for approval.

(2) When the County Supervisor or State Director, as appropriate, approves a lease, he will forward the original and one conformed copy to the Finance Office which will assign it a contract number, insert the number on the original and conformed copy, and return the conformed copy to the approval official. The approval officials will place the contract number on the copies in accordance with the Forms Manual Insert for Form FHA 465–2.

(3) When the amount of the rent of a farm under a lease is based on a percentage of crop sales, Form FHA 465–17, "Advice of Crop Percentage Rental Charge (Acquired Real Estate)," will be prepared by the County Supervisor when crops are harvested. He will send it to the Finance Office for use in establishing the rental charge.

(4) Any lease of acquired farm property to a person not eligible for assistance from the FHA will contain a clause prohibiting the growing of price-supported crops determined by the Secretary of Agriculture to be in surplus supply. This restriction will not prohibit the growing of such surplus crops to be used for pasture or green manure or to be cut before maturity. The County Supervisor will report to the County Agricultural Stabilization and Conservation Service (ASCS) Office all land covered by leases which contain restrictive clauses on the growing of surplus crops. The report will describe in sufficient detail the land covered by the lease to permit the ASCS to identify the property and to preserve the allotments applicable to the farm involved. Subsequent changes in ownership or in the lease will be reported to the ASCS during the month in which they occur.

(f) *Caretaker.* (1) Ordinarily, acquired farm or nonfarm RH real estate will not be operated by the Government. However, when the property is not sold immediately or when a satisfactory lease is not obtained, the County Supervisor may obtain a caretaker and formalize the agreement on Form FHA 465–3, "Caretaker's Agreement (Real Property Only)," for the shortest period feasible, usually on a monthly basis, but in no case in excess of one year or one crop year at a time. The compensation and any other expense required under the Caretaker's Agreement will be paid by the Government as authorized in paragraph (a) of this section. However, in no case may the compensation or any other expense be paid from sales proceeds or other income derived from the acquired real estate, including growing crops.

(2) When a caretaker is necessary to preserve and maintain multiple housing properties not sold promptly or leased in accordance with (e) of this section, the County Supervisor with the prior approval of the State Director, may execute Form FHA 465–3, "Caretaker's Agreement (Real Property Only)." See forms and guides available in all FHA County Offices for the proper completion of Form FHA 465–3.

(i) The compensation and any other expenses required under the Caretaker's Agreement will be paid by the Government as authorized in paragraph (a) of this section. In no case will the clause concerning the termination of the agreement be altered or deleted.

(ii) In no case may compensation to the caretaker be paid from income derived from acquired real estate.

(iii) The compensation to the caretaker may not exceed the usual and customary charge for similar services in the area, as determined by the State Director, and may be set as a fixed fee or a percentage of any monthly income from the property.

(iv) The rental rates charged for units will be the same as before the property was acquired, unless the State Director determines that revised rates are justified. If the acquired property was previously operated under an Interest Credit Agreement or leased under Housing and Urban Development (HUD) Section 23 contract, any special problems in dealing with occupancy should be referred to the National Office for advice.

(v) The caretaker will obtain copies of any written leases the borrower may

have executed with the occupants of the housing. If there are no written leases or copies cannot be located, Form FHA 465–2, "Lease of Security Property," may be modified and used for this purpose with the concurrence of the OGC in accordance with the following:

(A) A statement that the rental agreement will be transferred to the purchaser when the property is sold.

(B) A statement that the lease period shall be for 30 days and is automatically renewed unless cancelled by the tenant or the Government after giving 30 days notice.

(C) A statement that the Government does not carry any insurance on the property or contents.

(D) Any other items deemed appropriate and necessary in the area.

(3) Ordinarily, acquired association property will not be operated by the Government. However, when the property is not sold promptly or when a satisfactory lease arrangement is not available, the State Director may authorize the County Supervisor to formalize a caretaker's agreement using Form FHA 465–3 in accordance with the following:

(i) The Caretaker's Agreement will cover the shortest feasible period, usually on a monthly basis, but in no case in excess of six months.

(ii) The compensation and any other expenses required under the Caretaker's Agreement will be paid by the Government as authorized in paragraph (a) of this section. However, in no case may the compensation or any other expenses be paid from sales proceeds or other income derived from the acquired real estate, including growing crops.

(iii) The compensation to the caretaker may not exceed the usual and customary charge for similar services in the area, as determined by the State Director, and may be set as a fixed fee or a percentage of any monthly income from the property.

(iv) The caretaker may also be authorized to manage the property.

(v) Form FHA 465–3 may be modified in accordance with the forms and guides available in all county offices to record the agreements between the caretaker and the Government.

(g) *Payments on liens.* When real estate is acquired subject to a lien, the State Director will determine whether the payment in satisfaction of the lien in full or the payment of any installments under the mortgage will be in the best interest of the Government and is agreeable to the lienholder. In making this determination, consideration will be given to whether making such payments will result in a substantially greater recovery on the Government's investment than can otherwise be obtained, or a sale of the property to an applicant eligible under § 1872.61 will be made feasible.

(1) The State Director is authorized to make such payment or payments not to exceed $40,000. Any payment or payments exceeding $40,000 may be made only with prior approval of the National Office.

(2) The advice of the OGC will be obtained with respect to paying any lien in full and getting the mortgage released or assigned to the Government. If the State Director approves the payment of installments, he will advise the County Supervisor and authorize him to make such payments. Payments to lienholders may include taxes or insurance premiums or maintenance costs paid by the lienholder under his mortgage to protect the security.

(3) When taxes or insurance premiums or maintenance costs are included in a payment, a receipt for the payment of such items will be obtained from the lienholder and furnished to the Finance Office.

(h) *Taxes.* Property acquired by the Government is subject to taxation by state, territory, district, and local public subdivisions, in the same manner and to the same extent as other property unless the state law specifically exempts taxation of Federal-Government owned real estate. When title to real estate is vested in the Government, the County Supervisor will notify the appropriate taxing authority in writing that title to the real estate has been acquired by the Government and that claims for taxes during the Government's ownership will be billed to the FHA at the County Office address. If taxes become due and payable during the period of the Government's ownership, the County Supervisor will pay the taxes by voucher unless the taxes are paid by a prior lienholder. When the real estate is sold either in whole or in part, the County Supervisor will advise the taxing authority of the sale and the purchaser's name and provide a description of the parcel sold.

(i) *Insurance.* Insurance on acquired real estate will not be maintained by the Government after the date it is acquired (whether or not subject to redemption), except that State Rural Rehabilitation Corporation (SRRC) property under 2(f) agreements will be insured as provided by Part 1806 of this chapter. Any insurance in force at the time the property is acquired by the Government will not be cancelled. However, except in the case of SRRC property, no additional premium will be paid. The original insurance policy may be returned to the innsuring company if notification of cancellation is received. Payments for insurance on SRRC property will be made from SRRC funds. If title to real estate is acquired subject to a prior lien, the lienholder will be advised that the Government will not carry insurance on the property. If the lienholder pays insurance as an advance under his lien, such insurance premiums may be included in payments made by the Government to the lienholder.

(j) *Maintenance and repairs.* Ordinarily, acquired real estate will be sold in the physical condition in which acquired. Maintenance and repairs may be made, however, when necessary to protect the real estate or to prevent a significant decrease in its value. No expenditures other than those necessary to immediately protect the Government's security, such as winterizing or securing the property, should be made until the final title opinion showing Government ownership of the property has been received. Also, prior authorization from the State Director is required for any maintenance or repair if redemption rights are involved.

(1) Expenditures up to $2,500 may be approved by the County Supervisor. Whenever expenditures will exceed $2,500, they may be authorized only by the National Office in accordance with Federal Procurement Regulations. Work approved by the County Supervisor will be done by contract on Form FHA 424–6, "Construction Contract," after obtaining at least two estimates for the cost of maintenance or repairs, except the County Supervisor is authorized to make such expenditures without contract or estimates if the cost will be $200 or less.

(2) The costs will be paid by voucher and charged as an expense item to the inventory account.

(3) Any maintenance and repair work will be properly considered in the appraisal report before the property is offered for sale.

(4) Acquired property may be cleaned up, repaired, and painted where necessary to put it in satisfactory condition for immediate sale or rental if a sale on an "as is" basis cannot be made within a reasonable period. Expenditures for such repairs and maintenance will be authorized in accordance with the limitations and conditions in paragraph (j)(1) of this section, subject to a further determination that the improvements will cause the value of the property to be increased by at least as much as the cost of the improvements.

(k) *Responsibility for loss or damage to property between date of acquisition by the Government and sale of property.* As a general rule, the Government is responsible for loss or damage to a property after the date of acquisition and prior to the sale. In case a sales contract has been entered into and loss or damage occurs, the State Director may either have the loss or damage replaced or repaired or make a compensating adjustment in the sale price. However, if the loss or damage is the result of negligence by a prospective buyer, no adjustment will be made in the sale price.

(l) *Evictions.* The County Supervisor will through the State Office seek the advice of the OGC in evicting any unauthorized person from acquired property if he refuses to move voluntarily.

§ 1872.64 Disposition and sale of rights-of-way, easements, perishable items, mineral rights, water rights, and mineral, agricultural or other leases.

(a) *Rights-of-way or easements.* The State Director is authorized to grant easements or fee title to rights-of-way to public bodies if he determines such grant is in the public interest and will not adversely affect the value of the property. Also, he may sell easements or fee title to rights-of-way for adequate

V 381138 JUL 19 73 XUM

cash consideration through negotiations with persons, corporations, or public bodies without giving public notices, provided the sale is not inconsistent with the public interest. When a sale or grant is made, the Finance Office will be furnished a copy of the conveyance instrument and the selling price along with the consideration, if any, received.

(b) *Crops or perishable goods.* The State Director may authorize the County Supervisor to sell any crops, except timber, or perishable goods for the best cash price obtainable by public sale or negotiations without giving public notice. When a sale is made, the Finance Office will be provided a copy of the conveyance instrument and the selling price along with the consideration.

(c) *Mineral rights, water rights, mineral leases including royalties, and agricultural and other leases.* Mineral rights or water rights acquired by the FHA, mineral lease interests, mineral royalty interests, and agricultural and other lease interests will be sold with the surface land and will not be sold separately. If the land is to be sold in separate parcels, any such rights or interest applicable to each parcel will be included with the sale of each parcel of land. When a sale is made, any lease or royalty interest sold will be assigned to the purchaser and the lessee or payee of the royalty interest will be advised of the assignment.

§ 1872.65 Method of sale of property that was security for a loan made under the Consolidated Farm and Rural Development Act.

(a) *General.* This includes FO, RL, Soil and Water (SW), and Association loans and combinations of any type of RH loan with those loans. Acquired real estate which is now or can by subdivision or combination with other property be made suitable for a farm or association loan will be sold to eligible applicants in accordance with the following conditions:

(1) Priority will normally be given an applicant who proposes to use the property for the same purpose for which it was used before it was acquired. However, if it is in the best financial interest of the Government, the property may be subdivided and sold for different program purposes. As an example, grazing or golf course association property may be considered for subdivision into RH nonfarm tracts or farm tracts. Also, a farm property may be subdivided wholly or partially into RH nonfarm tracts.

(2) The applicant meets the eligibility requirements for the type of loan involved, and

(3) The property is sold on the basis of present market value.

(4) The amount of the credit sale will not be charged to any state allocation of funds.

(5) State Directors may authorize the use of realtors or Special Sales Agents to dispose of such property in accordance with paragraph (c)(4) of this section or § 1872.66(e).

(6) Where the property to be sold was subject to Title VI of the Civil Rights Act of 1964 and will be used for its original or a similar purpose, the applicant will sign Form FHA 400–4, "Nondiscrimination Agreement."

(b) *Processing.* The policies, procedures, authorizations, limitations, terms and conditions applicable to making, approving, and processing loans outlined in the FHA requirements pertaining to the type loan involved will be followed in making credit sales of acquired property to an eligible applicant. This will be done in accordance with the following:

(1) The docket forms will show the inventory property number and identify the credit sale as an initial loan unless the applicant already is indebted for the same type loan. A loan of the same type made simultaneously with the credit sale will be considered a subsequent loan. Separate Forms, "Record of Actions," Fund Analysis, and promissory notes, as appropriate, will be prepared for each transaction.

(2) Any cash downpayment collected at the time the sale is closed will reduce the amount due on the promissory note by the amount of such payment. The inventory advice number will be entered on the transmittal and the payment will be handled with all other payments for the day in accordance with Part 1862 of this chapter.

(3) The current insured loan interest rate for the type loan being made will be charged all eligible applicants.

(4) Form FHA 440–16, "Promissory Note (Insured Loan)" will be used for farm properties. Form FHA 440–22, "Promissory Note (Insured Loan to Non-Tax Exempt Association or Organization)," or other forms specified in OGC closing instructions will be used for association properties.

(5) Loan closing and title clearance for the credit sale and any additional loan to be closed simultaneously with the credit sale will be the same as for making a loan of the type involved except that:

(i) Form FHA 465–12, "Quitclaim Deed," as modified by OGC to meet the requirements of state law, if necessary, will be used. It will be executed by the State Director and acknowledged.

(ii) Any attorney or title insurance company costs and recording fees will be paid by the buyer.

(c) *Surplus property.* When it has been determined that farm or association property is not to be sold through credit sales to an eligible applicant, the State Director will declare the property surplus. He is then authorized to sell the surplus property to an ineligible applicant in accordance with the following:

(1) The State Director will establish the present market value of the property. This will be done by considering among other things, existing appraisal information on the property and, when necessary, he will request a new appraisal report to determine the present market value of the property. The appraisal will be made by an employee authorized to appraise real property.

(2) Farm property will be offered at public sale for cash or cash or terms of not less than a 10 percent cash downpayment and not to exceed 10 amortized payments of the balance of the purchase in accordance with paragraph (c)(3) of this section. The interest rate will be the rate being charged for Section 502 RH loans. When it has been definitely determined that a property cannot be sold on terms of 10 years or less because of conditions in the area, the State Director shall stop any negotiations and readvertise for a public sale on a longer term not to exceed 20 years.

(3) If OGC advised that it is legally permissible, association property will be offered for public sale for cash or cash or terms of not less than 10 percent cash downpayment with the remaining balance payable over not more than 15 years. The amount of each of the first 14 annual installments will not be less than the amount that would be required to be repaid annually if the outstanding balance was amortized over the maximum repayment period of the type of loan involved. The remaining balance will be due and payable at the end of the 15th year. The interest rate will be set forth in the "Rate to Lender Column (5–9 years)" of subpart A of part 1819 of this chapter plus .125 percent as of the date the property is offered for sale. If more liberal rates and terms are considered necessary because of the location or condition of the property or condition in the area, or for other pertinent reasons, the State Director may request authorization from the National Office to offer the property for public sale on more liberal rates and terms. However, the repayment period will not exceed the maximum repayment period of the type of loan involved or the useful life of the property, whichever is less. Complete documented justification for his request will be submitted to the National Office.

(4) Any principal balance will be secured by a first mortgage on the property unless it is sold subject to a prior lien.

(5) Property may be offered for sale as a whole or in such parcels as the State Director determines will aid in an expeditious sale and in obtaining the best price. This permits subdivision of the land or separate sales of portions of the property, such as timber, growing crops, business stock for small business enterprises, buildings, facilities, and similar items if it is believed that a better price for the entire property can be obtained by sale in this manner.

(d) *Sale by public notice.* Surplus property other than perishable items or growing crops, not including timber, must first be offered for sale to the public by public notice. If not sold in such a manner, the property may be sold by the method deemed appropriate by the State Director, including the use of a realtor or in the case of association property, another type of qualified sales specialists.

(1) An auction sale or sealed bids will be obtained for properties valued in excess of $2,500 by advertising in appropriate periodicals or newspapers in such number and types as the State Director determines to be adequate to inform interested parties of the sale, and in posted notices when the State Director determines that such notices will assist in the sale.

(2) Public sale by the method determined appropriate by the State Director, will be used for properties valued at $2,500 or less. Advertising will be accomplished by simple public notices posted in such number and locations as adequate to inform interested parties of the sale and when determined necessary by the State Director, periodicals and newspapers may also be utilized.

(3) The format of the advertisement or notice will be of a reasonable display type, but not legal notice style.

(i) The advertisement or notice will contain sufficient information to readily identify the property and will include a brief general description indicating its location and conveniences, terms of the sale, deposit required, the time property may be inspected by prospective bidders, and where additional information and bid forms can be obtained. If sealed bids are to be obtained, the advertisement or notice will contain a statement that opening of sealed bids will be public. It will show the place, hour, and date of the opening of the sealed bids or of sale, as appropriate. It will also show that the Government reserves the right to reject any or all bids.

(ii) The State Director, with the advice and approval of the OGC, will develop a standard form of advertisement to be used in the state. Any case to which the standard form is not applicable will be referred to the OGC for advice.

(4) Sealed bids will be made on Form FHA 465–10, "Invitation, Bid, and Acceptance—Sale of Real Property by the United States." The executed form will be accompanied by a deposit of cash, a cashier's or certified check, or money order of not less than 5 percent of the bid payable to the Treasurer of the United States. Successful bidders at an auction also will be required to make such a deposit. The highest offer received at a public sale will be reduced to writing on Form FHA 465–10 if it is determined to be the best price obtainable.

(i) Sealed bids will at all times be held in a secured file pending opening and proper disposition at the place and time specified in the advertisements. The bids will be opened in the presence of at least two FHA employees and any other interested persons who may desire to attend. When opened, each bid will be tabulated showing the name and address of the bidder, the amount of the bid, the amount and form of the deposit, and any other pertinent data. The tabulation of the information will be signed by an employee designated by the State Director and retained in the State Office files. Any bid which is not in compliance with the terms of the offer will be disqualified; however, such a bid may indicate the probability of obtaining a higher price than offered in qualified bids and may justify rejection of other bids.

(5) When the State Director or his authorized representative determines that the highest qualified bid represents the best price obtainable, the bid will be accepted by the State Director by execution of Form FHA 465–10. That form with an executed Standard Form 1036, "Statement and Certificate of Award," will be given to the successful bidder or his representative, if present, with appropriate documentation necessary to establish a binding contract or mailed to the successful bidder by certified mail, return receipt requested. The bidder will be requested to furnish information necessary for preparing the conveying instruments including the name(s) to which the property is to be conveyed. The deposit of the successful bidder will be transmitted immediately to the Finance Office with sufficient information to permit that office to identify the acquired property and process the deposit.

(6) If no satisfactory bid is received, the deposit of each bidder will be returned promptly by certified mail with a letter of explanation. Such a letter will advise each bidder with respect to any anticipated negotiations for the sale of the property. If a sealed bid is accepted the deposit of each unsuccessful bidder will be returned promptly with a letter of explanation as to why his bid was not accepted. If a satisfactory bid is not received at a public sale, it will be readvertised or the sale will be negotiated, if it is then known what action will be taken.

(e) *Negotiated sale.* If no sealed bid or bids at a public sale are accepted the State Director, after negotiating with interested parties including all previous bidders, may sell the property at the best price obtainable without further public notice, provided there are no indications that by readvertising the property for sale, additional interest will be created and likely will result in a higher price being obtained. A satisfactory offer received under such negotiations will be reduced to writing on Form FHA 465–10 and will be accepted and awarded in the same manner as provided in paragraph (d)(4) of this section. Such sales will be negotiated on the same terms as provided in the public notice and at a price not lower than the best qualified offer received as a result of the public notice unless otherwise authorized by the National Office. If a satisfactory sale cannot be negotiated within 30 days, all interested parties will be notified in writing that negotiations have been discontinued. He may then change the terms and conditions as appropriate and enter new negotiations. In negotiating a sale the State Director may solicit proposals by oral and written communications. In some instances it may be possible to assemble the persons interested in purchasing the property for open competitive bidding with the sale being made to the person making the best offer. If offers are solicited orally or by mail without such an assembled meeting, the invitation to negotiate should include notice of the place, date, and hour at which time the best offer will be determined and, if satisfactory, accepted. Such date and hour shall be rigidly adhered to and, if a satisfactory offer is obtained at that time, it will be accepted immediately and other offers or suggestions of future offers after that date will be declined. If an acceptable offer is not made on that date, a new date will be set. Other acceptable methods of negotiations may be followed but care should be taken to afford equal opportunity to each negotiator. Usually, the amount offered by one interested party will not be disclosed to any other interested parties. However, if other offers are disclosed to one negotiator, the same information will be given to all other negotiators. No offer on the basis of specified sum above the best alternative offer should be entertained. In connection with such negotiations it may be necessary to incur reasonable administrative expenses including cost of communications, postage, and similar items to consummate the sale. Such sales may be advertised in local newspapers provided the costs of such advertisement are reasonable.

(f) *Use of realtors or special sales agents to sell acquired farm or association properties.* If the County Supervisor has been unable to sell acquired property in accordance with paragraphs (d) and (e) of this section, he may submit to the State Director a detailed report of his efforts to sell the property and request authority to offer it through realtors. The State Director may authorize the use of realtors to sell acquired property only if the County Supervisor has made a diligent effort to sell such property and the State Director determines that the property cannot be sold under reasonable terms by FHA personnel.

(1) If the property is subject to redemption rights under law, the property may be sold only if the State Director determines the conditions of § 1872.62 (a), (b) and (c) can be met and the realtor is informed of those conditions.

(2) The County Supervisor or other FHA officials will attempt to locate an eligible purchaser for at least 60 days from the date of acquisition. If an eligible purchaser is not located, the State Director may authorize the use of realtors or special sales agents to sell the property to applicants who meet FHA's eligibility requirements.

(3) The State Director may authorize the use of realtors or special sales agents to sell surplus property to ineligible applicants only after the following have occurred:

(i) The State Director has declared the property surplus.

(ii) The property has been advertised for sale by public notice.

(iii) Negotiations have been discontinued and the file has been documented to this effect.

V 38 I 138 JUL 19 73 XUM

(iv) No successful bidder has been obtained from the sale by public notice or subsequent negotiations.

(g) *Selection of realtors or special sales agents.* If the State Director authorizes the use of realtors or special sales agents, the County Supervisor or other appropriate FHA officials will give public notice that the FHA has certain properties for sale and that realtors are invited to participate in selling the property. The notice to be inserted in newspapers circulating in the primary market area in which the property is located will read substantially as follows:

PUBLIC NOTICE

The Farmers Home Administration has for sale the following properties:

18 Hole Golf Course with Clubhouse and other facilities located at the north edge of Anytown, Virginia

80 Acre Farm Located 3 Miles West of Anytown, Virginia

Licensed realtors or sales agents who are interested in listing these properties should contact the Farmers Home Administration County Office at_____ for detailed information before_____

(1) Any licensed realtor or sales agent who customarily handles real estate in the area in which the property is located will be given an opportunity to list and sell the property.

(2) The property will be handled by realtors on an open listing basis. The County Supervisor, or for association properties, Programs Specialist (Field), is authorized to sign a Form FHA 465–13, "Listing Agreement." The conditions of the relationship between FHA and the realtor are:

(i) Once authorization is received to use realtors or special sales agents and after the agreement for sale has been signed, FHA officials will not discuss the sale of the property with prospective buyers but will refer prospective buyers to all realtors or special sales agents who have signed agreements.

(ii) The property will be listed for a period not to exceed 90 days from the date of the first public notice. This period may be extended, if at the end of 90 days, it appears that a contract for sale can be obtained within 30 days. All agreements with realtors will terminate on the same date.

(iii) The fee for selling the property may not exceed the cost normally charged in the area for similar services. In the event the property is not sold, there will be no charge to the Farmers Home Administration for the services. Any realtors or special sales agent fees connected with a sale to an ineligible applicant will be paid from the proceeds of the sale. Such fees in connection with a sale to an eligible applicant will be paid by processing SF 1034 to pay the fees from the applicable insurance fund.

(iv) The property will be listed for its present market value as determined by the State Director. If a loan is made, the rates and terms will be as shown in this section and § 1872.66.

(v) Assurance of Equal Opportunity in Purchasing. In order to determine priority when offers are submitted by realtors or agents the following method will be used:

Any offers from prospective buyers received in the County Office will be considered in the order received and either accepted or rejected in that order. Each offer will be reviewed for compliance with the listed price, terms of sale, and qualifications of buyer if the sale is to be on the basis of a credit sale to an applicant eligible for an FHA loan. Those offers not qualifying will be rejected and returned immediately.

(h) *Processing sale of surplus farm property.* Upon acceptance of a bid or offer obtained by an FHA official or a realtor, the County Supervisor will advise the designated attorney or title company how to proceed with closing of the sale. Payments will be made in the form of currency and coin, U. S. Treasury check, cashier's check, certified check, money order, bank draft, or check issued by a responsible institution. When the transaction is closed, the County Supervisor will send to the Finance Office the original of Form 465–10, Standard Form 1036, "Statement and Certificate of Award," Form FHA 440–16, if a credit sale, and a conformed copy of the Quitclaim Deed.

(i) *Processing sale of surplus association property.* Upon acceptance of a bid or offer obtained by an FHA official, realtor, or a special sales agent, the State Director will forward the original Form FHA 465–10, Standard Form 1036, name or names to be placed in the deed, amount and terms of note and mortgage and other pertinent material to the OGC with the request that it provide legal instruments and instructions for closing the transaction. When the transaction is closed, and if the sale is made on secured credit terms, the State Director will send to the Finance Office the originals of Form FHA 465–10, Standard Form 1036, Form FHA 440–22, "Promissory Note," if a credit sale, and a conformed copy of the Quitclaim Deed. Upon receipt of the sales docket, if a credit sale is involved, the Finance Office will establish the account and advise the State Director and the appropriate County Supervisor accordingly.

§ 1872.66 Sale of property that was security for rural housing loans only.

(a) *General.* Acquired real estate which secured Rural Housing loans that is now or can by subdivision or combination with other properties be made suitable for an RH, RRH, RCH, RHS, LH, FO, RL, or Association loan will be offered to eligible applicants in accordance with paragraph (c) of this section. Acquired real estate not suitable for resale within the FHA programs will be offered for sale in accordance with paragraph (d) of this section.

(b) *Advertisement.* If an applicant or prospective purchaser eligible to buy the property is not available, the County Supervisor will always post notices in such number and locations as adequate to inform interested parties of the property for sale. The property will also be advertised in newspapers having general circulation in the area when the State Director determines that such advertisement will assist in the sale. The format of the advertisement or notice will be of reasonable display type, but not legal notice style and will contain sufficient information to readily identify the property and will include the kind of real estate for sale with a brief general description including its location and conveniences, terms of the sale, time property may be inspected by prospective buyers, where additional information can be obtained and a statement that the Government reserves the right to reject any or all offers. The State Director, with the advice and approval of the Office of the General Counsel, will develop a standard form of advertisement to be used in the state. Any case to which the standard form is not applicable will be referred to OGC for advice.

(c) *Property suitable for FHA programs.* Property suitable for resale within the FHA programs will be offered to eligible applicants in accordance with the following conditions:

(1) Priority will normally be given to such an applicant who proposes to use the property for the same purposes for which it was used before it was acquired; however, if it is in the best financial interest of the Government, the State Director may authorize the property to be sold for different program purposes. For example LH or RH farm property which is well located for residential purposes, may be considered for sale to an RHS applicant or for subdivision into RH nonfarm tracts if it is not practical to sell it as an RH or FO property. Detached dwellings of an RRH or LH project may be sold as individual RH units when such action would be to the Government's advantage. Also LH properties may be sold for RRH projects.

(2) The property is sold for not less than its market value.

(3) The amount of the credit sale will not be charged to any state allocation of funds.

(4) The policies, procedures, authorizations, limitations, terms, and conditions applicable to making, approving, and processing loans outlined in FHA requirements pertaining to the type of loan involved will be followed in making credit sales of the acquired property to an eligible applicant, except:

(i) The docket form will show the inventory advice number and identify the credit sale as an initial loan unless the applicant is already indebted for the same type of loan. A loan of the same type made simultaneously with the credit sale will be considered a subsequent loan. Separate Forms FHA 440–3, "Record of Actions," appropriate Fund Analysis, and Promissory Notes and other required forms will be prepared for the subsequent loan.

(ii) Any cash downpayment collected at the time the credit sale is closed will reduce the amount due on the Promissory Note by the amount of such payment. The inventory advice number will be entered on Form FHA 451–2, "Schedule of Remittances," and the payment will be handled in accordance with Part 1862 of this chapter.

(iii) The current insured loan interest rate for the type loan being made will be charged.

(iv) Form FHA 440–16, "Promissory Note," will be used for loans to individuals and Form FHA 440–22, "Promissory Note," will be used for loans to organizations.

(v) Loan closing and title clearance for the credit sale and any additional loan to be closed simultaneously with the credit sale will be the same as for making a loan of the type involved except that:

(A) Form FHA 465–12 as modified by OGC to meet the requirements of state law, if necessary will be used. It will be executed by the State Director and acknowledged.

(B) Any loan closing costs will be paid by the buyer unless they are included in a subsequent loan.

(5) Single family and up to two unit multiple housing properties not sold to an eligible applicant within 30 days after the date of acquisition, or within 30 days after they are made suitable for resale in those cases where maintenance and repairs to the property are made, may be offered for sale to eligible and ineligible applicants. Multiple housing property of more than two units not sold to eligible applicants within 90 days after date of acquisition, or within 90 days after they are made suitable for resale in those cases where maintenance repairs to the property are made may be offered for sale to eligible or ineligible applicants. Any sale to an ineligible applicant however, must be for cash or at rates and terms in accordance with paragraph (d) of this section.

(d) *Properties not suitable for FHA programs.* Rural housing properties not suitable for resale within the FHA programs will be offered as follows:

(1) Properties not suitable for FHA programs and those properties which are suitable but are not sold to an eligible applicant will be sold for cash, or cash or terms of not less than a 10 percent downpayment and usually not to exceed 10 amortized payments for the balance of the purchase price. When terms of more than 10 years are necessary because of the location of the property or conditions in the area, the State Director may authorize individual RH dwellings to be sold on longer terms but not to exceed 15 years and terms not to exceed 20 years for multiple housing properties. In no case, however, may the terms be longer than the remaining life of the property.

(2) The interest rate will be the rate set for above-moderate Section 502 RH loans.

(3) Any principal balance will be secured by a first mortgage on the property unless it is sold subject to a prior lien.

(e) *Use of realtors to sell acquired rural housing property.* If the County Supervisor has been unable to sell acquired property in accordance with paragraph (c) and (d) of this section, he may submit to the State Director a detailed report of his efforts to sell the property and request authority to offer it through realtors. The State Director may authorize the use of realtors to sell acquired property only if the County Supervisor has made a diligent effort to sell such property and the State Director determines that the property cannot be sold under reasonable terms by FHA personnel.

(1) If the State Director authorizes the use of realtors, the County Supervisor will give public notice that FHA has certain properties for sale and that realtors are invited to participate in selling the property. The notice is to be inserted in newspapers circulating in the primary market area in which the property is located and will read substantially as follows:

The Farmers Home Administration has for sale the following properties:

1. Ten unit rental complex located at 125 Main Street, Anytown, Virginia.
2. Home located 3 miles west of Anytown, Virginia.

Licensed realtors who are interested in listing these properties should contact the Farmers Home Administration County Office at _____ for detailed information before _____.

(2) *The conditions for listing property with realtors.* (i) The property will be handled by realtors on an open listing basis. Any licensed realtors who customarily handle real estate in the area in which the property is located will be given an opportunity to list and attempt to sell the property.

(ii) All realtors granted authority to sell acquired rural housing property will sign Form FHA 465–13. They will be informed of any redemption rights applicable to the property. The County Supervisor is authorized to sign Form FHA 465–13.

(iii) Once authorization is received to use realtors and the "Agreement for Sale of Rural Housing Property" has been signed, FHA officials will discontinue any attempts to sell the property but will inform prospective buyers of the names of all realtors who have signed agreements.

(iv) The property will be listed for a period not to exceed 90 days from the date of first public notice. This period may be extended, if at the end of the 90 days, it appears that a contract for sale can be obtained within 30 days. All agreements with realtors will terminate on the same date.

(v) The fee for selling the property may not exceed the cost normally charged in the area for similar services. In the event the property is not sold, there will be no charge to FHA for the services.

(vi) The property will be listed for its present market value as determined by the State Director. No offer from any prospective purchaser for less than the listed price will be accepted.

(vii) Property suitable for FHA programs will be offered for sale for cash, or cash or terms in accordance with paragraph (d) if the purchaser is not an eligible applicant, or terms in accordance with paragraph (c) of this section if the purchaser is an eligible applicant.

(viii) Properties not suitable for FHA programs will be offered for sale for cash or cash and terms in accordance with paragraph (d) of this section.

(ix) In order to determine priority when offers from prospective buyers are submitted by realtors, each offer will be considered in the order received in the County Office and either accepted or rejected in that order. Each offer will be reviewed for compliance with the listed price, terms of sale, and qualifications of the buyer if the sale is to be on the basis of a credit sale to an applicant eligible for an FHA loan. Those offers not qualifying will be rejected and returned immediately.

(x) Any realtor fees resulting from a sale to an ineligible applicant will be paid from proceeds of the sale. Such fees resulting from a sale to an eligible applicant will be paid by processing SF 1034. The cost will be charged to the Rural Housing Insurance Fund. Payment to a realtor will not be made until the transaction is closed.

(xi) Any downpayment collected from a prospective purchaser by a realtor, will not be accepted by the County Supervisor prior to the closing of the transaction. Any such monies collected must be returned to the prospective purchaser if the offer he submits is not accepted or if he applies as an eligible applicant and is determined to be not eligible for the requested loan. If, however, an offer is accepted and the prospective purchaser refuses to close the transaction, the FHA will not negotiate or intercede in negotiations between the realtor and the prospective purchaser concerning the disposition of funds paid as a downpayment.

§ 1872.67 Additional requirements.

Any property not disposed of in accordance with this subpart should be readvertised to get larger coverage in nearby city newspapers and in addition in farm magazines for farm properties. If this does not result in disposal of the property, the inventory file, advertisements, and a summary of the facts concerning the efforts to sell the property should be sent to the National Office for further instructions.

Dated July 11, 1973.

JOSEPH R. HANSON,
Acting Administrator,
Farmers Home Administration.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 72—TEXAS (SPLENETIC) FEVER IN CATTLE

Areas Quarantined

The amendment quarantines portions of Dimmit and Zavala Counties and additional portions of Maverick, Webb and Cameron Counties in Texas because of

V 38-138 JUL 19 73 XUM

the existence of splenetic or tick fever. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of cattle and certain materials from or through quarantined areas as contained in 9 CFR Part 72, as amended, will apply to the quarantined areas.

Pursuant to the provisions of sections 1–4 of the Act of March 3, 1905, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, sections 4–7 of the Act of May 29, 1884, as amended, and sections 3 and 11 of the Act of July 2, 1962 (21 U.S.C. 111–113, 115, 117, 120, 123–126, 134b, 134f), § 72.5 of Part 72, Title 9, Code of Federal Regulations which quarantines certain portions of Texas because of splenetic or tick fever in cattle, a contagious, infectious, and communicable disease, is hereby amended in the following respects:

1. In § 72.5, in paragraph (g) the reference to "ISWC levee" is changed to read "IBWC levee" wherever it appears; and paragraphs (a), (c), (f) and (h) are amended to read:

§ 72.5 Areas quarantined in Texas.

The following portions of the specified counties in Texas are quarantined:

(a) That portion of *Val Verde County* lying south and west of the following described line:

Beginning at a point on the south bank of the Devils River where the Amistad Dam Compound east fence intersects the water line and following this east fence of the compound in a southerly direction to the southeast corner of the Amistad Dam Compound, approximately 1¾ miles; thence, following the meanderings of this compound fence in a southwesterly direction to where it intersects the east right-of-way fence of the old railroad, approximately 3¼ miles; thence, following the old railroad right-of-way fence in a southeasterly direction to its intersection with the right-of-way fence of the present Southern Pacific Railroad, approximately 3⅛ miles; thence, following Southern Pacific Railroad in a southeasterly direction to a point directly north across a gravel road from the northeast corner of the Slover Field, approximately 5¾ miles; thence, south across this gravel road to the northeast corner of the Slover Field and following the meanderings of the east fence of the Slover Field in a southwesterly direction to where it intersects the northeast corner of the Woodson Field #1, approximately ¼ mile; thence, following the meanderings of Woodson Field #1 east fence in a southwesterly direction to the southwest corner of the same, approximately ¼ mile to the north fence of the Payne Pasture; thence, following the north fence of the Payne Pasture in a westerly direction to the northwest corner of the same, approximately 100 yards; thence, following the west fence of the Payne Pasture in a southeasterly direction across Cienegas Creek to its junction with Kite Road, approximately 100 yards; thence, following Kite Road in a southerly direction to where it intersects Garza Lane, approximately 7/10 mile; thence, following Garza Lane in a westerly direction to a corner, approximately ⅛ mile; thence, following Garza Lane in a southeasterly direction to where it intersects U.S. Highway 277 Spur, approximately 1⅛ mile; thence, following U.S. Highway 277 Spur in a southeasterly direction to its intersection with Hudson Drive, approximately ½ mile; thence, following Hudson Drive in a southeasterly direction to where it joins Rio Grande Drive, formerly called Silo Field Road, approximately 7/10 mile; thence, following the west fence of Rio Grande Drive in a southeasterly direction to where it joins the east fence of the Rudy Mota Vega,[1] approximately 7/10 mile; thence, following the east fence of the Rudy Mota Vega in a southeasterly direction to where it joins the San Felipe Creek, approximately 3/10 mile; thence, following the San Felipe Creek in a southwesterly direction to where it joins the new W. L. Moody double fence, approximately 3/10 mile; thence, following the new W. L. Moody double fence in a southwesterly direction to a corner, approximately 1 1/10 miles; thence, following the meanderings of the same double fence paralleling the Rio Grande River in a southeasterly direction to where it intersects the Val Verde-Kinney County line at Sycamore Creek, approximately 9½ miles.

• • • • •

(c) That portion of *Maverick, Webb, Zavala and Dimmit Counties* lying generally west of the following described line:

Beginning at a point where the Maverick County Water District Main canal intersects the Kinney-Maverick County line and following this main canal in a southeasterly direction to where it intersects the west right-of-way fence of U.S. Highway 277, approximately 5⅝ miles; thence, following the west right-of-way fence of U.S. Highway 277 in a southerly direction to where it intersects Maverick County Water District Lateral #2, approximately ½ mile; thence, following the Maverick County Water District Lateral #2 in a southerly direction to where it intersects the north double fence of the J. R. Jones west field, approximately 1⅞ miles; thence, along the double fence of the J. R. Jones west field in a westerly direction to a corner, approximately ¼ mile; thence, along the west double fence of the J. R. Jones west field in a southerly direction to a corner, approximately ½ mile; thence, along the south double fence of the J. R. Jones west field in an easterly direction to where it intersects the Maverick County Water District Lateral #2, approximately ⅛ mile; thence, along the Maverick County Water District Lateral #2 in a southerly direction to where it intersects the north fence of the Calley property, approximately 3 miles; thence, east along the north fence of the Calley property to a corner, approximately 200 yards; thence, following the east fence of the Calley property in a southerly direction to the northeast corner of the Hal Bowles ranch, approximately ⅜ miles; thence, following the east fence of the Hal Bowles ranch in a southeasterly direction to where it intersects the north fence of the Lehman Brothers ranch, approximately ¾ mile; thence, in a southerly direction along the Maverick County quarantine fence which is the east fence of the C. O. Myers Lehman River Pasture to where it intersects the north fence of the Las Vegas Ranch, approximately ⅞ mile; thence, along the north fence of the Las Vegas Ranch in an easterly direction to the northeast corner of the same, approximately ¾ mile; thence, along the east fence of the Las Vegas Ranch in a southerly direction to where it intersects the northwest corner of the Shoftner property, approximately ⅛ mile; thence, along the west fence of the Shoftner property in a southeasterly direction to the southwest corner of the same, approximately ¼ mile; thence, along the south fence of the Shoftner property in an easterly direction to where it intersects the Maverick County quarantine fence or the east fence of the Las Vegas ranch, approximately ½ mile; thence, following the meanderings of the east fence of the Las Vegas Ranch in a southerly direction to where it intersects the north fence of the Alex Ritchie Farm, approximately 3½ miles; thence, along the north fence of the Alex Ritchie Farm in an easterly direction to where it intersects the Maverick County Water District main canal, approximately ⅜ mile; thence, following the meanderings of the Maverick County Water District main canal in a southerly direction to where it intersects the C. P. & L. Power Plant Road, approximately 3½ miles; thence, following the C. P. & L. Power Plant Road in an easterly direction to where it intersects the west fence of the Beer Joint Trap,[2] approximately 1⅜ miles; thence, following the west fence of the Beer Joint Trap in a southerly direction to the southwest corner of the same, approximately ⅝ mile; thence, following the meanderings of the south fence of the Beer Joint Trap in an easterly direction to where it intersects the west right-of-way fence of U.S. Highway 277, approximately ¾ mile; thence, following U.S. Highway 277 in a southerly direction into the city of Eagle Pass, Texas, and following the meanderings of U.S. Highway 277 in a southerly direction to its intersection with Church Street, approximately 8½ miles; thence, following Church Street in a westerly direction to its intersection with Commercial Street, approximately .5 mile; thence, following Commercial Street in a southerly direction to its intersection with Garrison Street, approximately .7 mile; thence, following Garrison Street in an easterly direction to its intersection with Adams Street, approximately .2 mile; thence, following the meanderings of Adams Street in a southerly direction to where it becomes Industrial Park Road and following the meanderings of Industrial Park Road in a southerly direction to where it joins the north fence of the Richmond Harper Pasture, approximately 1.7 miles; thence, following the north fence of the Richmond Harper Pasture in an easterly direction to where it intersects Eidson Drive Road, approximately 1½ miles; thence, following Eidson Drive Road in a northerly direction to its intersection with Farm Road 1021, approximately ¼ mile; thence, following Farm Road 1021 in a southeasterly direction to where it intersects a double fence at the junction of Arm Road 1021, and FM Road 2366, approximately 10¾ miles; thence, following this double fence in a southwesterly direction to the northeast corner of the Loma Linda Ranch, approximately 2½ miles; thence, following the same double fence in a westerly direction to a corner, approximately ⅝ mile; thence, following the same double fence in a northerly direction to a corner, approximately ¾ mile; thence, following the same double fence in a westerly direction to the northwest corner of the Loma Linda Ranch, approximately ⅞ mile; thence, following the meanderings of the same double fence in a southerly direction to a corner of the north fence of the W. D. Ranch, approximately 1½ miles; thence, following the same double fence along the north property line of the W. D. Ranch in a westerly direction to the northwest corner of the same, approximately ⅜ mile; thence, following the same double fence along the meanderings of the Rio Grande River in a southeasterly direction to the northwest corner of the El Indio Land Company Ranch, approximately 1 mile; thence, following the meanderings of the same double fence parallel to the Rio Grande River in a southeasterly direction to where it intersects the west fence of the Kiesling Rio Lado Farm, approximately 4 miles;

[1] A Vega is a flat lowland area.

[2] A trap is an area in which animals may be trapped.

thence, following the same double fence in a southeasterly direction to where it joins the west fence of the Stone Ranch Upper Pasture, approximately 1¼ miles; thence, following the meanderings of the Stone Ranch Upper Pasture west double fence in a northerly direction to a corner, approximately ½ mile; thence, following the same double fence along the north property line of the Stone Ranch Upper Pasture in a northeasterly direction to the east fence of the same, approximately ¾ mile to the Maverick County Quarantine fence; thence, following the Maverick County Quarantine fence in a southerly direction to the northwest corner of the Kiesling Lake Pasture, approximately 10¾ miles; thence, along the Kiesling Lake Pasture double fence in a southeasterly direction to where it intersects the north fence of the Dick Swartz Mansfield Pasture, approximately 1¾ miles; thence, following the meanderings of a double fence in a southeasterly direction paralleling the Rio Grande River to the south fence of the Swartz Ranch Mansfield Pasture, approximately 5 miles; thence, following the meanderings of the south fence of the Swartz Ranch Mansfield Pasture in a northeasterly direction to the Eagle Pass-Laredo River Road which will be called the Mines Road from this point south, approximately 4 miles to where the Eagle Pass-Laredo River Road (Mines Road) intersects the north fence of the Blakemore-Tovar Ranch; thence, following the meanderings of the Blakemore-Tovar Ranch north fence in a northeasterly direction to where it intersects the west fence of the Glass Ranch, approximately 10 miles; thence, following the Glass Ranch west fence in a northwesterly direction to a corner, approximately 3 miles; thence, following the same fence in a northeasterly direction to where it intersects the west fence of the Risinger Ranch, approximately 2¾ miles; thence, following the meanderings of the Risinger Ranch west fence in a northerly direction to Farm Market Road 2644, approximately ½ mile; thence, following Farm Market Road 2644 in an easterly direction crossing the Maverick-Dimmit County line and continuing along Farm Market Road 2644 in an easterly direction to the southeast corner of the Farias Ranch, approximately 4¾ miles; thence, following the meanderings of the Farias Ranch east fence in a northerly direction to U.S. Highway 277, approximately 12 miles; thence, following U.S. Highway 277 in an easterly direction to its junction with Farm Market Road 393, approximately 3¼ miles; thence, following Farm Market Road 393 in a northwesterly direction crossing the Dimmit-Zavala County line and continuing along the same road in a northwesterly direction to its junction with the Old Cometa Road (which is also Farm Market Road 393), approximately 3 miles; thence, following the meanderings of the Old Cometa Road (Farm Market Road 393) in an easterly direction to where it joins the west city limits boundary of Crystal City, Texas, approximately 11 miles; thence, around the north, the east and the south boundaries of the city limits of Crystal City, Texas, to U.S. Highway 83, approximately 5½ miles, to include Crystal City, Texas, in this quarantine; thence, following the meanderings of U.S. Highway 83 in a southerly direction crossing the Zavala-Dimmit County line to where it intersects the Carrizo Springs, Texas city limits, approximately 12 miles; thence, southeast and southwest around the city limits to U.S. Highway 83 to include Carrizo Springs, Texas, in this quarantine, approximately 2 miles; thence, following the meanderings of U.S. Highway 83 in a southeasterly direction to the town of Asherton, Texas, and following the meanderings of the town boundaries in an easterly and southerly direction to U.S. Highway 83, approximately 9 miles; thence, following U.S. Highway 83 in a southeasterly direction to the town of Catarina, Texas, and following the meanderings of the town boundaries in an easterly and southerly direction to U.S. Highway 83, approximately 12 miles; thence, following U.S. Highway 83 in a southeasterly direction crossing the Dimmit-Webb County line and continuing in a southeasterly direction along U.S. Highway 83 to the southeast corner of the Rettig Ranch, approximately 21 miles; thence, following the south fence of the Rettig Ranch in a westerly direction to where it intersects the Booth Ranch east fence, approximately 4½ miles; thence, following the east and south fences of the Booth Ranch in a southerly and westerly direction to the southeast corner of the D. Fuller Ranch, approximately 4½ miles; thence, following the south fence of the D. Fuller Ranch in a southwesterly direction to where it intersects the east fence of the La Mesa Ranch, approximately 3 miles; thence, following the meanderings of the east fence of the La Mesa Ranch to the south fence of the La Mesa Ranch, approximately 17 miles; thence, following the south fence of the La Mesa Ranch in a southwesterly direction to its junction with the Laredo-Eagle Pass River Road (Mines Road), approximately 7¾ miles; thence, following this road in a southeasterly direction to where it intersects the north double fence of the Las Minas Ranch, approximately 5 miles; thence, following the north double fence of the Las Minas Ranch in a westerly direction to the northwest corner of the same, approximately 1¼ miles; thence, following the west double fence of the Las Minas Ranch in a southerly direction to the southwest corner of the same, approximately 3¾ miles; thence, following the south double fence of the Las Minas Ranch in an easterly direction to where it intersects the Mines Road, approximately 2½ miles; thence, following the Mines Road in a southeasterly direction to its intersection with Del Mar Boulevard in north Laredo Townsite, approximately 16.3 miles; thence, crossing under Interstate Highway 35 at the underpass on Del Mar Boulevard in an easterly direction to the east access road, approximately 100 yards; thence, following the east access road in a southerly direction to its junction with Mann Road, approximately .6 mile; thence, following the Mann Road in an easterly direction to the northwest corner of the John Jacaman Pasture, approximately ½ mile; thence, following the John Jacaman Pasture west fence in a southerly direction to the north fence of the Rash Trap, approximately ¼ mile; thence, following the north fence of the Rash Trap in a northeasterly direction to the northeast corner of the same, approximately .6 mile; thence, following the east fence of the Rash Trap in a southerly direction to the southwest corner of the Trautmann Farm, approximately ¼ mile; thence, following the meanderings of the south property line of the Trautmann Farm in a northeasterly direction to where it intersects the south fence of the Alexander property, approximately .8 mile; thence, following the south fence of the Alexander Property in an easterly direction to where it intersects the north fence of the J. Jacaman Pasture, approximately ¼ mile; thence, following the north fence of the J. Jacaman Pasture in a westerly direction to a corner, approximately ¼ mile; thence, following the west fence of the J. Jacaman Pasture in a southerly direction to where it intersects the north fence of the Rash Trap, approximately ⅜ mile; thence, following the west fence of the Rash Trap in a southerly direction to where it joins the north fence of the Laredo Air Force Base, approximately ¼ mile; thence, following the meanderings of the fence enclosing the Laredo Air Force Base around the west side of the same to where it joins U.S. Highway 59 at the southwest corner of the Laredo Air Force Base, approximately 2¼ miles; thence, following the south fence of the Laredo Air Force Base in an easterly direction to a point directly north of the northwest corner of the P. Young Ranch, approximately 1.1 miles; thence, south across U.S. Highway 59 to the northwest corner of the P. Young Ranch, approximately 80 yards; thence, following the west fence of the P. Young Ranch in a southerly direction to the southwest corner of the same, approximately .9 mile; thence, following the south fence of the P. Young Ranch in an easterly direction to the west fence of the Ortiz Pasture, approximately .4 mile; thence, following the meanderings of the west fence of the Ortiz Pasture in a southwesterly direction to the southwest corner of the same, approximately .4 mile; thence, following the south fence of the Ortiz Pasture in an easterly direction to a corner (not shown on Fever Tick Buffer Zone Map) which is the northwest corner of the Mejia Perez Pasture, approximately .2 mile; thence, following the west fence of the Mejia Perez Pasture in a southerly direction to the southwest corner of the same at the Tex-Mex Railroad, approximately 3/16 mile; thence, following the Tex-Mex Railroad in an easterly direction to the northwest corner of the Chavana Ranch, approximately ½ mile; thence, following the meanderings of the west fence of the Chavana Property in a southerly direction to where it intersects the Chavana Road, approximately ½ mile; thence, following the Chavana Road in a westerly direction to a corner, approximately 3/16 mile; thence, following the Chavana Road in a southerly direction to where it intersects State Highway 359, approximately ⅜ mile; thence, south across State Highway 359 and Loop 20 at the intersection and to the north fence of the Bruni-Summers-Dickenson Property, approximately 100 yards; thence, following the north fence of the Bruni-Summers-Dickerson Property in a southwesterly direction to a corner, approximately ¼ mile; thence, south along the west fence of the Bruni-Summers-Dickenson Property to where it intersects the north fence of the S. Vasquez Ranch, approximately ¾ mile; thence, following the north fence of the S. Vasquez Ranch in a westerly direction to a corner, approximately .4 mile; thence, following the meanderings of the west fence of the S. Vasquez Ranch in a southwesterly direction to the north fence of the Dr. Wright Ranch, approximately 1¼ miles; thence, following same fence in a southerly direction across Wormser Road to a corner, approximately 1/16 mile; thence, west along the same fence to a corner, approximately 3/16 mile; thence, following same fence in a southerly direction to a corner, approximately ⅜ mile; thence, following same fence in a westerly direction to a corner, approximately ⅝ mile; thence, south along same fence to a corner, approximately 3/16 mile; thence, continuing along same fence in a westerly direction to where it intersects U.S. Highway 83, approximately ½ mile; thence, following U.S. Highway 83 in a southerly direction to where it intersects the north double fence of the A. W. Gates Santa Rita Farm, approximately 1¾ miles; thence, following the meanderings of the north double fence of the A. W. Gates Santa Rita Farm in a westerly direction to the northwest corner of the same, approximately 1¼ miles; thence, following the west double fence of the A. W. Gates Santa Rita Farm in a southerly direction to the southwest corner of the same, approximately 7/16 mile; thence, following the south double fence of the A. W. Gates Santa Rita Farm in an easterly direction to where it intersects

V 38 I 138 JUL 19 73 XUM

U.S. Highway 83, approximately 1 mile; thence, following U.S. Highway 83 in a southerly direction to the northeast corner of the T. J. Yancey San Rafael Farm, approximately 3¾ miles; thence, following the north double fence of the T. J. Yancey San Rafael Farm in a westerly direction to the northwest corner of the same, approximately 1 mile; thence, southwest along the west double fence of the T. J. Yancey San Rafael Farm to the north single fence of the William McKendrick & Sons Santa Rosa Farm, approximately ⅝ mile; thence, continuing southwest along the William McKendrick & Sons Santa Rosa Farm's double fence to the southwest corner of the same, approximately ⅝ mile; thence, following the continuation of the same double fence paralleling the Rio Grande River in a southerly direction to where it joins the northwest corner of the H. B. Zachary Ranch double fence, approximately 5 miles; thence, following the meanderings of the H. B. Zachary west double fence in a southeasterly direction to a corner, approximately 4½ miles; thence, following same fence in an easterly direction to a corner, approximately ⅜ mile; thence, following same fence in a southerly direction to a corner, approximately ⅜ mile; thence, following the H. B. Zachary Ranch south double fence in an easterly direction to where it intersects U.S. Highway 83 at the Webb-Zapata county line, approximately 3⅝ miles.

* * * * *

(f) That portion of Starr County lying west and south of the following described line:

Beginning at a point where U.S. Highway 83 intersects the Zapata-Starr County line and following a fence along the Zapata-Starr County line in a southwesterly direction to where it intersects the east fence of the Falcon State Park, approximately 3¾ miles; thence, following the east fence of the Falcon State Park in a southeasterly direction to a corner, approximately 1 mile; thence, following the same fence in an easterly direction to a corner, approximately 100 yards; thence, following the same fence in a southerly direction to a corner, approximately 100 yards; thence, following the same fence in an easterly direction to a cattle guard at the entrance of Falcon State Park at Old U.S. Highway 83, approximately .4 mile; thence, across Park Road 46 at the entrance to Falcon State Park on Old U.S. Highway 83 and following the Park enclosure fence in a southerly direction to a corner, approximately 100 yards; thence, following Falcon State Park fence in a westerly direction to a corner, approximately .4 mile; thence, following the same fence in a southerly direction to where it intersects the north fence of the IBWC Compound, approximately .5 mile; thence, following the IBWC Compound north fence in an easterly direction to its intersection with Old U.S. Highway 83, approximately .4 mile; thence, following old U.S. Highway 83 also known as F.M. Road 2098, south and southeast to its junction with the present U.S. Highway 83, approximately 4¼ miles; thence, following U.S. Highway 83 in a southeasterly direction to the north city limits fence of Roma, Texas, which is the south fence of the M. Ramirez Pasture, approximately 9½ miles; thence, following the south fence of the M. Ramirez Pasture in a northeasterly direction to where it intersects the west fence of the G. Madrigal Ranch, approximately .4 mile; thence, following the meanderings of the west fence of the G. Madrigal Ranch in a southeasterly direction, around the east side of the R. Pena addition to the city of Roma, Texas, to a dirt road, approximately .9 mile; thence, following the same dirt road in a southerly direction to where it intersects U.S. Highway 83 at the Roma Grave Yard, approximately .3 mile; thence, following U.S. Highway 83 in an easterly direction to the southeast corner of the Fordyce Gravel Company fence, approximately 11¼ miles; thence, following the meanderings of the Fordyce Gravel Company east fence in a northerly direction to where it intersects the Rio Grande City west city limits road, approximately ½ mile; thence, following the Rio Grande City west city limits road in a northerly direction to the southeast corner of the Oscar Olivarez field, approximately ½ mile; thence, following the south fence of the Oscar Olivarez field in a westerly direction to the southwest corner of the same field, approximately 5/16 mile; thence, following the west fence of the Oscar Olivarez field in a northerly direction to the northwest corner of same field, approximately ½ mile; thence, following the north fence of the Oscar Olivarez field in an easterly direction to a corner, approximately 1/16 mile; thence, following same fence in a northerly direction to the southwest corner of the Gonzalo Tijerina Pasture, approximately 1/16 mile; thence, following the south fence of the Gonzalo Tijerina Pasture in an easterly direction to where it intersects the Rio Grande City west city limits road, approximately ⅜ mile; thence, following the south fence of the Gonzalo Tijerina Pasture along the Rio Grande City west city limits road in a northerly direction to a corner, approximately 1/8 mile; thence, following the south fence of the Gonzalo Tijerina Pasture along the Rio Grande City west city limits road in an easterly direction to the southeast corner of the Gonzalo Tijerina Pasture, approximately 3/16 mile; thence, following the east fence of the Gonzalo Tijerina Pasture along the Rio Grande City west city limits road in a northerly direction to where it intersects the El Sauz Road, approximately ½ mile; thence, across the El Sauz Road to the east fence of the same; thence, following the east fence of the El Sauz Road in a northwesterly direction to the southwest corner of the J. Casas East Pasture, approximately ¼ mile; thence, following the west fence of the J. Casas East Pasture in a northerly direction to the north fence of the same, approximately ⅓ mile; thence, following the north fence of the J. Casas east pasture in an easterly direction to where it intersects the west fence of the C. Laurel Pasture, approximately 3/16 mile; thence, following the west fence of the C. Laurel Pasture in a southerly direction to the southwest corner of the same, approximately ¼ mile; thence, following the south fence of the C. Laurel Pasture in an easterly direction to the northwest corner of the Jose Hinojosa Pasture, approximately ⅜ mile; thence, following the west fence of the Jose Hinojosa Pasture in a southerly direction to the southwest corner of the same, approximately ½ mile; thence, following the south fence of the Jose Hinojosa Pasture in an easterly direction to the southeast corner of the same, approximately 5/16 mile; thence, following the east fence of the Jose Hinojosa Pasture in a northeasterly direction crossing a county road at a cattle guard and continuing along same fence to the southwest corner of the A. Salinas Pasture, approximately ¼ mile; thence, following the south fence of the A. Salinas Pasture in an easterly direction to where it intersects the west fence of the Santana Carrera Ranch, approximately 3/16 mile; thence, following the west fence of the Santana Carrera Ranch in a southerly direction to the northwest corner of the S. Carrera Slaughter House Pasture, approximately ⅛ mile; thence, following the north fence of the S. Carrera Slaughter House Pasture in an easterly direction to a corner, approximately 3/16 mile; thence, following same fence in a northerly direction to a corner, approximately 1/16 mile; thence, following the same fence in an easterly direction to the northeast corner of the S. Carrera Slaughter House Pasture, approximately 1/16 mile; thence, following the east fence of the S. Carrera Slaughter House Pasture in a southerly direction to the southwest corner of the Lito Garcia Trap,[2] approximately 9/16 mile; thence, following the south fence of the Lito Garcia Trap in an easterly direction to where it intersects the west fence of the Doyno Trap, approximately 3/16 mile; thence, following the west fence of the Doyno Trap in a southwesterly direction to the southwest corner of the same, approximately ½ mile; thence, following the south fence of the Doyno Trap in a southeasterly direction to the southwest corner of the G. Tijerina Pasture, approximately ⅛ mile; thence, following the south fence of the G. Tijerina Pasture in a southeasterly direction to the southeast corner of the same, approximately 1/16 mile; thence, following the south fence of the Lito Garcia Pasture in a southeasterly direction to where it intersects the north right-of-way fence of F.M. Road No. 755 and continuing along this fence in an easterly direction crossing to the east side of the Los Olmos Creek, approximately ¼ mile; thence, following a fence that crosses under F.M. Road No. 755 at the Los Olmos Creek Bridge to the south right-of-way fence of F.M. Road No. 755; thence, following the south right-of-way fence of the F.M. Road No. 755 in an easterly direction to the northwest corner of the Benito Gomez Pasture, approximately ⅝ mile; thence, south along the west fence of the Benito Gomez Pasture to the north fence of the Rio Grande City air strip, approximately ¾ mile; thence, following the north fence of the Rio Grande City air strip in a southeasterly direction to the northeast corner of the same, approximately ⅛ mile; thence, following the east fence of the Rio Grande City air strip in a southerly direction to the M. P. Railroad right-of-way, approximately 5/16 mile; thence, across the M. P. Railroad right-of-way in a southerly direction to U.S. Highway 83, approximately 100 yards; thence, following U.S. Highway 83 in a southeasterly direction to the Starr-Hidalgo County line, approximately 16 miles.

* * * * *

(h) That portion of Cameron County lying south of the following described line:

Beginning at a point where the Hidalgo-Cameron County line intersects U.S. Highway 281, following U.S. Highway 281 in an easterly direction to where it intersects the Willacy County canal, approximately 200 yards; thence, following the Willacy County canal in a northerly direction to the C. P. & L. Company double pole power line, approximately ½ mile; thence, following the C. P. & L. Company double pole power line in an easterly direction to where it intersects F. M. Road No. 1479, approximately 7⅛ miles; thence, south on F. M. Road No. 1479 to where intersects a county road, approximately 50 yards; thence, following said county road in a southeasterly direction to where it intersects Ohio Station Road, approximately 1⅞ miles; thence, southwest on Ohio Station Road to where it intersects the Cameron County Water District drain ditch, approximately ¾ mile; thence, following the Cameron County Water District drain ditch around the San Benito Water District Reservoir in a northeasterly direction to the northeast corner to the San Benito Water District Reservoir, approximately 2½ miles; thence, continuing along the Cameron County Water District drain ditch in a northeasterly direction to where it joins the Resaca Rancho Viejo, approximately 5¼ miles; thence, south and east along the meanderings of the Cameron County Water District drain ditch to where it again joins the Resaca Rancho Viejo, approximately 3.2 miles; thence, following the meanderings of the Resaca Rancho Viejo in an easterly direction to where it intersects F. M. Road 1421, approximately ⅜ mile; thence, following F. M. Road No. 1421 in a southerly direction to where it intersects F. M. Road No. 1732, approximately ⅜ miles; thence, following F. M. Road No. 1732 in an easterly direction to where it intersects Carmen Avenue, approximately 1¾ miles; thence, following Carmen Avenue in a southerly direction to where it intersects the Resaca Rancho Viejo, approximately 1⅜ miles; thence, following the meanderings of the Resaca Rancho Viejo in an easterly direction to where it intersects the M. P. Railroad, approximately 5¼ miles; thence, following the M. P. Railroad in a southerly direction to where it intersects La Resaca de la Guerra, approximately 2⅜ miles; thence, following the meanderings of La Resaca de la Guerra in an easterly direction to where it intersects the Old Port Isabel Road, approximately 6 miles; thence, following the Old Port Isabel Road in a northeasterly direction to F. M. Road 802, approximately ⅜ mile; thence, following F. M. Road No. 802 in an easterly direction to where it intersects F. M. Road 511, approximately 4½ miles; thence, following F. M. Road No. 511 in a northerly direction to where it intersects Turning Basin Road, approximately ½ mile; thence, following Turning Basin Road in a northeasterly direction to the Turning Basin of the Brownsville ship channel, approximately ½ mile; thence, following the Brownsville ship channel in a northeasterly direction to where it intersects the Gulf of Mexico, approximately 17½ miles.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 115, 117, 120, 123–126, 134b, 134f; 37 FR 28464, 28477.)

Effective date. The foregoing amendment shall become effective July 19, 1973.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of Texas (splenetic) fever in cattle, and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 13th day of July 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

[2] A trap is an area in which animals may be trapped.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 73-EA-51]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

The Federal Aviation Administration is amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Hazleton, Pa., control zone (38 FR 384) and transition area (38 FR 500).

The control zone and transition area are currently described, in part, by reference to the Weatherly (Hazleton, Pa.) radio beacon (RBN). The owner of this non-federal navigational aid plans to decommission the facility. Therefore, an alteration of the control zone and transition area to delete reference to the RBN in existing airspace assignments will be required.

Since the foregoing amendment is less restrictive, notice and public procedure are unnecessary.

In view of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t. September 13, 1973, as follows:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Hazleton, Pa. Control zone and insert the following in lieu thereof:

Within a 5-mile radius of the center (40°59'13" N., 75°59'36" W.) of Hazleton Municipal Airport, Hazleton, Pa.; within a 5.5-mile radius of the center of the airport extending clockwise from a 040° bearing to a 090° bearing from the airport; within 1.5 miles each side of the Hazleton VOR 082° radial, extending from the 5-mile radius zone to the VOR; within 2 miles each side of the Hazleton VOR 084° radial, extending from 7 miles east of the VOR to 13.5 miles east of the VOR. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Hazleton, Pa. transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of the center (40°59'13" N., 75°59'36" W.) of Hazleton Municipal Airport, Hazleton, Pa.; within 3.5 miles each side of the Hazleton VOR 262° radial, extending from the 8.5-mile radius area to 11.5 miles west of the VOR; within 4.5 miles each side of the Hazleton VOR 084° radial, extending from the 8.5 mile radius area to 19 miles east of the VOR.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on July 9, 1973.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[FR Doc.73-14719 Filed 7-18-73;8:45 am]

[Airspace Docket No. 72-CE-32]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On page 10275 of the FEDERAL REGISTER dated April 26, 1973, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Mapleton, Iowa.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., September 13, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Kansas City, Mo., on June 9, 1973.

JOHN R. WALLS,
Acting Director, Central Region.

In § 71.181 (FR 435), the following transition area is added:

MAPLETON, IOWA

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Mapleton, Iowa Municipal Airport (lat. 42°10'36" N., long. 95°47'42" W.); and within 3½ miles each side of the 035° bearing from Mapleton Municipal Airport, extending from the 5-mile radius area to 11½ miles northeast of the airport; and that airspace extending upward from 1,200 feet above the surface within the 4½ miles southeast and 9½ miles northwest of the 035° bearing from Mapleton Municipal Airport, extending to 18½ miles northeast of the airport excluding that portion that overlies Ida Grove, Iowa and Sioux City, Iowa transition areas.

[FR Doc.73-14718 Filed 7-18-73;8:45 am]

[Docket No. 12990, Amdt. No. 873]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and

V 38-138 JUL 19 73 XUM

additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue, SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, effective August 30, 1973:

Perry, Ga.—Perry-Fort Valley Arpt., VOR-A, Amdt. 1
Rocky Mount, N.C.—Rocky Mount-Wilson Arpt., VOR/DME Rwy 22, Amdt. 2
Dillon, Mont.—Dillon Arpt., VOR-A, Amdt. 5

• • • effective August 23, 1973:

Concord, N.H.—Concord Municipal Arpt., VOR Rwy 12, Amdt. 9, Canceled

• • • effective August 16, 1973:

Superior, Wis.—Richard I. Bong Arpt., VOR Rwy 13, Orig.

• • • effective July 26, 1973:

Newark, N.J.—Newark Int'l Arpt., VOR Rwy 11, Amdt. 3

2. Section 97.25 is amended by originating, amending, or canceling the following SDF-LOC-LDA SIAPs, effective August 2, 1973:

Ketchikan, Alas.—Ketchikan Arpt., LOC/DME Rwy 11, Orig.

• • • effective July 19, 1973:

Cleveland, Ohio—Cleveland Hopkins Int'l Arpt., LOC Rwy 23L, Amdt. 1

3. Section 97.27 is amended by originating, amending, or canceling the following NDB/ADF SIAPs, effective August 30, 1973.

Orangeburg, S.C.—Orangeburg Arpt., NDB-A, Amdt. 2

• • • effective August 2, 1973:

DeKalb, Ill.—Dekalb Municipal Arpt., NDB Rwy 27, Orig.
Ketchikan, Alas.—Ketchikan Arpt., NDB/DME Rwy 11, Orig.
Newark, N.J.—Newark Int'l Arpt., NDB Rwy 4L, Amdt. 4

• • • effective July 26, 1973:

Newark, N.J.—Newark Int'l Arpt., NDB Rwy 4R, Orig.

4. Section 97.29 is amended by originating, amending, or canceling the following ILS SIAPs, effective August 30, 1973:

Albany, N.Y.—Albany County Arpt., ILS Rwy 19, Amdt. 11
Rocky Mount, N.C.—Rocky Mount-Wilson Arpt., ILS Rwy 4, Amdt. 2

• • • effective August 9, 1973:

Westhampton Beach, N.Y.—Suffolk County Arpt., ILS Rwy 24, Orig.

• • • effective August 2, 1973:

Newark, N.J.—Newark Int'l Arpt., ILS Rwy 4L, Amdt. 4

• • • effective July 26, 1973:

Newark, N.J.—Newark Int'l Arpt., ILS Rwy 4R, Orig.

5. Section 97.31 is amended by originating, amending, or canceling the following RADAR SIAPs, effective August 30, 1973:

Albany, N.Y.—Albany County Arpt., RADAR-1, Amdt. 6

• • • effective August 2, 1973:

Peoria, Ill.—Greater Peoria Arpt., RADAR-1, Orig.

6. Section 97.33 is amended by originating, amending, or canceling the following RNAV SIAPs, effective August 30, 1973:

Miami, Fla.—Miami Int'l Arpt., RNAV Rwy 27R, Orig.
San Angelo, Tex.—Mathis Field, RNAV Rwy 18, Amdt. 1
San Angelo, Tex.—Mathis Field, RNAV Rwy 36, Amdt. 1

• • • effective August 2, 1973:

Newark, N.J.—Newark Int'l Arpt., RNAV Rwy 11, Amdt. 3

(Secs. 307, 313, 601, 1110, Federal Aviation Act of 1948; 49 U.S.C. 1438, 1354, 1421, 1510; sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c), 5 U.S.C. 552(a)(1))

Issued in Washington, D.C., on July 12, 1973.

JAMES M. VINES,
Chief,
Aircraft Programs Division.

NOTE: Incorporation by reference provisions in §§ 97.10 and 97.20 (35 FR 5610), approved by the Director of the Federal Register on May 12, 1969.

[FR Doc.73-14717 Filed 7-18-73;8:45 am]

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. 8805]

PART 13—PROHIBITED TRADE PRACTICES

Great Lakes Carbon Corp. et al.

Subpart—Dealing on exclusive and tying basis: § 13.670 *Dealing on exclusive and tying basis;* 13.670-20 Federal Trade Commission Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Order and Opinion, Great Lakes Carbon Corporation, et al., New York City, New York, Docket 8805, June 5, 1973]

In the Matter of Great Lakes Carbon Corporation, a Corporation; American Oil Company, a Corporation; Colorado Oil and Gas Corporation, a Corporation; Continental Oil Company, a Corporation; CRA Inc., a Corporation; Mobile Oil Company, a Corporation; Sun Oil Company, a Corporation; Suntide Refining Company, a Corporation; and, Texaco, Inc., a Corporation

Order and opinion requiring the nation's dominant processor and reseller of industrial quality petroleum coke headquartered in New York City, and eight refinery producers, among other things to execute amendments to existing long-term full-output contracts and in future contracts to limit the duration of the contracts to three years, and where new coking plants and more than 50 percent of production are involved to limit the contracts to five years or less. The order terminates and ceases to be effective twenty years from the date of entry.

The order, including further order requiring report of compliance therewith, is as follows:

This matter having been heard by the Commission on the exceptions of the respondents to the Administrative Law Judge's initial decision finding that certain of respondents' contracts for the purchase and sale of petroleum coke constitute unfair acts or practices or unfair methods of competition in violation of section 5 of the Federal Trade Commission Act, 15 U.S.C. 45, and directing revisions in those contracts and supplemental relief; and

The Commission having determined that the Administrative Law Judge's findings of fact and conclusions of law, as modified and supplemented herein, should be adopted as the findings and conclusions of the Commission, and that the Administrative Law Judge's order should be modified, and as modified herein, adopted as the order of the Commission:

Now, therefore, it is ordered, That respondents' exceptions to the Administrative Law Judge's initial decision be, and they hereby are, denied;

It is further ordered, That the Administrative Law Judge's findings of fact and conclusions of law, as modified and supplemented herein, be, and they hereby are, adopted as the findings and conclusions of the Commission, and that the following cease and desist order be, and it hereby is, entered.

I.

It is ordered, That respondent Great Lakes Carbon Corporation, its successors and assigns, shall within sixty (60) days after the effective date of this Order, with each petroleum refiner with which it presently has a contract to purchase or market an amount in excess of fifty percent (50%) of the estimated annual production of the regular green industrial quality petroleum coke at a refinery in the United States extending more than three years beyond the effective date of this Order, execute an amendment reducing the term of such contract to a period no longer than three (3) years from the effective date of such amendment. As used in this Order the term regular green industrial quality petroleum coke (hereafter referred to as "petroleum coke") is as defined in the Complaint and does not include needle coke.

II.

It is further ordered, That respondent Great Lakes Carbon Corporation, its officers, directors, representatives or employees, successors and assigns, directly or through any corporation, subsidiary, or other device, in connection with the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of petroleum coke, do forthwith cease and desist from entering into any contract or agreement, express or implied, or entering into any commission contract or agreement, with any petroleum refiner to purchase or market an amount in excess of fifty percent (50%) of the estimated annual production of petroleum coke produced at any refinery in the United States unless the term of such contract or agreement shall be for five (5) years or less in the event a new calcining kiln or coking unit has been or is to be installed by either of the contracting parties and operating within twenty-four (24) months of the date the contract is entered into and unless any period thereof otherwise shall be for three (3) years or less. Great Lakes Carbon Corporation may meet in good faith any offers for longer periods of years made to petroleum refiners by other actual or prospective purchasers of petroleum coke for amounts up to the full amount of petroleum coke produced at a refinery; PROVIDED, HOWEVER, that when an offer is made by a new entrant into the petroleum coke business in the United States, who is not otherwise a user of petroleum coke and who requires such coke in connection with the initial construction and operation of a facility to calcine petroleum coke in the United States, Great Lakes Carbon Corporation may not meet the offer of such new entrant to purchase for a period in excess of five years petroleum coke produced at a refinery or refineries not designated in the Complaint. This proviso shall be in effect for a period of ten years from the entry of this Order, and shall be applicable to the offer or offers of any such new entrant for the production of any single such refinery, or of multiple refineries when necessary to assure such new entrant of not more than 200,000 tons plus or minus ten (10) percent of petroleum coke. Great Lakes Carbon Corporation may contract to purchase petroleum coke from any refinery, including respondents' refineries, in the quantities and for such period of years as are necessary to meet in good faith a competitive offer to supply Great Lakes Carbon Corporation's customers. Great Lakes Carbon Corporation may contract to purchase such coke for resale as fuel for the period of years necessary to fulfill a contract to supply petroleum coke for use as fuel substitute for coal, heating oil, or natural gas. In the event that Great Lakes Carbon Corporation enters into any such contract for more than three (3) years, it shall within thirty (30) days after the execution of such contract file a report with the Federal Trade Commission setting forth the circumstances relating thereto.

Nothing herein shall prohibit respondent Great Lakes Carbon Corporation from purchasing in excess of fifty percent (50%) of the estimated annual production of green industrial quality petroleum coke during any calendar year from any refinery producer at any individual refinery if said refinery producer at any individual refinery is unable to sell the additional production at that refinery to any other purchaser on substantially similar prices, terms, and conditions of sale as offered by respondent Great Lakes Carbon Corporation.

III.

It is further ordered, That respondent Great Lakes Carbon Corporation, its successors and assigns, shall not renew or extend any existing contract for the purchase or marketing of an amount in excess of fifty percent (50%) of the estimated annual production of petroleum coke at any refinery more than six (6) months prior to termination of the contract being renewed or extended.

IV.

It is further ordered, That within sixty (60) days from the effective date of this Order, respondent Great Lakes Carbon Corporation, its successors and assigns, shall submit to the Federal Trade Commission a report in writing setting forth in detail the manner in which it intends to comply with this Order and within thirty (30) days after the end of each year, shall file a report in writing, identifying each refinery in the United States with which Great Lakes Carbon Corporation entered into a contract to purchase more than fifty percent (50%) of estimated annual output of petroleum coke during the previous calendar year and specifying the period of years covered by any such contract. Within thirty (30) days after the end of each five (5) year period during which this Order is in effect Great Lakes Carbon Corporation shall file a report in writing listing the refineries with which it has a contract to purchase petroleum coke together with a copy of each such contract and the quantities and quality of petroleum coke purchased annually thereunder from each such refinery. Such 5-year reports shall not become a part of the public record, unless otherwise directed by the Commission.

V.

It is further ordered, That respondents, The American Oil Company, Colorado Oil and Gas Corporation, Continental Oil Company, CRA, Inc., Mobil Oil Corporation, Sun Oil Company, Suntide Refining Company, and Texaco, Inc. (hereinafter referred to as respondent oil companies), their successors and assigns, shall each, within sixty (60) days after the effective date of this Order[1] execute an amendment with respondent Great Lakes Carbon Corporation reducing to a period not in excess of three (3) years from the effective date of such amendment the term of any contract then in existence for the purchase of an amount in exces of fifty percent (50%) of the estimated annual production of petroleum coke produced at the refineries designated in the Complaint, to wit:

The American Oil Company, a Texas corporation:
Texas City, Texas refinery
Colorado Oil and Gas Corporation:
Wichita, Kansas refinery
Continental Oil Company:
Ponca City, Oklahoma refinery
CRA, Inc.:
Coffeyville, Kansas refinery
Mobile Oil Corporation:
Beaumont, Texas refinery, and
Torrance, California refinery
Sun Oil Company:
West Tulsa, Oklahoma refinery
Suntide Refining Company, subsidiary of Sun Oil Company:
Corpus Christi, Texas refinery
Texaco, Inc.:
Amarillo, Texas refinery; Casper, Wyoming refinery; Lockport, Illinois refinery; and Port Arthur, Texas refinery.

VI.

It is further ordered, That respondent oil companies, their officers, directors, representatives or employees, successors and assigns, directly or through any corporation, subsidiary, division or other device, do forthwith cease and desist from entering into any contract or agreement, express or implied, to sell or for the marketing of an amount in excess of fifty percent (50%) of the estimated annual production of petroleum coke produced at any refinery designated in the

[1] Amended in accordance with the Commission's Order dated June 27, 1973.

V 38 I 138 JUL 19 73 XUM

Complaint unless the original term of such contract or agreement shall be for five (5) years or less in the event a new calcining kiln or coking unit has been or is to be installed by either of the contracting parties and operating within twenty-four (24) months of the date the contract is entered into and unless any period thereof otherwise shall be for three (3) years or less. Respondent oil companies may meet in good faith any offer by a non-respondent coke producer to supply up to a full amount of petroleum coke output from a refinery for a period of years longer than that provided for in this Order when such offer is made to a new entrant into the petroleum coke business in the United States, who is not otherwise a substantial user of petroleum coke and who requires such coke in connection with the initial construction and operation of a facility to calcine petroleum coke in the United States. This exception shall be applicable to the offer or offers to any such new entrant for the production of any single refinery or of multiple refineries when necessary to assure such new entrant of not more than 200,000 tons plus or minus ten percent (10%) of petroleum coke.

Nothing herein shall prohibit respondent oil companies from selling or marketing in excess of fifty percent (50%) of the estimated annual production at any refinery during any calendar year to Great Lakes Carbon Corporation or to any other individual purchaser if said respondent oil company is unable to sell or market the additional production of petroleum coke to any other purchaser on substantially similar prices, terms and conditions of sale as offered by respondent Great Lakes Carbon Corporation or any other purchaser.

In the event that any respondent oil company enters into any contract for sale of more than fifty percent (50%) of the estimated annual production of petroleum coke during any calendar year at any refinery designated in the Complaint to one purchaser, which contract covers more than three (3) years in duration, it shall file a report with the Federal Trade Commission setting forth the justification thereof satisfying the above provisions.

VII.

It is further ordered, That respondent oil companies, their successors and assigns, shall not renew or extend any existing contract for the sale or marketing of the production of petroleum coke (exceeding 50 percent of estimated annual production) at any refinery more than six (6) months prior the termination of the contract being renewed or extended. During the effective period of this Order, respondent oil companies shall submit to the Federal Trade Commission within thirty (30) days following execution of a copy of each new contract entered into and a copy of any agreement to renew an existing contract, and such copies shall not become part of the public record, unless otherwise directed by the Commission.

VIII.

It is further ordered, That, within sixty (60) days from the effective date of this Order, respondent oil companies, corporations, their successors and assigns, shall submit to the Federal Trade Commission a report in writing setting forth in detail the manner in which each intends to comply with this Order and within thirty (30) days after the end of each year, shall file a report in writing setting forth in detail the manner in which respondent is complying with each applicable requirement of this Order, accompanied by such documents as are necessary to constitute a showing that respondent is in full and faithful compliance herewith.

IX.

It is further ordered, That the provisions of this Order shall not apply to any contract relating to the sale of petroleum coke produced at the refineries designated in the Complaint when said coke is to be used as fuel substitute for coal, heating oil or natural gas.

X.

This Order shall terminate and cease to be effective twenty years from the date of entry of this Order.

By direction of the Commission, Chairman Engman not participating.

Issued: June 5, 1973.

[SEAL] CHARLES A. TOBIN,
Secretary.

[FR Doc.73-14789 Filed 7-18-73;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Nitrites and/or Nitrates Combined With Spices in Curing Premixes

In the FEDERAL REGISTER of November 3, 1972 (37 FR 23456), the Commissioner of Food and Drugs proposed to eliminate all nonessential uses of nitrites and nitrates previously approved by the Food and Drug Administration. Numerous comments were received in response to that proposal, on the basis of which the Commissioner is presently considering a final regulation.

In June 1973, the Health Protection Branch, Department of National Health and Welfare, Canada, informed the Food and Drug Administration that it had discovered nitrosopiperidine and nitrosopyrrolidine at levels ranging between 2.5 and 56 parts per million (ppm) in certain curing premixes. These premixes combined spices with nitrites and/or nitrates and are subsequently stored for an appreciable period of time prior to use.

The Food and Drug Administration and the United States Department of Agriculture met with industry representatives on June 11, 1973 to determine the extent to which these premixes are used in the United States. The industry representatives stated that, except for one type of buffered premix, the prevalent practice is not to package the spices and curing mix together in a premix, but rather to package them separately to be combined just prior to use.

On June 12, 1973, the Food and Drug Administration and the United States Department of Agriculture publicly announced discovery of this potential problem. Industry was advised that spices and curing mixes should not be mixed together until just prior to use except in a buffered premix. Both agencies stated that they would conduct investigations to determine whether nitrosamines can be detected in curing premixes marketed in the United States.

The United States Department of Agriculture has now discovered nitrosamines at levels ranging from 5.6 parts per billion (ppb) to 48.5 ppb in unbuffered curing premixes containing spices and nitrates and/or nitrates marketed in the United States. Accordingly, the Commissioner has concluded that nitrates and/or nitrates are no longer generally recognized as safe when combined in unbuffered premixes with spices, and that such use constitutes a potential health hazard that justifies immediate action. The Commissioner is therefore promulgating, effective immediately, a notice that all such uses result in the nitrites and/or nitrates being classified as food additives for which no food additive regulation has been approved. Until such time as adequate scientific data are obtained to demonstrate the safety of such uses, such unbuffered curing premixes may not lawfully be used.

One type of curing premix contains sodium carbonate as a buffering agent in order to prevent a reaction between the spices and the nitrites and/or nitrates. Neither the Canadian nor the United States analyses have detected nitrosamines in this buffered curing premix. Accordingly, the Commissioner has concluded that this type of buffered curing premix may continue to be used pursuant to an interim food additive regulation on the condition that adequate scientific data are obtained to demonstrate its safety. Both agencies will continue to monitor this type of product. If nitrosamines are detected, the interim food additive regulation will be revoked.

This action does not affect the use of spices and nitrites and/or nitrates when packaged separately or in a buffered premix. The United States Department of Agriculture has concluded that existing stocks of unbuffered curing premixes may no longer be used in cured meat and it is therefore unnecessary to recall or take other regulatory action against these products.

The Commissioner finds that notice, public procedure, and a delayed effective date are impracticable and contrary to the public interest because of the potential health hazard resulting from nitrosamines in unbuffered curing premixes. Accordingly, the Commissioner is making these regulations effective as of July 19, 1973. Comments on these regulations will be accepted until Sept. 17, 1973. Comments should be addressed to the Hearing Clerk, Food and Drug Administration, Rm. 6-88, 5600 Fishers Lane, Rockville, MD 20852. Any modifications in the regulations justified by such comments will be made at a later date.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 409, 701, 52 Stat. 1040-1041, 1049, 1055; 21 U.S.C. 321, 348, 371) and under authority delegated to the Commissioner (21 CFR 2.120), Part 121 is amended as follows:

1. By adding the following new section to subpart A:

§ 121.13 Nitrites and/or nitrates in curing premixes; food additive status.

(a) Nitrites and/or nitrates are food additives when combined with spices in curing premixes.

(b) Nitrites and/or nitrates buffered with sodium carbonate may be combined with spices in curing premixes pursuant to § 121.4002 of this chapter.

2. By adding the following new section to subpart H:

§ 121.4002 Nitrites and/or nitrates in buffered curing premixes.

Nitrites and/or nitrates may be safely used in combination with spices in buffered curing premixes in accordance with the following prescribed conditions:

(a) The nitrites and/or nitrates comply with the specifications prescribed in the Food Chemicals Codex, 2nd Ed. (1972).[1]

(b) The curing premix is buffered with sodium carbonate (Na_2CO_3) so that when two grams of the premix are added to 100 grams of water a pH of not less than 7.5 is obtained as measured within 5 minutes after mixing.

(c) On or before September 17, 1973, any person interested in the continued marketing of such a buffered curing premix shall satisfy the Commissioner in writing that studies adequate and appropriate to demonstrate that nitrosamines are not formed in the buffered curing premix have been undertaken.

(d) On or before January 15, 1973, any person interested in the continued marketing of such a buffered curing premix shall submit a food additive petition pursuant to § 121.51 of this chapter establishing the safety of the nitrites and/or nitrates in combination with spices in the buffered curing premix.

Effective date. This order is effective July 19, 1973.

(Secs. 201, 409, 701, 52 Stat. 1040-1041, 1049, 1055; 21 U.S.C. 321, 348, 371)

Dated: July 17, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

SUBCHAPTER C—DRUGS

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Butonate Liquid Veterinary

The Commissioners of Food and Drugs has evaluated a supplemental new animal drug application (41-587V) filed by Thuron Industries, Inc., 12200 Denton Drive, Dallas, TX 75234, proposing an amendment to the regulation for butonate liquid, veterinary to provide for a revised chemical name reflecting current preferred chemical nomenclature. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135c is amended in § 135c.78 by revising paragraph (a) to read as follows:

§ 135c.78 Butonate liquid, veterinary.

(a) *Chemical name.* O,O-Dimethyl (2, 2,2-trichloro-1-n-butyryl-oxyethyl phosphonate.

* * * * *

Effective date. This order shall be effective July 19, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)).

Dated: July 12, 1973.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

[FR Doc.73-14748 Filed 7-18-73;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[FCC 73-746; Docket No. 19719]

PART 81—STATIONS ON LAND IN THE MARITIME SERVICES AND ALASKA-PUBLIC FIXED STATIONS

Public Coast Stations High Frequency Service

Amendment of Part 81 of the rules to delete requirements that Class II public coast stations in the Maritime Service apply for or provide very high frequency (VHF) service.

1. On April 16, 1973, we released a notice of proposed rule making in this Docket (38 FR 9836). The notice specified that the times for filing comments and reply comments were May 24 and June 4, 1973, respectively. Those dates have passed, and comments were filed by Marine Telephone Co., Inc. and American Institute of Merchant Shipping (AIMS).

2. The notice explained that we proposed to change our policy concerning the furnishing of very high frequency (Class III) public correspondence service by Class II stations operating in the medium and high frequencies. This policy was contained in §§ 81.303(c) and 81.304(e) of the rules and in paragraph 45 of the First Report and Order in Docket No. 18307 (23 FCC 2d 553), released June 16, 1970. Those rule sections required Class II station licensees, essentially, to apply for authority to furnish VHF service, and paragraph 45 in the cited Report and Order stated that in processing any such applications, account would be taken of existing VHF public stations only to the extent that electrical interference would be caused to existing VHF service. Paragraph 45 provided, in effect, preferential status to most applications by licensees of Class II stations for VHF authority as against other applications for VHF authority in a particular locality.

3. AIMS is in agreement with the Commission that VHF Maritime Service has reached a level of usage where it is not necessary to force Class II stations to provide VHF service as a means of ensuring adequate VHF coverage. AIMS feels, however, that combining the VHF and 2-4 MHz services in a single station wherever possible has operational advantages. In support of their position, they point out that persons ashore, who are placing a call to a ship equipped with both VHF and 2-4 MHz radiotelephone, may not know which to select. In many instances the vessel's position will not be known precisely enough to follow strictly geographical guidelines. If both services are provided by a single station, the station operator may select the best band based on the operator's knowledge of the coverage of each band and the estimated position of the ship. If he fails to make contact or has a poor link on the first band, then he may switch bands. If the services are separated, the person originating the call would have to try one service and then switch to the others if the call was not completed. There might be considerable delay encountered, as the stations would undoubtedly make several attempts to complete the call before suggesting it be placed via a competitor. As a ship nears port, such a delay in establishing communications can be very expensive.

4. The Commission recognizes that there are some operational advantages to one station having both facilities, and this rule making does not preclude such an operation. In any event, operational unity is certainly a factor that will be considered in conjunction with other circumstances in connection with action on any application. Such action will, of course, be consistent with the provisions of §§ 81.303 and 81.304 as amended herein.

5. Marine Telephone Company, Inc., the licensee of several Public Coast stations—Class III-B, fully supports adoption of the rule amendments proposed in the instant proceeding. Marine believes that the policy of previously granting preferential treatment to Class II Public Coast station licensees, insofar as new VHF facilities are concerned, was an appropriate course to adopt in 1970. However, it feels that the growth of VHF public correspondence coast facilities now makes it clear that there is no longer any requirement to continue such extreme preferences.

6. For the reasons set forth above and in the Notice of Proposed Rule Making, the policy will be changed and the rules will be amended as proposed and as set

V381138 JUL 1973 XUM

forth below. Applications for Class II stations to provide VHF Public Coast service now on file or hereafter received will be processed on the basis of the conditions specified in Section 81.303 of the rules that apply to all other applications for such service.

7. In view of the foregoing, *It is ordered*, That pursuant to the authority contained in Section 4(i) and 303(r) of the Communications Act of 1934, as amended, Part 81 of the rules is amended, effective August 24, 1973, as set forth below.

8. *It is further ordered*, That, the proceeding in this Docket is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: July 11, 1973.

Released: July 12, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] VINCENT J. MULLINS,
Acting Secretary.

Part 81 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 81.303(c) is amended to read as follows:

[1] Chairman Burch absent.

§ 81.303 Duplication of service.

• • • • • •

(c) Only one public coast station operating on frequencies below 27,500 kHz will be authorized to serve any area whose ship-shore communication needs can be adequately served by a single radio communication facility.

§ 81.304 [Amended]

2. Section 81.304(e) is deleted and designated as [Reserved]

[Docket No. FI-173]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding, a purpose which is accomplished pursuant to statute by denying subsidized flood insurance to structures thereafter built within such areas. The practice of issuing proposed identifications for comment or of delaying effective dates would tend to frustrate this purpose by permitting imprudent or unscrupulous builders to start construction within such hazardous areas before the official identification became final, thus increasing the communities' aggregate exposure to loss of life and property and the agency's financial exposure to flood losses, both of which are contrary to the statutory purposes of the program. Accordingly, the Department is not providing for public comment in issuing this amendment and it will become effective upon publication in the FEDERAL REGISTER. Section 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

• • • • • • •

State	County	Location	Map No.	State map repository	Local map repository	Effective date of identification of areas which have special flood hazards

Title 43—Public Lands: Interior

SUBTITLE A—OFFICE OF THE SECRETARY OF THE INTERIOR

PART 25—JOHNNY HORIZON—USE OF NAME AND SYMBOL

On pages 8176 and 8177 of the FEDERAL REGISTER of March 29, 1973, there was published a notice of proposed rulemaking to amend the regulations governing the Johnny Horizon Program to recognize organizational changes and a change in the Johnny Horizon symbol, and to provide for additional noncommercial uses. Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed regulations.

No objections have been received and the proposed regulations are hereby adopted without change and are set forth below.

Effective date. These regulations shall be effective on August 20, 1973.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

JULY 6, 1973.

Part 25 of Subtitle A of Title 43 of the Code of Federal Regulations is revised to read as follows:

Sec.
25.0-1 Purpose.
25.0-2 Objectives.
25.0-3 Authority.
25.0-5 Definitions.
25.1 Commercial use.
25.2 Noncommercial use.
25.3 Contributions.
25.4 Unauthorized use.

AUTHORITY: 84 Stat 870; 18 U.S.C. 714.

§ 25.0-2 Objectives.

The objectives of these regulations are: (a) To maintain the integrity of the name and characterization of "Johnny Horizon"—the official symbol for a public service antilitter and environmental cleanup program; (b) to authorize the noncommercial use of the name or symbol; and (c) to provide for use or royalty fees for the manufacture, reproduction, or use of the name or symbol for commercial purposes.

§ 25.0-3 Authority.

The act of September 25, 1970 (84 Stat. 870), authorizes the Secretary of the Interior to establish and collect use or royalty fees for the manufacture, reproduction, or use of the "Johnny Horizon" name and symbol. The Act makes unauthorized manufacture, reproduction, and use a crime (18 U.S.C. 714). The Act also provides that royalty and use fees will be deposited in a special account and used for the purpose of furthering nationwide antilitter campaigns.

§ 25.0-5 Definitions.

As used in this part:

(a) The term "Johnny Horizon" means the name or characterization "Johnny Horizon" originated by the Bureau of Land Management, Department of the Interior, as the official symbol for a public service antilitter and environmental cleanup program, and as described in 18 U.S.C. 714, the representation of a tall, lean man, with strong facial features, who wears slacks and sport shirt buttoned to the collar (both green when colored), no tie, a field jacket (red, when colored), boot-type shoes (brown, when colored), and who carries a backpack.

(b) "National Coordinator" means the National Coordinator, Johnny Horizon Program Office, or the person he delegates to act for him on matters pertaining to the "Johnny Horizon" Program.

(c) "Johnny Horizon Program" means those activities and supporting services conducted in furtherance of a public service antilitter and environmental cleanup campaign which uses the "Johnny Horizon" name or symbol.

(d) The "Johnny Horizon" symbol is one following the description of the term "Johnny Horizon," as defined herein, or the one portrayed below:

Let's Clean Up America For Our 200th Birthday

§ 25.1 Commercial use.

(a) *Licenses.* The "Johnny Horizon" name or symbol may be used for commercial purposes only under a license issued pursuant to the regulations in this part. Licenses will be granted to any individual, firm, or corporation if the National Coordinator determines that the proposed commercial use will promote the purposes of the "Johnny Horizon" Program and will not impair the integrity of the name or symbol.

(b) *Terms and conditions.* In order to maintain the integrity of the "Johnny Horizon" Program and to regulate the manufacture, importation, reproduction, or use of the "Johnny Horizon" name and symbol, licensees will be subject, but not limited, to the following terms and conditions:

(1) Payment of fair return shall be made to the United States for its property through negotiation of use or royalty fees.

(2) Licenses will be nontransferable.

(3) All proposed products, services, and programs including marketing and advertising programs which in any way make use of the name or symbol of "Johnny Horizon" must be approved by the National Coordinator prior to manufacture, importation, reproduction, or use by the licensee. Substances inherently dangerous to users shall not be used.

(4) All licenses shall contain Equal Employment Opportunity provisions in compliance with Executive Order 11246, as amended (30 FR 12319 (1965)), and regulations issued pursuant thereto (41 CFR Chapter 60 and Part 17 of this chapter).

(5) Alteration of artwork must first be approved by the National Coordinator.

(6) Licenses shall be subject to revocation by the National Coordinator at any time he finds that (i) the use involved is injurious to the characterization of "Johnny Horizon," or (ii) there has been a violation of the terms and conditions of the license.

§ 25.2 Noncommercial use.

(a) *Permitted uses.* Products or services using, or bearing the name or symbol of "Johnny Horizon," provided by the Government or acquired from licensed sources, may be used without a license or advance permission by any person or organization for the purpose of furthering antilitter and environmental cleanup campaigns, provided that no charge is made by the unlicensed user for the products or services.

(b) *Permits.* The National Coordinator may issue permits containing such terms and conditions as he may determine, for the use of the name or symbol of "Johnny Horizon" to any nonprofit organization for fund raising activities, which may include benefit shows, performances, and other activities at which admissions may be charged or contributions solicited: *Provided*, That any such permittee must agree that no funds so collected shall be expended for purposes contrary to the laws, regulations, or policies of the United States; and *Provided further*, That any funds so collected will be expended for the purpose of furthering antilitter and environmental cleanup efforts.

(c) *Technical advice.* To the extent possible, technical advice will be given to interested parties upon request to the National Coordinator.

(d) *Cooperation.* The National Coordinator may enter into cooperative agreements with other Federal and State agencies for use of the name or symbol of "Johnny Horizon." Agreements shall state the responsibilities of each agency pertaining to: (1) Manufacturing the integrity of the program; (2) supplying materials; (3) assisting other groups or organizations; (4) restrictions of uses of materials; (5) altering artwork; and (6) making arrangements with public personalities engaged in the program.

§ 25.3 Contributions.

The National Coordinator may accept contributions of money and personal property by any person or organization for use in the "Johnny Horizon" program.

§ 25.4 Unauthorized use.

Manufacture, importation, reproduction, or use of the "Johnny Horizon" name or symbol, except as provided for under these regulations in this part is prohibited (18 U.S.C. 714).

[FR Doc.73-14752 Filed 7-18-73;8:45 am]

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1143]

PART 1033—CAR SERVICE

Georgia Rail Road & Banking Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D. C., on the 13th day of July 1973.

It appearing, that there is a critical shortage of plain boxcars throughout the country; that numerous shippers are unable to secure the plain boxcars required for transportation of their traffic; that one such car containing agricultural limestone has been held by the Georgia Rail Road & Banking Company (Ga) awaiting unloading since May 3, 1973; that the Ga has been unable to secure the unloading of this car by the consignee; and that there is need for this car by other shippers for use in transporting their products; that it is the opinion of the Commission that, because the existing rules, regulations, and practices of the railroads are inadequate, an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1143 Service Order No. 1143.

(a) *Georgia Rail Road & Banking Company shall unload certain car of limestone at Devereux,* Georgia. The Georgia Rail Road & Banking Company (Ga), its agents or employees, shall unload LN 9734 held for unloading at Devereux, Georgia, on or before July 20, 1973.

(b) The Ga, its agents or employees, shall notify the shipper and R. D. Pfahler, Chairman, Railroad Service Board, Interstate Commerce Commission, Washington, D.C., when it has completed the unloading of LN 9734. Such notice shall specify when, where, and by whom such unloading was performed.

(c) Application. The provisions of this order shall apply to intrastate and foreign traffic, as well as to interstate traffic.

(d) Rules and regulations suspended. The operation of all rules and regulations, insofar as they conflict with the provisions of this order, is hereby suspended.

(e) Effective date. This order shall become effective at 12:01 a.m., July 16, 1973.

(f) Expiration date. The provisions of this order shall expire at 11:59 p.m., July 20, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2).)

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

PROCUREMENT OF ARCHITECTURAL AND ENGINEERING SERVICE

Withdrawal of Notice of Proposed Rulemaking

The purpose of this notice is to withdraw the notice dated November 22, 1972, and published in the FEDERAL REGISTER of December 1, 1972, (37 FR 25526–25528) which proposed an amendment of the Interior Procurement Regulations to delete the present Subpart 14–3.8 and § 14–3.802 and to add a new Subpart 14–55.2 and §§ 14–55.20 through 14–55.207 to provide for procurement of architectural and engineering services.

Although the comments received in response to the notice were favorable and recommended only minor changes, the General Services Administration issued Federal Procurement Regulations Temporary Regulation 30, dated March 23, 1973, prescribing policies and procedures for obtaining architect-engineer services.

The Department of the Interior has determined that rulemaking action on the proposed amendments is not appropriate at the present time and that the notice should be withdrawn. The withdrawal of the notice, however, does not preclude Interior from issuing similar notices in the future or commit Interior to any course of action.

In consideration of the foregoing, the notice of proposed rulemaking published in the FEDERAL REGISTER (37 FR 25526–25528) on December 1, 1972, is hereby withdrawn.

(5 USC 301 and Sec. 205(c), 63 Stat. 390 (40 USC 486(c)).

JULY 13, 1973.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 989]

RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Raisins Acquired Under Weight Dockage System

Notice is hereby given of a proposal to establish additional rules and regulations applicable to natural Thompson Seedless raisins acquired by handlers under a weight dockage system. Such additional rules and regulations would be established pursuant to the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989), hereinafter referred to collectively as the "order". The order regulates the handling of raisins produced from grapes grown in California and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The proposal was unanimously recommended by the Raisin Administrative Committee (hereinafter referred to as the "Committee") pursuant to § 989.58(a) of the order. Said section provides that a handler may acquire natural condition raisins which exceed a tolerance established for maturity under a weight dockage system established pursuant to rules and regulations recommended by the Committee and approved by the Secretary. The proposal would establish: The basis upon which free and reserve percentages would be applicable to acquisition by handlers of lots of natural Thompson Seedless raisins under a weight dockage system; the extent to which such lots may be set aside as reserve raisins; the basis for levying program assessments on such lots acquired as free tonnage by handlers; and the basis upon which payments would be made by the Committee to handlers for services performed on such lots held as reserve raisins.

At present, § 989.201 (37 FR 17723) contains, among other things, a weight dockage system (including a dockage table) and identification requirements relative to raisins acquired pursuant to a weight dockage system. It is proposed that these requirements be deleted from § 989.201 and included, with minor changes, in a new § 989.210. This is proposed in order that rules and regulations regarding acquisition of raisins under a weight dockage system will all be contained in one section.

The provisions of the weight dockage system currently contained in § 989.201 are applicable to "natural condition Thompson Seedless raisins" (i.e., the varietal types of natural Thompson Seedless, Golden Seedless, Sulfur Bleached, and Soda Dipped raisins). The provisions of the proposed dockage system would be applicable only to raisins of the natural Thompson Seedless varietal type.

The creditable weight of a lot of raisins containing immature raisins in excess of the permitted levels means that portion of such lot which would meet the applicable minimum grade and condition standards when the excess quantity of immature raisins have been removed from the lot. The creditable weight is determined by multiplying the net weight of the lot of raisins by a dockage factor. The dockage factor reflects the quantity of raisins in the total lot which would be within the permitted level for substandard raisins. The Committee has concluded that the creditable weight of such lot of raisins acquired pursuant to a weight dockage system is an appropriate basis for application of the aforesaid program requirements regarding free and reserve percentages, reserve tonnage set aside, assessments and service payments.

Paragraph A3 of § 989.201 regarding moisture requirements for Thompson Seedless raisins contains a reference to § 989.202. An action published in the FEDERAL REGISTER on May 22, 1973, deleted § 989.202. The aforesaid deletion obviates the need for paragraph A3 of § 989.201, because such moisture requirements are also contained in paragraph A3 of § 989.97 Exhibit B. Hence, in addition to removing provisions regarding the weight dockage system, it is proposed that paragraph A3 be deleted from the revised § 989.201.

Consideration will be given to any written data, views, or arguments pertaining to the proposal which are received by the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than July 27, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is to amend Subpart—Supplementary Orders Regulating Handling by revising § 989.201 and by adding a new § 989.210, as follows:

1. Section 989.201 is revised to read as follows:

§ 989.201 Changes in minimum grade and condition standards for natural condition raisins.

Pursuant to § 989.58(b), the following changes are hereby issued relative to paragraph A2 of § 989.97 *Exhibit B; minimum grade and condition standards for natural condition raisins:*

A. *Thompson Seedless raisins.*

* * * * *

2.a. Shall have a normal characteristic color, flavor, and odor of properly prepared raisins.

b. Shall contain not more than 8 percent, by weight, of substandard raisins (raisins that show development less than that characteristic of raisins prepared from fairly well-matured grapes).

2. A new § 989.210 is added, reading as follows:

§ 989.210 Handling of natural Thompson Seedless raisins acquired pursuant to a weight dockage system.

(a) *General.* Subject to prior agreement between handler and tenderer, a handler may acquire as standard raisins any lot of natural Thompson Seedless raisins containing more than 8 percent, by weight, of substandard raisins under a weight dockage system. The creditable weight of such lot acquired shall be that obtained by multiplying the net weight of the raisins in the lot by the applicable dockage factor from the dockage table prescribed in paragraph (g) of this section.

(b) *Free and reserve tonnage percentages.* Whenever free and reserve percentages are designated for natural Thompson Seedless raisins for a crop year, such percentages shall be applicable to the creditable weight of any lot of such raisins acquired by a handler pursuant to a weight dockage system.

(c) *Reserve tonnage.* A handler may hold as reserve tonnage raisins any lot, or portion thereof, of natural Thompson Seedless raisins acquired pursuant to a weight dockage system: *Provided,* That, only the creditable weight of such lot, or portion thereof, may be applied by the committee against the handler's reserve tonnage obligation.

(d) *Assessments.* Assessments on any lot of natural Thompson Seedless raisins acquired by a handler pursuant to a weight dockage system shall be applicable to the free tonnage portion of the creditable weight of such lot.

(e) *Payments for services on reserve tonnage.* Payment to a handler for services performed by him with respect to reserve tonnage natural Thompson Seedless raisins acquired pursuant to a weight dockage system shall be made on the basis of the creditable weight of such lot and at the applicable rate specified for such services in § 989.401 of Subpart—Schedule of Payments.

(f) *Identification.* Any lot of natural Thompson Seedless raisins acquired by a handler pursuant to a weight dockage system shall be so identified by the inspection service by affixing to one container on each pallet, or to each bin, in such lot, a prenumbered RAC control card (to be furnished by the Committee) which shall remain affixed to the container or bin until the raisins are processed or disposed of as natural condition raisins. The control card shall only be removed by, or under the supervision of, an inspector of the inspection service or authorized Committee personnel.

(g) *Dockage table.*

% Substandard	Dockage Factor	% Substandard	Dockage Factor
8.0 or less	No dockage	15.1–15.5	.925
8.1–8.5	.995	15.6–16.0	.920
8.6–9.0	.990	16.1–16.5	.915
9.1–9.5	.985	16.6–17.0	.910
9.6–10.0	.980	17.1–17.5	.905
10.1–10.5	.975	17.6–18.0	.900
10.6–11.0	.970	18.1–18.5	.895
11.1–11.5	.965	18.6–19.0	.890
11.6–12.0	.960	19.1–19.5	.885
12.1–12.5	.955	19.6–20.0	.880
12.6–13.0	.950	20.1–20.5	.875
13.1–13.5	.945	20.6–21.0	.870
13.6–14.0	.940	21.1–21.5	.865
14.1–14.5	.935	21.6–22.0	.860
14.6–15.0	.930		

NOTE: Percentages in excess of 22 percent shall be expressed in the same increments as the foregoing, and the dockage factor for each such increment shall be .005 less than the dockage factor for the preceding increment.

Dated July 13, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1910]

OCCUPATIONAL SAFETY AND HEALTH STANDARDS

Inspection Intervals for Fire Extinguishers with Aluminum Shells

Pursuant to section 6(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1593; 29 U.S.C. 655), Secretary of Labor's Order No. 12–71 (36 FR 8754) and 29 CFR Part 1911, it is hereby proposed to amend Table L–3 in 29 CFR 1910.157 d)(4)(iii) as set forth below.

Table L–3 in paragraph (d)(4)(iii) presently requires, among other things, that dry chemical extinguishers with aluminum shells, stainless steel shells or soldered-brass shells be hydrostatically tested at five year intervals. This table is derived from NFPA No. 10–1970, Standard for the Installation of Portable Fire Extinguishers. On May 18, 1973, the National Fire Protection Association revised its standard to place dry chemical fire extinguishers with aluminum shells in the same class with dry chemical extinguishers with brazed-brass shells and mild-steel shells, with the effect that the test interval for aluminum shells changes from five years to 12 years. (See 1973 NFPA Technical Committee Reports, Vol. B, P. 1273). In order to conform Table L–3 of § 1910.157(d)(4)(iii) to the revised NFPA Standard, it is proposed to revise Table L–3 so as to place dry chemical fire extinguishers with aluminum shells with fire extinguishers with brazed-brass shells and mild-steel shells and thus change the test interval for the former extinguishers from five years to 12 years.

All interested persons may submit written data, views and arguments concerning the proposal to the Office of Standards, Room 305, 400 First Street, NW., Washington, D.C. 20210 by August 18, 1973. The data, views, and arguments will be available for public inspection and copying at the Office of Standards located at the above address.

Pursuant to 29 CFR 1911.11 (b) and (c), interested persons may, in addition to filing written matter as provided above, file objections to the proposal, requesting an informal hearing with respect thereto, in accordance with the following conditions:

(1) The objections must include the name and address of the objector;

(2) The objections must be postmarked on or before August 18, 1973.

(3) The objections must specify with particularity the provision of the proposed rule to which objection is taken, and must state the grounds therefor;

(4) Each objection must be separately stated and numbered; and,

(5) The objections must be accompanied by a summary of the evidence proposed to be adduced at the requested hearing.

In § 1910.157(d)(4)(iii), Table L–3 is proposed to be revised to read as follows:

§ 1910.157 Portable fire extinguishers.

* * * * *

(d) *Inspection, maintenance, and hydrostatic tests* * * *

(4) *Hydrostatic tests.* * * *

(iii) At intervals not exceeding those specified in Table L–3 and subdivision (iv) of this subparagraph, extinguishers shall be hydrostatically tested. The first hydrostatic retest may be conducted between the fifth and sixth years for those with a designated test interval of 5 years.

TABLE L–3

HYDROSTATIC TEST INTERVAL FOR EXTINGUISHERS

Extinguisher type	*Test interval year*
Soda-acid	5
Cartridge-operated water and/or antifreeze	5
Storage-pressure water and/or antifreeze	5
Wetting agent	5
Foam	5
Loaded stream	5
Dry chemical extinguishers with stainless steel shells or soldered-brass shells	5
Carbon dioxide extinguishers	5
Dry chemical extinguishers with brazed-brass shells, mild-steel shells or aluminum shells	12
Bromotrifluoromethane	12
Dry powder extinguishers for metal fires	12

NOTE: Cylinders under jurisdiction of the U.S. Department of Transportation (formerly Interstate Commerce Commission) may require hydrostatic testing at more frequent periods.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 27]

QUALITY STANDARD FOR CANNED CHERRIES

Proposed Revision of Blemish Limitation

Notice is given that a petition has been filed by the National Canners Association, 1133 20th St., NW., Washington, DC 20036, proposing that the standard of quality for canned cherries (21 CFR 27.31) be amended by:

(1) Changing the definition of a blemished cherry; and

(2) Increasing the aggregate area of the blemish from $\frac{1}{16}$ inch to $\frac{3}{32}$ inch in diameter.

Grounds set forth in the petition in support of the proposal are that: (1) The proposed change in the definition of a blemished unit would be consistent with objections received to an order, published in the FEDERAL REGISTER on February 23, 1971 (36 FR 3364) ruling on a proposed cherry pie standard of quality (21 CFR 28.2). These objections requested that the $\frac{1}{16}$ inch diameter limit for blemished units be changed to a $\frac{3}{32}$ inch diameter limit. The Commissioner of Food and Drugs granted this request in the FEDERAL REGISTER of June 13, 1973 (38 FR 15503).

(2) Mechanical harvesting and bulk handling in tanks of water have replaced the traditional hand picking and handling. As a result there has been a greatly increased problem with a mild form of discoloration known as "tank or water scald" which results in minor color variation but does not affect the tissues or eating quality or the cherries.

(3) Since the present standard was established 32 years ago, changes in cultural practices have resulted in the production of larger and softer cherries. Presently, there are as few as 100 to 110 cherries per pound as compared to 140 to 150 per pound when the standard was adopted. The larger, softer cherries have aggravated the blemish problem because they are more susceptible to blemishes and contain a greater surface area compared to the permitted area of skin discoloration.

(4) Increasing the area of the blemish to 9/32 inch would bring the quality standard for canned cherries (21 CFR 27.31) into agreement with the present voluntary U.S. Department of Agriculture standard for grades of frozen cherries.

(5) The proposed change will insure consumers a continued supply of canned cherries without significantly affecting the quality.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055 as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 341, 371) and under authority delegated to the Commissioner of Food and Drugs, it is proposed that Part 27 be amended in § 27.31 by revising paragraph (a)(5) to read as follows:

§ 27.31 Canned cherries; quality; label statement of substandard quality.

(a) • • •

(5) Not more than 15 percent by count of the cherries in the container are blemished with scab, hail injury, discoloration, scar tissue or other abnormality. A cherry showing skin discoloration (other than scald) having an aggregate area exceeding that of a circle 9/32 inch in diameter is considered to be blemished. A cherry showing discoloration of any area but extending into the fruit tissue is also considered to be blemished.

• • • • •

Interested persons may, on or before September 17, 1973 file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: June 20, 1973.

VIRGIL O. WODICKA,
Director, Bureau of Foods.

[FR Doc.73-14749 Filed 7-18-73;8:45 am]

[21 CFR Part 135]

COMPOUNDS USED IN FOOD-PRODUCING ANIMALS

Procedures for Determining Acceptability of Assay Methods Used for Assuring the Absence of Residues in Edible Products of Such Animals

The Federal Food, Drug, and Cosmetic Act requires that compounds administered to animals as food additives, color additives, or animal drugs be shown to be safe for use. The term "safe" refers to the health of man or animal under section 201(u) of the act. In evaluating the safety of such compounds used in food-producing animals, consideration must be given to the safety of possible residues in the products of those animals which are a source of food for man. When there is insufficient evidence to establish that a finite or negligible residue of the compound is safe in human food, or when the anticancer clauses contained in sections 409(c)(3)(A), 512(d)(1)(H), and 706(b)(5)(B) of the act are applicable, a zero tolerance (no residue) must be required. (Under the provisions of the anticancer clauses no compound may be administered to animals which are raised for food production if such compound has been shown to induce cancer when ingested by man or animal, unless such compound will not adversely affect the animal and no residues, as determined by methods of analysis prescribed or approved by the Secretary, are found in the edible products of such animals under conditions of use specified in labeling and reasonably certain to be followed in practice. A decision is then required as to whether a practicable method exists to determine the absence of such residues in food, under sections 409(b)(2)(D), 512(b)(7), and 706(b)(5)(A)(iv) of the act.

The Commissioner of Food and Drugs has determined that it would be in the public interest to set forth the principles involved in application of these safety provisions of the law with respect to the adequacy of the sensitivity of the required regulatory assay method for monitoring compounds which may be administered to food-producing animals, but for which no residue is permitted in human food. Therefore, a new regulation is proposed to establish the minimum standards for determining the acceptability of assay methods used to assure the absence of residues in edible products of such animals. These proposed regulations do not apply to drugs for which a finite or negligible residue is established as safe for human food.

The proposed new regulation will apply to two classes of compounds administered to food-producing animals: (1) Exogenous compounds, defined as those compounds which are not produced by the normal animal and are not required for normal animal body function (e.g., diethylstilbestrol), and (2) Endogenous compounds, defined as those compounds which are present in and produced by the normal animal and are not required from an exogenous source (e.g., estradiol).

In evaluation of the safety of compounds of both classes the initial testing must involve detailed metabolism studies in the target species. Radiotracer studies are usually the method of choice. The purpose of these studies will be to identify the metabolites of the compound, both qualitatively and quantitatively, and the concentrations of the compound and its metabolites in specific tissues ("tissues" include milk and eggs, if applicable). Another aspect of these studies will be the determination of the effect of the administration of the compound on tissue levels of related endogenous compounds.

For acceptable studies, it is necessary to follow the degradation of the compound and/or its metabolites after slaughter and during the period that the edible tissue would normally be held under storage conditions as well as to determine the impact of cooking at appropriate temperatures on the compounds in question.

EXOGENOUS COMPOUNDS

Determination as to whether an exogenous compound and/or its metabolites will require carcinogenicity testing will be based on the results of the metabolism studies, standard toxicity testing, structural relationships of the compound and/or its metabolites to known carcinogens, modes of physiological actions and interactions, and the intended use pattern of the compound. Tests for carcinogenicity will be routinely required for any new compound for which a priori knowledge is incomplete and which is intended to be used for disease prophylaxis and/or production purposes (e.g., increased rate of weight gain, estrus synchronization, etc.).

If it is determined that tests for carcinogenicity are not required, or if the results of such tests are negative, consideration leading to approval will be based on standard toxicological procedures. These procedures will include, in addition to subacute studies in a minimum of two species, such studies as multi-generation reproduction studies, teratological and any other special studies which may be indicated from the nature of the biological action of the compound, including life-time studies. These studies will involve collecting data from appropriately designed dose-response experiments that demonstrate a maximum "no harmful effect level" as well as a minimum "harmful effect level" in appropriate animal species.

Where a residue is permitted as safe in human food (either as a finite tolerance level or as a negligible residue of less than a specified level), the sensitivity of the assay method will be required to meet the specified level, and the other provisions of this proposed new regulation relating to the required sensitivity of the method will be inapplicable. Where no residue (zero tolerance) is permitted, the provisions of this proposed new regulation are fully applicable.

Under the proposed new regulation the dose-response slope estimated from the toxicological experiments will be used to extrapolate to the required level of sensitivity of the method using appropriate confidence interval techniques in accordance with the concepts underlying the Mantel-Bryan procedure discussed below. Where such extrapolation is not scientifically appropriate, e.g., if no dose-response slope can be estimated from the data, other conservative methods will be invoked to determine an appropriate safety margin based on a thorough evaluation of the quality of the experiments, their rigor as predictive tests and the nature and significance of the observed biological effects.

Where tests for carcinogenicity are required for a compound there are two basic objectives of the tests. The first is to determine whether or not the compound and/or its metabolites is a carcinogen. The second is to determine the relative potency of the compound and/or its metabolites with respect to both its carcinogenic and its noncarcinogenic but toxic effects, through appropriate oral dose-response experiments. Test systems will be selected which maximize sensitivity to detect a minimal dose which induces a carcinogenic effect. These systems will include a sufficiently stable control population to avoid false-positive indications of carcinogenesis.

There is a general lack of agreement within the scientific community regarding appropriate protocols for determining the dose-response relationship of carcinogenic compounds. Until they are revised, the guidelines for protocols set out by the Food and Drug Administration Advisory Committee on Protocols for Safety Evaluation: Panel on Carcinogenesis Report on Cancer Testing in the Safety Evaluation of Food Additives and Pesticides (Toxicology and Applied Pharmacology Vol. 20, pp 419–438, 1971) will be followed by the Food and Drug Administration.

If the results of the test for carcinogenicity establish that the compound or its metabolites will induce cancer in test animals, the required sensitivity of the regulatory assay method will be determined based on the Mantel-Bryan procedure described in the article entitled "Safety" Testing of Carcinogenic Agents (Journal of the National Cancer Institute, Vol. 27, pp 455–470, 1961). However, rather than assuming a dose-response relationship with a slope of one, as suggested in the reference, experimental data obtained from the carcinogenicity studies will be used to obtain a statistical estimate of the slope of the dose-response relationship. The lower 90 percent confidence limit of the estimated slope will be used for extrapolation to the required level of sensitivity of the regulatory assay method. If the data indicate that some linearizing transformation other than the probit-log transformation used in the modified Mantel-Bryan procedure better describes the observed response and has a biological rationale, then this other linearizing transformation may be used for such extrapolation. Examples of the application of this technique are given in the above reference.

Absolute safety can never be conclusively demonstrated experimentally. The level defined by the Mantel-Bryan procedure is an arbitrary but conservative level of maximum exposure resulting in a minimal probability of risk to an individual (e.g., 1/100,000,000), under those exposure conditions of the basic animal studies. Such test conditions generally involve continuous daily lifetime exposure to the compound in question. In contrast, many types of foods are consumed only intermittently, e.g., turkey or broiler kidneys, and therefore any drug residues contained in such foods will be consumed only intermittently. If the same procedure was used to determine the level of exposure for turkey kidneys as was used to determine the level of exposure for foods consumed more frequently, such as beef muscle, the population would not be equally protected in both situations. Consequently, it will be necessary to adjust the procedure for establishing the exposure level to account for usual as well as specific human consumption patterns. Any such adjustments initially will be made on a conservative basis. These adjustments will take into consideration the consumption expected by those who consume the greatest amounts of food, not the average consumption of the food. More definitive information is being complied on food consumption patterns by the Food and Drug Administration, and this information will be used to arrive at more refined adjustments as it becomes available.

It will also be necessary to modify the procedure for establishing the exposure level to account for drug usage, patterns, e.g., the administration of a drug in the treatment of diseased animals. As with consumption patterns, justified modifications will be made on a conservative basis. If a disease has a maximum incidence of 10 percent, then no more than 10 percent of the marketed animals would have been treated with the drug. Under these conditions, the probability of continuous daily exposure for an individual consumer could be very conservatively estimated as 0.10. In this situation, the true probability of risk for the individual consumer would then equal the probability of individual risk under conditions of continuous daily exposure to the drug multiplied by the probability of an individual actually experiencing continuous daily exposure to the drug. If a true exposure of 1/100,000,000 were deemed acceptable for an individual on the basis of risk-benefit considerations, this value could be held constant by assuming a continuous exposure risk of 1/10,000,000 (1/100,000,000=1/10,000,000 X 0.10) in the estimate of the Mantel-Bryan level. The true individual consumer risk would remain at 1/100,000,000 since the consumer is only intermittently exposed to residues of the compound in food.

The maximum level of exposure as estimated above, after standard adjustment for the differences between daily food intake per unit of body weight of the laboratory animal as compared with man, will be the required sensitivity of the assay method for a compound. In the event that both non-carcinogenic harmful effects and carcinogenic effects are observed during testing, the lowest level for the regulatory assay sensitivity as determined for the different effects will be adopted.

Withdrawal or post-medication periods for exogenous compounds shall be based on data obtained from tissue depletion studies. The compound must be administered to test animals for a sufficient time for concentration equilibrium to be achieved. On the basis of the developed assay and/or other suitable methods, a determination must be made as to the time when tissue levels of the parent compound and/or its metabolites and/or any affected endogenous compounds are below the required level of sensitivity for the regulatory assay method.

The withdrawal period shall be the longer of: (1) The number of days for tissue levels to be depleted to less than the maximum level of exposure extrapolated by the modified Mantel-Bryan procedure plus a safety factor to account for animal to animal variation (as determined by appropriate confidence interval techniques) or (2) the number of days for any affected endogenous compound to return to normal levels plus a safety factor to account for animal to animal variation. (The normal level of the affected endogenous compound will be established as described below for endogenous compounds.) For example, if excretion data indicate that the average depletion time for an exogenous compound is 72 hours with a safety factor of 27 hours, the withdrawal period becomes (72 hours+27 hours) ÷24 hours or, after

V 38 1138 JUL 1973 XUM

rounding upward, 5 days. Current livestock management techniques must be considered in establishing the withdrawal period and may necessitate the lengthening of this period.

The provisions of the proposed new regulation govern the required level of sensitivity of the regulatory assay method for those compounds for which a zero tolerance (no residue) is established. If a regulatory assay method of lower sensitivity is later developed and validated, however, the Commissioner will adopt that more sensitive method and publish it in the FEDERAL REGISTER, even though its development was not required under the law.

ENDOGENOUS COMPOUNDS

It is proposed that animals shown to contain tissue levels of endogenous compounds above the normal due to the administration of such compounds will not be permitted to be marketed for human consumption. Thus, neither tests for carcinogenicity nor standard toxicity testing will be required for endogenous compounds.

Naturally occurring (background) tissue levels of endogenous compounds and/or their metabolites and/or other related endogenous compounds in the target species must be determined in studies designed to show the effect of geographical location, stage of estrus, age, etc., on normal animals receiving no external source of the endogenous compound. The tissue distribution of the levels of the compound and/or its metabolites and/or other related endogenous compounds will be estimated from these studies. This distribution will be used to establish the required sensitivity of the regulatory assay method. The required sensitivity will be that level of the tissue distribution which is exceeded by only one percent of the normal animals. Tissue samples from animals at slaughter will be considered suspect if a level is found above normal background. For example, if 99.0 percent of background tissue levels for a parent endogenous compound and/or its metabolites and/or other related endogenous compounds are below 16 ppt., then a tissue level greater than 16 ppt shall be considered suspect. The final determination with respect to regulatory action will be based on a field investigation to determine if the observed value was due to a misuse of the compound or if it was due to normal biological variability.

Withdrawal periods following the last dosage for endogenous compounds shall be established based on the time required for the level of the parent compound and/or its metabolites and/or other related endogenous compounds in the tissue to return to the median background level of contemporary controls. The maximum approvable level of the compound shall be administered to target animals for a period of time sufficient to establish equilibrium in tissues. The number of days required for tissue levels of any affected endogenous compounds to return to the median background level plus a safety factor to account for animal to animal variation (as determined by appropriate confidence interval techniques) shall be used to establish the required withdrawal period. Current livestock management techniques must be considered in establishing the withdrawal period and may necessitate the lengthening of this period.

ASSAY EVALUATION CRITERIA

Prior to approval, the accuracy and reliability of the regulatory assay must be determined by validation of the method in appropriate Food and Drug Administration laboratories and other laboratories. The objectives of the validation will be to determine the feasibility, specificity, accuracy, and precision of the method (including a determination of the amounts recovered as well as an estimation of the variation associated with the recovered amounts).

Prior to submission of a method for evaluation and subsequent validation, it is recommended that the method be reviewed and tested, both qualitatively and quantitatively, by independent laboratories. This evaluation should fulfill the objectives of the validation as listed above.

The required sensitivity of the regulatory assay method as previously defined will be the regulatory action level and will be published in the FEDERAL REGISTER. Since any "positive" finding reported at a level lower than the published level of sensitivity may actually be a false positive, regulatory action will be taken only at or above the published level. This is necessary in order to assure that a residue is in fact a true positive. In the past the lack of such a procedure has led to finding violative samples in one laboratory which could not be confirmed in a second laboratory.

The assay method will be published or referenced in the FEDERAL REGISTER and will include a definition of the response criteria unique for each method which represents a reliable positive finding based on the validation studies. The criteria will take into account adjustments based on the accuracy and precision of the method. If the method is not specific for the identification of the compound or there are reasons to suspect the occurrence of false positives due to interference, a practical confirmatory test must be provided which will identify the residue at the level of sensitivity required.

In summary, the development and validation of a regulatory assay method for monitoring purposes must consider the following criteria:

1. The method must be capable of reproducibly extracting, at the required level of sensitivity, the significant compounds from target tissues obtained from treated animals as well as from tissues containing known added amounts of the compounds.

2. The method must be capable of measuring residues with a sufficient degree of specificity, precision, and accuracy to preclude the occurrence of false negatives or false positives.

3. The equipment, reagents and compounds used in the assay must be commercially available. Any required specialization in terms of equipment or personnel must be consistent with that normally available in a modern well-equipped analytical control laboratory.

4. The time required for completion of the assay must not be so excessive as to delay regulatory action, when necessary.

5. The assay must offer minimal hazard in the laboratory.

It is proposed that the requirements contained in this regulation will be applicable to all NADA's and supplemental NADA's approved by the Food and Drug Administration after the effective date of the new regulation. In determining the applicability of the provisions of the regulation to already-existing new animal drug approvals, the Commissioner will first determine those drugs for which a zero residue requirement now exists but for which a finite or negligible residue should instead be permitted. The Commissioner recognizes that many of these zero tolerances were established several years ago, at a time when detection methodology was substantially less sensitive and the available toxicology information was not as extensive. For some of these zero tolerances, it may now be possible and consistent with protection of the public health, to establish a finite or negligible residue. Where a finite or negligible residue is established on the basis of adequate safety data, the provisions of the new regulation will not be applicable.

Where a zero tolerance is deemed necessary, either because of a determination of carcinogenicity or because the compound is a suspect carcinogen or is otherwise sufficiently toxic that a determination of a safe level of residue in human food cannot be made at this time, the provisions of the new regulation will be applicable. The Commissioner recognizes that these new requirements cannot be imposed immediately. Accordingly, a determination will be made with respect to each drug as to a reasonable amount of time within which compliance will be permitted. In those instances in which the Commissioner concludes that a health hazard may exist, or where there is a failure to undertake the requisitie studies, the Commissioner will proceed immediately to withdraw approval of the drug. Hence, the above approach will permit a reasonable transition to the new requirements without compromising the public health or disrupting the use of drugs for which there is no known health hazard.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 402, 403, 409, 512, 701(a), 706, 52 Stat. 1046–1048, 1055, 72 Stat. 1785–1788 as amended, 74 Stat. 399–404, 82 Stat. 343–351; U.S.C. 342, 343, 348, 706, 360b, 371(a), 376), and under authority delegated to the Commissioner (21 CFR 2.120), it is proposed that Part 135 be amended by adding the following new section:

§ 135.38 Compounds used in food-producing animals; procedures for determining the acceptability of assay methods used for assuring the absence of residues in edible products of such animals.

(a) The act provides that feed and drugs intended for animals shall be safe, that food produced from animals shall be safe, and that any compound administered to a food-producing animal which is found to induce cancer when ingested by man or animal is prohibited from the food supply, unless it can be determined by methods of examination prescribed or approved by the Secretary by regulation, that no residues of any such compound are found in the food produced from such animals under conditions of use reasonably certain to be followed in practice. Petitions for use of a compound in food-producing animals shall include data for determining the absence of residues of any unsafe compounds in the food produced from such animals. The provisions of this section shall determine the required level of sensitivity of the regulatory assay method for any compound for which the Commissioner of Food and Drugs has established a zero tolerance (no residue) in food.

(b) Exogenous compounds, defined as those compounds which are not produced by the normal animal and are not required for normal animal body function, are subject to the following requirements:

(1) Metabolism studies shall be conducted in the target species to identify and quantify metabolites of the parent compound and the concentrations of the compound and its metabolites in specific tissues ("tissues" to include milk and eggs, if applicable). The effect of the exogenous compound on tissue levels of related endogenous compounds also shall be determined.

(2) Degradation of the compound and/or its metabolites during the period of time after slaughter that edible tissue would normally be held under storage conditions and the impact of cooking on the compound and/or its metabolites in question shall be determined.

(3) Determination of whether an exogenous compound and/or its metabolites shall be subjected to appropriate testing for carcinogenicity will be based on the results of the metabolism studies, standard toxicity testing, structural relationships of the compound and/or its metabolites to known carcinogens, modes of physiological actions and interactions, and the intended use patterns of the compounds.

(4) If it is determined that carcinogenicity tests are not required or if the results of carcinogenic testing are negative, consideration for approval shall be based on standard toxicological procedures. These procedures shall include in addition to subacute studies in a minimum of two species, such studies as a multi-generation reproduction studies, teratology and any other special studies which may be indicated from the nature of the biological action of the compound, including lifetime studies. These studies shall involve collection of data from appropriately designed dose-response experiments that demonstrate a "maximum no harmful effect level" as well as a "minimum harmful effect level" in appropriate animal species.

(i) Where a finite or negligible residue of the parent compound and/or its metabolites is determined to be safe in food, the required level of sensitivity of the regulatory assay method will be the level of the tolerance published in the FEDERAL REGISTER and the remaining provisions of this paragraph shall be inapplicable.

(ii) Where no residue of the compound and/or its metabolites is determined to be safe in food, the dose-response slope estimated from the toxicological experiments will be used to extrapolate to the required level of sensitivity of the method using appropriate confidence interval techniques in accordance with the concepts underlying the Mantel-Bryan procedure described in paragraph (b)(6) of this section. Where such extrapolation is not scientifically appropriate, e.g., if no dose-response slope can be estimated from the data, other conservative methods shall be invoked to determine an appropriate safety margin based on a thorough evaluation of the quality of the experiments, their rigor as predictive tests and the nature and significance of the observed biological effects.

(5) If it is determined that testing for carcinogenicity is required, test procedures shall be used which maximize sensitivity to detect a minimal dose which induces a carcinogenic effect and with a sufficiently stable control population to avoid false positive indications of carcinogenesis. Appropriate dose-response experiments shall be conducted to (i) clearly establish whether or not the compound and/or its metabolites are carcinogens, and (ii) determine the relative potency of the compound and/or its metabolites with respect to both its carcinogenic and its other toxic effects.

(6) If it is determined that the compound is carcinogenic, the required sensitivity of the regulatory assay method shall be established according to a modification of the Mantel-Bryan procedure. (Mantel, N. and W. R. Bryan, "Safety" Testing of Carcinogenic Agents, Journal of the National Cancer Institute, Vol. 27, pp. 455–470, 1961).[1] This modification shall consist of using the lower 90 percent confidence limit of the experimentally determined dose-response slope from the carcinogenicity studies for extrapolation to a maximum exposure level with appropriate adjustments to account for drug usage and human consumption patterns and for the differences between daily food intake per unit of body weight of the laboratory animal and of man. (i) If the data indicate that some linearizing transformation other than the probit-log transformation used in the modified Mantel-Bryan procedure better describes the observed response and has a biological rationale, then this other linearizing transformation will be used for the extrapolation. (ii) In the event that both significant noncarcinogenic harmful effects and carcinogenic effects are observed during testing, the lowest level for the regulatory assay sensitivity as determined for the different effects shall be adopted.

(7) The sensitivity of the regulatory assay method as defined above, the method, and a definition of the criteria used to establish a reliable positive finding shall be published in the FEDERAL REGISTER.

(8) The withdrawal period for the compound shall be based, using the regulatory assay method and/or other suitable methods, on the time required after the last dosage for tissue levels of the parent compound and/or its metabolites and/or any affected endogenous compounds to fall below the required regulatory assay sensitivity.

(9) The withdrawal period shall be the longer of either (i) the number of days required for tissue levels to be depleted to less than the maximum exposure level plus a safety factor to account for animal to animal variation as determined by appropriate confidence interval techniques or (ii) the number of days required for any affected endogenous compound to return to a normal level plus a safety factor to account for animal to animal variation. Current livestock management techniques may justify a longer withdrawal period. The normal level of any affected endogenous compound shall be established as described in paragraph (c) of this section.

(10) Based on tissue depletion studies and animal management practices, conditions of use that are reasonably certain to be followed in practice shall be specified for the compounds so that, if followed, they assure that no residue shall occur in food produced from treated animals.

(11) Notwithstanding a determination pursuant to this paragraph of the required level of sensitivity of the regulatory assay method, if a regulatory assay method of lower sensitivity is later developed and validated the Commissioner will adopt that more sensitive method and publish it in the FEDERAL REGISTER even though its development was not required.

(c) Endogenous compounds, defined as those compounds which are present in and are produced by the normal animal and are not required from an external source, are subject to the following requirements:

[1] Copies may be obtained from: Director, Division of Nutritional Sciences (VM–100), Bureau of Veterinary Medicine, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852.

V 38 I 138 JUL 19 73 XUM

(1) Metabolism studies shall be conducted in the target species to identify and quantify the metabolites of the parent compound and the concentrations of the compound and its metabolites in specific tissues ("tissues" include milk and eggs, if applicable). The effect of the endogenous compound on tissue levels of related endogenous compounds also shall be determined.

(2) Degradation of the compound and/or its metabolites during the period of time after slaughter that the edible tissue would normally be held under storage conditions and the impact of cooking on the compounds and/or its metabolites in question shall be determined.

(3) Animals containing tissue levels of endogenous compounds above the normal due to the administration of endogenous compounds may not be marketed for human consumption. Thus, neither tests for carcinogenicity nor standard toxicity testing shall be required for endogenous compounds.

(4) The naturally occurring or background tissue levels of endogenous compounds and/or their metabolites and/or other related endogenous compounds in the target species shall be determined in studies designed to show the effect of geographical location, stage of estrus, age, etc., on normal animals receiving no external source of the endogenous compound. The tissue distribution will be used to establish the required sensitivity of the regulatory assay method. The required sensitivity of the regulatory assay method will be that value of the distribution which is exceeded by only one percent of the normal animals.

(5) The sensitivity of the regulatory assay method as defined above, the method, and a definition of the criteria used to establish a reliable positive finding shall be published in the FEDERAL REGISTER.

(6) The withdrawal period for the compound shall be based, using the regulatory assay method and/or other suitable methods, on the time required after the last dosage for the tissue levels of the parent compound and/or its metabolites and or any affected other related endogenous compounds to return to the median background level of contemporary controls. The withdrawal period shall be the number of days required for tissue levels of any affected endogenous compounds to return to the median background level plus a safety factor to account for animal to animal variation as determined by appropriate confiidence in terval techniques. Current livestock management techniques may justify a longer withdrawal period.

(7) The characteristics of the distribution of tissue levels of the compound normally found in animals not exposed to external sources of the compound and the specified conditions of use shall be published in the FEDERAL REGISTER as part of the approval of any endogenous drug compound.

(8) Based on tissue depletion studies and animal management practices, a withdrawal period and conditions of use that are reasonably certain to be followed in practice shall be specified for the compound so that, if followed, they assure that no residue shall occur in excess of the established normal level in food from untreated animals.

(d) Prior to approval, the adequacy of the regulatory assay method shall be determined by validation of the method in appropriate Food and Drug Administration laboratories and other laboratories. The validation shall determine the feasibility, specificity, accuracy, and precision of the method. This validation of an assay method used for regulatory purposes shall be based on the following criteria:

(1) The method shall be capable of reproducibly extracting, at the required level of sensitivity, the significant compounds from target tissues obtained from treated animals, as well as from tissues containing known added amounts of the compounds.

(2) The method shall be capable of measuring residues with a sufficient degree of specificity, precision, and accuracy to preclude the occurrence of false negatives or false positives.

(3) The equipment, reagents and compounds used in the assay shall be commercially available. Any required specialization in terms of equipment or personnel shall be consistent with that normally available in a modern well-equipped analytical control laboratory.

(4) The time required for completion of the assay shall not be so excessive as to delay regulatory action.

(5) The assay shall offer minimal hazard in the laboratory.

(e) After publication in the FEDERAL REGISTER of an assay method in accordance with paragraphs (b) through (d) of this section, compliance shall be determined as follows:

(1) Samples of the food produced from appropriate animals will be routinely collected and evaluated using the regulatory assay method(s).

(2) Any sample subject to paragraph (b) of this section yielding a residue of the compound at or above the published level of sensitivity of the method will be liable to regulatory action.

(3) Any sample subject to paragraph (c) of this section yielding a residue of the compound at or above the published level of sensitivity of the method will be subject to investigation. Any such residue which is determined to be the result of improper use of the compound will be liable to regulatory action.

(4) No regulatory action may be based on the measurement of a value which is below the established level of sensitivity of the approved regulatory assay method(s) as published in the FEDERAL REGISTER.

(f) The provisions of this section shall be applicable to all new animal drug applications, including supplements, approved by the Food and Drug Administration subsequent to the effective date of the final regulation, except that supplemental applications meeting the requirements of § 135.13a(d) or that in the opinion of the Commissioner otherwise protect the public health will be permitted to be put into effect in accordance with § 135.13a(e) through (k).

(g) The provisions of this section shall be applicable to existing approvals of new animal drugs in accordance with the following priorities:

(1) The Commissioner will review existing zero tolerances (no residues) to determine whether the drugs involved should be the subject of finite or negligible residues. Those drugs for which finite or negligible residues are established are not subject to the provisions of paragraphs (b) or (c) of this section.

(2) Those drugs for which the Commissioner has determined the appropriateness of a zero tolerance (no residue) will be the subject of a notice published in the FEDERAL REGISTER or a letter to every holder of a new animal drug application establishing a time within which the provisions of this section shall be satisfied. Notices already published in the FEDERAL REGISTER and letters already sent by the Food and Drug Administration requiring additional studies and/or a more sensitive regulatory assay method for a drug subject to a zero tolerance shall remain in effect, and the provisions of this section shall be used in determining compliance with the requirements of the act pursuant to those notices and letters. The Commissioner will immediately proceed to withdraw approval of any drug on the basis of data or information indicating a health hazard or a failure to undertake studies necessary to comply with the provisions of this section.

Interested persons may, on or before September 17, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be viewed in the above office during working hours, Monday through Friday.

Dated: July 13, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.73-14746 Filed 7-18-73;8:45 am]

Social Security Administration

[20 CFR Part 405]

[Reg. No. 5]

FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Payment for Services of Physicians in Teaching Hospitals, for Physician Costs to Hospitals and Medical Schools, and for Volunteer Services

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 552 et seq.) that the amended regulations set forth in tentative form below are proposed by the Acting Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments to the regulations are made pursuant to certain provisions of Public Law 92-603 (the Social Security Amendments of 1972) and statements of congressional intent contained in the Report of the Committee on Finance, United States Senate, Senate Report No. 92-1230. The proposed amendments provide (a) effective for hospital accounting periods that begin after June 30, 1973, a method for determining program payments to a hospital for patient care services of physicians in teaching hospitals; a method for determining the reasonable cost to a medical school where its faculty provides services to a hospital's patients; and a method for determining the reasonable cost of patient care services provided by voluntary physician staff and the payment of such costs to a fund designated by the organized medical staff of the hospital; and (b) effective for hospital accounting periods that begin after June 30, 1973, the proposed amendments provide that patient care services provided in participating hospitals with approved teaching programs will be reimbursable on the basis of reasonable charges only where the patient is a "private patient"; establish the elements required before a patient will be considered a private patient; provide that where the status of a patient is questionable, or in borderline cases, the patient will be considered to be a nonprivate patient; and specify situations where it can be presumed that all patients in a hospital or hospital setting are private patients.

Prior to the final adoption of the proposed amendments, consideration will be given to any data, views, or arguments pertaining thereto which are submitted to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, D.C. 20201, on or before August 20, 1973.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue SW., Washington, D.C. 20201.

The proposed amendments are to be issued under the authority contained in sections 1102, 1833(a), 1842(b), and 1871, 49 Stat. 647, as amended, 79 Stat. 296, 297, 302, 322, and 331; 42 U.S.C. 1302, 1395 et seq.

(Catalogue of Federal Domestic Assistance Program Nos. 13.800, Health Insurance for the Aged—Hospital Insurance; and 13.801, Health Insurance for the Aged—Supplementary Medical Insurance.)

Dated: June 22, 1973.

ARTHUR E. HESS,
Acting Commissioner of Social Security.

Approved: July 13, 1973.

FRANK CARLUCCI,
Acting Secretary of Health, Education, and Welfare.

Regulations No. 5, Subpart D of the Social Security Administration, as amended (20 CFR Part 405), are further amended as follows:

1. Paragraph (c) of § 405.402 is amended by adding paragraph (c)(9) to read as follows:

§ 405.402 Cost reimbursement; general.

* * * * * * *

(c) * * *

(9) Reasonable cost of physicians' patient care services (and supervision of interns and residents in the care of patients) rendered in a teaching hospital to nonprivate patients (see § 405.521 of Subpart E) is reimbursable as a provider cost.

* * * * * * *

2. Paragraph (b) of § 405.404 is revised to read as follows:

§ 405.404 Methods of apportionment under title XVIII.

* * * * * * *

(b) For cost reporting periods starting after December 31, 1971, the principles of reimbursement under title XVIII of the Act require certain providers described in § 405.452(c) to use the Departmental Method of apportionment as described in § 405.452(b)(1), and other providers to use the Combination Method of apportionment as described in § 405.452(b)(2) except that for cost reporting periods beginning after June 30, 1973, the reasonable cost of physicians' patient care services (and supervision of interns and residents in the care of patients) rendered in a teaching hospital to nonprivate patients (see § 405.521 of Subpart E) is separately apportioned in accordance with the Aggregate Per Diem Method as described in § 405.452(b)(3). Use of the Departmental Method requires cost finding (see § 405.453) to determine the division of the provider's costs between general routine care, routine care in special care units, and each ancillary department that is revenue producing, i.e., departments furnishing services to patients for which charges are made. Use of the Combination Method necessitates cost finding (see § 405.453) to determine the division of the provider's total allowable cost between general routine care, routine care in special care units, and aggregate ancillary services. Use of the Aggregate Per Diem Method for apportioning cost of physicians' patient care services in a teaching hospital to nonprivate patients does not require cost finding as described in § 405.453. These costs are accumulated in separate cost centers prior to the cost finding process.

3. Paragraph (b) of § 405.451 is amended by adding subparagraphs (3), (4), (5), (6), and (7) to read as follows:

§ 405.451 Cost related to patient care.

* * * * * * *

(b) *Definitions.* * * *

(3) *Reasonable costs of patient care services (and supervision of interns and residents in the care of patients) rendered in a teaching hospital by physicians on the hospital staff.* For cost reporting periods beginning after June 30, 1973, physicians' patient care services rendered in a teaching hospital to nonprivate patients (see § 405.521 of Subpart E) are reimbursable as a provider service on a reasonable cost basis. For purposes of this paragraph, reasonable costs will be limited to direct salary, plus applicable fringe benefits. The costs of other covered provider services related to the services described in this paragraph are allowable subject to the requirements of all other provider services.

(4) *Reasonable costs incurred by a teaching hospital in reimbursing a medical school for the cost to the medical school in rendering services in a hospital.* For cost reporting periods beginning after June 30, 1973, an amount not in excess of the reasonable costs incurred by a teaching hospital in reimbursing a medical school for certain costs to the medical school in rendering patient care services (and supervision of interns and residents in the care of patients) to health insurance nonprivate patients are reimbursable to the hospital by the program. Also, for cost reporting periods beginning after June 30, 1973, reasonable costs incurred by a teaching hospital in reimbursing a medical school for certain costs to the medical school in rendering other than patient care services to health insurance patients by the medical school faculty are reimbursable to the hospital by the program. The allowable costs to the medical school may not exceed 105 percent of direct salary, plus applicable fringe benefits, that are incurred solely as a result of services to provider patients.

(5) *"Salary Equivalent" payments for physicians' patient care services (and supervision of interns and residents in the care of patients) rendered in a teaching hospital to health insurance nonprivate patients by physicians on the voluntary staff of the hospital (or medical school under arrangement with the hospital).* For cost reporting periods beginning after June 30, 1973, payments may be made to a fund as defined in § 405.466 for patient care services rendered on a regularly scheduled basis by physicians on the unpaid voluntary medical staff of the hospital (or medical school under arrangement with the hospital) to health insurance nonprivate patients. Such payments represent compensation for contributed medical staff time which, if not contributed, would have to be obtained through employed staff on a reimbursable basis. However, where a physician either on the hospital staff or on the medical school staff receives any compensation from either the hospital or the medical school, that compensation will be assumed to represent compensation for the physician's full range of services rendered in the hospital including patient care to nonprivate patients. Payments for volunteer services are determined by applying to the regularly scheduled contributed time an hourly rate not to exceed the equivalent of the average salary (exclusive of fringe benefits) paid to all full time, salaried physicians (other than interns and residents) on the hospital staff or, where the number of full time, salaried physicians is minimal in absolute terms

V 38 I 138 I JUL 19 73 XUM

or in relationship to the voluntary staff, at like institutions in the area. This "salary equivalent" is a single hourly rate, covering all physicians regardless of specialty and is applied to the actual time contributed by the physicians in rendering patient care services to nonprivate patients. The amount applicable to program beneficiaries and payable to a fund will be determined in accordance with the Aggregate Per Diem Method described in § 405.452(b)(3).

Health insurance payments to a fund will be used by the fund solely for improvement of care of hospital patients or for educational or charitable purposes (which may include but are not limited to medical and other scientific research). Contributions to the hospital made from such funds would not be recognized as a reimbursable cost when expended by the hospital nor would depreciation expense be allowed with respect to equipment or facilities donated to the hospital by such funds.

(6) *Requirements for reimbursement for physicians' patient care services in a teaching hospital.* (i) *Physicians on the hospital staff.* The requirements are the same as those applicable to all other covered provider services except that the costs of these services are separately determined and are not subject to cost finding as described in § 405.453.

(ii) *Physicians on the medical school staff.* Reimbursement will be made to a hospital by the health insurance program for the costs of these services, which are separately accumulated and are not subject to cost finding as described in § 405.453: *Provided,* That:

(A) There is a written agreement between the hospital and the medical school specifying the types and extent of services to be furnished by the medical school and specifying that the hospital must reimburse the medical school an amount not in excess of the reasonable cost (as defined in subparagraph (4) of this paragraph) of providing such services to health insurance nonprivate patients.

(B) Such costs are reimbursed to the medical school by the hospital not later than the date on which the cost report covering the period in which the services were rendered is due, and

(C) Payment for such services furnished under such arrangement would be made by the program to the hospital had such services been furnished directly by the hospital.

(iii) *Physicians on the voluntary staff of the hospital (or medical school under arrangement with the hospital).* Health insurance payments on a "salary equivalent" basis (as defined in subparagraph (5) of this paragraph) will be made to a fund provided that the conditions outlined in § 405.466 are met.

(7) *Requirements for reimbursement for medical school faculty services other than patient care services rendered in a teaching hospital.* (i) Reimbursement will be made to a hospital by the health insurance program for the costs of medical school faculty services other than patient care services rendered in a teaching hospital provided that the contractual requirements described in paragraph (b)(6)(ii) of this section are met. Where the hospital reimburses the medical school for the costs of these services rendered to all patients, these costs are subject to the cost finding and apportionment methods for all provider services (excepting physicians' patient care services rendered to nonprivate patients). On the other hand, where the hospital reimburses the medical school for these services rendered to only health insurance patients, then the costs which are reimbursed are not subject to cost finding and must not be included in the hospital's total allowable costs. Nevertheless, the health insurance program's portion must be determined on the basis of the health insurance ratio(s) used in the apportionment of all other provider costs (excepting physicians' patient care services rendered to nonprivate patients) applied to the total cost (as defined in paragraph (b)(4) of this section incurred by the medical school for the services rendered)

. . . . . .

4. Section 405.452 is amended by adding paragraphs (b)(3), (c)(4), (d)(11), (d)(12), (d)(13), and (e)(6) to read as follows:

§ 405.452 Determination of cost of services to beneficiaries.

. . . . . .

(b) *Principle for cost reporting periods starting after December 31, 1971.* * * *

(3) *Aggregate per diem method for physicians' patient care services (and supervision of interns and residents in the care of patients).* The cost of physicians' patient care services rendered in a teaching hospital to nonprivate patients for program beneficiaries is determined on the basis of a separate average cost per diem for physicians' patient care services to all nonprivate patients (see § 405.521 of Subpart E) in each of the following subcategories of services by physicians on the hospital staff and on the medical school staff:

(i) *Physicians on the hospital staff.* (A) Patient care services rendered by physicians excluding radiology and pathology.

(B) Radiology and pathology services.

(ii) *Physicians on the medical school staff.* (A) Patient care services rendered by physicians excluding radiology and pathology.

(B) Radiology and pathology services.

(c) *Availability of apportionment methods for cost reporting periods starting after December 31, 1971.* * * *

(4) *Teaching hospitals.* Teaching hospitals (see § 405.521(c)) incurring costs for physicians' patient care services (and supervision of interns and residents in the care of patients) rendered to nonprivate patients must use the Aggregate Per Diem Method of Apportionment (as defined in paragraph (b)(3)) of this section for such costs.

(d) *Definitions.* * * *

(11) *Average cost per diem for physicians' patient care services (and supervision of interns and residents in the care of patients) rendered in a teaching hospital.* Average cost per diem for physicians' patient care services rendered in a teaching hospital to nonprivate patients in each subcategory of physicians' services on the hospital staff and the medical school staff described in paragraph (b)(3)(i) and (ii) of this section means the amount computed by dividing total costs of physicians' services in each subcategory by the total number of:

(i) Inpatient days of care (as defined in paragraph (d)(12) of this section) and,

(ii) Outpatient visit days (as defined in paragraph (d)(13) of this section).

(12) *Inpatient days of nonprivate patients.* Inpatient days of nonprivate patients will be determined during a cost reporting period by counting the day of admission as 3.5 days and each day subsequent to a patient's day of admission as 1 day. The weighted day of admission reflects the intensity of physicians' services rendered on that day.

(13) *Outpatient visit days of nonprivate patients.* Outpatient visit days of nonprivate patients will be determined during a cost reporting period by counting only one visit day for each calendar day that a nonprivate patient visits the outpatient department.

(e) *Application.* * * *

(6) *Aggregate per diem method for physicians' patient care services (and supervision of interns and residents in the care of patients) for cost reporting periods beginning after June 30, 1973.* The following illustrates how apportionment based on the Aggregate Per Diem Method for cost of physicians' patient care services rendered in a teaching hospital to nonprivate patients would be determined for cost reporting periods beginning after June 30, 1973.

TEACHING HOSPITAL Y

Statistical and financial data:

Total nonprivate inpatient days as defined in paragraph (d)(12) of this section and nonprivate outpatient visit days as defined in paragraph (d)(13) of this section ---------- 75,000
Total nonprivate inpatient part A days applicable to program beneficiaries-- 20,000
Total nonprivate inpatient part B days applicable to program beneficiaries where part A coverage has expired or is nonexistent ---------- 1,000
Total nonprivate outpatient part B visit days applicable to program beneficiaries-- 5,000
Total cost of patient care services rendered to all nonprivate patients by physicians on the hospital staff—no radiology or pathology services---------- $1,500,000
Total cost of patient care services rendered to all nonprivate patients by physicians on the medical school staff—no radiology or pathology services---------- $1,650,000
Computation of cost applicable to program for physicians on the hospital staff:
Average cost per diem for patient care services to nonprivate patients by physicians on the hospital staff:
$1,500,000 ÷ 75,000 = $20 per diem
Cost of physicians' services rendered to nonprivate inpatient beneficiaries covered under part A: $20 per diem x 20,000, $400,000
Cost of physicians' services rendered to nonprivate inpatient beneficiaries covered under part B: $20 per diem x 1,000- $20,000
Cost of physicians' services rendered to nonprivate outpatient beneficiaries covered under part B: $20 per diem x 5,000 ---------- $100,000
Computation of cost applicable to program for physicians on the medical school staff:
Average cost per diem for patient care services to nonprivate patients by physicians on the medical school staff:
$1,650,000 ÷ 75,000 = $22 per diem
Cost of physicians' services rendered to nonprivate inpatient beneficiaries covered under part A: $22 per diem x 20,000 ---------- $440,000
Cost of physicians' services rendered to nonprivate inpatient beneficiaries covered under part B: $22 per diem x 1,000 ---------- $22,000
Cost of physicians' services rendered to nonprivate outpatient beneficiaries covered under part B: $22 per diem x 5,000 ---------- $110,000

5. Section 405.466 is added to read as follows:

§ 405.466 Payment to a fund.

(a) *General.* Payment for services by physicians in teaching hospitals for nonprivate patients (as such services are described in § 405.521(d)) will be paid on a salary equivalent basis (as described in paragraphs (b)(5) and (b)(6)(iii, of § 405.451) subject to the conditions and limitations contained in this Part 405 and title XVIII of the Act, to a single fund (as defined in paragraph (b) of this section) designated by the organized medical staff of the hospital (or, where such services are furnished in such hospital by the faculty of a medical school, to such fund as may be designated by the faculty), if:

(1) The hospital (or medical school furnishing the services under arrangement with the hospital) incurs no actual cost in furnishing the services; and

(2) The hospital has an agreement with the Secretary under § 405.602; and

(3) The intermediary, or the Administration, as appropriate, has received written assurances that:

(i) The payment will be used solely for the improvement of care of hospital patients or for educational or charitable purposes; and

(ii) Neither the individuals who are furnished the services nor any other persons will be charged for the services (and if charged, provision will be made for the return of any monies incorrectly collected).

(b) *Definition of a fund.* For purposes of paragraph (a) of this section, a fund is an organization which has and retains exemption, as a governmental entity or under section 501(c) of the Internal Revenue Code (nonprofit educational, charitable, and similar organizations), from Federal taxation.

(c) *Status of a fund.* A fund approved for payment under paragraph (a) of this section has all the rights and responsibilities of a provider under title XVIII of the Act except that it does not enter into an agreement with the Secretary under § 405.602 and does not have the right and responsibilities arising out of such an agreement.

6. Section 405.520 is revised to read as follows:

§ 405.520 Reimbursement for services of interns, residents, and supervising physicians; general.

(a) Under the health insurance program, aged and disability social security beneficiaries have protection against hospital expenses; the great majority also have protection against medical expenses. This health insurance coverage is intended to provide a substantial measure of freedom to beneficiaries in selecting the hospital settings and physicians of their choice. Whatever the choice, beneficiaries are to be accorded the same status as other paying patients in the setting they choose in regard to the hospital and medical care they are provided.

(b) Many beneficiaries will choose to receive the care they need from hospitals with approved graduate medical education programs and from other institutions where services of interns and residents are provided. Many will receive care in these hospitals as patients of physicians who, in turn, will involve interns and residents in the care of their patients. The basis for reimbursement for such physicians' services depends on the circumstances under which the services are rendered and the nature of the financial obligation to pay for such services.

7. Section 405.521 is revised to read as follows:

§ 405.521 Services of physicians supervising interns and residents.

(a) Under certain circumstances, physicians' services rendered to beneficiaries in a teaching setting are covered under the supplementary medical insurance program and the payment for such services is on the basis of reasonable charges: Where such services are rendered in a hospital during a cost accounting period of the hospital that began prior to July 1, 1973, reasonable charge reimbursement will be provided if the physician was the patient's "attending physician" as that term is defined in paragraph (b) of this section. Where such services are rendered in a hospital during a cost accounting period that began on or after July 1, 1973, reasonable charge reimbursements will be provided only if the patient is the physician's "private patient" as that term is defined in paragraph (c) of this section. In part, it is the intent of these provisions to provide reasonable charge reimbursement in the typical community hospital and other teaching settings where the patients are part of their physicians' private practice, and it is customary for the patients to pay on this basis for the physicians' services they receive. The costs to a hospital for teaching services furnished by a physician in connection with an approved graduate medical education program and, in the case of cost accounting periods beginning on or after July 1, 1973, the costs to a hospital for physicians' patient care services to nonprivate patients and certain related actual and imputed patient care and teaching costs, are allowable in accordance with the principles of reimbursement for provider costs (see paragraph (d) of this section).

(b) In the case of physicians' services rendered to beneficiaries in a teaching setting during a hospital cost accounting period beginning prior to July 1, 1973, payment on the basis of reasonable charges is applicable to the professional services rendered to a beneficiary by his attending physician where the attending physician provides personal and identifiable direction to interns or residents who are participating in the care of his patient. In the case of major surgical procedures and other complex and dangerous procedures or situations, such personal and identifiable direction must include supervision in person by the attending physician. A charge should be recognized under the supplementary insurance program for the services of an attending physician who involves residents and interns in the care of his patient only if his services to the patient are of the same character, in terms of the responsibilities to the patient that are assumed and fulfilled, as the services he renders to his other paying patients. The carrying out by the physician of these responsibilities would be demonstrated by such actions as: Reviewing the patient's history and physical examination and personally examining the patient within a reasonable period after admission; confirming or revising diagnosis; determining the course of treatment to be followed; assuring that any supervision needed by the interns and residents was furnished; and by making frequent reviews of the patient's progress.

(c)(1) In the case of physicians' services rendered during a hospital cost accounting period that began on or after July 1, 1973, where the hospital has or is participating in an approved graduate medical education program, payment on the basis of reasonable charges is applicable to the patient care services rendered to a beneficiary if the beneficiary is a private patient. A private patient relationship is deemed to exist between a patient and his personal physician (i.e., a physician other than a consultant, and a physician in the field of pathology and diagnostic radiology) where the following requirements are met:

(i) If the patient was not admitted on an emergency basis, (A) the patient had been seen by a physician (not an intern or resident other than a "locum tenens," i.e., a resident in a family practice residency program who is practicing in a sponsoring physician's office which is independent of a hospital) prior to being hospitalized; and (B) such physician either served as the patient's personal

V 38 I 138 JUL 1973 XUM

physician in the hospital or referred the patient to the person who became his personal physician in the hospital because that physician was better qualified, by reason of his specialty, experience, or other professional reason, to deal with the patient's condition; and

(ii) The patient receives his principal physician services from his personal physician who performs, among other things, those activities enumerated in paragraph (b) of this section; and

(iii) The patient is billed charges for physicians' services in the setting, and reasonable efforts have been made to collect such charges, including applicable deductible and coinsurance amounts. The obligation to pay the billed charges is demonstrated by the fact that during the preceding hospital accounting period at least 50 percent of the physician's patients in the same setting (see paragraph (c)(5) of this section) paid all or a substantial part of his fees from sources other than public assistance programs. (A health insurance patient will be deemed to have paid fees from such private sources only if he paid his supplementary medical insurance deductible and coinsurance relative to those services in full or substantial part from private sources and no greater effort was made to collect the supplementary medical insurance deductible and coinsurance amounts than the amounts due from other patients.) It will be presumed that the requirements in this subparagraph are met with respect to patients who are admitted from a physician's private practice, which is conducted off hospital and medical school premises, where the physician is not compensated by a hospital, medical school, or other entity and he bills his patients and retains the collections.

(2) A private patient relationship will be deemed to exist between a patient and a consulting physician (and a physician in the field of pathology or diagnostic radiology) if the patient is the private patient of his personal physician or if the consulting physician meets the requirements of paragraph (c)(1)(iii) of this section.

(3) It will be presumed that all the patients in a hospital or hospital setting (see paragraph (c)(5) of this section) are private patients if the requirements set forth in either paragraph (c)(3)(i) or (ii) of this section are satisfied.

(i) All of a hospital's inpatients or outpatients will be deemed to be private patients if the hospital establishes that during the 2-year period ending December 31, 1967, and each year thereafter: (A) All the patients have been regularly billed fees by the hospital for services rendered by physicians; (B) reasonable efforts have been made to collect such fees in full from all patients; and (C) charges (including applicable deductibles and coinsurance) have been regularly collected in full or in substantial part from at least 50 percent of all patients.

(ii) All of the patients in a hospital or hospital setting will be deemed to be private patients during a hospital accounting year if: (A) At least 85 percent of the patients in the setting meet the requirements in paragraph (c)(1)(i) and (ii) of this section; (B) it can be shown that during a representative period of at least 4 consecutive months during the previous hospital accounting period, 50 percent or more of the patients in the setting paid the billed physician fees from sources other than public medical assistance programs; a health insurance patient will be deemed to have paid fees from such private sources only if he paid the part B deductible and coinsurance amounts with respect to such services in full or substantial part from private sources and no greater effort was made to collect the health insurance deductible and coinsurance amounts than the amounts due from other patients;

(C) Ability to pay was not a factor in deciding the status of the patients inside the setting or the services provided by various types of practitioners (for example, ability to pay had no bearing within the setting on the assignment of accommodations, or in the respective roles played by residents, interns, and the personal physician in patient care); and (D) assurance is provided that the foregoing requirements will continue to be met in subsequent accounting periods and appropriate arrangements have been made to notify the intermediary as soon as it appears that the foregoing requirements may not be met for any accounting period.

(4) A hospital may elect to be reimbursed exclusively on a reasonable cost basis for patient care services rendered in one or more settings during cost accounting periods beginning on or after July 1, 1973, even though some of its patients in these settings are private patients. The hospital may make this election to receive cost reimbursement only where: (A) the election would reduce the total of benefit payment and administrative costs for which the program would otherwise be liable had the cost option not been elected; and (B) all the physicians who might render patient care services to patients in the setting agree not to bill charges for such services. Such an election may also cover a cost accounting period that began prior to July 1, 1973, where the preceding requirements of this subparagraph are met if procedural difficulties have prevented determinations of the proper amount of fee-for-service reimbursement for the past period.

(5) The status of patients under paragraph (c)(1) and (2)(ii) of this section may be determined on a setting basis in recognition of the fact that in some hospitals patients are assigned geographically, according to their medical needs, ability to pay, or some other criteria that are generally applied by the institution. Quite often, the patients in one geographical setting are primarily private patients, while those in another setting in the same hospital are not. It will be necessary for intermediaries to recognize these differences in order to differentiate among: (i) settings in which all patients may be presumed to be private patients; (ii) settings in which all patients may be considered to be nonprivate patients; and (iii) settings in which private and nonprivate patients are mixed together. To be considered a distinct "setting," the area must be readily identifiable. It may take the form of a separate building, floor, department, unit, wing, treatment center, or room accomodations assigned under an established plan. For example, a hospital that usually serves nonprivate patients may have a special burn, poison, or trauma center that is used by the community at large. In such cases, the special center might qualify as a private patient setting even though the balance of the institution might be treated as a nonprivate patient setting. In other cases, a hospital that principally treats private patients may maintain a ward, an outpatient clinic, or other area for nonprivate patients where the involvement of residents and interns in the care of patients is relatively greater than in the rest of the hospital. Where such distinctions exist between patients in the same hospital, each setting should be considered separately in applying the requirements prescribed in paragraph (c)(1) and (2)(ii) of this section.

(d) It is recognized that there will necesarily be situations where a patient will receive medical services in the teaching setting for which payment on the basis of reasonable charges will not be applicable. For example, there will be instances where it will neither be necessary from the standpoint of the medical needs of the patient nor appropriate from the standpoint of the continuing development of the resident's competence for there to be a supervising physician who carries out the responsibilities referred to in paragraph (b) of this section. Whether or not a physician makes a charge recognized under the supplementary medical insurance program for services to patients which involve the participation of residents or interns, the hospital can receive reimbursement on a cost basis for an appropriate share of the compensation it pays its residents and interns. If the teaching program is an approved education activity of the hospital, reimbursement will also be available on a cost basis in recognition of the services rendered by physicians for which reasonable charge reimbursement is not applicable. In the case of accounting years that begin prior to July 1, 1973, reimbursement is provided on a cost basis to the hospital for an appropriate share of the compensation it pays to physicians for teaching services (as opposed to professional services which contribute to the diagnosis or treatment of the patient) and for other costs of educational programs conducted by the hospital. In the case of subsequent cost accounting periods, cost reimbursement may also be made for patient care services provided to nonprivate patients and, in addition, allowable costs of teaching and patient care may include salary equivalents where donated services are provided and certain medical school costs. These costs are allowable in accordance with the principles of reimbursement for provider costs (see § 405.451 of Subpart D).

(e) Where there is a question as to whether reimbursement for the services of physicians in a teaching setting should be made on the basis of costs or charges, reimbursement will be made on the basis of costs.

(f) Nothing in the foregoing restricts the disposition of payments for services received either from the health insurance program or from beneficiaries, in accordance with agreements between hospital and physicians.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 73-EA-53]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.171 of Part 71 of the Federal Aviation regulations so as to alter the Charleston, W. Va., Control Zone (38 FR 363).

A review of the requirements for the Charleston terminal area requires an alteration of the control zone to conform with the requirements of the Terminal Instrument Procedures (TERPS) criteria.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before August 20, 1973 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Charleston, West Virginia, proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation regulations by deleting the description of the Charleston, W. Va. control zone and by substituting the following in lieu thereof:

Within a 5.5-mile radius of the center, 38°22'22" N., 81°35'35" W., of Kanawha Airport, Charleston, W. Va.; within a 6-mile radius of the center of the Kanawha Airport, extending clockwise from a 319° bearing to a 229° bearing from the airport; within 2 miles each side of the extended centerline of Runway 5, extending from the 5.5-mile radius to 6.5 miles northeast of the lift-off end of Runway 5; within 1.5 miles each side of the extended centerline of Runway 14, extending from the 5.5-mile radius to 6.5 miles southeast of the lift-off end of Runway 14; within 2 miles each side of the Charleston VORTAC 081° radial, extending from the 5.5-mile radius to 2 miles east of the VORTAC; within 2 miles each side of the extended centerline of Runway 23, extending from the 5.5-mile radius to 6.5 miles southwest of the lift-off end of Runway 23 and within 2 miles each side of the extended centerline of Runway 32, extending from the 5.5-mile radius to 6.5 miles northwest of the lift-off end of Runway 32.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348, and section 6(c) of the Department of Transportation Act, 49 U.S.C. 1655(c).

Issued in Jamaica, N.Y., on July 9, 1973.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[Airspace Docket No. 73-EA-55]

[14 CFR Part 71]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation regulations so as to alter the Lakehurst, N.J., Control Zone (38 FR 392) and Wrightstown, N.J., Transition Area (38 FR 603).

Due to a revision of the TACAN instrument approach procedures for NAS Lakehurst, Lakehurst, N.J., the subject control zone and transition area will require revision.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before August 20, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal areas of Lakehurst, New Jersey, and Wrightstown, New Jersey, proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation regulations by deleting the description of the Lakehurst, N.J. control zone and substituting the following in lieu thereof:

Within a 5-mile radius of the center 40°02'00" N., 74°21'00" W. of NAS Lakehurst, Lakehurst, N.J.; within 3 miles each side of the 050° bearing from the Navy Lakehurst UHF RBN, extending from the 5-mile radius zone to 8.5 miles northeast of the RBN. This control zone is effective from 0700 to 2300 hours, local time, daily.

2. Amend § 71.181 of Part 71 of the Federal Aviation regulations so as to the description of the Wrightstown, N.J. transition area by deleting the following: "within a 12-mile radius of NAS Lakehurst (West Field) (Latitude 40°02'05" N., Longitude 74°21'05" W.)" and by substituting the following in lieu thereof:

• • • within a 9.5-mile radius of the center, 40°02'00" N., 74°21'00. W. of NAS Lakehurst, N.J.; within a 13-mile radius of the Navy Lakehurst TACAN, extending clockwise from the Navy Lakehurst TACAN 310° radial to the 148° radial; within 5 miles each side of the Coyle VORTAC 031° radial, extending from the Coyle VORTAC to 13 miles northeast; within 5 miles each side of the Robbinsville VORTAC 148° radial, extending from the Robinsville VORTAC to 18.5 miles southeast; within 3 miles southwest and five miles northeast of the Navy Lakehurst TACAN 148° radial, extending from the TACAN to 14 miles southeast; within 3.5 miles each side of the 050° bearing from the Navy Lakehurst UHF RBN, extending from the RBN to 11.5 miles northeast.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348, and section 6(c) of the Department of Transportation Act, 49 U.S.C. 1655(c).

Issued in Jamaica, N.Y., on July 9, 1973.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[Airspace Docket No. 73-EA-54]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation regulations so as to alter the Coatesville, Pa., Transition Area (38 FR 464).

V 38 I 138 JUL 19 73 XUM

A review of the airspace requirements for the Coatesville terminal area requires an alteration of the transition area to conform with the requirements of the Terminal Instrument Procedures (TERPS) criteria.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before August 20, 1973 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Coatesville, Pennsylvania, proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 of the Federal Aviation regulations by deleting the description of the Coatesville, Pa. transition area and by substituting the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the center 39°58'40" N., 75°51'44" W., of Chester County G. O. Carlson Airport, Coatesville, Pa., extending clockwise from a 024° bearing to a 231° bearing from the airport; within a 6-mile radius of the center of the airport, extending clockwise from a 231° bearing to a 024° bearing from the airport; within 3.5 miles each side of a 283° bearing from the Coatesville RBN (39°59'32" N., 75°56'32" W.), extending from the 6-mile radius arc to 11.5 miles west of the RBN; within 4.5 miles south and 6.5 miles north of the Modena VORTAC 095° and 275° radials, extending from 11.5 miles east to 5.5 miles west of the VORTAC; within 5 miles each side of the Modena VORTAC 293° radial extending from the VORTAC to 11 miles northwest of the VORTAC, excluding the portion that coincides with the Toughkenamon, Pa. transition area.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348, and section 6(c) of the Department of Transportation Act, 49 U.S.C. 1655(c).

Issued in Jamaica, N.Y., on July 10, 1973.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[FR Doc.73-14721 Filed 7-18-73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73-CE-21]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations so as to alter the transition area at Great Bend, Kansas.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before August 20, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief.

Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

A study of the existing designated airspace to protect the NDB Runway 11 instrument approach to the Great Bend, Kansas Municipal Airport has recently been accomplished. Based on this review, it has been determined that alteration of the Great Bend, Kansas transition area is necessary to adequately protect aircraft executing this approach procedure.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation regulations as hereinafter set forth:

In § 71.181 (38 FR 435), the following transition area is amended to read:

GREAT BEND, KANSAS

That airspace extending upward from 700 feet above the surface within a 7-mile radius of the Great Bend Municipal Airport (latitude 38°20'50" N, longitude 98°51'47" W) and within 2 miles each side of the 301° bearing from the Great Bend Municipal Airport, extending from the 7-mile radius area to 10 miles NW of the airport; and that airspace extending upwards from 1,200 feet above the surface within 5 miles NE and 9.5 miles SW of the 301° bearing from the airport extending from 6.5 miles SE to 16.5 miles NW of the airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, 49 U.S.C. 1348, and of section 6(c) of the Department of Transportation Act, 49 U.S.C. 1655(c).

Issued in Kansas City, Missouri on June 27, 1973.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc.73-14723 Filed 7-18-73;8:45 am]

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 128]

POLLUTANTS IN PUBLICLY OWNED TREATMENT WORKS

Pretreatment Standards

Pursuant to the authority delegated in section 307(b) of the Federal Water Pollution Control Act Amendments of 1972 (Public Law 92-500), notice is hereby given that the Environmental Protection Agency proposes to issue standards for pretreatment of pollutants introduced into publicly owned treatment works.

Under section 307(b) of the Act, Federal pretreatment standards are designed to achieve two purposes: (1) To protect the operation of publicly owned treatment works, and (2) to prevent the discharge of pollutants which pass through such works inadequately treated. Section 128.131 of the proposed regulations is designed to achieve the purpose of protecting the operation of publicly owned treatment works. Section 128.133 is designed to prevent the discharge of pollutants which pass through publicly owned treatment works inadequately treated. Section 128.133 is based on the premise that pollutants which pass through publicly owned treatment works in amounts greater than would be permitted if the user discharged directly to the receiving waters are inadequately treated. On the basis of this premise, § 128.133 requires users discharging incompatible pollutants to publicly owned treatment works to adopt best practicable control technology currently available, as defined by the Administrator pursuant to section 304(b) of the Act, subject to a credit for the percentage of removal to which the publicly owned treatment works is commited in its permit. To insure the basis for allowing such credit, a commitment with respect to percentage removal of an industrial pollutant will be included in the permit at the request of a municipality where a basis for such commitment can be demonstrated.

In some cases, these pretreatment standards may not be sufficient to protect the operation of a publicly owned treatment works or to enable the treatment works to comply with the terms of its NPDES permit. This may be the case, for example, when the terms of the permit for the publicly owned treatment works are dictated by water quality standards or toxic standards. In such cases, the State or municipality may have to impose more stringent pretreatment standards under State or local laws than are specified in these regulations to enable compliance with NPDES permits issued to publicly owned treatment works.

Pretreatment guidelines will be published, pursuant to section 304(f) of the Act, to assist the States and municipalities in establishing their own pretreatment requirements. When published, the guidelines will be made available through the Environmental Protection Agency Regional Offices.

Interested parties are encouraged to submit written comments, views, or data concerning the regulations proposed herein, to the Director, Municipal Waste Water Systems Division, Environmental Protection Agency, Washington, D.C. 20460. All such submissions, received on or before September 4, 1973, will be considered prior to promulgation of final regulations. If, during the period for written submissions, it is deemed necessary that public hearings be held notice of such hearings will be published in the FEDERAL REGISTER.

ROBERT W. FRI,
Acting Administrator.

JULY 13, 1973.

PART 128—PRETREATMENT STANDARDS

Sec.

128.100 Purpose.
128.101 Applicability.
128.110 State or local law.
128.120 Definitions.
128.121 Compatible pollutant.
128.122 Incompatible pollutant.
128.123 Joint treatment works.
128.124 Major contributing industry.
128.125 Pretreatment.
128.130 Pretreatment standards.
128.131 Prohibitions.
128.132 Compatible pollutants.
128.133 Incompatible pollutants.
128.140 Time for compliance.

§ 128.100 Purpose.

The provisions of this part implement section 307(b) of the Federal Water Pollution Control Act Amendments of 1972 (Public Law 92-500) hereinafter referred to as "the Act".

§ 128.101 Applicability.

The standards set forth in § 128.131 apply to all non-domestic users of publicly owned treatment works. The standard set forth in § 128.133 applies only to major contributing industries.

§ 128.110 State or local law.

Nothing in this part shall affect any pretreatment requirement established by any State or local law not in conflict with any standard established pursuant to this Part. In particular cases, a State or municipality, in order to meet the effluent limitations in a NPDES permit for a publicly owned treatment works may find it necessary to impose pretreatment requirements stricter than those contained herein.

§ 128.120 Definitions.

Definitions of terms used in this part are as follows:

§ 128.121 Compatible pollutant.

For purposes of establishing Federal requirements for pretreatment pursuant to § 128.133, the term "compatible pollutant" means biochemical oxygen demand, suspended solids, pH and fecal coliform bacteria.

§ 128.122 Incompatible pollutant.

The term "incompatible pollutant" means any pollutant which is not a compatible pollutant as defined in § 128.121.

§ 128.123 Joint treatment works.

Treatment works for both non-industrial and industrial wastewater.

§ 128.124 Major contributing industry.

A major contributing industry is one that: (a) Has a flow of 50,000 gallons or more per average work day; (b) has a flow greater than five percent of the flow carried by the municipal system receiving the waste; (c) has in its waste, a toxic pollutant in toxic amounts as defined in standards issued under section 307(a) of the Act, or (d) is found by the permit issuance authority, in connection with the issuance of an NPDES permit to the publicly owned treatment works receiving the waste, to have significant impact, either singly or in combination with other contributing industries, on that treatment works or upon the quality of effluent from that treatment works.

§ 128.125 Pretreatment.

Treatment of wastewaters from sources before introduction into the joint treatment works.

§ 128.130 Pretreatment standards.

The following sections set forth pretreatment standards for pollutants introduced into publicly owned treatment works.

§ 128.131 Prohibitions.

No discharge to publicly owned treatment works shall contain the following described materials:

(a) Wastes which create a fire or explosion hazard in the publicly owned treatment works.

(b) Wastes which will cause corrosive structural damage to treatment works, but in no case wastes with a pH lower than 5.0.

(c) Solid or viscous substances in amounts which would cause obstruction to the flow in sewers, or other interference with the proper operation of the publicly owned treatment works.

(d) Wastewaters at a flow rate and/or pollutant discharge rate which is excessive over relatively short time periods so that there is a treatment process upset and subsequent loss of treatment efficiency.

§ 128.132 Compatible pollutants.

Except as required by § 128.131, pretreatment for removal of compatible pollutants is not required by these regulations. However, States and municipalities may require such pretreatment pursuant to section 307(b)(4) of the Act.

§ 128.133 Incompatible pollutants.

In addition to the prohibitions set forth in § 128.131, the pretreatment standard for incompatible pollutants introduced into a publicly owned treatment works by a major contributing industry shall be best practicable control technology currently available as defined by the Administrator pursuant to section 304(b) of the Act; provided that, if the publicly owned treatment works which receives the pollutants is committed, in its NPDES permit, to remove a specified percentage of any incompatible pollutant, the pretreatment standard applicable to users of such treatment works shall be correspondingly reduced for that pollutant.

§ 128.140 Time for compliance.

Any owner or operator of any source to which the pretreatment standards required by this Part are applicable, shall be in compliance with such standards within three years from the date of promulgation of this part.

FEDERAL MARITIME COMMISSION

[46 CFR Part 531]

[Docket No. 73-40]

COMMON CARRIERS BY WATER IN DOMESTIC OFFSHORE COMMERCE OF U.S.

Filing of Tariffs

Notice is hereby given that the Federal Maritime Commission is considering the revision of Part 531 of this Chapter which contains the regulations governing the contents of tariff publications by common carriers by water in the domestic offshore commerce of the United States.

Part 531 became effective October 4, 1963. The purpose of the Part was to provide regulations governing the contents of tariff publications by common carriers by water in the domestic offshore commerce of the United States. The Commission has now had several years experience working with the tariffs filed under the existing rules, and has determined that due to containerization of cargo an additional rule is necessary to insure the propriety of payments to carriers when such carriers name rates and charges applicable to cargo moving in containers.

Therefore, pursuant to the provisions of section 4 of the Administrative Procedure Act (5 USC 553), section 18(a) and 43 of the Shipping Act, 1916 (46 USC 817a and 841(a)), and section 2 of the Intercoastal Shipping Act, 1933 (46 USC 843), notice is hereby given that the Federal Maritime Commission is considing amending § 531.5 by adding a new paragraph (j) reading as follows:

FEDERAL REGISTER, VOL. 38, NO. 138—THURSDAY, JULY 19, 1973

V 38 I 138 JUL 19 73 XUM

§ 531.5 Contents of tariff publications.

• • • • •

(j) Tariffs which publish rates and/or charges on containerized cargo must provide that the rates and/or charges as published are subject to the container specifications of the carrier(s) owned or leased container(s) which are as shown on designated pages of the freight rate tariff, or that the rates and/or charges as published are subject to the container specifications of the carrier(s) owned or leased container(s) as listed in a governing tariff. Freight charges based upon a per container unit are subject to the container specifications provided in the rate item(s). Where container(s) of a different specification than that provided in the rate item(s) are permitted, the unit freight charge shall be adjusted by either a formula or a conversion table. If a conversion table is published, the capacity increments must be of a reasonable size and may not be open ended as to either a maximum or minium capacity. The specifications of containers shall include the identification of the container by serial number or similar identification device, the dimensions of the container, viz: inside and outside, length, height and width and the cubic capacity stated in feet or meters as well as the light weight and maximum load weight stated in pounds or kilos. For the purpose of this rule a container shall also include trailer(s).

Interested persons may participate in this rule making proceeding by filing with the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before August 10, 1973, an original and 15 copies of their views or arguments pertaining to the proposed amended rules. All suggestions for changes in the text as set out above should be accompanied by drafts of the language thought necessary to accomplish the desired change and by statements and arguments in support thereof.

The Federal Maritime Commission, Bureau of Hearing Counsel, shall participate in the proceeding and shall file Reply to Comments on or before August 24, 1973, serving an original and 15 copies on the Federal Maritime Commission and one copy to each party who filed written comments. Answers to Hearing Counsel's replies shall be submitted to the Federal Maritime Commission on or before September 3, 1973.

By order of the Federal Maritime Commission.

[SEAL] FRANCIS C. HURNEY, *Secretary.*

[FR Doc.73-14844 Filed 7-18-73;8:45 am]

[46 CFR Part 536]

[Docket No. 73-39]

COMMON CARRIERS BY WATER IN FOREIGN COMMERCE OF U.S.

Filing of Tariffs

Notice is hereby given that the Federal Maritime Commission is considering the revision of Part 536 of this Chapter which contains the regulations governing the contents of tariff publications by common carriers by water in the foreign commerce of the United States and by conferences of such carriers.

Part 536 became effective July 1, 1965. The purpose of the Part was to provide regulations governing the contents of tariff publications by common carriers by water in the foreign commerce of the United States and by conferences of such carriers. The Commission has now had several years experience working with the tariffs filed under the existing rules, and has determined that due to containerization of cargo an additional rule is necessary to insure the propriety of payments to carriers when such carriers or conferences of such carriers name rates and charges applicable to cargo moving in containers.

Therefore, pursuant to the provisions of section 4 of the Administrative Procedure Act (5 USC 553) and sections 18(b) and 43 of the Shipping Act, 1916 (46 USC 817b and 841(a)), notice is hereby given that the Federal Maritime Commission is considering amending subparagraph (9) of § 536.4(b) by the addition of a new subdivision (x) reading as follows:

§ 536.4 Contents of tariffs.

(b) • • •

(9) • • •

(x) Tariffs which publish rates and/or charges on containerized cargo must provide that the rates and/or charges as published are subject to the container specifications of the carrier(s) owned or leased container(s) which are as shown on designated pages of the freight rate tariff, or that the rates and/or charges as published are subject to the container specifications of the carrier(s) owned or leased container(s) as listed in a governing tariff.

Freight charges based upon a per container unit are subject to the container specifications provided in the rate item(s). Where container(s) of a different specification than that provided in the rate item(s) are permitted, the unit freight charge shall be adjusted by either a formula or a conversion table. If a conversion table is published, the capacity increments must be of a reasonable size and may not be open ended as to either a maximum or minimum capacity.

The specifications of containers shall include the identification of the container by serial number or similar identification device, the dimensions of the container, viz: inside and outside, length, height and width and the cubic capacity stated in feet or meters as well as the light weight and maximum load weight stated in pounds or kilos. For the purpose of this rule a container shall also include trailer(s).

and quantify the metabolities of the par-

Interested persons may participate in this rule making proceeding by filing with the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before August 10, 1973, an original and 15 copies of their views or arguments pertaining to the proposed amended rules. All suggestions for changes in the text as set out above should be accompanied by drafts of the language thought necessary to accomplish the desired change and by statements and arguments in support thereof.

The Federal Maritime Commission, Bureau of Hearing Counsel, shall participate in the proceeding and shall file Reply to Comments on or before August 24, 1973, serving an original and 15 copies on the Federal Maritime Commission and one copy to each party who filed written comments. Answers to Hearing Counsel's replies shall be submitted to the Federal Maritime Commission on or before September 3, 1973.

By order of the Federal Maritime Commission.

FEDERAL POWER COMMISSION

[18 CFR Part 260]

[Docket No. R-455]

STATEMENTS AND REPORTS

Imputed Rate of Return on Jurisdictional Rate Base; Termination of Rulemaking Proceeding

JULY 12, 1973.

Revisions to FPC Annual Report Form No. 2 to obtain allocation of costs between jurisdictional and non-jurisdictional pipeline operations to determine the imputed rate of return on jurisdictional rate base.

On September 21, 1972, the Commission issued in this docket a notice of proposed rulemaking proposing to amend FPC Annual Report Form No. 2 to require all reporting Class A and B pipelines to allocate total company costs and rate base between jurisdictional and non-jurisdictional operations (37 FR 20260, Sept. 28, 1972). The purpose of the proposed new reporting requirements was to permit the determination of an imputed rate of return earned by the reporting pipeline solely on its jurisdictional natural gas operations for each calendar year. In response to the rulemaking notice, a number of parties submitted comments for the Commission's consideration. Eleven potentially affected natural gas pipelines submitted comments in opposition to the proposed rulemaking.[1] Opposing comments were also filed by the American Gas Association and the Independent Natural Gas Association of America (INGAA). A majority of responding pipelines adopted the comments submitted by INGAA. The only response favorable to the proposed rulemaking was that submitted by the General Service Administration.

The numerous comments in opposition to the proposed rulemaking stress the fact that cost allocations based on unadjusted annual book data without normalizing or other necessary ratemaking adjustments would render the resulting imputed jurisdictional rate of return inaccurate and misleading. The parties further observe, quite correctly, that if the appropriate rate-making adjustments are made, the result would be to require the annual filing of a fully allocated and adjusted cost study essentially identical to that required in support of proposed rate increases under section 4 of the Natural Gas Act. In addition, the parties point out that pursuant to the requirements of Commission's Order Nos. 452 and 452-A and § 154.38 (d)(4) of the Commission's Regulations issued thereunder, each pipeline having an approved Purchased Gas Adjustment (PGA) clause is required to file with the Commission at least once every three years a complete cost-of-service study, including jurisdictional-nonjurisdictional allocations.

Upon review and further consideration of the additional reporting requirements proposed by this rulemaking, and giving consideration to the pertinent comments filed herein, we find that this proposed rulemaking should not be implemented. We agree that any attempt to determine an imputed jurisdictional rate of return without provision for necessary test year adjustments, elimination of nonrecurring cost items, or the proper annualization of expenses, revenues, and rate base items, would lead to misleading and inaccurate results. On the other hand, to require the necessary ratemaking adjustments would amount to requiring the filing of a complete rate case each year by every Class A and B pipeline, a result which we think is unreasonable and which we did not intend. Even if we were to require such an annual submittal via Form 2, such a filing would amount to nothing more than the reporting company's statement of its position on many complex and disputed allocation and test-year adjustment issues. We believe instead that the issues involving the allocation of costs and the determination of earned rates or return should continue to be considered in a rate-making context and on a case-by-case basis as such cases arise under sections 4 and 5 of the Natural Gas Act. We are also mindful of the fact that virtually all of the major interstate trunklines have approved PGA clauses[2] and are thus subject to the requirements of § 154.38(d)(4) of the Regulations requiring the filing of a complete cost of service at least once every three years. The reporting requirements proposed in this docket would be largely duplicative as to those pipelines having approved PGA clauses.

The General Services Administration, while supporting in general terms the overall objectives of the proposed rulemaking, does not address the fundamental issue concerning the reliability of the imputed rate of return data proposed to be required. As we have noted the proposed imputed rate of return data would be inaccurate and misleading in the absence of a comprehensive annual rate-type filing by each pipeline. We agree with the need to review and monitor the rates of return earned by pipelines on their jurisdictional operations, but believe, on balance, that such determination should be undertaken in the context of rate proceedings.

For the reasons stated, we find that the proposed rulemaking in this docket is not in public interest and should therefore not be implemented. Accordingly, the rulemaking will be terminated.

The Commission, acting pursuant to the provisions of the Natural Gas Act, as amended, particularly sections 8, 10, and 16 (52 Stat. 825, 826, 830; 15 U.S.C. 717g, 717i, 717o), orders:

(A) Effective upon issuance of this order, the proposed rulemaking in Docket No. R-455 is terminated.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

FEDERAL POWER COMMISSION

[Docket No. G-13633, etc.]

CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY

Applications and Petitions [1]

JULY 9, 1973.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before July 30, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

Filing code: A—Initial service.
B—Abandonment.
C—Amendment to add acreage.
D—Amendment to delete acreage.
E—Succession.
F—Partial succession.
See footnotes at end of table.

[1] This application was originally assigned docket No. C173-540 and noticed as an abandonment on May 16, 1973, in docket No. G-14116 et al. It is being renoticed to show that it is an application to delete acreage.
[2] Gas lease on acreage covered by contract has been released to land owner.
[3] Felmont proposes to delete acreage which is now covered by a new contract related to the authorization requested in docket No. C173-905. Felmont has agreed to participate in the drilling of a gas well on the subject acreage and Transwestern, in return, has canceled the original contract insofar as it covered said acreage and entered into a new contract.
[4] Rate in effect subject to refund in docket No. R170-62.
[5] Acreage assigned to J. Gregory Merrion and Robert L. Bayless.
[6] Applicant proposes to sell residue gas from gas purchased from producers who presently sell gas to Lone Star Gas Co. Lone Star has assigned its gas purchase contracts and gathering facilities to applicant and applicant will use the facilities to continue to gather gas. Lone Star has filed an application in docket No. CP73-30 for permission and approval to abandon the facilities. Applicant does not regard the facilities as being jurisdictional.
[7] This is an amendment to a pending certificate application.
[8] Subject to upward and downward B.t.u. adjustment.
[9] Being renoticed to reflect a change in price. Originally noticed on May 18, 1973, in docket No. G-12094 et al.
[10] Subject to upward B.t.u. adjustment.

[Docket Nos. RI73-322, *et al.*]

RATE CHANGES

Hearing on and Suspension of Proposed Changes, and Allowing Changes To Become Effective Subject to Refund [1]

JULY 10, 1973.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A below.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Chapter I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the Date Suspended Until column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[1] Does not consolidate for hearing or dispose of the several matters herein.

APPENDIX A

The proposed increases of Phillips Petroleum Company under FPC Gas Rate Schedule No. 65, Cities Service Oil Company, Exxon Corporation and Hunt Oil Company exceed the rate limit for a one day suspension and, are, therefore, suspended for five months from the expiration of the statutory notice or the contractual effective date, whichever is later.

The remaining proposed increases do not exceed the rate limit for a one day suspension and are suspended for one day.

The producers' proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR 2.56).

Nothing contained in this order shall relieve the respondents of any responsibility imposed by the Economic Stabilization Act of 1970. (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

[Rate Schedule Nos. 8, *et al.*]

SUN OIL CO. et al.

Rate Change Filings

JULY 9, 1973.

Take notice that the producers listed in the Appendix below have filed proposed increased rates to the applicable area new gas ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 639, issued December 12, 1972.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filings should on or before July 22, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI73-321]

UNION OIL COMPANY OF CALIFORNIA

Hearing on and Suspension of Proposed Change in Rate, and Allowing Rate Change To Become Effective Subject to Refund

JULY 10, 1973.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A below.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto [18 CFR, Chapter I], and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the Date Suspended Until column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI73-456 etc.]

ECEE, INC. ET AL.

Extension of Time and Postponement of Hearing

JULY 11, 1973.

In the matter of Ecee, Inc., Pinto, Inc., Texas Production Company, Pennzoil Offshore Gas Operators, Inc., The Offshore Company, Southern Natural Gas Company; Docket No. CI73-456, Docket No. CI73-455, Docket No. CI73-454, Docket Nos. CI73-477 and CI73-456, Docket No. CI72-773, and Docket No. CP72-259.

On July 10, 1973, Ecee, Inc., Pinto, Inc., and Texas Production Company filed a joint telegram requesting an extension of the procedural dates set by order issued July 3, 1973, in the above-designated proceedings.

Upon consideration, notice is hereby given that the procedural dates in the above-designated proceedings are modified as follows:

Service of direct testimony and evidence by applicants and all intervenors supporting the applications July 13, 1973
Service of direct testimony and evidence by Commission Staff and all intervenors opposing the application July 17, 1973
Service of all rebuttal testimony and evidence July 20, 1973
Hearing July 23, 1973 (10:00 a.m., EDT)
Completion of Hearing On or before July 26, 1973

In accordance with the provisions of the order issued July 3, 1973, the Administrative Law Judge's decision shall be rendered on or before August 10, 1973.

All briefs on exceptions shall be due on or before August 17, 1973.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-2]

EXXON CORP.

Notice of Application

JULY 12, 1973.

Take notice that on July 2, 1973, Exxon Corporation (Applicant), P.O. Box 2180, Houston, Texas 77001, filed in Docket No. CI74-2 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas to United Gas Pipe Line Company from the Arp Field Area, Smith County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell an average daily volume of up to 2,000 Mcf of gas for one year at 50.0 cents per Mcf at 14.65 psia within the contemplation of Section 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Initial deliveries are estimated at 60,000 Mcf per month.

V38-138-JUL 19 73 XUM

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14727 Filed 7-18-73;8:45 am]

[Docket No. CI74-3]

FRANKS PETROLEUM INC.

Notice of Application

JULY 12, 1973.

Take notice that on July 2, 1973, Franks Petroleum Inc. (Applicant), P.O. Box 7665, Shreveport, Louisiana 71107, filed in Docket No. CI74-3 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to United Gas Pipe Line Company and delivery of said gas to Beacon Gasoline Company from the Chalybeat Springs Field, Columbia County, Arkansas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to commence the sale of natural gas within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell all the available gas at 46.0 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment. Initial deliveries are expected to be approximately 4,500 Mcf per month.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8301]

IDAHO POWER CO.

Notice of Initial Rate Schedule

JULY 13, 1973.

Take notice that on July 2, 1973, Idaho Power Company (Idaho) tendered for filing an agreement between itself and Portland General Electric Company (Portland) dated September 25, 1972 as an initial rate schedule. Idaho states that the agreement provides that Idaho will stand ready to supply to Portland during light load hours surplus energy which Idaho will either generate as surplus energy on its own system or will be generated by Utah Power and Light Company and transmitted to Idaho. Idaho requests an effective date of October 1, 1973 and contemplates that the agreement will remain in effect until March 31, 1974.

Any person desiring to be heard or to protest should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Commission's Rules of Practice and Procedure. All such petitions or protests should be filed on or before July 30, 1973. Protests will be considered by the Commission in determining the appropriate action, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14728 Filed 7-18-73;8:45 am]

[Docket No. CI73-931]

LONE STAR PRODUCING CO.

Notice of Application

JULY 10, 1973.

Take notice that on June 28, 1973, Lone Star Producing Company (Applicant), 301 South Harwood Street, Dallas, Texas 75201, filed in Docket No. CI73-931 an application pursuant to section 7(c) of the Natural Gas Act and § 2.75 of the Commission's General Policy and Interpretations (18 CFR 2.75) for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Natural Gas Pipeline of America from the E.R. Baden No. 1 Well, Beckham County, Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes under the optional pricing procedure to sell up to 6,000 Mcf of gas per month as 42.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment, pursuant to a contract dated January 15, 1973. Said contract provides for a 1.0-cent per Mcf price escalation each year, for tax reimbursement to the seller for all additional taxes which are being levied on the date of the contract, and for a term of 20 years.

Applicant states that the gas offered for certification pursuant to said contract has not been previously sold in the interstate market, nor have any applications been previously filed with the Commission for certification of the sale of such gas.

Applicant states that it spent $6,500,000 in drilling the world's deepest well in search for gas reserves and that the instant sale from said well is a salvage

operation to recover a portion of the large expenditures incurred therein. Applicant asserts that the instant sale at the proposed initial rates with escalations are reasonable in light of recently executed contracts for the sale of gas from the same area which call for prices of 50.0 cents per Mcf of gas, and that the cant also asserts that the price on the interstate market is in the neighborhood of 50.0 cents pe Mcf of gas, and that the instant sale will be less costly to consumers than synthetic natural gas from liquefied hydrocarbons and coal gasification and imported liquefied natural gas.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 23, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Project 199]

SOUTH CAROLINA PUBLIC SERVICE AUTHORITY

Application for Approval of Non-Project Use of Project Lands

JULY 12, 1973.

Public notice is hereby given that application for approval of non-project use of project lands has been filed under the Federal Power Act (16 U.S.C. 791a–825r) by South Carolina Public Service Authority (Correspondence to: Mr. J. B. Thomason, General Manager, South Carolina Public Service Authority, Santee-Cooper, Moncks Corner, South Carolina 29461) in Project No. 199 located on the Santee River and the Cooper River. The project affects navigable waters of the United States.

Applicant has requested Commission approval of the development of 74-acre Pintail Island, located in Berkeley County at the lower tip of Lake Marion, adjacent to and south of the project diversion canal, into a low-density residential and recreational area. The development would include 92 single-family homesites, five public areas, a 30-foot-wide shoreline buffer zone, roadways, an access bridge-causeway to the mainland, and utilities.

The homesites (20,000 square foot minimum) would be leased from Applicant, and residential construction would be of a permanent type not smaller than 1,000 square feet. Utilities would include a waste treatment plant on an adjacent island northeast of the main island with a capacity for treating 40,000 G.P.D. of domestic sewage. Effluent from the plant would be discharged through an 800-foot-long submerged line into the deep water of the project diversion canal.

Public recreational areas would include boat ramps, docks and/or picnic areas. Applicant states that no commercial development or individual docks and boat launching at homesites would be permitted.

Any person desiring to be heard or to make protest with reference to said application should on or before August 17, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI73-936]

SOUTHLAND ROYALTY CO.

Notice of Application

JULY 12, 1973.

Take notice that on June 28, 1973, Southland Royalty Company (Applicant), 1600 First National Bank Building, Forth Worth, Texas 76102, filed in Docket No. CI73-936 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Northern Natural Gas Company from the Mathers Ranch Field, Hemphill County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on June 22, 1972, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell approximately 66,000 Mcf of gas per month at 45.00 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 25, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the

PROVIDENCE GAS CO. AND BROCKTON TAUNTON GAS CO.

Notice of Conference

JULY 12, 1973.

Take notice that representatives of Providence Gas Company and Brockton Taunton Gas Company by telegram dated July 9, 1973, have requested a meeting with members of the FPC staff on Tuesday, July 17, 1973. The companies state that the purpose of the meeting is to seek staff guidance with regard to steps they should take to achieve appropriate regulatory approval, in a timely fashion, of a proposed purchase of Liquified Natural Gas (LNG) during the current summer period from the Philadelphia Gas Works. The meeting will be held at 10:00 a.m., e.d.t., in Room 7000, 825 North Capitol Street, N.E., Washington, D.C. 20426.

KENNETH F. PLUMB,
Secretary.

V 38 138 JUL 19 73 XUM

Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14735 Filed 7-18-73;8:45 am]

[Docket No. CI74-1]

SUN OIL CO.

Notice of Application

JULY 12, 1973.

Take notice that on July 2, 1973, Sun Oil Company (Applicant), P.O. Box 2880, Dallas, Texas 75221, filed in Docket No. CI74-1 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Panhandle Eastern Pipe Line Company from acreage in Texas County, Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on June 20, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell approximately 1,000 Mcf of gas per day at 50.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment, but states that it is willing to accept a certificate conditioned to a rate of 45.0 cents per Mcf. Initial deliveries are estimated at 30,000 Mcf per month.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 25, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14737 Filed 7-18-73;8:45 am]

[Docket No. CI74-4]

W. S. ETCHIESON AND J. B. WATKINS

Notice of Application

JULY 12, 1973.

Take notice that on July 2, 1973, W. S. Etchieson and J. B. Watkins (Applicants), P.O. Box 188, Borger, Texas 79007, filed in Docket No. CI74-4 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Panhandle Eastern Pipeline Company from the West Panhandle Field, Carson County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants state that they commenced the sale of gas within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and propose to continue said sale for one year after the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicants propose to sell up to 3,000 Mcf of gas per day at 50.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment with upward adjustment limited to 1,200 Btu per cubic foot. Sales volume is estimated at 60,000 Mcf of gas per month.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14732 Filed 7-18-73;8:45 am]

[Docket No. CI73-501]

LOUISIANA LAND & EXPLORATION CO.

Order Granting Intervention and Fixing Date for Hearing

Issued July 6, 1973.

Before Commissioners: John N. Nassikas, Chairman; Albert B. Brooke, Jr., and Rush Moody, Jr.

On January 22, 1973, Louisiana Land And Exploration Company (LALEXCO) filed in Docket No. CI73-501 an application pursuant to section 7(c) of the Natural Gas Act,[1] and pursuant to § 2.75 [2] of the Commission's general policy statements, the Optional Procedure for Certificating New Producer Sales of Natural Gas set forth in Order No. 455,[3] for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Corporation (Texas Eastern) from the Caillou Island and Lake Raccourci Fields, Lafourche and Terrebonne Parishes, Louisiana.

LALEXCO, pursuant to the optional procedure, filed its contract with Texas Eastern dated December 27, 1972, concurrently as its FPC Gas Rate Schedule and submitted a Summary of Gas Purchase Contract with the application. The basic contract provides for an initial price of 50.0 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment, and price escalations of 2.0 cents per Mcf every year starting January 1, 1974. The contract also provides for reimbursement to the seller (LALEXCO) of 100 percent of all new or increased taxes, and for 100 percent reimbursement of all compression and dehydration costs if LALEXCO elects to install compression and dehydration facilities. The contract term ends December 28, 1990, unless extended to make up volumes of deferred gas. The application also seeks pre-granted abandonment at the end of the contract term.

LALEXCO's application was noticed on February 1, 1973, and was published in the FEDERAL REGISTER on February 7, 1973 (38 FR 3550). Timely protests or petitions to intervene were due on or before February 26, 1973. Timely petitions to intervene were filed by the following parties:

Associated Gas Distributors
Algonquin Gas Transmission Company
Philadelphia Gas Works
American Public Gas Association
Columbia Gas Transmission Corporation
Texas Eastern Transmission Corporation
The Public Service Commission For The State of New York

Having reviewed the petitions to intervene, we find that all of the above-mentioned petitioners have sufficient interest in these proceedings to warrant intervention.

A formal hearing has been requested, and we find a hearing is desirable to determine, on the record, whether the present and future public convenience and necessity will be served by certificating this sale, and whether the proposed rate is just and reasonable taking into consideration all factors bearing on maintenance of an adequate and reliable supply of gas, delivered at the lowest reasonable cost.[4]

This hearing is not the proper forum for the relitigation of the propriety of the § 2.75 procedures; that matter is now before the Court of Appeals. See n. 3, supra. This hearing will be addressed solely to the issues of public convenience and necessity, and the justness and reasonableness, of the particular sales and rates herein proposed.

Those parties and intervenors desiring to submit cost and non-cost data should structure their evidence to reflect the tests under § 2.75 for determining the justness and reasonableness of the rate sought,[5] bearing in mind that with respect to proceedings under § 2.75 of our regulations, we have heretofore stated.

> We will, absent a showing a special circumstances, accept as conclusive the cost findings embodied in our area rate decisions, as such may be supplemented from time to time by appropriate Commission order. (Order 455, paragraph 63, page 21.)

We do not, therefore, open this hearing to the presentation of cost data, other than that incorporated from the Belco, et al. proceedings as hereinafter ordered, unless, in the judgment of the Presiding Administrative Law Judge, a showing of special circumstances is made.

We also direct the attention of the parties to our recent statement in Opinion No. 639, Area Rate for the Appalachian and Illinois Basin Areas, Docket No. R-371, opinion issued December 13, 1972, wherein we stated:

> We have been admonished not to rely on cost alone, but also to consider producer rate levels in the context of "non-cost" factors of supply and demand, capital formation, and probable industry response to any given level of rates. "Austral Oil, et al. v. F.P.C.," 428 F.2d 407 (CA5, 1970). Applications under § 2.75 will be so considered. . . .

No intervenor has questioned Texas Eastern's need for the approximately 9 billion cubic feet per year of natural gas that will be available as a result of this purchase. We note from the filings that Texas Eastern is currently curtailing deliveries to its customers pursuant to its curtailment plan approved in Docket Nos. RP71-130, et al., -- F.P.C. -- (issued December 1, 1972). Texas Eastern is currently making emergency purchases of natural gas under section 157.22 of the Commission's regulations under the Natural Gas Act (18 CFR 157.22) and Order No. 431 (18 CFR 2.70). A Texas Eastern subsidiary, Tecon Gasification Company, has filed an application (Docket No. CP72-100) to construct and operate a naphtha gasification plant and sell the output to Texas Eastern. Accordingly, the hearing provided for herein should not explore any issues related to Texas Eastern's need for additional supplies of natural gas. However, we shall require Texas Eastern to present evidence as to whether or not a comparable supply of natural gas is available to Texas Eastern at any rate lower than the rates proposed in this application.

The six month period during which a producer under § 2.75(o) (18 CFR 2.75(o)) may not collect a rate in excess of the prevailing area ceiling rate will expire on September 2, 1973. Consequently, we shall provide special procedures which will enable us to determine promptly whether the public convenience and necessity requires that these sales be certificated and whether the rate sought is just and reasonable. We will provide that the hearing hereinafter ordered shall commence on July 31, 1973, and conclude not later than August 3, 1973.

We have just rendered a decision in the first proceedings under § 2.75 in which a full evidentiary record was made.[6] We think it appropriate in these circumstances to incorporate by reference the record developed in that proceeding into these consolidated proceedings insofar as it may be relevant pursuant to the majority or minority views in Opinion No. 659.

The Commission finds:

(1) It is necessary and in the public interest that the above-docketed proceeding be set for hearing.

(2) It is desirable and in the public interest to allow the above-named petitioners to intervene in this proceeding in order that they may establish the facts and the law from which the nature and validity of their alleged rights and interests may be determined and show what further action may be appropriate under the circumstances in the administration of the Natural Gas Act.

(3) Good cause exists for the waiver of the intermediate decision procedure in view of the imminent expiration of the six-month period in this proceeding from the commencement of deliveries under section 2.75o.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 15, and 16 thereof, The Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Chapter I) a public hearing shall be held concerning the issues presented by the application herein commencing July 31, 1973, at 10:00 a.m. (e.d.s.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426.

(B) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR s3.5(d)), shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(C) Applicants and all intervenors supporting the applications shall file their direct testimony and evidence on or before July 13, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to these proceedings.

(D) The Commission Staff and all intervenors opposing the application shall file their direct testimony and evidence on or before July 20, 1973. All testimony

and evidence shall be served upon the Presiding Administrative Law Judge, and all other parties to these proceedings.

(E) All rebuttal testimony and evidence shall be served on or before July 25, 1973. All parties submitting rebuttal testimony and evidence shall serve such testimony and evidence upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to these proceedings.

(F) The record in the Belco case, Docket Nos. CI73-293, et al., is incorporated by reference into the subject consolidated proceedings insofar as it may be relevant pursuant to the majority or minority views in Opinion No. 659.

(G) The above-named petitioners are permitted to intervene in this proceeding subject to the rules and regulations of the Commission: *Provided, however,* that the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and provided, further, that the admission of such interests shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(H) The Administrative Law Judge's decision shall be rendered on or before August 24, 1973.

(I) All parties shall submit briefs on exceptions to the Commission on or before August 31, 1973.

By the Commission. Chairman Nassikas, concurring in part, filed a separate statement which is filed as part of the original document.

[Docket No. RI73-227]

AUSTRAL OIL COMPANY INC.

Notice of Hearing

JULY 12, 1973.

Notice is hereby given that by order of the Presiding Administrative Law Judge in the above-designated proceeding the hearing will commence at 10:00 a.m. (EDT) on August 21, 1973, in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. Cross-examination will begin at that time.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14872 Filed 7-18-73;8:45 am]

[Docket No. CP73-349]

CASCADE NATURAL GAS CORP.

Notice of Application

JULY 12, 1973.

Take notice that on June 29, 1973, Cascade Natural Gas Corporation (Applicant), 222 Fairview Avenue North, Seattle, Washington, 98109, filed in Docket No. CP73-349 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing it to transport natural gas in interstate commerce for others through its Colorado-Utah Division pipeline, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it is engaged in the purchase, gathering, delivery and sale for resale of natural gas in interstate commerce and that it currently has approximately 38,000 to 40,000 Mcf of existing peak-day unused mainline capacity on its Colorado-Utah Division mainline, which extends between a point southeast of Rifle, Colorado, to Bonanza, Utah, which amount is expected to increase in the future. It is stated that Applicant is unable to obtain new gas reserves at competitive prices for resale under its fixed price contract.

Applicant proposes to render a transportation service to any qualified gas distributor or gas pipeline company pursuant to its proposed Rate Schedule T-1, FPC Gas Tariff, Original Volume No. 1, and the correspondingly proposed T-1 Service Agreement. Applicant therein proposes to charge 11.2 cents per Mcf of gas for the first 15 days of service, 4.4 cents per Mcf for the balance of the service time rendered, and 8.8 cents per Mcf for authorized overrun deliveries of gas. The proposed rate schedule prescribes a minimum annual bill consisting of the sum of the charges for a volume of gas corresponding to 75 percent load factor use of the weighted average maximum daily quantity for the contract year. Applicant states that it plans to install and operate measurement facilities at the points of receipt and delivery upon authorization by the Commission in future proceedings, subject to reimbursement by the other contracting party. It is stated that the proposed transportation service will not jeopardize Applicant's ability to meet other existing gas delivery obligations.

Applicant states that the purpose of the proposed transportation service is to utilize more fully the existing Colorado-Utah Division pipeline on which Applicant states that it incurred a net loss of $281,000 in 1972. Applicant further states that it makes this application only to obtain authorization to offer initially the transportation service and that there are no proposed facilities to be constructed or specific service to be authorized.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14867 Filed 7-18-73;8:45 am]

[Docket No. RP72-142]

CITIES SERVICE GAS CO.

Proposed Changes in Rates and Charges

JULY 12, 1973.

Take notice that Cities Service Gas Company on July 2, 1973, tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1. Pursuant to the Purchased Gas Cost Rate Adjustment provision of its tariff, the Company proposes to increase its rates in the amount of 0.82¢ per Mcf effective August 23, 1973, to reflect increased purchased gas costs. The Company states that this increase will produce an increase in the Company's jurisdictional revenues of $2,910,246 based on annual sales volumes for the twelve months ended May 22, 1973.

Copies of the company's filing were served on all jurisdictional customers, interested state commissions and all parties to the proceedings in Docket No. RP71-106 and RP72-142.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 27, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14866 Filed 7-18-73;8:45 am]

[Docket No. RP72-142]

CITIES SERVICE GAS CO.

Proposed Changes in FPC Gas Tariff

JULY 12, 1973.

Take notice that Cities Service Gas Company (CSGC) on July 2, 1973, tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1. Pursuant to the Purchased Gas Cost Rate Adjustment provision contained in Article 21 of its FPC Gas Tariff, the Company proposes to increase its rates effective August 23, 1973, to reflect increased purchased gas costs.

According to CSGC, the Fifth Revised Sheet PGA-1 included in Appendix A of the Company's filing reflects a rate increase of 0.82¢ per Mcf. This 0.82¢ per Mcf increase in rates will produce an increase in the Company's jurisdictional revenues of $2,910,246 based on annual sales volumes for the twelve months ended May 22, 1973.

CSGC submits that copies of the company's filing were served on all jurisdictional customers, interested state commissions and all parties to the proceedings in Docket No. RP71-106 and RP72-142.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 27, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14864 Filed 7-18-73;8:45 am]

[Docket No. E-8170]

GEORGIA POWER CO.

Revised Tariff Sheets

JULY 12, 1973.

Georgia Power Company (Georgia) on April 30, 1973, tendered for filing proposed changes in its FPC Electric Tariff, Original Volume No. 1. The filing consists of First Revised Sheets 1 and 26 through 33, Second Revised Sheets 23 and 24, and Third Revised Sheet 35. The proposed rate changes would increase Georgia's revenues from jurisdictional sales and services by approximately $17.5 million annually, based on 1972 usage and all wholesale delivery points under Rate Schedule WR-6.

The proposed effective date of the change was June 30, 1973. However, review of Georgia's filing found it to be deficient and the Commission Secretary by letter dated May 31, 1973, informed Georgia of the deficiency and that a filing date would not be assigned its submittal until the deficiency was cured. On June 12, 1973, Georgia submitted additional data which fulfills the filing requirements of the Commission's regulations. Therefore, we will assign an official filing date of June 12, 1973.

Georgia states that the proposed changes are designed to replace Rate Schedule WR-6 with a new Rate Schedule WR-7. Further, Georgia proposes several modifications to the terms and conditions of the present tariff which, Georgia asserts, are intended to update the tariff and incorporate proposals made by the wholesale customers and agreed to by Georgia in Docket No. E-7548. Georgia's Rate Schedule WR-6 is presently before the Commission in Docket No. E-7548.

In support of its filing, Georgia states that the principal reasons for the increased revenue requirement from wholesale service are the large construction program necessary to meet increasing demands and the increased unit cost of plant investment entailed in completing that program. Georgia asserts that increasing costs have not only caused a large increase in the revenue requirements from wholesale service, but also the resultant pressure of its earnings and on coverage for its securities has seriously threatened its financial integrity. Further, Georgia avers that its proposed rate of return, which produces an 8.73 percent return on municipal sales and 9.04 percent return on cooperative sales, is reasonable. Moreover Georgia states that the WR-6 rate was designed to produce a 7.71 percent rate of return while the rate actually produced a rate of return of 5.86 percent and 6.05 percent from the municipal and cooperative customers respectively based on 1971 operations.

This filing was noticed on May 8, 1973, with the period for protests or petitions to intervene ending on May 24, 1973. Petitions to intervene were timely filed by the Water, Light and Sinking Fund Commission, of the City of Dalton, Georgia (Dalton), The Georgia Electric Membership Corporation (GEMC) jointly with Mitchell Electric Membership Corporation (Mitchell), and the Power Section of the Georgia Municipal Association, Inc. jointly with forty-eight municipal cooperatives (Municipals).[1]

GEMC-Mitchell requests that the Commission reject Georgia's filing as defective on its face. These defects, GEMC-Mitchell asserts, are lack of an appropriate test year of 12 months' experienced cost data and a cost allocation derived from a competely different 12 months of experience. Further, GEMC-Mitchell asserts that Georgia antitrust conduct is a substantial issue in the pending Docket E-7548 and the proposed WR-7 rate exceed Georgia's industrial rate by about 5 percent to 20 percent for 5,000-20,000 KW levels which continues and augments such conduct to the extent that the Commission should not allow Georgia's filing until the antitrust issue has been finally resolved. In the alternative, GEMC-Mitchell and the other intervenors request a five month suspension.

Subsequent to GEMC-Mitchell filing of its petition to intervene Georgia has provided non-coincident and coincident demand data, for each month of the test period and for each delivery point. On June 28 Georgia also filed actual data for the last three months of its test period.

On July 3, 1973, the Municipals filed comments to Georgia's supplemental filings and made a further request for suspension of the proposed rates. The Municipals contend that since Georgia did not file data for 12 months of actual experience until June 28, 1973, the filing was not complete until then. There is nothing in the Commission's regulations under the Federal Power Act that requires the filing of 12 months of actual data. Since Georgia on June 12, 1973, cured the deficiency noted by Commission letter dated May 31, 1973, we will assign an official filing date of June 12, 1973.

By order issued May 31, 1973, in "Indiana and Michigan Electric Company," Docket No. E-7740 we set minimum standards for those who would raise anticompetitive issues. These standards are that the petition to intervene must clearly specify (1) the facts relied upon, (2) the anticompetitive practices challenged, and (3) the requested relief which is within this Commission's authority to direct. (mimeo p. 3). Our review of GEMC-Mitchell's petition to intervene indicates that it fails to specify the relief it seeks from this Commission. Accordingly, we shall limit GEMC-Mitchell's participation in this proceeding to matters other than the alleged anticompetitive activities. This action is without prejudice to GEMC-Mitchell's right to file an appropriate amended petition which sets forth the relief for the alleged anticompetitive conduct that is within this Commission's authority to grant.

Review of the rate filing and the pleadings indicate that issues are raised which require development in an evidentiary hearing. The proposed increased rates and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful. Accordingly we shall provide for hearing herein and shall suspend the proposed changes for the full statutory period.

[1] The Cities of Acworth, Adel, Albany, Barnesville, Blakely, Braselton, Brinson, Buford, Cairo, Calhoun, Camilla, Cartersville, College Park, Commerce, Covington, Doerun, Dougleas, East Point, Elberton, Ellaville, Fairburn, Fitzgerald, Forsyth, Fort Valley, Grantville, Griffin, Hampton, Hogansville, Jackson, LaFayette, LaGrange, Lawrenceville, Mansfield, Marietta, Monroe, Monticello, Moultrie, Newnan, Norcross, Palmetto, Sandersville, Sylvania, Sylvester, Thomaston, Thomasville, Washington, West Point, and Whigham, Georgia.

V38-138 JUL 19 73 XUM

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Georgia's FPC Electric Tariff, Original Volume No. 1, as proposed to be amended in this docket, and that the tendered revised tariff sheets be suspended as hereinafter provided.

(2) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(3) Participation in this proceeding of the above-named petitioners to intervene may be in the public interest.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act, particularly section 205(e) thereof, the Commission's rules of practice and procedure, and the regulations Under the Federal Power Act (18 C.F.R. Chapter I), a public hearing shall be held, commencing with a prehearing conference on November 27, 1973, at 10:00 a.m., edt, in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, concerning the lawfulness of the rates, charges, classifications and services contained in Georgia's Electric Tariff as proposed to be revised herein.

(B) Pending hearing and a final decision in this proceeding, Georgia's proposed revised tariff sheets, originally tendered on April 30, 1973, and with an official filing date of June 12, 1973, are hereby accepted for filing, suspended and the use thereof deferred until December 12, 1973, or until such time as they are made effective in the manner provided in the Federal Power Act.

(C) At the prehearing conference on November 27, 1973, Georgia's prepared testimony together with its entire rate filing shall be admitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to this conference prepared to effectuate the provisions of the Commission's rules of practice.

(D) On or before October 23, 1973, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any or all intervenors shall be served on or before November 6, 1973. Any rebuttal evidence by Georgia shall be served on or before November 20, 1973. Cross-examination of the evidence filed will commence on December 4, 1973, at 10.00 A.M.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 C.F.R. 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control the proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(F) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in the respective petitions to intervene, except that GEMC-Mitchell's participation is limited to matters other than alleged anti-competitive activities, and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they, or any of them, might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(G) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic Stabilization Act of 1970, (Public Law 91-379), 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(H) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Dockets Nos. CS71-878, CI73-431, CI73-558, CI61-1379, C173-578, CI73-558]

HURLEY PETROLEUM CORP.

Order To Show Cause

JULY 12, 1973.

By Commission Order issued October 21, 1971, in Docket No. CS71-878, Hurley Petroleum Corporation (Hurley) was granted a small producer certificate under which it sells natural gas to Car-Tex Producing Company (Car-Tex) from the Carthage Field, Panola County, Texas, at a contract price of 5.6580 cents per Mcf.[1] Car-Tex gathered, transported, compressed and resold Hurley's gas to Arkansas Louisiana Gas Company (ArkLa) at a contract price of 12.6323 cents per Mcf under certificate authorization issued in Docket No. CI61-1379. The volume of gas involved totals approximately 1,000 Mcf per day.

On December 13, 1972, Hurley filed in Docket No. CI73-431 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon the sale of gas to Car-Tex from the Carthage Field and on February 28, 1973, Car-Tex filed in Docket No. CI73-578 an application pursuant to section 7(b) of said Act for permission and approval to abandon its sale of the Hurley gas to Arkla. On February 26, 1973, Hurley filed in Docket No. CI73-558 an application, within the contemplation of Section 2.70 of the Commission's General Policy and Interpretation, for a one-year limited term certificate of public convenience and necessity authorizing the sale of gas, formerly sold to Car-Tex, to Texas Eastern Transmission Corporation (Texas Eastern), at a rate of 45.0 cents per Mcf.

On December 9, 1972, prior to the filing of the aforesaid abandonment applications, Car-Tex shut down its compression facilities used to deliver the gas into Arkla's line and Hurley terminated its gas deliveries from the Carthage Field to Car-Tex. Following the filing of the abandonment applications, but while they were still pending before the Commission, Car-Tex dismantled its compression facilities and Hurley, in order to avoid flaring gas, instituted a 60-day emergency sale of the gas involved to Texas Eastern pursuant to Section 157.29 of the Commission's Regulations. The 60-day period expired April 20, 1973.

In view of the foregoing, we are hereinafter directing Hurley and Car-Tex to show cause why they or either of them should not be found to be in violation of section 7(b) of the Natural Gas Act and the Commission's Regulations thereunder for not having first secured the requisite authorization before abandoning jurisdictional sales of natural gas and related compression facilities as hereinbefore described.

By letter filed January 18, 1973, Hurley indicated that the compressors of Car-Tex are old, expensive to operate, and frequently closed down for several days during which time the subject gas was flared. Although this may be a factor which enters into a public interest determination, such allegation does not excuse a natural gas company from complying with Section 7(b) of the Natural Gas Act. In support of its request to abandon service to Arkla and the related compression facilities, Car-Tex states that the sales of gas have declined below economic limits for a three-stage compression operation and that it has accordingly cancelled its gas purchase contract with Hurley by letter of January 9, 1973. The Commission, however, has no documentary evidence before it establishing the adequacy or inadequacy of the compression facilities in relation to the sales proposed to be abandoned. Furthermore, economic hardship alone does not justify abandonment of previously certificated facilities and service without Commission consent and, despite such hardship, the reactivation of the facilities and service illegally abandoned may be ordered by the Commission. (*United Gas Pipeline Company* v. *FPC*, 385 U.S. 83 (1966).

In an addendum to its application for permission and approval to abandon the sale of gas to Car-Tex from the Carthage Field on grounds that the purchaser's compression facilities are inadequate to handle the purchase and resale of the gas, Hurley states that, in order to avoid flaring the gas longer than absolutely necessary, it contacted Texas Eastern who agreed to take the gas on an emergency basis until our [Hurley's] abandonment application is approved. Hurley states further that Texas Eastern also agreed to enter into a more permanent type contract with us once we [Hurley] have received approval of the abandonment of the [Car-Tex] sale * * *. Subsequently, Texas Eastern filed a petition to intervene in support of Hurley's limited-term application of February 26, 1973, for authorization to sell the gas to Texas Eastern pursuant to a one-year gas purchase contract between the parties, dated February 19, 1973. The record strongly suggests that Texas Eastern's actions in taking gas from Hurley on a 60-day emergency basis and in contracting with the latter for additional gas upon termination of the emergency period have been done with knowledge that such gas was and is still dedicated to Car-Tex. In view of these circumstances, we shall direct Texas Eastern, which has filed a petition to intervene in Docket No. CI73-558 and which we shall hereafter join as a party to these proceedings, to show cause why it should not be found in violation of the Natural Gas Act for operating facilities to take gas dedicated to another party and why it should not be required to make restitution of such gas purchased from Hurley.

By letter of March 27, 1973, filed with the Secretary of the Commission, Arkla indicated acquiesence in the unauthorized discontinuance of the delivery of natural gas as heretofore authorized by the Commission. Since Arkla may be a position to contribute significantly to a proper determination of the matter herein being set for formal hearing, we shall join Arkla as a party to these proceedings. It is noted that Arkla is purchasing natural gas at above ceiling rates within the contemplation of § 2.70.

In the public hearing that we shall hereinafter order for determination of the issues presented herein, we shall also consider the related question of the price at which the subject gas should be sold and purchased by the parties involved. If the aforesaid requests of Hurley and Car-Tex for abandonment of service are not granted, we should determine what would be a just and reasonable rate under current conditions at which Car-Tex should purchase the subject gas from Hurley and resell it to Arkla. On the other hand, if the proposed abandonments are approved, we should determine whether the public convenience and necessity support a price of 45.0 cents per Mcf at which Hurley proposes in its aforementioned application for a limited term certificate to sell the subject gas to Texas Eastern.

After due notice by publication in the FEDERAL REGISTER of the notice of applications, petitions for leave to intervene in the event of a formal hearing were filed by Texas Eastern and Algonquin Gas Transmission Company (Algonquin) in support of the application filed by Hurley in Docket No. CI73-558. No notice of intervention, protest to the granting of the applications, or further petitions to intervene have been filed. We shall hereinafter provide opportunity for the filing of petitions to intervene, notices of intervention or protests in the instant proceedings.

The Commission finds:

(1) It may be that Hurley, Car-Tex, and Texas Eastern are in violation of the Natural Gas Act and the Commission's Regulations thereunder.

(2) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that a public hearing be held on the matters involved and issues presented in these proceedings as hereinbefore described.

(3) In order to maintain the integrity of the orders in Docket Nos. CS71-878 and CI61-1379 in which it was found that the public convenience and necessity required certification of the subject sale, Respondents, Hurley and Car-Tex should be ordered, pendante lite, to resume and continue their sales of natural gas.

(4) Participation by the petitioners to intervene in Docket No. CI73-558 may be in the public interest.

The Commission orders:

(A) Respondents Hurley and Car-Tex shall show cause, if any there be, at the hearing directed in paragraph (D) below, why they or each of them should not be held in violation of Section 7(b) of the Natural Gas Act and § 157.18 of the Commission's regulations thereunder for not having obtained authorization before abandoning jurisdictional sales and related facilities as hereinbefore described.

(B) Respondent Texas Eastern shall show cause, if any there be, at the hearing directed in paragraph (D) below, why it should not be held in violation of Section 7 (c) and (e) of the Natural Gas Act by operating facilities to take natural gas dedicated to Arkla and Respondent Car-Tex and why it should not be required to make restitution of the volumes of gas purchased from Hurley during the 60-day emergency period as hereinbefore described.

(C) It is directed that Arkla be joined as a party to these proceedings and be prepared to show at the formal hearing ordered herein why it has acquiesced in the abandonment by Car-Tex while making purchases of gas from others at above ceiling rates.

(D) Pending the hearing set by paragraph (D) below, and a decision in these proceedings, Respondents Hurley and Car-Tex shall resume the sale and delivery of gas as made under certificates issued in Docket Nos. CS71-878 and CI-1379.

(E) Pursuant to the authority of the Natural Gas Act, particularly Sections 7, 14, 15 and 16 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act [18 CFR, Chapter I], a public hearing concerning the matters involved and the issues presented in these proceedings as hereinbefore set forth will be held in a hearing room of the Federal Power Commission, Washington, D.C., commencing at 10:00 a.m., (EDST) on August 29, 1973. All Respondents and interveners shall file with the Secretary of the Commission and serve upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties, all testimony and exhibits which they propose to offer at the hearing provided for above on or before August 10, 1973.

(F) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for the purpose [See Delegation of Authority, 18 CFR 3.5(d)], shall preside at the hearing in this proceeding and shall prescribe relevant procedural matters not herein provided.

(G) Petitions to intervene, notices of intervention, or protests may be filed with the Commission in accordance with §§ 1.8 and 1.10 of the rules of practice and procedure on or before July 25, 1973.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-14869 Filed 7-18-73;8:45 am]

[Docket No. E-8125]

KANSAS POWER AND LIGHT CO.

Extension of Time and Postponement of Prehearing Conference and Hearing

JUNE 26, 1973.

On June 21, 1973, the Kansas Power and Light Company filed a motion for a continuance of the prehearing conference scheduled for June 29, 1973, by order issued May 31, 1973, in the above designated matter. The motion states that the customers concur in the motion and staff counsel has no objection.

Upon consideration, notice is hereby given that the prehearing conference in the above designated matter is postponed to August 7, 1973. The other procedural dates are modified accordingly:

Service of Testimony and Exhibits by Staff.	August 21, 1973
Service of Testimony and Exhibits by Interveners.	September 4, 1973
Service of Rebuttal evidence by Kansas Power and Light Company.	September 11, 1973
Cross-examination ---	September 25, 1973 (10:00 a.m., EDT)

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-14852 Filed 7-18-73;8:45 am]

[Docket No. E-7565]

KENTUCKY POWER CO.

Filing of Proposed Rate Schedule Supplement

JUNE 26, 1973.

Take notice that Kentucky Power Company (Kentucky) on June 8, 1973, tendered for filing Amended Supplement No. 2 to Kentucky's Rate Schedule FPC No. 12 in purported compliance with Opinion No. 652 issued March 2, 1973, and Opinion No. 652-A issued April 27,

[1] Hurley previously sold this gas to Car-Tex under a contract, dated January 12, 1961, formerly on file with the Commission as Hurley's FPC Gas Rate Schedule No. 2, for which the related certificate authorization was issued in Docket No. CI61-1381. Such certificate was terminated by the small producer order of October 21, 1971, which also cancelled the above FPC Gas Rate Schedule No. 2.

V38-138 JUL 19 73 XUM

1973, in this docket. Kentucky states that Amended Supplement No. 2 contains a provision providing for the termination of service under the Rate Schedule on file with the Commission between Kentucky and Vanceburg Electric Light, Heat, and Power System, Vanceburg, Kentucky and that the filing became effective upon its being filed with the Commission. Kentucky further states that the filing was served upon all parties listed on the Commission's official service list in this docket.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with § 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 10, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14853 Filed 7-18-73;8:45 am]

[Docket No. CP74-3]

LOWELL GAS CO.

Notice of Application

JULY 11, 1973.

Take notice that on July 3, 1973, Lowell Gas Company (Applicant), 95 East Merrimack Street, Lowell, Massachusetts 01863, filed in Docket No. CP74-3 an application pursuant to section 3 of the Natural Gas Act for authorization to import into the United States from Canada liquefied natural gas (LNG) purchased from Gaz Metropolitan, Inc., Montreal, P.Q., Canada, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that before October 25, 1973, it intends to purchase from Gaz Metropolitan, Inc., 1,042,750 U.S. gallons of LNG at 13,788 cents per U.S. gallon, equivalent to approximately 91 billion Btu at a price of $1.58 per million Btu. Applicant states that it has first option to purchase additional quantities of LNG up to 2,291,720 U.S. gallons at a negotiated price not lower than that for the firm contract LNG, equivalent to approximately 200 billion Btu, from Gaz Metropolitan, Inc., should Gaz Metropolitan, Inc., have quantities of LNG in excess of 7,001,222 U.S. gallons for sale and delivery before December 31, 1973. It is also stated that Applicant has first option to purchase between January 1, 1974, and April 30, 1974, up to 3,437,580 U.S. gallons of LNG at a negotiated price not lower than that for the firm contract LNG, equivalent to approximately 300 billion Btu from Gaz Metropolitan, Inc., should such quantities be available for sale and delivery. Applicant proposes to transport the LNG from Montreal to its LNG storage facilities at Tewksbury, Massachusetts, by its motor carriers in cyrogenic trailers.

Applicant states that it is required to import LNG as proposed in the instant application as a result of the expected curtailments of gas deliveries by its suppliers during the winter period of 1973-1974 and its inability to secure additional supplies of natural gas needed to serve its customers.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7777]

PACIFIC GAS AND ELECRIC CO.

Further Extension of Time and Postponement of Prehearing Conference and Hearing

JULY 11, 1973.

On June 27, 1973, the Cities of Alameda, Healdsburg, Lodi, Lompoc, Santa Clara and Ukiah, California filed a motion for a further change in the procedural dates fixed by the notice issued June 21, 1973 in the above-designated matter. The motion states that no party has any objection to the request.

Upon consideration, notice is hereby given that the procedural dates are further modified as follows:

Staff Service Date	July 13, 1973
Prehearing Conference	August 21, 1973 (10:00 a.m., EDT)
Intervener Service Date.	August 28, 1973
Company Rebuttal Date.	September 11, 1973
Hearing	September 18, 1973 (10:00 a.m., EDT)

KENNETH F. PLUMB,
Secretary.

[Docket No. CI73-706]

PHILLIPS PETROLEUM CO.

Further Extension of Time and Postponement of Hearing

JULY 12, 1973.

On July 11, 1973, El Paso Natural Gas Company filed a motion for a further change in the hearing date fixed by the notice issued June 14, 1973, in the above-designated matter. The motion states neither Staff Counsel nor Philips Petroleum Company objects to the motion.

Upon consideration, notice is hereby given that the hearing in the above matter is postponed to July 31, 1973, at 10:00 a.m. (edt) in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14858 Filed 7-18-73;8:45 am]

[Docket No. CP73-344]

TEXAS EASTERN TRANSMISSION CORP.

Notice of Application

JULY 12, 1973.

Take notice that on June 28, 1973, Texas Eastern Transmission Corporation (Applicant), P.O. Box 2521, Houston, Texas 77001, filed in Docket No. CP73-344 an application pursuant to section 7 of the Natural Gas Act and § 157.7(g) of the regulations thereunder (18 CFR 157.7(g)) for a certificate of public convenience and necessity authorizing the construction and for permission and approval for the abandonment, for a 12-month period commencing July 1, 1973, of field gas compression and related metering and appurtenant facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in the construction and abandonment of facilities which will not result in changing Applicant's system salable capacity or service from that authorized prior to filing of the instant application.

Applicant states that the total cost of the proposed construction and abandonment will not exceed $3,000,000 and the cost for any single project will not exceed $500,000. These costs will be financed from available funds and may at some later date be financed through the issuance of long-term debt or additional equity.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 6, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14865 Filed 7-18-73;8:45 am]

[Docket No. RP72-99]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Filing of Proposed Curtailment Plan

JULY 11, 1973.

Take notice that on June 29, 1973, Transcontinental Gas Pipe Line Corporation (Transco) submitted for filing revised tariff sheets [1] to Transco's FPC Gas Tariff, First Revised Volume No. 1 constituting its permanent curtailment plan filed pursuant to the Commission's order of May 23, 1973. Transco represents that it will not make the subject tariff sheets effective prior to November 16, 1973.

In summary Transco's proposed permanent curtailment plan embodies *in haec verba* the end-use priorities established by the Commission in Order No. 467-B as modified in Opinion No. 647-A issued May 30, 1973 in *United Gas Pipeline Company* Docket Nos. RP71-29 and RP71-120. The proposed tariff sheets utilize the definitions of service propose by the Commission in Docket No. R-474.

Transco's proposed curtailment plan, however, deviates from Order No. 467-B in the following respects:

(1) Transco requests that its direct interruptible customers be completely curtailed prior to any other curtailment on its system.

(2) Customers which obtain more than the system average gas supply will pay $.25 per Mcf for such over supply of gas and customers which receive less than the system average gas supply will obtain a credit of $.25 per Mcf for the under supply.

[1] First Revised Sheet No. 136
Second Revised Sheet No. 138
Second Revised Sheet No. 139
Second Revised Sheet No. 140
Second Revised Sheet No. 141
Second Revised Sheet No. 142
First Revised Sheet No. 143
First Revised Sheet No. 144

Transco's permanent curtailment plan is on file with the Commission and is available for public inspection.

Transco states that copies of its filing are available for public inspection during regular business hours in its office in Houston, Texas.

Any person desiring to be heard or to make any protest with reference to this filing should on or before July 20, 1973, file with the Federal Power Commission, 825 North Capitol Street, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to participate as parties in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

TRANSWESTERN PIPELINE CO.

Extension of Time

JULY 11, 1973.

On July 2, 1973, Transwestern Pipeline Company filed a motion for an extension of time for submission and service of end use data as required by the order issued May 31, 1973. The motion states that all parties agreed at the prehearing conference that an extension should be sought.

Upon consideration, notice is hereby given that an extension is granted to and including September 24, 1973, within which Transwestern shall submit end use data and serve it on all interveners.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8289]

UNION ELECTRIC CO.

Revised Service Schedule

JULY 11, 1973.

Take notice that on June 21, 1973, Union Electric Company (Applicant) filed with the Federal Power Commission, pursuant to section 35 of the regulations under the Federal Power Act, an application for revision of Service Schedule B, dated May 25, 1973, to the Interchange Service Contract between Applicant and the City of Columbia, Missouri (City), dated July 18, 1967, and designated in Applicant's Rate Schedule FPC No. 73. The application states that a portion of City's generating capacity is restricted by pollution regulations, and with the impending summer peaks the availability of emergency energy from Applicant is considered desirable in order to limit the use of such facilities.

The parties recognized that the existing rate under their Interchange Service Contract is inadequate, and through negotiations the proposed revision of Service Schedule B was agreed upon in order to compensate the supplying party for the cost of using peaking capacity and to make the rate comparable to emergency energy rates under other agreements between power suppliers in their area. Emergency Energy shall, at the option of the seller, be returned in kind, or paid for at the rate of 1.75 cents per kWh or, if out-of-pocket costs plus 10 percent exceed such rate, by the payment of such costs plus 10 percent.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 31, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). Persons wishing to become parties to a proceeding or to participate as a party in any hearing related thereto must file petitions to intervene in accordance with the Commission's rules.

All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. The application referred to above, is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project No. 2058]

WASHINGTON WATER POWER CO.

Application for Change in Land Rights

JULY 12, 1973.

Public notice is hereby given that application was filed April 13, 1973, under the Federal Power Act (16 U.S.C. 791a–825r) by The Washington Water Power Company (Correspondence to: Mr. J. P. Buckley, Vice President and Secretary, The Washington Water Power Company, East 1411 Mission Avenue, Spokane, Washington 99202) for a change in land rights for constructed Project No. 2058, known as the Cabinet George Project, located on the Clark Fork River in Banner County, Idaho and Sanders County, Montana. Project transmission lines are located in Banner and Kootenai Counties, Idaho and Spokane County, Washington.

The Applicant proposes to sell approximately one acre of project land located within the right-of-way of the project Cabinet-Spokane 230 kv transmission line near the Beacon Substation in Spokane County, Washington. The land would be conveyed to the owners of an adjoining tract of land who cross the project land for access. The land would be conveyed with a restriction against the building of any structures and with a reservation of an easement for the transmission line.

Any person desiring to be heard or to make protest with reference to said application should on or before August 17, 1973, file with the Federal Power Commission, Washington, D. C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8157]

WISCONSIN PUBLIC SERVICE CORP.

Proposed Changes in Rates and Charges

JUNE 26, 1973.

On April 27, 1973, Wisconsin Public Service Corporation (WPS) tendered for filing a revision of its rate schedule for "Primary Resale Service" to its municipal customers, designated as 5th Revised Sheet No. 1, Schedule W–1. The company states that various blocks of the demand charge and the energy charge have each been increased by approximately 9.8 percent to produce added revenues of $300,427.06 based on test year 1972. WPS gives as its reason for the increase the necessity of meeting rising financial and operating costs. The Company's filing indicates that the proposed increase would yield an 8.7 percent overall rate of return and a 12.5 percent return on equity, based on a total capitalization of $344,117,354. The company states that its filing includes Statements A through P and testimonies and exhibits to serve as its case-in-chief. WPS proposes an effective date of June 27, 1973, for the rates contained in the filing.

The filing was noticed on May 9, 1973, with protests and petitions to intervene due on or before May 24, 1973. On May 21, 1973, six of WPS's customers filed a request for an extension of the time within which to file petitions. This request was granted on May 23, 1973, by the Acting Secretary and an extension was granted to and including June 5, 1973. On May 29, 1973, a petition to intervene was received from the Cities of Algoma, Eagle River, New Holstein, and Sturgeon Bay and the Village of Stratford, Wisconsin, and the City of Stephenson, Michigan. This petition states that the petitioners have not had sufficient time to investigate the WPS filing but they indicate several areas of disagreement based upon a preliminary review of the application. In view of our actions herein, it will not be necessary to discuss these allegations in detail. No other protests or petitions have been received.

Our review of the filing indicates that the proposed rate schedule changes have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

It appears that under WPS's proposed fuel adjustment clause impuits WPS' own fuel expense variations to its purchased power and net interchange receipts. Such procedure is inconsistent with Commission Opinion No. 633, "New England Power Company," Docket No. E–7541, issued October 30, 1972. Accordingly, this feature of the proposed fuel clause should be eliminated.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in WPS's Rate Schedule as proposed to be amended in this docket, and that the tendered Rate Schedule be suspended as hereinafter provided.

(2) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(3) In the event this proceeding is not concluded prior to the termination of the suspension period herein ordered, the placing of the tariff changes applied for in this proceeding into effect, subject to refund with interest while pending Commission determination as to their justness and reasonableness, is consistent with the purpose of the Economic Stabilization Act of 1970, as amended.

(4) Participation of the above-named petitioners for intervention in this proceeding may be in the public interest.

(5) The proposed increased rate and charges have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act, particularly section 205(e) thereof, the Commission's rules of practice and procedure, and the regulations Under the Federal Power Act (18 CFR Chapter I), a public hearing shall be held, commencing with a prehearing conference on August 17, 1973, at 10:00 a.m., edt, in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, concerning the lawfulness of the rates, charges, classifications and services contained in WPS's revised Rate Schedule as proposed to be revised herein.

(B) At the prehearing conference on August 17, 1973, WPS's prepared testimony and exhibits together with its entire rate filing shall be admitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to this conference prepared to effectuate the provisions of § 1.18 of the Commission's rules of practice.

(C) On or before October 29, 1973, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of all intervenors shall be served on or before November 20, 1973. Any rebuttal evidence by WPS shall be served on or before December 10, 1973. The pubic hearing herein ordered shall convene on January 8, 1973, at 10:00 a.m., edt.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control the proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(E) Pending hearing and final decision in this proceeding, WPS's revised rate schedule tendered on April 27, 1973, is suspended and the use thereof deferred until August 27, 1973 one day after the proposed effective date.

(F) Nothing contained in this order shall relieve the applicant of any responsibility imposed by the Economic stabilization Act of 1970, (Public Law 91–379, 84 Stat. 799, as amended by Public Law 92–15, 85 Stat. 38), or by any Executive Order or rules and regulations promulgated pursuant to such Act.

(G) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in the respective petitions to intervene, and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they, or any of them, might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(H) The Secretary of the Commission shall cause prompt proclamation of this order in the Federal Register.

(I) Within 30 days from the date of this order, WPS shall file an amendment to its fuel price adjustment clause in compliance with the requirements of Commission Opinion No. 633, as herein described.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

DEPARTMENT OF THE TREASURY

Office of the Secretary

IRON AND SPONGE IRON POWDERS (EXCLUDING ALLOY POWDERS) FROM CANADA

Antidumping; Withholding of Appraisement Notice

JULY 17, 1973.

Information was received on December 7, 1972, that iron powder (excluding alloy and sponge iron powders) from Canada was being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the Federal Register of January 19, 1973, on page 1945. The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Information received after publication of the "Antidumping Proceeding Notice" indicated that sponge iron powers from Canada were also being sold at less tha fair value within the meaning of the Act. Accordingly, an amendment to the "Antidumping Proceeding Notice" was published in the Federal Register of April 10, 1973, on page 9094, to include sponge iron powders from Canada within the scope of the investigation.

Pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), notice is hereby given that there are reasonable grounds to believe or suspect that the purchase price (section 203 of the Act; 19 U.S.C. 162) of iron and sponge iron powders (excluding alloy powders) from Canada is less, or likely to be less, than the foreign market value (section 205 of the Act; 19 U.S.C. 164).

Statement of Reasons. The information before the Bureau of Customs tends to indicate that the probable basis of comparison for fair value purposes will be between purchase price and the adjusted home market price of such or similar merchandise.

Purchase price will probably be based on either an f.o.b. customer, duty and/or brokerage paid price or an f.o.b. plant, duty and/or brokerage paid price, with probable deductions for brokerage fees, U.S. duty, freight handling charges and a quantity discount, as appropriate.

Home market price will probably be based on either an f.o.b. customer or f.o.b. plant price with probable deductions for freight and quantity discounts, as applicable. An adjustment will probably be made for a packing differential when appropriate.

Using the above criteria, there are reasonable grounds to believe or suspect that purchase price will be lower than the adjusted home market price.

Customs officers are being directed to withhold appraisement of iron and sponge iron powders (excluding alloy powders) from Canada in accordance with § 153.48, Customs Regulations (19 CFR 153.48).

In accordance with §§ 153.32(b) and 153.37, Customs Regulations (19 CFR 153.32(b), 153.37), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street, N.W., Washington, D.C. 20229, in time to be received by his office not later than July 30, 1973. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office not later than August 20, 1973.

This notice, which is published pursuant to § 153.34(b), Customs Regulations (19 CFR 153.34(b)), shall become effective July 19, 1973. It shall cease to be effective January 19, 1974, unless previously revoked.

[SEAL] EDWARD L. MORGAN,
Assistant Secreary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

ALASKA

Proposed Eligibility of Native Villages

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Director, Juneau Area Office, Bureau of Indian Affairs by Subpart 2651.2(a)(2) of Subchapter B of Chapter II of Title 43 of the Code of Federal Regulations published on Pages 14222 and 14223 of the May 30, 1973, issue of FEDERAL REGISTER.

The Alaska Native Claims Settlement Act of December 18, 1971 (Public Law 92–203, 92nd Congress, 85 Stat. 688–716), provides for the settlement of certain land claims of Alaska Natives and for other purposes.

Accordingly, pursuant to the authority contained in said Act of December 18, 1971, and Subpart 2651.2 of said regulations, notice is hereby given that the following is a proposed decision determining the eligibility of certain Native villages in Alaska listed in sections 11(b)(1) and 16(a) of said Act.

This is to certify that investigations have been made and available records and other evidence having a bearing on the character of the following Native villages and their eligibility have been

V 38 I 138 JUL 19 73 XUM

examined and they appear to meet the eligibility requirement of the Act and Subpart 2651.2(b) of the regulations:

This proposed decision will be published in one or more newspapers of general circulation in Alsaka and a copy will be mailed to each affected village, all villages located in the Native region in which the affected village is located, all Native regional corporations within the State of Alaska, and the State of Alaska.

This proposed decision is subject to protest by any interested party by August 20, 1973. If no valid protest is received within the thirty-day period, this proposed decision shall become final and shall be published in the FEDERAL REGISTER. If the final decision is in favor of a listed village, the Director, Juneau Area Office, Bureau of Indian Affairs, will issue a certificate as to the eligibility of the village in question for land benefits under the Act, and certify the record and the decision to the Secretary. Copies of the final decisions and certificates of village eligibility will be mailed to the affected village, all villages located in the region in which the affected village is located, all regional corporations within the State of Alaska, and the State of Alaska.

Within thirty days from the date of publication of this proposed decision in the FEDERAL REGISTER, any interested party may protest a proposed decision as to the eligibility of a village. No protest shall be considered which is not accompanied by supporting evidence. The protest shall be mailed to the Director, Juneau Area Office, Bureau of Indian Affairs, P.O. Box 3-8000, Juneau, Alaska 99801. Upon receipt of a protest, the Director, Juneau Area Office, Bureau of Indian Affairs, will examine and evaluate the protest and supporting evidence required, together with his record of findings of fact and proposed decision and will render a decision on the eligibility of the Native village that is the subject of the protest. Such decision shall be rendered within thirty days from the receipt of the protest and supporting evidence by the Director, Juneau Area Office, Bureau of Indian Affairs. The decision of the Director, Juneau Area Office, Bureau of Indian Affairs, will be published in the FEDERAL REGISTER and in one or more newspapers of general circulation in the State of Alaska and a copy of the decision and findings of fact upon which the decision is based will be mailed to the affected village, all villages located in the region in which the affected village is located, all regional corporations within the State of Alaska, and any other party of record. Such decision shall become final unless appealed to the Secretary by a notice filed with the Ad Hoc Board as established in Section 2651.2(a)(5) of the regulations within thirty days of its publication in the FEDERAL REGISTER.

This is the first notice of proposed decisions and others will be made from time to time as soon as the eligibility of the other listed villages can be determined.

MORRIS THOMPSON,
Director.

NEVADA

Proposed Withdrawal and Reservation of Lands

JULY 12, 1973.

The Bureau of Land Management has filed the above application for withdrawal of the lands described below, from all forms of appropriation under the mining laws, 30 U.S.C. Ch. 2, but not from leasing under the mineral leasing laws or from disposal of materials under the Act of July 31, 1947, as amended, 30 U.S.C. secs. 601, 602.

The applicant desires the land as an addition to the Alkali Lake Wildlife Management Area.

On or before August 20, 1973, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 300 Booth Street, Reno, Nevada 89502.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

MOUNT DIABLO MERIDIAN, NEVADA

T. 12 N., R. 23 E.,
sec. 3, SW¼SW¼.

The area described contains 40 acres in Lyon County, Nevada.

WILLIAM J. MALENCIK,
Chief, Division of Technical Services.

NEVADA

Proposed Withdrawal and Reservation of Lands

JULY 12, 1973.

The Department of Agriculture, U.S. Forest Service has filed the above application for withdrawal of the lands described below, from all forms of appropriation under the public land laws, including the mining laws (30 U.S.C. Ch. 2), but not from leasing under the mineral leasing laws.

The applicant desires the land as an administrative site for the Toiyabe National Forest.

On or before August 20, 1973, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 300 Booth Street, Reno, Nevada 89502.

The Department's regulations (43 CFR 2351.4(c)) provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

MOUNT DIABLO MERIDIAN, NEVADA

T. 19 S., R. 57 E.,
sec. 27: NE¼SW¼, NW¼SE¼.

The area described contains 80 acres in Clark County.

WILLIAM J. MALENCIK,
Chief, Division of Technical Services.

VERNAL DISTRICT GRAZING ADVISORY BOARD, UTAH

Notice of Meeting

Notice is hereby given that the Vernal District Grazing Advisory Board will hold a meeting August 14 and 15, 1973 in the district office in the Cooper Building, Vernal, Utah, beginning at 9 a.m.

The meeting August 14 will be a field review of present and potential water developments in the district.

The meeting August 15 will be open to the public. Limited time will be available for comments from the public but persons desiring to make brief statements should contact in advance the Advisory Board Chairman, Nick Meagher, Jr., P.O. Box F, Vernal, Utah 84078. The agenda will include review of grazing license applications, review of other types of grazing use authorizations, preditor control program, West Tabyago allotment management plan, review of the district's annual work plan, status of proposed regulations concerning wild horses, progress report for land use planning, and the proposed antelope transplant by the Utah Division of Wildlife Resources on East Bench.

ROBERT E. ANDERSON,
Acting State Director.

National Park Service

CHESAPEAKE AND OHIO CANAL NATIONAL HISTORICAL PARK COMMISSION

Notice of Meeting

Notice is hereby given in accordance with Federal Advisory Committee Act that a meeting of the Chesapeake and Ohio Canal National Historical Park Commission will be held on Saturday, July 28, 1973, at 9 a.m., at the Stephen Mather Training Center, Harpers Ferry, West Virginia.

The Commission was established by Public Law 91-664 to meet and consult with the Secretary of the Interior on general policies and specific matters related to the administration and development of the Chesapeake and Ohio Canal National Historical Park.

The members of the Commission are as follows:

Miss Nancy Long (Chairman)
Glen Echo, Maryland
Mrs. Caroline Freeland
Bethesda, Maryland
Hon. Vladimir A. Wahbe
Baltimore, Maryland
Mr. Thomas W. Richards
Arlington, Virginia
Mr. John C. Lewis
Hamilton, Virginia
Hon. Joseph H. Manning
Annapolis, Maryland
Mr. Burton C. English
Berkeley Springs, West Virginia
Mr. James G. Banks
Washington, D.C.
Mr. Joseph H. Cole
Washington, D.C.
Mr. Ronald A. Clites
LaVale, Maryland
Mrs. Mary Miltenberger
Cumberland, Maryland
Dr. James Gifford
Frederick, Maryland
Dr. K. R. Bromfield
Frederick, Maryland
Mr. Grant Conway
Brookmont, Maryland
Mr. Edwin F. Wesely
Chevy Chase, Maryland
Mr. John C. Frye
Gapland, Maryland
Mr. Justice Douglas
(Special Consultant)
Mr. Rome F. Schwagel
Keedysville, Maryland
Mr. Donald Frush
Hagerstown, Maryland

The matters to be discussed at this meeting include:

1. Proposed rezoning of the Georgetown Waterfront District.

2. A report of the Cumberland Boundary.

3. The two Superintendents' reports on their major activities since the last Commission meeting.

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited and it is expected that not more than 15 persons will be able to attend the sessions. Any member of the public may file with the committee a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact Richard L. Stanton, Assistant Director, Cooperative Activities, National Capital Parks, at Area Code 202-426-6715. Minutes of the meeting will be available for public inspection two weeks after the meeting, at the Office of National Capital Parks, Room 208, 1100 Ohio Drive, S.W., Washington, D.C.

Dated: July 11, 1973.

STANLEY W. HULETT,
Associate Director,
National Park Service.

NATIONAL PETROLEUM COUNCIL

Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of the following meeting: National Petroleum Council meeting, July 24, 1973, 9:00 a.m., Department of the Interior Auditorium, Washington, D.C. The agenda will include reports from the Nominating Committee and election of officers, factors affecting U.S. petroleum refining, and emergency preparedness.

The purpose of the National Petroleum Council is solely to advise, inform, and make recommendations to the Secretary of the Interior on any matter relating to petroleum or the petroleum industry.

This meeting is open to the public.

DUKE R. LIGON,
Director.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Marketing Agreement 146]

PEANUT ADMINISTRATIVE COMMITTEE

Budget of Expenses and Rate of Assessment for the 1973 Crop Year

Pursuant to Marketing Agreement 146, regulating the quality of domestically produced peanuts (30 FR 9402), and upon recommendation of the Peanut Administrative Committee established pursuant to such agreement and other information, it is hereby found and determined that the expenses of said Committee and the rate of assessment applicable to peanuts produced in 1973 and for the crop year beginning July 1, 1973, shall be as follows:

(a) *Administrative expenses.* The budget of expenses for the Committee for the crop year beginning July 1, 1973, shall be in the total amount of $300,000, such amount being reasonable and likely to be incurred for the maintenance and functioning of the Committee, and for such purposes as the Secretary may, pursuant to the provisions of the marketing agreement, determined to be appropriate.

(b) *Indemnification expenses.* Expenses of the Committee for indemnification payments, pursuant to the Terms and Conditions of Indemnification Applicable to 1973 Crop Peanuts, effective July 1, 1973, are estimated at, but may exceed $4.0 million, such amount being reasonable and likely to be incurred.

(c) *Rate of assessment.* Each handler shall pay to the Peanut Administrative Committee, in accordance with section 48 of the marketing agreement, an assessment at the rate of $3.30 per net ton of farmers stock peanuts received or acquired other than those described in section 31(c) and (d) ($0.30 for administrative expenses and $3.00 for indemnification expenses).

(d) *Indemnification reserve.* Monetary additions to the indemnification reserve, established in the 1965 crop year pursuant to § 48 of the marketing agreement, shall continue. That portion of the total assessment funds accrued from the $3.00 rate and not expended in providing indemnification on 1973 crop peanuts shall be placed in such reserve and shall be available to pay indemnification expenses on subsequent crops.

The expenses and rate of assessment are, under the agreement, on a crop year basis and will automatically be applicable to all assessable peanuts from the beginning of such crop year. The handlers of peanuts who will be affected hereby have signed the marketing agreement authorizing approval of expenses that may be incurred and the imposition of assessments, they are represented on the Committee which has submitted the recommendation with respect to such expenses and assessment for approval; and

handlers have had knowledge of the foregoing in their recent industry-wide discussions and will be afforded maximum time to plan their operations accordingly.

Dated: July 16, 1973.

CHARLES R. BRADER,
Acting Deputy Director,
Fruit and Vegetable Division.

Agricultural Stabilization and Conservation Service

[Docket No. SH-320]

DOMESTIC BEET SUGAR PRODUCING AREA

Hearing on Proportionate Shares for 1974 Crop

Notice is hereby given that the Secretary of Agriculture, acting pursuant to the Sugar Act of 1948, as amended, will conduct a hearing to receive the views and recommendations of interested persons on the need for establishing proportionate shares (farm acreage allotments) for the 1974 crop of sugarbeets in the Domestic Beet Sugar Area. Also, for use by the Secretary if he determines that proportionate shares are needed, views and recommendations are desired on all phases of the proportionate share program, including the level of the National Sugarbeet Acreage Requirement. The hearing will be conducted at Denver, Colorado, on August 9, 1973, in Room 1430 (ground floor), Federal Building, 1961 Stout Street, beginning at 10:00 a.m. local time.

In accordance with the provisions of paragraph (1), subsection (b) of section 302 of the Sugar Act of 1948, as amended (7 U.S.C. 1132 (b)), the Secretary must determine for each crop year whether the production of sugar from any crop of sugarbeets will, in the absence of proportionate shares, be greater than the quantity needed to enable the area to meet its quota and provide a normal carryover inventory, as estimated by the Secretary for such area for the calendar year during which the larger part of the sugar from such crop normally would be marketed. Such determination may be made only after due notice and opportunity for an informal public hearing.

With the exception of the 1970 crop, proportionate shares have not been in effect since the 1966 crop. Acreage restrictions on 1970-crop plantings were established in October 1969 but were removed in April 1970 because of deficiencies in the 1969 crop. Latest estimates indicate that approximately 3,663,000 short tons, raw value, of sugar will be produced from 1972-crop plantings, and that 1973-crop acreage planted or to be planted will total about 1,280,455 acres.

Views and recommendations on the need for establishing proportionate shares and the details of the program may be presented orally at the hearing, preferably supported in writing by an original and two copies of the oral statement. Views and recommendations may also be submitted in writing (original and two copies) at the hearing without an oral presentation or they may be mailed to the Director, Sugar Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250, postmarked not later than August 23, 1973. Oral and written proposals that proportionate shares be established for the 1974 crop in addition to the rationale should include recommendations as to the level of the National Sugarbeet Acreage Requirement and as to the details of a program. These would include such items as methods (formulae) of establishing State allocations, area allotments and farm bases, and the level of set-asides for new producers, appeals and adjustments.

All written submissions made pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C. (7 C.F.R. 1.27 (b)).

Signed at Washington, D.C. on July 13, 1973.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

[FR Doc.73-14873 Filed 7-18-73;8:45 am]

Commodity Credit Corporation

SALES OF CERTAIN COMMODITIES

Monthly Sales List (Fiscal Year Ending June 30, 1974)

Notice to buyers. This Monthly Sales List for the fiscal year ending June 30, 1974, is issued pursuant to the policy of the Commodity Credit Corporation issued on October 12, 1954, and published in the FEDERAL REGISTER of October 16, 1954, (19 FR 6669), and amended on January 31, 1970, (35 FR 1273), and on June 3, 1970, (35 FR 107). This Monthly Sales List is effective with respect to Commodity Credit Corporation (CCC) commodity holdings, which are available for sale, beginning at 2:30 p.m., e.d.t., on June 29, 1973. Sales price transitions between successive months will be made at 2:30 p.m. (Washington, D.C.), on the last CCC business day of each month unless otherwise specified.

This Monthly Sales List reflects sales policy for the beginning month of the period covered by the list. This Monthly Sales List also projects the beginning sales policy as far as possible into the balance of the fiscal year by setting forth prices that will prevail in subsequent months if the beginning sales policy remains unchanged. The inclusion of projected prices for subsequent months is intended to minimize the repetitive publication of price information and shall not be construed as an annual sales policy commitment by CCC. This Monthly Sales List will be amended in the FEDERAL REGISTER from time to time during the fiscal year to reflect intramonth and end-of-month changes.

This Monthly Sales List sets forth the commodities available for sale, information concerning financing, and barter, the pricing basis on which sales will be made, and sources from which further information concerning matters described in this paragraph may be obtained. This list is issued for the purpose of public information and does not constitute an offer to sell by CCC or an invitation for offers to purchase from CCC.

1. *General.* (a) CCC will entertain offers from responsible buyers for the purchase of any commodity in this Monthly Sales List. Offers accepted by CCC will be subject to the terms and conditions prescribed by CCC. With certain exceptions such terms and conditions appear in published regulations and in pamphlets which are designated as announcements. The identity of such announcements are with certain exceptions, stated in this Monthly Sales List. The announcements may be obtained from the sources described herein.

(b) CCC reserves the right to refuse to consider an offer if CCC does not have adequate information of financial responsibility of the offeror to meet contract obligations of the type contemplated under the prospective contract. If a prospective offeror is in doubt as to whether CCC has adequate information with respect to his financial responsibility, he should either submit a financial statement to the office named to receive offers in the appropriate announcement or invitation prior to making an offer or communicate with such office to determine whether such a statement is desired in his case. When satisfactory financial responsibility has not been established, CCC reserves the right to consider an offer only on submission by offeror of a certified or cashier's check, a bid bond, or other security, acceptable to CCC, assuring that if the offer is accepted, the offeror will comply with any provisions of the contract with respect to payment for the commodity and the furnishing of a performance bond or other security acceptable to CCC. Interest at 8 percent will be charged for delinquent payments on consignment and track grain sales from the date of sale to the date payment is received.

(c) Prices on deferred delivery sales of grain at origin locations will be in accordance with the CCC Monthly Sales List in effect at the time of sale with interest beginning for the account of the buyer the day after the date of sale. Such sales made on an in-store delivery basis will require storage to begin for the account of the buyer 10 days after the date of sale. Such sales made on an FOB origin basis will require storage for the account of the buyer beginning on the day after the date of sale. Storage charges will be in accordance with Uniform Grain Storage Agreement rates. Interest to date of payment will be at 8 percent. No cash advance will be required from responsible buyers, but buyers will be required to furnish CCC an irrevocable letter of credit covering the purchase price plus estimated storage and interest to the end of the delivery period. Specific terms for to-arrive sales

V 38-138 JUL 19 73 XUM

will be enumerated with separate announcements.

(d) Financial coverage for commodities purchased shall be furnished before delivery, in cash or by irrevocable letter of credit. Corn, oats, barley, grain sorghum, wheat or rye, as determined by CCC, will be sold for unrestricted use for "Dealers' Certificates" issued under the livestock feed program. Grain delivered against such certificates will be sold at the applicable current market price.

(e) CCC reserves the right to determine the class, grade, quality, and available quantity of commodities listed for sale.

(f) Nonstorable commodities will be sold at not less than market price.

2. *Export commodities.* On sales for export, the buyer shall be regularly engaged in the business of buying or selling commodities and for this purpose shall maintain a bona fide business office in the United States, its territories or possessions and have a person, principal or resident agent upon which service of judicial process may be had.

Prospective buyers for export should note that, generally sales to U.S. Government agencies, with minor exceptions, will constitute sales for domestic unrestricted use of the commodity.

CCC reserves the right, before making any sales, to define or limit export areas.

Exports to certain countries are regulated by the U.S. Department of Commerce. These restrictions also apply to any commodities purchased from CCC whether sold for restricted or unrestricted use. Countries and commodities are specifically listed in the U.S. Department of Commerce export control regulations. Additional information is available from the Bureau of International Commerce or from the field offices of the Department of Commerce.

In the case of export sales, the buyer is responsible for obtaining any required U.S. Government export permit or license. Purchase from CCC shall not constitute any assurance that any such permit or license will be granted by the issuing authority.

Although a commodity may not be specifically listed for export sale, CCC reserves the right to make emergency sales of its stocks for export if unexpected trade opportunities develop or when the flow of commodities to ports is disrupted or impeded and the maintenance of U.S. exports is temporarily jeopardized. Specific offering terms, including the applicable export announcement to be used, will be provided interested parties through special sales announcements and by amendments to the CCC Monthly Sales List.

3. *CCC binsite commodities.* Information on the availability of commodities stored in CCC binsites may be obtained from the Agricultural Stabilization and Conservation Service State offices shown at the end of this sales list.

4. *Odd lot quantities.* Disposals and other handling of inventory items often result in small quantities at given locations or in qualities not up to specifications. These lots are offered by the appropriate ASCS office promptly upon appearance and, therefore, generally they do not appear in the monthly sales list.

5. *Definitions.* The following terms as used in this monthly sales list shall have the following meanings unless otherwise specifically stated:

(a) "Market price" means market price as determined by CCC.

(b) "Transit value" means transit value as determined by CCC.

(c) "Sales for unrestricted use and unrestricted sales" means sales which permit either domestic or export use.

(d) "Sales for export and export sales" means sales which require export of a commodity.

(e) "Designated terminals" are listed in grain price support regulations.

(f) "Export market price" means a price as determined by CCC and generally reflects the price at which commodities are being sold for export.

6. *Barter eligibility list.* Stocks of tobacco, under CCC loan, are available for new and existing barter contracts.

7–10. [*Reserved*].

11. *Wheat—unrestricted use sales—bulk-storable—basis grade 1 in-store.* The minimum price is the market price but not less than the formula price.

(a) Except as specified in paragraph (b) of this section:

(1) At designated terminals the formula price for the predominant class of wheat is the 1973 county loan rate where stored plus the monthly markup shown in this section plus the transit value or 4 cents per bushel whichever is higher. Adjustments for other classes will be established when necessary by CCC.

(2) Outside of designated terminal markets, the formula price is the 1973 county loan rate where stored plus the monthly markup shown in this section plus transit value, if any.

(3) Loan differentials will be applied in determining the formula price of other qualities at all locations.

MONTHLY MARKUPS IN CENTS PER BUSHEL

July 1973	25	Jan. 1974	31
August	25	February	33
September	25	March	35
October	25	April	37
November	27	May	37
December	29	June	37

(b) The July formula price of wheat at the west gulf is fixed at $1.83 per bushel. The minimum price for sales of Hard Red Winter wheat at points tributary to the gulf will be the higher of the market price, the formula price at point of sale, or the west gulf price of $1.83 backed off to point of sale. The foregoing fixed price of wheat at the west gulf will increase in accordance with the following monthly markup schedule:

25. *Rice, rough—unrestricted use sales—F.O.B. warehouse.* The minimum price is the market price but not less than the formula price. The formula price for July 1973 is the 1972 loan rate plus 5 percent plus 59 cents per hundredweight. Basis of sale is f.o.b. warehouse as is, or at buyers option, basis outturn weights and grades with privilege of rejecting individual cars which are more than one grade below the listed grade or contain more than 1 percent smut in excess of the listed percentage.

26–29. [Reserved].

30. *Tung oil—unrestricted use sales.* Competitive offers under the terms and conditions of Announcement NO–TNO–1.

The quantity offered, storage location, and date bids are to be received and announced in invitations issued by the New Orleans ASCS Commodity Office.

Bids will include, and be evaluated on the basis of price offered per pound f.o.b. storage location. For certain destinations, CCC will as provided in the announcement, refund to the buyer a "freight equalization" allowance.

Sales will be made by the New Orleans ASCS Commodity Office. Copies of the announcement and the applicable invitation may be obtained from that office.

31. [Reserved].

32. *Peanuts, shelled or farmers stock—restricted use sales.* When stocks are available in their area of responsibility, the quantity, type, and grade offered are announced in weekly lot lists or invitations to bid issued by the following:

GFA Peanut Association.	Camilla, Ga. 31730
Peanut Growers Cooperative Marketing Association.	Franklin, Va. 23851
Southwestern Peanut Growers' Association.	Gorman, Tex. 76454

Terms and conditions of sale are set forth in Announcement OC–10 (Revision 1), effective October 1, 1972, as amended, and the applicable lot list.

1. Shelled peanuts of less than U.S. No. 1 Grade may be purchased for foreign or domestic crushing.

2. Shelled graded peanuts equal to or exceeding requirements of U.S. grades may be purchased for export without limitations on their use.

3. Farmers Stock: Segregation 1 may be purchased and:

A. Milled to produce U.S. No. 1 or better grade shelled peanuts to be exported and the balance either crushed domestically or fragmented and exported.

B. Milled to remove the hulls and exported after fragmentation.

C. Exported as farmers stock with no warranty after delivery by CCC.

Segregation 2 and 3 peanuts may be purchased for domestic crushing only.

Sales are made on the basis of competitive bids submitted each Tuesday to the Tobacco and Peanut Division, Agricultural Stabilization and Conservation Service, Washington, D.C. 20250. 33–37 [*Reserved*].

38. *Cotton, extra long staple—unrestricted use sales.* Competitive offers under the terms and conditions of Announcement NO–C–6 (Revision 2), as amended. Extra long staple cotton may be acquired at the highest price offered, but not less than the higher of (1) the market price as determined by CCC, or (2) 115 percent of the 1973 loan rate for such cotton plus reasonable carrying charges for the month in which the sale is made.

Competitive offers under the terms and conditions of Announcement NO–C–20 (Revised) (Sale of Special Condition Cotton). Any such cotton (below Grade, Sample Loose, Damaged Pickings, etc.) owned by CCC will be offered for sale periodically on the basis of samples representing the cotton according to schedules issued from time to time by CCC.

Sale of cotton will be made by the New Orleans ASCS Commodity Office. Sales announcements, related forms and catalogs for extra long staple cotton showing quantities, qualities and location may be obtained for a nominal fee from that office.

MONTHLY CARRYING CHARGES—POINTS PER POUND

July 1973	135	January	70
August	45	February	90
September	45	March	105
October	45	April	120
November	45	May	135
December	60	June	135

39—45 [Reserved].

46. *Flaxseed—unrestricted use sales (bulk—storable—basis grade 1 in-store Minneapolis and Duluth/Superior).* Market price but not less than $2.80 per bushel plus transit value. Minimum price at locations other than Minneapolis and Duluth/Superior will be adjusted, taking into consideration: (a) Cost of movement to these terminals, and (b) other market factors. Available from the Minneapolis ASCS Branch Office.

Rural Electrification Administration

CENTRAL ELECTRIC POWER COOPERATIVE, INC.

Final Environmental Statement

Notice is hereby given that the Rural Electrification Administration has prepared a Final Environmental Statement in accordance with section 102(2)(c) of the National Environmental Policy Act of 1969, in connection with a proposed release of loan funds to Central Electric Power Cooperative, Inc., PO. Box 23, Cayce, South Carolina. This release of funds would provide financing for the Pinopolis-Ringstree 230 kV transmission line and Darlington 230–69 kV substation; the Robinson-Blythewood 230 kV transmission line and Blythewood 230–115 kV substation and Camden switching facilities; plus the Batesburg-Newberry 230 kV transmission line.

Additional information may be secured on request, submitted to Mr. David H. Askegaard, Acting Assistant Administrator—Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250. The Final Environmental Statement may be examined during regular business hours at the offices of REA in the South Agriculture Building, 12th Street and Independence Avenue, SW., Washington, D.C., Room 4322, or at Central Electric Power Cooperative, Inc., Cayce, South Carolina.

Final REA action may be taken with respect to this matter after thirty (30) days.

Dated at Washington, D.C., this 13th day of July 1973.

DAVID A. HAMIL,
Administrator,
Rural Electrification Administration.

COMPUTER PERIPHERALS, COMPONENTS AND RELATED TEST EQUIPMENT TECHNICAL ADVISORY COMMITTEE

Notice of Meeting

The Computer Peripherals, Components and Related Test Equipment Technical Advisory Committee of the U.S. Department of Commerce will meet July 25, 1973, at 9:30 a.m. in Room 6802 of the Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

Members advise the Office of Export Control, Bureau of East-West Trade, with respect to questions involving technical matters, worldwide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to computer peripherals, components, and related test equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

Agenda items are as follows:

1. Comments on minutes of previous meeting.
2. Presentation of papers or comments by the public.
3. Discussion of foreign availability.
4. Discussion of East European procurement efforts.
5. Discussion of work program.
6. Executive session:
   a. Discussion of foreign availability.
   b. Discussion of East European procurement efforts.
   c. Discussion of work program.
7. Adjournment.

This will be the second meeting of the Computer Peripherals, Components and Related Test Equipment Technical Advisory Committee. It was established January 3, 1973, and consists of technical experts from a representative cross-section of the industry in the United States and officials representing various agencies of the U.S. Government. The industry members are appointed by the Assistant Secretary for Domestic and International Business to serve a two-year term.

The public will be permitted to attend the discussion of agenda items 1–5, and a limited number of seats—approximately 25—will be available to the public for these agenda items. To the extent time permits, members of the public may present oral statements to the committee. Interested persons are also invited to file written statements with the committee.

With respect to agenda item (6), "Executive Session," the Assistant Secretary of Commerce for Administration, on July 17, 1973, determined, pursuant to Section 10(d) of P.L. 92-463, that this agenda item should be exempt from the provision of Sections 10(a)(1) and (a)(3), relating to open meetings and public participation therein, because the meeting will be concerned with matters listed in 5 USC 552(b)(1).

Further information may be obtained from Rauer H. Meyer, Director, Office of Export Control, Room 1886C, U.S. Department of Commerce, Washington, D.C. (A/C 202 + 967-4293).

Minutes of those portions of the meeting which are open to the public will be available 30 days from the date of the meeting upon written request addressed to: Central Reference and Records Inspection Facility, U.S. Department of Commerce, Washington, D.C. 20230.

Dated: July 17, 1973.

STEVEN LAZARUS,
Deputy Assistant Secretary for East-West Trade, U.S. Department of Commerce.

Maritime Administration

[Docket No. S-366]

AMERICAN TRADING TRANSPORTATION CO., INC.

Notice of Application

Notice is hereby given that American Trading Transportation Company, Inc. has filed an application dated June 26, 1973, under the Merchant Marine Act, 1936, as amended (the Act), for operating-differential subsidy on four O/B/O vessels (to be constructed) which are to be employed in U.S. foreign trade. Since American Trading Transportation Company, Inc. owns and operates U.S. flag tankers which from time to time may operate in domestic intercoastal or coastwise trade, written permission of the Maritime Administration under section 805(a) of the Act will be required by American Trading Transportation Company, Inc. if its application for operating-differential subsidy is approved.

American Trading Transportation Company, Inc. has applied for permission to continue to own, operate, and/or charter the following vessels, some of which are presently under charter to the Military Sealift Command, in domestic coastwise or intercoastal service:

American Trader
Baltimore Trader
Maryland Trader
Virginia Trader
Texas Trader

Interested parties may inspect the application under consideration in the Office of Subsidy Administration, Maritime Administration, Room No. 4888, Department of Commerce Building, Fourteenth & E Streets NW., Washington, DC 20230.

Any person, firm or corporation having interest (within the meaning of section 805(a)) in such application and desiring to be heard on issues pertinent to Section 805(a) or desiring to submit comments or views concerning the application must, by close of business on July 26, 1973, file same with the Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant Section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled for 10 a.m. on July 27, 1973, Room 4896 Department of Commerce Building, Fourteenth & E Streets NW., Washington, DC 20230. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act relative to domestic trade operations.

Dated: July 16, 1973.

By order of the Maritime Administration.

JAMES S. DAWSON, Jr.,
Secretary.

[FR Doc.73-14832 Filed 7-18-73;8:45 am]

[Docket No. S-367]

AMERICAN TRADING TRANSPORTATION CO., INC.

Notice of Application

Notice is hereby given that American Trading Transportation Company, Inc., has filed an application for operating-differential subsidy on four (4) ore/bulk/oil carriers (to be constructed) of approximately 80,500 deadweight tons each. Said vessels will be used primarily in the carriage of crude oil from ports in the Persian Gulf to United States ports, and bulk coal from U.S. Atlantic ports to Japan, but may at times be operated in other worldwide service in the foreign commerce of the United States in the carriage of liquid bulk cargoes and dry bulk cargoes not subject to the cargo preference statutes including 10 U.S.C. 2631, 46 U.S.C. 1241, and 15 U.S.C. 616a.

Any party having an interest in such application and who would contest a finding of the Board that the service now provided by vessels of United States registry for the worldwide carriage of liquid and dry bulk cargoes, not subject to the cargo preference statutes, moving in the foreign commerce of the United States or in any particular trade in the foreign commerce of the United States is inadequate, must, on or before July 26, 1973, notify the Secretary in writing of his interest and of his position and file a petition for leave to intervene in accordance with the Board's rules of practice and procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Merchant Marine Act, 1936, as amended, and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing.

In the event that a section 605(c) hearing is ordered to be held, the purpose of such hearing will be to receive evidence relevant to whether the service already provided by vessels of U.S. registry for the worldwide movement of liquid and dry bulk cargoes in the foreign oceanborne commerce of the United States is inadequate and whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated in such service.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Maritime Subsidy Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing the Maritime Subsidy Board will take such action as may be deemed appropriate.

Dated: July 16, 1973.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
Secretary.

National Oceanic and Atmospheric Administration

STEPHEN W. FENNO AND RALPH I. GUNTHER

Receipt of Exemption Applications

Notice is hereby given that the following named individuals have filed applications for exemptions from the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361, 86 Stat. 1027 (1972)) on grounds of undue economic hardship as authorized by section 101(c) of the Act and § 216.13 of the Interim Regulations Governing the Taking and Importing of Marine Mammals (37 FR 28177, 28182, December 21, 1972) for the taking of marine mammals as hereinafter described for the purposes stated.

1. Stephen W. Fenno, Vice President, Aqualand, Inc., Bar Harbor, Maine 04609, to take seven harbor seals (*Phoca vitulina concolor*) for public display.

In support of his application, the Applicant states that:

(1) The seals would be taken along the coast of Maine between June and October 21, 1973, by experienced seal capturers and transported by the Applicant from point of capture to the Applicant's facility;

(2) The seals would be displayed for profit at the Applicant's menagerie in a tank especially designed for the care, maintenance and display of seals;

(3) If the exemption is not granted the Applicant will suffer undue economic hardship in that without seals, the annual admissions to the menagerie would be reduced by half because seals are a major attraction at the Applicant's menagerie.

2. Ralph I. Gunther, doing business as Bob's Seafood Restaurant, P.O. Box 819, Morro Bay, California, to take one or two California sea lions (*Zalophus californianus*) for public display.

In support of his application, the Applicant states that:

(1) The animals would be taken by professional sea lion capturers along the coast of central or southern California between June and October 21, 1973, and transported to the Applicant's facility in appropriate containers;

(2) The animals would be displayed in a specially constructed facility at the Applicant's restaurant;

(3) The Applicant previously maintain sea lions at his facility for 14 years, the last such sea lion dying on March 31, 1973;

(4) If the exemption is not granted the Applicant will suffer undue economic hardship in that a specially designed sea lion pool costing several thousand dollars would be unutilized.

Documents submitted in connection with these applications, other than confidential information, are available for inspection in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235 and in the following offices of the Regional Directors, National Marine Fisheries Service: For Mr. Gunther, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731, telephone 213-813-9575. For Mr. Fenno, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930, telephone 617-281-0640. Any person wishing to comment on these applications may write to the appropriate National Marine Fisheries Service office.

All statements and opinions contained in this notice in support of the applications are those of the Applicants.

Dated: July 13, 1973.

JOSEPH W. SLAVIN,
Acting Director, National Marine Fisheries Service.

[FR Doc.73-14782 Filed 7-18-73;8:45 am]

Office of the Secretary

[Dept. Organization Order 25-5B, Amdt. 1]

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Organization and Functions

JUNE 26, 1973.

This order effective June 26, 1973, amends the material appearing at 38 FR 15980 of June 19, 1973.

Department Organization Order 25-5B dated May 7, 1973 is hereby amended as follows:

1. Sec. 6. *Associate Administrator for Environmental Monitoring and Prediction* is revised to read as follows:

The Associate Administrator for Environmental Monitoring and Prediction shall maintain cognizance over and establish policy for environmental satellite, meteorological, hydrologic, marine environmental services, climatological, upper atmospheric and space, geomagnetic and seismological programs which entail monitoring and prediction of the environment; for activities in intentional and inadvertent environmental modification; and for aircraft resources. The marine environmental services program includes marine environmental observations necessary for the prediction of coastal zone and oceanic conditions and those required on a routine basis for the measurement of pollution and other ocean constituents. He shall also be the NOAA focal point for planning emergency readiness and preparedness against natural disasters. As the primary program policy officer for all activities indicated above, he shall:

Undertake long-range policy planning and analysis; recommend NOAA policy to the Administrator; and provide guidance on long-range goals and plans to NOAA's operating elements.

Assure the development of plans and programs for adequate research, technology and operational services for meeting user requirements. Maintain current projections of resources required to implement approved plans, and make recommendations on existing and future programs.

V 38 I 138 JUL 19 73 XUM

Monitor and evaluate assigned programs in terms of planned accomplishments, quality and degree of responsiveness to user needs; and recommend as necessary, program curtailments, redirections, expansions and new program initiatives.

Carry out Department of Commerce responsibilities under the Weather Modification Reporting Act, P.L. 92–205.

Conduct or monitor studies of the economic, social, and legal ramifications of environmental modification and conduct or monitor studies of unwanted side effects.

Establish policy on the scheduling and utilization of Research Flight Facility aircraft in conjunction with the Director of the Environmental Research Laboratories; monitor the development of a plan for the modernization of the Research Flight Facility; and monitor the management and allocation of NOAA aircraft resources, including reviews of the adequacy of flying safety programs.

Provide management and coordination for the Global Atmospheric Research Program (GARP) of the World Weather Program, International Hydrologic Decade, the special foreign currency program and other special programs assigned by the Administrator.

Act as NOAA's focal point for coordination with the National Science Foundation; develop and coordinate NOAA's posture for deliberations by the Committees of the Federal Council for Science and Technology; and participate in interagency and international coordination and negotiation to assure that assigned programs are coordinated with related programs.

Act as NOAA's focal point for coordination with Committees of the National Academy of Sciences and the National Academy of Engineering.

Discharge Federal coordinating functions assigned to Commerce under OMB Circular A–62 (Federal meteorological services), those assigned to NOAA for the World Weather Watch and the Global Atmospheric Research Program, and the Integrated Global Ocean Station System, and others as may be assigned by the Administrator."

2. Section 7 is deleted in its entirety and Sections 8 through 19 are renumbered 7 through 18, respectively.

3. In Sec. 14. *National ocean survey:* a. Paragraph .01 is revised to read as follows:

.01 *Office of the Director.* The Director shall formulate and execute basic policies and manage the NOS. He shall be immediately assisted by a Deputy Director."

b. The present paragraph .07 is renumbered .08 and a new paragraph .07 is added as follows:

.07 The Office of Program Development and Management shall serve as the focal point for NOS planning, budgeting, and allocation and reprogramming of resources; provide executive and technical services in support of programs throughout the NOS; and provide executive management services to the Director.

c. The renumbered subparagraph .08 a. (3) is revised to read as follows:

(3) The NOAA Data Buoy Office and the National Oceanographic Instrumentation Center shall report to the Office of Marine Technology at the Headquarters of NOS.

d. The renumbered subparagraph .08 b. is revised to read as follows:

b. The Atlantic Marine Center and the Lake Survey Center shall provide their own administrative support, including that required by vessels under their respective jurisdictions, and, where feasible and practical, extend this support to other NOAA field units. The Pacific Marine Center shall obtain administrative support, including that required by vessels under its jurisdiction, from the Northwest Administrative Service Office at Seattle. The NOAA Data Buoy Center and the National Oceanographic Instrumentation Center shall receive administrative support from NOAA Headquarters.

4. In Sec. 16. *Environmental Data Service,* subparagraph .01 b. is deleted, and paragraph .01 is restructured to read as follows:

.01 *Office of the Director.* The Director shall formulate and execute basic policies and shall manage the Service. He shall be immediately assisted by Associates for Climatology, Marine Sciences, and Geophysics. The Director shall be further assisted by a Senior Research Fellow; an Executive Office; and offices for Special Projects, System Design, Publication and Media, and Resources Management.

5. In Sec. 18. *Environmental Research Laboratories:* a. Subparagraph .03 b. is revised to read as follows:

b. The Pacific Marine Environmental Laboratory shall conduct basic and applied research directed at achieving a comprehensive understanding of the environmental processes at work in the coastal areas of the Pacific Northwest, as well as in selected areas of the open ocean. Emphasis shall be placed on investigations of the natural physical processes, and on monitoring and predicting the effects of man's activities in these regions on physical and associated biological processes.

b. Paragraph .04 is deleted, and paragraphs .05 and .06 are renumbered .04 and .05, respectively.

6. The organization chart attached to this amendment supersedes the organization chart of May 7, 1973 which is attached as Exhibit 1 to DOO 25–5B. A copy of the organization chart is attached to the original of this document on file in the Office of the Federal Register.

HENRY B. TURNER,
Assistant Secretary for Administration.

[Dept. Organization Order 25–1]

UNITED STATES TRAVEL SERVICE

Organization and Functions

JUNE 8, 1973.

This order effective June 8, 1973, supersedes the material appearing at 37 FR 26747 of December 15, 1972.

SECTION 1. *Purpose.* .01 This order prescribes the organization and assignment of functions within the United States Travel Service (USTS). The scope of authority and functions of USTS is set forth in Department Organization Order 10–7.

.02 This revision transfers operational functions to the Travel Trade, Business and Convention Travel Office to more effectively align internal work distribution.

SEC. 2. *Organization structure.* The principal organization structure and line of authority shall be as depicted in the attached organization chart. A copy of the organization chart is attached to the original of this document on file in the Office of the Federal Register.

SEC. 3 *Office of the Assistant Secretary.* .01 The Assistant Secretary for Tourism determines policy, directs the programs and is responsible for all activities of the USTS. He establishes and maintains relations with Government and industry officials at all levels to facilitate tourism plans and programs.

.02 The Deputy Assistant Secretary shall serve as principal adviser and assistant to the Assistant Secretary and shall perform the duties of the Assistant Secretary in the latter's absence. The Deputy Assistant Secretary shall have primary responsibility for review and approval of basic marketing and operating plans, and shall measure and evaluate program results in relation to plans.

SEC. 4. *Office of the Executive Director.* .01 The Executive Director shall direct the operations and coordinate programs and activities; develop the basic marketing plan and supervise development of the operating programs; accomplish performance evaluations of all Divisions and Offices; and assure implementation of the decisions, directions and requests of the Assistant Secretary relative to policies, plans and operations of the Service.

.02 The Management Operations Committee is an internal USTS body composed of the Executive Director and the Office and Division Directors. The Committee shall meet at the call of the Executive Director, who acts as chairman, to assist in formulation of operating policies; participate in basic program planning; and act as a medium for coordination and communication among the Offices and Divisions.

SEC. 5. *Staff Offices.* .01 The Office of Administration shall arrange for and facilitate the provision of administrative services from the Office of the Secretary as needed by headquarters USTS; develop and maintain the internal administrative management system of the Service; manage the performance measurement system; perform budget formulation and management functions; perform evaluative, analytic, and developmental work to assist the Assistant Secretary in assuring that the best management practices are utilized in the headquarters and in the field; perform specific administrative tasks as directed by the Assistant Secretary; and exercise administrative management functions for the matching grant program under the Visitor Services Office.

.02 The Office of Research and Analysis shall assist in planning tourism marketing and development programs and servicing private business with travel data useful in marketing international travel; study the patterns of international travel and the economic effects of tourism; develop statistical data to measure and project foreign tourism in the States and political subdivisions of the United States; conduct and interpret market research to measure results of the marketing program; evaluate the effect of legislation and regulatory decisions on international travel; prepare and coordinate position papers for intergovernmental and international travel meetings; develop measures for evaluating programs of the Service; and administer special research projects performed by contractors throughout the world.

.03 The Office of Information Services shall plan and conduct a worldwide USTS information program; coordinate information activities within the organization and maintain close contact with communications media; advise the Assistant Secretary and other USTS officials on all news media, motion pictures, public communications techniques, and information policies; operate the USTS speakers bureau and coordinate speaking assignments; prepare and coordinate all speeches for the Assistant Secretary's office; develop a full range of news media material and publications about travel in the United States for response to inquiries from the general public, visitors, editors and radio, television and film producers, to support the information programs of the USTS offices abroad; develop journalist familiarization tour plans; and provide escort services for journalist familiarization tours.

.04 The Office of Market Development shall develop a continual flow of creative marketing programs to cultivate markets with the greatest potential for travel; develop specific marketing operating plans for implementation by the Divisions and Offices; analyze the U.S. "product" and match it to the needs of each market; assess the competitive environment to develop useful techniques; develop merchandising programs; carry out action programs to stimulate development of specific travel packages by the travel trade; and develop agent familiarization tour plans.

.05 The office of Advertising and Promotion shall develop and implement consumer and trade advertising and promotional projects; implement specific advertisement and promotion efforts for each element of the overall USTS program; develop advertising and promotion plans from input information from the Field Offices; act as liaison on all advertising agency, sales promotion, literature, and audiovisual contracts let by USTS; develop and operate special exhibits; provide pictorial reproduction material to the travel trade and communications media; and arrange for distribution of publications, State and city materials, guides for visitors, and audiovisual presentations.

SEC. 6. *International Division.* The International Division, headed by a Managing Director, shall direct the Field Offices toward achievement of USTS goals; continuously monitor field office operations; and supervise development of marketing plans for national markets. The Division shall review specific operating plans of each Field Office to test the adequacy of sales programs, promotional activities, travel trade relations, staffing plans, and effectiveness of operations; serve as a channel through which market development, advertising and promotion and publicity planning actions flow to the Field Offices; serve as the contact for international field operations for the USTS staff offices; and assist the Executive Director in the development and implementation of overall marketing plans.

SEC. 7. *Field organization.* The Field Offices, each headed by a Director who reports to the Managing Director of the International Division, shall develop and implement operating and marketing plans for promotion of travel to the United States within their assigned countries; install a travel merchandising program; distribute published information and promotional material to the travel trade; develop contacts with communications media for promotional purposes; coordinate choice of representatives for familiarization tours; coordinate local advertising displays; and serve as a reception agency for representatives of the United States visiting the country to promote travel. The Field Offices are located abroad in prime markets for travel to the United States.

SEC. 8. *Domestic Division.* The Domestic Division shall direct the Travel Trade, Business and Convention Travel Office and the Visitor Services Office (paragraphs .01 and .02 of this section). The Division shall develop and maintain relationships with U.S. industry and Government representatives who can help achieve the success of tourism programs; participate in the development of marketing program plans; review and approve the budgets and activities of its subordinate offices; apply creative approaches to find, evaluate and develop a more appealing U.S. travel product; and coordinate implementation of marketing plans, advertising, promotion and publicity plans in the subordinate offices.

.01 The Visitor Services Office shall develop programs to assure a friendly welcome in the United States for international visitors and to improve the Nation's host services; develop published informational materials to aid travelers; promote development of improved visitor services by the domestic travel industry; conduct programs for familiarization tours of the U.S. by journalists, tour operators and travel agents; develop programs to enlist maximum cooperation of city and State organizations in promoting tourism and travel; stimulate awareness of and interest in foreign visitors among the general public of the U.S.; and manage a matching grants program to promote and facilitate travel to selected areas of the U.S.

.02 The Travel Trade, Business and Convention Travel Office shall develop and implement programs for (a) encouraging international Congresses, organizations and associations to hold their meetings and conventions in the United States; (b) increasing attendance from abroad at U.S. conventions, trade fairs, and exhibitions; and (c) promoting other business travel to the United States. The Office shall develop programs to gain support of objectives by the U.S. travel trade; provide for escort services for agent familiarization tours; and manage special trade and travel conferences such as world tourism seminars and travel marts.

HENRY B. TURNER,
Assistant Secretary for Administration.

National Institutes of Health

TOBACCO WORKING GROUP

Notice of Meeting

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the Tobacco Working Group, National Cancer Institute, July 24–25, 1973, at 9:00 a.m., National Institutes of Health, Building 31, Conference Room 4, Bethesda, Maryland. This meeting will be open to the public from 9:00 a.m. to 5:00 p.m. on July 24 and 25 to discuss: (1) Proposed program in smoking and health as approved by the National Cancer Advisory Board; (2) USDA–ARS research program in tobacco; (3) Current research and development in inhalation technology for small mammals; (4) Activities of the Pharmacologic Approaches in Smoking Working Group; (5) Status of research in filter models; (6) Current research priorities and novel experimental cigarette models; and (7) Opportunities for international cooperation. Attendance by the public will be limited to space available.

Mr. Frank Karel, Associate Director for Public Affairs, NCI, Building 31, Room 10A31, National Institutes of Health, Bethesda, Maryland 20014 (301/496–1911) will furnish summaries of the open meeting and roster of committee members.

Dr. Gio B. Gori, Chairman, Building 31, Room 11A03, National Institutes of

PROFESSIONAL STANDARDS REVIEW ORGANIZATIONS

Designation of Appropriate Area

The Professional Standards Review Organization (PSRO) provisions of Public Law 92-603 (249F; sections 1151 et seq., Social Security Act) require the Secretary of Health, Education, and Welfare to establish appropriate areas throughout the Nation not later than January 1, 1974, with respect to which Professional Standards Review Organizations (PSROs) may be designated. In order to carry out that responsibility, the Department, on the basis of available information and statistical data, has developed several possible area designations for each State.

Every effort has been made to develop designations that appear to be consistent, in general, with local patterns of medical practice, the location of physicians, the distribution of health care institutions, the topography of the State and considerations of administrative feasibility.

Since the ultimate success of the PSRO program will depend in large measure upon the cooperation and participation of local physicians, health care institutions and other individuals and organizations which will be most affected by the implementation of the legislation, the advice of all such individuals is being sought as to their recommendations on the appropriate boundaries for the PSRO area that would encompass their community.

Several organizations in each State have been sent a packet of information containing alternative PSRO area designations for that State, reference data, guidelines to be used in designating areas, a description of the procedures to be employed by the DHEW Regional Offices in consulting with the interested individuals and organizations within the States and the name and telephone number of the PSRO representative within each Regional Office. Organizations that have received these packets include State medical societies, State hospital associations, State osteopathic associations, State osteopathic hospital associations, State health departments, State and local foundations for medical care, State nursing homes associations and organizations that have written to DHEW expressing an interest in becoming PSRO's.

The Regional Offices will hold meetings in each State with all interested individuals and organizations concerning PSRO area designation. Any individual or organization interested in obtaining the packet of materials and/or in participating in the State meetings should contact the PSRO representative in the Office of the Regional Health Director for the DHEW Regional Office covering the State. All requests for the packet of materials and expressions of interest in participating in the State meetings should be conveyed to the appropriate Regional Office by July 23, 1973.

The 10 DHEW Regional Offices, the States they cover and the PSRO representative in each office are as follows:

Region	States
I	Boston, Maine, Vermont, New Hampshire, Massachusetts, Connecticut and Rhode Island Andrew Johnston John F. Kennedy Federal Building Government Center—Room 1400 Boston, Massachusetts 02203 (617)-223-6898
II	New York, New Jersey, Puerto Rico and Virgin Islands C. Robert Dean, M.D. Federal Building 26 Federal Plaza New York, New York 10007 (212)-264-2500

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Interstate Land Sales Registration

[Docket No. N-73-184; Administrative Division Docket No. 73-50(b)(3)]

HICKORY RUN FOREST, PA., ET AL.

Notice of Hearing

Notice is hereby given that:

1. Pocono International Corporation, developer of Hickory Run Forest, located in Carbon County, Pennsylvania, and Charles Goldberg, President, Norman Failla, Registered Agent, its other officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received a notice of suspension dated June 13, 1973, which was sent to the developer pursuant to 15 U.S.C. 1706(c) and 24 CFR 1710.45(b)(3) informing the developer that an amendment to its Statement of Record submitted May 31, 1973, was not effective pursuant to the Act, and the regulations contained in 24 Part 1710.

2. The Respondent filed a request for hearing on June 25, 1973, but failed to answer the allegations of the notice of suspension as required by 24 CFR 1720.165, and 1720.145.

3. Therefore, pursuant to the provisions of 15 U.S.C. 1706(c), 24 CFR 1720.130, and 1720.165: *It is ordered,* That a public hearing for the purpose of taking evidence on the questions set forth in the notice of suspension will be held before John J. McCarthy, Administrative Law Judge, in Room 7155, Department of HUD Building, 451 7th Street, SW., Washington, D.C. on August 13, 1973, at 10:00 a.m.

The following time and procedure is applicable to such hearing:

All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C. 20410 on or before August 6, 1973.

4. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the suspension of the Statement of Record, herein identified, shall continue until vacated by order of the Secretary.

This notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: July 13, 1973.

By the Secretary.

GEORGE K. BERNSTEIN,
Interstate Land Sales Administrator.

ATOMIC ENERGY COMMISSION

[Docket Nos. 50-334, 50-412]

DUQUESNE LIGHT COMPANY ET AL.

Avialability of Final Environmental Statements

Pursuant to the National Environmental Policy Act of 1969 and the United States Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that the Final Environmental Statements prepared by the Commission's Directorate of Licensing, related to the proposed Beaver Valley Power Station, Units 1 and 2, currently under construction by Duquesne Light Company et al. in Beaver County, Pennsylvania are available for inspection by the public in the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C. and in the Beaver Area Memorial Library, 100 College Avenue, Beaver, Pennsylvania 15009. The Final Environmental Statements are also being made available at the Office of Radiological Health, Department of Environmental Resources, P.O. Box 2063, Harrisburg, Pennsylvania 17105.

The notices of availability of the Draft Environmental Statements for the Beaver Valley Power Station, Units 1 and 2, and requests for comments from interested persons were published in the FEDERAL REGISTER on March 16, 1973 (38 FR 7136) for Units 1 and April 2, 1973 (38 FR 8468) for Unit 2. The comments received from Federal, State, and local and interested members of the public have been included as appendices to the Final Environmental Statements.

Single copies of the Final Environmental Statements may be obtained by writing the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attenion: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Maryland, this 16th day of July 1973.

For the Atomic Energy Commission.

WM. H. REGAN, JR.,
Chief, Environmental Projects Branch No. 4, Directorate of Licensing.

CIVIL AERONAUTICS BOARD

[Docket No. 24488; Order 73-7-55]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Fares Over the South Pacific

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 12th day of July 1973.

Agreements have been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign carriers, and other carriers, embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA), and adopted at meetings in New York and London in the winter of 1973. Insofar as they directly relate to air transportation as defined by the Act, the agreements, which have been assigned the above-designated C.A.B. agreement numbers, encompass the overall North/Central and South Pacific fare structures. This order deals solely with South Pacific fares.

First-class, normal economy, excursion and individual inclusive tour fares between United States west coast points and Australia would be increased by ten percent, 5 percent of which is intended to offset the impact of the devaluation of the U.S. dollar.[1] Individual inclusive tour travel would be subject to a maximum of five free stopovers, compared to the unrestricted stopover privileges now permitted. The group inclusive tour fares would be reduced by seven percent. However, the two stopovers in each direction presently available without charge would be subject to a charge of $25 per stopover. Affinity-group fares would also be reduced by seven percent,[2] the minimum group size reduced from 25 to 15 passengers, and present stopover privileges eliminated. Finally, an individual advance purchase excursion fare (APEX) is to be introduced for 14/21-day travel at levels significantly below the proposed excursion fares. Reservations and full payment are to be required 60 days prior to departure, and would be subject to a forfeiture of 25 percent in the event of cancellation. No stopovers are permitted. A comparison of various present and proposed fares appears in the attached Appendix A.[3]

American Airlines, Inc. (American) and Pan American World Airways, Inc. (Pan American) have submitted justification in support of the agreed South Pacific fare structure. American estimates that the proposed package would improve its revenues by $680,000. However, it anticipates a continuing negative position ($722,000) as a result of projected increases in expense in 1973 of $448,000 and an additional cost increase of $205,000 associated with devaluation of the dollar. Without the proposed fare adjustments, American projects net income at a negative $1,234,000 for 1973. Although some generation of new traffic attributable to the reduced group fares and introduction of an APEX fare is expected, American does not project a change in overall traffic volume as a result of the proposed fare changes.

Pan American has not provided a separate forecast of financial results for its South Pacific services, but rather deals with its total transpacific operation. This overall forecast contemplates increased revenues of $5.2 million, an increase in average yield of 6.3 percent, and a rate of return of 9.5 percent. Pan American does state that it anticipates an increase in revenues of $3 million and a 5.8-percent increase in yield on its South Pacific route, with revenue passenger miles remaining unchanged.

In a complaint filed with the Board on April 23, 1973, the Aviation Consumer Action Project (ACAP) et al,[4] requests that the Board disapprove the agreements insofar as they provide for "minimum fares" and for increased fares; disapprove the dollar increases proposed in connection with devaluation of the dollar; direct the respondents to charge the fares in effect on March 31, 1973; direct that all IATA carriers submit data showing expenses incurred and revenues generated in local currencies of each country affected by the devaluation and order a full and comprehensive investigation of the reasonableness of existing and proposed fares including establishment of standards of reasonableness for the future guidance of the carriers.

ACAP contends that, since the IATA resolutions provide for minimum fares, the carriers would be free to file tariffs providing higher fares and that such tariff filings would be unlawful under Section 403 of the Act. It is further alleged that the proposed South Pacific package has the effect of increasing fares by an average of 30 percent since January 1971, and that such an increase has not been justified by corresponding increases in the cost of operation; that the proposed fare increases would have a negative impact on the U.S. carriers' financial condition[4] by inhibiting the de-

[1] The increases proposed for travel between the U.S. west coast points and Papeete average six percent.

[2] A two-percent increase would apply to Papeete.

[3] K. G. J. Pillai, Neil G. McBride, Brant S. Goldwyn and Aviation Consumer Action Project.

[4] ACAP notes that American's net income changed from a $1.2 million profit to a $1.7 million loss in 1972.

V 38 I 138 JUL 19 1973 XUM

velopment of travel; and that since the fares are unjust and unreasonable and bear no relation to the airlines' costs, the entire fare structure should be subjected to investigation. Lastly, ACAP contends that the increase in fares attributable to devaluation of the dollar is not supported by the carriers and more detailed data is required to determine its appropriateness.[5]

Pan American requests dismissal of ACAP's complaint on the ground that it is unreasonable; the traveling public must pay for its transportation at a charge which will permit the carriers a reasonable profit; that ACAP has not demonstrated that its membership is in any way representative of users of air transportation, and that the carriers must adhere to their tariffs whether or not IATA agreements specify minimum fares. The proposed fares are alleged to be justified in terms of cost escalations. It is contended that ACAP's reliance on B–747 operating costs is misplaced in that it ignores improved load factors and the fact that costs per aircraft mile and per seat mile are increasing dramatically, and that one third of Pan American's direct operating costs are incurred in B–707 operations, a fact ignored by ACAP. Pan American alleges that it cannot increase its load factor to offset cost increases or, conversely, adjust its capacity downward in response to a decline in traffic. Finally, Pan American denies it will experience a decrease in net income and alleges that the magnitude of the currency adjustment is necessitated by the impact of devaluation on foreign carrier revenues

ACAP attributes American's swing in earnings from a positive 4.9-percent rate of return in 1971 to a negative 5.3 percent in 1972 to the fare increases approved by the Board for effect April 1, 1972, and a consequent adverse impact upon traffic. However, available data suggest the more probable conclusion that this adverse trend stems primarily from a significantly increased level of expense. A comparison between the two years reveals that American's revenue passenger miles increased by 28 percent while its available seat miles increased by only 15 percent. The result was an improvement of 3.3 percentage points in load factor. In other words, its increased overall expenses cannot be ascribed to operation of capacity beyond that warranted by traffic growth. On the other hand, while operating revenues per ton mile increased 6 percent, operating expenses increased by 17 percent. Admittedly, the general level of fares over the South Pacific has increased significantly since January 1971, although not in the overall magnitude suggested by ACAP. However, we are unable to conclude that this fact has been a major factor contributing to American's presently unsatisfactory financial results. To the contrary, it would appear that the primary influence has been a general escalation in the cost of providing the service. While definitive data with respect to Pan American's operating experience on this route is not available, we have no reason to believe that its results from comparable service would be significantly different.

We recognize that the load factors over the South Pacific route have been substandard and are likely to remain so, at least for the immediate future. On the other hand, there is no indication of over-scheduling at the present time; indeed, the overall pattern would appear to reflect the minimum necessary for adequate development of the potential market. American currently provides a total of seven weekly flights with B–707 aircraft; three terminating in Sydney, three in Auckland, and the seventh in Melbourne. Pan American provides two flights daily with B–707 equipment to Papeete, one each from San Francisco and Seattle; daily service to Australia (three of which are with B–747 equipment) and five B–707 weekly flights to Auckland. It is generally acknowledged that the tourist potential in this area of the world has yet to be tapped, and there is no basis for concluding that a material curtailment of service would be feasible if this objective is to materialize.

Against this background and in light of a demonstrated insufficiency in earnings, at least on American's part, which appears to be caused by a general increase in cost levels, we are unable to conclude that disapproval of the agreements would serve the public interest. By the same token, it seems reasonable to expect that the proposed reduction in GIT and affinity-group fares and introduction of a new low APEX fare will stimulate traffic growth and improve load factors. For this reason, we believe the structure should be permitted to stand the test of actual experience in the marketplace, and that an investigation as requested by the complainants would be premature at best and of little value at this time. Accordingly, the request therefor will be denied.

We will approve the increase in fares to reflect devaluation of the U.S. dollar consistent with our previous approval of similar adjustments in other world areas. The thrust of ACAP's complaint is apparently directed at the impact of this adjustment on the U.S. carriers and the possibility that it would more than compensate for their increased costs. We note, however, that the Australian dollar has appreciated in value in relation to the U.S. dollar by nearly 20 percent and the New Zealand dollar has appreciated by over 12 percent.[6] Air service between the United States and these countries constitutes the major part of the South Pacific air services covered by the instant agreement. In reviewing the agreement, we must bear in mind that the devaluation of the dollar was a matter of national policy not simply a matter of air transportation policy. It was intended, among other things, to make U.S. goods and services sold abroad, including travel to the U.S., cheaper in terms of foreign currencies. It was also intended to make imports of foreign goods, including our travel to foreign points, more expensive in terms of U.S. dollars. For us to insist on status quo with respect to dollar fares would require all of the currency exchange adjustment to be accomplished by a reduction in fares sold in other countries in foreign currencies. This would be manifestly unfair to all the carriers concerned, U.S. and foreign alike, as well as inconsistent with our national policy. Some accommodation on both sides is necessary and we are satisfied the carriers have reached a reasonable result in the circumstances.

American and Pan American assert that numerous elements of their costs of doing business abroad in terms of U.S. dollars have increased. These include landing fees, commissary supplies, foreign payrolls, rents, fuel and oil, and other items. It appears that foreign-flag carriers doing business in the United States and operating these routes would be faced with a similar result. Revenues earned in the United States by such carriers serving the South Pacific were estimated at approximately $50 million in 1971, the latest period for which data are available to the Board.[7] Related expenses are estimated at $20 million indicating a margin of revenues over expenses of $30 million. The recent devaluation of the U.S. dollar in relation to the currencies of Australia and New Zealand, estimated to average 15 percent, would reduce that $30 million margin, when converted to the foreign currencies, by about $4.5 million. However, the proposed 5-percent increase in U.S. dollar fares would recoup only about $2.5 million for these foreign-flag carriers.

Without an increase in air fares, the U.S. air carriers would have to absorb the increased costs noted earlier and the foreign carriers would suffer an unwarranted reduction of earnings generated in this country. While it appears that the proposed 5-percent fare increase attributed to currency adjustments would over-compensate the U.S. carriers to a small degree,[8] we have earlier noted that this result ordinarily obtains since it is not feasible to devise one single fare adjustment factor which will precisely adjust each carrier's individual situation.[9] It is clear, however, fares and fare adjustments must be uniform for all carriers on the same routes. The IATA conference was called to evaluate all these factors and to attempt to strike a reasonable balance among the varying needs of the several carriers. In our opinion, the agreed 5-percent adjustment in U.S. dollar fares is reasonable in view of the 12 to 20 percent devaluations of the U.S. dollar in relation to the currencies of the principal countries in this area.

Finally, we reach the contention of ACAP that agreements which establish minimum fares are in violation of the Board's regulations. We do not agree. It is true that tariffs filed pursuant to such agreements could provide for fares in excess of the specified minimums. However, as a practical matter competitive considerations are such that the minimum in virtually all cases becomes the effective fare. In any event, any tariff filed with the Board must comply with the Board's regulations, and any departure from the filed tariffs would be in violation of these regulations. The Board is not without power to take effective action to preclude effectiveness of a proposed tariff if and at such time as it considers it appropriate to do so.

The IATA fares incorporated in this agreement apparently result from constructing the fares to and from the mainland of the United States, without regard for the level of domestic air fares which exist for travel between Hawaii and the mainland. Fares from South Pacific points to Hawaii plus domestic fares to mainland points are lower than the IATA specified mainland—South Pacific fares. Although one of the resolutions incorporated in the instant agreement does provide for a review of the construction rules, the situation as it presently exists over the South Pacific, and which will continue to exist upon Board approval of the instant agreement, provides for through fares between the mainland and South Pacific points which are in excess of the sum of the local sector fares for what is essentially the same service.

In the face of fare construction problems of this type, the Board has in the past conditioned that IATA machinery resolutions to ameliorate the situation. For example, Board Order 72–10–1, October 2, 1972, provides that "no IATA Resolution shall be construed as preventing any agent or carrier from selling a ticket or any number of tickets for air transportation to any person who meets the travel requirements affixed to the air fare subject to the stipulations contained in the lawful tariffs of the various carriers involved in said transportation, as filed with the Civil Aeronautics Board (where such filing is required by law)." We further stated on that occasion that, "a through fare which is higher than the aggregate of intermediate fares is ordinarily considered to be unreasonable per se, and would not ordinarily be permitted to go into effect."

Despite the above condition and the Board's general position in this regard, the instant agreement contains South Pacific fares to the mainland which are in excess of available combinations of domestic and international fares for routings over Hawaii. Our prior Order 72–10–1 conditions continue in force and thus the lower fares over Hawaii will in fact be available to passengers traveling over that routing despite the higher specified through fares from origin to destination. While we have decided to approve the subject agreement now, pursuant to conditions previously applied, we expect the affected carriers to furnish a complete and factual analysis why this anomaly continues to exist. Our action of approval herein is subject to modification after receipt and evaluation of carrier justification and comments from interested third parties.

Pursuant to Executive Order 11723 dated June 13, 1973, a price freeze was imposed for a maximum period of 60 days. The freeze is applicable until further notice to international passenger fares and cargo rates charged by U.S.-flag carriers for transactions undertaken in the United States and paid for in U.S. dollars. Since the agreements we are herein approving propose both increases and decreases in air fares, we will permit tariffs to be filed at this time to implement the newly proposed APEX fares and those fares involving reductions. We will, however, prohibit the filing of tariffs by U.S. carriers which would effect increased fares until further order of the Board. Specifically, U.S. carriers may file to implement the proposed new individual advance-purchase excursion fare and the affinity-group fare.[10] They are also permitted to file tariffs reflecting the reduced group inclusive tour fare. However they will not be permitted to implement the $25.00 stopover charge applicable to the four stopovers permitted, since the addition of this charge for two or more stopovers would result in a total price which exceeds that applicable during the base period.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act makes the following findings:

1. It is not found that the following resolutions, which are incorporated in the agreement as indicated, are adverse to the public interest or in violation of the Act:

Agreement C.A.B.	IATA No.	Title	Application
23596:			
R–1	001b	South Pacific Special Effectiveness Resolution (Tie-In)	3–1 So. Pacific.
R–2	001f	Special Emergency Escape for JT31 (South Pacific) Agreement (NEW).	3–1 So. Pacific.
R–3	001r	Special Escape for JT31 Agreement (South Pacific) (NEW)	3–1 So. Pacific.
R–4	002 II	Standard-Revalidation Resolution-South Pacific	3–1 So. Pacific.
R–5	014uu	Review of Construction Rule for Passenger Fares (NEW)	3–1 So. Pacific.
R–6	015a	South Pacific Proportional Fares North America (Revalidating and Amending).	3–1 So. Pacific.
R–7	056a II	South Pacific First-Class Fares	3–1 So. Pacific.
R–8	060	Economy-Class Conditions of Service (Revalidating and Amending).	3–1 So. Pacific.
R–9	066a II	South Pacific Economy-Class Fares	3–1 So. Pacific.
R–10	070b	South Pacific 28-Day Excursion Fares (Revalidating and Amending).	3–1 So. Pacific.
R–11	070p	South Pacific 23- and 30-Day Excursion Fares (Revalidating and Amending).	3–1 So. Pacific.
R–15	080d	South Pacific 23-Day Individual Inclusive Tour Fares (Revalidating and Amending).	3–1 So. Pacific.
R–16	080m	South Pacific 35-Day Individual Inclusive Tour Fares (Revalidating and Amending).	3–1 So. Pacific.
R–19	250	Sleeper Surcharge (Amending)	3–1 So. Pacific.
R–11	022g II	JT31 Special Rules Relating to Sales of Passenger Air Transportation (NEW).	3–1 So. Pacific.

2. It is not found that the following resolutions, which are incorporated in the agreement as indicated, are adverse to the public interest or in violation of the Act: *Provided*, That approval is subject to conditions previously imposed by the Board:

Agreement C.A.B.	IATA No.	Title	Application
23596:			
R–13	075s II	JT31 South Pacific Group Fares (Revalidating and Amending)	3–1 So. Pacific.
R–17	084d II	JT31 South Pacific Group Inclusive Tour Fares (Revalidating and Amending).	3–1 So. Pacific.

3. It is not found that the following resolutions, which are incorporated in the agreements as indicated, are adverse to the public interest or in violation of the Act: *Provided*, That approval is subject to conditions stated herein:

Agreement C.A.B.	IATA No.	Title	Application
23596:			
R–12	071j	JT31 Advance-Purchase Excursion Fares, South Pacific (NEW)	3–1 So. Pacific.
R–14	076n	JT31 South Pacific Affinity Own Use Incentive Group Fare (NEW).	3–1 So. Pacific.
R–18	084dd	JT31 South Pacific Group Inclusive Tour Fares (NEW)	3–1 So. Pacific.

Provided, That with respect to Resolution 071j:

(a) In the event a passenger discontinues his journey en route for any reason, the amount of the fare paid may be applied as a credit towards the purchase of transportation at the applicable fare calculated from the original point of origin. Similar credit towards the purchase of transportation at applicable

[5] In a separate document filed by ACAP in reply to the carriers' justifications, ACAP states that the information supplied is inadequate.

[6] Exchange rates quoted by Chase Manhattan Bank, May 22, 1973: Australian dollar = $1.42 U.S.; New Zealand dollar = $1.34 U.S. The pre-devaluation parity for both these currencies was $1.19 U.S.

[7] Based on data provided by the Balance of Payments Division of the Department of Commerce.

[8] We estimate the U.S. carriers' revenue increase at $1.0 million.

fares may be made for other members of the fare group who belong to the immediate family of such passenger;

(b) Full refund shall be made in the event of death or illness of the passenger or of a member of the passenger's immediate family prior to travel; and

Provided that with respect to resolution 076u:

(a) The provisions imposing numerical limitation and/or population standards on affinity groups from which the passengers may be drawn shall not be applicable;

(b) The provision which at departure time would permit a lesser number of passengers than that prescribed by the Resolution to travel shall not be limited to situations caused by circumstances beyond the control of the passengers dropping out of the group and the balance of the group may travel at no added cost;

(c) In the event a passenger discontinues his journey enroute for any reason, the amount of the fare paid may be applied as a credit toward the purchase of transportation at the applicable fare calculated from the original point of origin. Similar credit toward the purchase of transportation at applicable fares may be made for other members of the travel group who belong to the immediate family of such passenger;

(d) The amount of the forfeiture to be imposed in the event of cancellation by the group or members of the group prior to or at departure time for any reason shall not exceed 25 percent of the fare paid and after departure the forfeiture shall not exceed 25 percent of the excess of the price of the group-fare ticket over the cost of normal-fare transportation from the point of origin to the point of cancellation;

(e) Full refund shall be made in the event of death or illness of the passenger or of a member of the passenger's immediate family prior to travel;

(f) Full refund of the group fares paid shall be made in the event of cancellation of travel arrangements by a carrier on the grounds that the group or any member of the group is ineligible for the group fares; and

Provided, That with respect to resolution 084dd:

(a) The provisions which at departure would permit a lesser number of passengers than that prescribed by the resolution to travel shall not be limited to situations caused by circumstances beyond the control of the passengers dropping out of the group and the balance of the group may travel at no added cost;

(b) In the event a passenger discontinues his journey en route for any reason, the amount of the fare paid may be applied as a credit toward the purchase of transportation at the applicable fare calculated from the original point of origin. Similar credit towards the purchase of transportation at applicable fares may be made for other members of the fare group who belong to the immediate family of such passenger;

(c) Full refund shall be made in the event of death or illness of the passenger or of a member of the passenger's immediate family prior to travel;

(d) The amount of the forfeiture to be imposed in the event of cancellation by the group or member of the group at departure time for any reason shall not exceed 25 percent of the fare paid and after departure the forfeiture shall not exceed 25 percent of the excess of the price of the group-fare ticket over the cost of normal-fare transportation from point of origin to point of cancellation.

4. It is not found that the following resolutions, which are incorporated in the agreement as indicated and which are indirectly applicable in air transportation as defined by the Act, are adverse to the public interest or in violation of the Act:

Agreement C.A.B.	IATA No.	Title	Application
23642: R-2	013a	South Pacific Proportional Fares North America (Amending)	3-1 So. Pacific.

Accordingly, it is ordered, That:

1. Those portions of Agreements C.A.B. 23596 and 23608 set forth in paragraph 1 above be and hereby are approved;

2. Those portions of Agreement C.A.B. 23596 set forth in paragraph 2 above be and hereby are approved subject to previous conditions imposed by the Board;

3. Those portions of Agreement C.A.B. 23596 set forth in paragraph 3 above be and hereby are approved subject to the conditions set forth therein;

4. Those portions of Agreement C.A.B. 23642 set forth in paragraph 4 above be and hereby are approved;

5. Tariffs implementing Agreement C.A.B. 23596 shall be marked to expire March 31, 1974;

6. Tariffs implementing Agreement C.A.B. 23608 shall be marked to expire October 31, 1973;

7. The U.S. carriers may file tariffs implementing the agreements only insofar as the tariffs would reflect the new APEX fares and reduced fares for affinity group and group inclusive tour travel (excluding the stopover charge);

8. Tariffs shall not be filed by U.S. carriers implementing the fare increases herein approved until further Board order;

9. The carrier parties to the agreements file with the Board, within thirty days from the date of service of this order, justification and comment pertaining to the relationship between IATA-agreed South Pacific fares and fares constructed over Hawaii in conjunction with domestic fares; comments by other interested persons will also be accepted within this thirty-day period; and

10. The complaint by Aviation Consumer Action Project (ACAP) in Docket 25453 as it relates to South Pacific fares is dismissed.

This order will be printed in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[11]

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

[Docket No. 24488; Order 73-7-54]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Fares Over the North Central Pacific and Within the Pacific

Adopted at the Civil Aeronautics Board at its office in Washington, D.C., on the 12th day of July 1973.

Agreements have been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign carriers, and other carriers, embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA), and adopted at meetings in New York and London in the winter of 1973.[1] Insofar as they directly relate to air transportation as defined by the Act, the agreements, which have been assigned the above-designated C.A.B. agreement numbers, encompass the overall North/Central and South Pacific fare structures and fares to be applied within the Pacific area. This order deals solely with the North/Central Pacific fares and fares to/from Guam and American Samoa.[2]

First-class, normal economy, excursion, individual inclusive tour, and affinity-group-of-25 fares between United States west coast points and Tokyo would be increased by nine percent, five percent of which is intended to offset the impact of devaluation of the U.S. dollar. Peak season group inclusive tour fares and fares for affinity groups of 70 or more passengers would be increased by five percent to reflect the currency adjustment, while basic season group inclusive tour fares would be reduced by five percent.[3] Finally, a new affinity-group fare would be introduced for groups of 100 or more for round-trip travel between the U.S. and Tokyo. This new fare represents a discount of 62 percent from the proposed normal economy fare. A comparison of selected present and proposed fares is shown in Appendix A.

[1] Agreement C.A.B. 23642 was adopted by mail vote.

[2] Those portions of the agreements relating to South Pacific fares are disposed of by separate order issued simultaneously herewith.

[3] For travel to points beyond Japan, the affinity-group-of-70 fare would be reduced by 7 percent.

Fares between Guam and American Samoa, on the one hand, and foreign points in the Pacific area, on the other hand, would be increased on the average of four to five percent, with an additional increase of five percent to reflect the recent devaluation of the dollar. A new 7/21-day group inclusive tour fare would be made available for travel from Pago Pago to points on the Indian subcontinent and in Asia, which would be available to groups of 10 or more passengers and would be established at a 45-percent discount from the applicable economy-class round-trip fare. Finally, a 30-day excursion fare would be specified for use by U.S. military personnel between Guam and Okinawa, and from Okinawa to Hong Kong. This excursion fare would also be available to civilian employees of the U.S. Government and their dependents from Okinawa to Hong Kong.

Pan American World Airways, Inc. (Pan American), Northwest Airlines, Inc. (Northwest) and Trans World Airlines, Inc. (TWA) have submitted justification in support of the agreed fare structure. Pan American's forecast for the year ending April 30, 1974 deals with its total transpacific operation, and projects increased revenues of $5.2 million, an increase in average yield of 6.3 percent, and a rate of return of 9.5 percent. Pan American does state, however, that it anticipates an increase in revenues of $1.4 million and a 5.6-percent increase in yield on its North/Central Pacific route, as compared with expected results at status quo fares. A decline of 4.5 percent in revenue passenger miles from the volume which would have been carried at status quo fares is forecast.

Northwest projects for the same future year an increase in net income after taxes of $598,000 (excluding currency adjustments) which would not cover the total cost increases it anticipates during this period.[4] Northwest projects a rate of return of 5.19 percent under the proposed fare structure, well below the 12-percent standard of reasonableness established by the Board for the domestic trunkline industry.

TWA states that the full impact of the fare increases, including increases due to currency revaluation, is expected to be a revenue gain of $2.8[5] million over maintenance of status quo fares, $1.3 million of which would be due to basic increases in the fares and $1.5 million flowing from the currency adjustment. This result is not expected to offset TWA's Pacific Division loss, which amounted to $7.6 million in 1972. However, the carrier contends that the proposed fare structure provides an improved base for future attainment of a profitable posture.

In a complaint filed April 23, 1973, the Aviation Consumer Action Project et al., (ACAP)[6] request that the Board disapprove the agreements insofar as they provide for "minimum fares" and for fare increases; disapprove the increases proposed in connection with devaluation of the dollar; direct the respondents to charge the fares in effect on March 31, 1973; direct that all IATA carriers submit data showing expenses incurred and revenues generated in the local currencies of each country affected by the devaluation; and order a full and comprehensive investigation of the reasonableness of existing and proposed fares, including establishment of standards of reasonableness for the future guidance of the carriers.

ACAP contends that, since the IATA resolutions provide for minimum fares, the carriers would be free to file tariffs providing higher fares and that such tariff filings would be unlawful under section 403 of the Act. It is further alleged that the proposed North/Central Pacific package has the effect of increasing fares significantly since January 1971, and that such an increase has not been justified by corresponding increases in the cost of operation; that the proposed fare increases would have a negative impact on the U.S. carriers' financial condition by inhibiting development of travel; and that since the fares are unjust and unreasonable and bear no relation to the airlines' costs the entire fare structure should be subjected to investigation. Lastly, ACAP contends that the increase in fares attributable to devaluation of the dollar is not supported by the carriers and more detailed data is required to determine its appropriateness.[7]

Pan American requests dismissal of ACAP's complaint on the grounds that the traveling public must pay for its transportation at a charge which will permit the carriers a reasonable profit; that ACAP has not demonstrated that its membership is in any way representative of users of air transportation; and that the carriers must adhere to their tariffs whether or not IATA agreements specify minimum fares. The proposed fares are alleged to be justified in terms of cost escalations. It is contended that ACAP's reliance on B-747 operating costs is misplaced in that it ignores improved load factors, the fact that costs per aircraft mile and per seat mile are increasing dramatically, and that one third of Pan American's direct operating costs are incurred in B-707 operations. Pan American alleges that it cannot increase its load factor to offset cost increases or, conversely, adjust its capacity downward in response to a decline in traffic. Finally, Pan American denies it will experience a decrease in net income and alleges that the magnitude of the currency adjustment is necessitated by the impact of devaluation on foreign carrier revenues.

As indicated, Pan American and Northwest anticipate that transpacific operations under the proposed fare structure will result in returns on investment of 9.5 percent and 5.2 percent, respectively, for the year ending April 30, 1974. However, we believe certain adjustments in the forecasts of both carriers are appropriate in evaluating the agreement before us. Pan American's forecast is based on a significant decline in revenue passenger miles, not only compared to its actual 1972 results which were inflated due to a strike against Northwest, but also in relation to the results forecast in support of the 1972 IATA fare package.[8] We believe it only realistic to expect that Pan American can achieve, in the immediate year coming up, at least the volume of traffic which it projected for 1973 before the disruption in competitive services was known. Accordingly, we have adjusted Pan American's forecast to reflect the level of revenue passenger traffic projected last year and have made appropriate adjustments in revenues and expenses. This adjustment produces a load factor of 50.7 percent, and results in an increase in projected rate of return from 9.5 percent to 10.9 percent.

This return is that forecast for Pan American's total operations in the Pacific sector, rather than reflecting the results which can be expected from its North/Central Pacific services alone. In approving the fares proposed for South Pacific services,[9] the Board concluded that those services were not producing an adequate return on investment, as indicated by American's substandard earnings, notwithstanding its minimal flight frequency. Although Pan American did not provide data relating solely to its South Pacific operations, we have no reason to believe that its experience in that area would significantly differ. Accordingly, the 10.9-percent rate of return which we arrive at for its total transpacific operation must be considered as significantly under-stated insofar as North/Central Pacific services are concerned.

In evaluating the IATA agreement filed a year ago for application through March 1973,[10] the Board concluded that there appeared no requirement that Northwest operate three of its four daily transpacific flights with B-747 aircraft, as opposed to the pattern of two B-707 flights and two B-747 flights operated the previous year. In the Board's opinion, this constituted an excess of capacity for

[4] Northwest forecasts cost increases of $8.3 million based on actual increases already incurred and contracted future increases.

[5] TWA projects revenue and yield increases of 7.8 percent and 9.3 percent, respectively, and a decline of 1.4 percent in passengers carried under the proposed fares.

[6] K.G.J. Pillai, Neil G. McBride, Brant S. Goldwyn and Aviation Consumer Action Project.

[7] In a separate document filed by ACAP in reply to the carriers' justifications, ACAP states that the information supplied therein is inadequate.

[8] At that time, Pan American indicated that it expected to carry slightly more than 4,018 million revenue passenger miles during the year ending March 31, 1973, at a load factor of 51.2 percent. Its actual results in 1972 show 4,217 million revenue passenger miles, at a 54.4 percent load factor. On the other hand, for the year ending April 30, 1974, Pan American projects approximately 3,852 million revenue passenger miles, and a 48.6-percent load factor.

[9] Order 73-7-55.

[10] Order 72-3-105.

V 38 I 138 JUL 19 73 XUM

which the traveling public should not be required to pay. Accordingly, Northwest's projected available seat miles were reduced to reflect disallowance of the capacity attributed to the substitution of one B–747 for one B–707 aircraft. Here, Northwest's forecast is predicated upon a level of available seat miles produced by the operation of three B–747 and one DC–10 aircraft. The resulting load factor is projected at 40.8 percent. In the absence of a much more convincing justification for this escalation in capacity, we believe it appropriate to adjust Northwest's forecast to reflect the seat miles which would result from operation of B–707 aircraft at its California gateways. This adjustment would result in a load factor of 53.2 percent, and a return on investment of 14.3 percent. Pan American, on the other hand, projects a capacity increase of only one percent over that which it previously projected for the year ended March 31, 1973 (two percent over actual 1972 operations).

Before leaving the question of capacity offered, we believe there is another matter which warrants comment. The data furnished by TWA indicate that almost 40 percent of its traffic is carried either at special military fares or very low fares applicable to so-called "perimeter" travel. The yields from this traffic are alleged to be 2.39 cents and 0.70 cents per mile, respectively, with the result that TWA anticipates that its overall yield at present fares in the immediate year ahead would be 4.10 cents, substantially below the yield of 6.51 cents from normal economy fares at which approximately 29 percent of the traffic travels. Comparable information has not been furnished by Pan American. However, special reports available in the Board indicate that 10 percent of this carrier's traffic on North Central Pacific services moves on reduced military furlough fares, and another 25 percent is classified as "all other," which we assume to be largely low-yield carriage. At the very least, the magnitude of such noncommercial and very-low-yield traffic calls into question the reasonableness of the volume of capacity now being operated, and at relatively low load factors, across the Pacific.

Serious concerns are, therefore, raised as to the volume of capacity being offered over the Pacific and the attendant low levels of load factors considering the mix of traffic which apparently exists. To charge the fare payers for this excess capacity is adverse to the public interest. Both Pan American and TWA project yield improvement over that which could be anticipated under status quo fares (5.6 percent and 9.3 percent, respectively). On the other hand, both anticipate reductions in traffic attributable to implementation of the new fare package of 4.5 percent and 1.4 percent, respectively. Quite apart from the question of whether or not the carriers' projected returns on investment indicate a need for improved yield and additional revenue, we have considerable difficulty with a fare structure which it is conceded will have an adverse impact upon traffic growth. The Board has consistently urged in recent years that the carriers move toward a fare structure which will be effective in promoting the as yet under-developed tourist potential of the Pacific market. A truly promotional pattern of fares would not only serve the needs of the traveling public, it would also be equally beneficial to the industry. In our opinion, the fare structure here before us for approval will not adequately satisfy this objective. Leaving currency adjustments aside for the moment, certain fares would be maintained at present levels or reduced in moderate amounts. On the other hand, those fares at which the majority of passengers now travel would be increased by four percent. Economy and excursion fares between the west coast and Tokyo, in the event of approval of the instant agreements, would have been increased by 30 percent and 23 percent, respectively, since January 1971.

Nor are we persuaded that introduction of such a greatly reduced fare for affinity groups of 100 or more persons is either necessary or the answer to effective and vigorous promotion of tourist travel in the Pacific area. The modest volume of traffic anticipated by the carriers to move at this fare would seem to bear out the Board's opinion.

In summary, the Board is unable to conclude that the fare increases proposed are required to sustain profitable services across the Pacific. We do not believe the traveling public should be asked to support the apparent operation of capacity in excess of that needed to adequately accommodate the market. By the same token, there is every indication that a large tourist potential exists for travel in this area which should be provided that opportunity, and which, if tapped, should greatly enhance the economics of the carriers' services. In our opinion, the pattern of fares proposed is not sufficiently developmental to do so.

We shall likewise disapprove the special excursion fares proposed to be introduced for U.S. Government civilian employees and their dependents for travel from Okinawa to Hong Kong. Such fares, which would be available to a narrow segment of the traveling public based on their employment status, would constitute an unjust discrimination and, absent compelling reasons to the contrary, cannot be permitted to be implemented. We are, however, approving those fares in the new package which are proposed to remain unchanged or reduced, including the new fares for affinity groups of 100 or more passengers for travel between the United States and Tokyo. In our opinion, approval of these fares is warranted in that they should in some measure serve to stimulate travel to and from the Far East.

In view of our action herein, which disapproves the proposed increases in fares, the structure which evolves should serve to stimulate new traffic while at the same time probably retain the majority of fares at last year's levels. For this reason, and with the capacity adjustments referred to previously, we believe the structure should be permitted to stand and that an investigation as requested by ACAP would be premature and of little value at this time. Accordingly, the request will be denied.

We turn now to that part of the agreement which would increase fares for U.S.-originating passengers by five percent to reflect increased expenses associated with devaluation of the dollar. Generally, when a currency is devalued it is reasonable to conclude that some upward adjustment in fares quoted in that currency is necessary to compensate for the increased expenses incurred by both U.S. and foreign carriers. However, we are unable to discern from the data submitted by the U.S. carriers and from other data available to the Board that the devaluation of the dollar, as it affects both U.S.- and foreign-flag carrier services on North/Central Pacific routes, would have an adverse impact sufficiently significant to warrant increased dollar fares for U.S.-originating passengers.

Two sets of conditions may warrant an increase in fares resulting from dollar devaluation. The first is U.S. carrier operations abroad which earn less revenues in the foreign local currency than local expenses incurred in local currency. In that event dollars must be exported to defray the overage of expenses and more of the lower valued dollars are required to maintain status quo.

None of the three U.S. carriers serving the North/Central Pacific have made such a showing. Pan American relies on prior Board actions pertaining to devaluation and cites its need for additional revenues. TWA indicates that it will remain in a negative earnings position. Northwest suggests their expenses incurred abroad will increase in proportion to the decline in the value of the dollar relative to the various foreign currencies. However, this contention does not take into account revenues earned abroad in foreign currencies.

The second set of conditions relating to the need to adjust fares because of devaluation pertains to the revenue/expense relationship of the foreign-flag carriers in their business conducted in the United States. If the revenue earned in devalued dollars in the United States exceeds dollar expenses, the value of the excess is reduced when the funds are remitted. Although we have determined that this is the situation over both the North Atlantic and the South Pacific [1] (the foreign-flag carriers earn more than they spend in the United States) we are unable to conclude from the data available to the Board that a similar situation exists with respect to foreign-flag operations over the North/Central Pacific. From data available it appears that the reverse is true, that the expenses of foreign-flag carriers incurred in the United States are greater than the revenues earned. For example, data obtained from the U.S. Department of Commerce, Balance of Payments Division, indicate that the ratio of expenses to revenue incurred by the Japanese national carrier from operations primarily over the transpacific, in the United States is 1.6 to 1. As a consequence foreign funds must flow to the United States to offset this deficit and as the foreign currency has appreciated in value, less units of currency are required to compensate for the deficit than was the case prior to dollar devaluation. Under these circumstances an increase in dollar fares premised on increased expenses is unwarranted.

No carrier has provided meaningful evidence that the devaluation of the dollar brings about circumstances over the North/Central Pacific which warrant an increase in dollar fares. Therefore, the agreement will be disapproved.

Finally, ACAP contends that agreements which establish minimum fares are in violation of the Act and the Board's regulations. We do not agree. It is true that IATA agreements do not *per se* foreclose the filing of tariffs which hold out fares in excess of the minimum fares specified therein. However, as a practical matter, competitive considerations are such that the minimum in virtually all cases becomes the effective fare. In any event, any tariff filed with the Board must comply with the Board's regulations, and, conversely, any departure from filed tariffs would be in violation of these regulations. The Board is not without power to take effective action to preclude effectiveness of a proposed tariff if and at such time it considers it appropriate to do so. In any event, the point is moot in this instance in view of our action herein.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act makes the following findings:

1. It is not found that the following resolutions, which are incorporated in the agreement as indicated, are adverse to the public interest or in violation of the Act and the Board's regulations:

Agreement C.A.B.	IATA No.	Title	Application
23800:			
R-1	001b	North and Central Pacific Special Effectiveness Resolution (Tie-In)	3-1 N/Central Pacific.
R-2	002 II	Standard Revalidation Resolution North and Central Pacific	3-1 N/Central Pacific.
R-3	014u	Review of Construction Rule for Passenger Fares (NEW)	3-1 N/Central Pacific.
R-4	015b	North and Central Pacific Proportional Fares—North America—Japan (Revalidating and Amending)	3-1 N/Central Pacific.
R-6	060	Economy-Class Conditions of Service (Revalidating and Amending)	3-1 N/Central Pacific.
R-10	0794	North and Central Pacific Contract Bulk Inclusive Tour Rules (Revalidating and Amending)	3-1 N/Central Pacific.

[Docket No. 25659; Order 73-7-60]

LOCAL SERVICE CLASS SUBSIDY RATE

Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 13th day of July 1973.

By Order 73-6-119, dated June 29, 1973, the Board instituted an investigation directed to the establishment of a revised class subsidy rate for the local service carriers to be effective on and after July 1, 1973. The order also reopened, as of July 1, 1973, Class Rate VI,[1] the final subsidy rate presently in effect for the local service carriers. By a Statement of Provisional Findings and Conclusions and Order to Show Cause (Order 73-7-59) issued concurrently herewith, the Board is proposing a revised subsidy level based on the current fair and reasonable subsidy need as tentatively determined therein for the local service carriers effective July 1, 1973. The rate formula and its application to the subsidy need of each carrier has not been included in the Statement because, as stated therein, the design and testing of a new formula will require additional time. However, it is the Board's desire that the subsidy need level tentatively found for the new class rate, Class Rate VII, be effectuated July 1, 1973. We are therefore proposing herein a temporary rate which will serve as a basis for interim subsidy payments to each carrier, pending the establishment of final rates in this proceeding.

We believe that it is reasonable to establish a temporary rate which will be equal to the subsidy need level tentatively found to be fair and reasonable for each carrier for prospective annual periods on and after July 1, 1973, as set forth in the Statement and appendices thereto. The current level of subsidy payments for several carriers will materially change under the proposed rate and the temporary rate is needed to alleviate any large over or under payments that would occur if the present rate is allowed to remain in effect pending the fixing of a final rate. For administrative convenience, we propose to provide for the computation of temporary subsidy payments on the basis of daily need. The annual level of subsidy need and the daily need of each carrier are set forth below.

Based on the foregoing, we are directing each of the local service carriers to show cause why we should not fix the subsidy need level tentatively found to be fair and reasonable for final subsidy rate purposes for prospective periods on and after July 1, 1973, as the basis for temporary subsidy payments to each local service carrier effective July 1, 1973.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, particularly sections 102, 204, 406 and 1002 (b) thereof, *It is ordered*, That:

1. Allegheny Airlines, Inc., Frontier Airlines, Inc., Hughes Air Corp. d/b/a Airwest, North Central Airlines, Inc., Ozark Air Lines, Inc., Piedmont Aviation, Inc., Southern Airways, Inc., and Texas International Airlines, Inc., are directed to show cause why the fair and reasonable temporary rate of compensation to be paid each carrier on and after July 1, 1973, for the transportation of mail by aircraft, the facilities used and useful therefor and the services connected therewith, between the points between which the carriers have been, are presently, or hereafter may be, authorized to transport mail by their certificates of public convenience and necessity, should not be fixed and determined as equal to the fair and reasonable level of subsidy need specified in Order 73-7-59 for each carrier for prospective periods on and after July 1, 1973, pending the fixing of final subsidy rates for the carriers in the instant proceeding.[2]

2. Further procedures with respect to the temporary rate proposed herein shall be in accordance with the Board's rules of practice, particularly Rule 302, et seq., and if there is any objection to the rate specified herein, notice thereof must be filed within eight days, and, if notice is filed, written answer and supporting documents must be filed within 15 days after the date of service of this order.

3. If notice of objection is not filed within eight days, or if notice is filed and answer is not filed within 15 days after service of this order, or if an answer timely filed raises no material issue of fact, all parties shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order fixing the temporary subsidy rate specified herein: *Provided*, That if notice of objection and answer are filed by any carrier or carriers, the Board may enter an order fixing the rate specified herein for such carriers as have not filed notice of objection, or, having filed such notice, have not filed timely answer raising a material issue of fact.

4. This order shall be served upon all parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[12] Appendices A and B, and concurring statements of Timm, Chairman, and Minetti, Member, filed as part of the original document.

[1] Orders 72-6-72, June 16, 1972, and 72-7-82, July 25, 1972.

[2] This order is not intended to disturb the service mail rates established under other orders of the Board.

LOCAL SERVICE CLASS SUBSIDY RATE

Daily Subsidy Need, by Carrier Based on Proposed Annual Subsidy Level for the Year Beginning July 1, 1973

	($000) annual level	($) Daily level[1]
Allegheny	4,179	11,449.32
Frontier	8,479	23,230.14
Hughes Airwest	10,003	27,569.86
North Central	8,849	24,243.84
Ozark	7,579	20,764.38
Piedmont	7,006	19,194.52
Southern	6,265	17,163.38
Texas International	7,280	19,945.21
Total	59,700	

[1] During the annual periods on and after July 1, 1973, the monthly claim for temporary subsidy shall be the product of each carrier's daily need times the number of days in the calendar month exclusive of days on which operations are completely suspended due to a strike or other work stoppage. Any days of partial reduction of operations due to strikes or other work stoppages, when departures flown by the carrier are less than 90 percent of the departures scheduled to be flown on such days, shall be counted as a reduced number of days to be arrived at by multiplying the number of such days by the ratio of (a) the departures flown on such days divided by (b) the product of the departures scheduled to be flown on such days (based on the carrier's official schedules on file with the Board on or as of the last day prior to the work stoppage) times the system average performance factor of the carrier during the corresponding month of the prior year.

[FR Doc.73-14820 Filed 7-18-73;8:45 am]

[Order 73-7-56]

TRANSPORTATION OF HOUSEHOLD GOODS FOR DEFENSE DEPARTMENT

Extension of Temporary Relief to Certain Carriers

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 13th day of July 1973.

From time to time, at the request of the Department of Defense (DOD) the Board has granted relief from provisions of the Federal Aviation Act of 1958 (the Act) to permit 40 unauthorized indirect air carries to transport used household goods[1] of Department of Defense personnel. A condition for obtaining such relief was that the firm seeking it have on file with the Board an application for air freight forwarder authority. The relief was to expire 180 days after the Board's decision in the *Household Goods Air Freight Forwarder Investigation*, Docket 20812, became final[2] or, as to each individual company, upon Board disposition of such company's application for interstate and/or international air freight forwarder authority, whichever event shall occur first.[3]

Since the processing of a number of the applications could not be concluded prior to the expiration of the temporary relief and the Department of the Army, acting in behalf of DOD, requested extension of such relief, the Board extended the temporary relief for 90 days.[4] Such relief is to terminate July 16, 1973.

Due to the recently instituted 60-day price-freeze, many prepared tariffs had to be completely revised before acceptance for filing.[5] This has caused delay and the processing of applications of the fourteen applicants named in the appendix hereto will not be completed prior to expiration of the extended deadline.[6] Furthermore, by letter dated July 6, 1973, the Department of the Army requested further extension of the temporary relief for a reasonable period in those cases where the processing could not be completed by the time limit previously set.

In view of these circumstances and DOD's request, the Board finds that further extension of the temporary relief to those carriers named in the appendix hereto is in the public interest, and has decided to extend such relief for a period of 60 days to September 16, 1973.

Accordingly, it is ordered:

1. That pursuant to sections 101(3) and 204 of the Federal Aviation Act of 1958, as amended, the carriers listed in the appendix hereto are hereby relieved from the provisions of Title IV of the Act to the extent necessary to transport by air used household goods of personnel of DOD upon tender by that Department;

2. That the relief granted herein shall become effective July 17, 1973 and terminate on September 16, 1973, or as to each individual company named in the appendix hereto, upon board disposition of such company's application for interstate and/or international air freight forwarder authority, whichever event shall occur first;

3. That this order may be amended or revoked at any time in the discretion of the Board without hearing; and

4. That copies of this order shall be served on the Military Traffic Management and Terminal Service, U.S. Army, and the companies listed below.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[Docket No. 24875, etc.; Order 73-7-66]

FRONTIER AIRLINES, INC.

Order Regarding Applications for Changes in Service Points

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 13th day of July 1973. Application of Frontier Airlines, Inc., for suspension and deletion of Paris, Texas, Docket 24875; application of Frontier Airlines, Inc.; for permission to use the Tulsa International Airport at Tulsa, Oklahoma, for serving Muskogee, Oklahoma, Docket 24659; application of Frontier Airlines, Inc.; for deletion of McAlester by show cause order, Docket 24991.

Frontier Airlines, Inc. (Frontier) has filed applications seeking permission to serve Muskogee, Oklahoma, through Tulsa International Airport at Tulsa, Oklahoma (Docket 24659) and to suspend service at Paris, Texas, pendente lite a Board decision on its application seeking permanent deletion of the point from its certificate (Docket 24875). Frontier has also applied for amendment of its certificate of public convenience and necessity so as to delete the point McAlester therefrom. The applicant has moved that the above be accomplished by the issuance of an order to show cause.

Turning to the Muskogee application first, Frontier alleges, in support of its application, that Muskogee has consistently been a poor traffic-generating point averaging only 1.82 enplanements per day for the last four years; that service to Muskogee through Tulsa Airport will produce a $95,000 reduction in Frontier's subsidy need for FY 1973; and that there is convenient commercial bus service between Muskogee and Tulsa, as well as a limited access highway connecting the two cities. Frontier also asserts that the Sedalia-Marshall-Booneville Stage Line, Inc. (SMB) presently offers one daily round trip with Beech 99 and Piper Aztec equipment in the Muskogee-Tulsa/Dallas markets.[1]

With respect to Paris, Frontier states in support of its application to delete that point from its certificate that Paris is not isolated according to a standard set forth in a Board staff study;[2] that commercial bus service operates three and one-half round trips per day between Paris, on the one hand, and Dallas and Texarkana, on the other hand; that SMB currently provides one daily round trip in the Paris-Dallas/McAlester/Muskogee markets;[3] that Paris has consistently been a low traffic-generating point with an average of only four enplanements per day during the last four years, a situation which indicates that substantial numbers of Paris passengers utilize services at Dallas in preference to those available at Paris; and finally, that suspension at Paris will produce a $94,000 reduction in Frontier's subsidy need for fiscal 1973.

Finally, with respect to McAlester, Frontier states in support of its application that although Frontier has been suspended at McAlester for four years,[4] such suspension is conditioned upon the provision of substitute service by SMB which has been sustained only with the financial assistance of Frontier. Frontier further states that were it required to reinstitute service itself, it would result in a subsidy need increase of $112,000, but that its present subsidy is already inadequate to cover increasing costs and cyclical risks. Frontier finally states that such situation results from the poor traffic-generating potential of McAlester, a situation caused by, and likely to be perpetuated by, increased utilization of high-speed surface transportation.

The Air Line Pilots Association, International (ALPA) opposes grant of Frontier's application to delete Frontier at McAlester without a hearing. The City of McAlester and McAlester Chamber of Commerce (McAlester) oppose grant of Frontier's application, asserting that they need air service between McAlester, on the one hand, and Tulsa and Dallas, on the other.

Muskogee and Paris object to grant of Frontier's respective requests,[6] stating, inter alia, that favorable action on these applications would deprive shippers and passengers of needed air service, and in Muskogee's case, jeopardize the provision of replacement service by SMB.

Upon consideration of the pleadings and all the relevant facts, we have decided to deny Frontier's requests for a show cause order and temporary suspension at Paris, and for permission to serve Muskogee through Tulsa without a hearing. We have also decided to deny Frontier's request to delete McAlester by issuance of an order to show cause. The communities oppose Frontier's requests and we believe that under all the circumstances it is appropriate to consider in an evidentiary record the conflicting contentions of the parties. Frontier's pleadings raise important questions which merit further consideration, and consequently, we have decided to set down for hearing Frontier's applications in Dockets 24659, 24875 and 24991 insofar as they request hyphenation of Muskogee and Tulsa or in the alternative, suspension or deletion of Muskogee; suspension or deletion of Paris; and deletion of McAlester. In addition, we will place in issue the question of whether Frontier's authority to suspend service at McAlester should be continued as an alternative to permanent deletion.[6]

In addition, we note that by specific condition in its certificate Frontier is one-stop restricted in the Tulsa-Dallas market[7] but that the only noncircuitous one-stop routings available to Frontier on segment 18 involve stops at one of the three subject points which may, as a result of this proceeding, be deleted from the carrier's certificate. Similarly, since segment 18 now bifurcates at McAlester, the deletion of that point would require the rewriting of Frontier's certificate. Because we wish to limit the scope of this proceeding primarily to a consideration of the needs of, and the viability of providing certificated service to, the three points in issue, we do not intend to consider herein a significant expansion of Frontier's authority by means of a large variety of possible realignments" of segment 18. Hence, we will limit our consideration to the question of whether,

[1] By Order 70-11-25, dated November 5, 1970, the Board authorized Frontier to suspend service temporarily at, inter alia, Muskogee, subject to the condition that such suspension would immediately terminate if SMB failed to operate a certain number of trips in certain listed markets. Because, according to Frontier, the "traffic was never adequate to warrant more than one round trip by the commuter carrier," Frontier has not suspended its operations at Muskogee.

[2] Service to Small Communities, Part III, Appendix B, March 1972.

[3] Frontier further points out that in the Paris-Dallas market, SMB charges a one-way fare of $16.00 compared to its one-way fare of $22.00.

[4] See Order 73-7-67 issued contemporaneously with this Order.

[5] The Muskogee answer, having been filed late, was accompanied by a motion for leave to file an otherwise unauthorized document. We shall grant this motion and receive Muskogee's answer.

[6] The order issued contemporaneously herewith renewing Frontier's authority to suspend service at McAlester will expire 60 days after final decision in the proceeding herein instituted.

[7] The restriction applies to Frontier's services on both segment 18 as well as 19. The three points in issue lie on segment 18 only.

should McAlester be deleted from Frontier's certificate, segment 18 should be rewritten (a) to bifurcate at Dallas, or (b) to bifurcate at Fort Smith. We appreciate that a change in segmentation may result in new authority for Frontier in certain markets, but to limit the scope of the proceeding we shall place a pretrial restriction on Frontier's potential authority so as to require that all flights operated between Fort Smith and Kansas City or Wichita shall include at least one intermediate stop in the event segment 18 is rewritten to bifurcate at Fort Smith. Also, we wish to make clear that amendment of condition (4) of Frontier's certificate will not be in issue and, should the three points be deleted, Frontier will still be required to serve one intermediate point on all flights between Tulsa and Dallas. In accordance with our customary practice, we shall also permit parties to propose any other restrictions or conditions as they may believe necessary.

Accordingly, it is ordered, That:

1. The applications of Frontier Airlines, Inc., in Dockets 24875 and 24991, for an order to show cause, be and they hereby are denied;

2. The application of Frontier Airlines, Inc., in Docket 24875 for a temporary suspension without hearing, be and it hereby is denied;

3. The applications of Frontier Airlines, Inc., in Dockets 24659, 24875, and 24991, be and they hereby are set for hearing at a time and place to be hereafter designated;

4. The hearing shall determine:

a. Whether the public convenience and necessity require, pursuant to section 401(g) of the Act, that the certificate of Frontier for route 73 should be altered, amended, or modified so as to

(1) Suspend or delete Muskogee, Oklahoma and/or

(2) Redesignate Tulsa, Oklahoma as Tulsa-Muskogee, Oklahoma to be served through the Tulsa Airport;

(3) Suspend or delete Paris, Texas;

(4) Suspend or delete McAlester, Oklahoma;

(5) Have segment 18 bifurcate, in the event McAlester is deleted pursuant to (4) above, at Dallas or Fort Smith, subject to the condition that, in the event segment 18 is rewritten so as to bifurcate at Fort Smith, Frontier will be required to schedule service to a minimum of one intermediate point between Fort Smith and Kansas City or Wichita;

b. whether the public interest requires, pursuant to section 401(j) of the Act, the temporary suspension of service by Frontier at the points listed in (1), (3), and (4) above, with or without conditions;

5. The motion of the City of Muskogee and the Muskogee Chamber of Commerce in Docket 24659 for permission to file a late-filed answer, be and it hereby is granted; and

6. This order shall be served on the parties served with the applications in Dockets 24659, 24875 and 24991.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[Docket Nos. 22364, 25474; Order 73-7-65]

U.S. MAINLAND-HAWAII FARES INVESTIGATION

Order on Reconsideration

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 13th day of July 1973.

By Order 73-4-117, dated April 27, 1973, the Board initiated an investigation to consider the level of regular fares, the relationship of first-class fares to second-class fares, and the level and structure of discount fares in the U.S. mainland-Hawaii market. Order 73-4-117 also provided that the portions of Order 72-5-100 [1] which prescribed the level of first-, second-, and third-class fares in the U.S. mainland market were revoked. A procedural framework for exceptions to this latter provision was established.

While the Board has received no exceptions to Order 73-4-117 as such, several parties have filed petitions for reconsideration of that order, requesting in general that the scope of the investigation be expanded to include additional issues.[2]

Upon consideration of these pleadings, we have decided that some expansion in the scope of this proceeding will be appropriate. Before reaching any new matters, however, a clarification of the intent of Order 73-4-117 is necessary.

Several carriers have raised the possibility that Order 73-4-117 is insufficiently clear on the question of whether the newly instituted investigation includes the level and structure of fares from interior gateway points. Our intention in Order 73-4-117 was to make clear that we do not expect to relitigate Ultimate Finding number 5 on page 24 of our Opinion in Order 72-5-100, dated May 26, 1972, which relates to construction of fares between Hawaii and interior points not included in the carriers' Hawaiian segments. Since we are by this order specifying by number those Ultimate Findings which we are revoking, no question should remain as to our intention.

Also in the nature of clarification, United requests that we modify our partial revocation of Order 72-5-100 to inform all persons concerned that there are no impediments to tariff filings in U.S. mainland-Hawaii markets. Under Order 72-5-100 fare changes had been effectuated by way of petition for amendment, but our partial revocation of that order was intended to end that procedure. We have made in the ordering paragraphs herein adjustments which will clearly accomplish that purpose.

As to the requests for expansion of the scope of the proceeding, three of the petitions have called into question our exclusion from the issues to be litigated of the relationships between second- and third-class fares.[3] Upon further consideration, we agree that the amounts of the differentials between these two classes of fares should be included as an issue in the forthcoming investigation, and that the provisions of Order 72-5-100 specifying these differentials should accordingly be revoked. The recent decision of several carriers to impose charges for entertainment in second-class service convinces us that the cost basis for these differentials must be reviewed in the light of current data.[4] However, we see no need to reexamine the principle that the differential between these two classes of fares should be based on the costs of amenities furnished free of additional charge to one class and not to the other.

On the other hand, the request by several carriers to include the Hawaiian common fares agreement will be denied insofar as these requests call to issue more than the revenue impact of the existing agreement. Consideration, either directly or indirectly, of the propriety or particulars of this agreement is unnecessary to the determination of the revenue needs of the mainland carriers and would only serve to lengthen and complicate the proceeding.

Accordingly, upon consideration of the foregoing, and all other relevant matters,

It is ordered, That:

1. Paragraphs 3.a, 4.a, and 4.b of the Ultimate Findings on pages 22–24 of the Opinion in Order 72-5-100 are hereby revoked, and the investigation in Docket 22364 is hereby terminated;

2. The scope of the investigation instituted by Order 73-4-117 is hereby expanded to include the lawfulness of the differentials between second- and third-class fares and the charges for inflight amenities;

[1] Dated May 26, 1972.

[2] Petitions have been filed by Braniff Airways, Inc., Northwest Airlines, Inc., Pan American World Airways, Inc., and United Air Lines, Inc. American Airlines, Inc., has filed an answer to these petitions, and a joint answer has been filed on behalf of Aloha Airlines, Inc., and Hawaiian Airlines, Inc. Braniff's petition was filed one day late with a request for leave to file a late petition, which is granted.

[3] Pan American also requests that the relationships between peak and off-peak fares be put in issue. While Order 73-4-117 already put this matter in issue, the more specific language of the present order should eliminate any doubt as to the point.

[4] As a corollary, the provisions of Order 72-5-100 specifying charges for inflight amenities in third-class service will also be revoked and the amount of these charges will be included as an issue in the proceeding. Whether the charges for inflight amenities generally should be specified and be required to be filed by the carriers will also be considered in the light of ER-795, adopted April 6, 1973.

V38-138 JUL 19 73 XUM

3. Except to the extent granted herein, the petitions of Braniff Airways, Inc., Northwest Airlines, Inc., Pan American World Airways, Inc., and United Air Lines, Inc., are dismissed; and

4. Copies of this order shall be served upon American Airlines, Inc., Braniff Airways, Inc., Continental Air Lines, Inc., Northwest Airlines, Inc., Pan American World Airways, Inc., Trans World Airlines, Inc., United Air Lines, Inc., and Western Air Lines, Inc., Puget Sound Traffic Association, Aloha Airlines, Inc., and Hawaiian Airlines, Inc., and upon all parties to Docket 22364.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

COST OF LIVING COUNCIL

FOOD INDUSTRY WAGE AND SALARY COMMITTEE

Notice of Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) notice is hereby given that the Food Industry Wage and Salary Committee, established under the authority of section 212(f) of the Economic Stabilization Act, as amended, section 4(a)(iv) of Executive Order 11695, and Cost of Living Council Order No. 14, will meet at 10:00 a.m., Wednesday, July 25, 1973, at 2025 M Street, N.W., Washington, D.C.

The agenda will consist of discussions leading to recommendations on specific Phase II and Phase III wage cases in the food area, and future wage policy.

Since the above stated meeting will consist of discussions of future food wage policy and Phase II and III cases for decision, pursuant to authority granted me by Cost of Living Council Order 25, I have determined that the meeting would fall within exemption (5) of 5 U.S.C. 552 (b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with the operation of the Committee.

Issued in Washington, D.C. on July 17, 1973.

HENRY H. PERRITT, Jr.,
Executive Secretary,
Cost of Living Council.

[FR Doc.73-14973 Filed 7-18-73;9:33 am]

DELAWARE RIVER BASIN COMMISSION

COMPREHENSIVE PLAN

Notice of Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on Friday, July 27, 1973, in Room 1600 of the Municipal Services Bldg. in Philadelphia beginning at 2 p.m. The subjects of the hearing will be as follows:

A. A proposal to amend the Comprehensive Plan so as to include therein the following projects:

1. *Mount Holly Water Co.* A well water supply project to augment public water supplies in the Township of Mount Holly and adjacent municipalities in Burlington County, N.J. Designated as Well No. 6, the new facility is expected to yield about two million gallons per day.

2. *Audubon Water Co.* A well water supply project to augment public water supplies in portions of Lower Providence Township, Montgomery County, Pa. Designated as Well Nos. 5 and 6, the two new facilities are expected to have a combined yield of about 230,000 gallons per day.

3. *Borough of Topton.* A well water supply project to augment public water supplies in the Borough of Topton and portions of Longswamp Townships, Berks County, Pa. Designated as Well No. 5, the new facility is expected to yield about 288,000 gallons per day.

4. *Borough of Woodbury Heights.* A well water supply project to augment public water supplies in the Borough of Woodbury Heights, Gloucester County, N.J. The new facility is expected to yield about 560,000 gallons per day.

5. *Schuylkill Haven Municipal Authority.* Expansion and upgrading of the Authority's existing sewage treatment plant in Schuylkill County, Pa. Approximately 7,000 feet of interceptor sewer will be constructed in connection with the project. Modifications to the plant are designed to provide 90 percent removal of BOD_5 from a sewage flow of about two million gallons per day. Treated effluent will continue to discharge to the Schuylkill River.

6. *Modern Treatment Co.* A sewage treatment plant to serve a new recreational community known as Wallenpaupack Lake Estates in Salem and Paupack Townships, Wayne County, Pa. The plant is designed to provide 96 percent removal of BOD_5 and 97 percent suspended solids from a sewage flow of about 100,000 gallons per day. Treated effluent will discharge to an unnamed tributary of Lake Wallenpaupack.

7. *City of Philadelphia Water Dept.* Upgrading of the Southeast treatment plant of the City of Philadelphia located adjacent to the Walt Whitman Bridge. Modifications are designed to provide 90 percent removal of BOD_5 from an estimated 1990 sewage flow of about 140 million gallons per day. Treated effluent will continue to discharge to the Delaware River.

8. *Pureland Water Co.* A revision to a groundwater development project to provide water supplies in the 3500-acre Pureland industrial complex and adjacent municipalities in Logan Township, Gloucester County, N.J. Four new wells would be utilized to provide four million gallons per day for industrial process and cooling purposes and a fifth well will provide one million gallons per day for domestic and commercial purposes.

9. *New Jersey Turnpike Authority.* Expansion of the Authority's sewage treatment plant in New Jersey Turnpike Service Area 4N in Mount Laurel Township, Burlington County, N.J. Approximately 90 percent of BOD_5 and suspended solids would be removed from a sewage flow of about 60,000 gallons per day. Treated effluent would discharge to Parkers Creek, a tributary of Rancocas Creek.

B. A proposal to approve the following water pollution abatement schedule as submitted in accordance with Section 3-4.2(2) of the Basin Regulations—Water Quality:

1. *Gulf Oil Company of Pennsylvania (A-73-2):* A violation of the effluent requirements of the Commission's Basin Regulations was determined for the company's Schuylkill River Tank Farm, located in Philadelphia, Pa. The proposed schedule permits the company to make modifications in the in-plant processing facilities at the refinery to allow shifting the wastewater flow from the Tank Farm to the existing refinery wastewater treatment system.

Documents relating to the above projects may be examined at the Commission's offices. Persons wishing to testify are requested to notify the Secretary prior to the hearing.

W. BRINTON WHITALL,
Secretary.

JULY 13, 1973.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19778, etc.; FCC 73-725]

BUD'S BROADCASTING CO. ET AL.

Designation of Construction Applications for Consolidated Hearing

In re applications of Amos Joseph Mathewson, tr as Bud's Broadcasting Co., Banning, Calif., Docket No. 19778, File No. BP-19212; Requests: 1490 kHz, 250 W, U.

Dale A. Owens, Banning, Calif., Docket No. 19779, File No. BP-19224; Requests: 1490 kHz, 250 W, U.

Frederick R. Cote, Banning, Calif., Docket No. 19780, File No. BP-19376; Requests: 1490 kHz, 250 W, U.

Milton Charles Holden, Bettee H. Holden, William R. Bailer, Mary Estella Bailer, and Adam John Mugni d/b as H&B Broadcasting Co., Yucaipa, Calif., Docket No. 19781, File No. BP-19377; Requests: 1490 kHz, 250 W, U, For construction permits.

1. The Commission has before it for consideration the above-captioned mutually exclusive applications which seek authorization to replace the deleted facilities of former station KPAS.

2. Examination of section IV of the applications of Bud's Broadcasting Co. and H & B Broadcasting Co. indicate that both parties have failed to meet the basic requirements set out in our Primer on Ascertainment of Community Problems by Broadcast Applicants, 36 FR 4092, 27 FCC 2d 650.

In the application of Bud's Broadcasting Co. an adequate description of the community accurately detailing its minority, racial or ethnic breakdown, its economic activities, governmental activities, public service organizations, and any other factors or activities that make the particular community distinctive has been omitted. Additionally, pertinent information as to the specific problems, needs, and interests of the residents of the community has not been ascertained. In the H & B Broadcasting Co. application, the survey fails to indicate the specific problems, needs, and interests of the community and the names of the community leaders consulted have not been included in the data submitted. Also omitted are H & B's proposed programs to meet community problems disclosed by its consultations. Accordingly, a Suburban [1] issue will be included.

3. The financial portion of Bud's Broadcasting Co.'s application shows that $31,800 will be required to construct and operate for one year. This total consists of: down payment on equipment $2,500, first-year payments on equipment, with interest $2,750, building $500, miscellaneous $2,050, working capital (first year) $24,000. To meet this requirement, the applicant relies on a $25,000 bank loan and $7,588 in profits from his existing operations. The letter of credit from the bank supporting a loan is for only $10,000 and does not fully give the terms of repayment. The Commission cannot accept estimated earnings of enterprises other than broadcasting, since we have no access to annual reports of earnings, estimated future earnings, etc. Thus, a financial issue is required.

4. The application of Frederick R. Cote states that a total of $33,625, is required to meet his first-year expenses. The itemized costs include $2,926 down payment on equipment, $5,000 land, $5,000 building, $200 miscellaneous, and $20,499 working capital. Applicant's plans to finance construction and operation provide for $30,900, $18,900 of which is cash on hand or in banks and $12,000 of which is profits from existing operations. Since the figures given for plans to finance construction and operation total only $30,900, it appears that an additional $2,725 to meet first-year commitments is necessary. Accordingly, this applicant will also be required to establish his financial qualifications in hearing.

5. H & B Broadcasting Co. also appears to be financially unqualified. Analysis of the applicant's cost figures shows that $63,765 will be required to construct and operate for one year without revenues, itemized as follows: $4,280 lease payments on automated equipment, $4,455 down payment on remaining equipment, $4,820 first-year's payments on equipment with interest, $500 land, $1,500 building, $4,400 miscellaneous, $43,810 working capital (first year). Applicant's plans to finance construction and operation provide for $62,000, $7,000 of which is existing capital, $55,000 of which would be raised from liquidation of partners' assets. The partners, however, have not shown the availability of the $7,000 in cash, nor have they shown buyers for the assets they claim will be disposed of to raise other necessary funds. Thus, an appropriate issue will be specified.

6. Although three of the applicants are for Banning and one is yucaipa, they would serve substantial areas in common. Consequently, in addition to determining which of the proposals would best provide a fair, efficient and equitable distribution of radio service, under 307(b) of the Communications Act, a contingent comparative issue will be specified.

7. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

8. *Accordingly, it is ordered,* That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposals and the availability of other primary aural (1 mV/m or greater in the case of FM) service to such areas and populations.

2. To determine, with respect to the application of Bud's Broadcasting Co., the terms of the $10,000 loan and, in light of the source of other earnings, whether the applicant is financially qualified.

3. To determine whether Frederick R. Cote has sufficient additional funds to construct and operate his proposed station and in light thereof whether he is financially qualified to construct and operate the proposed station.

4. To determine whether H & B Broadcasting Co. has the requisite funds to construct and operate its proposed station.

5. To determine the efforts made by Bud's Broadcasting Co. to ascertain the community problems of the area to be served and the means by which applicant proposes to meet those problems.

6. To determine the efforts made by H & B Broadcasting Co., to ascertain the community problems of the area to be served and the means by which applicant proposes to meet those problems.

7. To determine, in light of section 307(b) of the Communications Act of 1934, as amended, which of the proposals would best provide a fair, efficient and equitable distribution of radio service.

8. To determine, in the event it is concluded that a choice between the applications should not be based solely on considerations relating to section 307(b), which of the operations proposed in the above-captioned applications, would, on a comparative basis, better serve the public interest.

9. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

9. *It is further ordered,* That, in the event of a grant of either of the applications, of Frederick R. Cote or H & B Broadcasting Company, the construction permit shall contain the following:

Before program tests are authorized sufficient field intensity measurement data shall be submitted to establish that the radiation has been reduced to 150 mV/m/kW, as proposed.

10. *It is further ordered,* That, in the event of a grant of the application of H & B Broadcasting Co., the construction permit shall contain the following condition:

An approved type frequency monitor shall be installed.

11. *It is further ordered,* That to avail themselves of the opportunity to be heard, the applicants herein, pursuant to section 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

12. *It is further ordered,* That, the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: July 3, 1973.

Released: July 12, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

[FR Doc.73-14813 Filed 7-18-73;8:45 am]

[Dockets Nos. 19782, 19783; FCC 73-726]

KALT-FM, INC. AND CASS COUNTY BROADCASTING CO.

Designation of Construction Applications for Consolidated Hearing

In re applications of KALT-FM, Inc. Atlanta, Texas, Docket No. 19782, File No. BPH-7881; Requests: 99.3MHz, 257; 3 kW (H & V); 195.75 feet.

Gloria D. Herring and A. T. Moore, d/b as Cass County Broadcasting Co., Atlanta, Texas, Docket No. 19783, File No. BPH-7948; Requests: 99.3 MHz, 257; 3 kW (H & V); 186.5 feet, for construction permits.

1. The Commission has under consideration the above-captioned applications which are mutually exclusive in that they seek the same channel in the same community.

2. Based on cost figures contained in its application, it appears that Cass County Broadcasting Company will need $76,736 to construct and operate its pro-

[1] Suburban Broadcasters, 20 RR 951 (1961).

V 38 - 138 JUL 19 73 XUM

posed station for one year.[1] To finance its proposal, the applicant relies on a total of $2,500 in contributions from the two partners and a bank loan of $75,000. Balance sheets for each partner indicate adequate liquidity to meet their respective commitments. As to the bank loan, however, the loan is contingent upon the endorsement of the partners. Since they have failed to file a statement affirming their intent to endorse the note, we cannot make a finding that the funds will be available. Accordingly, a financial issue will be specified.

3. KALT–FM, Inc., estimates that $40,750 will be needed to construct and operate its proposed station for one year, itemized as follows: $29,300 equipment, $1,450 miscellaneous, and $10,000 working capital. To meet these expenses, the applicant has $1,000 in existing capital and relies on stock subscriptions from its four principals to raise $39,000. However, since the financial data submitted by three of the subscribers, David A. Wommack, Sr., David A. Wommack, Jr., and Thelma Jeane Wright are no longer current, we cannot determine whether they presently have sufficient current and liquid assets available to meet their respective commitments. Moreover, we note that KALT, Inc., has allocated only a nominal amount ($50) for legal fees. In light of the forthcoming comparative hearing, we believe that a more realistic sum should be allocated. Accordingly, an appropriate financial issue will be included.

4. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, because the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding.

5. *Accordingly, it is ordered*, That pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine, with respect to Cass County Broadcasting Company, whether the partners are willing to endorse the $75,000 bank loan, and, in light thereof, whether the applicant is financially qualified.

2. To determine, with respect to the application of KALT–FM, Inc.:

(a) Whether the applicant's estimated legal expenses are realistic;

(b) Whether David A. Wommack, Sr., David A. Wommack, Jr., and Thelma Jeane Wright have sufficient net current assets to meet their respective stock purchase commitments.

(c) Whether, assuming all the funds which the applicant relies upon are available, sufficient additional funds are available to meet first-year construction and operating costs; and

(d) Whether, in light of the foregoing, the applicant is financially qualified.

3. To determine which of the proposals would better serve the public interest.

4. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

6. *It is further ordered*, That the applicant shall file a written appearance stating an intention to appear and present evidence on the specified issues, within the time and in the manner required by section 1.221(c) of the rules.

7. *It is further ordered*, That the applicant shall give notice of the hearing within the time and in the manner specified in section 1.594 of the rules, and shall seasonably file the statement required by section 1.594(g).

Adopted: July 3, 1973.

Released: July 12, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

[FR Doc.73-14814 Filed 7-18-73;8:45 am]

[1] Cass County Broadcasting Company's first-year expenses are itemized as follows: $25,071 equipment, $1,500 building, $6,750 interest on loans, $5,200 miscellaneous, $34,740 working capital, $3,475 radio tower.

FEDERAL HOME LOAN BANK BOARD

[H. C. 159]

BERKSHIRE HATHAWAY, INC., ET AL.

Notice of Receipt of Application for Permission To Acquire Control of Mutual Savings and Loan Association

JULY 16, 1973.

Notice is hereby given that the Federal Savings and Loan Insurance Corporation has received an application from Berkshire Hathaway, Inc., Diversified Retailing Company, Inc., Associated Retail Stores, Inc., and Columbia, Insurance Company, Baltimore, Maryland, for approval of acquisition of control of the Mutual Savings and Loan Association, Los Angeles, California, an insured institution controlled by Wesco Financial Corporation, under the provisions of Section 408(e) of the National Housing Act, as amended (12 U.S.C. 1730a(e)), and Section 584.4 of the Regulations for Savings and Loan Holding Companies, said acquisition to be effected by a purchase for cash of stock of Wesco Financial Corporation by Blue Chip Stamps, a subsidiary of the applicants which previously filed an application to acquire control of Mutual Savings and Loan Association. Comments on the proposed acquisition should be submitted to the Director, Office of Examinations and Supervision, Federal Home Loan Bank Board, Washington, D.C. 20552, on or before August 20, 1973.

[SEAL] EUGENE M. HERRIN,
Assistant Secretary,
Federal Home Loan Bank Board.

V38-138 JUL 19 73 XUM

[Independent Ocean Freight Forwarder License 1396]

C. A. CRILEY & ASSOCIATES, INC.

Order of Revocation

By letter dated June 4, 1973, C. A. Criley & Associates, Inc., 4044 128th Avenue, S. E., Bellevue, Washington 98006 was advised by the Federal Maritime Commission that independent ocean freight forwarder License No. 1396 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before July 3, 1973.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

C. A. Criley & Associates, Inc. has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) § 7.04(g) (dated 5/1/72):

It is ordered, That Independent Ocean Freight Forwarder License No. 1396 of C. A. Criley & Associates, Inc., be returned to the Commission for cancellation.

It is further ordered, That Independent Ocean Freight Forwarder License No. 1396 be and is hereby revoked effective July 3, 1973.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon C. A. Criley & Associates, Inc.

AARON W. REESE,
Managing Director.

[Independent Ocean Freight Forwarder License 361]

REYNOLDS & PUZON, INC.

Order of Revocation

By letter dated June 8, 1973, Reynolds & Puzon, Inc., P.O. Box 237, Norwood, New Jersey 07648 was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 361 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before July 7, 1973.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Reynolds & Puzon, Inc. has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) § 7.04(g) (dated 5/1/72):

It is ordered, That Independent Ocean Freight Forwarder License No. 361 of Reynolds & Puzon, Inc. be returned to the Commission for cancellation.

It is further ordered, That Independent Ocean Freight Forwarder License No. 361 be and is hereby revoked effective July 7, 1973.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Reynolds & Puzon, Inc.

AARON W. REESE,
Managing Director.

[Independent Ocean Freight Forwarder License 762]

BEAUSEIGNEUR MOVING & STORAGE CORP.

Order of Revocation

By letter dated May 21, 1973, Beauseigneur Moving & Storage Corp., 242-252 E. 122nd Street, New York, New York 10035 was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 762 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before June 20, 1973.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Beauseigneur Moving & Storage Corp. has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) § 7.04(g) (dated 5/1/72):

It is ordered, That Independent Ocean Freight Forwarder License No. 762 of Beauseigneur Moving & Storage Corp. be returned to the Commission for cancellation.

It is further ordered, That Independent Ocean Freight Forwarder License No. 762 be and is hereby revoked effective June 20, 1973.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Beauseigneur Moving & Storage Corp.

AARON W. REESE,
Managing Director.

JAPAN-ATLANTIC AND GULF FREIGHT CONFERENCE

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, N.W., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before August 8, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Charles F. Warren, Esq., 1100 Connecticut Avenue NW., Washington, D.C. 20036.

Agreement No. 3103-52 has been entered into by the member lines of the Japan-Atlantic & Gulf Freight Conference, to modify the presently approved agreement of that conference by changing the name of the conference to the Japan/Korea-Atlantic & Gulf Freight Conference, and deleting the references to Okinawa as they presently appear in the approved agreement. Okinawa remains under the jurisdiction of the conference within the geographic designation of Japan.

By order of the Federal Maritime Commission.

DATED: July 12, 1973.

FRANCIS C. HURNEY,
Secretary.

JAPAN-ATLANTIC AND GULF FREIGHT CONFERENCE

Notice of Petition Filed

Notice is hereby given that the following petition has been filed with the Commission for approval pursuant to section 14b of the Shipping Act, 1916, as amended (75 Stat. 762, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the current contract form and of the petition, reflecting the changes proposed to be made in the language of said contract, at the Washington office of the Federal Maritime Commission, 1405 I Street, N.W., Room 1015 or at the Field Offices located at New York, N.Y., New Orleans, Louisiana and San Francisco, California. Comments with reference to the proposed changes and the petition, including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, 1405 I Street, N.W., Washington, D.C., 20573, on or before August 8, 1973. Any person desiring a hearing on the proposed modification of the contract form and/or the approved contract system shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the petition, (as indicated hereinafter), and the statement should indicate that this has been done.

Notice of agreement filed by:

Charles F. Warren, Esq.
1100 Connecticut Avenue, N.W.
Washington, D.C. 20036

Agreement No. 3103 DR-4 is an application under section 14b on behalf of the member lines of the Japan-Atlantic & Gulf Freight Conference, to modify the presently approved dual rate system and form of contract of that conference by changing the name of the conference to the Japan/Korea-Atlantic & Gulf Freight Conference, and deleting the references to Okinawa as they presently appear therein. Okinawa remains under the jurisdiction of the conference within the geographic designation of Japan.

By order of the Federal Maritime Commission.

Dated: July 12, 1973.

FRANCIS C. HURNEY,
Secretary.

BOARD OF TRUSTEES OF GALVESTON WHARVES AND COOK INDUSTRIES, INC.

Notice of Agreements Filed

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreements at the Washington office of the Federal Maritime Commission, 1405 I Street, N.W., Room 1015; or may inspect the agreements at the Field Offices located at New York, N.Y., New Orleans, Louisiana, and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before August 8, 1973. Any person desiring a hearing on the proposed agreements shall provide a clear and concise statement of the maters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreements (as indicated hereinafter) and the statement should indicate that this has been done.

Board of Trustees of the Galveston Wharves Cook Terminal Company, Inc. and Cook Industries, Inc.

Notice of agreement filed by:

Mr. Carl S. Parker, Jr.
Traffic Manager
Galveston Wharves
802 Rosenberg
P.O. Box 328
Galveston, Texas 77550

Agreement No. T-2814 between the Board of Trustees of the Galveston Wharves (Galveston) and Cook Terminal Company, Inc. (Cook), is an agreement providing that Galeston will construct a materials handling facility according to Cook's specifications, for the warehousing, storage, conditioning and shipping of bulk commodities such as grain, soybeans, etc. The facility is to be financed through the sale of bonds.

Agreement No. T-2814-A, also between Galveston and Cook, provides for Cook's lease of the facility constructed under Agreement No. T-2814 above. Cook is to operate the facility as a public elevator terminal and material handling facility serving the general public for the warehousing, storage, marketing, conditioning and shipping of bulk commodities. As compensation during the initial term of the agreement, Galveston is to receive: (1) Basic rental equalling the total principal, interest, and premium of the bonds issued to finance the facility; (2) berth rental of $200,000 annually; (3) ground rental of $80,105 annually; and (4) 50 percent of the dockage assessed by Cook against vessels handled at the facility. Cook is granted the right to fix and levy dockage rates, provided that they are reasonable and competitive. No wharfage will be assessed by Galveston on bulk commodities. On cargo other than bulk commodities, Galveston will bill, collect and retain all tariff charges.

Agreement No. T-2814-B, between Galveston and Cook's parent company, Cook Industries, Inc., is a guarantee agreement providing that Cook Industries, Inc. will guarantee Cook's obligations to Galveston under Agreement No. T-2814-A.

Dated: July 13, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

TRANS-PACIFIC FREIGHT CONFERENCE OF JAPAN

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before August 8, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduct evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Charles F. Warren, Esq.
1100 Connecticut Avenue, N.W.
Washington, D.C. 20036

Agreement No. 150-57 has been entered into by the member lines of the Trans-Pacific Freight Conference of Japan, to modify the presently approved agreement of that conference by changing the name of the conference to the "Trans-Pacific Freight Conference of Japan/Korea" and deleting the references to "Okinawa", as they presently appear in the aproved agreement. Okinawa remains under the jurisdiction of the conference within the geographic designation of Japan.

Dated: July 12, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

FEDERAL RESERVE SYSTEM

FIRST TENNESSEE NATIONAL CORP.

Proposed Acquisition of Pence Mortgage Co.

First Tennessee National Corporation, Memphis, Tennessee, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Pence Mortgage Company, Louisville, Kentucky. Notice of the application was published on May 25, 1973 in The Indianapolis Star-News, a newspaper circulated in Indianapolis, Indiana; on May 26, 1973 in the St. Petersburg Times, a newspaper circulated in St. Petersburg, Pinellas County, Florida; on May 27, 1973 in The Courier-Journal, a newspaper circulated in Louisville, Kentucky; and on May 29, 1973 in The Evening News, a newspaper circulated in Jeffersonville, Clark County, Indiana. Applicant states that the proposed subsidiary would engage in the activities of originating selling and servicing real estate mortgages, construction lending, and the offering on an agency basis of credit life and credit accident and health insurance in connection with such extensions of credit. Such

V 38-138 JUL 1973 XUM

activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Banks of St. Louis, Atlanta, or Chicago.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 6, 1973.

Board of Governors of the Federal Reserve System, July 11, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-14740 Filed 7-18-73;8:45 am]

GENERAL FINANCIAL SYSTEMS, INC.

Acquisition of Bank

General Financial Systems, Inc., Riviera Beach, Florida, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 80 per cent or more of the voting shares of First National Bank & Trust Company of Lake Worth, Lake Worth, Florida. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

General Financial Systems has also been engaged in the following nonbanking activities: development and management of rental apartments; home building; leasing of capital goods under full pay-out leases; operation of a general insurance agency; and data processing. Pending determination of whether Applicant's efforts to divest there activities are effective, the Board, in addition to the factors considered under section 3 of the Act (banking factors) will consider the proposal in the light of the company's non-banking activities and the provisions and prohibitions of § 4 of the Act (12 U.S.C. 1843).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 6, 1973.

Board of Governors of the Federal Reserve System, July 11, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

MICHIGAN NATIONAL CORP.

Proposed Acquisition of Michigan Mortgage Insurance Co.

Michigan National Corporation, Bloomfield Hills, Michigan, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Michigan Mortgage Insurance Company, Lansing, Michigan, a proposed new company. Notice of the application was published on May 21, 1973 in The State Journal, a newspaper circulated in Lansing, Michigan.

Applicant states that the proposed subsidiary would engage in the activity of underwriting real estate mortgage guarantee insurance. This activity is currently being considered by the Board under proposed rulemaking procedures as to whether it should be added to the list of activities the Board has previously determined to be closely related to banking (See Board notice of May 14, 1973).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 6, 1973.

Board of Governors of the Federal Reserve System, July 11, 1973.

UNITED MISSOURI BANCSHARES, INC.

Acquisition of Bank

United Missouri Bancshares, Inc., Kansas City, Missouri, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire not less than 80 per cent (plus directors' qualifying shares) of the voting shares of Hickman Mills Bank & Trust Company, Kansas City, Missouri. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 6, 1973.

Board of Governors of the Federal Reserve System, July 11, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

OFFICE OF ECONOMIC OPPORTUNITY

SECRETARY OF HEALTH, EDUCATION AND WELFARE

Delegation of Authorities

1. Pursuant to section 602(d) of the Economic Opportunity Act of 1964 (hereinafter "the Act"), I delegate to the Secretary of Health, Education, and Welfare (hereinafter "the Secretary") the powers and authorities vested in me by the following sections of the Act:

Section 222(a)(1)—"Project Head Start";
Section 222(a)(2)—"Follow Through" program;
Section 222(a)(4)—"Comprehensive Health Services" program;
Section 222(a)(6)—"Family Planning" program; and
Section 222(a)(9)—"Drug Rehabilitation" program.

2. I further delegate to the Secretary such powers and authorities under sections 222 and 232 of the Act as may be necessary or appropriate to (a) develop and carry out a special program known as the Native American Program to deal with the special problems of poverty of Indians and Alaska Natives, (b) to make the determinations required or permitted to be made by such sections for or in the exercise of the powers herein delegated, and (c) to provide financial assistance for planning, conducting, administering and evaluating local projects initiated under such special program. The program shall include provisions to enable Indians and Alaska Natives acting through their own instruments of self government, to establish their own programmatic and funding priorities and to gain control and direction of institutions and programs affecting their daily lives.

3. I further delegate to the Secretary such powers and authorities under section 232 of the Act as may be necessary or appropriate to pursue those research, development and demonstration programs heretofore supported or authorized to be supported by the Office of Economic Opportunity ("OEO") as he may deem appropriate to the mission of the Department of Health, Education, and Welfare ("DHEW") including the following: (1) policy studies and research into the factors affecting and the conditions of poverty; (2) experiments, pilot projects and demonstration activities incident to such studies and research; (3) efforts to develop ways to overcome environmental health problems which confront disadvantaged persons; (4) health insurance experiments to measure the cost to the Government and consumers of alternative plans and the resultant change in the health status of families; (5) educational voucher demonstrations and other projects designed to study or test ways to improve educational opportunities for the disadvantaged; and (6) experiments and studies of alternative approaches to day care and child development.

4. To the extent the Secretary may deem necessary or appropriate for carrying out powers and authorities delegated under paragraphs 1, 2, and 3, and to administer, pursuant to agreement between OEO and DHEW, certain programs and related grants, contracts, or agreements (projects) initiated, made, entered into or under consideration by OEO prior to the effective date of this delegation, I further delegate to him the powers vested in me by Title II (except sections 221 and 222(a)(3)) and by Title VI of the Act.

5. The powers and authorities delegated herein shall be exercised in accordance with such memoranda of understanding as have been or shall be entered into by DHEW and OEO. All interagency projects in which OEO has been designated as lead agency where the OEO authority is being delegated to the Secretary are hereby modified to designate DHEW as the lead agency.

6. All operating information, evaluation reports and other data concerning the programs administered under the delegated powers shall be freely exchanged between OEO and DHEW at all operating levels in order to assure the maximum possible liaison between such agencies as required by section 602(d) of the Act.

7. The powers and authorities herein may be redelegated by the Secretary with or without authority for further delegation.

8. The delegation in paragraph 1 of authorities under section 222(a)(1) of the Act (Project Head Start) and section 222(a)(2) of the Act (Follow Through program) supersedes the delegation published in the FEDERAL REGISTER on July 1, 1967 at 32 FR 9592 and on July 9, 1969 at 34 FR 11398.

Effective date. This delegation of authorities shall take effect on approval by the President.

Dated: June 29, 1973.

A. J. ARNETT,
Director-Designate,
Office of Economic Opportunity.

Approved: July 6, 1973.

RICHARD NIXON,
President of the United States.

SECRETARY OF HOUSING AND URBAN DEVELOPMENT

Delegation of Authorities

1. Pursuant to section 602(d) of the Economic Opportunity Act of 1964 (hereinafter "the Act"), I delegate to the Secretary of Housing and Urban Development (hereinafter "the Secretary") the powers, authorities and functions vested in me by section 232 of the Act to the extent deemed necessary or appropriate to contract or provide financial assistance for pilot or demonstration projects and for research to test ways to provide adequate housing for disadvantaged persons.

To the extent deemed necessary or appropriate for the exercise of the powers and authorities delegated to him under paragraph 1 and to administer grants, contracts, or agreements made or entered into by the Office of Economic Opportunity prior to the effective date of this delegation for activities referred to in paragraph 1, I further delegate to the Secretary the powers vested in me by title II (except section 221 and 222(a)(3)) and title VI of the Act.

3. Pursuant to agreement between the Director and the Secretary, the personnel, property, funds and records of and in support of the section 232 activities as set forth in paragraphs 1 and 2 above shall be transferred to the Secretary, except that officers or employees appointed by the President shall not be transferred. Except as may be agreed to by the Director and the Secretary, all grants, contracts, or agreements made or entered into in connection with such programs before the effective date of this delegation and which, as of that date, have not been terminated or expired shall also be transferred to the Secretary for administration pursuant to such arrangements as shall be made by the Director and the Secretary with respect to such transfer. In addition, the Director shall transfer to the Secretary all proposed grants, contracts, and agreements in connection with such programs for which funds have not been obligated.

4. All operating information, evaluation reports and other data concerning the programs administered under the delegated powers shall be freely exchanged between the Office of Economic Opportunity and the Department of Housing and Urban Development, at all operating levels, in order to assure maximum possible liaison between such agencies as required by section 602(d) of the Act.

5. The powers and authorities delegated herein shall be exercised in accordance with such memoranda of understanding as have been or shall be entered into by the Office of Economic Opportunity and the Department of Housing and Urban Development.

6. The powers and authorities delegated herein may be redelegated by the Secretary with or without authority for further delegation.

7. This delegation shall take effect on approval of the President.

Dated: June 29, 1973.

A. J. ARNETT,
Director-Designate,
Office of Economic Opportunity.

Approved: July 6, 1973.

RICHARD NIXON,
President of the United States.

[FR Doc.73-14815 Filed 7-18-73;8:45 am]

SECRETARY OF LABOR

Delegation of Authorities

1. Pursuant to section 602(d) of the Economic Opportunity Act of 1964, as amended (hereinafter "the Act"), existing delegations under the Act by the Director of the Office of Economic Opportunity (hereinafter "the Director") to

V 38 I 138 JUL 19 73 XUM

the Secretary of Labor (hereinafter "the Secretary") are hereby revised and additional authorities under the Act are hereby delegated to the Secretary.

2. The powers and authorities of the Director under title I, part A (Job Corps), title I, part B (Work and Training for Youth and Adults), and title I, part E (Special Work and Career Development Programs) of the Act are hereby delegated to the Secretary.

3. The powers and authorities of the Director under section 232 of the Act to the extent deemed necessary or appropriate to contract or provide financial assistance for pilot or demonstration projects and for research, in the field of manpower training, labor force participation, and assistance for migrant and other seasonally employed farmworkers and their families are hereby delegated to the Secretary.

4. The powers and authorities of the Director under title III, part B, of the Act (Assistance for Migrant, and Other Seasonally Employed, Farmworkers and Their Families) are hereby delegated to the Secretary.

5. Those powers and authorities of the Director under title II (except sections 221 and 222(a)(3)) and title VI of the Act are hereby delegated to the Secretary to the extent deemed necessary or appropriate for him to exercise the powers and authorities delegated in paragraphs 2, 3, and 4 above and to administer grants or contracts made or entered into by the Office of Economic Opportunity prior to the effective date of this delegation of authority for activities referred to in paragraphs 3 and 4 above.

6. Pursuant to agreement between the Director and the Secretary, the personnel, property, funds and records of and in support of the section 232 programs as set forth in paragraph 3 above and of the title III, part B, program as set forth in paragraph 4 above shall be transferred to the Secretary, except that officers or employees appointed by the President shall not be transferred. Except as may be agreed to by the Director and the Secretary, all grants, contracts or agreements made or entered into in connection with such programs before the effective date of this delegation and which, as of that date, have not been terminated or expired shall also be transferred to the Secretary for administration pursuant to such arrangements as shall be made by the Director and the Secretary with respect to such transfer. In addition, the Director shall transfer to the Secretary all proposed grants, contracts and agreements in connection with such programs for which funds have not been obligated.

7. All operating information, evaluation reports and other data concerning the programs administered under the delegated powers shall be freely exchanged between the Office of Economic Opportunity and the Department of Labor at all operating levels in order to assure the maximum possible liaison between such agencies as required by section 602(d) of the Act.

8. The powers and authorities delegated herein may be redelegated by the Secretary with or without authority for further delegations.

9. The Delegations of Authority to the Secretary of Labor with respect to functions under the Economic Opportunity Act of 1964, as amended, dated August 2, 1968, and approved by the President October 2, 1968 (33 FR 15139); May 25, 1970, and approved by the President June 12, 1970 (35 FR 10332); and June 24, 1969, and approved by the President June 30, 1969 (34 FR 11398) and related memoranda of agreement are hereby rescinded. The powers and authorities delegated herein shall be exercised in accordance with such other memoranda of agreement as have been or may be entered into between the Office of Economic Opportunity and the Department of Labor.

10. This delegation shall take effect on approval of the President.

Dated: June 29, 1973.

A. J. ARNETT,
Director-Designate.

Approved: July 6, 1973.

RICHARD NIXON,
President of the United States.

MAXIMUM INTEREST RATES

Notice of Establishment

Notice is hereby given that the Small Business Administration has established as the maximum interest rate per annum that participating lending institutions may charge on guaranteed loans (except revolving line of credit) approved on an after July 10, 1973, pursuant to section 7(a) of the Small Business Act, as amended, section 402 of the Economic Opportunity Act of 1964, as amended, and section 502 of the Small Business Investment Act, as amended, the following interest rate: eleven (11%) per centum per annum. On immediate participation loans approved on or after July 10, 1973, the maximum interest rate shall be ten (10%) percent per annum. Said maximum interest rates shall remain in effect until further amendment or revision.

This notice implements the notification of maximum interest rates as provided in 13 CFR 120.3(b)(2)(vi).

SOUTH CAROLINA

[Declaration of Disaster Loan Area 1000]

Declarations of Disaster Loan Area

Whereas, it has been reported that during the month of May 1973, because of the effects of a certain disaster, damage resulted to residence and business property located in the State of South Carolina;

Whereas, the Small Business Administration has investigations of conditions in the areas affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act, as amended;

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Spartanburg, Cherokee, Oconee, and Greenville Counties in the State of South Carolina, suffered damage or destruction resulting from tornadoes which struck on or about May 27-29, 1973. Applications will be processed under the provisions of Public Law 93-24.

Office: Small Business Administration
District Office
1801 Assembly Street
Columbia, South Carolina 29201

2. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to September 6, 1973.

Date: July 9, 1973.

THOMAS S. KLEPPE,
Administrator.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

MAINE DEVELOPMENTAL PLAN

Notice of Submission of Plan and Availability for Public Comment

1. *Submission and description of Plan.* Pursuant to section 18 of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 USC 667) and § 1902.11 of Title 29, Code of Federal Regulations, notice is hereby given that an occupational safety and health plan for the State of Maine has been submitted to the Assistant Secretary of Labor for Occupational Safety and Health. The Assistant Secretary has preliminarily reviewed the plan, and hereby gives notice that the question of approval of the plan is in issue before him.

The plan designates the Department of Manpower Affairs and the Departments of Health and Welfare as the agencies responsible for administering the plan throughout the State. It proposes to define the occupational safety and health issues covered by it as defined by the Secretary of Labor in 29 CFR 1902.2(c)(1), except for 29 CFR 1915, 1916, 1917, and 1918 (ship repairing, ship building, ship breaking, and longshoring). The plan includes proposed legislation which will be submitted to a special session of the Maine Legislature in January, 1974. Such legislation is intended to bring the plan into conformity with the requirements of 29 CFR Part 1902. Included in the plan is a statement of the Governor's support for the plan, and a statement of legal opinion that will meet the requirements of the Occupational Safety and Health Act of 1970, and is consistent with the Constitution and laws of the State of Maine.

There are provisions within the proposed legislation granting the State agencies authority to inspect workplaces and to issue citations for violations and their abatement, and there is included a prohibition against advance notice of any such inspection. The legislation is also intended to insure employer and employee representatives opportunity to accompany inspectors and to call attention to possible violations; to provide for notification of employees or their representatives when no compliance action is taken as a result of alleged violations, to protect employees who exercise rights under the program from discharge or discrimination in terms and conditions of employment, and to safeguard trade secrets. There is provision made for the prompt restraint of imminent danger situations, and a system of penalties. The plan will establish a safety and health program for public employees.

The plan contains comprehensive information on the personnel to be employed directly, on agreements with other State agencies, and on the proposed budget and resources. There are set forth in the plan index timetable projections for all developmental aspects of the plan.

2. *Location of Plan for inspection and copying.* A copy of the plan may be inspected and copied during normal business hours at the following locations: Office of Federal and State Operations, Occupational Safety and Health Administration, Room 305, 400 First Street NW, Washington, D.C. 20210; Regional Administrator, Occupational Safety and Health Administration, United States Department of Labor, 18 Oliver Street, Fourth Floor, Boston, Massachusetts 02110; Maine Department of Manpower Affairs, Employment Security Commission 20 Union Street, Augusta, Maine 04330; and State of Maine Department of Health and Welfare, Division of Health and Engineering State House, Augusta, Maine 04330.

3. *Public participation.* Interested persons are hereby given until August 18, 1973, to submit to the Assistant Secretary written data, views, and arguments concerning the plan. The submissions are to be addressed to the Director, Office of Federal and State Operations, Room 305 400 First Street, NW, Washington, D.C. 20210. The written comments will be available for public inspection and copying at the above address.

Copies of pages from the plan or of written comments received with respect thereto will be provided in accordance with the general Department of Labor fee schedule (29 CFR 70.62(a)).

Any interested person may request a hearing concerning the proposed plan, or any part thereof, by filing particularized written objections thereto within

V 38-138 JUL 19 73 XUM

the time allowed for comments specified above. If the Assistant Secretary finds that substantial objections are filed, he shall hold a formal or informal hearing on the subjects and issues involved.

The Assistant Secretary for Occupational Safety and Health shall thereafter consider all relevant comments and arguments presented and issue a decision as to approval or disapproval of the plan.

Signed at Washington, D.C., this 14th day of July 1973.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.73-14822 Filed 7-18-73;8:45 am]

[S-72-7]

UNITED STATES STEEL CORP.

Grant of Variance

I. *Background.* United States Steel Corporation, Pittsburg Works, Leveridge Road, Pittsburg, California 94565, made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596) and 29 CFR Part 1905.11 for a permanent variance from the requirement of 29 CFR 1910.27(c)(2) that a clear width of at least 15 inches be provided each way from the centerline of a fixed ladder, except when cages or wells are necessary. Notice of the application for a variance, and of the granting of an interim order pending decision on the application, was published in the FEDERAL REGISTER on October 27, 1972 (37 FR 23024). The notice invited interested persons, including affected employers and employees, to submit written data, views, and arguments regarding the grant or denial of the variance requested. In addition, affected employers and employees were permitted to request a hearing on the application for a variance. No comments were received regarding the application for the variance, and there was no request for a hearing.

II. *Facts.* The applicant uses in its operations 278 fixed ladders of the type subject to the 15 inch clearance requirement of 29 CFR 1910.27(c)(2). These ladders are used by hookers to gain access to pipe stored in racks, and are immediately bounded by protruding pipes on either side so as not to comply with the 15 inch clearance requirement. The applicant argues that compliance with the regulation would result in a work situation less safe to employees than that of the present system. Meeting the requirement would mean that, rather than stepping directly onto the pipes, a hooker would step across a gap (caused by meeting the 15 inch clearance requirement), thus substantially increasing any risk of a fall. Applicant argues that the closer a ladder is to the pipes, the greater is the safety of the hooker's activity.

III. *Decision.* Although the applicant's fixed-ladder arrangement does not comply with 29 CFR 1910.27(c)(2), its ladders are used for special, limited purposes; only authorized personnel are allowed to use these ladders; and employees will required to have their hands free while ascending and descending these ladders. Under these conditions, it is decided that applicant's fixed-ladder arrangement creates as safe a place of employment as would prevail if applicant were to make the changes necessary in order to comply with 29 CFR 1910.27(c)(2).

IV. *Order.* Pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 and Secretary of Labor's Order No. 12-71 (36 FR 8754), *It is ordered*, That United States Steel Corporation be, and it is hereby, authorized to use the fixed-ladder arrangement described above, at their Pittsburg works, in lieu of complying with 29 CFR 1910.27(c)(2), provided that:

(1) Only personnel necessary to perform hook-up operations are allowed to use the ladders;

(2) Employees using the ladders are required to have their hands free while ascending and descending the ladders; and

(3) As soon as possible, the applicant gives notice to affected employees of the terms of this order by the same means required to inform them of the application for a variance.

Effective date. This order shall become effective on August 18, 1973, and shall remain in effect until modified or revoked in accordance with section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970.

Signed at Washington, D.C. this 12th day of July 1973.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.73-14829 Filed 7-18-73;8:45 am]

INTERSTATE COMMERCE COMMISSION

FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

JULY 13, 1973.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of Practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

California Docket No. 54108 filed June 19, 1973 Applicant: STANLEY FENTON, doing business as DURKEE DRAYAGE COMPANY, 2225 Ingalls Street San Francisco, Calif. 94124 Applicant's representative: Marquam C. George 401 South Hartz Avenue Danville, Calif. 94526 Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities* as follows: (a) Between and including San Francisco and San Jose and all points intermediate thereto, and between said intermediate points via U.S. Highway 101, State Highway 82 and Interstate Highway 280. (b) Between and including San Jose and Los Gatos and all points intermediate thereto, and between said intermediate points via State Highway 17. (c) Between and including Los Gatos and Mountain View and all points intermediate thereto, and between said intermediate points via State Highways 9 and 85. (d) Between and including San Jose and Oakland and all points intermediate thereto and between said intermediate points via State Highway 17 and Interstate Highway 680. (e) Between and including San Francisco and Vallejo and all points intermediate thereto, and between said intermediate points via Interstate Highway 80. (f) Between and including Vallejo and Fremont and all points intermediate thereto, and between said intermediate points via Interstate Highway 680. (g) Between and including San Leandro and Livermore and all points intermediate thereto, and between said intermediate points via Interstate Highway 580 and U.S. Highway 50. (h) Between and including San Francisco and San Rafael and all points intermediate thereto, and between said intermediate points via U.S. Highway 101. (i) Between all points and places within the County of Contra Costa. (j) Between any and all routes and points set forth in paragraphs (a) through (i), inclusive. (k) Between all points and places within 10 miles of the routes and points set forth in paragraphs (a) through (i).

(l) For operating convenience only, all roads, streets and highways connecting the above points and routes. Subject to the restriction that carrier shall not transport any shipments of: (a) Used household goods and personal effects not packed in accordance with the crated property requirements set forth in Item 5 of Minimum Rate Tariff 4-B. (b) Livestock, viz.: Barrows, boars, bulls, butcher hogs, calves, cattle, cows, dairy cattle, ewes, feeder pigs, gilts, goats, heifers, hogs, kids, lambs, oxen, pigs, rams (bucks), sheep, sheep camp outfits, sows, steers, stags, swine, or wethers. (c) Automobiles, trucks and buses, viz.: news and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses, bus chassis. (d) Commodities requiring the use of special refrigeration or temperature control in

specially designed and constructed refrigerated equipment. (e) Liquids, compressed gases, commodities in semi-plastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles. (f) Commodities when transported in bulk in dump trucks or in hopper type trucks. (g) Commodities when transported in motor vehicles equipped for mechanical mixing in transit. (h) Explosives. (i) Furniture, uncrated, new. (j) Trailer coaches and campers, including integral parts and contents when the contents are within the trailer coach or camper. Intrastate, interstate and foreign commerce authority sought. HEARING: Date, time and place not shown. Requests for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif., 94102, and should *not* be directed to the Interstate Commerce Commission.

California Docket No. 54119 filed June 21, 1973. Applicant: DONALD H. FRITZGES doing business as GOLDEN CHARIOT TRUCK LINE, 1950 Newton Avenue, San Diego, Calif. 92113. Applicant's representative: Donald Murchison, 9454 Wilshire Blvd., Suite 400, Beverly Hills, Calif. 90212. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *General Commodities* as follows: (1) Between all points and places within the San Diego Territory, described in Note A, and Borrego Springs, serving all intermediate points on Interstate Highway 15, County Road S-4, State Highways 67, 78, and 79, and County Roads S-3 and S-22, and all points within 10 miles of said highways; (2) between the San Diego Territory, as described in Note A, and Campo, serving all intermediate points on State Highway 94, and all points within 10 miles of said highways; (3) Carrier may operate over all accessible public highways between all of said termini, intermediate and off-route points, in combination, one with the other; (4) Through routes and rates may be established between any and all points described above and through routes and joint rates may be established with other carriers at convenient points of interchange, except that pursuant to the authority herein granted, carrier shall not transport any shipments of: (1) Used household goods, personal effects and office, store and institution furniture, fixtures and equipment not packed in accordance with the crated property requirements set forth in Item 5 of Minimum Rate Tariff 4-B; (2) Automobiles, trucks and buses, viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis; (3) Livestock, viz.: barrows, boars, bulls, butcher hogs, calves, cattle cows, dairy cattle, ewes, feeder pigs, gilts, goats, heifers, hogs, kids, lambs, oxen, pigs, rams (bucks), sheep, sheep camp outfits, sows, steers, stags, swine, or wethers; (4) Liquids, compressed gases, commodities in semi-plastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles; (5) Commodities when transported in bulk, in dump trucks or in hopper-type trucks; (6) Commodities when transported in motor vehicles equipped for mechanical mixing in transit; and (7) Trailer coaches and campers, including integral parts and contents when the contents are within the trailer coach or camper.

Note A: San Diego Territory includes that area embraced by the following imaginary line starting at the northerly junction of U.S. Highways 101-E and 101-W (four miles north of La Jolla); thence easterly to Miramar on State Highway No. 395; thence southeasterly to Lakeside on the El Cajon-Ramona Highway; thence southerly to Bostonia on U.S. Highway No. 80; thence southeasterly to Jamul on State Highway No. 94; thence due south to the International Boundary Line; west to the Pacific Ocean and north along the coast to point of beginning Intrastate, interstate and foreign commerce authority sought.

HEARING: Date, time and place not shown. Requests for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif., 94102, and should *not* be directed to the Interstate Commerce Commission.

California Docket No. 54144 filed July 2, 1973 Applicant: BEST WAY SYSTEM, INC. Pier No. 54 San Francisco, Calif. 94107 Applicant's representative: E. H. Griffiths 1182 Market Street, Suite 207 San Francisco, Calif. 94102 Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, except as hereinafter provided: Between all points and places in the San Francisco Territory, which is described as follows: SAN FRANCISCO TERRITORY includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Boundary Line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Company right of way at Arastradero Road; southeasterly along the Southern Pacific Company right of way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to E. Parr Avenue; easterly along E. Parr Avenue to the Southern Pacific Company right of way; southerly along the Southern Pacific Company right of way to the Campbell-Los Gatos city limits; easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101 to Tully Road; northeasterly along Tully Road to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs; northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga Avenue to Estates Drive; westerly along Estates Drive, Harbord Drive and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to Berkeley-Oakland boundary line; northerly along said boundary line to the campus boundary of the University of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway 40 to and including the City of Richmond; southwesterly along the highway extending from the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco Waterfront at the foot of Market Street; westerly along said waterfront and shore line to the Pacific Ocean; southerly along the shore line of the Pacific Ocean to point of beginning. Except that applicant shall not transport any shipments of: (1) Used household goods and personal effects not packed in accordance with the crated property requirements set forth in paragraph (d) of Item No. 10-C of Minimum Rate Tariff No. 4-A. (2) Automobiles, trucks and buses, viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis. (3) Livestock, viz.: bucks, bulls, calves, cattle, cows, dairy cattle, ewes, goats, hogs, horses, kids, lambs, oxen, pigs, sheep, sheep camp outfits, sows, steers, stags or swine. (4) Liquids, compressed gases, commodities in semi-plastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers, or a combination of such highway vehicles. (5) Commodities when transported in bulk in dump trucks

V 38-138 JUL 1973 XUM

or in hopper-type trucks. (6) Commodities when transported in motor vehicles equipped for mechanical mixing in transit. (7) Cement. (8) Logs. (9) Commodities of unusual or extraordinary value. (10) Fresh Fruits and Vegetables. Intrastate, interstate and foreign commerce authority sought. HEARING: Date, time and place not shown. Requests for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif., 94102, and should *not* be directed to the Interstate Commerce Commission.

Michigan Docket No. C-102 (Case #4) filed April 23, 1973 Applicant: HOOKER MOTOR FREIGHT, INC. 1545 Buchanan Avenue, S.W. Grand Rapids, Mich. 49502 Applicant's representative: Walter N. Bieneman Suite 1700—One Woodward Avenue Detroit, Mich. 48226 Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, (1) Between Lansing, Mich., and Manistee, Mich., via U.S. Highway 27 to junction with U.S. 10, thence via U.S. 10 to junction with M-115, thence via M-115 to junction with M-55, thence via M-55 to junction with U.S. 31, thence via U.S. 31. (2) Between the junction of U.S. 10 and M-115 and the junction of U.S. 10 and M-37 via U.S. 10. (3) Between the junction of U.S. 10 and M-37 and the junction of M-37 and M-55 via M-37. (4) The routes above described are restricted to alternate routes for operating convenience only and serving only those points otherwise authorized. Intrastate, interstate and foreign commerce authority sought. Requests for procedural information should be addressed to the Michigan Public Service Commission, Law Building, 525 West Ottawa Street, Lansing, Mich., 48913, and should *not* be directed to the Interstate Commerce Commission.

By the Commission.

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

[Notice No. 25]

JULY 13, 1973.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(d)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(d)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(d)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed on or before August 20, 1973.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

NO. MC-109265 (Deviation No. 15), W. L. MEAD, INC., P.O. Box 31, Norwalk, Ohio 44857, filed June 14, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Norwalk, Ohio over U.S. Highway 20 to junction By-Pass U.S. Highway 20, U.S. Highway 6, and Ohio Highway 53 (near Fremont, Ohio), thence over combined By-Pass U.S. Highway 20, U.S. Highway 6, and Ohio Highway 53 to junction U.S. Highway 6, thence over U.S. Highway 6 to junction U.S. Highway 24 (near Napoleon, Ohio), thence over U.S. Highway 24 to New Haven, Ind., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) from Norwalk, Ohio, over U.S. Highway 20 to junction Ohio Highway 4, thence over Ohio Highway 4 to Attica, Ohio, (2) from Attica, Ohio, over U.S. Highway 224 to Findlay, Ohio, (3) from Findlay, Ohio over Interstate Highway 75 to Lima, Ohio, and (4) from Lima, Ohio, over U.S. Highway 30-S to Delphos, Ohio, thence over U.S. Highway 30 via Van Wert, Ohio, to junction City U.S. Highway 30 (formerly portion U.S. Highway 30), thence over City U.S. Highway 30 via Fort Wayne, Ind., to junction U.S. Highway 30, thence over U.S. Highway 30 to junction unnumbered highway (formerly portion U.S. Highway 30), thence over unnumbered highway via Columbia City, Ind., to junction U.S. Highway 30, thence over U.S. Highaway 30 via Valparaiso, Ind., to junction Alternate U.S. Highway 30, thence over Alternate U.S. Highway 30 to Chicago, Ill., and return over the same route.

By the Commission.

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

[Notice 55]

JULY 13, 1973.

The following publications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by the new special rule 1100.247 of the Commission's rules of practice, published in the Federal Register, issue of December 3, 1963, which became effective January 1, 1964.

Special notice. The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 60580 (Sub-No. 29) (ANNOTATION) filed April 17, 1973, published in the FR issue of May 31, 1973, republished in correction in the FR issue of June 28, 1973, and annotated this issue. Applicant: MAISLIN TRANSPORT Corp. 1314 Irving Street Allentown, Pa. 18103 Applicant's representative: Charles Ephraim 1250 Connecticut Ave., N.W. Suite 600 Washington, D.C. 20036 Note: The above-referenced application was correctly published in the Federal Register issue of June 28, 1973. This republication serves notice that the previous publication should have appeared in the Interstate Commerce Commission publications section for Applications for Certificates or Permits which are to be processed concurrently with applications under Section 5 governed by special rule 240 to the extent applicable.

No. MC 1233 (NOTICE OF FILING OF PETITION FOR MODIFICATION AND AMENDMENT OF CERTIFICATE) filed June 21, 1973. Petitioner: METROPOLITAN FREIGHT CARRIERS CORP., 57 St. Charles Street, Newark, N.J. 07105. Petitioner's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Petitioner presently holds a motor *common carrier* certificate No. MC-1233 issued November 16, 1970, authorizing transportation, in interstate or foreign commerce, over irregular routes, of *general commodities* (with usual exceptions), between New York, N.Y., and points in Orange, Rockland, Westchester, and Nassau Counties, N.Y., on the one hand, and, on the other, points in that part of New Jersey north of a line beginning at Trenton, N.J., and extending in a southeasterly direction through Lakehurst and Toms River, N.J., to the Atlantic Ocean, including the points named. By the instant petition, petitioner seeks either: (a) to amend its territorial description to read: "Between points in the New York Commercial Zone as defined by the Commission, on the one hand, and, on the other, those destination points named above"; or (b) an appropriate order of the Commission that

the petitioner be empowered and permitted to designate as its terminal area, all points within which local operations may be conducted in the New York, N.Y. Commercial Zone as defined by the Commission. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition on or before August 20, 1973.

No. MC 113460 (Sub-No. 1) (NOTICE OF FILING OF PETITION TO REMOVE A RESTRICTION) filed June 8, 1973. Petitioner: CARL P. BLACKFORD 3909 East 29th Street Des Moines, Iowa 50317 Petitioner's representative: William L. Fairbank 900 Hubbell Building Des Moines, Iowa 50309 Petitioner presently holds a motor *common carrier* certificate in No. MC-113460 (Sub-No. 1) issued March 17, 1969, authorizing, as pertinent, transportation, in interstate or foreign commerce, over irregular routes, of *packing house products*, during the season extending from the first day of November to the thirty-first day of March, inclusive, from Des Moines, Iowa, to Chicago, Ill., with no transportation on return except as otherwise authorized. By the instant petition, petitioner seeks removal of the above-described seasonal restriction in order to perform operations throughout the entire year. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition on or before August 20, 1973.

No. MC 111442 (Sub-No. 1) (NOTICE OF FILING OF PETITION TO ADD AN ADDITIONAL CONTRACTING SHIPPER) filed May 31, 1973. Petitioner: CENTRAL STATES-EASTERN FOOD TRANSPORT, INC. Box 367 Wheatland, Pa. 16161 Petitioner's representative: George A. Olsen 69 Tonnele Avenue Jersey City, N.J. 07306 Petitioner presently holds a motor *contract carrier* permit in No. MC-111442 (Sub-No. 1) issued July 30, 1971, authorizing, as pertinent transportation, in interstate or foreign commerce, over irregular routes, of *meats, meat products, and meat by-products, dairy products*, and *articles distributed by meat packinghouses*, as described in sections A, B and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, and *bakery products, confectionery, prepared foods*, and *frozen foods*, from Milwaukee, Wis., and Chicago, Ill., to Rochelle Park and Newark, N.J., and New York, N.Y., with no transportation for compensation on return except as otherwise authorized, under a continuing contract, or contracts, with Lambrecht Foods Co., of Milwaukee, Wis. By the instant petition, petitioner seeks to add the additional contracting shipper of On-Cor Frozen Foods, Inc., of Chicago, Ill. to the authority described above. Petitioner has pending a request to add Kitchens of Sara Lee and is petitioning for reconsideration to add Patrick Cudahy, Inc., as additional shippers to this same authority. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition on or before August 20, 1973.

No. MC 115122 (NOTICE OF FILING OF PETITION FOR MODIFICATION OF COMMODITY DESCRIPTION) filed June 26, 1973. Petitioner: MARIANO BROTHERS, INCORPORATED Shelter Rock Road Danbury, Conn. 06810 Petitioner's representative: Paul F. Sullivan 711 Washington Building Washington, D.C. 20005 Petitioner presently holds a motor *common carrier* certificate in No. MC-115122 issued October 22, 1958, authorizing, as pertinent, transportation, in interstate or foreign commerce, over irregular routes, of *heavy machinery*, between Danbury, Conn., and points in that part of New York and Connecticut within 15 miles of Danbury, on the one hand, and, on the other, points in New Jersey and New York. By the instant petition, petitioner seeks to modify its commodity description as follows: "*Commodities*, the transportation of which because of size or weight, require the use of special equipment or special handling, and *self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts* and *supplies* moving in connection therewith (restricted to commodities which are transported on trailers)", between those points described above. Any interested person desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition on or before August 20, 1973.

No. MC 123778 (Sub-No. 1) (NOTICE OF FILING OF PETITION TO ADD AN ADDITIONAL CONTRACTING SHIPPER) filed June 29, 1973. Petitioner: JALT CORP. doing business as UNITED NEWSPAPER DELIVERY SERVICE 75 Cutters Lane Woodbridge, N.J. 07095 Petitioner's representative: Morton E. Kiel Suite 6193 5 World Trade Center New York, N.Y. 10048 Petitioner presently holds a motor *contract carrier* permit in No. MC-123778 (Sub-No. 1) issued April 9, 1973, authorizing, as pertinent, transportation, in interstate or foreign commerce, over irregular routes, of (a) *magazines, magazine racks*, and *advertising matter* shipped with magazines, from Woodbridge, N.J., to points in Connecticut and New Jersey, points in that part of Pennsylvania on and east of U.S. Highway 15, and points in that part of New York on and south of New York Highway 5 between Syracuse and Schenectady and New York Highway 7 between Schenectady and the New York-Vermont State line, and on and east of U.S. Highway 11 between Syracuse, and the New York-Pennsylvania State line, with no transportation for compensation on return except as otherwise authorized, restricted to shipments having an immediately prior motor carrier movement from points beyond New Jersey to Woodbridge, N.J., under a continuing contract, or contracts, with Time, Incorporated, of New York, N.Y.; and (b) *magazines, magazine racks*, and *advertising matter*, from Woodbridge, N.J., and Washington, D.C., to Wilmington, Del., and to points in that part of New York on and east of New York 14 (except those points on and south of New York Highway 5, between Syracuse and Schenectady and New York Highway 7 between Schenectady and the New York-Vermont State line, and those points on and east of U.S. Highway 11 between Syracuse and the New York-Pennsylvania State line), with no transportation for compensation on return except as otherwise authorized, under a continuing contract, or contracts with Time, Incorporated, of New York, N.Y. By the instant petition, petitioner seeks to add the additional contracting shipper of Globe Communications Corp., of Montreal, Quebec, Canada, to the authority described above. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition on or before August 20, 1973.

No. MC 124796 (Sub-No. 55) (CORRECTION OF A NOTICE OF FILING OF PETITION FOR MODIFICATION OF PERMIT) filed May 21, 1973, published in the FR issue of June 20, 1973, and annotated in republication this issue. Petitioner: CONTINENTAL CONTRACT CARRIER CORP. 15045 East Salt Lake Avenue P.O. Box 1257 City of Industry, Calif. 91749 Petitioner's representative: William J. Monheim (same address as petitioner) Note: The initial publication of this Petition in the FR issue of June 20, 1973 remains correct as published. The purpose of this annotation is to properly identify the permit to be modified as MC-124796 (Sub-No. 55), in lieu of MC-124796 as previously published.

No. MC 125627 (Sub-No. 2) (NOTICE OF FILING OF PETITION FOR MODIFICATION OF CERTIFICATE) filed June 19, 1973. Petitioner: I & L TRUCKING, INC. 69 William St. Belleville, N.J. 07109 Petitioner's representative: George A. Olsen 69 Tonnele Avenue Jersey City, N.J. 07306 Petitioner presently holds a motor *common carrier* certificate in No. MC-125627 (Sub-No. 2) issued June 6, 1973, authorizing transportation, in interstate or foreign commerce, over irregular routes, of *wearing apparel*, from points in the New York Harboro area as described in 49 CFR 1070.1(a) to the facilities of Sussman and Spiegel, Distribution Center, Inc., at Belleville, N.J., with no transportation for compensation on return except as otherwise authorized. By the instant petition, petitioner seeks modification of the above authority to permit transportation to the destination facilities of Sussman and Speigel, Distribution Center, Inc., at its new location at South Plainfield, N.J. in lieu of Belleville, N.J. Any interested person or persons desiring to participate may file an

V 38-138 JUL 19 73 XUM

original and six copies of his written representations, views, or arguments in support of or against the petition on or before August 20, 1973.

No. MC 134806 (Sub-No. 5) (NOTICE OF FILING OF PETITION TO EXPAND DESTINATION TERRITORY) filed June 8, 1973. Petitioner: B-D-R TRANSPORT, INC. P.O. Box 813 Brattleboro, Vt. 05301 Petitioner's representative: Francis J. Ortman 1100 17th Street, N.W. Washington, D.C. 20036 Petitioner presently holds a motor *contract carrier* permit in No. MC–134806 (Sub-No. 5) issued June 1, 1972, authorizing transportation, in interstate or foreign commerce, over irregular routes, of *tanned leather*, from points in San Francisco, Alameda, Napa, Solano, San Mateo, and Santa Cruz Counties, Calif., to points in Maine, New Hampshire, Massachusetts, and New York, with no transportation for compensation on return except as otherwise authorized, under a continuing contract, or contracts, with West Coast Tanners Production Club of Santa Cruz, Calif. By the instant petition, petitioner seeks to modify its destination territory as described above to include service to points in Wisconsin, and Chicago and Rockford, Ill. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petititon on or before August 20, 1973.

No. MC 135665 (NOTICE OF FILING OF PETITION TO ADD AN ADDITIONAL CONTRACTING SHIPPER) filed June 11, 1973. Petitioner: LEESYL TRANSPORT, INC. 3319 Waltham Avenue Kettering, Ohio 45429. Petitioner's representative: Bert Collins Suite 6193 5 World Trade Center New York, N.Y. 10048. Petitioner presently holds a motor *contract carrier* permit in No. MC–135665 issued December 29, 1971, authorizing transportation, in interstate or foreign commerce, over irregular routes, of (1) *Hard rubber scrap*, pulverized, and *scrap rubber*, in containers, between the plant and warehouse of A. Schulman, Inc., at Dorset, Ohio, on the one hand, and, on the other, points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, and the District of Columbia; (2) *Plastic materials*, (including flakes, granules, lumps, pellets, powder, solid mass, and scrap), and *scrap rubber, reclaimed rubber*, and *crude and synthetic rubber*, in containers, between Akron, Ohio, on the one hand, and, on the other, points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, and the District of Columbia; (3) *Plastic materials* (including flakes, granules, lumps, pellets, powder, solid mass, and scrap), and *synthetic rubber*, in containers, between the plant and warehouse site of A. Schulman, Inc., at Bellevue and Stryker, Ohio, on the one hand, and, on the other, points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, and the District of Columbia; and (4) *Reclaimed rubber and hard scrap pulverized, plastic pellets or granules and powder, plastic scrap*, loose, in containers, and in bulk, and *rubber* (crude, natural or synthetic), except in bulk, in tank vehicles, (a) Between points in Essex, Union, Hudson, Bergen, Passaic, and Middlesex Counties, N.J., and New York, N.Y., on the one hand, and, on the other, points in Delaware, Maryland, that part of Pennsylvania on and east of a line beginning at the Pennsylvania-Maryland State line and extending along unnumbered highway (formerly portion U.S. Highway 111) through Shrewsbury and Jacobus, Pa., to junction Interstate Highway 83, thence along Interstate Highway 83 through York, Pa., to junction unnumbered highway (formerly portion U.S. Highway 111), thence along unnumbered highway to junction Pennsylvania Highway 295, thence along Pennsylvania Highway 295 through Zions View and Strinestown, Pa., to junction Interstate Highway 83, thence along Interstate Highway 83 through Lemoyne, Pa., to junction unnumbered highway (formerly portion U.S. Highway 111), thence along unnumbered highway to junction U.S. Highway 15, near Harrisburg, Pa., and thence along U.S. Highway 15 to the Pennsylvania-New York State line and the District of Columbia; and (b) Between points in Bergen, Passaic, Essex, Hudson, Union, Middlesex, Monmouth, Morris, Somerset, Mercer, Hunterdon, Warren, and Sussex Counties, N.J., and New York, N.Y., on the one hand, and, on the other, points in Connecticut, Massachusetts, Rhode Island, and New York, under a continuing contract, or contracts, in all of the above with A. Schulman, Inc., of Akron, Ohio. By the instant petition, petitioner seeks to add the additional contracting shipper of Bergen Norfolk Distribution Terminals Corp., of Secaucus, N.J. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition on or before August 20, 1973.

Disclosure of Tacking in Motor Carrier Applications

DATED JUNE 27, 1973 AND SERVED JULY 9, 1973

The Interstate Commerce Commission desires to call to the attention of all applicants for motor carrier operating authority and their representatives the change made by the July 1972 revisions of the application form, Form OP–OR–9. Prior to this revision carriers were called upon in Item V(b) to indicate whether the authority sought could be joined with any other operating authority now held or being sought. In the event the applicant intended to tack authorities, he was required to indicate the points to be served and attach pertinent portions of the present or pending authority. In complying with the requirements of the prior form, carriers frequently merely indicated that tacking was not intended and therefore did not indicate the points or territories or attach the pertinent portions of the authority.

As amended in July 1972, the application requires the applicant to indicate the points or areas where operations could be tacked and the territory that could be served thereby whether or not tacking is intended. In addition, the new form requires the applicant to attach pertinent portions of the authority now held or pending which would be involved in the tacking.

It has come to the attention of the Commission that numerous applications are being filed which continue to follow the former practice and fail to disclose clearly the tacking possibilities resulting from the authority applied for. All persons filing such applications are cautioned that failure to fully disclose the information as now required by section VII of the application as amended may result in a rejection of the application, a delay in processing thereof until the defect is cured, or other appropriate action.

Applications Under Sections 5 and 210a(b)

The following applications are governed by the Interstate Commerce Commission's Special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240).

Motor Carriers of Property

No. MC–F–11912. Authority sought for purchase by GREEN MOUNTAIN CARRIERS, INC., P.O. Box 1319, Albany, NY 12201, of a portion of VIGEANT MOTOR FREIGHT, INC., P.O. Box 157, Castleton-on-Hudson, NY 12033, and for acquisition by NANCY J. SANDS, AND GORDAN L. SANDS, JR., both of Albany, NY 12201, of control of such rights through the purchase. Applicants' attorneys: A. David Millner, 744 Broad St., Newark, NJ 07102, and Louis D. Bruno, 5 Elk St., Albany, NY 12202. Operating rights sought to be transferred: *Pharmaceutical products* (except commodities in bulk), as a *common carrier* over irregular routes, from Rouses Point, N.Y., to Cleveland, Ohio, Chicago, Ill., Lenexa, Kans., Mesquite, Tex., Los Angeles, Calif., Seattle, Wash., and Chamblee, Ga.; from the plant site or warehouses facilities of Ayerst Laboratories, Inc., and Wyeth Laboratories, Inc., at Chicago, Ill., to Lenexa, Kans., and to the warehouse distribution facilities of Ayerst Laboratories, Inc., at Mesquite, Tex., Los Angeles, Calif., and Seattle, Wash.; *printing paper*, from Newton Falls, N.Y., to Brattleboro, Vt.; *bananas*, from Albany, N.Y., to points in Connecticut, Massachusetts, Maine, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont. Vendee holds authority under section 210a(a) and pending permanent authority. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11918 (LYNDEN TRANSPORT, INC.—PURCHASE—ALASKA TRANSFER, INC.), published in the July 5, 1973, issue of the Federal Register on pages 17889 and 17890. Application filed July 10, 1973, for temporary authority under section 210a(b).

No. MC–F–11925. Authority sought for merger by CENTRAL MOTOR LINES, INCORPORATED, 324 North College St., (P.O. Box 1067), Charlotte, NC 28201, of the operating rights and property of WINSTON-ELKIN MOTOR EXPRESS, INCORPORATED, also of Charlotte, NC 28201, and for acquisition by ROBERT G. HAYES AND M. C. HAYES, both of 52 Spring St., N.W., Concord, NC 28025, of control of such rights and property through the transaction. Applicants' representative: Steward E. Fulk, P.O. Box 1067, Charlotte, NC 28201. Operating rights sought to be merged: *General commodities*, excepting among others, classes A and B explosives, household goods, and commodities in bulk, as a *common carrier* over regular routes, between Winston-Salem, N.C., and Roaring Gap, N.C., between junction U.S. Highways 421 and 601 at or near Yadkinville, N.C., and Boonville, N.C., serving all intermediate points. CENTRAL MOTOR LINES, INCORPORATED, is authorized to operate as a *common carrier* in Illinois, Indiana, North Carolina, Ohio, West Virginia, New York, South Carolina, New Jersey, Pennsylvania, Maryland, Delaware, Georgia, and Virginia. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11926. Authority sought for control by HALL'S MOTOR TRANSIT COMPANY, 6060 Carlisle Pike, Mechanicsburg, PA 17055, of WERNER CONTINENTAL, INC., 2500 W. County Road C, Roseville, MN 55113, and for acquisition by JOHN N. HALL, also of Mechanicsburg, PA 17055, and W. L. HALL, 300 W. Willow St., Carlisle, PA, of control of WERNER CONTINENTAL, INC., through the acquisition by HALL'S MOTOR TRANSIT COMPANY. Applicants' attorneys: John E. Fullerton, 407 N. Front St., Harrisburg, PA 17101, Russell R. Sage, 301 Tavern Square, 421 King St., Alexandria, VA 22314, Jack Goodman, 39 S. LaSalle St., Chicago, IL 60603, and Thomas D. Feinberg, 33 S. 5th St., Minneapolis, MN 55402. Werner Continental, Inc., operates as a *common carrier* of *general commodities* with the usual exceptions primarily over regular routes, extending between Minneapolis-St. Paul, Minnesota, on the west, Cincinnati, Ohio, on the south, and Baltimore, Maryland, New York, and Boston, Massachusetts, on the east serving to, from, and between specified points in the States of Minnesota, Wisconsin, Iowa, Illinois, Indiana, Michigan, Ohio, Kentucky, West Virginia, Pennsylvania, New York, Virginia, Maryland, New Jersey, Connecticut, Rhode Island, Massachusetts and the District of Columbia.

HALL'S MOTOR TRANSIT COMPANY, is authorized to operate as a *common carrier* in Pennsylvania, New York, New Jersey, Ohio, Maryland, Delaware, Connecticut, Virginia, North Carolina, West Virginia, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11927. Authority sought for purchase by PARCEL DISPATCH, INC., 305 N. Senate Ave., Indianapolis, IN 46204, of the operating rights and property of CHARLES CLARK, doing business as Special Dispatch, 328 East South St., Indianapolis, IN 46225, and for acquisition by JAMES N. CALHOUN, also of Indianapolis, IN 46204, of control of such rights and property through the purchase. Applicants' attorney: Warren C. Moberly, 777 Chamber of Commerce Bldg., Indianapolis, IN 46204. Operating rights sought to be transferred: *Merchandise, equipment*, and *supplies*, sold, used or distributed by a manufacturer of cosmetics, except (a) glass containers, (b) enclosures for glass containers, (c) fiberboard boxes, and (d) commodities in bulk, as a *contract carrier* over irregular routes, between Cincinnati, Ohio, on the one hand, and, on the other, points in Indiana, with restriction. Vendee is authorized to operate as a *common carrier* in Indiana. Application has been filed for temporary authority under section 210a(b).

NOTE: MC–121555 (Sub-No. 4), and (Sub-No. 5) are matters directly related.

No. MC–F–11928. Authority sought for purchase by DEARBORN'S MOTOR EXPRESS, INC., 140 Epping Road, Exeter, NH 03833, of the operating rights of MITCHELL & SMITH EXPRESS, INC., 9 Amherst St., Biddeford, ME 04005, and for acquisition by WILLIAM M. WALSH, also of Exeter, NH 03833, of control of such rights through the purchase. Applicants' attorney: Mary E. Kelley, 11 Riverside Ave., Medford, MA 02155. Operating rights sought to be transferred: Under a certificate of registration, in Docket No. MC–99283 (Sub-No. 1), covering the transportation of property, as a common carrier, in interstate commerce, within the State of Maine. Vendee is authorized to operate as a *common carrier* in Maine, Massachusetts and New Hampshire. Application has been filed for temporary authority under section 210a(b).

NOTE: MC–30508 (Sub-No. 3) is a matter directly related.

No. MC–F–11929. Authority sought for purchase by TRANS-SERVICE, INC., 1943 South Lawn Extension, Coshocton, OH 43812, of a portion of the operating rights of GEORGE W. KUGLER, INC., 2800 East Waterloo Rd., Akron, OH 44312, and for acquisition by WILLIAM H. WATERS, also of Coshocton, OH 43812, of control of such rights through the purchase. Applicants' attorney: Taylor C. Bruneson, 88 E. Broad St., Suite 1680, Columbus, OH 43215. Operating rights sought to be transferred: *Cast iron pipe, cast iron pipe fittings, iron fire hydrants, iron body valves, iron valve boxes, lubricants, nuts, bolts*, and *plastic or rubber gaskets*, as a *contract carrier* over irregular routes, from Coshocton, Ohio, to points in Kentucky and Tennessee; *iron fire hydrants, iron body valves, iron valve boxes, lubricants nuts, bolts*, and *plastic or rubber gaskets*, from Coshocton, Ohio, to points in Ohio, Michigan, Indiana, Pennsylvania, West Virginia, Illinois, and New York; *returned shipments of cast iron and cast iron pipe fittings*, from points in Ohio, Michigan, Indiana, and Pennsylvania, to Coshocton, Ohio; *cast iron pipe* and *cast iron pipe fittings*, from Coshocton, Ohio, to points in New York, with restriction; *metal castings*, between Coshocton, Ohio, and points within 10 miles of Coshocton, and Newcomerstown, Ohio, and points within 10 miles of Newcomerstown, on the one hand, and, on the other, points in the Chicago, Ill., Commercial Zone, as defined by the Commission; *cast iron pipe and fittings, cast iron manhole covers, radiators, pig lead, jute caulking*, and *materials* used in the production thereof, from Newcomerstown and Coshocton, Ohio, to points in Ohio, Michigan, and Pennsylvania; *cast iron pipe, cast iron pipe fittings, cast iron manhole covers, pig lead*, and *jute caulking*, from Newcomerstown and Coshocton, Ohio, to points in West Virginia and Illinois; *radiators*, from Newcomerstown and Coshocton, Ohio, to Chicago, Ill., with restriction. Vendee is authorized to operate as a *contract carrier* in Ohio, Louisiana, Alabama, California and Illinois. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11930. Authority sought for purchase by ANDERSON TRUCKING SERVICE, INC., 203 Cooper Ave., No. St. Cloud, MN 56301, of a portion of the operating rights of MAJOR TRANSPORT, INC., Box 204, Palmyra, WI 56315, and for acquisition by HAROLD E. ANDERSON, also of St. Cloud, MN 56301, of control of such rights through the purchase. Applicants' attorney: Val M. Higgins, 1000 First National Bank Bldg., Minneapolis, MN 55402. Operating rights sought to be transferred: *Building materials*, as a *common carrier* over irregular routes, between points in Jefferson, Waukesha and Walworth Counties, Wis., on the one hand, and, on the other, points in that part of Illinois on and north of U.S. Highway 30. Vendee is authorized to operate as a *common carrier* in all of the States in the United States (except Alaska and Hawaii). Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11931. Authority sought for purchase by SCHUSTER EXPRESS, INC., 48 Norwick Ave., Colchester, CT 06415, of a portion of the operating rights of SABEN DELIVERY CORP., 1063 Cottage Ave., Scranton, PA 18508, and for acquisition by PAUL SCHUSTER, BERNARD B. SCHUSTER, AND ISRAEL SCHUSTER, all of 48 Norwick Ave., Colchester, CT 06415, of control of such rights through the purchase. Applicants' attorneys: S. Harrison Kahn, Suite 733 Investment Bldg., Washington, DC

V 38 I 138 JUL 19 73 XUM

20005, and Kenneth R. Davis, 999 Union St., Taylor, PA. Operating rights sought to be transferred: *General commodities*, excepting among others, classes A and B explosives, livestock, household goods, and commodities in bulk, as a *common carrier* over irregular routes, between New York, N.Y., Newark, N.J. and points in New Jersey within 15 miles of Newark, on the one hand, and, on the other, points in Lackawanna and Luzerne Counties, Pa.; *fresh meat and meat products*, from Scranton, Pa., to Fort Dix, N.J., and Baltimore, Md. Vendee is authorized to operate as a *common carrier* in Connecticut, Massachusetts, New York, New Jersey, Rhode Island, Delaware, and Pennsylvania. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11932. Authority sought for purchase by REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, GA 30050, of a portion of the operating rights and property of HURLIMAN TRUCKING COMPANY, 1624 N. 4th St., San Jose, CA 95112, and for acquisition by RICHARD BEAUCHAMP, AND D. F. MAULDEN, also of Forest Park, GA 30050, and LAMAR BEAUCHAMP, P.O. Box 1499, Winter Haven, FL 33880, of control of such rights and property through the purchase. Applicants' attorney: Paul M. Daniell, P.O. Box 872, Atlanta, GA 30301. Operating rights sought to be transferred: *Baked goods*, and *coffee whiteners, dessert base, dessert toppings, dry coffee rich*, and *dry whipped topping*, in mechanically refrigerated vehicles, as a *contract carrier* over irregular routes, from Buffalo, N.Y., to points in Arizona, California, Colorado, Idaho, Iowa, Kansas, Montana, Nebraska, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming, from Buffalo, N.Y., to points in Texas, Missouri, Minnesota, and Nevada, with restriction. Vendee is authorized to operate as a *common carrier* in Mississippi, North Carolina, South Carolina, Georgia, Florida, Tennessee, Alabama, Louisiana, Arkansas, Nebraska, Illinois, Indiana, Iowa, Minnesota, Missouri, Oklahoma, Texas, Wisconsin, Kentucky, Michigan, Ohio, Kansas, Virginia, West Virginia, Nevada, Utah, Pennsylvania, Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont, Wyoming, South Dakota, North Dakota, Colorado, New Mexico, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

NOTE: MC–107515 (Sub-No. 859) is a directly related matter.

No. MC–F–11933. Authority sought for purchase by REFRIGERATED TRANSPORT, INC. (KY), P.O. Box 308, Forest Park, GA 30050, of a portion of the operating rights of HURLIMAN TRUCKING COMPANY, 1624 N. 4th St., San Jose, CA 95112, and for acquisition by RICHARD BEAUCHAMP, D. F. MAULDEN, AND REFRIGERATED TRANSPORT CO., INC., all of Forest Park, GA 30050, and LAMAR BEAUCHAMP, P.O. Box 1499, Winter Haven, FL 33880, of control of such rights through the purchase. Applicants' attorney: Paul M. Daniell, P.O. Box 872, Atlanta, GA 30301. Operating rights sought to be transferred: *Automobile and truck parts and accessories*, as a *contract carrier* over irregular routes, from Romulus, Mich., Elkhart and Madison, Ind., Quincy and Flora, Ill., Akron and Whitehouse, Ohio, and Dallas, Tex., to Grants Pass and Portland, Oreg.; *iron and steel shot* except ammunition, from Elkhart and Mishawaka, Ind., and points in Cuyahoga County, Ohio, to points in Idaho, Montana, Oregon, Washington, and Wyoming; *shot, iron or steel*, not ammunition, from Mishawaka, Ind., to points in California; *shot blast machine* repair parts, from Mishawaka, Ind., to Gardena, Calif., with restrictions. Vendee is authorized to operate as a *contract carrier* in all of the States in the United States (except Alaska and Hawaii). Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11934. Authority sought for purchase by CRAW CARTING, INC., P.O. Box 267, East Rochester, NY 14445, of the operating rights of GATES TRANSPORT, INC., Standpipe Rd., Perry, NY 14530, and for acquisition by ANTHONY GULLACE, 188 Church St., Victor, NY 14564, of controls of such rights through the purchase. Applicants' attorney: Herbert M. Canter, 315 Seitz Bldg., 201 E. Jefferson St., Syracuse, NY 13202. Operating rights sought to be transferred: Under a certificate of registration in Docket No. MC–96721 (Sub-No. 1), covering the transportation of general commodities, as a common carrier, in interstate commerce, within the State of New York; and *general commodities*, excepting among others, livestock, classes A and B explosives, household goods and commodities in bulk, as a *common carrier* over irregular routes, between Buffalo, N.Y., on the one hand, and, on the other, Alden, Alexander, Attica, Bennington, Cowlesville, Castile, Darien, Gainsville, Pavilion, Pearl Creek, Perry, Perry Center, Rock Glen, Silver Lake, Varysburg, and Warsaw, N.Y. Vendee is authorized to operate as a *common carrier* in New York. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11935. Authority sought for purchase by BILL MEEKER, P.O. Box 11184, Wichita, KS 67202, of the operating rights of J. C. PITTS, doing business as REFRIGERATION DELIVERY SERVICE, 1630 N. Sabin, Wichita, KS 67212. Applicants' attorney: Gallyn L. Larsen, 521 So. 14th St., P.O. Box 80806, Lincoln, NE 68501. Operating rights sought to be transferred: *General commodities*, excepting among others, classes A and B explosives, household goods and commodities in bulk, as a common carrier over regular routes, between Cottonwood Falls, Kans., and Kansas City, Mo., serving the intermediate points of Strong City and Kansas City, Kans.; *meats, meat products, and meat-by-products*, and *etc.*, over irregular routes, from Guymon, Okla., to points in Oklahoma and Kansas, with restriction, between points in Kansas; *hardware* and *farm machinery parts*, from Kansas City, Mo., and Kansas City, Kans., to points in Chase County, Kans.; *feed, agricultural implements and parts, agricultural machinery*, and *building materials*, from Kansas City, Mo.; and Kansas City, Kans., to points in Chase County, Kans., from Cottonwood Falls, Kans., and points within 20 miles of Cottonwood Falls to Kansas City, Kans., and Kansas City, Mo.; *seed, twine, fencing materials*, and *bale ties*, between Cottonwood Falls, Kans., and points within 20 miles of Cottonwood Falls, in Chase, Greenwood, Lyon and Marion Counties, Kans., on the one hand, and, on the other, Kansas City, Kans., and Kansas City, Mo.; *livestock* between Cottonwood Falls, Kans., and points within 20 miles of Cottonwood Falls, in Greenwood, Lyon, and Marion Counties, Kans., on the one hand, and, on the other, Kansas City, Kans., and Kansas City, Mo., between points in Chase County, Kans., on the one hand, and, on the other, Kansas City, Kans., and Kansas City and St. Joseph, Mo., from Kansas City, Mo., and Kansas City, Kans., to certain specified points in Kansas. Venedee is authorized to operate as a *common carrier* in California, Kansas, Arizona, New Mexico, Texas, Indiana, Ohio, Florida, Virginia and West Virginia, and as a *contract carrier* in Missouri, Kansas, Colorado, Texas, Oklahoma, and Nebraska. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11936. Authority sought for purchase by PINTO TRUCKING SERVICE, INC., 1414 Calcon Hook Rd., Sharon Hill, PA 19079, of a portion of the operating rights of S. S. BERTZ & SONS, INC., 212–226 W. Lemon St., Lancaster, PA 17603, and for acquisition by JUST ENOUGH CORPORATION, also of Sharon Hill, PA 19079, of control of such rights through the purchase. Applicants' attorneys: V. Baker Smith, 2107 The Fidelity Bldg., Philadelphia, PA 19109, and James D. Campbell, Jr., Six North Third St., Harrisburg, PA 17108. Operating rights sought to be transferred: Under a certificate of registration in Docket No. MC–98950 (Sub-No. 2), covering the transportation of property, as a common carrier, in interstate commerce, within the State of Pennsylvania. Vendee is authorized to operate as a *common carrier* in Connecticut, Maryland, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, and Virginia. Application has not been filed for temporary authority under section 210a(b).

ASSIGNMENT OF HEARINGS

JULY 16, 1973.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC–C–6980 Sub 1, Joe Jones, Jr., DBA Joe Jones Trucking Co.—Revocation of Permit—, now assigned September 10, 1973, MC 115841 Sub 441, Colonial Refrigeration Transportation, Inc., now assigned September 12, 1973, MC 107012 Sub 170, North American Van Lines, Inc., now assigned September 17, 1973, will be held in Room 556 Federal Office Building, 275 Peachtree Street, N.E., Atlanta, Georgia.

MC 135772, Barrett Transfer & Storage Co., now assigned August 6, 1973, will be held in Room 1057, Federal Office Bldg., 909 First Avenue, Seattle, Washington.

MC 72442 Sub 38, Akers Motor Lines, Inc., now assigned September 10, 1973, will be held in Room 305, 1252 W. Peachtree Street, N.W., Atlanta, Georgia.

I&S No. 8587, Soybeans & Wheat, Arkansas & Louisiana to Louisiana Ports, now assigned July 17, 1973, at Washington, D.C., is postponed to August 8, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

No. 35828, Aluminum Company of Canada, Ltd., V. The Alma & Jonquiere Railway Co., et al now being assigned Pre-Hearing Conference, September 5, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 106644 Sub 145, Superior Trucking Company, Inc., continued to July 24, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

[Rev. S.O. 994; I.C.C. Order 107]

CHICAGO, ROCK ISLAND, AND PACIFIC RAILWAY CO.

Rerouting or Diversion of Traffic

In the opinion of R. D. Pfahler, Agent, the Chicago, Rock Island and Pacific Railroad Company is unable to transport traffic over its line between St. Joseph, Missouri, and Atchison, Kansas, because of damage to its bridge over the Missouri River.

It is ordered, That:

(a) The Chicago, Rock Island and Pacific Railroad Company, being unable to transport traffic over its line between St. Joseph, Missouri, and Atchison, Kansas, because of damage to its bridge over the Missouri River, that carrier is hereby authorized to reroute or divert such traffic via any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing povided under this order.

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time shipment on the shipments or originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contacts, agreements, or arrangements now exist between them with reference to the division of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 12:01 a.m., July 9, 1973.

(g) Expiration date: This order shall expire at 11:59 p.m., July 23, 1973, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., July 9, 1973.

INTERSTATE COMMERCE COMMISSION,

[No. MC–C–8102]

HAGERSTOWN MOTOR EXPRESS CO., INC.

Petition for Declaratory Order

JULY 13, 1973.

Petitioner. Hagerstown Motor Express, Co., Inc. (Hagerstown, Md.)

Petitioner's representative. Charles E. Creager, Suite 523, 816 Easley Street, Silver Spring, Md. 20910.

By petition filed June 11, 1973, petitioner seeks a ruling essentially as to whether it may lawfully transport, in interstate or foreign commerce, shipments having both their origins and destinations in Maryland, under and by virtue of, its motor common carrier authority held in its initial certificate No. MC–62499, issued December 13, 1954, to transport, over regular routes, general commodities, except those of unusual value, between Hagerstown, Md., and Baltimore, Md., *serving no intermediate points;* from Hagerstown, over Maryland Highway 60 to Leitersburg, Md., *thence over unnumbered highways and Pennsylvania Highway 316 to Rouzerville, Pa., thence over Pennsylvania Highway 16 to the Pennsylvania-Maryland State line*, thence over Maryland Highway 32 to Westminster, Md., thence over U.S. Highway 140 to Baltimore, Md., and return over the same routes. Petitioner requests a determination that such operations utilizing an interstate routing may be conducted in bona fide interstate commerce, and do not represent a subterfuge to evade the regulatory jurisdiction of the State of Maryland. Petitioner asserts that it has been argued, (a) that such transportation should properly be designated as intrastate commerce which falls within the regulatory jurisdiction of the State of Maryland; and (b) that in this context there exists no real justification for utilizing the interstate routing through Pennsylvania for the transportation of shipments originating at and destined to points in Maryland, which routing would subject such movements to the jurisdiction of the Interstate Commerce Commission rather than the State of Maryland, which would be the case under an intrastate routing. Petitioner states that it does not hold intrastate authority in Maryland from the appropriate Maryland regulatory authorities.

Petitioner also is permitted under its Deviation Notice No. 1, filed April 13, 1962, to operate between Hagerstown and Baltimore, Md., over U.S. Highway 40 (which route lies solely within Maryland) based on its above-described underlying routes in its lead Certificate.

Moreover, petitioner also holds authority in its Sub-No. 6 Certificate, issued August 19, 1964, to transport, over irregular routes, general commodities (except household goods as defined by the Commission, explosives and blasting supplies, commodities requiring special equipment, and commodities requiring refrigeration), from Hagerstown, Md., to points in Maryland, Pennsylvania, Virginia, and West Virginia within 40 miles of Hagerstown, and in its Sub-No. 11

V 38 I 138 JUL 19 73 XUM

Certificate, which was preceded by corresponding temporary authority (permitting interchange and tacking at Hagerstown) held since 1971, to transport over irregular routes, general commodities (with the usual exceptions), from points in Maryland, Pennsylvania, Virginia and West Virginia, within 40 miles of Hagerstown, Md., to Hagerstown, Md., subject to restrictions not here pertinent.

Petitioner tacks these authorities at Hagerstown with the authority granted in its lead Certificate to provide a through service between Baltimore, Md., on the one hand, and, on the other, points within 40 miles of, and including, Hagerstown.

Additionally, and as here pertinent, petitioner also holds authority in its Sub-No. 7 Certificate, issued January 22, 1968, to transport general commodities, with the usual exceptions, over irregular routes, between Baltimore, Md., on the one hand, and, on the other, points in Frederick County, Md., which it could tack with its Sub-No. 6 Certificate and prior Sub-No. 10TA and corresponding Sub-No. 11 Certificate at points in Frederick County, Md., within 40 miles of Hagerstown; and, by operating over Interstate Highway 70 and U.S. Highway 40, could thereby provide a through service on shipments in interstate commerce, moving between Baltimore and Hagerstown, which shipments otherwise originate at or are destined to Hagerstown.

Petitioner states that during its initial operations between December 13, 1954, and August 19, 1964, when it conducted operations under its lead certificate between Hagerstown and Baltimore, Md., over an interstate routing through Pennsylvania, it maintained a terminal at Hagerstown and utilized a local cartage agent at Baltimore; that its traffic consisted of (1) interline traffic, (2) freight forwarder traffic, (3) import and export traffic, (4) traffic from and to warehouses, (5) traffic moved as a contract carrier in Maryland, and (6) some local "intrastate" traffic moving between Hagerstown and Baltimore; that it had to transport such "intrastate" traffic as well as interstate traffic in order to provide a complete service to its shippers; that otherwise it would have lost its interstate traffic; and that its principal competitors Harris Motor Express, Novick Transfer Co., Inc., and Hall's Motor Transit conducted a similar operation in the movement of "intrastate" shipments over interstate routes.

Petitioner further contends that since August 19, 1964, it has tacked its lead certificated authority with its Sub-No. 6 authority at Hagerstown to provide an extended service to Frederick and Westminster, Md.; that the freight handled under this arrangement consisted of traffic of the type described in (1)–(6) above; and that it has continued to provide a service on interstate as well as "intrastate" shipments over the interstate routing through Pennsylvania authorized in its lead Certificate; that since 1971 under its Sub-No. 10TA it has provided an additional service *from* Frederick and Westminster through Hagerstown and thence over the interstate routing through Pennsylvania to Baltimore, as described in its lead Certificate; and that its dominant traffic was (1) interstate in Maryland moving to and from connecting carriers and freight forwarders, (2) traffic moving between Baltimore or Hagerstown and points in Virginia and West Virginia, and (3) traffic moving from Baltimore or Hagerstown to points in Pennsylvania.

Petitioner presently maintains terminals at Baltimore and Hagerstown, and serves the territory within 40 miles of Hagerstown by the use of local drivers allegedly operating in compliance with Commission regulations under a so-called "50-mile exemption". Approximately 70 percent of its revenues are derived from interline movements with other motor carriers and freight forwarders; and the remainder of its revenues are derived from its own single-line operations. It states that all operations (in its lead Certificate) in connection with its line-haul of miscellaneous traffic requiring rehandling at Hagerstown or Baltimore are conducted over an interstate routing through Pennsylvania; and that its volume operations involve truckload shipments (a) moving to or from points in Virginia, West Virginia, or Pennsylvania are conducted over Interstate Highway 70 under its deviation route authority, and (b) under contract carrier arrangements in Maryland move over wholly intrastate routes.

During August 1972 it transported throughout its system of operations 7,212 shipments (weighing nearly 8 million pounds). Based on computations over a 12-day period, petitioner determined that 17 percent of its total shipments (embracing 6.72 percent of the total weight of its total shipments) involved movements from and to points in Maryland, under common carrier operations. Additionally, petitioner estimates that 5 percent of these shipments from and to points in Maryland are warehouse and pier shipments which allegedly are interstate in character (presumably having ultimate known out of state origins or destinations); and that, therefore, 12 percent of its total shipments (embracing 5.72 percent of the weight of its total shipments) involve ultimate origins and destinations solely within Maryland. Petitioner estimates that these operations from and to points in Maryland account for 15 percent of its total revenues.

Petitioner argues that its transportation of shipments which originate and are destined to points in Maryland, through Pennsylvania is reasonable; and that, accordingly, such transportation should be declared subject solely to economic regulation by the Interstate Commerce Commission. It states that the shortest "local" route between Hagerstown and Baltimore, over U.S. Highway 40 and Interstate Highway 70 utilized by intrastate carriers involves a distance of 69 miles, whereas its interstate routing between those points involves a distance of 73 miles; that its operation utilizing interstate routing is, therefore, not highly circuitous; that if it cannot serve all Maryland, Virginia, Pennsylvania, and West Virginia points within 40 miles of Hagerstown in conjunction with all traffic moving from, to, and through Baltimore, Md., its shippers will be forced to use the service of its competitors to obtain a complete service and, in addition, to obtain the benefit of a lower rate charge on multiple minimum shipments; that petitioner does not now maintain a higher rate charge on single shipments vis-a-vis a lower rate charge on multiple minimum shipments which would otherwise encourage a greater use of its service by intrastate shippers; that the transportation of shipments solely from and to points in Maryland over an interstate routing through Pennsylvania constitutes 12 percent of its total shipments and 5.72 percent of the weight of its total shipments, and provides 15 percent of its total revenues, and that therefore, its "local" transportation, over an interstate routing, constitutes an incidental part of its total operation.

Any person (including petitioner) desiring to participate in this proceeding shall file an original and fifteen (15) copies of written representations, views, and arguments in the matter on or before September 10, 1973. A copy of each representation shall be filed on petitioner's representative.

Written material or suggestions submitted will be available for public inspection at the Offices of the Interstate Commerce Commission, 12th and Constitution Avenue, N.W., Washington, D.C., during the regular business hours.

Notice to the general public of the matter herein under consideration will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection and by filing a copy thereof with the Director, Office of the Federal Register.

By the Commission.

[Notice 315]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before August 8, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceedings pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74266. By order of July 10, 1973, the Motor Carrier Board, on reconsideration, approved the transfer to John Darrell Neyens, doing business as Point Roberts Auto Freight, Lynden, Wash., of the operating rights in Certificate No. MC-110429 issued December 24, 1958, to Edward M. Hentz, doing business as Point Roberts Auto Freight, Bellingham, Wash., authorizing the transportation of general commodities, between Bellingham, Wash., and the boundary of the United States and Canada, and between Point Roberts, Wash., and the boundary of the United States and Canada; serving no intermediate points. Joseph O. Earp, Registered Practitioner, 607 Third Avenue, Seattle, Wash. 98104. Representative for applicants.

No. MC-FC-74407. By order of July 11, 1973, the Motor Carrier Board approved the transfer to O. G. Trucking Co., a corporation, Columbus, Ohio, of a portion of the operating rights in Certificate No. MC-123375 (Sub-No. 1) issued December 18, 1961 to Kirk Trucking Service, Inc., Monroeville, Pa., authorizing the transportation of various commodities between specified points and areas in New Jersey, New York, Pennsylvania, Ohio, and West Virginia. A. Charles Tell, 100 East Broad St., Columbus, Ohio, 43215 Attorney for applicants.

No. MC-FC-74553. By order of July 9, 1973, the Motor Carrier Board approved the transfer to Staple Trucking Service, Inc., Old Bethpage, N.Y., of Certificate No. MC-30097 issued April 14, 1960, to William F. Supel, Secaucus, N.J., authorizing the transportation of: Incandescent lamps, and raw materials used in the manufacture of incandescent lamps, between points in Hudson and Passaic Counties, N.J., on the one hand, and, on the other, points in New York and New Jersey within 100 miles of Jersey City, N.J., including Jersey City, and points in 16 named counties in Pennsylvania. *Dual operations were approved.* John L. Alfano, Attorney at Law, 2 West 45th Street, New York, N.Y. 10036

No. MC-FC-74544. By order entered July 9, 1973, the Motor Carrier Board approved the transfer to Edwin K. Haldeman, Doylestown, Pa., of the operating rights set forth in Certificate No. MC-128399, issued December 5, 1966, to Paul S. Hendricks, Inc., Hilltown, Pa., authorizing the transportation of fertilizer, seed, feed, plant spraying materials, and empty containers used for the carrying of agricultural commodities, from points in New Jersey, Delaware, and Maryland, to points in Bucks County, Pa.; and fertilizer, from Baltimore, Md., to points in Bucks County, Pa.

No. MC-FC-74547. By order entered July 11, 1973, the Motor Carrier Board approved the transfer to Clarence M. Buch, Martindale, Pennsylvania, of Certificate No. MC-111019, issued December 14, 1949, to Willis R. Newswanger, New Holland, Pennsylvania, authorizing the transportation of pulverized agricultural limestone, from points in Lancaster County, Pa., to points other than incorporated municipalities in Delaware and Maryland. John M. Musselman, P.O. Box 1146, 410 North Third St., Harrisburg, Pa. 17108, Attorney for applicants.

No. MC-FC-74570. By order of July 11, 1973, the Motor Carrier Board approved the transfer to Blanchfield Trucking Company, Inc., Winchester, Va., of a portion of the operating rights in Certificate No. MC-67193 issued June 6, 1941, to Earl Swanson Blanchfield, Winchester, Va., authorizing the transportation of: Oils and greases from Baltimore, Md., to Winchester, Va. Frank B. Hand, Jr., Attorney at Law, P.O. Box 163, Berryville, Va. 22611

ROBERT L. OSWALD,
Secretary.

[FR Doc.73-14807 Filed 7-18-73;8:45 am]

[Ex Parte 241, Rule 19, Corrected Exemption 45]

NORFOLK AND WESTERN RAILWAY CO. AND PENN CENTRAL TRANSPORTATION CO.

Exemption Under Mandatory Car Service Rules

It appearing, that the Norfolk and Western Railway Company (N&W) and the Penn Central Transportation Company, George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees (PC) have each agreed to the unrestricted use by the other of its plain gondola cars less than 61 ft. in length; and that such mutual use of gondola cars will increase car utilization by reductions in switching and movements of empty gondola cars.

It is ordered, That, pursuant to the authority vested in me by Car Service Rule 19, plain gondola cars described in the Official Railway Equipment Register, I.C.C. R.E.R. No. 387, issued by W. J. Trezise, or successive issues thereof, as having mechanical designations "GA", "GB", "GD", "GE", "GH", "GRA", "GS", and "GW", which are less than 61 ft. 0 in. long, and which bear the reporting marks listed herein, may be used by the N&W and the PC without regard to the requirements of Car Service Rules 1 and 2.

REPORTING MARKS

N&W		PC	
NKP	B&A		PCA
P&WV	BWC		PCB
VGN	CASO		P&E
WAB	NH		PRR
	NYC		TOC

Effective July 1, 1973.

Expires August 31, 1973.

Issued at Washington, D.C., June 29, 1973.

INTERSTATE COMMERCE COMMISSION,
R. D. PFAHLER,
Agent.

[FR Doc.73-14804 Filed 7-18-73;8:45 am]

[Rev. S.O. 994; I.C.C. Order 103-A]

VERMONT RAILWAY INC.

Rerouting or Diversion of Traffic

Upon further consideration of I.C.C. Order No. 103 (Vermont Railway, Inc.) and good cause appearing therefor:

It is ordered, That:

I.C.C. Order No. 103 be, and it is hereby, vacated and set aside.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., July 13, 1973.

INTERSTATE COMMERCE COMMISSION,
R. D. PFAHLER,
Agent.

NATIONAL SECURITY INFORMATION

Classification, Downgrading, Declassification and Safeguarding

V38-138 JUL 19 73 XUM

Title 31—Money and Finance: Treasury

SUBTITLE A—OFFICE OF THE SECRETARY OF THE TREASURY

PART 2—CLASSIFICATION, DOWNGRADING, DECLASSIFICATION AND SAFEGUARDING OF NATIONAL SECURITY INFORMATION AND MATERIAL

This document puts into the form of regulations the Department of the Treasury procedures for the classification, downgrading, declassification and safeguarding of national security information and material, required under Executive Order 11652, 37 FR 5209, and the National Security Council Directive of May 17, 1972, 37 FR 10053. These regulations incorporate and revise the procedures on this subject embodied in Treasury Department Order No. 160, Revised,, of August 3, 1972, 37 FR 20990. That Treasury Department order is superseded by these regulations as of their effective date, July 1, 1973. A new Treasury Department Order No. 160, Revised, is being issued contemporaneously with these regulations to provide appropriate delegations of authority under the Executive Order, the Directive and these regulations.

These regulations have been approved by the Interagency Classification Review Committee, as required by the Executive Order and directive. They are issued pursuant to 5 U.S.C. 553 without notice of proposed rulemaking and without a 30-day delay in their effective date, as they are rules of agency organization, procedure and practice.

In consideration of the foregoing, 31 CFR, Subtitle A, is amended by adding Part 2 to read as follows:

Subpart A—General Provisions

Sec.
2.1 Purpose.
2.2 Definitions.
2.3 Responsibility for implementation.
2.4 Material restricted under the Atomic Energy Act.
2.5 Special departmental requirements with respect to material or information or material relating to intelligence or cryptography.
2.6 Material or information furnished by a foreign government or international organization.
2.7 Exemption from public disclosure.
2.8 Bureau responsibility.
2.9 Individual responsibility.

Subpart B—Security Classification Categories

2.10 General.
2.11 Top Secret.
2.12 Secret.
2.13 Confidential.
2.14–2.19 [Reserved].

Subpart C—Classification and Markings

2.20 Original classification authority.
2.21 Records of officials with classification authority.
2.22 Guidelines for classification.
2.23 Derivative classification.
2.24 Marking of documents.
2.25 Classification markings on documents.
2.26 Additional warning notices.
2.27 Overall marking and page marking.
2.28 Marking of material other than documents.
2.29 Downgrading, declassification and upgrading markings.

Subpart D—Downgrading and Declassification

Sec.
2.30 Authority to downgrade and declassify.
2.31 Guidelines for downgrading and declassification.
2.32 Dates or events carried forward.
2.33 General Declassification Schedule.
2.34 Exemptions from General Declassification Schedule.
2.35 Applicability of the General Declassification Schedule to previously classified material.
2.36 Mandatory review of material over ten years old.
2.37 Declassification of material over thirty years old.
2.38 Automatic declassification of thirty-year-old material originated after June 1, 1972.
2.39 Systematic review of thirty-year-old material originated before June 1, 1972.
2.40 Mandatory review of material over thirty years old.
2.41 Departmental Committee on National Security Information.
2.42 Burden of proof.
2.43 Notification of change in classification or of declassification.
2.44–2.49 [Reserved]

Subpart E—Access

2.50 General.
2.51 Access by historical researchers.
2.52 Access by certain officials and employees of Federal Reserve Banks.
2.53 Access by former Presidential appointees.
2.54 Dissemination by the Department of classified information or material originated by another department.
2.55–2.59 [Reserved]

Subpart F—Accountability

2.60 Top Secret Control Officers.
2.61 Control of Top Secret material.
2.62 Accountability of classified material.
2.63 Restraint on reproduction.
2.64 Data Index System.
2.65–2.69 [Reserved]

Subpart G—Safekeeping and Storage

2.70 General policy.
2.71 Standards for storage equipment.
2.72 Storage of classified material.
2.73 Security storage equipment.
2.74 Classified document cover sheets.
2.75 Responsibilities of custodians.
2.76 Report of loss or compromise.
2.77 Inquiry.
2.78–2.79 [Reserved]

Subpart H—Transmission

2.80 General policy.
2.81 Preparation.
2.82 Transmission of Top Secret.
2.83 Transmission of Secret.
2.84 Transmission of Confidential.
2.85 Transmission by personnel in travel status.
2.86 Telecommunications transmissions.
2.87–2.89 [Reserved]

Subpart I—Destruction of Classified Information and Material

2.90 Methods of destruction.
2.91 Approval of use of mulching and shredding machines.
2.92 Destruction by burning.
2.93 Records of destruction.
2.94 Destruction of nonrecord material.
2.95–2.99 [Reserved]

Subpart J—Training and Orientation

2.100 Briefing of employees.
2.101 Debriefing of employees.
2.102 Departmental administration.
2.103 Bureau administration.
2.104–2.109 [Reserved]

Subpart K—Administrative and Judicial Action

Sec.
2.110 Enforcement policy.
2.111 Applicability.
2.112 Disciplinary action.

APPENDIX A—TREASURY DEPARTMENT ORDER NO. 160, REVISED, DELEGATION OF AUTHORITY CONCERNING IMPLEMENTATION OF EXECUTIVE ORDER 11652, AS AMENDED, AND THE NATIONAL SECURITY DIRECTIVE OF MAY 17, 1972

AUTHORITY: E.O. 11652, 37 FR 5209; National Security Council Directive of May 17, 1972, 37 FR 10053.

Subpart A—General Provisions

§ 2.1 Purpose.

The purpose of the regulations in this part is to insure that information or material originated within the Department of the Treasury which requires classification in the interest of national security is classified in accordance with the provisions of Executive Order 11652, 37 FR 5209, and the National Security Directive of May 17, 1972, 37 FR 10053 (hereinafter referred to as the Executive Order and Directive), as supplemented by the regulations in this part, and that official information and material originating in or coming under the control or jurisdiction of the Department of the Treasury, which is classified in the interest of national security and in accordance with the provisions of the Executive Order and Directive, is protected, but only to the extent and for such period as is necessary. In addition, these regulations establish a monitoring system to insure the effectiveness of this security program throughout the Department of the Treasury.

§ 2.2 Definitions.

As used in the regulations of this part the following terms shall have the meaning indicated:

(a) *Classification.* The determination that official information or material requires, in the interests of national security, a specific degree of protection against unauthorized disclosure, coupled with a designation signifying that such a determination has been made.

(b) *Classified information.* Official information or material which has been determined by an appropriate authority to require, in the interests of national security, protection against unauthorized disclosure and which has been so designated.

(c) *Classifier.* An individual who determines that official information or material, not known by him to be already classified, currently requires, in the interests of national security, a specific degree of protection against unauthorized disclosure and, having authority to do so, designates that official information or material as Top Secret, Secret, or Confidential.

(d) *Compromise.* The known or suspected exposure of classified information or material to an unauthorized person.

(e) *Declassification.* The determination that particular classified information or material no longer requires, in the interests of national security, protection against unauthorized disclosure, coupled with a removal or cancellation of the classification designation.

(f) *Department.* The Department of the Treasury, including all bureaus, offices, services and divisions.

(g) *Downgrading.* The determination that particular classified information or material merits a lower degree of protection against unauthorized disclosure than currently provided, coupled with a changing of the classification designation to reflect such lower degree.

(h) *Information.* Knowledge which can be communicated by any means.

(i) *Material.* Any document, product, or substance on or in which information may be recorded or embodied.

(j) *National security.* Any matters bearing directly on the effectiveness of the national defense and the conduct of the foreign relations of the United States.

(k) *Nonrecord material.* Extra copies and duplicates, shorthand notes, preliminary drafts, used carbon paper, one-time typewriter ribbons, and other materials of a similar temporary nature.

(l) *Record material.* All documentary material made or received by a department or agency of the Government in connection with the transaction of public business and preserved as evidence of the organization, functions, policies, operations, decisions, procedures or other activities of any department or agency of the Government, or because of the informational value of the data contained therein.

(m) *Restricted data.* All data (information) concerning:

(1) Design, manufacture, or utilization of atomic weapons;

(2) The production of special nuclear material; or

(3) The use of special nuclear material in the production of energy, but not to include data declassified or removed from the Restricted Data category pursuant to section 142 of the Atomic Energy Act, as amended, 42 U.S.C. 2162.

§ 2.3 Responsibility for implementation.

The Assistant Secretary for Administration shall be responsible for insuring effective compliance with the implementation of the Executive Order and Directive and the regulations of this part.

§ 2.4 Material restricted under the Atomic Energy Act.

Nothing in these regulations shall supersede any requirements made by or under the Atomic Energy Act of 1954, as amended. "Restricted Data" and material designated as "Formerly Restricted Data" shall be handled, protected, classified, downgraded and declassified in conformity with the provisions of the Atomic Energy Act of 1954, as amended, and the regulations of the Atomic Energy Commission.

§ 2.5 Special departmental requirements with respect to information or material relating to intelligence or cryptography.

Nothing in these regulations shall prohibit compliance with any special requirements that another department or agency may impose as to classified information or material relating to communications intelligence, intelligence sources and methods, communications security, cryptography, and related matters originated by that department or agency.

§ 2.6 Material or information furnished by a foreign government or international organization.

Classified information or material furnished to the United States by a foreign government or an international organization shall either retain its original classification or be assigned a United States classification. In either case, the classification shall assure a degree of protection equivalent to that required by the government or international organization which furnished the information or material.

§ 2.7 Exemption from public disclosure.

Official information or material, which has been classified in accordance with the provisions of the Executive Order and Directive, is expressly exempted from public disclosure by section 552 (b) (1) of title 5, United States Code. Wrongful disclosure of such information or material is recognized in the Federal Criminal Code as providing a basis for prosecution.

§ 2.8 Bureau responsibility.

Each bureau head shall designate a member or members of his staff to conduct a continuing review of the implementation of the Executive Order and Directive and these regulations within his bureau. The Office of Administrative Programs, Assistant Director, (Physical Security) shall coordinate bureau reviews and is authorized to determine periodic or special reports which may be required. Copies of all regulations and procedures of general applicability issued by heads of bureaus shall be forwarded to the Office of Administrative Programs, Assistant Director (Physical Security).

§ 2.9 Individual responsibility.

Each employee, special Government employee, or consultant and each individual permitted access to classified information or material shall comply with the requirements of these regulations. The collection, obtaining, recording or removing for any personal use whatsoever, of any classified information or material is prohibited. A holder of classified information or material shall observe and respect the classification assigned by the originator. If a holder of classified information believes that there is unnecessary classification, that the assigned classification is improper, or that the document is subject to declassification under the Executive Order, the holder shall so inform the originator.

Subpart B—Security Classification Categories

§ 2.10 General.

Official information or material which requires protection against unauthorized disclosure in the interests of national security shall be classified in one of three categories, namely, Top Secret, Secret, or Confidential, depending upon the degree of its significance to national security. No other categories shall be used to identify official information or material as requiring protection in the interests of national security, except as otherwise expressly provided by statute.

§ 2.11 Top Secret.

Top Secret refers to that national security information or material which requires the highest degree of protection. The test for assigning a Top Secret classification shall be whether its unauthorized disclosure could reasonably be expected to cause exceptionally grave damage to the national security. Examples of "exceptionally grave damage" include armed hostilities against the United States or its allies; disruption of foreign relations vitally affecting the national security; the compromise of vital national defense plans or complex cryptologic and communications intelligence systems; the revelation of sensitive intelligence operations; and the disclosure of scientific or technological developments vital to national security. This classification shall be used with the utmost restraint.

§ 2.12 Secret.

Secret refers to that national security information or material which requires a substantial degree of protection. The test for assigning Secret classification shall be whether its unauthorized disclosure could reasonably be expected to cause serious damage to the national security. Examples of "serious damage" include disruption of foreign relations significantly affecting the national security; significant impairment of a program or policy directly related to the national security; revelation of significant military plans or intelligence operations; and compromise of significant scientific or technological developments relating to national security. The classification Secret shall be sparingly used.

§ 2.13 Confidential.

Confidential refers to that national security information or material which requires protection. The test for assigning Confidential classification shall be whether its unauthorized disclosure could reasonably be expected to cause damage to the national security.

§§ 2.14–2.19 [Reserved]

Subpart C—Classification and Markings

§ 2.20 Original classification authority.

The authority to originally classify official information or material is restricted to the officials authorized under Appendix A of these regulations. The authority inheres in the office and may be exercised by the person acting in that office. Officials authorized to classify information or material as Top Secret or Secret shall not redelegate such authority. However, as provided by Appendix A, such officials are authorized to delegate Confidential classification authority Delegations of such authority shall be

V 38 I 138 JUL 19 73 XUM

reported in writing to the Assistant Secretary for Administration. These delegations shall be limited to the minimum number absolutely required for efficient administration.

§ 2.21 Record of officials with classification authority.

The Assistant Secretary for Administration shall maintain a listing by name and position of the officials in the Office of the Secretary who are authorized under these regulations to originally classify documents as Top Secret, Secret, or Confidential. Officials within the Office of the Secretary with "Top Secret" or "Secret" classification authority shall report in writing to the Assistant Secretary for Administration the names of the officials designated in writing to have original Confidential classification authority. The head of each bureau shall maintain a listing of the officials in his bureau authorized to apply an original Confidential classification and shall furnish a copy of each listing to the Assistant Secretary for Administration. This listing shall be compiled as of July 1, 1972, and updated at least on a quarterly basis.

§ 2.22 Guidelines for classification.

Each person possessing original classification authority shall be held accountable for the propriety of classifications attributed to him. Both unnecessary classfication and over-classification shall be avoided. Classification shall be solely on the basis of national security considerations. In no case shall information be classified in order to conceal inefficiency or administrative error, or to prevent embarrassment to a person or the Department, to restrain competition or independent initiative, or to prevent for any other reason the release of information which does not require protection in the interest of national security. If the classifier has any substantial doubt as to which security classification category is appropriate, or as to whether the material should be classified at all, he should designate the less restrictive treatment.

§ 2.23 Derivative classification.

Any person who incorporates into a new document or other material information or material previously classified by an authorized official, as a result of, in connection with, or in response to existing material dealing with the same subject which already bears a classification, shall reflect the original classification and the identity of the original classifier on the new document or other material. Performance of this duty shall not constitute original classification. If all of the classified information contained in a document is classified due to classification imposed by a single outside source and no original classification is involved, the "classified by" line of the stamp shall identify the source document, including its date and also the official title and organization of the original classifier when known. In all cases, the official responsible for executing the "classified by" line on the stamp shall establish and retain adequate records to support his action.

§ 2.24 Marking of documents.

(a) *Purpose of designation.* Designation by physical marking, notation or other means, serves to inform and to warn the holder of the classification of the information involved, the degree of protection against unauthorized disclosure which is required for that particular level of classification, and to facilitate downgrading and declassification actions.

(b) *Wholly unclassified material.* Normally, unclassified material should not be marked or stamped "Unclassified" unless it is essential to convey to its recipient that it has been examined specifically for the need of a security classification or control designation and has been determined not to require such classification or control. However, preprinted forms such as telegrams which make provision for an assigned classification shall include the term "Unclassified" if the information contained in the text is not classified. Envelopes containing unclassified information to be sent by diplomatic pouch must be marked or stamped "Unclassified" on both sides.

§ 2.25 Classification markings on documents.

At the time of origination, each document or other material containing classified information shall be marked with its assigned security classification and whether it is subject to the General Declassification Schedule, whether it can be declassified earlier, or whether it is exempt from the General Declassification Schedule.

(a) *General Declassification Schedule.* For marking documents which are subject to the General Declassification Schedule, the following stamp shall be used:

(TOP SECRET, SECRET OR CONFIDENTIAL) CLASSIFIED BY _____ SUBJECT TO GENERAL DECLASSIFICATION SCHEDULE OF EXECUTIVE ORDER 11652 AUTOMATICALLY DOWN GRADED AT TWO-YEAR INTERVALS AND DECLASSIFIED ON DEC. 31 (insert year)

(b) *Accelerated Declassification Schedule.* For marking documents which are to be automatically declassified on a given event or date earlier than the General Declassification Schedule the following stamp shall be used:

(TOP SECRET, SECRET OR CONFIDENTIAL) CLASSIFIED BY _____ AUTOMATICALLY DECLASSIFIED ON (effective date or event) Example: Date of Public Release

(c) *Exemptions from General Declassification Schedule.* For marking documents which are exempt from the General Declassification Schedule, pursuant to § 2.34, the following stamp shall be used:

(TOP SECRET, SECRET OR CONDFIDENTIAL) CLASSIFIED BY _____ EXEMPT FROM GENERAL DECLASSIFICATION SCHEDULE OF EXECUTIVE ORDER 11652 EXEMPTION CATEGORY (§ 5B (1), (2), (3), or (4)) AUTOMATICALLY DECLASSFIED ON _____ (effective date or event, if any)

The "Restricted Data" and "Formerly Restricted Data" stamps (see § 2.26 (a), (b)) are in themselves, evidence of exemption from the General Declassification Schedule.

(d) *Failure to mark document.* Should the classifier inadvertently fail to mark a document with one of the foregoing stamps, the document shall be deemed to be subject to the General Declassification Schedule. The person who signs or finally approves a document or other material containing classified information shall be deemed to be the classifier. If the classifier is another person, the individual shall be identified on the stamp as indicated.

§ 2.26 Additional warning notices.

In addition to the foregoing marking requirements, warning notices shall be prominently displayed on classified documents or materials as prescribed below. When display of these warning notices on the documents or other materials is not feasible, the warnings shall be included in the written notification of the assigned classification.

(a) *Restricted data.* For classified information or material containing Restricted Data as defined in the Atomic Energy Act of 1954, as amended:

RESTRICTED DATA

This document contains Restricted Data as defined in the Atomic Energy Act of 1954, as amended. Its dissemination or disclosure to any unauthorized person is prohibited.

(b) *Formerly restricted data.* For classified information or material containing solely Formerly Restricted Data, as defined in section 142.d, Atomic Energy Act of 1954, as amended:

FORMERLY RESTRICTED DATA

Unauthorized disclosure subject to Administrative and Criminal Sanctions. Handle as Restricted Data in Foreign Dissemination. Section 144.b, Atomic Energy Act, 1954.

(c) *Other classified information (other than restricted data or formerly restricted data).* For classified information or material furnished to persons outside the executive branch of Government other than as described in items (a) and (b) above:

NATIONAL SECURITY INFORMATION

Unauthorized Disclosure Subject to Criminal Sanctions.

(d) *Sensitive intelligence information.* For classified information or material relating to sensitive intelligence sources and methods, the following warning notice shall be used, in addition to and in conjunction with those prescribed in paragraphs (a), (b), or (c) of this section, as appropriate:

WARNING NOTICE—SENSITIVE INTELLIGENCE SOURCES AND METHODS INVOLVED

§ 2.27 Overall marking and page marking.

The overall classification of a document, whether or not permanently bound, or any copy or reproduction thereof, shall be conspicuously marked or stamped at the top and bottom of the outside of the front cover (if any), on the title page (if any), on the first page, on the back page, and on the outside of the back cover (if any). To the extent practicable, each interior page of a document which is not permanently bound shall be conspicuously marked or stamped at the top and bottom according to its own content, including the designation "Unclassified" when appropriate.

(a) *Paragraph marking.* Whenever a classified document contains either more than one security classification category or unclassified information, each section, part, or paragraph should be marked to the extent practicable to show its classification category or that it is unclassified. When appropriate, the classification of each paragraph (including "Unclassified") may be indicated by closing the paragraph with the appropriate classification symbol for that paragraph, as follows: (TS), (S), (C), (UNCLAS).

(b) *Subjects, titles, abstracts and index terms.* Subjects, titles, abstracts and index terms shall be selected, if possible, so as not to require classification. However, a classified subject, title, abstract or index term may be used when necessary to convey meaning. To show its classified or unclassified status, each such item shall be marked with the appropriate symbol, (TS), (S), (C), or (U) placed immediately following and to the right of the item. When appropriate, the symbols (RD) and (FRD) shall be added.

(c) *File, folder or group of documents.* Files, folders or groups of documents shall be conspicuously marked to assure their protection to a degree as high as that of the most highly classified document included therein. Documents separated from the file, folder or group shall be marked as prescribed herein for individual documents.

(d) *Transmittal documents.* A transmittal document shall carry on it a prominent notation as to the highest classification of the information which is carried with it, and a legend showing the classification, if any, of the transmittal document standing alone. For example, in the case of an unclassified document which transmits as an attachment a classified document, it shall bear a notation substantially as follows: "REGRADED UNCLASSIFIED WHEN SEPARATED FROM CLASSIFIED ATTACHMENT."

§ 2.28 Marking of material other than documents.

If classified material cannot be marked, written notification of the information otherwise required in markings shall accompany such material.

(a) *Books or pamphlets.* Permanently bound books or pamphlets are to be conspicuously marked with the assigned classification or control designation at the top and bottom on the outside of the front cover, on the title page, on the first page, on the back page, and on the outside of the back cover. Other required markings must be placed on the outside of the front cover.

(b) *Reproducible masters.* Reproducible masters such as airgrams, mimeograph stencils, hectograph masters, photostatic negatives, or multilith plates used in the reproduction of classified or administratively controlled documents are to be marked so that each copy made from them will show the classification or control designation and other required markings. Preprinting of paper with classification control designation, or other pertinent markings, is authorized.

(c) *Photographic negatives, prints, slides and films.* Whenever possible, photographic negatives and slides are to be marked with the assigned classification or control designation at the top and bottom on the front. Photographic negatives in roll form contain the assigned classification or control designation at the beginning and end of each roll. In all cases, photographic prints are to be marked at the top and bottom of the front and on the back with the classification and control designation. If additional special markings are required, apply them conspicuously.

(d) *Charts, maps and drawings.* Charts, maps and drawings shall bear the appropriate classification marking under the legend, title block or scale, in such manner as to differentiate between the classification assigned to the document as a whole and the classification assigned to the legend or title, and so that it can be reproduced on all copies made. The markings also shall be inscribed at the top and bottom of each such document. Where the customary method of folding or rolling charts, maps or drawings would cover the classification markings, additional classification markings shall be placed so as to be clearly visible when the document is folded or rolled.

(e) *Decks of accounting machine cards.* A deck of classified accounting machine cards need not be marked individually but may be marked as one single classified document so long as they remain within the deck. A deck so marked shall be stored, transmitted, destroyed and otherwise handled in the manner prescribed for other classified documents of the same classification. An additional card shall be added, however, to identify the contents of the deck and the highest classification involved. Cards removed for separate processing or use, and not immediately returned to the deck after processing, shall be protected to prevent compromise of any classified information contained therein, and for this purpose shall be marked individually as prescribed herein for an individual ordinary document.

(f) *Electrical machine and Automatic Data Processing Tapes.* Electrical machine and Automatic Data Processing (ADP) tapes shall bear external markings and internal notations sufficient to assure that any recipient of the tapes, or of the classified information contained therein when reproduced by any medium, will know that classified information of a specific classification category is involved.

(g) *Pages of Automatic Data Processing listings.* Classification markings on pages of listings produced by ADP equipment may be applied by the equipment provided that the markings so applied are clearly distinguishable on the face of the document from the printed text. As a minimum, such listings shall be marked with the security classification on the first and last pages of the listing and on the front and back covers, if any, as previously prescribed in § 2.25.

§ 2.29 Downgrading, declassification and upgrading markings.

Whenever a change is made in the original classification or in the dates of downgrading or declassification of any classified information or material, it shall be promptly and conspicuously marked to indicate the change, the authority for the action, the date of the action, and the identity of the person taking the action. In addition, all earlier classification markings shall be canceled, if practicable, but in any event on the first page.

(a) *Markings for large quantities of material.* When the volume of information or material is such that prompt remarking of each classified item could not be accomplished without unduly interfering with operations, the custodian may attach downgrading, declassification, or upgrading notices to the storage unit in lieu of the re-marking otherwise required. Each notice shall indicate the change, the authority for the action, the date of the action, the identity of the person taking the action, and the storage units to which it applies. When individual documents or other materials are withdrawn from such storage units they shall be promptly re-marked in accordance with the change, or if the documents have been declassified, the old markings shall be canceled. However, when information or material subject to a posted downgrading, upgrading, or declassification notice are withdrawn from one storage unit solely for transfer to another, or a storage unit containing such documents or other materials is transferred from one place to another, the transfer may be made without re-marking if the notice is attached to or remains with each shipment.

(b) *Upgrading.* When material is upgraded under the provisions of these regulations, it shall be promptly and conspicuously marked, except that in all such cases the old classification marking shall be canceled and the new substituted therefor.

(c) *Marking of classified telegrams.* Information contained in Top Secret, Secret, and Confidential telegrams is subject to automatic downgrading, declassification, and decontrol procedures

V 38 I 138 JUL 19 73 XUM

to the same extent as the substantive contents of nontelegraphic documents. In order to eliminate costly transmissions, standard abbreviations for required notations have been substituted, and will appear as the final unnumbered paragraph of the message text, as follows:

(1) For classified information that has been assigned to the General Declassification Schedule, add the abbreviation: GDS.

(2) For classified information that is to be declassified without reference to the General Declassification Schedule, add: ADS (Accelerated Declassification Schedule); DECLAS (insert date or other event or condition for declassification).

(3) For classified information that has been exempted from the General Declassification Schedule, add: XGDS (insert the category number 5B (1), (2), (3), or (4); DECLAS (insert appropriate date).

(4) The following abbreviations may be submitted for the warning notices indicated in § 2.26: RD (Restricted Data); FRD (Formerly Restricted Data); NSI (National Security Information); SIS (Sensitive Intelligence Sources and Methods).

(5) While the above abbreviations of warning notices are acceptable for telegrams, the preferred method is to include the warning notice as part of the message text. This procedure will immediately alert all recipients to the sensitivity of the message and the possible special handling requirements. For example, when classified information pertaining to sensitive intelligence sources and methods is used in a telegram, the first line of the message text shall read as follows:

WARNING NOTICE—
SENSITIVE INTELLIGENCE
SOURCES AND METHODS
INVOLVED

In all instances, drafters incorporating classified information from material bearing a warning notice or exemption from the General Declassification Schedule must ensure that the warning notice and/or exemption is "carried over" to the new document.

The record copy of all electrically transmitted messages must, of course, contain all information required by the Executive Order. It therefore must contain the name and initials of the official authorizing the classification, the declassification schedule and exemption from the schedule, if appropriate.

Subpart D—Downgrading and Declassification

§ 2.30 Authority to downgrade and declassify.

The authority to downgrade and declassify national security information or material within the Department of the Treasury shall be restricted to the officials authorized under Appendix A of these regulations. Delegations of authority to downgrade or declassify shall be reported in writing to the Assistant Secretary for Administration.

§ 2.31 Guidelines for downgrading and declassification.

The individual exercising original classifying authority shall, to the maximum extent practicable, predetermine at the time of origination, dates or events on which downgrading and declassification shall occur. These dates shall be as early as the national security will permit, and shall be in accordance with the limits of the dates of the General Declassification Schedule, as set forth in § 2.33, only if earlier dates cannot be predetermined.

§ 2.32 Dates or events carried forward.

Downgrading and declassification dates or events established in accordance with § 2.31 shall be carried forward and applied whenever the classified information or material is incorporated in other documents or material.

§ 2.33 General Declassification Schedule.

Classified information and material, unless downgraded or declassified earlier under the provisions of § 2.31 or exempted from the General Declassification Schedule under § 2.34, shall be assigned a date or event on which downgrading and declassification shall occur in accordance with the prescribed limits of the General Declassification Schedule outlined below:

(a) *Top Secret.* Information or material originally classified Top Secret shall become automatically downgraded to Secret at the end of the second full calendar year following the year in which it was originated, downgraded to Confidential at the end of the fourth full calendar year following the year in which it was originated, and declassified at the end of the tenth full calendar year following the year in which it was originated.

(b) *Secret.* Information and material originally classified Secret shall become automatically downgraded to Confidential at the end of the second full calendar year following the year in which it was originated, and declassified at the end of the eighth full calendar year following the year in which it was originated.

(c) *Confidential.* Information and material originally classified Confidential shall become automatically declassified at the end of the sixth full calendar year following the year in which it was originated.

§ 2.34 Exemptions from General Declassification Schedule.

Certain classified information or material may warrant some degree of protection for a period exceeding that provided in the General Declassification Schedule. An official authorized to originally classify information or material Top Secret may exempt from the General Declassification Schedule any level of classified information or material originated by him or under his supervision if it falls within one of the categories described below. In each case such official shall specify in writing on the material the exemption category being claimed and, unless impossible, a date or event for automatic declassification. The use of the exemption authority shall be kept to the absolute minimum consistent with national security requirements and shall be restricted to the following categories:

(a) Classified information or material furnished by foreign governments or international organizations and held by the United States on the understanding that it be kept in confidence.

(b) Classified information or material specifically covered by statute, or pertaining to cryptography, or disclosing intelligence sources or methods.

(c) Classified information or material disclosing a system, plan, installation, project or specific foreign relations matter the continuing protection of which is essential to the national security.

(d) Classified information or material the disclosure of which would place a person in immediate jeopardy.

§ 2.35 Applicability of the General Declassification Schedule to previously classified material.

Information or material classified before June 1, 1972, and which is assigned to Group 4 under Executive Order 10501, as amended by Executive Order 10964, shall be subject to the General Declassification Schedule. All other information or material classified before June 1, 1972, whether or not assigned to Groups 1, 2 or 3 of Executive Order 10501, as amended, shall be excluded from the General Declassification Schedule. However, at any time after the expiration of ten years from the date of origin it shall be subject to a mandatory classification review and disposition under the same conditions and criteria that apply to classified information and material created after June 1, 1972, as set forth in §§ 2.34 and 2.36.

§ 2.36 Mandatory review of material over ten years old.

Members of the public or other departments wishing to request review of classified material over ten years old in the custody of the Department of the Treasury shall apply in writing to the Office of Assistant Secretary for Administration, Department of the Treasury, Washington, D.C. A request must describe the material desired to be reviewed with sufficient particularity to enable the Department to identify it and obtain it with a reasonable amount of effort.

(a) *Action upon receipt of request for review.* The Assistant Secretary for Administration shall immediately forward the request for review of records over ten years old to the appropriate officer of the Department of the Treasury having Top Secret classification authority and shall acknowledge receipt of the request to the requester in writing. If the request requires the rendering of services for which fair and equitable fees should be charged pursuant to 31 U.S.C. 483a, the requester shall be so notified. The officer to which action has been assigned shall, whenever the request is deficient in its description of the record sought, ask the requester to provide additional identifying information whenever possible.

(b) *Initial determination.* The request shall be reviewed and a determination made within thirty days after the receipt of identifying information whether continued classification is required under the criteria of § 2.34. If the request is denied, the determining officer must indicate to the Assistant Secretary for Administration in a brief statement the reason for continued classification and, unless impossible, specify the date on which such matter shall be declassified. Whenever possible, the Assistant Secretary for Administration shall furnish the requester with a copy of that statement.

(c) *Right of appeal to the Departmental Committee on National Security Information.* If the request is denied or no answer is received after sixty days, the requester may appeal to the Departmental Committee on National Security Information as provided by Appendix A. The Departmental Committee shall act upon the appeal within thirty days.

(d) *Right of appeal to the Interagency Classification Review Committee.* If the Departmental Committee determines that continued classification is required, it shall also so notify the requester and that he may appeal that denial to the Interagency Classification Review Committee.

§ 2.37 Declassification of material over thirty years old.

All classified information or material which is thirty years old or more over which the Department exercises exclusive or final original classification authority is subject to declassification as provided in §§ 2.38–2.40.

§ 2.38 Automatic declassification of thirty-year-old material originated after June 1, 1972.

All information and material classified after June 1, 1972, whether or not declassification has been requested, becomes automatically declassified at the end of thirty full calendar years after the date of its original classification except for such specifically identified information or material which the Secretary of the Treasury personally determines in writing at that time to require continued protection against unauthorized disclosure because such continued protection is essential to the national security or disclosure would place a person in immediate jeopardy. In such case, the Secretary of the Treasury shall also specify the period of continued classification.

§ 2.39 Systematic review of thirty-year-old material originated before June 1, 1972.

All information and material classified before June 1, 1972, and more than thirty years old is to be systematically reviewed for declassification by the Archivist of the United States by the end of the thirtieth full calendar year following the year in which it was originated. The Assistant Secretary for Administration is authorized to assign personnel to assist the Achivist of the United States in the exercise of this review responsibility with respect to classified material originating within the Department of the Treasury. Such personnel shall: (a) provide guidance and assistance to archival employees in identifying and separating those materials originated in the Department which are deemed to require continued classification; and (b) develop a list for submission to the Secretary of the Treasury, with recommendations concerning continued classification. The Secretary of the Treasury will then determine which of the materials listed require continued protection because such continued protection is essential to the national security or disclosure would place a person in immediate jeopardy. The Secretary of the Treasury will provide the Archivist with a list which identifies the documents deemed to require continued classification, indicates the reason for continued classification and specifies the date on which such material shall be declassified.

§ 2.40 Mandatory review of material over thirty years old.

(a) *Action upon receipt of request.* The Assistant Secretary for Administration shall immediately forward the request for review of records more than thirty years old to an appropriate office of the Department of the Treasury and shall acknowledge receipt of the request to the requester in writing.

(b) *Determination by the Secretary.* That office shall review the request and within twenty-one days forward to the Secretary of the Treasury through the Assistant Secretary for Administration a recommendation whether continued classification is required under the criteria of §§ 2.38–2.39. The Secretary shall make a determination based on that recommendation.

(c) *Right of appeal to the Interagency Classification Review Committee.* If the Secretary of the Treasury determines that continued classification is required, the Assistant Secretary for Administration shall promptly notify the requester that he may appeal that denial to the Interagency Classification Review Committee, and, whenever possible, shall furnish the requester with a brief statement why continued classification is required.

§ 2.41 Departmental Committee on National Security Information.

A Departmental Committee on National Security Information is established which shall be composed of the Assistant Secretary for Administration, as chairman, the General Counsel and the Special Assistant to the Secretary (National Security), as members. The functions of the Departmental Committee shall include the following:

(a) Review of and action upon applications and appeals regarding requests for declassification, as provided in § 2.36.

(b) Review, upon request, of all decisions denying Treasury Department information and material on the ground of exemption under 5 U.S.C. 552(b)(1) except decisions of the Secretary of the Treasury continuing the classification of material over thirty years old under Part III D of the Directive and § 2.40.

(c) Action upon complaints in the administration of the Executive Order and Directive and these regulations.

(d) Establish the policy of the Department with respect to the enforcement of the Executive Order and Directive and these regulations.

§ 2.42 Burden of proof.

For purposes of administrative determinations under §§ 2.36 and 2.40, the burden of proof is on the originating office in the Office of the Secretary or the bureau to show that continued classification is warranted within the terms of the Executive Order and Directive.

§ 2.43 Notification of change in classification or of declassification.

When classified information or material is downgraded or declassified in a manner other than originally specified, whether scheduled or exempted, or is upgraded, or is subject to a change in exemption status, the classifier or the custodian of the records shall, to the extent practicable, promptly notify all addressees to whom the information or material was originally officially transmitted. The recipients of this notification shall notify addressees to whom in turn they have transmitted the classified information or material.

§§ 2.44–2.49—[Reserved]

Subpart E—Access

§ 2.50 General.

Access to classified information shall be granted only in accordance with the regulations provided in Part VIA of the Directive as supplemented by the regulations of this part. No individual shall be entitled to receive or handle classified information or material solely because of his official position or because he has a valid security clearance. He must have in addition the need for access to the particular classified information or material sought in connection with the performance of his official duties or contractual obligations. The determination of the need shall be made by the official having the responsibility for the safeguarding of the classified information or material.

§ 2.51 Access by historical researchers.

(a) *Requirements for grant of access.* Persons outside the executive branch engaged in historical research projects desiring to request access to classified information or material under the control of the Department shall apply in writing to the Office of the Assistant Secretary for Administration, Department of the Treasury, Washington, D.C. The request for access may be granted provided that the Secretary of the Treasury determines that:

(1) Access is clearly consistent with the interests of national security.

V 38 I 138 JUL 19 73 XUM

(2) The information or material requested is reasonably accessible and can be located and compiled with a reasonable amount of effort.

(3) The historical researcher agrees to safeguard the information or material in a manner consistent with the Executive Order and Directive.

(4) The historical researcher agrees to authorize a review of his notes and manuscript for the sole purpose of determining that no classified information or material is contained therein.

(b) *Period of access authorization.* An authorization for access shall be valid for the period required but no longer than two years from the date of issuance unless reviewed by the Secretary of the Treasury upon written application to the Office of the Assistant Secretary for Administration, Department of the Treasury, Washington, D.C.

§ 2.52 Access by certain officials and employees of Federal Reserve Banks.

(a) *Requirements for grant of access.* Officials and employees of Federal reserve banks, which are authorized to serve as fiscal agents of the United States and perform functions related to the issuance and redemption of United States securities, may be granted access to classified national security information or material by the Under Secretary for Monetary Affairs, or his designee, when: (1) the information is classified by a Treasury officials or consent for dissemination to the Federal Reserve bank has been obtained from the originating department, under § 2.54; (2) the Federal Reserve bank officials or employees need to have knowledge of such information or material in connection with activities approved by the Under Secretary for Monetary Affairs, or his designee, as being in the interests of the United States; and (3) the Federal Reserve bank officials and employees are cleared by the Department of the Treasury under the procedures and standards applicable to Treasury officials and employees.

(b) *Adjustment or withdrawal of security clearance.* The Under Secretary for Monetary Affairs, or his designee, shall also be responsible for adjusting or withdrawing the security clearance of any Federal Reserve bank official or employee who no longer needs access to classified national security information or material at a particular level in connection with the official performance of duties.

§ 2.53 Access by former Presidential appointees.

(a) Persons who previously occupied policy-making positions to which they were appointed by the President may be authorized access to classified information or material which they originated, reviewed, signed or received while in public office, provided that the Secretary of the Treasury determines that: (1) access is clearly consistent with the interests of national security; and (2) the Presidential appointee agrees to safeguard the information or material in a manner consistent with the Executive Order and Directive.

(b) Upon request of any such former official, such information or material as he may identify shall be reviewed for declassification in accordance with the provisions of Subpart D. The former Presidential appointees referred to herein do not include the White House staff, or members of special Presidential committees or commissions.

§ 2.54 Dissemination by the Department of classified information or material originated by another department.

Classified information or material originating in another department and made available to the Department of the Treasury shall not be disseminated outside the Department without the consent of the originating department.

§§ 2.55–2.59— [Reserved]

Subpart F—Accountability

§ 2.60 Top Secret Control Officers.

Each Treasury bureau and the Office of the Secretary shall designate a Top Secret Control Officer. Top Secret Control Officers so designated shall receive, maintain current accountability records of, and dispatch Top Secret material, and shall also conduct an annual physical inventory of all Top Secret material. Top Secret Control Officers shall conduct the required physical inventory in the presence of a disinterested individual and shall complete the same by the first day of May. Any Top Secret document unaccounted for must be reported to the Assistant Secretary for Administration. Top Secret Control Officers shall conduct periodic reviews of Top Secret documents within their control to insure that those Top Secret documents subject to the General Declassification Schedule are downgraded or declassified as required.

§ 2.61 Control of Top Secret Material.

(a) A Treasury Department Form 4031 (Top Secret Document Record) shall be attached to the first page or cover of the original and each copy of Top Secret material. The Top Secret Document Record shall be completed by the Top Secret Control Officer, and shall identify the Top Secret material attached, and shall serve as a permanent record of the material. All persons, including stenographic and clerical personnel, having access to the material attached to the Top Secret Document Record must sign and date the Treasury Form 4031 prior to accepting responsibility for its custody. The Treasury Form 4031 shall indicate those individuals to whom only oral disclosure is made. The Top Secret Document Record shall remain attached to the Top Secret material until it is either transferred to another U.S. Government agency, downgraded, declassified or destroyed. Whenever any one of these actions is taken, the Top Secret Control Officer shall record the action on the Top Secret Document Record and retain it for a period of three years at which time it may be destroyed.

(b) Top Secret documents shall be sequentially numbered in a calendar year series by Top Secret Control Officers as received, by them, and the number shall be posted to the Top Secret document, Treasury Form 4031 and Treasury Form 2747 Revised (Classified Document Accountability Record).

(c) Top Secret Control Officers shall maintain current records of persons within their respective office or bureau who are cleared for access to Top Secret information or material.

§ 2.62 Accountability of classified material.

Treasury Department Form 2747 Revised (Classified Document Accountability Record) shall be the exclusive classified document accountability record for use within the Department of the Treasury. No other logs or records shall be required except for the use of Treasury Form 4031 for Top Secret material. Form 2747 shall be used for single or multiple document receipting, internal and external routing, and as a certificate of destruction. The inclusion of classified information on Form 2747 is prohibited. In the event the subject title is classified, a recognizable short title shall be used, e.g., first letter of each letter word in the subject title. Several items may be transmitted to the same addressee under the cover of one Form 2747. When the original and/or copies of the document are destroyed, the destruction certificate section of the form shall be completed to include the date and method of destruction and signed by the individuals accomplishing the destruction. Form 2747 may be destroyed three years after the date of the final disposition of the document.

(a) *Top Secret material.* Top Secret material shall be subject to a continuous receipt system regardless of how brief the period of custody. Treasury Form 2747 shall be used for this purpose. Top Secret accountability records shall be maintained by Top Secret Control Officers separately from the accountability records of other classified material.

(b) *Secret material.* Receipt on Treasury Form 2747 shall be required for transmission of Secret material between bureaus, offices and saparate agencies. Responsible officials shall determine administrative procedures required for the internal control within the respective offices or bureaus. The volume of classified material handled and personnel resources available must be considered in determining the practical balance between security measures imposed and the attainment of operating efficiency.

(c) *Confidential material.* Receipts for Confidential material shall not be required unless the originator clearly indicates that receipting is necessary.

§ 2.63 Restraint on reproduction.

Documents or portions of documents containing Top Secret information shall not be reproduced without the consent of the originating office and any reproduction so authorized must be appropriately

controlled. The authority for reproduction shall be noted on the copy from which the reproduction is made. The office reproducing Top Secret material shall place this material under Top Secret control and shall maintain appropriate records to reflect the number of copies reproduced and shall observe all other requirments concerning the control of distribution of such copies. The reproduction of Secret material shall be placed under the same control as the parent document. Confidential documents may be reproduced without permission of the originating official, office or department. However, all classified material shall be reproduced sparingly and any stated prohibition against reproduction shall be strictly adhered to. The number of copies of documents containing classified information shall be kept to the absolute minimum required to meet operational needs in order to decrease the risk of compromise, administrative burden and to reduce storage costs.

§ 2.64 Data Index System.

A Data Index System for documents originally classified within the Department of the Treasury shall be established in accordance with the Executive Order and Directive as implemented by the Department of the Treasury Administrative Circular No. 236.

§§ 2.65–2.69 [Reserved]

Subpart G—Safekeeping and Storage

§ 2.70 General policy.

Classified information or material may be used, held or stored only where there are facilities or under conditions adequate to prevent unauthorized persons from gaining access to it.

§ 2.71 Standards for storage equipment.

The General Services Administration establishes and publishes uniform standards, specifications, and supply schedules for containers, vault doors, alarm systems, and associated security devices suitable for the storage and protection of classified information throughout the Government. Storage equipment used for the protection of classified information and material within the Department shall meet or exceed these standards.

§ 2.72 Storage of classified material.

Whenever classified material is not under the personal control and observation of an authorized person, it will be guarded or stored in a locked security container as prescribed below:

(a) *Top Secret.* Top Secret information and material shall be stored in a safe or safe-type steel file container having a built-in three-position dial-type combination lock, or in a vault, vault-type room, or other storage facility which meets the standards for Top Secret established under § 2.71.

(b) *Secret and Confidential.* Secret and Confidential material may be stored in a manner authorized for Top Secret information and material, or in a container, or vault which meets the standards for Secret or Confidential; as the case may be, established under § 2.71 and Appendix A of the Directive.

§ 2.73 Security storage equipment.

(a) *Combinations.* Combinations to security equipment and devices shall be changed only by persons having appropriate security clearance, and shall be changed whenever such equipment is placed in use, whenever a person knowing the combination is transferred from the office to which the equipment is assigned, whenever a combination has been subjected to possible compromise, and at least once every year. Knowledge of combinations shall be limited to the minimum number of persons necessary for operating purposes. Records of combinations shall be classified no lower than the highest category of classified information or material authorized for storage in the security equipment concerned.

(b) *Safe Combination Records.* Combinations to equipment containing classified information and material shall be recorded on Treasury Form No. 4032 (Security Container Information). Such forms shall be completed in their entirety. Part 1 of the Form shall be posted on the interior of the top or locking drawer of the safekeeping equipment concerned. The names, addresses and home telephone numbers of personnel responsible for the combination and the classified information and material stored therein must be posted on part 1 of the Form. Part II shall be properly completed, inserted in the envelope (part III) provided and forwarded to the designated central repository for safe combinations. Parts II and III shall show the appropriate classification marking.

(c) *Safe or Cabinet Security Record.* Each piece of equipment used for the storage of classified material will have attached conspicuously to the outside a General Services Administration Optional Form 62 (Safe or Cabinet Security Record) on which an authorized person will record the time and date each time he unlocks or locks the security equipment, followed by his initials. In addition, at the close of each working day or when a security container is locked at times other than normal duty hours, the person locking the security container will be required to check it to insure that it is locked, and will record the time and date he checked the security container followed by his initials. The checking procedure stated above applies for each normal working day regardless of whether or not the security container was opened on that particular day. A security container will not be left unattended until it has been locked by an authorized person and checked by a second person. Additional safe security requirements are:

(1) Reversible "OPEN-CLOSED" signs which are available through normal supply channels, shall be used as additional reminders on each security container containing classified information.

(2) The tops of security containers shall be kept free of all extraneous matter.

§ 2.74 Classified document cover sheets.

In order to alert personnel to the fact that a document or folder is classified and to protect it from unauthorized scrutiny, cover sheets, available through normal supply channels, will be used to cover classified documents when in use. Classified document cover sheets will be removed before classified material is filed. Classified document cover sheets will be removed from classified documents prior to transmission except when the transmission is made internally within a headquarters by courier or messenger or by personal contact.

§ 2.75 Responsibilities of custodians.

Custodians of classified material shall be responsible for providing protection and accountability for such material at all times and particularly for locking classified material in approved security equipment whenever it is not in use or under direct supervision of authorized persons. Custodians shall follow procedures which insure that unauthorized persons do not gain access to classified information or material by sight or sound, and classified information shall not be discussed with or in the presence of unauthorized persons.

§ 2.76 Report of loss or compromise.

Any employee of the Department of the Treasury who has knowledge of the loss or possible compromise of classified information or material shall immediately report the circumstances to the appropriate bureau head or his designee who shall take appropriate action forthwith. In turn, the originating department and any other interested department shall be notified about such loss or possible compromise.

§ 2.77 Inquiry.

If the loss or possible compromise occurs in any Treasury bureau, the Assistant Secretary for Administration shall be notified. He shall then direct an immediate inquiry to be conducted for the purpose of taking corrective measures and assessing damages. Based on the results of the inquiry recommendations shall be made to the Assistant Secretary for Administration as to the appropriate administrative, disciplinary, or legal action to be taken.

§§ 2.78–2.79— [Reserved]

Subpart H—Transmission

§ 2.80 General policy.

Classified information or material shall be transmitted between Treasury bureaus and buildings and outside the Department only in accordance with the requirements of this subpart. However, within the Main Treasury Building and within each separate bureau building, such information or material may be transmitted between offices by direct contact of the officials concerned in a single sealed opaque envelope with no security classified category being shown on the outside of the envelope. Classified information or material shall never be delivered to unoccupied rooms or offices.

V 38 I 138 JUL 19 73 XUM

§ 2.81 Preparation.

Classified information and material shall be enclosed in opaque inner and outer covers before transmitting. The inner cover shall be a sealed wrapper or envelope plainly marked with the assigned classification and address. The outer cover shall be sealed and addressed with no indication of the classification of its contents.

§ 2.82 Transmission of Top Secret.

The transmission of Top Secret information and material shall be effected preferably by oral discussion in person between the officials concerned. Otherwise, the transmission of Top Secret information and material shall be by specifically designated personnel, by State Department diplomatic pouch, by a messenger-courier system especially created for that purpose, over authorized communications circuits in encrypted form or by other means authorized by the National Security Council.

§ 2.83 Transmission of Secret.

The transmission of Secret material shall be effected in the following manner:

(a) *The Fifty States, District of Columbia, Puerto Rico.* Secret information and material may be transmitted within and between the forty-eight contiguous states and the District of Columbia, or wholly within the State of Hawaii, the State of Alaska, or the Commonwealth of Puerto Rico by one of the means authorized for Top Secret information and material, the United States Postal Service registered mail and protective services provided by the United States air or surface commercial carriers.

(b) *Other areas, vessels, military postal services, aircraft.* Secret information and material may be transmitted from or to or within areas other than those specified in paragraph (a) of this section, by one of the means established for Top Secret information and material, captains or masters of vessels of United States registry, under contract to a department of the executive branch, United States registered mail through Army, Navy or Air Force Postal Service facilities provided that material does not at any time pass out of United States citizen control and does not pass through a foreign postal system, and commercial aircraft under charter to the United States and military or other Government aircraft.

(c) *Canadian Government installations.* Secret information may be transmitted between United States Government or Canadian Government installations, or both, in the forty-eight contiguous states, Alaska, the District of Columbia, and Canada by United States and Canadian registered mail with registered mail receipt.

(d) *Special cases.* The use of the United States Postal Service registered mail outside the forty-eight contiguous states, the District of Columbia, the State of Hawaii, the State of Alaska, and the Commonwealth of Puerto Rico is authorized if warranted by security conditions and essential operational requirements, provided that the material does not at any time pass out of United States Government and United States citizen control and does not pass through a foreign postal system.

§ 2.84 Transmission of Confidential.

Confidential information and material shall be transmitted within the forty-eight contiguous states and the District of Columbia, or wholly within Alaska, Hawaii, the Commonwealth of Puerto Rico, or a United States possession, by one of the means established for higher classifications, or by certified or first-class mail. Outside these areas, Confidential information and material shall be transmitted in the same manner as authorized for higher classifications.

§ 2.85 Transmission by personnel in travel status.

(a) *General provisions.* Personnel in travel status shall physically transport classified material across international boundaries only in exceptional circumstances. In each instance, a determination shall be made on a case by case basis, by a responsible official that it is necessary for the appropriately cleared traveler physically to transmit classified material. Whenever possible, and when time permits, classified material shall be transmitted by other authorized means to the location being visited. The physical transportation of classified material on non-U.S. flag aircraft shall be avoided.

(b) *Specific safeguards.* If it be determined that the transportation of classified material by an individual in travel status is in the best interest of the U.S. Government, the following specific safeguards will be provided for:

(1) Classified material shall be in the physical possession of the individual with adequate safeguards at all times if proper storage at a U.S. Government facility is not available. Under no circumstances, shall classified material be stored in hotel safes or rooms, locked automobiles, private residences, train compartments, or any vehicular detachable storage compartments.

(2) An inventory of all classified material shall be made prior to departure and a copy of same shall be retained by his office until his return at which time all classified material shall be accounted for.

(3) Classified material shall not be displayed or used in any manner in public conveyances or rooms.

(4) The individual shall have in his possession a written Department of the Treasury authorization to transport classified material. This courier authorization, along with official travel orders, should in most instances permit the individual to pass through any customs without the need for subjecting the classified material to inspection. If difficulty is encountered, the individual should tactfully refuse to exhibit or disclose the classified material to customs inspection and should insist on the assistance of the local U.S. diplomatic representative at the port of entry or departure.

(5) Upon completion of the visit, the individual shall have the material returned to his office by approved means. All material taken for the purpose of the visit shall be accounted for. If any classified items are left with the office being visited for its retention and use, the individual shall obtain a receipt.

§ 2.86 Telecommunications transmissions.

Classified information shall not be communicated by telecommunication transmission, except as may be authorized under §§ 2.82–2.84 with respect to the transmission of classified information over approved communications circuits or systems.

§§ 2.87–2.89—[Reserved]

Subpart I—Destruction of Classified Information and Material

§ 2.90 Methods of destruction.

When information or material classified under the authority of Executive Order 11652 is to be destroyed, destruction shall be by burning, mulching, or shredding in the presence of an individual or individuals specifically designated by the appropriate bureau head.

§ 2.91 Approval of use of mulching and shredding machines.

Prior to a bureau obtaining a mulching or shredding machine, the Office of Administrative Programs, Assistant Director (Physical Security) shall approve the use of such a machine.

§ 2.92 Destruction by burning.

Any classified information or material to be destroyed by burning shall be torn and placed in containers designated as burnbags and shall be clearly and distinctly labeled "Burn." Burnbags awaiting destruction shall be protected by security safeguards commensurate with the classification or control designation of the material involved.

§ 2.93 Records of destruction.

Each bureau head shall cause appropriate accountability records to be maintained for his bureau to reflect the destruction of classified national security information or material.

§ 2.94 Destruction of nonrecord material.

Nonrecord classified material such as extra copies and duplicates, including shorthand notes, preliminary drafts, used carbon paper and other material of similar temporary nature, shall also be destroyed by burning, mulching, or shredding as soon as it has served its purpose, but no records of such destruction need be maintained.

§§ 2.95–2.99—[Reserved]

Subpart J—Training and Orientation

§ 2.100 Briefing of employees.

All new employees concerned with classified information and material shall be afforded a security briefing regarding the Executive Order and Directive. Those new employees concerned with classified information or material pertaining to intelligence sources, methods, operations, or plans shall be required to read and sign a Security Agreement. All new employees afforded a security briefing shall be provided with copies of applicable laws and pertinent security regulations setting forth the procedures for the protection and disclosure of classified information and material. All employees concerned with classified information and material shall receive periodic reorientation briefings during their employment which are designed to impress upon them their responsibility for exercising care and vigilance in complying with the provisions of the Executive Order and implementing regulations.

§ 2.101 Debriefing of employees.

Any personnel possessing a security clearance, at all levels of employment and without exception, when terminating employment or contemplating temporary separation for a sixty-day period or more, shall be debriefed concerning their continued responsibility to safeguard classified information and material, and reminded of the provisions of the Criminal Code and other applicable provisions of law relating to penalties for unauthorized disclosure.

§ 2.102 Departmental administration.

The Office of Administrative Programs, Assistant Director (Physical Security), under the direction of the Assistant Secretary for Administration, shall establish, coordinate and maintain active training, orientation and inspection programs for employees concerned with classified information or material to assure that the provisions of the Executive Order and Directive are effectively administered throughout the Department of the Treasury.

§ 2.103 Bureau administration.

Each bureau head shall designate an official to coordinate and supervise the activities applicable to his bureau to maintain the programs of training, orientation, and inspection established by the Office of Administrative Programs, Assistant Director (Physical Security) and to carry out related activities of section 7(B)(3) of the Executive Order.

§§ 2.104–2.109—[Reserved]

Subpart K—Administrative and Judicial Action

§ 2.110 Enforcement policy.

The Departmental Committee on National Security Information shall have the responsibility for establishing the Department's policy with respect to the enforcement of the Executive Order and Directive and these regulations.

§ 2.111 Applicability.

(a) Any individual, at any level of employment, determined to have been responsible for any unauthorized release or disclosure of national security information or material shall be notified that his action is in violation of the Executive Order, the implementing National Security Council Directive, or these regulations. In addition, he shall be subject to prompt and stringent action including, as appropriate in the particular case, a warning notice, formal reprimand, suspension without pay, or dismissal, in accordance with applicable personnel rules, regulations and procedures. Where a violation of criminal statutes may be involved, any such case shall be promptly referred to the Department of Justice.

(b) Repeated abuse of the classification process, either by unnecessary or over-classification, or repeated failure, neglect or disregard of established requirements for safeguarding classified information or material by any officer or employee shall be grounds for appropriate adverse or disciplinary action. Such action may include a warning notice, formal administrative reprimand, suspension without pay, or dismissal, as appropriate in the particular case, in accordance with applicable personnel rules, regulations and procedures.

§ 2.112 Disciplinary action.

After an affirmative adjudication of a security violation and as the occasion demands, reports of accountable security violations may be placed in the employee's official personnel folder and security file. The security official of the bureau or office concerned shall recommend to the respective management official or bureau head that disciplinary action be taken when such action is indicated. However, should circumstances warrant, the Department may take action under provisions of these regulations, of Executive Order 11652, any implementing National Security Council Directives, and Executive Order 10450, or any superseding applicable Executive Order.

Effective date: July 1, 1973.

Dated: July 9, 1973.

[SEAL] GEORGE P. SHULTZ,
Secretary of the Treasury.

APPENDIX A—DEPARTMENT OF THE TREASURY, TREASURY DEPARTMENT ORDER NO. 160, REVISED

DELEGATION OF AUTHORITY CONCERNING IMPLEMENTATION OF EXECUTIVE ORDER 11652, AS AMENDED, AND THE NATIONAL SECURITY DIRECTIVE OF MAY 17, 1972

By virtue of the authority delegated to me as Secretary of the Treasury by Executive Order 11652, 37 FR 5209, and National Security Council Directive of May 17, 1972, 37 FR 10053 (hereinafter referred to as the Executive Order and Directive), it is hereby ordered as follows:

SECTION 1. *Compliance responsibility.* The Assistant Secretary for Administration is delegated the authority to insure effective compliance with the implementation of the Executive Order and Directive and the Treasury regulations published thereunder in Part 2 of Title 31 of the Code of Federal Regulations. The Assistant Secretary for Administration is specifically delegated the authority to assign personnel to assist the Archivist of the United States in the exercise of his responsibility to review systematically for declassification all Treasury Department material classified before June 1, 1972, and more than thirty years old, and to perform other functions specified in part II D of the Directive.

SEC. 2. *Authority to classify.*—(a) *Top Secret.* The authority to classify information or material as Top Secret, Secret, or Confidential within the Department of the Treasury is hereby delegated to the Deputy Secretary, the Under Secretary for Monetary Affairs, the Under Secretary, the General Counsel, the Deputy Under Secretaries, the Assistant Secretaries, the Special Assistant to the Secretary (National Security), the Special Assistant to the Secretary (Public Affairs), and the Assistant to the Secretary for Legislative Affairs.

(b) *Secret.* The authority to classify information or material as Secret or Confidential within the Department of the Treasury is hereby delegated to the heads of bureaus.

(c) *Confidential.* Officials who possess Top Secret or Secret classification authority are hereby delegated the authority to designate in writing by title of position other officials who may exercise Confidential classification authority within the Department of the Treasury.

SEC. 3. *Authority to downgrade and declassify.* The authority to downgrade and declassify national security information or material within the Department of the Treasury shall be exercised by the following officials:

(a) The official authorizing the original classification, a successor in that capacity, or a supervisory official of either.

(b) An official specifically authorized in writing by an official authorized to classify information or material as Top Secret or Secret.

SEC. 4. *Departmental Committee on National Security Information.* There is hereby established a Departmental Committee on National Security Information which shall be composed of the Assistant Secretary for Administration, as chairman, and the General Counsel and the Special Assistant to the Secretary (National Security), as members. The functions of the Departmental Committee shall include the following:

(a) Review of and action upon applications and appeals regarding request for declassification, as provided in the Treasury regulations, 31 CFR Part 2, implementing the Executive Order and Directive.

(b) Review, upon request, of all decisions denying Treasury information and material on the ground of exemption under 5 U.S.C. 552(b)(1) except decisions of the Secretary of the Treasury continuing the classification of material over thirty years old under Part III D of the Directive and the Treasury regulation thereunder, 31 CFR 2.40.

(c) Action upon complaints in the administration of the Executive Order and Directive and the Treasury regulations thereunder.

(d) Establish the policy of the Department with respect to the enforcement of the Executive Order and Directive and the Treasury regulations thereunder.

SEC. 5. *Data Index System.* The Assistant Secretary for Administration is delegated the authority to establish a Data Index System in accordance with Part VII of the Directive. The Office of Administrative Programs, Assistant Director (Physical Security), shall maintain the Departmental Data Index System control file for all national security information or material originally classified within the Department.

V 38 I 138 JUL 19 73 XUM

SEC. 6. *Training, orientation and inspection.* The Office of Administrative Programs, assistant Director (Physical Security), is hereby delegated, subject to the direction of the Assistant Secretary for Administration, the functions of establishing, coordinating and maintaining active training, orientation and inspection programs for employees concerned with classified information or material to assure that the provisions of the Executive Order and Directive are effectively administered throughout the Department of the Treasury.

SEC. 7. *Supersession.* This Treasury Department Order supersedes Treasury Department Order No. 160, Revised, entitled "National Security Information," issued under Executive Order 11652, August 3, 1972 37 FR 20990.

Effective date: July 1, 1973.

Dated: July 9, 1973.

[SEAL] GEORGE P. SCHULTZ,
Secretary of the Treasury.

OIL POLLUTION PREVENTION

Non-Transportation-Related Onshore and Offshore Facilities; Proposed Rulemaking

V 38-138 JUL 19 73 XUM

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 112]

OIL POLLUTION PREVENTION

Non-Transportation-Related Onshore and Offshore Facilities

Section 311(j)(1)(C) of the Federal Water Pollution Control Act, 86 Stat. 868, 33 U.S.C. 1321(j)(1)(C), hereinafter "the Act", authorizes the President to issue regulations establishing procedures, methods, and equipment and other requirements for equipment to prevent discharges of oil and hazardous substances from vessels and from onshore facilities and offshore facilities, and to contain such discharges. With respect to discharges of oil, this authority is essentially a carry-over of the authority conferred upon the President by predecessor legislation, section 11(j)(1)(C) of the Federal Water Pollution Control Act Amendments of 1970 (Pub.L. 91-224). Pursuant to that section, authority to issue regulations with respect to discharges of oil from non-transportation-related onshore and offshore facilities was delegated to the Secretary of Interior (E.O. 11548, July 20, 1970, 35 FR 11677; 3 CFR 1966-1970 Comp.). That responsibility was transferred thereafter to the Administrator of the Environmental Protection Agency by Reorganization Plan No. 3 of 1970, 35 FR 15623. Delegations made pursuant to the prior law have been continued in full force and effect under section 311(j)(1)(C) of the Act by virtue of sec. 4(b) of the Federal Water Pollution Control Act Amendments of 1972, Pub.L. 92-500, 86 Stat. 897. It is anticipated that other regulations will be proposed with respect to discharges of hazardous substances in the near future.

In order to determine those procedures, methods, and equipment requirements appropriate for purposes of section 311(j)(1)(C), the laws, rules, and regulations of Federal, regional, State, and municipal water quality and health agencies were thoroughly reviewed and examined. In addition, careful review was made of rules of regulatory agencies in oil producing States and fire and insurance underwriter codes.

This regulatory review established that: (1) most State oil spill prevention and control laws and regulations are directed toward the protection of personnel and property from the consequences of oil discharges and that, (2) most of the State oil pollution control regulations for maintaining water quality emphasize detection, surveillance, and cleanup of spills once these have occurred. Seldom, however, do they specify detailed spill prevention measures for water pollution control purposes.

Accordingly, the proposed regulations emphasize measures which can be taken to prevent oil spills. It is apparent, however, that no single design or operational standard can be prescribed for all non-transportation-related onshore and offshore facilities, since the equipment and operational procedures appropriate for one facility may not be appropriate for another, depending on such factors as function, location and age of each facility. It also became apparent that new facilities could achieve a higher level of spill prevention than older facilities by the use of fail-safe design concepts and innovative spill prevention methods and procedures. It also became evident that older facilities could develop strong spill contingency plans and demonstrate commitments of manpower, oil containment and removal equipment and materials to compensate for their inherent weaknesses.

For these reasons, it was concluded that the best method to approach the policy goal enunciated by Congress in section 311(b)(1) of the Federal Water Pollution Control Act is to require that owners and operators of onshore and offshore non-transportation-related facilities develop and implement Spill Prevention Control and Countermeasure (SPCC) Plans to prevent the discharge of oil into the navigable waters of the United States or adjoining shorelines. It was also concluded that owners or operators would not be required to develop an SPCC Plan if their facilities had not discharged, and because of their location, could not be reasonably expected to discharge, oil into the navigable waters of the United States. This approach places responsibility on the owner or operator of a non-transportation-related onshore or offshore facility which could reasonably be expected to discharge oil into U.S. navigable waters to identify effective methods, procedures and equipment requirements to prevent oil spills and to incorporate them in a plan which conforms to State regulations or to the minimum standard guidelines contained in this proposed regulation, whichever are more stringent, and to fully implement that plan.

The minimum standard guidelines set forth in § 112.7 include fundamental and professionally accepted engineering practices, methods and procedures which have shown a high degree of success in preventing spills when used by the oil industry. Some fundamental practices will be common to all facilities subject to this part. Some will have individual peculiarities such that all requirements will never be included in any one set of guidelines.

It is envisioned that more specific preventive measures and equipment specification requirements may be considered as research and development and technology confirm soundness of design and functional effectiveness in water pollution prevention and control. The mechanism for future regulation will depend in large measure on the success of the Spill Prevention Control and Countermeasure Plan concept.

Interested persons may submit, in triplicate, written data or arguments in regard to the proposed regulations to the Environmental Protection Agency, Water Program Operations, Division of Oil and Hazardous Materials, Washington, D.C. 20460. All relevant material received on or before September 4, 1973, will be considered. Comments received pursuant to this notice will be available for review by an interested person, during normal working hours, in Room 1115, Waterside Mall East Tower, 4th and M Streets, S.W., Washington, D.C.

Dated: July 13, 1973.

ROBERT W. FRI,
Acting Administrator.

A new Part 112 would be added to Subchapter D, Chapter I of Title 40, Code of Federal Regulations as follows:

PART 112—OIL POLLUTION PREVENTION

Sec.
112.1 General; applicability.
112.2 Definitions.
112.3 Requirements for preparation and implementation of Spill Prevention Control and Countermeasure Plans.
112.4 Amendment to Spill Prevention Control and Countermeasure Plan by Regional Administrator.
112.5 Amendments of Spill Prevention Control and Countermeasure Plans by owners or operators.
112.6 Civil penalties.
112.7 Guidelines for the preparation and implementation of a Spill Prevention Control and Countermeasure Plan.

APPENDIX—Memorandum of understanding between the Secretary of the Department of Transportation and the Administrator of the Environmental Protection Agency, Section II—Definitions.

AUTHORITY: Sections 311(j)(1)(C) and 311(j)(2) and 501(a) of the Federal Water Pollution Control Act (Sec. 2, Pub.L. 92-500, 86 Stat. 816 et seq., 33 U.S.C. 1251 et seq.); sec. 4(b), Pub.L. 92-500 86 Stat. 897; 5 U.S.C. Reorg. Plan of 1970 No. 3 (1970), 35 FR 15623, 3 CFR 1966-1970 Comp.; E.O. 11548, 35 FR 11677, 3 CFR 1966-1970 Comp.

§ 112.1 General; applicability.

(a) This part establishes procedures, methods and requirements for equipment to prevent the discharge of oil from non-transportation-related onshore and offshore facilities into or upon the navigable waters of the United States or adjoining shorelines.

(b) Except as provided in paragraph (d) of this section, this part applies to owners or operators of non-transportation-related onshore and offshore facilities engaged in drilling, producing, gathering, storing, processing, refining, transferring, distributing and consuming oil and oil products.

(c) As provided in section 313 (86 Stat. 875) departments, agencies, and instrumentalities of the Federal government are subject to these regulations to the same extent as any person, except for the provisions of § 112.6.

(d) This part does not apply to:

(1) Equipment or operations of vessels or transportation-related onshore and offshore facilities which are subject to authority and control of the Department of Transportation.

(2) Facilities which have a total storage capacity of 1000 barrels or less of oil and such total storage capacity is buried underground.

(3) Facilities which have a total aboveground storage capacity of 500 U.S. gallons or less of motor fuels or heating oils.

(4) Non-transportation-related onshore and offshore facilities, which, due to their location, could not reasonably be expected to discharge oil into or upon the navigable waters of the United States or adjoining shorelines.

(e) This part provides for the preparation and implementation of Spill Prevention Control and Countermeasure Plans prepared in accordance with § 112.7, designed to complement existing laws, regulations, rules, standards, policies and procedures pertaining to safety standards, fire prevention and pollution prevention rules, so as to form a comprehensive balanced Federal/State spill prevention program to minimize the potential for oil discharges. Compliance with this part does not in any way relieve the owner or operator of an onshore or an offshore facility from compliance with other Federal, State or local laws.

§ 112.2 Definitions.

For the purposes of this part:

(a) "Oil" means oil of any kind or in any form, including, but not limited to petroleum, fuel oil, sludge, oil refuse and oil mixed with wastes other than dredged spoil.

(b) "Barrel" means 42 United States gallons at 60 degrees Fahrenheit.

(c) "Discharge" includes but is not limited to, any spilling, leaking, pumping, pouring, emitting, emptying or dumping. For purposes of this part, the term "discharge" shall not include any discharge of oil which is authorized by a permit issued pursuant to section 13 of the River and Harbor Act of 1899 (30 Stat. 1121, 33 U.S.C. 407), or sections 402 or 405 of the FWPCA Amendments of 1972 (86 Stat. 816 et seq., 33 U.S.C. 1250 et seq.).

(d) "Onshore facility" means any facility of any kind located in, on, or under any land within the United States, other than submerged lands, which is not a transportation-related facility.

(e) "Offshore facility" means any facility of any kind located in, on, or under any of the navigable waters of the United States, which is not a transportation-related facility.

(f) "Owner or operator" means any person owning or operating an onshore facility or an offshore facility, and in the case of any abandoned offshore facility, the person who owned or operated such facility immediately prior to such abandonment.

(g) "Person" includes an individual, firm, corporation, association, and a partnership.

(h) "Regional Administrator", means the Regional Administrator of the Environmental Protection Agency, or his designee, in and for the Region in which the facility is located.

(i) "Transportation-related" and "non-transportation-related" as applied to an onshore or offshore facility, are defined in the Memorandum of Understanding between the Secretary of Transportation and the Administrator of the Environmental Protection Agency, dated November 24, 1971, 36 FR 24080.

(j) "Spill event" means a discharge of oil into or upon the navigable waters of the United States or adjoining shorelines in harmful quantities, as defined at Part 110 of this chapter.

(k) "United States" means the States, the District of Columbia, the Commonwealth of Puerto Rico, the Canal Zone, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

(l) "Navigable Waters" means the waters of the United States, including the territorial seas.

§ 112.3 Requirements for preparation and implementation of Spill Prevention Control and Countermeasure Plans.

(a) Owners and operators of onshore and offshore facilities in operation on or before the effective date of this part that have discharged or could reasonably be expected to discharge oil in harmful quantities, as defined in Part 110 of this chapter, into or upon the navigable waters of the United States or adjoining shorelines, shall prepare a Spill Prevention Control and Countermeasure Plan (hereinafter "SPCC Plan"), in accordance with § 112.7 within six months after the effective date of this part. Except as provided for in paragraph (e) of this section, any such SPCC Plan prepared under this paragraph (a) shall be fully implemented as soon as possible, but not later than one year after the effective date of this part.

(b) Owners and operators of onshore and offshore facilities that become operational after the effective date of this part, and that have discharged or could reasonably be expected to discharge oil in harmful quantities, as defined in 110 of this chapter, into or upon the navigable waters of the United States or adjoining shorelines, shall prepare an SPCC Plan in accordance with § 112.7 within six months from the date such facility begins operations. Except as provided for in paragraph (e) of this section, any such SPCC Plan prepared under this paragraph (b) shall be fully implemented as soon as possible, but not later than one year later such facility begins operations.

(c) No SPCC Plan shall be effective to satisfy the requirements of this part unless it has been reviewed by a Registered Professional Engineer and certified to by such Professional Engineer. By means of this certification the engineer, having examined the facility and being familiar with the provisions of this part, shall attest that the SPCC Plan has been prepared in accordance with good engineering practices. Such certification shall in no way relieve the owner or operator of an onshore or offshore facility of his duty to prepare and fully implement such Plan in accordance with § 112.7, as required by paragraphs (a) and (b) of this section.

(d) Owners and operators of a facility for which an SPCC Plan is required pursuant to paragraphs (a) and (b) of this section shall maintain a complete copy of the Plan at such facility and shall make such Plan available to the Regional Administrator for on-site review during normal working hours.

(e) Extensions of time:

(1) The Regional Administrator may authorize an extension of time for the full implementation of an SPCC Plan for a period not to exceed one year beyond the time permitted for the preparation and implementation of an SPCC Plan pursuant to paragraphs (a) and (b) of this section where he finds that the owner or operator of a facility subject to paragraphs (a) or (b) of this section cannot fully comply with the requirements of this part as a result of either delays in construction or equipment delivery beyond the control and without the fault of such owner or operator or their respective agents or employees.

(2) Any owner or operator seeking an extension of time pursuant to paragraph (e)(1) of this section may submit a letter of request to the Regional Administrator. Such letter shall include:

(i) A complete copy of the SPCC Plan;

(ii) A full explanation of the cause for any such delay and the specific aspects of the SPCC Plan affected by the delay;

(iii) A full discussion of actions being taken or contemplated to minimize or mitigate such delay;

(iv) A proposed time schedule for the implementation of any corrective actions being taken or contemplated, including interim dates for completion of tests or studies, installation and operation of any necessary equipment or other preventive measures.

In addition, such owner or operator, with the consent of the Regional Administrator, may present additional oral or written statements in support of his letter of request.

(3) The submission of a letter of request for extension of time pursuant to paragraph (e)(2) of this section shall in no way relieve the owner or operator from his obligation to comply with the requirements of § 112.3 (a) or (b). Where an extension of time is authorized by the Regional Administrator for particular equipment or other specific aspects of the SPCC Plan, such extension shall in no way affect the owner's or operator's obligation to comply with the requirements of § 112.3 (a) or (b) with respect to other equipment or other specific aspects of the SPCC Plan for which an extension of time has not been expressly authorized.

§ 112.4 Amendment of Spill Prevention Control and Countermeasure Plan by Regional Administrator.

(a) Notwithstanding compliance with § 112.3, whenever a facility subject to § 112.3 (a) or (b) has:

(1) Discharged more than 1000 U.S. gallons of oil into or upon the navigable waters of the United States or adjoining shorelines in a single spill event, or

V38-138-JUL 19 73 XUM

(2) Discharged oil in harmful quantities, as defined in 40 CFR part 110, into or upon the navigable waters of the United States or adjoining shorelines in two spill events, reportable under section 311(b)(5) of the FWPCA, occurring within any twelve month period, the owner or operator of such facility shall submit to the Regional Administrator, within 60 days from the time such facility becomes subject to this section, the following:

(i) Name of the facility;

(ii) Name(s) of the owner and operator of the facility;

(iii) Location of the facility;

(iv) Date and year of initial facility operation;

(v) Maximum storage or handling capacity of the facility and normal daily throughput;

(vi) Description of the facility, including maps, flow diagrams, and topographical maps;

(vii) A complete copy of the SPCC Plan with any amendments;

(viii) The cause(s) of such spill, including a failure analysis of system or subsystem in which the failure occurred;

(ix) The corrective actions and/or countermeasures taken, including an adequate description of equipment repairs and/or replacements;

(x) Additional preventive measures taken or contemplated to minimize the possibility of recurrence;

(xi) Such other information as the Regional Administrator may require.

(b) This subsection shall not apply until the expiration of the time permitted for the preparation and implementation of an SPCC Plan pursuant to paragraphs (a) or (b) of § 112.3.

(c) A complete copy of all information provided to the Regional Administrator pursuant to paragraph (a) of this section shall be sent at the same time to the State agency in charge of water pollution control activities in and for the State in which the facility is located. Upon receipt of such information such State agency may conduct a review and make recommendations to the Regional Administrator as to further procedures, methods, equipment and other requirements for equipment necessary to prevent and to contain discharges of oil from such facility.

(d) After review of the SPCC Plan for a facility subject to paragraph (a) of this section, together with all other information submitted by the owner or operator of such facility, and by the State agency under paragraph (c) of this section, the Regional Administrator may require the owner and/or operator of such facility to amend the SPCC Plan if he finds that the Plan does not meet the requirements of this part or that the amendment of the Plan is necessary to prevent and to contain discharges of oil from such facility.

(e) When the Regional Administrator proposes to require an amendment to the SPCC Plan, he shall notify the facility operator by certified mail addressed to, or by personal delivery to, the facility owner or operator, that he proposes to require an amendment to the Plan, and shall specify the terms of such amendment. If the facility owner or operator is a corporation, a copy of such notice shall also be mailed to the registered agent, if any, of such corporation in the State where such facility is located. Within 30 days from receipt of such notice, the facility owner or operator may submit written information, views, and arguments on the amendment. After considering all relevant material presented, the Regional Administrator shall notify the facility owner or operator of any amendment required or shall rescind the notice. The amendment required by the Regional Administrator shall become part of the Plan 30 days after such notice, unless the Regional Administrator, for good cause, shall specify an earlier effective date. The owner and operator of the facility shall implement the amendment of the Plan as soon as possible, but not later than six months after the amendment becomes part of the Plan, unless the Regional Administrator specifies another date.

§ 112.5 Amendments of Spill Prevention Control and Countermeasure Plans by owner or operator.

(a) Owners and operators of facilities subject to § 112.3(a) or (b) shall amend the SPCC Plan for such facility in accordance with § 112.7 whenever there is a change in facility design, construction, operation or maintenance which materially affects the facility's potential for the discharge of oil into or upon the navigable waters of the United States or adjoining shorelines. Such amendments shall be fully implemented as soon as possible, but not later than six months after such change occurs.

(b) Notwithstanding compliance with paragraph (a) of this section, owners and operators of facilities subject to § 112.3(a) or (b) shall complete a review and evaluation of the SPCC Plan at least once every three years from the date such facility becomes subject to this part and, within six months from the date of such evaluation, shall amend the SPCC Plan for such facility to include more effective prevention and control technology which has been field proven as of the date of the completion of such review and evaluation.

(c) Whenever a facility becomes subject to § 112.4, the owner and operator of such facility shall immediately review and evaluate the SPCC Plan for such facility and shall amend such Plan and shall fully implement such amendments in accordance with § 112.4 so as to prevent the recurrence of such discharges of oil from such facility. Compliance with this paragraph (c) shall in no way relieve the owner or operator of such facility from his obligation to comply with § 112.4.

(d) No amendment to an SPCC Plan shall be effective to satisfy the requirements of this section unless it has been certified by a Professional Engineer in accordance with § 112.3(c).

§ 112.6 Civil penalties.

Owners or operators of facilities subject to § 112.3(a) or (b) who violate the requirements of this part by failing or refusing to comply with any of the provisions of § 112.3, § 112.4, or § 112.5 shall be liable for a civil penalty of not more than $5,000 for each day that such violation continues. The Regional Administrator may assess and compromise such civil penalty. No penalty shall be assessed until the owner or operator shall have been given notice and an opportunity for hearing.

§ 112.7 Guidelines for the preparation and implementation of a Spill Prevention Control and Countermeasure Plan.

The SPCC Plan shall be a carefully thought out plan which is technically sound and has the full approval of management at a level with authority to commit the necessary resources. If the plan calls for additional facilities or procedures, methods, or equipment not yet fully operational, these items should be discussed in separate paragraphs, and the details of installation and operational start-up should be explained separately. The complete SPCC Plan shall follow the sequence outlined below, and include a discussion of the facility's compliance with the appropriate guidelines listed:

(a) A facility which has experienced one or more reportable oil spills within twelve months prior to the effective date of this part shall include a written description of each such spill, corrective action taken and plans for preventing recurrence.

(b) Where experience indicates a reasonable potential for equipment failure; a facility shall include a prediction of the direction, rate of flow, and total quantity of oil which could be discharged from the facility as a result of each major type of failure.

(c) As a result of the prediction, appropriate containment and/or diversionary structures or equipment to prevent discharged oil from reaching a navigable water course shall be provided. One of the following preventive systems or its equivalent should be used as a minimum:

(1) *Onshore facilities.* (i) Impervious dikes, berms or retaining walls,

(ii) Curbing,

(iii) Culverting, gutters or drains,

(iv) Weirs, booms or other barriers,

(v) Spill diversion ponds,

(vi) Retention ponds.

(2) *Offshore facilities.* (i) Floating booms or "fences" which can be deployed to keep oil from spreading.

(ii) Oil-water separation pumps (floating) with onboard or floating oil receiving vessels.

(d) When it is determined that the installation of structures or equipment listed in § 112.7(c) to prevent discharged oil from reaching the navigable waters

is not practicable from any onshore or offshore facility, the owner or operator shall clearly demonstrate such impracticability and provide the following:

(1) A strong oil spill contingency plan following the provision of Part 109 of this Chapter.

(2) A written commitment of manpower, equipment and materials required to expeditiously control and remove any harmful quantity of oil discharged.

(e) In addition to the minimal prevention standards listed under § 112.7(c), sections of the Plan shall include a complete discussion of compliance with the following applicable guidelines (or, if more stringent, with State rules, regulations and guidelines):

(1) *Facility drainage (onshore); (Excluding production facilities).* (i) Drainage from diked storage areas should be valve-restrained to prevent a spill or other excessive leakage of oil into the drainage system or in-plant effluent treatment system, except where plant systems are designed to handle such leakage.

(ii) Flapper-type drain valves should not be used to drain diked areas. Valves used for the drainage of diked areas should, as far as practical, be of manual, open-and-closed design. The condition of the retained storm water should be determined before drainage, especially if such drainage of impounded waters goes into water courses and not into wastewater treating plants, as discussed in paragraph (e)(2)(iii)(B) of this section.

(iii) All plant drainage systems, if possible, should flow into ponds, lagoons, or catchment basins designed to retain oil, or return it to the facility.

(iv) If plant drainage is not engineered as above, the final discharge of all in-plant ditches should be equipped with a diversion system that could, in the event of an uncontrolled spill, return the oil to the plant.

(v) Where drainage waters are treated in more than one treatment unit, natural hydraulic flow should be used. If pump transfer is needed, two "lift" pumps should be provided, and at least one of the pumps should be permanently installed when such treatment is continuous.

(2) *Bulk storage tanks (onshore); (Excluding production facilities).* (i) No tank should be used for the storage of oil unless its material and construction are compatible with the material stored and conditions of storage such as pressure and temperature, etc.

(ii) All bulk storage tank installations should be constructed so that a secondary means of containment is provided for the entire contents of the largest single tank plus sufficient freeboard to allow for precipitation. Diked areas should be sufficiently impervious to contain spilled oil. Dikes, containment curbs, and pits are commonly employed for this purpose, but they may not always be appropriate. An alternative system could consist of a complete drainage trench enclosure arranged so that a spill could terminate and be safely confined in an in-plant catchment basin or holding pond.

(iii) Drainage of rainwater from the diked area into a storm drain or an effluent discharge that empties into an open water course, lake, or pond, and by-passing the in-plant treatment system may be acceptable if:

(A) The by-pass valve is normally sealed closed.

(B) Inspection of the run-off rain water ensures compliance with applicable water quality standards and will not cause a harmful discharge as defined in Part 110 of this chapter.

(C) The by-pass valve is opened, and resealed following drainage under the responsible supervision.

(D) Adequate records are kept of such events.

(iv) Buried metallic storage tanks represent a potential for undetected spills. A new buried installation should be wrapped and coated to retard corrosive action. In addition, the earth should be subjected to electrolytic testing to determine if the tank should be further shielded by a cathodic protection system. Such buried tanks should at least be subjected to regular pressure testing.

(v) Partially buried metallic tanks for the storage of oil should be avoided, unless the buried section of the shell is adequately coated, since partial burial in damp earth can cause rapid corrosion of metallic surfaces, especially at the earth/air interface.

(vi) Aboveground tanks, depending on design (floating roof, etc.), should be subjected to integrity testing, either by hydrostatic testing, visual inspection or by a system of non-destructive shell thickness testing. When the latter system of integrity testing is used, comparison records of shell thickness reduction should be maintained.

(vii) To control leakage through defective internal heating coils, the following factors should be considered and applied, as appropriate.

(A) The steam return or exhaust lines from internal heating coils which discharge into an open water course should be monitored for contamination, or passed through a settling tank, skimmer, or other separation or retention system.

(B) The feasibility of installing an external heating system should also be considered.

(viii) Each bulk storage tank should be externally examined at least once a month. Each inspection should include an examination of seams, rivets, bolts, gaskets, nozzle connections, valves, and pipelines directly connected to the tank, and condition of the foundation and/or supports.

(ix) New and old tank installations should, as far as practical, be fail-safe engineered or updated into a fail-safe engineered installation to avoid spills. Consideration should be given to providing the following devices:

(A) High liquid level bell or horn alarms with an audible signal at a constantly manned operating or listening station; in smaller plants an audible air vent may suffice.

(B) Considering size and complexity of the facility, high liquid level pump cutoff devices set to stop flow at a predetermined tank content level.

(C) Direct audible or code signal communication between the tank gauger and the pumping station.

(D) At least one fast response system for determining the liquid level of each bulk storage tank such as digital computers, telepulse, or direct vision gauges.

(E) Liquid level sensing devices should be subjected to regularly scheduled inspection and test to verify proper operation.

(x) Plant effluents which are discharged into navigable waters should have disposal facilities inspected frequently enough to detect possible system upsets that could cause an oil discharge.

(xi) Visible oil leaks which result in a loss of oil from tank seams, gaskets, rivets and bolts should be promptly corrected.

(3) *Intra-facility transfer operations, pumping, and inplant process (onshore); (excluding production facilities).* (i) Buried piping installations should have a protective wrapping and coating and should be cathodically protected if soil conditions warrant. If a section of buried line is exposed for any reason, it should be inspected for condition. If corrosion damage is found, additional inspection and corrective action should be taken as indicated by the magnitude of the damage. An alternative would be the more frequent use of exposed pipe corridors or galleries.

(ii) When a pipeline is not in service, or in standby service for an extended time the terminal connection at the transfer point should be capped or blank-flanged, and marked as to origin.

(iii) Pipe supports should be properly designed to minimize abrasion and corrosion and allow for expansion and contraction.

(iv) All aboveground valves and pipelines should be subjected to a regularly scheduled inspection at which time the general condition of items, such as flange joints, expansion joints, valve glands and bodies, catch pans, pipeline supports, locking of valves, and metal surfaces should be assessed.

(v) Vehicular traffic granted entry into the facility should be inspected or warned to be sure that the vehicle, because of its size, will not endanger above ground piping.

(4) *Intra-facility tank car and tank truck loading/unloading (onshore).* (i) Tank car and tank truck loading/unloading procedures shall meet the minimum requirements and regulation established by the Department of Transportation.

(ii) A quick drainage system should be used for tank truck unloading areas. The containment system should be designed to hold at least maximum capacity of any single tank truck loaded or unloaded in the plant.

V 38-138 JUL 19 73 XUM

(iii) An interlocked warning light or physical barrier system, or warning signs, should be provided in loading/unloading areas to prevent vehicular departure before complete disconnect of flexible or fixed transfer lines.

(iv) Prior to filling and departure of any tank car or tank truck, the lowermost drain and all outlets of such vehicles should be closely examined for leakage, and if necessary, tightened, adjusted, or replaced to prevent liquid leakage while in transit.

(5) *Oil production facilities* (onshore). (i) *Definition.* An onshore production facility includes all wells, flowlines, separation equipment, storage facilities, gathering lines, and auxiliary nontransportation-related equipment and facilities in a single geographical oil or gas field operated by a single operator.

(ii) *Oil production facility (onshore) drainage.* (A) At tank batteries and central treating stations where an accidental discharge of oil would have a reasonable possibility of reaching navigable waters, the dikes or equivalent required under paragraph (c)(1) of this section should have drains closed and sealed at all times except when rainwater is being drained under surveillance of an authorized person. Accumulated oil on the rainwater will be picked up and returned to storage or disposed of in accordance with approved methods.

(B) Field drainage ditches, road ditches, and oil traps or skimmers, if such exist, should be inspected at regularly scheduled intervals for accumulation of oil that may have escaped from small leaks. Any such accumulations should be removed.

(iii) *Oil production facility (onshore) bulk storage tanks.* (A) No tank should be used for the storage of oil unless its material and construction are compatible with the material stored and the conditions of storage.

(B) All tank battery and central treating plant installations should be provided with a secondary means of containment for the entire contents of the largest single tank if feasible, or alternate systems such as in paragraph (c)(1) of this section. Drainage from undiked areas will be safely confined in a catchment basin or holding pond.

(C) All tanks containing oil should be visually inspected by a competent person for condition and need for maintenance on a scheduled periodic basis. Such inspection should include the foundation and supports of tanks that are above the surface of the ground.

(D) New and old tank battery installations should, as far as practical, be fail-safe engineered or updated into a fail-safe engineered installation to prevent spills. Consideration should be given to the following:

(*1*) Adequate tank capacity to assure that a tank will not overfill should a pumper/gager be delayed in making his regular rounds.

(2) Overflow equalizing lines between tanks so that a full tank can overflow to to adjacent tank.

(*3*) Adequate vacuum protection to prevent tank collapse during a pipeline run.

(*4*) High level sensors to generate and transmit an alarm signal to the computer where facilities are a part of a computer production control system.

(iv) *Intra-facility transfer operations, oil production facility (onshore).* (A) All above ground valves and pipelines should be inspected periodically on a scheduled basis for general condition of items such as flange joints, valve glands and bodies, drip pans, pipeline supports, pumping well polish rod stuffing boxes, bleeder and gauge valves.

(B) Salt water (oil field brine) disposal facilities should be inspected often, particularly following a sudden change in atmospheric temperature to detect possible system upsets that could cause an oil discharge.

(C) Records should be kept of flowline repairs and used by the operator as a basis for a maintenance and replacement program designed to eliminate or minimize oil discharges from flowline leaks.

(6) *Oil drilling and production facilities (offshore).* (i) Definition. An oil drilling and production facility (offshore) includes all drilling equipment, wells, flowlines, gathering lines, platforms, and auxiliary non-transportation-related equipment and facilities in a single geographical oil or gas field operated by a single operator.

(ii) Oil drainage collection equipment shall be used to prevent and control small oil spillage around pumps, glands, valves, flanges, expansion joints, hoses, drain lines, separators, treaters, tanks, and allied equipment. Drains on the facility shall be controlled and directed toward a central collection sump or equivalent collection system sufficient to prevent discharges of oil into the navigable waters of the United States. Where drains and sumps are not practicable oil contained in collection equipment will be removed as often as necessary to prevent overflow.

(iii) For facilities employing a sump system, sump and drains should be adequately sized and a spare pump or equivalent method should be available to remove liquid from the sump and assure that oil does not escape. A regular scheduled preventive maintenance inspection and testing program should be employed to assure reliable operation of the liquid removal system and pump start-up device. Redundant automatic sump pumps and control devices may be required on some installations.

(iv) Separator and treater dump valves in areas where the predominant mode of dump valve failure is in the closed position and pollution risk is high, should be specially equipped to prevent the escape of oil. This could be accomplished extending the flare line to a diked area if the separator is near shore, equipping it with a high liquid level sensor that will automatically shut-in wells producing to the separator, parallel redundant dump valves, or other feasible alternatives.

(v) Atmospheric storage or surge tanks shall be equipped with high liquid level sensing devices or other acceptable alternatives to prevent oil discharges.

(vi) Pressure tanks shall be equipped with high and low pressure sensing devices to sound an alarm and control the flow or other acceptable alternatives to prevent oil discharges.

(vii) Tanks shall be equipped with suitable corrosion protection.

(viii) A written procedure for inspecting and testing pollution prevention equipment and systems shall be prepared and maintained at the facility. Such procedures shall be included as part of the SPCC Plan.

(ix) Testing and inspection of the pollution prevention equipment and systems at the facility shall be conducted by the owner or operator on a scheduled periodic basis commensurate with the complexity, conditions and circumstances of the facility or other appropriate regulations.

(x) Surface and subsurface well shut-in valves and devices shall be sufficiently described to determine method of activation or control, e.g., pressure differential, change in fluid or flow conditions, combination of pressure and flow, manual or remote control mechanisms.

(xi) Before drilling below any casing string, a blowout preventer (BOP) assembly and well control system shall be installed that is capable of controlling any wellhead pressure that is expected to be encountered while that BOP assembly is on the well. BOP installations shall be in accordance with State regulatory agency requirements.

(xii) Extraordinary well control measures shall be provided should emergency conditions, including fire, loss of control and other abnormal conditions, occur. The degree of control system redundancy should vary with hazard exposure and probable consequences of failure. It is recommended that surface shut-in systems have redundant or "fail close" valving. Subsurface safety valves may not be needed in producing wells that will not flow but should be installed as required by applicable State regulations.

(xiii) In order that there will be no misunderstanding of joint and separate duties and obligations to perform work in a safe and pollution free manner, written instructions should be prepared by the owner or operator for contractors and subcontractors to follow whenever contract activities include servicing a well or systems appurtenant to a well or pressure vessel. Such instructions and procedures shall be maintained at the offshore production facility. Under certain circumstances and conditions such contractor activities may require supervision by an authorized representative of the owner or operator of the facility.

(xiv) Flowlines from high pressure wells should be equipped with high pressure sensing devices at the wellhead if the shut-in well pressure is greater than the working pressure of the flowline and manifold.

(xv) All headers shall be equipped with check valves on individual flowlines. The flowline and valves from each well located upstream of, and including, the header valves shall withstand the shut-in pressure of that well, unless provided with a pressure relief valve or control valve to protect the header.

(xvi) All pipelines appurtenant to the facility shall be protected from corrosion. Methods used, such as protective coatings or cathodic protection, should be discussed.

(xvii) Sub-marine pipelines appurtenant to the facility should be adequately protected against environmental stresses and other activities such as fishing operations.

(xviii) Sub-marine pipelines appurtenant to the facility shall be in good operating condition at all times and inspected on a scheduled periodic basis for failures. Such inspections shall be documented and maintained at the facility.

(7) *Inspections and records.* Inspections required by this part shall be in accordance with written procedures developed for the facility by the owner or operator. These written procedures and a record of the inspections, signed by the appropriate supervisor or inspector, shall be made part of the SPCC Plan.

(8) *Security (excluding oil production facilities).* (i) All plants handling, processing, and storing oil should be fully fenced, and entrance gates should be locked and/or guarded when the plant is not in production or is unattended.

(ii) The master flow and drain valves and any other valves that will permit direct outward flow of the tank's content should be securely locked in the closed position when in non-operating or non-standby status.

(iii) The starter control on all oil pumps should be secured or electrically isolated in the "off" position when the pumps are in a non-operating or non-standby status.

(iv) The loading/unloading connections of oil pipelines should be securely capped or blank-flanged when not in service or standby service for an extended time. This security practice should also apply to pipelines that are emptied of liquid content either by draining or by inert gas pressure.

(v) The SPCC Plan should include a discussion of lighting that exists around the facility.

(9) *Personnel, training and spill prevention procedures.* (i) Owners or operators are responsible for properly instructing their personnel in the operation and maintenance of equipment to prevent the discharges of oil and applicable pollution control laws, rules and regulations.

(ii) Each applicable facility shall have a designated person who is accountable for oil spill prevention and who reports to line management.

(iii) Owners or operators shall schedule and conduct spill prevention briefings for their operating personnel at intervals frequent enough to assure adequate understanding of the SPCC Plan for that facility. Such briefings should highlight and describe known spill events or failures, malfunctioning components, and recently developed precautionary measures.

APPENDIX—MEMORANDUM OF UNDERSTANDING BETWEEN THE SECRETARY OF TRANSPORTATION AND THE ADMINISTRATOR OF THE ENVIRONMENTAL PROTECTION AGENCY

SECTION II—DEFINITIONS

The Environmental Protection Agency and the Department of Transportation agree that for the purposes of Executive Order 11548, the term:

(1) "Non-transportation-related onshore and offshore facilities" means:

(A) Fixed onshore and offshore oil well drilling facilities including all equipment and appurtenances related thereto used in drilling operations for exploratory or development wells, but excluding any terminal facility, unit or process integrally associated with the handling or transferring of oil in bulk to or from a vessel.

(B) Mobile onshore and offshore oil well drilling platforms, barges, trucks, or other mobile facilities including all equipment and appurtenances related thereto when such mobile facilities are fixed in position for the purpose of drilling operations for exploratory or development wells, but excluding any terminal facility,

unit or process integrally associated with the handling or transferring of oil in bulk to or from a vessel.

(C) Fixed onshore and offshore oil production structures, platforms, derricks, and rigs including all equipment and appurtenances related thereto, as well as completed wells and the wellhead separators, oil separators, and storage facilities used in the production of oil, but excluding any terminal facility, unit or process integrally associated with the handling or transferring of oil in bulk to or from a vessel.

(D) Mobile onshore and offshore oil production facilities including all equipment and appurtenances related thereto as well as completed wells and wellhead equipment, piping from wellheads to oil separators, oil separators, and storage facilities used in the production of oil when such mobile facilities are fixed in position for the purpose of oil production operations, but excluding any terminal facility, unit or process integrally associated with the handling or transferring of oil in bulk to or from a vessel.

(E) Oil refining facilities including all equipment and appurtenances related thereto as well as in-plant processing units, storage units, piping, drainage systems and waste treatment units used in the refining of oil, but excluding any terminal facility, unit or process integrally associated with the handling or transferring of oil in bulk or from a vessel.

(F) Oil storage facilities including all equipment and appurtenances related thereto as well as fixed bulk plant storage, terminal oil storage facilities, consumer storage, pumps and drainage systems used in the storage of oil, but excluding in-line or breakout storage tanks needed for the continuous operation of a pipeline system and any terminal facility, unit or process integrally associated with the handling or transferring of oil in bulk to or from a vessel.

(G) Industrial, commercial, agricultural or public facilities which use and store oil, but excluding any terminal facility, unit or process integrally associated with the handling or transferring of oil in bulk to or from a vessel.

(H) Waste treatment facilities including in-plant pipelines, effluent discharge lines, and storage tanks, but excluding waste treatment facilities located on vessels and terminal storage tanks and appurtenances for the reception of oily ballast water or tank washings from vessels and associated systems used for offloading vessels.

(I) Loading racks, transfer hoses, loading arms and other equipment which are appurtenant to a nontransportation related facility or terminal facility and which are used to transfer oil in bulk to or from highway vehicles or railroad cars.

(J) Highway vehicles and railroad cars which are used for the transport of oil exclusively within the confines of a nontransportation related facility and which are not intended to transport oil in interstate or intrastate commerce.

(K) Pipeline systems which are used for the transport of oil exclusively within the confines of a nontransportation related facility or terminal facility and which are not intended to transport oil in interstate or intrastate commerce, but excluding pipeline systems used to transfer oil in bulk to or from a vessel.

(2) "transportation-related onshore and offshore facilities" means:

(A) Onshore and offshore terminal facilities including transfer hoses, loading arms and other equipment and appurtenances used for the purpose of handling or transferring oil in bulk to or from a vessel as well as storage tanks and appurtenances for the reception of oily ballast water or tank washings from vessels, but excluding terminal waste treatment facilities and terminal oil storage facilities.

(B) Transfer hoses, loading arms and other equipment appurtenant to a nontransportation related facility which is used to transfer oil in bulk to or from a vessel.

(C) Interstate and intrastate onshore and offshore pipeline systems including pumps and appurtenances related thereto as well as in-line or breakout storage tanks needed for the continuous operation of a pipeline system, and pipelines from onshore and offshore oil production facilities, but excluding onshore and offshore piping from wellheads to oil separators and pipelines which are used for the transport of oil exclusively within the confines of a nontransportation related facility or terminal facility and which are not intended to transport oil in interstate or intrastate commerce or to transfer oil in bulk to or from a vessel.

(D) Highway vehicles and railroad cars which are used for the transport of oil in interstate or intrastate commerce and the equipment and appurtenances related thereto, and equipment used for the fueling of locomotive units, as well as the rights-of-way on which they operate. Excluded are highway vehicles and railroad cars and motive power used exclusively within the confines of a non-transporation related facility or terminal facility and which are not intended for use in interstate or intrastate commerce.

ECONOMIC STABILIZATION; PHASE IV

Stage A: Regulations for Food

No. 138—Pt. IV——1

V 38-138 JUL 19 73 XUM

Title 3—The President

PROCLAMATION 4230

Amending Part 3 of the Appendix to the Tariff Schedules of the United States With Respect to the Importation of Agricultural Commodities

By the President of the United States of America

A Proclamation

WHEREAS, pursuant to section 22 of the Agricultural Adjustment Act, as amended (7 U.S.C. 624), limitations have been imposed by Presidential proclamations on the quantities of certain dairy products which may be imported into the United States in any quota year; and

WHEREAS the import restrictions proclaimed pursuant to said section 22 are set forth in part 3 of the Appendix to the Tariff Schedules of the United States; and

WHEREAS the Secretary of Agriculture has reported to me that he believes that additional quantities of dried milk provided for in item 950.02 of the Tariff Schedules of the United States (hereinafter referred to as "nonfat dry milk") may be entered for a temporary period without rendering or tending to render ineffective, or materially interfering with, the price support program now conducted by the Department of Agriculture for milk or reducing substantially the amount of products processed in the United States from domestic milk; and

WHEREAS, under the authority of section 22, I have requested the United States Tariff Commission to make an investigation with respect to this matter; and

WHEREAS the Secretary of Agriculture has determined and reported to me that a condition exists with respect to nonfat dry milk which requires emergency treatment and that the quantitative limitation imposed on nonfat dry milk should be increased during the period ending August 31, 1973, without awaiting the recommendations of the United States Tariff Commission with respect to such action; and

WHEREAS I find and declare that the entry during the period ending August 31, 1973, of an additional quantity of 80,000,000 pounds of nonfat dry milk will not render or tend to render ineffective, or materially interfere with, the price support program which is being undertaken by the Department of Agriculture for milk and will not reduce substantially

V 38 - 138 JUL 19 73 XUM

the amount of products processed in the United States from domestic milk; and that a condition exists which requires emergency treatment and that the quantitative limitation imposed on nonfat dry milk should be increased during such period without awaiting the recommendations of the United States Tariff Commission with respect to such action;

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, acting under and by virtue of the authority vested in me as President, and in conformity with the provisions of section 22 of the Agricultural Adjustment Act, as amended, and the Tariff Classification Act of 1962, do hereby proclaim that subdivision (vi) of headnote 3(a) of part 3 of the Appendix to the Tariff Schedules of the United States is amended to read as follows:

(vi) Notwithstanding any other provision of this part, 25,000,000 pounds of dried milk described in item 115.50 may be entered during the period beginning December 30, 1972, and ending February 15, 1973, 60,000,000 pounds of such milk may be entered during the period beginning May 11, 1973, and ending June 30, 1973, and 80,000,000 pounds of such milk may be entered during the period beginning July 19, 1973, and ending August 31, 1973, in addition to the annual quota quantity specified for such article under item 950.02, and import licenses shall not be required for entering such additional quantities. No individual, partnership, firm, corporation, association, or other legal entity (including its affiliates or subsidiaries) may during each such period enter pursuant to this provision quantities of such additional dried milk totaling in excess of 2,500,000 pounds.

The 80,000,000 pound additional quota quantity provided for herein shall continue in effect pending Presidential action upon receipt of the report and recommendations of the Tariff Commission with respect thereto.

IN WITNESS WHEREOF, I have hereunto set my hand this eighteenth day of July in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-eighth.

Richard Nixon

[FR Doc.73-15056 Filed 7-18-73;5:36 p.m.]

EXECUTIVE ORDER 11730

Further Providing for the Stabilization of the Economy

On June 13, 1973, I ordered a freeze for a maximum period of 60 days on the prices of all commodities and services offered for sale except the prices charged for raw agricultural products. At that time, I stated that the freeze period would be used to develop a new and more effective system of controls to follow the freeze. Planning for the Phase IV program has proceeded rapidly and I have, therefore, decided that the freeze on food, except for beef, should be removed and more flexible controls substituted in a two-stage process in the food industry. The first stage will be effective at 4:00 p.m., e.s.t., July 18, 1973. The freeze in other sectors of the economy will continue through August 12, 1973. I am also directing the Cost of Living Council to publish for comment now, proposed plans for Phase IV controls in other sectors of the economy. I have determined that this action is necessary to stabilize the economy, reduce inflation, minimize unemployment, improve the Nation's competitive position in world trade and protect the purchasing power of the dollar, all in the context of sound fiscal management and effective monetary policies.

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and statutes of the United States, particularly the Economic Stabilization Act of 1970, as amended, it is hereby ordered as follows:

SECTION 1. Executive Order 11723 establishing a freeze on prices effective 9:00 p.m. e.s.t., June 13, 1973, for a maximum period of 60 days is hereby superseded except as hereinafter provided. Under the provisions of Executive Order 11695, the freeze regulations issued by the Cost of Living Council, pursuant to the authority of Executive Order 11723 remain in effect except as the Chairman of the Cost of Living Council may modify them. The price freeze established by Executive Order 11723 remains in effect until 11:59 p.m., e.s.t., August 12, 1973, except to the extent the Chairman of the Cost of Living Council may modify it.

SEC. 2. All orders, regulations, circulars, rulings, notices or other directives issued and all other actions taken by any agency pursuant to Executive Order 11723, and in effect on the date of this order are hereby confirmed and ratified, and shall remain in full force and effect unless or until altered, amended, or revoked by the Chairman of the Cost of Living Council.

SEC. 3. This order shall not operate to defeat any suit, action, prosecution, or administrative proceeding, whether heretofore or hereafter commenced, with respect to any right possessed, liability incurred, or offense committed prior to this date.

SEC. 4. Executive Order 11695 continues to remain in full force and effect.

Richard Nixon

THE WHITE HOUSE,
July 18, 1973.

[FR Doc.73-15057 Filed 7-18-73;5:36 p.m.]

V 38 - 138 JUL 19 73 XUM

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 130—COST OF LIVING COUNCIL PHASE III REGULATIONS

PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS

Stage A for Food

The purpose of these amendments to the Cost of Living Council's regulations is to implement Executive Order 11730 by modifying the Freeze regulations to remove the ceilings on prices for food other than meat and by amending the Phase III regulations to remove its ceilings on prices for pork and lamb. These changes comprise Stage A of Phase IV for the food industry and will last until 11:59 p.m., e.s.t., September 11, 1973. During this same time, the ceiling prices on beef are continued and Parts 130 and 140 of this chapter remain in effect for food except as herein modified. Effective September 12, 1973, all food will fully enter Phase IV and be subject to regulations similar to the controls for the industrial, wholesale and retail sectors.

Food

During Stage A, the food industry for sales other than meat, will be governed by a new Subpart I to the Freeze Regulations set out in Part 140. Subpart I establishes special price rules for sales of food which allow a dollar-for-dollar pass-through of increases in the costs of raw agricultural products, and require a dollar-for-dollar pass-through of decreases in these costs.

The amount by which a price can be increased under Subpart I due to an increase in the cost of a raw agricultural product is determined by comparing costs during the freeze cost period to current costs. The excess of current costs over freeze costs, due to raw agricultural product price increases, is an "allowable cost increase" which sellers can charge above their freeze prices. Section 140.92 defines "freeze cost" for most purposes as the average cost of a raw agricultural product received during the freeze cost period, calculated by dividing the total cost of that product by the total quantity of that product. Slightly differing rules apply to processed food items.

The "freeze cost period" is the same for a buyer as the "freeze base period" is for a seller: The period June 1 through June 8, 1973, or if the buyer received no deliveries then, the nearest preceding seven-day period in which he received a delivery. "Cost" is defined to include transportation charges calculated at the rates that were charged during the freeze cost period, but does not include service charges such as brokerage fees.

"Current cost", to which the "freeze cost" is to be compared to ascertain an "allowable cost increase", is determined in the same way as "freeze cost", except that the time period to which one looks is different. "Current cost" looks to the purchaser's most recently completed "repricing period", which is the time period at whose end a firm would normally reprice a food item.

"Raw agricultural products", whose increased cost can be passed on, is defined to mean communities of the type exempted in § 140.31 of the Freeze Regulations.

"Food" is defined to mean an item primarily produced for human or animal ingestion, except for alcohol, tobacco, drugs, and meat subject to Subpart M of Part 130. This definition differs in two ways from that formerly employed in that it includes both animal feeds, and items with both food and non-food end uses, such as soybean oil, so long as their primary use is as food. An item is not treated as food under this definition until it has been processed or, if it is the sort that is sold in its original physical form for ultimate human consumption (not, as above, for human or animal consumption), until after its first sale.

General pricing rules. Section 140.93 sets out the methods for applying allowable cost increases in three basic situations. The first is where a raw agricultural product is sold for consumption in its original physical form. A wholesaler or retailer who buys this good directly from a producer may charge a price above the freeze price to reflect, on a dollar-for-dollar basis, any allowable cost increase for that good. Similarly, when costs go down he must lower his prices to reflect, on a dollar-for-dollar basis, this decrease.

The second situation is where raw agricultural products are purchased by a food manufacturer or processor for processing. The purchaser may effect a dollar-for-dollar pass through of an allowable cost increase by raising the price he charges for the processed food item he prepares from these raw agricultural products and must likewise lower his prices when these costs go down.

The final situation occurs when a seller purchases a food item, whether processed or not, for resale. This seller may pass through, on a dollar-for-dollar basis, any increases in allowable costs which have been passed on to him, and must also reflect any decreases in the cost of raw agricultural products which have been passed on to him.

Certification. Section 140.93 provides that changes in the cost of raw agricultural products are passed up the distribution chain by means of a certification on the invoice. The person in the distribution chain who first experiences a change in his costs stemming from a change in the prices for raw agricultural products, must state on each invoice to his customer the amount of the price charged that is due to an allowable cost increase being passed through under this Subpart, and the amount due to a required cost decrease. He also certifies on the invoice, in the form set out in § 140.97, that any increase has been passed through only on a dollar-for-dollar basis, and that all required decreases have been passed through on a dollar-for-dollar basis.

A person who buys from him may in turn pass any increase on (and must pass any decrease on) by making the proper certification on the invoices that he gives his customers. At the end of the distribution chain, the retailer is not required to supply any certification to his customers. While a food firm may take an allowable cost increase at any time after it is incurred, it must make a required cost decrease upon the expiration of the repricing period during which the cost decrease occurs.

All decreases must be passed through, but they may be balanced by any allowable cost increases which have not been taken. Once the current cost goes below the freeze cost, however, a seller must decrease the price he charges even if he did not take advantage of any allowable cost increases, because when freeze cost and current cost are the same, by definition any earlier allowable cost increases will have been matched by required cost decreases.

Other rules. Section 140.93(d) sets out a fourth situation in which increases may be passed on as allowable cost increases. A firm whose costs for a food item during the freeze cost period exceeded its freeze price (and which was therefore stuck in a loss position), may under this paragraph reach back to January 10, 1973 to find increases in raw agricultural product costs. To the extent these increases are not already reflected in the freeze price, they may be used to justify price adjustments in the same manner as allowable cost increases and, when properly certified, passed up the distribution chain. They may not, however, be used as justification for charging a price above the freeze cost. Any price above freeze cost must be justified as an allowable cost under paragraph (a), (b), or (c) of § 140.93.

Inventory may also be repriced if the average cost of a food item in inventory exceeds the freeze price. However, a price charged for repriced inventory may not exceed the average cost of the food item during its cost base period and may not reflect allowable cost increases. Like other price adjustments, these may be passed on to purchasers when certified on an invoice.

Food service organizations which sell meat are subject to the freeze rather than meat ceiling prices. Section 140.93(f) allows these organizations to also pass through increased costs for pork and lamb in the same manner provided in the new § 130.128 for other sellers of meat derived from swine and sheep.

Finally, a price change made under Subpart I does not, according to § 140.98, trigger the prenotification provisions of Subpart F of Part 130, relating to food firms, but it does create a requirement under § 140.99 that firms with annual sales or revenues over $50 million keep records justifying the price change.

Freeze price information and commodity futures.

Because food prices will now fluctuate, § 140.20(c) is amended to exempt sellers of food from the freeze price information requirements. However, sellers must still maintain complete records on freeze prices and make them available on request to representatives of the Economic Stabilization Program. Due to the release of food prices from the freeze, the commodity futures exemption has also

V 38 I 138 JUL 19 73 XUM

been broadened to exempt commodities subject to the provisions of Subpart I.

PORK AND LAMB

The other major change for food is the removal of the ceiling on prices for pork and lamb. These meat items are treated in a similar manner to food under Subpart I. Prices may now be charged in excess of ceiling prices to reflect increase raw material costs on a dollar-for-dollar basis in accordance with special rules set forth in Subpart M to Part 130.

The special rules for pork and lamb are structured around a change in the gross margin rule in § 130.57d. This rule limits the pass-through of the cost of meat raw materials to a dollar-for-dollar basis for firms engaged in slaughtering and processing of livestock or the manufacturing of meat products. The amendment to the gross margin rule in § 130.57d(e) establishes a special pricing rule for firms slaughtering or processing swine and sheep by which these firms will calculate permissible total sales revenues for the period July 18 to September 12, 1973.

Subpart M of Part 130 is then amended to permit meat firms slaughtering or processing meat items derived from swine and sheep to charge a price in excess of a ceiling price to the extent necessary to permit the total sales revenues for the period July 18, 1973 to September 12, 1973 to equal the permissible total sales revenues for the period July 18–September 12, 1973 as calculated in § 130.57d(e). Meat prices must also be decreased to the extent necessary to maintain the firm's total sales revenues for July 18–September 12 within its permissible total sales revenues for that period.

Like the rules in Subpart I, whenever a firm adjusts a price in accordance with the rules in § 130.127, it must certify the adjustment on an invoice to its customers. These wholesalers and retailers may then in turn under § 130.128 charge a price in excess of their ceiling price to reflect, on a dollar-for-dollar basis, the price increase certified on the invoice. Wholesalers and retailers must also decrease prices on a dollar-for-dollar basis to reflect price decreases certified on invoices.

Any price adjustments made pursuant to these special rules for sales of pork and lamb are exempt from the prenotification requirements of Subpart F. Each firm, with annual sales or revenues, in excess of $50 million derived from sales of food must, however, maintain comprehensive records on all price adjustments made pursuant to § 130.127 and §130.128.

Because prices for pork and lamb will now fluctuate like food prices, sellers of meat derived from swine and sheep are exempt from the ceiling price information requirements of § 130.124. The ceiling on prices for meat futures is also removed with respect to meat items derived from swine and sheep which are subject to § 130.127.

Because the purpose of these regulations is to provide immediate guidance as to Executive Order 11730 and to Cost of Living Council decisions, I find that publication in accordance with normal rule making procedure is impracticable and that good cause exists for making these regulations effective in less than 30 days. Interested persons may submit communications regarding these regulations. Communications should be addressed to the Office of General Counsel, Cost of Living Council, Special Freeze Group, Washington, D.C. 20508.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11695, 38 FR 1473, Cost of Living Council Order No. 14, 38 FR 1489; E.O. 11730, 38 FR 19345)

In consideration of the foregoing, Chapter I of Title 6 of the Code of Federal Regulations is amended as follows, effective 4:00 p.m., e.s.t., July 18, 1973.

Issued in Washington, D.C., on July 18, 1973.

JAMES W. MCLANE,
Deputy Director, Cost of Living Council, and Director, Special Freeze Group.

§ 130.57d [Amended]

1. § 130.57d(c)(1) is amended to read: "Livestock" means—

(i) For the purpose of calculating the pricing rule in paragraph (d), cattle.

(ii) For the purpose of calculating the special pricing rule in paragraph (e), swine and sheep.

2. § 130.57d(c)(2) is amended to read: "Meat products" means—

(i) For the purpose of calculating the pricing rule in paragraph (d), "meat" as defined in § 130.123 derived from cattle and any "meat food product" as defined in 9 CFR 301.2(vv) which is meat under the definition in § 130.123 and which contains over 40 percent of "meat", as defined in 9 CFR 301.2(tt), and "meat by product", as defined in 9 CFR 301.2(uu), derived from cattle.

(ii) For the purpose of calculating the pricing rule in paragraph (e), "meat" as defined in § 130.123 derived from swine and sheep and any "meat food product" as defined in 9 CFR 301.2(vv) which is meat under the definition in § 130.123 and which contains over 40 percent of "meat", as defined in 9 CFR 301.2(tt), and "meat by product", as defined in 9 CFR 301.2(uu), derived from swine and sheep.

3. § 130.57d(e) and § 130.57d(f) are renumbered § 130.57d(f) and § 130.57d(g) respectively.

4. § 130.57d(e) is added to read as follows:

(e) *Special pricing rule for swine and sheep.* (1) Effective 4:00 p.m., e.s.t., July 18, 1973 until 11:59 p.m., e.s.t., September 11, 1973, except as provided in paragraph (d)(3) of this section, permissible total sales revenues for the period July 18–September 12, 1973 may not exceed an amount derived from the following computation: the base period gross margin multiplied by the meat raw material during the period July 18–September 12, 1973 plus meat raw material cost during the period July 18–September 12, 1973. This computation is illustrated by use of the following equation:

Base period gross margin per hundredweight	×	Meat raw material for the period July 18–Sept. 12, 1973 measured by hundredweight	+	Meat raw material costs for the period July 18–Sept. 12, 1973.	=	Permissible total sales revenues for the period July 18–Sept. 12, 1973.

(2) In computing meat raw material and meat raw material costs for the period July 18–September 12, 1973 for the purpose of determining permissible total sales revenues for the period July 18–September 12, 1973, a firm must exclude all livestock, semi-processed livestock, and meat products purchased and resold without change in form.

(3) Sales revenues in the period July 18–September 12, 1973 may exceed the permissible total sales revenue calculated by application of the formula provided in paragraph (d)(1) of this section if the excess results from: (i) Allowable cost increases other than meat raw material costs, or (ii) seasonal patterns or a change in product mix. Any justification based upon seasonal patterns or a change in product mix shall be reported or retained in the records, as appropriate, and be subject to review by the Council.

§ 130.121 [Amended]

5. § 130.121(a) is amended as follows:

(a) *Ceiling prices.* Effective 9:00 e.s.t., March 29, 1973, no seller of meat subject to this subpart may charge to any class of purchaser, and no purchaser of meat subject to this subpart may pay, a price for any meat item which exceeds the ceiling price charged for that item in transactions with the same class of purchaser during the meat ceiling base period except pursuant to the special rule in § 130.127. Any decrease in quantity or quality of a meat item without a commensurate reduction in the price of that item constitutes a price increase for that item.

§ 130.122 [Amended]

6. § 130.122 is amended to read as follows:

This subpart shall remain in effect until 11:59 p.m., e.s.t., September 11, 1973.

§ 130.124 [Amended]

7. § 130.124 is amended to add a paragraph (f) which reads as follows:

(f) Sellers of meat derived from swine and sheep are exempt from the requirements of this section with respect to meat items derived from swine and sheep offered for sale. Each seller of meat items derived from swine and sheep shall, however, maintain records containing calculations and supporting data upon which ceiling prices for this meat item are based at the location where pricing decisions with respect to these meat items are ordinarily made. This information should be made available on request to representatives of the Economic Stabilization Program.

§ 130.126 [Amended]

8. § 130.126(a) is amended to read as follows:

(a) *Applicability.* This section applies to any futures contract on an organized commodities exchange in which the subject of that contract is a meat item the sales of which are subject to this subpart other than a meat item subject to § 130.127 (further referred to in this section as a meat future or a meat futures contract). It applies only with respect to meat futures which calls for delivery during the months of July and August, 1973.

9. § 130.127 is added to read as follows:

§ 130.127 Special price rules for firms engaged in slaughtering and processing swine and sheep.

(a) Notwithstanding the price rule in § 130.121, effective 4:00 p.m., e.s.t., July 18, 1973, a firm subject to § 130.57d which sells meat derived from swine and sheep may charge to any class of purchaser, and a purchaser of meat subject to this subpart which is derived from swine and sheep may pay, a price for any meat item derived from swine and sheep which exceeds the ceiling price charged for that item in transactions with the same class of purchaser during the meat ceiling base period to the extent necessary to permit the total sales revenue for the period July 18, 1973 to September 12, 1973 to equal the permissible total sales revenues for the period July 18—September 12, 1973 as calculated in § 130.57d(e).

(b) A firm subject to § 130.57d which sells meat derived from swine and sheep must decrease a price for a meat item derived from swine and sheep below ceiling price to the extent necessary to maintain the firm's total sales revenues for the period July 18, 1973 to September 12, 1973 within the permissible total sales revenues for the period July 18—September 12, 1973 as calculated in § 130.57d(e).

(c) For purposes of these special rules, any "meat food product" as defined in 9 CFR 301.2(vv) which is meat under the definition in § 130.123 and which contains over 40% of "meat", as defined in 9 CFR 301.2(tt), and "meat by product", as defined in 9 CFR 301.2(uu), derived from swine and sheep shall be considered a meat item derived from swine and sheep.

(d) Whenever a firm subject to § 130.57d which sells meat derived from swine and sheep increases or decreases a price in accordance with the special rules in this section, it must—

(1) State on each invoice to its customers the part of the price charged for each meat item derived from swine and sheep that is due to a price increase allowable under the special rule in paragraph (a) and the decreases in the price charged in accordance with the special rule in paragraph (b) and

(2) Certify on each invoice to its customers that the part of the price charged for each meat item derived from swine and sheep which reflects a price increase allowable under the special rule in paragraph (a) is on a dollar-for-dollar basis only and that price decreases, if any, required by the special rule in paragraph (b) have been reflected on a dollar-for-dollar basis in the price charged.

10. § 130.128 is added to read as follows:

§ 130.128 Special price rules for wholesalers and retailers of swine and sheep.

(a) Sellers purchasing for resale meat items derived from swine and sheep may charge a price in excess of a ceiling price for a meat item derived from swine and sheep to reflect, on a dollar-for-dollar basis, a price increase allowable under the special rule in § 130.27(a) whenever a firm subject to § 130.57d or a wholesaler certifies to the seller on an invoice that the price of the meat item concerned has been increased in accordance with the special rule in § 130.127(a).

(b) Sellers purchasing for resale meat items derived from swine and sheep must decrease a price charged for a meat item derived from swine and sheep to reflect, on a dollar-for-dollar basis, a price decrease with respect to a meat item whenever a firm subject to § 130.57d or a wholesaler certifies on an invoice that the price of the meat item concerned has been decreased in accordance with the special rule in § 130.127(b).

(c) Whenever a wholesaler of meat items derived from swine and sheep increases or decreases a price in accordance with the rules in this section, it must:

(1) State on each invoice to its customers the part of the price charged for each meat item derived from swine and sheep that is due to a price increase allowable under the special rule in paragraph (a) of this section and the decreases in the price charged in accordance with the special rule in paragraph (b) of this section, and

(2) Certify on each invoice to its customers that the part of the price charged for each meat item derived from swine and sheep which reflects a price increase allowable under the special rule in paragraph (a) is on a dollar-for-dollar basis only and that price decreases, if any, required by the special rule in paragraph (b) have been reflected on a dollar-for-dollar basis in the price charged.

11. Section 130.129 is added to read as follows:

§ 130.129 Requirements for sellers of swine and sheep.

(a) *Invoice Certification.* A seller required by § 130.127 or § 130.128 to certify an invoice shall use the following form:

This is to certify that the price adjustments specified on this invoice reflect, on a dollar-for-dollar basis, only allowable adjustments to the prices of meat items derived from swine and sheep and that such price adjustments were properly calculated according to the applicable regulations of the Cost of Living Council.

COMPANY
(Signature)
By ----------
Position

(b) *Prenotification requirements.* The prenotification requirements of Subpart F of Part 130 do not apply to price adjustments made pursuant to § 130.127 and § 130.128.

(c) *Recordkeeping requirements.* Each firm with annual sales or revenues in excess of $50 million derived from sales of food shall maintain comprehensive records on all price adjustments made pursuant to § 130.127 and § 130.128. The calculations and supporting data used to determine freeze costs and current costs and certified invoices used to justify price adjustments shall be maintained by the firm at each pricing center and shall be made available on request to representatives of the Economic Stabilization Program.

§ 140.1 [Amended]

12. § 140.1(a) is amended to read as follows:

(a) The purpose of this part is to implement the provisions of Executive Order 11730 which continues the freeze on prices for commodities and services imposed by Executive Order 11723. Except as provided in paragraph (b) of this Section, the provisions of this part are in addition to the provisions of Part 130 of this title with respect to prices charged or received for commodities and services beginning 9:00 p.m., e.s.t., June 13, 1973 and shall not operate to abrogate any requirements imposed under Part 130. This part shall remain in general effect until 11:59 p.m., e.s.t., Aug. 12, 1973, after which Phase IV shall commence except that the freeze on prices for food as modified by Subpart I shall remain in effect until 11:59 p.m., e.s.t., September 11, 1973. To the extent that the provisions of this part are in conflict with the provisions of Part 130, the provisions of this part control, except that the provisions of this part shall not operate to permit prices higher than permitted under Part 130. The provisions of this part do not extend to—

(1) Wages and salaries, which continue to be subject to the program established pursuant to Executive Order 11695;

(2) Interest and dividends, which continue to be subject to the program established by the Committee on Interest and Dividends; and

(3) Rents, which continue to be subject to controls only to the limited extent provided in Executive Order 11695.

§ 140.20 [Amended]

13. § 140.20(c) is amended to read as follows:

(C) Sellers of food as defined in § 140.92 are exempt from the requirements of paragraphs (a) and (b) of this section with respect to food offered for sale. Each seller of food shall, however, in addition to the requirements imposed by § 140.99 maintain records containing calculations

V 38 I 138 JUL 19 73
XUM

and supporting data upon which freeze prices for food are based at the location where pricing decisions with respect to food are ordinarily made. This information shall be made available on request to representatives of the Economic Stabilization Program.

14. § 140.34 is amended to read as follows:

§ 140.34 Commodity futures.

(a) The purchase or sale of a commodity future on an organized commodities exchange is exempt if the sale of the commodity itself is exempt or if the commodity is subject to the provisions of Subpart I of this Part.

(b) If the sale of the commodity itself is nonexempt and the commodity is not subject to the provisions of Subpart I of this Part, the following rules apply:

(1) Except as provided in paragraph (b)(2) of this section, the purchase or sale of a commodity future on an organized commodities exchange is exempt but delivery of the commodity pursuant to the futures contract may not be made at a price higher than the freeze price.

(2) The purchase or sale on an organized commodities exchange of a futures contract calling for delivery in July or August, 1973, is nonexempt and is subject to the requirements of § 140.15 of this part. Delivery pursuant to that futures contract is also subject to § 140.15 of this part unless delivery takes place prior to July 4, 1973. If delivery takes place under that contract prior to July 4, 1973, delivery may not be made at a price higher than the freeze price.

15. Subpart I is added to 6 CFR Part 140 which reads as follows:

Subpart I—Special Price Rules for Food

§ 140.91 Scope.

This Subpart modifies the general freeze price rule by establishing special price rules for sales of food. The freeze prices for food remain as defined in § 140.2. These special rules, however, now both allow a seller to charge a price in excess of a freeze price to pass through to a purchaser on a dollar-for-dollar basis increases in the costs of raw agricultural products and require a seller to decrease a price to pass on to a purchaser decreases in the costs of raw agricultural products. The special rule does not apply to sales of meat subject to Subpart M of Part 130 of this Chapter. Part 130 and Part 140 of this Chapter otherwise remain in effect except as modified herein.

§ 140.92 Definitions.

"Allowable cost increase" means any incremental difference between current cost and freeze cost resulting from increases in the average cost per item of raw agricultural products.

"Cost" means the total price paid by the purchaser including allocated transportation charges calculated at the rates in effect during the freeze cost period less brokerage fees or other service charges.

"Current cost" means—

(1) In the case of raw agricultural products sold for ultimate consumption in their original physical form which were purchased directly from a producer, the average cost of each raw agricultural product received during the repricing period. The average cost is determined by dividing the total cost of each product received during the most recently completed repricing period by the total quantity of each product received during that repricing period.

(2) In the case of processed food items, the average cost of the raw agricultural products received during the most recently completed repricing period for processing or manufacturing into the processed food item concerned. The average cost of the raw agricultural products is determined by adding on a weighted basis the average cost of each product. The average cost of each product is determined by dividing the total cost of each product received during the most recently completed repricing period by the total quantity of each product received during that repricing period.

"Food" means, for purposes of this Subpart, an item primarily produced or manufactured for human or animal ingestion except alcoholic beverages, tobacco products, drugs, and meat subject to Subpart M of Part 130 of this Chapter. An item is not food within the meaning of this definition until it loses its original physical form and is processed or, if it is of a type sold for ultimate human consumption in its original physical form, until after the first sale by the producer or grower.

"Food firm" means any manufacturer, service organization, wholesaler or retailer engaged in the sale of food.

"Freeze Cost" means—

(1) In the case of raw agricultural products sold for ultimate consumption in their original physical form which were purchased directly from a producer, the average cost of each raw agricultural product received during the freeze cost period. The average cost is determined by dividing the total cost of each product received during the freeze cost period by the total quantity of each product received during that period.

(2) In the case of processed food items, the average cost of the raw agricultural products received during the freeze cost period for processing or manufacturing into the processed food items concerned. The average cost of the raw agricultural products is determined by adding on a weighted basis the average cost of each product. The average cost of each product is determined by dividing the total cost of each product received during the freeze cost period by the total quantity of each product received during the freeze cost period.

(3) In the case of new processed food items which the firm had not previously produced, the food firm should use the weighted sum of the costs of the first shipments of each raw agricultural product purchased for processing or manufacturing into the processed food items concerned.

"Freeze cost period" means—

(1) The period June 1 through June 8, 1973; or

(2) In the case of a purchaser who received no deliveries during that period, the nearest preceding seven-day period in which he received a delivery.

"Raw agricultural products" means commodities of the type specifically exempted in § 140.31.

"Repricing period" means any time period at the close of which a food firm, in accordance with its customary pricing practices and at its lowest customary pricing level, would normally reprice a food item. If no deliveries of raw agricultural products were received during that period, repricing period means the nearest preceding seven-day period in which the food firm received a delivery.

§ 140.93 Special price rules.

Effective 4:00 p.m., e.s.t., July 18, 1973, food firms are subject to the following special price rules:

(a) *Raw agricultural products sold for consumption in original form.* (1) Wholesalers and retailers which purchase directly from a producer for resale raw agricultural products sold for ultimate consumption in their original physical form may charge a price in excess of the freeze price for a food item to reflect, on a dollar-for-dollar basis, an allowable cost increase with respect to that food item.

(2) Wholesalers and retailers which purchase directly from a producer for resale raw agricultural products sold for ultimate consumption in their original physical form must decrease the price charged for a food item whenever current cost is less than freeze cost or less than the current cost for the most recent repricing period to reflect, on a dollar-for-dollar basis, the decrease in current costs with respect to that food item.

(3) Whenever a wholesaler of raw agricultural products sold for ultimate consumption in their original physical form increases or decreases a price in accordance with the rule in this paragraph, it must:

(i) State on each invoice to its customers the part of the price charged for each item that is due to allowable cost increases passed through pursuant to the rule of this paragraph and the decreases in the price charged passed through in accordance with the rule of this paragraph, and

(ii) Certify on each invoice to its customers that the part of the price charged for each item which reflects allowable cost increases passed through pursuant to this paragraph is on a dollar-for-dollar basis only and that price decreases, if any, required by this paragraph have been reflected on a dollar-for-dollar basis in the price charged.

(b) *Raw agricultural products purchased for processing.* (1) Food manufacturers and processors which purchase raw agricultural products for processing may charge a price in excess of the freeze price for a processed food item to reflect, on a dollar-for-dollar basis, an allowable cost increase with respect to that food item.

(2) Food manufacturers and processors which purchase raw agricultural products for processing must decrease the price charged for a processed food item whenever current cost is less than freeze cost or less than the current cost for the most recently completed repricing period to reflect, on a dollar-for-dollar basis, the decrease in current costs with respect to that food item.

(3) Whenever a food manufacturer or processor increases or decreases a price in accordance with the rule in this paragraph, it must:

(i) State on each invoice to its customers the part of the price charged for each item that is due to allowable cost increases passed through pursuant to the rule of this paragraph and the decreases in the price charged passed through in accordance with the rule of this paragraph, and

(ii) Certify on each invoice to its customers that the part of the price charged for each item which reflects allowable cost increases passed through pursuant to this paragraph is on a dollar-for-dollar basis only and that price decreases, if any, required by this paragraph have been reflected on a dollar-for-dollar basis in the price charged.

(c) *Food items.* (1) Sellers purchasing for resale food items, whether processed, semi-processed or sold for consumption in their original physical form, may charge a price in excess of the freeze price for a food item to reflect, on a dollar-for-dollar basis, an allowable cost increase with respect to that food item whenever a manufacturer, processor, or wholesaler certifies to the seller on an invoice that the price of the food item concerned has been increased in accordance with the rules in paragraphs (a)(1) or (b)(1) of this section.

(2) Sellers purchasing for resale food items, whether processed, semi-processed or sold for consumption in their original physical form, must decrease a price charged for a food item to reflect, on a dollar-for-dollar basis, a price decrease with respect to that food item whenever a manufacturer, processor or other wholesaler certifies on an invoice that the price of the food item concerned has been decreased in accordance with the rules in paragraphs (a)(2) or (b)(2) of this section.

(3) Whenever a manufacturer, processor or wholesaler of food items increases or decreases a price in accordance with the rule in this paragraph, it must:

(i) State on each invoice to its customers the part of the price charged for each item that is due to allowable cost increases passed through pursuant to the rule of this paragraph and the decreases in the price charged passed through in accordance with the rule of this paragraph, and

(ii) Certify on each invoice to its customers that the part of the price charged for each item which reflects allowable cost increases passed through pursuant to this paragraph is on a dollar-for-dollar basis only and that price decreases, if any, required by this paragraph have been reflected on a dollar-for-dollar basis in the price charged.

(d) *Adjustment for items sold at a loss.* Price adjustments for food items sold at a loss, other than food items or raw agricultural products in inventory or in a manufacturing process as of the effective date of the special rules in this Subpart, are permitted in the following circumstances:

(1) In the case of wholesalers and retailers which purchase directly from a producer for resale raw agricultural products sold for ultimate consumption in their original physical form and manufacturers and processors which purchase raw agricultural products for processing, if the freeze cost exceeds the freeze price of a food item, the seller may charge a price in excess of the freeze price for that food item to reflect on a dollar-for-dollar basis increases in raw agricultural product costs incurred between January 10, 1973 and the freeze cost period with respect to that food item which are not otherwise reflected in the freeze price. However, a price charged pursuant to this subparagraph may not exceed the freeze cost of the food item concerned except to the extent that it reflects allowable cost increases.

(2) In the case of sellers purchasing for resale food items, whether processed, semi-processed or sold for ultimate consumption in their original physical form, if the average cost of a food item purchased during the freeze base period exceeds the freeze price for that item, the seller may charge a price in excess of the freeze price for that food item to reflect on a dollar-for-dollar basis increases in the raw agricultural product costs incurred between January 10, 1973 and the freeze base period with respect to that food item which are not otherwise reflected in the freeze price. However, a price charged pursuant to this subparagraph may not exceed the average cost of the food item during the freeze base period except to the extent that it reflects allowable cost increases.

(3) Any price adjustment made pursuant to this paragraph, when certified on an invoice in the form required by § 140.97, may be passed on to purchasers in the same manner as an allowable cost increase.

(e) *Inventory price adjustments.* (1) Except to the extent permitted in paragraph (e)(2) of this section, all food items or raw agricultural products in inventory or in a manufacturing process as of the effective date of the special rules in this Subpart shall neither be sold at prices higher than freeze prices nor be repriced under the special rules.

(2) If the average cost of a food item in inventory exceeds the freeze price, a seller may charge a price in excess of the freeze price for the food item in inventory to reflect on a dollar-for-dollar basis increases in the raw agricultural product costs incurred between January 10, 1973 and the freeze base period with respect to that food item which are not otherwise reflected in the freeze price. However, a price charged pursuant to this subparagraph may not exceed the average cost of the food item during the freeze base period and may not reflect allowable cost increases.

(3) Any price adjustment made pursuant to this paragraph, when certified on an invoice in the form required by § 140.97, may be passed on to purchasers in the same manner as an allowable cost increase.

(f) *Food service organizations.* (1) Food service organizations purchasing for resale meat items derived from swine and sheep may charge a price in excess of a freeze price for a meat item derived from swine and sheep to reflect, on a dollar-for-dollar basis, a price increase allowable under the special rule in § 130.27(a) of this chapter whenever a firm subject to § 130.57d(e) of this chapter or a wholesaler certifies to the seller on an invoice that the price of the meat item concerned has been increased in accordance with the special rule in § 130.127(a) of this chapter.

(2) Food service organizations purchasing for resale meat items derived from swine and sheep must decrease a price charged for a meat item derived from swine and sheep to reflect, on a dollar-for-dollar basis, a price decrease with respect to a meat item whenever a firm subject to § 130.57d(e) of this chapter or a wholesaler certifies on an invoice that the price of the meat item concerned has been decreased in accordance with the special rule in § 130.127(b) of this chapter.

This Subpart shall remain in effect until 11:59 p.m., e.s.t., September 11, 1973.

§ 140.95 Calculation of per item price adjustment.

(a) *Raw agricultural products sold for consumption in original form.* The price increase or decrease per item of a food item offered for sale by wholesalers and retailers which purchase directly from a producer for resale raw agricultural products sold for ultimate consumption in their original physical form shall be determined by calculating the difference between the freeze cost per item and the current cost per item.

Example:

Freeze cost ..... 15 cents per item
Current cost ..... 13 cents per item
Price decrease to be passed through: 2 cents per item

(b) *Raw agricultural products purchased for processing.* The price increase or decrease per item of processed food items offered for sale by manufacturers and processors which purchase raw agricultural products for processing shall be determined by—

(1) Dividing the freeze cost by the yield during the freeze cost period and the current cost by the yield during the repricing period, and

(2) Calculating the difference between the two quotients.

Example:

Current costs $1.50 = 12½ cents per can
Current yield 12 cans
Freeze costs $1.20 = 12 cents per can
Base yield 10 cans
Price increase which may be passed through: ½ cent per can

(c) *Rounding.* Fractions of .5 cents or more derived from calulations pursuant to this section may be rounded up to the nearest penny and fractions less than .5 cents shall be rounded down to the nearest penny.

V 38 I 138 JUL 19 73 XUM

§ 140.96 Customary business practices.

Food firms must follow their customary business practices for cost allocation and repricing with respect to joint products, by-products, co-products, and waste products. In repricing, the total price increases taken on all processed food items derived from the raw agricultural products entered into processing may not exceed the total allowable cost increase.

§ 140.97 Invoice certification.

A food firm required by § 140.93 to certify an invoice shall use the following form:

This is to certify that the price adjustments specified on this invoice reflect, on a dollar-for-dollar basis, only adjustments in the cost of raw agricultural products and that such price adjustments were properly calculated according to the applicable regulations of the Cost of Living Council.

COMPANY

Position

§ 140.98 Prenotification requirements.

The prenotification requirements of Subpart F of Part 130 of this Chapter, applicable to food firms subject to this Subpart, do not apply to price adjustments made pursuant to this Subpart.

§ 140.99 Recordkeeping requirements.

Each food firm with annual sales or revenues in excess of $50 million derived from sales of food shall maintain comprehensive records on all price adjustments made pursuant to this Subpart. The calculations and supporting data used to determine freeze costs and current costs and certified invoices used to justify price adjustments shall be maintained by the food firm at each pricing center and shall be made available on request to representatives of the Economic Stabilization Program. Records of manufacturers and processors must be sufficiently detailed with respect to cost allocation and repricing of joint products, by-products, co-products and waste products to permit subsequent verification.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

PHASE IV—
CLC issues regulations for construction industry; effective 8–12–73 19461
CLC proposals for principal substantive price and wage controls; comments by 7–31–73 19464

HEALTH SERVICES—CLC continues application of Phase III mandatory controls; effective 7–1–73 19462

YOUTH SERVICES—HEW proposes delinquency prevention grants; comments by 8–20–73 19406

INDIANS AND NATIVE ALASKANS—OEO establishes special programs to foster self-government and economic self-sufficiency 19455

IMPOUNDMENT OF AGENCY FUNDS—OMB notice of report on 1973 budgetary reserves 19581

VETERANS BENEFITS—
VA proposed charges for excessive absences from educational courses; comments by 8–2–73 19417
VA measures accredited law courses by same criteria as graduate resident courses; effective 7–13–73 19370

FARM HOME LOANS—USDA amendment on servicing and liquidation of real estate security; effective 7–20–73 19384

AIR CARRIERS—CAB proposed amendment regarding orally confirmed reservations; comments by 8–20–73 19415

OVER-THE-COUNTER DRUGS—FDA requests data on active ingredients for oral drugs; comments by 9–18–73 19444

NEW ANIMAL DRUGS—
FDA proposal regarding sulfanamide; comments by 9–18–73 19404
FDA withdraws approval of NADA for trilafon tablets; effective 7–30–73 19445

BIOLOGICAL PRODUCTS—FDA issues additional standards for human source plasma; effective 7–20–73 19362

COTTON LOAN PROGRAM—USDA issues rates, premiums and discounts for upland and extra long staple cotton 19381

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 73–CE–5–AD; Amdt. 39–1691]

PART 39—AIRWORTHINESS DIRECTIVES

Beech Airplanes

An Emergency Airworthiness Directive (AD) was issued on June 4, 1973, requiring within 25 hours' time in service modification of the carburetor alternate air valves on Beech Model 23, B23, C23, A23–19, 19A, M19A and B19 airplanes. Subsequent to the issuance of this AD a shortage of modification parts has developed and an accident related to a carburetor alternate air valve failure has occurred. Therefore, in the interest of safety and to provide relief in the form of alternate action to assure safe operation of affected airplanes until adequate parts become available, an Amendment to AD 73–12–11 was adopted July 6, 1973, and made effective immediately by individual letters to all known owners of these airplanes. The Amendment to AD 73–12–11 requires inspection of the valve prior to further flight, except that the airplane may be flown to the inspection location, and extends the time for modification of this valve to 120 days after the effective date of this Emergency Amendment to the AD.

Since it was found that immediate action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making this amendment to AD 73–12–11 effective immediately to the owners of the aforementioned airplanes by individual letter dated July 9, 1973. Since unsafe conditions and need for compliance adjustment may exist on airplanes owned and operated by persons unknown to the FAA, the AD is hereby published in the FEDERAL REGISTER as an Amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective to all persons.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administration 14 CFR 11.89 (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by amending AD 73–12–11 (Amendment 39–1662) to read as follows:

BEECH. Applies to Models 23, B23, and C23 (Serial Numbers M–1 through M–554 and M–1095 through M–1361, except M–3); Sundowner C23 (Serial Numbers M–1362 through M–1420, M–1423, M–1425, M–1430, M–1438, M–1439, M–1442, M–1447 and M–1453 through M–1473); Models A23–19, 19A, M–19A, and B19 (Serials Numbers MB–1 through MB–520); and Sport B19 (Serial Numbers MB–521 through MB–585) airplanes which do not have carburetor alternate air boxes modified in accordance with Beechcraft Service Instructions 0574–241 (installation of Beech P/N 23–9011–1S, 3S or 5S Kits).

Compliance: Required as indicated, unless already accomplished.

To prevent engine power loss caused by ingestion of pieces of failed carburetor air valves, accomplish the following:

A) Prior to further flight, except that the airplane may be ferried to the inspection location and at subsequent intervals not to exceed 25 hours' time in service, inspect the carburetor air box for the following:

1) Wear and looseness between the carburetor alternate air valve and its shaft.

2) Looseness of rivets which hold the valve plates together.

3) Looseness and wear of the cap screws which attach the valve plates to the shaft.

If any of these conditions are found, accomplish Paragraph B below.

B) Within 120 days after the effective date of this AD, remove the existing carburetor air box valve and install Beech P/N 23–9011–1S or 23–9011–3S or 23–9011–5S Kit, as applicable, in accordance with Beechcraft Service Instructions 0574–241, or later FAA-approved revision or any alternate modification approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region. The repetitive inspections specified in Paragraph A may be discontinued when this modification is accomplished.

This amendment becomes effective July 27, 1973, to all persons except those to whom it was made effective by letter dated July 9, 1973.

(Sec. 313(a), 601 and 603) Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421 and 1423; sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Kansas City, Missouri, on July 13, 1973.

JOHN R. WALLS,
Acting Regional Director,
Central Region.

[FR Doc.73–14799 Filed 7–19–73;8:45 am]

[Docket No. 73–SO–52; Amdt. 39–1690]

PART 39—AIRWORTHINESS DIRECTIVES

Piper Airplanes

There have been failures in the fuselage tubing on Piper PA–25–235 airplanes that could result in weakened structure. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require inspection of the fuselage longerons near the wing strut attach fitting and repair, if necessary, on Piper PA–25–235 airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

PIPER. Applies to Model PA–25–235 Airplanes, Serial Numbers 25–02 and 25–2000 through 25–3731 which have not added reinforcement sleeves to the fuselage longerons aft of the wing strut attach fittings as indicated in AD 66–7–6, Piper Service Letter Number 463, or Piper Service Bulletin Number 341.

Compliance required within the next 25 hours time in service after the effective date of this AD unless already accomplished within the last 275 hours time in service, and thereafter at intervals not to exceed 300 hours time in service from the last inspection until repair of longerons as called for in paragraph (c) or the addition of reinforcement sleeves per Piper Service Bulletin Number 341 or FAA approved equivalent. In any event the addition of reinforcement sleeves must be accomplished within 625 hours time in service from the effective date of this AD.

(a) Inspect the left and right $\frac{7}{8}$ inch x 0.035 inch upper longerons, P/N 61001–5, located in the hopper bay, for cracks by dye penetrant technique and a glass of at least 10-power, or by X-ray inspection in accordance with Piper Service Letter Number 463A, dated February 14, 1966, or later FAA approved revision, or by an equivalent approved by the Chief, Engineering and Manufacturing Branch, FAA Southern Region.

Note. If the inspection specified in (a) is accomplished by the dye penetrant technique, which requires removal of the hopper tank, particular attention should be given to the area of the forward hopper attachment fittings.

(b) If cracks are found during the inspection required by (a), inspect the right and left $\frac{3}{4}$ inch x 0.035 inch upper longerons, P/Ns 64001–13 and –14, located in the fuel bay, for cracks by dye penetrant technique and a glass of at least 10 power.

(c) Repair longerons with cracks aft of the wing lift strut fitting in accordance with Piper Service Letter Number 463, dated November 12, 1965, or later FAA approved revision, or an FAA approved equivalent. Repair longerons with cracks forward of the

V38-139 JUL 20 73 XUM

wing lift strut fitting in an FAA approved manner.

This amendment becomes effective July 27, 1973, and supersedes AD 66-7-6.

(Secs. 313(a), 601, and 603 Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, and 1423; Sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Georgia on July 13, 1973.

P. M. SWATEK,
Director, Southern Region.

[FR Doc.73-14874 Filed 7-19-73;8:45 am]

[Airspace Docket No. 73-CE-11]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Sioux City, Iowa, transition area.

The instrument approach procedure for Graham Field Airport, Sioux City, Iowa, has been canceled. Therefore there is no requirement to maintain the transition area associated with the procedure. Accordingly, the Sioux City, Iowa, transition area description is being altered to delete that portion of the designated airspace which was associated with the instrument approach.

Since this alteration is relaxatory in nature and is in the interest of safety, compliance with the notice and public procedure provisions of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t., October 11, 1973 as hereinafter set forth:

In Section 71.181 (38 FR 435), the following transition area is amended to read:

SIOUX CITY, IOWA

That airspace extending upward from 700 feet above the surface within an 11-mile radius of Sioux City Municipal Airport (latitude 42°24'03" N., longitude 96°22'55" W.); within 5 miles southwest and 9½ miles northeast of the Sioux City VORTAC 140° radial, extending from the 11-mile radius area to 24½ miles southeast of the VORTAC; within 4½ miles southwest and 9½ miles northeast of the Sioux City ILS localizer northwest and southeast courses, extending from the 11-mile radius area to 24½ miles southeast of the OM; within 4½ miles northeast and 11½ miles southwest of the Sioux City VORTAC 320° radial, extending from the VORTAC to 35 miles northwest of the VORTAC; that airspace extending upward from 1,200 feet above the surface within a 28½ mile radius of Sioux City VORTAC; and that airspace extending upward from 3,500 feet MSL east, south, and west of Sioux City bounded on the north by V-100, on the southeast by V-138, on the south by V-172 and on the west by longtitude 98°00'00" W.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Kansas City, Missouri, on May 7, 1973.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc.73-14875 Filed 7-19-73;8:45 am]

[Airspace Docket No. 73-SW-32]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate a 700-foot transition area at Stratford, Tex.

On June 6, 1973, a notice of proposed rule making was published in the FEDERAL REGISTER (38 FR 14865) stating the Federal Aviation Administration proposed to designate a transition area at Stratford, Tex.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 g.m.t., September 13, 1973, as hereinafter set forth.

In § 71.181 (38 FR 435), the following transition area is added:

STRATFORD, TEX.

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Stratford Field (latitude 36°21'32" N., longitude 102°02'55" W.).

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; Sec. 6(c), Department of Transportation Act; 49 U.S.C. 1655(c).)

Issued in Fort Worth, Texas, on July 12, 1973.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.73-14876 Filed 7-19-73;8:45 am]

[Airspace Docket No. 73-WA-32]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Revocation of VOR Federal Airway

On April 17, 1973, an amendment was published in the FEDERAL REGISTER (38 FR 9488) effective June 21, 1973, that the Federal Aviation Administration (FAA) would modify several VOR Federal Airways in the Houston, Tex., terminal area and revoke those not normally used. While amending the description of V-222, the FAA inadvertently omitted including the revocation of V-222N between Humble, Tex., and Lake Charles, La., this airway is codesignated in part with V-13E, V-306S, V-306 and V-20N. This amendment will reduce chart clutter and improve flight planing. Action is taken herein to revoke V-222N.

Since amending the description of this airway is minor in nature with no substantive change in the regulations, notice and public procedure thereon are unnecessary and good cause exists for making this amendment effective on less than 30-days notice.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective July 20, 1973, as hereinafter set forth.

Section 71.123 (38 FR 307 and 9488) is amended as follows:

In V-222 "Lake Charles, La., including a north alternate from Humble to Lake Charles via Daisetta, TX.; McComb, MS.; Hattiesburg, MS.;" is deleted and "Lake Charles, La.; McComb, Miss.; Hattiesburg, Miss.;" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on July 16, 1973.

CLAUDE FEATHERSTONE,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-14879 Filed 7-19-73;8:45 am]

[Airspace Docket No. 73-NW-15]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Transition Area

On May 25, 1973, a notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 13748) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the North Bend, Oreg. Transition Area.

Interested persons were given thirty days in which to submit written comments. No objections to the proposed amendment were received.

In consideration of the foregoing, the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 G.m.t. September 13, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Seattle, Washington on July 12, 1973.

C. B WALK, JR.,
Director, Northwest Region.

In § 71.181 (38 FR 435) as amended (38 FR 5341), the description of the North Bend, Oreg., transition area is further amended to read as follows:

NORTH BEND, OREG.

That airspace extending upward from 700 ft above the surface within 2 miles each side of the North Bend VORTAC 004° radial, extending from the VORTAC to 6 miles north of the VORTAC; within a 13-mile-radius arc of the North Bend VORTAC extending clockwise from the 004° radial to 130° radial; within 2 miles each side of the North Bend VORTAC 182° radial, extending from the VORTAC to 5 miles south of the VORTAC; within 2 miles south and 6.5 miles north of the VORTAC 241° radial, extending from the VORTAC to 17 miles southwest; that airspace extending upward from 1,200 ft above the surface within a 22-mile-radius arc of the North Bend VORTAC extending clockwise from the west edge of V-27, south of the VORTAC, to the west edge of V-287, north of the VORTAC; within 2.5 miles southeast and 11.5 miles northwest of the North Bend VORTAC 241° radial extending from the VORTAC to 25.5 miles southwest.

[FR Doc.73-14880 Filed 7-19-73;8:45 am]

[Airspace Docket No. 73-SO-16]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On March 22, 1973, a notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 7469), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Cookeville, Tenn,. transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 g.m.t., September 13, 1973, as hereinafter set forth.

In § 71.181 (38 FR 435), the following transition area is added:

COOKEVILLE, TENN.

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Putnam County Airport (Latitude 36°11'45" N, Longitude 85°29'15" W); within 3 miles each side of the 331° bearing from Cookeville RBN (Latitude 36°11'34" N, Longitude 85°29'04" W), extending from the 6.5 mile radius area to 8.5 miles northwest of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1438(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 12, 1973.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.73-14878 Filed 4-19-73;8:45 am]

[Airspace Docket No. 73-RM-20]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On June 1, 1973, a notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 15367) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate a transition area at Rugby, North Dakota.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. No objections have been received and the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 G.m.t., September 13, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Aurora, Colorado, on July 11, 1973.

M. M. MARTIN,
Director, Rocky Mountain Region.

In § 71.181 (38 FR 569) add the following transition area:

RUGBY, N. DAK.

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of the Rugby Municipal Airport (latitude 48°23'15" N., longitude 100°01'15" W.).

That airspace extending upward from 1,200 feet above the surface within a 12-mile radius of the Rugby Municipal Airport and within 9.5 miles north and 4.5 miles south of the 114° bearing from the Rugby, N. Dak., NDB (latitude 48°23'25" N., longitude 100°01'30" W.); extending from the NDB to 18.5 miles east of the NDB.

[FR Doc.73-14877 Filed 7-19-73;8:45 am]

Title 19—Customs Duties

CHAPTER I—BUREAU OF CUSTOMS, DEPARTMENT OF THE TREASURY

[T.D. 73-197]

PART 25—CUSTOMS BONDS

Changes In Certain Customs Term Bonds

There was published in the FEDERAL REGISTER on April 27, 1972 (37 FR 8452), a notice of proposed rulemaking to amend Part 25 of the Customs Regulations by adding a new § 25.2 and by amending subparagraphs (16), (19), and (25) of § 25.4(a). These amendments are necessary to permit the establishment of an Automated Bond Information System in order to facilitate the processing of term bonds, to relieve the principals on such bonds (where two or more ports of entry are involved) of the burden of furnishing copies of those bonds for all ports of entry covered thereby, and to provide Customs officers with current information regarding bonds and the charges that have been placed against such bonds.

The amendments will initiate this system with the automation of the following bonds:

1. Customs Form 7553—Immediate Delivery and Consumption Entry Bond (Term).
2. Customs Form 7563-A—Bond for Temporary Importations (Term).
3. Customs Form 7569—Vessel, Vehicle, or Aircraft Bond (Term).
4. Customs Form 7595—General Term Bond for Entry of Merchandise.
5. Customs Form 7599—Bond for Use in Connection with Requests for Overtime Services Made by or on Behalf of Parties in Interest (Term).

Under the present procedure the bond principal identifies on each of the abovementioned bonds the ports of entry (including Customs stations and places of Customs preclearance) at which the bond may be used. Under the new procedure, except for Customs Form 7553, which, as now, will cover entries only at a single port, the bond will be valid at all ports of entry (including Customs stations and places of Customs preclearance) at which transactions covered by the bond may be affected.

Present law (6 U.S.C. 7) requires that a surety company appoint an agent on a Federal bond for the service of process in each judicial district in which he does business. Many of the surety companies which hold certificates of authority as acceptable sureties on Federal bonds do not have agents for the service of process in each judicial district of the United States. In these circumstances, in order that no such surety company be prevented from writing the four types of Customs bonds which will be valid at all ports of entry, Customs Forms 7563-A 7569, 7595, and 7599 will be amended when the automated system is instituted to include in each bond the condition that the surety agrees to accept service of process on the Clerk of the United States District Court in the judicial district where any entries thereunder are made in which it has failed to appoint an agent.

In order that bond data may be automated, a form of Bond Transcript identified as Customs Form 53 will be required to be completed and filed with each of the above-mentioned bonds. The adopted form of Bond Transcript is as follows:

BOND TRANSCRIPT

Principal's name on bond:

1. Principal's importer No.: _____
2. Type of bond (Customs Form No.): ___
3. Bond amount (dollars only): _____
4. Bond expiration date (MM/DD/YY): _____
5. Surety No.: _____
6. Surety's bond No. (optional) _____
7. Name and Soc. Sec. No. of corporate surety agent: _____
8A. District/Port location where bond filed: _____
8B. District/Port code where bond filed: _____
Dist. Port
9. Termination (complete sections 1 thru 9):

☐ Check here to apply for termination of a bond currently on file. Submit signed request, properly documented to district director where bond was filed. Show requested date of termination (MM/DD/YY) _____

10. List below all additional names on the bond of principals, and those under which the principals do business as, including their importer number(s) and suffix.

Importer name	Number

(Customs Use Only)

11. Riders. Show code(s) of riders(s), where applicable, attached to the bond.

__ No riders
Bond includes following riders: ☐☐☐☐☐
Certification by Customs:

Approved by _____ District _____

THE DEPARTMENT OF THE TREASURY
BUREAU OF CUSTOMS

To insure that the information with respect to each bond covered by these amendments is sent by the district director of Customs to the Customs Data

V 38 139 JUL 20 73 XUM

Center, Silver Spring, Maryland, and disseminated by computer printout to all ports of entry before the bond becomes effective, it is necessary to require that the bond and bond transcript be filed with the district director of Customs at least 60 days prior to the date on which the bond is to become effective. This requirement for 60-day advance filing would also apply to requests for premature termination of bonds.

Under the present regulations the Temporary Importation Bond (Term) may be furnished in an amount as low as $1,000, if it is given to cover the entry of merchandise at only one port, and in a minimum of $10,000 when the bond is to cover importations at more than one port. Since the Temporary Importation Bond (Term) under the automated procedure will be valid at all ports of entry, the minimum amount of the bond under these amendments is $10,000.

Interested persons were given 30 days to submit comments in regard to the proposed amendments as they appeared in the FEDERAL REGISTER on April 27, 1972 (37 FR 8452). Comments submitted have been considered. Clarifying editorial changes have been made to the proposed amendments and the bond transcript. A sentence has been added to § 25.2(b) providing that where the surety company requests the termination of a subject bond without the consent of the principal, the termination shall take effect on the 60th day after approval by the district director.

Accordingly, the amendments to Part 25 of the Customs Regulations, Chapter I, Title 19 of the Code of Federal Regulations, are hereby adopted as set forth below:

Part 25 is amended to add § 25.2 as follows:

§ 25.2 **Bond transcript.**

(a) There shall be furnished to the district director with each bond on Customs Forms 7553, 7563–A, 7569, 7595, and 7599 a completed Bond Transcript on Customs Form 53, in triplicate. The bond and bond transcript shall be furnished at least 60 days before the date on which the bond shows it is to become effective. It shall be the responsibility of the importer or his agent to execute the bond transcript.

(b) Each request to terminate a bond of a type named in paragraph (a) of this section prior to the expiration date of the bond shall be filed with the district director of Customs in whose office the bond was approved. The request must be accompanied by a completed Customs Form 53, in triplicate, appropriately marked to terminate an existing bond. When a new bond is submitted to replace an existing bond, two bond transcripts must be furnished. One must be submitted to initiate the new bond as required by paragraph (a) of this section; the other must be submitted to terminate the existing bond as required by this paragraph. The termination shall take effect on the date requested, if the request and a bond transcript are filed at least 60 days in advance of the requested date. If they are not so filed, the termination shall take effect on the 60th day after receipt by the district director. When termination of a bond is requested by the surety without the consent of the principal it shall take effect on the 60th day after approval by the district director. When a new bond cannot be initiated because the Customs Form 53, as required by paragraph (a) of this section, is incorrect, any accompanying Customs Form 53 for termination of an existing bond shall not take effect until such time as both transcripts can take effect.

Paragraph (a) (16), (19), (25) of § 25.4 is amended as follows:

§ 25.4 **Bond approved by the district director; form and execution.**

(a) The following bonds shall be approved by the district director and remain on file in his office, except Customs Form 4615, which shall be transmitted to the United States attorney:

* * * * *

(16) Term bond for temporary importations, Customs Form 7563–A, in the amount of $10,000, or such larger amount as may be fixed by the district director at the port where the bond is filed.

* * * * *

(19) Vessel, vehicle, or aircraft term bond, Customs Form 7569, in the amount of $10,000, or such larger amount as may be fixed by the district director at the port where the bond is filed.

* * * * *

(25) General term bond for the entry of merchandise, Customs Form 7595, in the amount of $100,000, or such larger amount as may be fixed by the district director at the port where the bond will be filed. A principal desiring to execute this form of bond shall file with the district director an application for permission to file the bond. The application shall show the general character of the merchandise to be entered and the total amount of ordinary Customs duties (including any taxes required by law to be treated as duties) accruing on all merchandise imported by the principal during the calendar year preceding the date of the application, plus the estimated amount of any other tax or taxes on the merchandise collectible by the district director. Such total amount of duties and taxes shall be that which would have been required to be deposited had the merchandise been entered for consumption, even though some or all of the merchandise may have been entered under bond. If no imports were made during the calendar year prior to the application, a statement of the duties and taxes it is estimated will accrue on all importations during the current year shall be submitted.

* * * * *

(Secs. 623, 624, 46 Stat. 759, as amended; 19 U.S.C. 1623, 1624)

In order to implement these amendments, bonds given on Customs Forms 7563–A, 7569, 7595, and 7599 are amended to include the following condition:

In the event the above-bounden surety has not appointed an agent for the service of process, in accordance with section 7, title 6, United States Code, in the judicial district where an entry is made, or a charge incurred, the above-bounden surety consents to service of process upon the Clerk of the United States District Court wherein any suit is brought upon this bond by the United States of America, with like effect as upon an agent appointed by the company. Such clerk shall provide notice of service of process to the surety at ----------
Mailing address requested by surety

The cited bond forms are also amended to delete the requirement that the principal identify the ports of entry at which the bonds may be used. Existing supplies of these bonds, when appropriately amended, may be used under the automated system until December 31, 1974.

Effective date. These amendments shall be effective as to all subject bonds which will begin their terms 180 days or longer after publication in the FEDERAL REGISTER. Bonds shall not be submitted hereunder on or before October 18, 1973.

[SEAL] G. R. DICKERSON,
Acting Commissioner of Customs.

Approved: June 15, 1973.

JAMES B. CLAWSON,
Acting Assistant Secretary of the Treasury.

[FR Doc.73-14963 Filed 7-19-73;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 273—BIOLOGICAL PRODUCTS

Additional Standards for Source Plasma (Human) Used in Preparation of Blood Derivatives Intended for Injection

In the FEDERAL REGISTER of August 26, 1972 (37 FR 17419) the Commissioner of Food and Drugs proposed to apply section 351 of the Public Health Service Act to the collection and manufacturing by plasmapheresis of plasma to be used in the preparation of products made by fractionation. Additional standards for a product defined as Source Plasma (Human) were proposed. Interested persons were afforded 60 days to comment on the proposals.

Forty-eight comments were received from persons, firms or organizations. The majority of comments received were thoughtful and constructive and have been incorporated into the final order. Due to the numerous changes, new sections have been added to the proposal and the numbering of other proposed sections has been changed. The comments are discussed below on a section-by-section basis, with reference to the section numbers as they appear in the final order.

1. Many comments objected to the proposed requirement, under § 273.505 *Temperature during shipment*, that all Source Plasma (Human) be shipped at −20°C, or colder. The Commissioner recognizes the problems of shipping at such a low temperature and has concluded that a slightly higher shipping temperature will not compromise the integrity of the product during shipment. Accordingly, the final regulations require that Source Plasma (Human) be shipped at −5°C. or colder. This revision of shipping temperature does not affect the requirement that, immediately after filling, Source Plasma (Human) be stored at −20°C. or colder (§§ 273.3109(b) and 273.3109 (e)(6)). A new section has also been developed with respect to liquid plasma (§ 273.3110), for which different shipping and storage temperatures are required.

2. The majority of the comments objected to the proposed one year dating period under § 273.870 *Dating periods for specific products.* Section 273.101(m) defines a dating period as the period "beyond which the product cannot be expected beyond reasonable doubt to yield its specific results." Since plasma will yield albumin and globulin even after an indefinite period of time, the Commissioner has concluded that, in lieu of a specific expiration date under § 273.870, it is necessary only that the collection date of the plasma appear on the label pursuant to § 273.3109(e)(4).

3. Comments suggested that the definition of Source Plasma (Human) under § 273.3100 *Proper name and definition* be clarified since, as proposed, the definition might include blood grouping and typing serums inasmuch as they are produced by a form of "fractionation", which term was a specific part of the proposed definition. In order to eliminate any confusion resulting from a generalized definition of the term "fractionation", the definition of Source Plasma (Human) has been revised, and now refers to the final product as "blood derivatives * * * intended for injection" rather than "fractionation" products. Since blood grouping and typing serums are not intended for injection, they are clearly excluded from the definition of Source Plasma (Human). Moreover, since the definition refers only to blood derivatives from pooled plasma "separable by chemical means", this would exclude platelets, single donor plasma, cryoprecipitated antihemophilic factor, etc., which are prepared by physical or mechanical means from single units of blood.

4. Some concern was expressed that there was no specific provision to ensure that a donor gives his or her informed consent prior to the commencement of the plasmapheresis procedure. In view of this concern, on March 8, 1973, the Bureau of Biologics reconvened the advisory committee of the Division of Medical Sciences, National Academy of Sciences—National Research Council, which had met in 1969 to consider safeguards for plasma donors in plasmapheresis programs. After consideration of the views of the advisory committee, the Commissioner has determined that a specific provision should be added to ensure that informed and intelligent consent of each donor is obtained. Accordingly, § 273.3101 *Informed consent* has been included in the final order.

Similarly, concern was expressed that the entire plasmapheresis procedure be performed under qualified medical supervision (§ 273.3102 *Medical supervision*). The final regulation provides that each significant step in the procedure—determination of suitability (§ 273.3103), collection (§ 273.3104), plasmapheresis (§ 273.3105), and immunization (§ 273.3106)—shall be conducted under the supervision of a qualified licensed physician. To assure direct participation of qualified physicians in the care of the donor population, a separate section has been added requiring that a qualified, licensed physician be present, on the premises, where these procedures are undertaken.

5. Many comments suggested that a prohibition against collecting plasma from a person who appeared to be under the influence of drugs, as well as alcohol, should be included in the provision governing donor suitability. One comment also pointed out that a history of malaria should not be a cause for rejecting a donor for Source Plasma (Human). In this connection, it should be stressed that malaria is transmitted only by the cellular elements of blood, rather than by the plasma. Inasmuch as plasmapheresis involves the collection of the plasma portion and the subsequent return of the cellular material to the donor, there is therefore no possibility that a recipient of a product derived from Source Plasma (Human) could contract malaria from the plasma of a donor who may have had malaria.

The Commissioner concurs with these comments and the section has been revised accordingly under § 273.3103 *Suitability of donor.* In addition, this section has been reorganized to include requirements which were included under the "Plasmapheresis" section of the proposed regulations.

6. With reference to the standards governing plasma collection many comments indicated that heparin should not be excluded as an anticoagulant, although no reasons were offered except with respect to certain diagnostic products which are not included in derivatives prepared from Source Plasma (Human). The Commissioner questions the safety of using heparin as an anticoagulant for plasmapheresis, due to the necessity for repeated injections of heparin into the donor. In view of the large number of other anticoagulants available, the regulations under § 273.3104 *Collection of blood for Source Plasma (Human)* will continue to prohibit the utilization of heparin until such time as substantial data is received to support its use. In addition, because of its disuse, ACD anticoagulant solution B has been omitted from the final regulations and is not a permissible anticoagulant for use in Source Plasma (Human).

7. Several comments objected to including as part of the definition of plasmapheresis, under § 273.3105 *Plasmapheresis*, that the "formed elements [are] returned to the donor", as such definition would preclude the use of plasmapheresis for the manufacture of platelet concentrates and white cells. It is not the intention of the Commissioner to establish a generic definition for the term "plasmapheresis". Rather, the Commissioner has described the collection procedure for the particular blood product subject to these licensing regulations. Since the collection of Source Plasma (Human) by plasmapheresis is not for the purpose of manufacturing platelet concentrates and white cells, no change in the description of plasmapheresis, as set out in § 273.3105, is necessary.

Several comments indicated a misunderstanding concerning the provisions for determining the health of a plasmapheresis donor. Two separate sections are involved. Pursuant to § 273.3103, the suitability of a donor is established, on the day of each collection, by medical history, appropriate tests, and such further physical examination of the prospective donor as appears necessary. Pursuant to § 273.3105, continuing periodic health determinations of donors participating in plasmapheresis programs are made by review and evaluation of tests for syphilis and immunoglobulins which are conducted on blood samples drawn from the donor "on the day of the first plasmapheresis and every four months thereafter". This initial analysis and subsequent periodic monitoring of blood samples, conducted pursuant to § 273.3105, must be reviewed by a qualified licensed physician; the medical history and appropriate testing of a prospective donor to determine suitability on the day of collection, conducted pursuant to § 273.3103, may be performed by a licensed physician or by trained persons under his supervision.

Some comments expressed the opinion that a serologic test for syphilis need not be performed prior to each donation. The Commissioner agrees. However, in order to assure that Source Plasma (Human) is collected from healthy donors, the Commissioner has required periodic testing of a sample of the donor's blood. Where the serum of the donor is reactive to a serologic test for syphilis, the donor may not participate in the plasmapheresis program until this test is nonreactive.

Many comments stated that the proposed limits on the volume of blood to be removed from a donor during any 48-hour period and within any seven-day period were too small. Others expressed concern that the permitted volume was too large for long-term plasmapheresis.

Discussions of the volume limits were held with the advisory committee concerning safeguards for plasma donors, and with representatives of the plasma collection and fractionation industries. Data documenting experience with removal of larger volumes of blood has been submitted by a number of manufacturers. Based upon these discussions and the submitted data, the Commissioner has concluded that the amount of blood, not including anticoagulant, removed from a donor shall not exceed 1,000 milliliters in any 48-hour period or

V 38-139 JUL 20 73 XUM

2,000 milliliters in any seven-day period, unless the donor's weight is 175 pounds or greater, in which case the amount of blood, not including anticoagulant, removed from a donor shall not exceed 1,200 milliliters in any 48-hour period or 2,400 milliliters in any seven-day period. A licensed manufacturer may apply for permission to remove a larger volume over a 48-hour period, or in a seven-day period, by submitting substantial scientific evidence demonstrating that repeated plasmapheresis of a larger volume has no injurious short or long term effects upon a donor's health, which evidence will be reviewed by the Food and Drug Administration.

Other comments suggested that removal limits should be expressed in grams of plasma rather than milliliters of blood. The Commissioner has concluded that regulation of the amount of blood, rather than the amount of plasma, removed from a donor furnishes a better means of protecting the donor and therefore these comments have been rejected.

Several comments suggested that the final order include procedures to be followed in the event that the red cells are not returned to the donor during plasmapheresis, as well as requiring a specified waiting period between the donation of a unit of whole blood and a plasmapheresis donation. Since a donor must be tested for hemoglobin and total protein level before each donation, no additional regulations are necessary; the established tests are sufficient to determine when a donor is able to donate.

Several comments were received requesting that the requirements for returning blood cells to the donor after plasmapheresis be emphasized, although these comments acknowledged that even the best plasmapheresis procedure would return to the donor something less than all the red blood cells. The Commissioner concurs and therefore the regulation has been revised to more clearly indicate that the maximum feasible volume of red blood cells must be returned to the donor before another unit of blood is collected.

8. Comments were received requesting clarification as to whether both selection and administration of antigen in a donor immunization procedure must be performed by the same licensed physician and whether either or both procedures may be performed by trained persons under the physician's supervision rather than directly by the physician. The regulations have been clarified under § 273.-3106 *Immunization of donors* to indicate that both the selection and administration of an antigen need not be performed by the same licensed physician and that the administration may be performed under the supervision of a licensed physician. The selection of the proper antigen and the clinical evaluation of the donor's response must however, be performed by a licensed physician.

Several comments suggested that the detailed procedures for using immunizing antigens more properly belonged at the establishment which manufactures the final product, rather than with the Source Plasma (Human) manufacturer. The Commissioner has no objections to these procedures being a part of the records of the manufacturer of the final product. However, a complete copy of all immunization procedures must be available at the location where the plasmapheresis is being performed. Access to the written procedures at the place of administration is helpful, and may indeed be necessary, for those administering the antigen, particularly if several different immunization schedules and doses are required. It is common sense that procedures must be immediately available at the place where they are to be implemented. In addition, their availability at the place of manufacture would greatly facilitate statutory inspections to determine if immunization procedures were being conducted as approved in an application. The section has been revised to clarify these points.

9. Some comments requested clarification as to whether the *Test for hepatitis B antigen* as well as other tests required by the regulations, could be performed on plasma rather than on whole blood, as the proposed regulations may have appeared to indicate. The Commissioner intended that this test be performed on the plasma and the final order, § 273.3107, has been clarified accordingly.

The Commissioner does not agree with those comments suggesting that the hepatitis B antigen test need be performed only by the manufacturer of the final product. Since Source Plasma (Human) is a licensed product that may be freely shipped, it must be fully tested and labeled prior to leaving the manufacturer.

Many comments also suggest that it is not necessary to perform the serologic test for syphilis on each unit of Source Plasma (Human). The Commissioner concurs and has, accordingly, revised this section to require that each unit of Source Plasma (Human) be tested for the hepatitis B antigen only.

10. One comment expressed the opinion that Source Plasma (Human) need not be sterile. The final regulations, in § 273.3108 *Processing*, do not specify that the product shall be sterile, but require that all surfaces that come into contact with the plasma shall be sterile and pyrogen free and that final containers used for Source Plasma (Human) not interact with the product in any way so as to adversely affect the safety, quality, purity or potency of the plasma.

Several comments indicated that the appropriate requirement for the plasma containers is that they should be "translucent" rather than "transparent" as required in the proposed regulations. The "final containers" subsection has been revised to require that final containers be uncolored and hermetically sealed, and that the material of which the final container is made permit clear visibility of the contents.

One comment objected to the prohibition against the use of a preservative for plasma intended for blood grouping and typing serums. Since Source Plasma (Human) is not intended for such use, the comment is not applicable.

11. *General requirements under § 273.3109.* a. *Pooling.* Several comments disagreed with the proposed restrictions against pooling by the manufacturer of Source Plasma (Human) on the ground that the plasma will subsequently be pooled by the manufacturer of the final product. Since the proposed pooling restriction reduces bacterial and viral contamination and permits better monitoring of the source plasma product, the Commissioner finds that the restriction on pooling should be retained. The restriction against pooling by the manufacturer of the Source Plasma (Human) allows the manufacturer of the final product to pool as is best suited to the characteristics of the final product to be manufactured.

b. *Storage.* Many comments objected to the requirement of −20° C. as the storage temperature for all Source Plasma (Human). Since the dating period for Source Plasma (Human) (§ 273.870) is being changed to an unlimited period, the Commissioner believes that in order to assure its safety, quality, purity, and potency, all plasma should be stored by the plasma manufacturer, and by the manufacturer of the final product, at −20° C. or colder.

c. *Inspection.* Several comments expressed the view that inspection of Source Plasma (Human) both immediately after filling and just prior to issuance was not necessary. Since the product is to be frozen immediately after filling and remain frozen until issuance, the Commissioner agrees that one inspection of the frozen product just prior to issuance is adequate to assure that there is no evidence of thawing.

d. *Pilot samples.* Many comments objected to the provision that a pilot tube must be provided with each unit of Source Plasma (Human), requesting that, since such procedure is unnecessary, such a provision be optional. The Commissioner agrees, and this subsection has been revised accordingly.

e. *Labeling.* Several comments suggested that the proposed requirement of conformity with other labeling provisions of Part 273 should be deleted since many of these requirements are not applicable to Source Plasma (Human). This comment has been accepted and the labeling section has been revised to itemize specific requirements for Source Plasma (Human), except that the requirements of § 273.602 will be applicable.

Other comments suggested that some of the required labeling information (volume and hepatitis test results) could be supplied in documents shipped with the plasma to the manufacturer of the final product. Since Source Plasma (Human) is a licensed product, each unit must be fully labeled when it is issued from the manufacturer. Thus, this suggestion is unacceptable. In addition, since all or part of any shipment may be shipped to a third party, each unit must contain all the required information.

f. *Manufacturing responsibility.* Many comments suggested that the test for hepatitis B antigen be permitted to be performed by a clinical laboratory licensed under section 353 of the Public Health Service Act. The Commissioner agrees, and such a provision has been added to this subsection. This test, as well as approved testing for immunoglobulin, may also be conducted by an establishment licensed for blood or blood derivatives under section 351 of the act.

12. In response to several comments that certain products could best be produced from liquid plasma, § 273.3110 *Modification of Source Plasma (Human)* has been added to provide for the collection and manufacture of a liquid Source Plasma (Human). This section sets forth the requirements for manufacturing a liquid product.

General Comments

Several comments inquired whether the licensing of Source Plasma (Human) would prohibit the use of plasma from Whole Blood (Human) as a source material for the manufacturing of blood derivatives. These new licensing provisions apply only to Source Plasma (Human) intended as a source material for further manufacture into blood derivatives intended for injection. Other source materials, such as recovered plasma from Whole Blood (Human), are not affected by these provisions. Such outdated or indated plasma (recovered plasma) from Whole Blood (Human) may continue to be supplied to manufacturers of blood derivatives under the short supply provisions of § 273.240.

The Commissioner does intend however, to promulgate regulations defining the source material to be used in the manufacture of blood derivatives, and also to establish at what point manufacturing begins for blood derivatives. At that time there will be two regulated sources of plasma for the manufacture of blood derivatives: Source Plasma (Human), and recovered plasma. Source Plasma (Human) production is regulated by licensing under section 351 of the Public Health Service Act in conformity with §§ 273.3100 through 273.3110. Recovered plasma production will be regulated by registration under section 510 of the Federal Food, Drug, and Cosmetic Act, in conformity with § 273.237 of the regulations.

Some comments expressed concern that the licensing of Source Plasma (Human) would pre-empt State and local laws governing plasmapheresis. These regulations are not intended to usurp the powers of State or local authorities to regulate plasmapheresis procedures in their localities. Rather, the intention is to assure the safety, purity, and potency of this biological product when it is shipped in interstate commerce pursuant to section 351 of the Public Health Service Act.

Several comments inquired as to whether a Source Plasma (Human) establishment would be required to obtain an establishment and product license if it is owned and operated by a manufacturer licensed to produce blood derivatives. If the Source Plasma (Human) establishment is in an operating unit of the same corporation as the licensed manufacturer of blood derivatives, it is not required to obtain an establishment license. The licensed manufacturer, however, must obtain a separate amendment to its establishment license to include the plasmapheresis location, and also must obtain a product license for Source Plasma (Human). If, however, the Source Plasma (Human) establishment is a different corporation than the licensed manufacturer it supplies, the Source Plasma (Human) manufacturer must obtain both an establishment and a product license for Source Plasma (Human).

All provisions of these regulations, with the exception of the volume limitations of § 273.3105(b) (4), (5) and (6), are effective 120 days after publication in the Federal Register. All establishments seeking a license for Source Plasma (Human) must submit license applications during this period, and bring their operations into compliance with the requirements of these regulations, inasmuch as a licensure involves a demonstration by an applicant that the product sought to be licensed and can and has been manufactured in full compliance with all regulatory requirements. Within 30 days of publication in the Federal Register, however, all manufacturers shipping Source Plasma (Human) in interstate commerce must comply with the volume limitations of § 273.3105(b) (4), (5) and (6), inasmuch as the Commissioner has determined that a substantial public health hazard is presented by the continued plasmapheresis of unrestricted amounts from donors. Finally, establishments which submit license applications or amendments on or before November 19, 1973, and which are in compliance with the requirements of these additional standards, may ship Source Plasma (Human) in interstate commerce until such time as final action has been taken with respect to approval or denial of their license application, provided that the short supply provisions of § 273.240 are fully complied with.

All plasma used in preparing blood derivative products for injection into man must be prepared at establishments which are registered under § 273.237 pursuant to section 510 of the Federal Food, Drug, and Cosmetic Act.

Therefore, pursuant to provisions of the Public Health Service Act (sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262), and under authority delegated to the Commissioner (21 CFR 2.120), Part 273 is amended as follows:

§ 273.503 [Amended]

1. In § 273.503, by adding immediately after the words "Single Donor Plasma (Human)," the words "Source Plasma (Human),"

2. In § 273.505, by adding alphabetically an additional temperature listing as follows:

§ 273.505 Temperature during shipment.

Product	Temperature
Source Plasma (Human)	−5° C or colder

§ 273.730 [Amended]

3. In § 273.730, by adding in subparagraph (g)(4) immediately following the words "Single Donor Plasma (Human)," the words "Source Plasma (Human),".

§ 273.740 [Amended]

4. In § 273.740(b), by adding immediately after the words "Single Donor Plasma (Human);" the words "Source Plasma (Human);".

5. In § 273.870, by adding "Source Plasma (Human)" alphabetically to the list of dating periods, as follows:

§ 273.870 Dating periods for specific products.

Source Plasma (Human).	In lieu of an expiration date, the collection date shall appear on the label, as prescribed in § 273.3109(e)(4)

6. In Subpart D, by adding a new center heading and group of sections to read as follows:

Source Plasma (Human)

§ 273.3100 Proper name and definition.

The proper name of this product shall be Source Plasma (Human). The product is defined as the fluid portion of human blood which has been stabilized against clotting, collected by plasmapheresis, and is intended as source material for further manufacture into blood derivatives (a portion of pooled plasma separable by chemical means) intended for injection.

§ 273.3101 Informed consent.

The written consent of a prospective donor shall be obtained after a qualified licensed physician has explained the hazards of the procedure to the prospective donor. The explanation shall include the risks of a hemolytic transfusion reaction if he is given the cells of another donor, and the hazards involved if he is hyperimmunized. The explanation shall consist of such disclosure and be made in such a manner that intelligent and informed consent be given and that a clear opportunity to refuse is presented.

§ 273.3102 Medical supervision.

A qualified licensed physician shall be on the premises when donor suitability is being determined, immunizations are being made, whole blood is being collected, and red blood cells are being returned to the donor.

§ 273.3103 Suitability of donor.

(a) *Method of determining.* The suitability of a donor for Source Plasma

V 38 139 JUL 20 73 XUM

(Human) shall be determined by a qualified licensed physician or by persons under his supervision and trained in determining donor suitability. Such determination shall be made on the day of collection from the donor by means of a medical history, tests, and such physical examination as appears necessary to the qualified licensed physician.

(b) *Initial medical examination.* Each donor shall be examined by a qualified licensed physician on the day of the first donation, or no more than one week prior to the first donation, and shall be certified to be in good health by the examining physician. The certification of good health shall be on a form supplied by the licensed establishment that indicates the certification is with respect to the suitability of the individual to be a plasmapheresis donor.

(c) *Qualification of donor.* Donors shall be in good health on the day of donation, as indicated in part by:

(1) Normal temperature;

(2) Demonstration that systolic and diastolic blood pressures are within normal limits, unless the examining physician is satisfied that an individual with blood pressures outside these limits is an otherwise qualified donor under the provisions of this section;

(3) A blood hemoglobin level of no less than 12.5 grams of hemoglobin per 100 milliliters of blood;

(4) A normal pulse rate;

(5) A total serum protein of no less than 6.0 grams per 100 milliliters of serum;

(6) Weight, which shall be at least 110 pounds;

(7) Freedom from acute respiratory diseases;

(8) Freedom from any infectious skin disease at the site of phlebotomy and from any such disease generalized to such an extent as to create a risk of contamination of the plasma;

(9) Freedom from any disease, other than malaria, transmissible by blood transfusion, insofar as can be determined by history and examinations indicated in this section;

(10) Freedom of the arms and forearms from skin punctures or scars indicative of addiction to self-injected narcotics;

(11) Freedom from a history of viral hepatitis;

(12) Freedom from a history of close contact within six months of donation with an individual having viral hepatitis;

(13) Freedom from a history of having received, within six months, human blood or any derivative of human blood which the Food and Drug Administration has advised the licensed establishment is a possible source of viral hepatitis, except for specific immunization performed in accordance with § 273.3106 of this part.

(d) *General.* Any donor who, in the opinion of the interviewer, appears to be under the influence of any drug, alcohol, or for any reason does not appear to be providing reliable answers to medical history questions, shall not be considered a suitable donor.

§ 273.3104 Collection of blood for Source Plasma (Human).

(a) *Supervision.* All blood for the collection of Source Plasma (Human) shall be drawn from the donor by a qualified licensed physician or by persons under his supervision trained in the procedure.

(b) *Blood containers.* Blood containers and donor sets shall be pyrogen-free, sterile and identified by lot number. The amount of anticoagulant required for the quantity of blood to be collected shall be in the blood container when it is sterilized.

(c) *The anticoagulant solution.* The anticoagulant solution shall be sterile and pyrogen-free. One of the following formulae shall be used in the indicated volumes:

(a) *Anticoagulant acid citrate dextrose solution (ACD).*

Tri-sodium citrate ($Na_3C_6H_5O_7 \cdot 2H_2O$)	22.0 grams
Citric acid ($C_6H_8O_7 \cdot H_2O$)	8.0 grams
Dextrose ($C_6H_{12}O_6H_2O$)	24.5 grams
Water for injection (U.S.P.) to make	1,000 milliliters
Volume per 100 milliliters blood	15 milliliters

(2) *Anticoagulant citrate phosphate dextrose solution (CPD).*

Tri-sodium citrate ($Na_3C_6H_5O_7 \cdot 2H_2O$)	26.3 grams
Citric acid ($C_6H_8O_7 \cdot H_2O$)	3.27 grams
Dextrose ($C_6H_{12}O_6H_2O$)	25.5 grams
Monobasic sodium phosphate ($NaH_2PO_4 \cdot H_2O$)	2.22 grams
Water for injection (U.S.P.) to make	1,000 milliliters
Volume per 100 milliliters blood	14 milliliters

(3) *Anticoagulant sodium citrate solution.*

Tri-sodium citrate ($Na_3C_6H_5O_7 \cdot 2H_2O$)	40 grams
Water for injection (U.S.P.) to make	1,000 milliliters
Volume per 100 milliliters of blood	10 milliliters

(d) *Donor identification.* Each unit of blood and plasma shall be so marked or identified by number or other symbol so as to relate it directly to the donor.

(e) *Prevention of contamination of the blood and plasma.* The skin of the donor at the site of phlebotomy shall be prepared thoroughly and carefully by a method that gives maximum assurance of a sterile container of blood. The blood shall be collected, the plasma separated, and the cells returned to the donor by aseptic methods in a sterile system which may be closed, or may be vented if the vent protects the blood cells and plasma against contamination.

§ 273.3105 Plasmapheresis.

(a) *Procedure-general.* The plasmapheresis procedure, which is defined as that procedure in which blood is removed from a donor, the plasma separated from the formed elements and the formed elements returned to the donor, during a single visit to the establishment, shall be described in detail in the product license application.

(b) *Procedures-specific requirements.* The plasmapheresis procedure shall meet the following requirements:

(1) A sample of blood shall be drawn from each donor by a qualified licensed physician or by persons under his supervision and trained in such procedure on the day of the first plasmapheresis and at least every four months thereafter on which a serologic test for syphilis and a serum protein electrophoresis or quantitative immunodiffusion test for immunoglobulins to determine the immunoglobulin composition of the serum shall be performed. The results of the tests shall be reviewed by a qualified licensed physician within 10 days after the sample is drawn to determine whether or not the donor may continue on the program. If the plasma protein composition is not within normal limits established by the testing laboratory, the donor shall be removed from the program until these values return to normal. A donor with a reactive serologic test for syphilis shall not be plasmapheresed again until his serum tests nonreactive to a serologic test for syphilis.

(2) At least every four months, the accumulated laboratory data and collection records of each donor shall be reviewed by a qualified licensed physician to determine continuing suitability of the donor. Only those donors found suitable upon such a review shall remain in the plasmapheresis program. Such a review shall be signed by the reviewing physician.

(3) A donor identification system shall be established that positively identifies each donor and relates such donor directly to his blood and its components as well as to his accumulated records and laboratory data. Such system shall include either a photograph of each donor which shall be used on each visit to confirm the donor's identity, or some other method that provides equal or greater assurance of positively identifying the donor.

(4) The amount of whole blood, not including anticoagulant, removed from a donor during a plasmapheresis procedure or in any 48-hour period shall not exceed 1,000 milliliters unless the donor's weight is 175 pounds or greater, in which case the amount of whole blood, not including anticoagulant, removed from the donor during a plasmapheresis procedure or in any 48-hour period shall not exceed 1,200 milliliters.

(5) The amount of whole blood, not including anticoagulant, removed from a donor within a seven-day period shall not exceed 2,000 milliliters unless the donor's weight is 175 pounds or greater, in which case the amount of whole blood, not including anticoagulant, removed from the donor during a seven-day period shall not exceed 2,400 milliliters.

(6) No more than 500 milliliters of whole blood shall be removed from a donor at one time, unless the donor's weight is 175 pounds or greater, in which case no more than 600 milliliters of whole blood shall be removed from the donor at one time.

(7) The plasma shall be separated from the red blood cells immediately after blood collection. The maximum feasible volume of red blood cells shall be returned to the donor before another unit is collected.

§ 273.3106 Immunization of donors.

If specific immunization of a donor is to be performed, the selection and scheduling of the injection of the antigen, and the evaluation of each donor's clinical response, shall be by a qualified licensed physician or physicians. The administration of the antigen may be performed by a licensed physician or a trained person under his supervision. Any material used for immunization shall be either a product licensed under section 351 of the Public Health Service Act for such purpose or one specifically approved by the Director, Bureau of Biologics, Food and Drug Administration. Immunization procedures shall be on file at each plasmapheresis center where immunizations are performed.

§ 273.3107 Test for hepatitis B antigen.

Each unit of Source Plasma (Human) shall be nonreactive to a test for the hepatitis B antigen as prescribed in §§ 273.755 and 273.756 of the general regulations.

§ 273.3108 Processing.

(a) *Sterile system.* All surfaces that come in contact with the plasma shall be both sterile and pyrogen-free. If the method of separation involves a vented system (i.e., where an airway must be inserted into a container for withdrawal of the plasma), the airway and vent shall be sterile and constructed so as to exclude microorganisms and maintain a sterile system.

(b) *Final containers.* Final containers used for Source Plasma (Human), whether integrally attached or separated from the original blood container, shall not be entered prior to issuance for any purpose except for filling with the plasma. Such containers shall be uncolored and hermetically sealed, and shall permit clear visibility of the contents. Final containers and their components shall not interact with the plasma contents under conditions of storage and use so as to alter the safety, quality, purity, or potency of the plasma and shall provide adequate protection against external factors that may cause deterioration or contamination. Prior to filling, the final container shall be marked or identified by number or other symbol which will relate it directly to the donor.

(c) *Preservative.* Source Plasma (Human) shall not contain a preservative.

§ 273.3109 General requirements.

(a) *Pooling.* Pooling of plasma by the manufacturer of Source Plasma (Human) from two or more donors is not permitted. Two units of plasma from the same donor may be pooled if such units are collected during one plasmapheresis procedure, provided the pooling is done by a procedure that gives maximum assurance of a sterile container of plasma.

(b) *Storage.* Immediately after filling, the plasma shall be stored at not warmer than −20° C., except for plasma collected as provided for in § 273.3110.

(c) *Inspection.* Source Plasma (Human) shall be inspected at the time of issuance. If there is any evidence of thawing, the unit shall not be issued.

(d) *Pilot samples.* If pilot samples are provided, they shall meet the following standards:

(1) Prior to filling, all pilot samples shall be marked or identified so as to relate them directly to the donor of that unit of plasma.

(2) All pilot samples shall be filled at the time the final product is prepared by the person who prepares the final product.

(3) All pilot samples shall be representative of the contents of the final product.

(4) All pilot samples shall be collected in a manner that does not contaminate the contents of the final container.

(e) *Labeling.* In addition to the labeling requirements of § 273.602, and in lieu of the requirements in §§ 273.600 and 273.601, the following information shall appear on the label affixed to each container of Source Plasma (Human):

(1) The proper name of the product.

(2) Name, address, and license number of the manufacturer.

(3) Donor number.

(4) Collection date of the plasma.

(5) The statement: "Caution: For Manufacturing Use Only".

(6) The statement: "Store at −20° C. or colder".

(7) A statement as to whether the plasma was collected from normal donors or from immunized donors. In the case of immunized donors, the label shall state the immunizing antigen.

(8) The total volume of plasma and total quantity and type of anticoagulant used.

(9) The test for hepatitis B antigen used and the results.

(f) *Manufacturing responsibility.* All steps in the manufacture of Source Plasma (Human), including donor examination, blood collection, plasmapheresis, laboratory testing, labeling, storage, and issuing shall be performed by the establishment licensed to manufacture Source Plasma (Human), except that the following tests may be performed by a clinical laboratory licensed under section 353 of the Public Health Service Act, or by an establishment licensed for blood or blood derivatives under section 351 of the Public Health Service Act, provided such arrangements are approved by the Director, Bureau of Biologics, Food and Drug Administration:

(1) The test for hepatitis B antigen pursuant to § 273.3107.

(2) The serum protein electrophoresis or quantitative immunodiffusion test for immunoglobulin as required by § 273.3105 (b)(1).

(3) Such testing pursuant to paragraph (f) (1) and (2) of this section shall not be considered divided manufacturing, requiring two product licenses for source Plasma (Human), provided that:

(i) The results of such tests are maintained by the establishment licensed for Source Plasma (Human) whereby such results may be reviewed by a licensed physician as required in § 273.3105(b)(2), and/or by authorized Food and Drug Administration inspectors.

(ii) The Source Plasma (Human) manufacturer has obtained a written agreement that the testing laboratory will permit authorized Food and Drug Administration inspectors to inspect their testing procedures and facilities during any reasonable business hours.

(iii) The testing laboratory will participate in any proficiency testing programs undertaken by the Bureau of Biologics, Food and Drug Administration.

(g) *Records.* In addition to the general record keeping requirements of § 273.502, every manufacturer of Source Plasma (Human) must keep for each donor a separate and complete record of all initial and periodic examinations, tests, laboratory data, interviews, etc., undertaken pursuant to §§ 273.3103, 273.3105, 273.3106, and 273.3107. This record must also contain the original or a clear copy of the donor's written consent for participation in the plasmapheresis program as required by § 273.3101 and the certification of good health as prescribed in § 273.3103(b). Each donor record must be directly cross-referenced to the unit(s) of Source Plasma (Human) associated with the donor.

§ 273.3110 Modification of Source Plasma (Human).

(a) Upon approval by the Director, Bureau of Biologics, Food and Drug Administration, of an amendment to the product license for Source Plasma (Human), a manufacturer may prepare Source Plasma (Human) as a liquid product for a licensed blood derivative manufacturer who has indicated a need for a liquid product.

(b) Liquid Source Plasma (Human) shall meet all standards of the frozen Source Plasma (Human) except:

(1) Liquid Source Plasma (Human) shall be stored in nonleachable containers so that the containers and their components will not interact with the plasma contents under conditions of storage and use so as to alter the safety, quality, purity, or potency of the plasma and shall provide adequate protection against external factors that may cause deterioration or contamination.

(2) Liquid Source Plasma (Human) shall be shipped, stored and labeled for storage at a temperature of 10° C. or colder. An exception to the shipping or storage temperature shall be approved by the Director, Bureau of Biologics, Food and Drug Administration, based upon his receipt of substantial evidence to support another temperature. Such evidence may be submitted by either the product licensee of the liquid Source Plasma (Human) or the manufacturer

V 38 139
JUL 20 73
XUM

of the final blood derivative product who has requested the liquid Source Plasma (Human).

(3) The label for the liquid Source Plasma (Human) shall be easily distinguished from that of the frozen product. Color coding shall not be used for this purpose.

(4) The label affixed to each container of liquid Source Plasma (Human) shall contain, in addition to the information required by § 273.3109(e) but excluding § 273.3109(e)(6) the name of the manufacturer of the final blood derivative product for whom is was prepared.

(5) Liquid Source Plasma (Human) shall be inspected immediately prior to issuance. If the color or physical appearance is abnormal, or there is any indication or suspicion of microbial contamination, the unit of liquid Source Plasma (Human) shall not be issued.

Effective Date. This order is effective on November 19, 1973, with the exception that § 273.3105(b) (4), (5) and (6) is effective on August 21, 1973. Establishment license applications or amendments, whichever are appropriate, and product license applications for Source Plasma (Human) shall be filed on or before November 19, 1973. Source Plasma (Human) from establishments which have submitted such applications and amendments may be shipped under the short supply provisions of § 273.240 until such time as final action has been taken with respect to approval or denial of their license application, provided such establishments are in full compliance with the applicable regulatory requirements of these additional standards.

(Sec. 351, 58 Stat. 701, as amended; 42 U.S.C. 262).

Dated: July 17, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.73-14944 Filed 7-19-73;8:45 am]

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Approval of Iowa Plan

1. *Background.* Part 1902 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) whereby the several States may submit for approval under the requirements of that section, plans for the development and enforcement of State occupational safety and health standards.

The State of Iowa submitted on October 4, 1972, a plan pursuant to Part 1902 requesting approval of the plan by the Assistant Secretary for Occupational Safety and Health. On October 21, 1972, a notice was published in the FEDERAL REGISTER (37 FR 22780) concerning the submission of the plan and the fact that the question of approval was in issue before the Assistant Secretary.

The Bureau of Labor is the State agency designated by the Governor to administer the plan throughout the State. Its responsibilities will include both occupational safety and occupational health, the latter on a developmental basis. The plan defines the covered occupational safety and health issues as defined by the Secretary of Labor in 29 CFR 1902.2(c)(1). Under existing occupational safety and health legislation, effective July 1, 1972, Iowa has adopted as interim standards all occupational safety and health standards and amendments thereto which had been promulgated by the Secretary of Labor, except those found in 29 CFR Parts 1915, 1916, 1917 and 1918 (ship repairing, shipbuilding, shipbreaking and longshoring). Hearings have been held on the adoption as permanent standards of standards in 29 CFR Parts 1910 and 1926.

The legislation covers all employers, including the State and its political subdivisions. The plan is developmental in the establishment of a compliance program for agriculture, mercantile and service employees; the development of an occupational health program; a management information system; and the hiring and training of additional staff under the existing State merit system.

The legislation contains procedures for inspections including inspections in response to complaints; protection of employees from discharge or discrimination for exercising rights; promulgation of standards including emergency standards; rule-making authority; sanctions; imminent danger abatement through court injunction; and the establishment of an independent Review Commission.

The major provisions of the plan and the proposed schedule for its development are summarized in a new Subpart J of 29 CFR Part 1952.

Included in the plan is a statement of the Governor's support for the plan and a statement of legal opinion that the legislation will meet the requirements of the Occupational Safety and Health Act of 1970 and is consistent with the Constitution and laws of Iowa. The plan sets out goals and provides a timetable for bringing it into full conformity with Part 1902 at the end of three years after the commencement of operations under the plan.

Interested persons were afforded thirty (30) days from the date of publication to submit written comments concerning the plan. Further, interested persons were afforded an opportunity to request an informal hearing with respect to the plan or any part thereof.

2. *Issues.* Pursuant to the notice of submission of the plan several comments were received from interested organizations including the American Federation of Labor-Congress of Industrial Organizations (AFL-CIO) and the Master Builders of Iowa. No other written comments were received and no requests for an informal hearing were made.

These comments and our review of the plan raised several significant issues which were addressed by Iowa in supplementary letters received January 2, 1973, and March 21, 1973, that clarified and modified the plan and are incorporated as part of the plan.

(a) *Enforcement Program*—(i) *Nonserious violations.* One area of concern involves the effectiveness of Iowa's enforcement program. The legislation enacted in 1972, prior to plan submission, contains a prohibition on issuance of a penalty to an employer for any nonserious violations cited during an initial inspection of the employer's establishment. In order to achieve compliance in non-serious cases, Iowa's compliance manual provides for a mandatory follow-up inspection to determine whether or not an alleged non-serious violation has been corrected within the prescribed abatement period. If a non-serious violation cited under this section of Iowa law is not corrected within the abatement period, a mandatory penalty of up to $1,000 for each day the violation continues past the abatement period shall be proposed.

Reliance on failure to abate penalties is not a satisfactory substitute for "first-instance" penalties as stated in the decision on the Wahington State plan (38 FR 2421). Iowa has, therefore, agreed to propose an amendment in the next legislative session, scheduled for January 1974, deleting this prohibition on a penalty for non-serious violations found during an initial inspection. This amendment would be effective January 1, 1975, at which time Iowa's law would provide for a discretionary penalty for nonserious violations regardless of whether it is the first inspection of a workplace.

Iowa has also provided assurances that once the law is amended, it would issue administrative guidelines for proposing first-instance penalties for non-serious violations.

Based on the proposed legislative amendment and the interim measures for mandatory follow-up inspections contained in the Iowa compliance manual, Iowa's plan is approvable in accordance with section 18(c)(2) of the Act providing for the development of an enforcement program that will be at least as effective as the Federal program.

(ii) *Employee citation.* The second issue in Iowa's enforcement program that required modifications and clarification was the provision in the law for an employee citation.

An employee may receive a citation if, "under his own volition" he violates any of the following: (1) Any of the requirements of section 5 of the State Act placing on the employee a duty to comply with all standards, rules, regulations and orders issued pursuant to this Act which are applicable to his own actions or conduct; (2) any standard, rule or rules promulgated pursuant to section 6 of the State Act authorizing the Commissioner of Labor to promulgate standards identical to Federal standards; or (3) any regulations prescribed pursuant to this Act.

The citation will describe the violation, but no penalty or abatement date will be proposed. In addition, the law provides for an employee right to appeal the citation, in the same manner provided for employer appeals, to the State Review Commission.

Within this general legislative framework, the State compliance manual prescribes additional limitations on the issuance of these citations. The inspector must have "personally witnessed, or have first-hand knowledge" of the violation by the employee and he must be able to conclude that the employee violated such standard, rule or regulation "with the knowledge he was violating it, and that on his own action, and of his own accord and volition", he did proceed to violate the standard, rule, or regulation.

In order to assure that the employer's responsibility for safety and health in the workplace is not diminished, the compliance manual has been modified to provide that in each instance of an employee citation, a "citation will also be issued to the employer responsible for the employee and/or the employee's work environment. Other appropriate measures attendant to the issuance of a citation to an employer will also be taken." These measures would include assessment of penalties as well as follow-up inspections where required. In order to maintain the effective enforcement program required by the Act and 29 CFR Part 1902, an employee sanction must meet the following requirements: (1) It must be applicable only in clearly defined situations, and (2) it must not relieve the employer of his primary responsibility for occupational safety and health including his obligation to take all possible steps to insure that employees' actions do not violate the standards. (See Oregon decision 37 FR 28628).

Iowa's employee citation as outlined above meets these criteria for the following reasons. A citation would be issued only where an employee knowingly and in the presence of an inspector refused to comply with a standard, for example, not wearing a hard-hat provided by the employer.

The employee citation provision would not apply where the employer's conduct violated the standards and the employee was required to acquiesce in the violation expressly or impliedly as part of his job duties, for example, if the employer failed to provide hard-hats or the employee worked on an unguarded machine.

After considering both the legislative provisions and the compliance manual governing the operation of employee citations, it appears that Iowa's employee citation provides a limited employee sanction which does not on its face have the effect of undermining the effectiveness of the State program. Indeed, it would increase its effectiveness by providing an additional method of notifying employees of their obligations under the State law.

Also, the employee citation provision would not diminish the employer's responsibility to maintain a safe and healthful workplace, nor would it affect the employee right not to work under unsafe conditions as protected under collective bargaining agreements, the National Labor Relations Act (29 U.S.C. 143) or under section 11(c) of the Occupational Safety and Health Act of 1970 as interpretated in 29 CFR Part 1977. The actual implementation of the Iowa employee citation will be reviewed in the evaluation of the State plan.

(b) *Administrative Procedure.* Both the safety and health enabling legislation and the State law on review of administrative rules and regulations prescribe procedures for public participation and notice of rule-making and standard-setting. Under the Administrative Rules and Regulations Act, the designee submits proposed rules to the Legislative Departmental Review Committee and the rules are subject to public comment at the Committee's regularly scheduled meetings. Any person substantially interested in a rule may petition for reconsideration of the rule to the Attorney General and the agency shall be required to hold hearings on the petition for reconsideration.

While occupational safety and health standards are also subject to review by the Legislative Committee, the safety and health legislation describes procedures for public hearings on the standards prior to adoption. These procedures are similar to those in the Federal Act. The State has also agreed to publish notice of final standards actions including the issuance of emergency temporary standards in State newspapers in addition to filing the standards with the Secretary of State.

Although the State's mechanism for public participation differs from the Federal program, the State has in fact adopted regulations and standards similar to the Federal ones. Subject to evaluation, it appears that the Iowa procedures meet the requirements on public participation in 29 CFR 1902.4(b)(2)(iii).

(c) *Standard-setting*—(i) *Permanent standards.* Under its enabling legislation, Iowa's Commissioner of Labor is authorized to adopt only Federal standards. The law does not provide for any independent standard-setting authority either within the issues covered by the plan or in any other issues beyond the scope of the Federal program as have been provided by other approved State plans. Under 29 CFR 1902.4(a), States have the option of either adopting Federal standards or establishing alternative standards. By choosing at this time to adopt only Federal standards the Iowa plan meets the minimum requirements of 29 CFR 1902.4(a)(1).

Iowa's plan contains standards promulgated under other State laws relating to occupational safety and health, such as boiler and amusement park inspections standards. These standards are not subject to the limitation in Iowa's enabling legislation which provides that general safety and health standard-setting is limited to the adoption of Federal standards.

(ii) *Emergency temporary standards.* Iowa's legislation contains a provision for immediate issuance of emergency temporary standards to protect employees from grave danger from exposure to substances or agents determined to be toxic or physically harmful or from new hazards. There are two limitations on this authority. The first is related to the legislative limit on adoption of permanent Federal standards. Iowa can only adopt an emergency temporary standard as a permanent standard if the emergency standard has been adopted permanently by the U.S. Secretary of Labor. Iowa will request adoption of permanent Federal standards when it determines that the emergency standard should be implemented on a permanent basis.

A second limit is one of definition. Iowa law defines an emergency standard as one adopted by the U.S. Secretary of Labor, or a standard adopted by a nationally recognized standards-producing organization where the Commissioner of Labor determines that persons interested and affected by the scope or provisions of the standard have reached substantial agreement on its adoption and have included the opportunity for consideration of diverse views.

Because Iowa's basic standard-setting authority is linked to the adoption of standards by the Secretary of Labor, the fact that the emergency standard-setting authority is also related to adoption of Federal emergency standards does not make the plan less effective. In addition, Iowa has authority to set emergency standards for a six-month period based on standards adopted by national standard-setting organizations. Subject to evaluation, it appears that this authority would enable Iowa to cover a wide range of emergency situations in a manner calculated to ensure input of available expertise and provide adequate protection of employees.

(d) *Occupational health.* In supplements to the plan, Iowa has presented a revised occupational health program providing for the hiring of three industrial hygienists within the Bureau of Labor. While compliance operations in the industrial hygiene area will begin upon plan approval the full program including hiring, training, purchase of equipment and coordination with the Industrial Hygiene Laboratory at the University of Iowa will be operational within two and one-half years after plan approval.

3. *Decision.* After careful consideration of the Iowa plan and comments submitted regarding it, the plan is hereby approved under section 18 of the Act and Part 1902. This decision incorporates requirements of the Act and implementing regulations applicable to State plans generally. It also incorporates our intentions as to continued Federal enforcement of Federal standards in areas covered by the plan and the State's developmental schedule as set out below.

Pursuant to § 1902.20(b)(1)(iii) of Title 29, Code of Federal Regulations, the present level of Federal enforcement in

V 38 139 JUL 20 73 XUM

Iowa will not be diminished presently because of the developmental nature of Iowa's enforcement program. Among other things, the U.S. Department of Labor will continue to inspect catastrophes and fatalities, investigate valid complaints under section 8(f), continue its Target Safety and Target Health programs, and inspect a cross-section of all industries on a random basis.

Within 6 months following this approval, an evaluation of the State plan as implemented will be made to assess the appropriate level of Federal enforcement activity. Federal enforcement activity will continue to be exercised to the degree necessary to assure occupational safety and health protection to employees in the State of Iowa.

Pursuant to section 18 of the Occupational Safety and Health Act (29 U.S.C. 667), Part 1952 is hereby amended by adding thereto a new Subpart J as follows:

Subpart J—Iowa

Secs.
1952.160 Description of plan.
1952.161 Where the plan may be inspected.
1952.162 Level of Federal enforcement.
1952.163 Developmental schedule.

AUTHORITY: Sec. 18, Pub. L. 91-596, 84 Stat. 1608; 29 U.S.C. 667.

§ 1952.160 Description of plan.

(a)(1) The plan identifies the Bureau of Labor as the State agency designated to administer the plan throughout the State. Its responsibilities include both occupational safety and occupational health, the latter on a developmental basis. The plan defines the covered occupational safety and health issues as defined by the Secretary of Labor in 29 CFR 1902.2(c)(i). Under existing occupational safety and health legislation, effective July 1, 1972, Iowa has adopted as interim standards all the occupational safety and health standards and amendments thereto which had been promulgated by the Secretary of Labor, except those found in 29 CFR Parts 1915, 1916, 1917 and 1918 (Ship repairing, ship building, ship breaking and longshoring). Hearings have been held on the adoption, as permanent standards, of the standards in 29 CFR Parts 1910 and 1926.

Under its existing legislation, the Bureau of Labor has exercised statewide inspection authority to enforce State standards which are identical to Federal standards. The legislation covers all employers including the State and its political subdivisions and gives the Iowa Bureau of Labor full authority to administer and enforce all laws, rules, and orders protecting employee safety and health in all places of employment in the State.

(2) The legislation contains procedures for the promulgation of standards, including standards for the prompt protection of employees against new and unforeseen hazards; furnishing information to employees on hazards, precautions, symptoms, and emergency treatment; procedures for granting temporary and permanent variances; and for the protection of employees from hazards. The law provides for inspections including inspections in response to complaints; ensures employer and employee representatives an opportunity to accompany inspectors and call attention to possible violations before, during and after inspections; protection of employees against discharge or discrimination in terms or conditions of employment through court suits brought by the Bureau of Labor; notice to employees of their protections and obligations under the State law; imminent danger abatement through court injunctions; safeguards to protect trade secrets; prompt notice to employers and employees of alleged violations of standards and abatement requirements; effective sanctions against employers; employer right to review of alleged violations, abatement periods, and proposed penalties with an opportunity for employee participation as parties; and employee review of any citation issued to the employee, in review proceedings before the independent Review Commission.

(3) The plan is developmental in the establishment of a compliance program for agriculture, mercantile and service employees; development of an occupational health program; developing a management information system; and hiring and training of staff under the existing State merit system.

(b) Included in the plan is a statement of the Governor's support for the plan and a statement of legal opinion that the legislation will meet the requirements of the Occupational Safety and Health Act of 1970 and is consistent with the Constitution and laws of Iowa. The plan sets out goals and provides a timetable for bringing it into full conformity with Part 1902 at the end of three years after the commencement of operations under the plan.

(c) The plan includes the following documents as of the date of approval:

(1) The plan document with appendices;

(2) Letters from Jerry L. Addy, Commissioner of Labor, dated January 2, 1973, and March 21, 1973, with clarifications and modifications of the plan;

(3) Iowa has also submitted the following regulations adopted by the State:

(a) Chapter 3 of the Iowa Bureau of Labor Administrative Rules dealing with inspections, citations, and proposed penalties, adopted July 25, 1972;

(b) Chapter 4 of the Iowa Bureau of Labor Administrative Rules dealing with recording and reporting occupational injuries and illnesses adopted July 11, 1973, and amended July 25, 1972;

(c) Chapter 5 of the Iowa Bureau of Labor Administrative Rules dealing with rules of practice for variances, limitations, variations, tolerances, and exemptions adopted July 25, 1972, and amended October 5, 1972.

These adopted rules and regulations which were not part of the plan as originally submitted will be evaluated in accordance with the review of completions of developmental steps in State plans.

§ 1952.161 Where the plan may be inspected.

A copy of the complete Iowa plan may be inspected and copied during normal business hours at the Iowa Bureau of Labor, State House, East 7th and Court Avenues, 4th Floor, Des Moines, Iowa 50319; Regional Administrator, Occupational Safety and Health Administration, U.S. Department of Labor, Room 300, Waltower Building, 823 Walnut Street, Kansas City, Missouri 64106; and Office of Federal and State Operations, OSHA, U.S. Department of Labor, Room 305, Railway Labor Building, 400 First Street, NW., Washington, D.C. 20210.

§ 1952.162 Level of Federal enforcement.

Pursuant to § 1902.20(b)(1)(iii) of Title 29 of the Code of Federal Regulations, the present level of Federal enforcement in Iowa will not be diminished presently because of the developmental nature of Iowa's enforcement program. Among other things, the U.S. Department of Labor will continue to inspect catastrophes and fatalities, investigate valid complaints under section 8(f), continue its Target Safety and Target Health programs, and inspect a cross-section of all industries on a random basis.

§ 1952.163 Developmental schedule.

The Iowa plan is developmental. The following is the schedule of developmental steps provided by the plan:

(a) Adoption of Federal standards as permanent State standards, May-June 1973;

(b) Existing staff begins compliance activity May-June 1973;

(c) Hiring and training of additional staff including three industrial hygienists, six months after plan approval;

(d) Additional staff begins compliance activity, December 1973-January 1974;

(e) Development of compliance programs for agriculture, mercantile and service employers, June 1974;

(f) Development of employer and employee education programs, January, 1974;

(g) Introduction of amendment on first-instance sanctions for non-serious violations, January 1, 1974;

(h) Development of a Management Information System, June, 1974;

(i) Refinement of program and modifications, January, 1975;

(j) Effective date of amendments to legislation, January 1, 1975.

Signed at Washington, D.C. this 12th day of July 1973.

JOHN STENDER,
Assistant Secretary of Labor.

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

Law Courses

On page 14866 of the FEDERAL REGISTER of June 6, 1973, there was published a notice of proposed regulatory development to amend § 21.4274 to provide for the measurement of courses in an accredited law school under the same criteria used for measurement of collegiate graduate resident courses. Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulation.

No written objections have been received and the proposed regulation is hereby adopted without change and is set forth below.

Effective date. This VA regulation is effective July 13, 1973.

Approved: July 13, 1973.

By direction of the Administrator.

[SEAL] RUFUS H. WILSON,
Associate Deputy Administrator.

In § 21.4274, paragraph (a) is amended to read as follows:

§ 21.4274 Law courses.

(a) *Accredited.* A law course in an accredited law school leading to a standard professional law degree will be assessed as provided in § 21.4273(a).

[FR Doc.73-14910 Filed 7-19-73;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

PART 164—RULES OF PRACTICE GOVERNING HEARINGS, UNDER THE FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT, ARISING FROM REFUSALS TO REGISTER, CANCELLATIONS OF REGISTRATIONS, CHANGES, OF CLASSIFICATIONS, SUSPENSIONS OF REGISTRATIONS AND OTHER HEARINGS CALLED PURSUANT TO SECTION 6 OF THE ACT

On April 5, 1973, this Agency published proposed rules of practice governing hearings pursuant to section 6 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended, in the FEDERAL REGISTER, 38 FR 8670. Although these rules were not required to be published as proposals, (5 U.S.C. 553(b)(A)), the Agency believed it was in the public interest to do so. Comments were received from environmental groups and industry and all such comments were considered. While not adopting all of the comments, some have been adopted and certain changes made.

Two major areas of concern are highlighted. First, various environmental groups have expressed their desire to invoke agency processes, as proposed on January 22, 1972 (37 FR 1059). Rules governing such procedures are more properly handled under § 21(b) of the Act and the Agency proposes to issue proposed regulations pursuant to this section in the near future. Therefore, they are not treated in these rules which govern the conduct of proceedings, once started.

Second, under the proposed rules, discovery procedure was provided to incorporate the applicable Federal Rules of Civil Procedure. Inasmuch as a cancelled pesticide remains on the market until completion of the hearing, it has been deemed advisable in the public interest and the orderly administration of justice to limit discovery to witness lists and exhibits unless discovery, other than as set forth in § 164.50(b), is determined by the Administrative Law Judge not to unreasonably delay the proceeding, that the information is not otherwise obtainable and that the information has significant probative value.

The following rules, as revised, are hereby adopted.

Subpart A—General

Sec.
164.1 Number of words.
164.2 Definitions.
164.3 Scope and applicability of this part.
164.4 Arrangements for examining Agency records, transcripts, orders, and decisions.
164.5 Filing and service.
164.6 Time.
164.7 Ex parte discussion of proceeding.
164.8 Publication.

Subpart B—General Rules of Practice Concerning Proceedings (Other Than Expedited Hearings)

COMMENCEMENT OF PROCEEDING

164.20 Commencement of proceeding.
164.21 Contents of a denial of registration, notice of intent to cancel a registration, or notice of intent to change a classification.
164.22 Contents of document setting forth objection.
164.23 Contents of the statement of issues to accompany notice of intent to hold a hearing.
164.24 Response to the Administrator's notice of intention to hold a hearing.
164.25 Filing copies of notification of intent to cancel registration or change classification or refusal to register, and statement of issues.

APPEARANCES, INTERVENTION, AND CONSOLIDATION

164.30 Appearances.
164.31 Intervention.
164.32 Consolidation.

ADMINISTRATIVE LAW JUDGE

164.40 Qualifications and duties of Administrative Law Judge.

PREHEARING PROCEDURES AND DISCOVERY

164.50 Prehearing conference and primary discovery.
164.51 Other discovery.

MOTIONS

164.60 Motions.

SUBPOENAS AND WITNESS FEES

164.70 Supoenas.
164.71 Fees of witnesses.

THE HEARINGS

164.80 Order of proceeding and burden of proof.
164.81 Evidence.
164.82 Transcripts.

INITIAL OR ACCELERATED DECISION

164.90 Initial decision.
164.91 Accelerated decision.

APPEALS

164.100 Appeals from or review of interlocutory orders or rulings.
164.101 Appeals from or review of initial decisions.
164.102 Appeals from accelerated decisions.
164.103 Final decision or order on appeal or review.
164.110 Motion for reopening hearings; for rehearing; for reargument of any proceeding; or for reconsideration of order.

Subpart C—General Rules of Practice for Expedited Hearings

164.120 Notification.
164.121 Expedited hearing.
164.122 Final order and order of suspension.
164.123 Emergency order.

AUTHORITY: Sec. 6 of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, 38 FR 8670.

Subpart A—General

§ 164.1 Number of words.

As used in this part, a word in the singular form shall be deemed to import the plural, and vice versa, as the case may require.

§ 164.2 Definitions.

For the purposes of this part, the following terms shall be defined, as listed below:

(a) The term "Act" means the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (86 Stat. 973) and other legislation supplementary thereto and amendatory thereof.

(b) The term "Administrative Law Judge" means an Administrative Law Judge appointed pursuant to 5 U.S.C. 3105 (see also 5 CFR Part 930, as amended), and such term is synonymous with the term "Hearing Examiner" as used in the Act or in the United States Code.

(c) The term "Administrator" means the Administrator of the Agency, or any officer or employee thereof to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead. When used in Subparts B and C of this part, the "Administrator" shall be interchangeable with the term "judicial officer."

(d) The term "Agency," unless otherwise specified, means the United States Environmental Protection Agency.

(e) The term "Applicant" means any person who has made application to have a pesticide registered or classified pursuant to the provisions of the Act.

(f) The term "Committee" means a group of qualified scientists designated by the National Academy of Sciences according to agreement under the Act to submit an independent report to the Administrative Law Judge on questions of scientific fact referred from a hearing under subpart B of this part.

(g) The term "Expedited Hearing" means a hearing commenced as the result of the issuance of a notice of intention to suspend or the suspension of a registration of a pesticide by an emergency order, and is limited to a consideration as to whether a pesticide presents an imminent hazard which justifies such suspension.

(h) The term "Hearing" means a public hearing which is conducted pursuant

V 38 139 JUL 20 73 XUM

to the provisions of Chapter 5, Subchapter II of Title 5 of the United States Code and the regulations of this part.

(i) The term "Hearing Clerk" means the Hearing Clerk, Environmental Protection Agency, Washington, D.C. 20460.

(j) The term "Initial Decision" means the decision of the Administrative Law Judge supported by findings of fact and conclusions regarding all material issues of law, fact, or discretion, as well as reasons therefor. Such decision shall become the final decision and order of the Administrator without further proceedings unless an appeal therefrom is taken or the Administrator orders review thereof as herein provided.

(k) The term "Judicial Officer" means an officer or employee of the Agency designated as a judicial officer, pursuant to these rules, who shall meet the qualifications and perform functions as herein provided.

(1) Office. There may be designated for the Agency one or more judicial officers, one of whom may be Chief Judicial Officer. As work requires, there may be a judicial officer designated to act for the purpose of a particular case. All prior designations of judicial officer shall stay in force until further notice.

(2) Qualification. A judicial officer shall be a permanent or temporary employee or officer of the Agency who may perform other duties for the Agency. Such judicial officer shall not be employed by the Office of Hazardous Materials Control or have any connection with the preparation or presentation of evidence for a hearing.

(3) Functions. The Administrator may delegate any or part of his authority to act in a given case under Subparts B and C of this part to a judicial officer. The Administrator can separately delegate his authority to rule on interlocutory orders and motions, and may also delegate his authority to make findings of fact and draw conclusions of law in a particular proceeding, providing that this delegation shall not preclude the Judicial Officer from referring any motion or case to the Administrator when the Judicial Officer determines such referral to be appropriate. The Administrator, in deciding a case himself, may consult with and assign the preliminary drafting of conclusions of law and findings of fact to any judicial officer.

(l) The term "Party" means any person, group, organization, or Federal agency or department that participates in a hearing.

(m) The term "Person" includes any individual, partnership, association, corporation, and any organized group of persons, whether incorporated or not.

(n) The term "Petitioner" means any person adversely affected by a notice of the Administrator who requests a public hearing.

(o) The term "Presiding Officer" means any person designated by the Administrator to conduct an expedited hearing.

(p) The term "Recommended Decision" means the recommended findings and conclusions of the Presiding Officer in an expedited hearing.

(q) The term "Registrant" means any person who has registered a pesticide pursuant to the provisions of the Act.

(r) The term "Respondent" means the Assistant Administrator of the Office of Hazardous Materials Control of the Agency.

Terms defined in the Act and not explicitly defined herein are used herein with the meanings given in the Act.

§ 164.3 Scope and applicability of this part.

The provisions of Subpart B of this part shall govern proceedings, conducted pursuant to the provisions of the Act, concerning refusals to register, cancellations of registration, changes of classifications or hearings called by the Administrator; the provisions of Subpart C of this part shall govern suspension proceedings conducted pursuant to the provisions of the Act.

§ 164.4 Arrangements for examining Agency records, transcripts, orders, and decisions.

(a) *Reporting of orders, decisions, and other signed documents.* All orders, decisions, or other signed documents required by the rules in this part, whether issued by an Administrative Law Judge, Judicial Officer, Presiding Officer, or the Administrator, shall be made available to the public.

(b) Establishment of an Agency repository.—In addition, all transcripts and docket entries shall become part of the official docket and shall be retained by the hearing clerk. At least two copies of all final orders, decisions and a notification of any appeals taken therefrom shall be retained by the hearing clerk and filed chronologically and shall be periodically bound and indexed. All the above documents shall be made available to the public for reasonable inspections during Agency business hours.

(c) Whenever any information or data is required to be produced or examined and any party to the proceeding claims that such information is a trade secret or commercial or financial information, other than information relating to the formulas of a pesticide, the Administrative Law Judge, the Presiding Officer, the Judicial Officer or the Administrator may require production or testimony *in camera* and sealed to all but the parties.

(d) All orders, decisions, or other documents made or signed by the Administrative Law Judge, the Presiding Officer, the Judicial Officer or the Administrator shall be filed with the hearing clerk. The hearing clerk shall immediately serve all parties with a copy of such order, decision, or other document.

§ 164.5 Filing and service.

(a) All documents or papers required or authorized to be filed, shall be filed with the hearing clerk, except as provided otherwise in this part. At the same time that a party files documents or papers with the clerk, it shall serve upon all other parties copies thereof, with a certificate of service on each document or paper, including those filed with the hearing clerk. If filing is accomplished by mail addressed to the clerk, filing shall be deemed timely if the papers are postmarked on the due date except as to initial filings requesting a public hearing or responding to a notice of intent to hold a hearing, in which case such filings must be received by the hearing clerk either within the time required by statute or by the notice of intent to hold a hearing.

(b) Each document filed, other than papers commencing a proceeding, shall contain the FIFRA docket number and, if the document affects less than all of the registrations included under that docket number, the registration number or file symbol of each product which is the subject of the document.

(c) In addition to copies served on all other parties, each party shall file an original and two copies of all papers with the hearing clerk.

§ 164.6 Time.

(a) *Computation.* In computing any period of time prescribed or allowed by these rules, except as otherwise provided, the day of the act, event, or default from which the designated period of time begins to run shall not be included. Saturdays, Sundays, and legal holidays shall be included in computing the time allowed for the filing of any document or paper, except that when such time expires on a Saturday, Sunday, or legal holiday, such period shall be extended to include the next following business day.

(b) *Enlargement.* When by these rules or by order of the Administrative Law Judge, the Presiding Officer, the Judicial Officer or the Administrator, an act is required or allowed to be done at or within a specified time, the Administrative Law Judge (before his initial decision is filed), or the Presiding Officer (before his recommended decision is filed), or the Judicial Officer or the Administrator (after the Administrative Law Judge's initial decision or the Presiding Officer's recommended decision is filed), for cause shown may at any time in his discretion (1) with or without motion or notice, order the period enlarged if request therefor, which may be made ex parte, is made before the expiration of the period originally prescribed or as extended by a previous order, or (2) on motion made after the expiration of the specified period, permit the act to be done where the failure to act was the result of excusable neglect. In this connection, consideration shall be given to the fact that, under the provisions of the act, the Administrator must issue his order not later than 90 days after the completion of the hearing, unless all parties agree by stipulation to extend this period of time pursuant to § 164.103.

(c) *Additional time after service by mail.*—A prescribed period of time within which a party is required or permitted to do an act shall be computed from the time of service, except that when the service is made by mail, 3 days shall be added to the prescribed period. Such addition for service by mail shall not apply

in the case of filing initial requests for hearings or responding to a notice of intent to hold a hearing, in which cases statutory filing times will run from the date of the return receipt pursuant to § 164.8.

§ 164.7 Ex parte discussion of proceeding.

At no stage of a proceeding shall the Administrator, the Judicial Officer, the Presiding Officer, or the Administrative Law Judge discuss *ex parte* the merits of the proceeding with any party or with any person who has been connected with the preparation or presentation of the proceeding as an advocate, or in an investigative or expert capacity, or with any representative of such person: *Provided, however,* That the Administrator, the Judicial Officer, the Presiding Officer, or the Administrative Law Judge may discuss the merits of the case with any such person if all parties to the proceeding, or their representatives, have been given reasonable notice and opportunity to be present. Any memorandum or other communication addressed to the Administrator, the Judicial Officer, the Presiding Officer, or the Administrative Law Judge during the pendency of the proceeding, and relating to the merits thereof, by or on behalf of any party, shall be regarded as argument made in the proceeding. The Administrator, the Judicial Officer, the Presiding Officer, or the Administrative Law Judge shall cause any such communication to be filed with the hearing clerk and served upon all other parties to the proceeding who will be given the opportunity to file an answer thereto.

§ 164.8 Publication.

All notices of intention to cancel a registration, all notices of intention to change a classification, and all denials of registrations, all together with the reasons (including the factual basis therefor), and all notices of intention by the Administrator to hold a hearing, together with the statement of issues as provided by § 164.20(b) shall be sent to the registrant or applicant by registered or certified mail (return receipt requested), and published by appropriate announcement in the FEDERAL REGISTER by the Administrator. The Administrative Law Judge shall cause to be published in the FEDERAL REGISTER by appropriate announcement, a notice of the filing of any objections, pursuant to § 164.20(b) or responses pursuant to § 164.24, and a notice of the public hearing as provided by § 164.80 et seq. Said notice of public hearing shall designate the place where the hearing will be held and specify the time when the hearing will commence. The hearing shall convene at the place and time announced in the notice, unless amended by subsequent notice published in the FEDERAL REGISTER, but thereafter it may be moved to a different place and may be continued from day to day or recessed to a later day without other notice than announcement thereof at the hearing.

Subpart B—General Rules of Practice Concerning Proceedings (Other Than Expedited Hearings)

COMMENCEMENT OF PROCEEDING

§ 164.20 Commencement of proceeding.

(a) A proceeding shall be commenced whenever a hearing is requested by any person adversely affected by a notice of the Administrator of his refusal to register or of his intent to cancel the registration or to change the classification of a pesticide. A proceeding shall likewise be commenced whenever the Administrator decides to call a hearing to determine whether or not the registration of a pesticide should be canceled or its classification changed. Such request or notice of intent to hold a hearing shall be timely filed with the hearing clerk, and the matter shall be docketed and assigned a FIFRA docket number.

(b) If a request for a hearing is filed, the person filing the request shall, at the same time, file a document stating his objections to the Administrator's refusal to register or his intent to cancel the registration or to change the classification of a pesticide. If a notice of intent to hold a hearing is filed by the Administrator, he shall, at the same time, file a statement of issues.

(c) Upon the filing of any objections or notice of intent to hold a hearing, the proceeding shall be referred to the Chief Administrative Law Judge by the hearing clerk. The Chief Administrative Law Judge shall refer the proceeding to himself or another Administrative Law Judge who shall thereafter be in charge of all further matters concerning the proceeding, except as otherwise provided or by order of the Administrator or Judicial Officer.

§ 164.21 Contents of a denial of registration, notice of intent to cancel a registration, or notice of intent to change a classification.

(a) *Contents.* The denial of registration or a notice of intent to cancel a registration or to change a classification shall be accompanied by the reasons (including the factual basis) for the action.

(b) *Amendments to contents of denials and notices.* Such documents under this section may be amended or enlarged by the Administrator at any time prior to the commencement of the public hearing. If the Administrative Law Judge determines that additional time is necessary to permit a party to prepare for matters raised by such amendments, the commencement of the hearing shall be delayed for an appropriate period.

§ 164.22 Contents of document setting forth objections.

(a) *Concise statement required.* Any document containing objections to an order of the Administrator of his refusal to register, or his intent to cancel the registration, or change the classification of a pesticide, shall clearly and concisely set forth such objections and the basis for each objection, including relevant allegations of fact concerning the pesticide under consideration. The document shall indicate the registration number of the pesticide, if applicable, a copy of the currently accepted and/or proposed labeling and a list of the currently registered or proposed uses of said pesticide.

(b) *Amendments to objections by leave.* Objections may be amended at any time prior to the commencement of the public hearing by leave of the Administrative Law Judge or by written consent of all parties. The Administrative Law Judge shall freely grant such leave when justice so requires. If the Administrative Law Judge determines that additional time is necessary to permit a party to prepare for matters raised by amendments to objections, the commencement of the hearing shall be delayed for an appropriate period. This subsection shall not permit the addition, beyond the statutory deadline, of registered pesticides which are not included in the objections filed pursuant to paragraph (a) of this section.

(c) *Amendments to objections as a matter of right.* Objections may be amended as a matter of right within 30 days, or in such time as the Administrator shall designate, after the Administrator amends his notice of intent to cancel a registration, change a classification, or his refusal to register a pesticide.

§ 164.23 Contents of the statement of issues to accompany notice of intent to hold a hearing.

(a) *Concise statement required.*—The statement of issues by the Administrator shall set a time in which any person wishing to participate in the hearing shall file a written response to the statement of issues as provided by § 164.24. The statement of issues shall include questions as to which evidence shall be taken at the hearing. Those questions may include questions concerning whether a pesticide's registration should be canceled or its classification changed, whether its composition is such as to warrant the claims for it, whether its labeling and other material submitted comply with the requirements of the Act, whether it will perform its intended function without unreasonable adverse effects on the environment, and whether, when used in accordance with widespread and commonly recognized practice, it will or will not generally cause unreasonable adverse effects on the environment.

(b) *Amendment to statement of issues.* The statement of issues may be amended or enlarged by the Administrator at any time prior to the commencement of the public hearing. If the Administrative Law Judge determines that additional time is necessary to permit a party to prepare for matters raised by amendments or enlargements to the statement of issues, the commencement of the hearing shall be delayed for an appropriate period.

V 38 139 JUL 20 73 XUM

§ 164.24 Response to the Administrator's notice of intention to hold a hearing.

Any person wishing to participate in any proceeding commenced pursuant to any notice by the Administrator of intention to hold a hearing, shall file with the hearing clerk, within the time set by the Administrator in the notice (in no case less than 30 days from the date of the notice), a written response to the statement of issues which shall include the position and interest of such person with respect thereto. If any such person is a registrant or an applicant for registration, he shall also file the registration number of the pesticide, if applicable, a copy of the currently accepted and/or proposed labeling and a list of the currently registered or proposed uses of said pesticide.

§ 164.25 Filing copies of notification of intent to cancel registration or change classification or refusal to register, and statement of issues.

After a copy of the document setting forth the objections and requesting a public hearing is filed with the hearing clerk or a response to the statement of issues is filed, the hearing clerk shall serve a copy of the document upon Respondent and the Office of the General Counsel of the Agency. Respondent shall, by counsel, thereupon file with the hearing clerk a copy of the appropriate notice of intention to cancel, the notice of intention to change the classification or the registration refusal order.

APPEARANCES, INTERVENTION, AND CONSOLIDATION

§ 164.30 Appearances.

Representatives.—Parties may appear in person or by counsel or other representative. Persons who appear as counsel or in a representative capacity must conform to the standards of ethical conduct required of practitioners before the courts of the United States.

§ 164.31 Intervention.

(a) *Motion.* Any person may file a motion for leave to intervene in a hearing conducted under this subpart. A motion must set forth the grounds for the proposed intervention, the position and interest of the movant in the proceeding and the documents proposed to be filed pursuant to either § 164.24 or § 164.22.

(b) *When filed.* A motion for leave to intervene in a hearing must ordinarily be filed prior to the commencement of the first prehearing conference. Any motion filed after that time must contain, in addition to the information set forth in paragraph (a) of this section, a statement of good cause for the failure to file the motion prior to the commencement of the first prehearing conference, and shall be granted only upon a finding (1) that extraordinary circumstances justify the granting of the motion, or (2) that the intervenor shall be bound by agreements, arrangements, and other matters previously made in the proceeding.

(c) *Disposition.* Leave to intervene will be freely granted but only insofar as such leave raises matters which are pertinent to and do not unreasonably broaden the issues already presented. If leave is granted, the movant shall thereby become a party with the full status of the original parties to the proceedings. If leave is denied, the movant may request that the ruling be certified to the Administrator, pursuant to § 164.100 for a speedy appeal.

(d) *Amicus curiae.* Persons not parties to the proceedings wishing to file briefs may do so by leave of the Administrative Law Judge granted on motion. A motion for leave shall identify the interest of the applicant and shall state the reasons why the proposed amicus brief is desirable. Unless all parties otherwise consent, an amicus curiae shall file its brief within the time allowed the party whose position the brief will support. Upon a showing of good cause, the Administrator or Administrative Law Judge may grant permission for later filing.

§ 164.32 Consolidation.

The Chief Administrative Law Judge, by motion or sua sponte, may consolidate two or more proceedings whenever it appears that this will expedite or simplify consideration of the issues. Consolidation shall not affect the right of any party to raise issues that could have been raised if consolidation had not occurred. At the conclusion of proceedings consolidated under this section, the Administrative Law Judge shall issue one decision under § 164.90 unless one or more of the consolidated proceedings have been dismissed pursuant to § 164.91.

ADMINISTRATIVE LAW JUDGE

§ 164.40 Qualifications and duties of Administrative Law Judge.

(a) *Qualifications.* The Administrative Law Judge shall have the qualifications required by statute. He shall not decide any matter in connection with a proceeding where he has a financial interest in any of the parties or a relationship with a party that would make it otherwise inappropriate for him to act.

(b) *Disqualification of the Administrative Law Judge.* (1) Any party may, by motion made to the Administrative Law Judge, as soon as practicable, request that he disqualify himself and withdraw from the proceeding. The Administrative Law Judge shall then rule upon the motion and, upon request of the movant, shall certify an adverse ruling for appeal.

(2) *Withdrawal sua sponte.* The Administrative Law Judge may at any time withdraw from any proceeding in which he deems himself disqualified for any reason.

(c) *Conduct.* The Administrative Law Judge shall conduct the proceeding in a fair and impartial manner subject to the precepts of the Canons of Judicial Ethics of the American Bar Association.

(d) *Power.* Subject to review, as provided elsewhere in this part, the Administrative Law Judge shall have power to take actions and decisions in conformity with statute or in the interests of justice. The Administrative Law Judge shall not interrupt the recording of the proceedings on the record over the objection of any party.

(e) *Absence or change of the Administrative Law Judge.* In the case of the absence of the Administrative Law Judge, or his inability to act, or his removal by disqualification or withdrawal, the powers and duties to be performed by him under this part in connection with a hearing assigned to him may, without abatement of the proceeding unless otherwise directed by the Administrator, be assigned to another Administrative Law Judge so designated to act by the Administrator.

PREHEARING PROCEDURES AND DISCOVERY

§ 164.50 Prehearing conference and primary discovery.

(a) *Purpose of the prehearing conference.* Except as otherwise provided in paragraph (d) of this section, the Administrative Law Judge shall, prior to the commencement of the hearing and for the purpose of expediting the hearing, file with the hearing clerk an order for a prehearing conference. More than one such conference may be held. Such order or orders shall direct the parties or their counsel to appear at a specified time and place to consider:

(1) The simplification of issues including listing of specific uses to be contested;

(2) The necessity or desirability of amendments to the objections or statement of issues, or any document filed in response thereto;

(3) The possibility of obtaining stipulations of fact and documents which will avoid unnecessary delay;

(4) Matters of which official notice may be taken;

(5) The limitation of the number of expert and other witnesses;

(6) Procedure at the hearing except as so provided in § 164.80(a);

(7) The use of verified written statements in lieu of oral direct testimony;

(8) The intent of any party to request a scientific advisory committee as defined in § 164.2(f);

(9) The issuance of subpoenas and subpoenas duces tecum for discovery and hearing purposes;

(10) A setting of a time and place for the public hearing, after giving careful consideration to the convenience of all the parties, the witnesses, the public interest and the necessity for notice in the FEDERAL REGISTER as provided by § 164.8; and

(11) Any other matter that may expedite the hearing or aid in the disposition of the proceeding.

(b) *Primary discovery (Exchange of witness lists and documents).* At a prehearing conference or within some reasonable time set by the Administrative Law Judge prior to the hearing, each party shall make available to the other parties the names of the expert and other witnesses the party expects to call, together with a brief narrative summary of their expected testimony and a list of all documents and exhibits which the party expects to introduce into evidence.

Thereafter, witnesses, documents, or exhibits may be added and narrative summaries of expected testimony amended upon motion by a party.

(c) *Record of the prehearing conference.* No transcript of any prehearing conference shall be made unless a request therefor by one of the parties is granted by the Administrative Law Judge. Such party shall bear the cost of the taking of the transcript unless otherwise ordered by the Administrative Law Judge. The Administrative Law Judge shall prepare and file for the record a written report of the action taken at each conference, which shall incorporate any stipulations or agreements made by the parties at or as a result of such conference, all rulings upon matters considered at such conference and appropriate orders.

(d) *Unavailability of a prehearing conference.* Upon a finding that circumstances render a prehearing conference unnecessary, or impracticable, or upon a finding that a prehearing conference would serve primarily to delay the proceedings rather than to expedite them, the Administrative Law Judge, on motion or sua sponte, may order that the prehearing conference not be held. In these circumstances he may request the parties to correspond with him for the purpose of accomplishing any of the objectives set forth in this section. Such correspondence shall not be made a part of the record, but the Administrative Law Judge shall submit a written summary for the record if any action is taken.

(e) *Submission of questions to an advisory committee*—(1) *General.* At any prehearing conference, or if none is held prior to the public hearing, except as herein provided, the Administrative Law Judge shall determine whether any party desires that questions of scientific fact be referred to a committee designated by the National Academy of Sciences .

(2) Preparation of questions. On determining an affirmative intent, the Administrative Law Judge shall direct all parties to file and serve, within a time period subject to his discretion, proposed questions of scientific fact accompanied by reasons supporting their submission to said committee. Within 10 days of the service of such proposed questions, together with their supporting reasons, any party may respond in writing to the proposed submission of the questions to the said committee. The Administrative Law Judge shall determine whether or not a reference of questions of scientific fact to said committee is necessary or desirable. In the event he decides such reference is necessary or desirable, he shall so inform the National Academy in writing, and shall prepare in his discretion appropriate questions. If any of the questions prepared are not in substance based upon the submissions of the parties, the Administrative Law Judge shall permit any party 10 days after their preparation to respond in writing to the proposed submission of said question or questions. He shall then determine whether such questions should be referred to the committee.

(3) *Reference and report.* Not less than 30 days after he has informed the National Academy that questions of scientific fact will be referred to it, the Administrative Law Judge shall refer the questions of scientific fact as prepared. The committee shall report in writing to the Administrative Law Judge within 60 days after such referral on these questions of scientific fact and the report, its record and any other matter transmitted as provided for by the Administrator's agreement with the National Academy of Sciences shall be made public and considered as part of the hearing record.

(4) *Request and submission subsequent to prehearing conference.* At any time before the hearing record is closed, the Administrative Law Judge or a party by motion may request that questions of scientific fact not previously referred be amended or expanded. The Administrative Law Judge may refer such questions if he finds that good cause exists and that reference of such questions is necessary or desirable.

§ 164.51 Other discovery.

(a) *General.* Except as so provided by § 164.50(b) *supra*, further discovery, under this subpart, shall be permitted only upon determination by the Administrative Law Judge (1) that such discovery shall not in any way unreasonably delay the proceeding, (2) that the information to be obtained is not otherwise obtainable and (3) that such information has significant probative value. The Administrative Law Judge shall be guided by the procedures set forth in the Federal Rules of Civil Procedure, where practicable, and the precedents thereunder, except that no discovery shall be undertaken except upon order of the Administrative Law Judge or upon agreement of the parties.

(b) *Depositions upon oral questions.* The Administrative Law Judge shall order depositions upon oral questions only upon a showing of good cause and upon a finding that (1) the information sought cannot be obtained by alternative methods, or (2) there is a substantial reason to believe that relevant and probative evidence may otherwise not be preserved for presentation by a witness at the hearing.

(c) *Procedure.* (1) Any party to the proceeding desiring discovery shall make a motion or motions therefor. Such a motion shall set forth (i) the circumstances warranting the taking of the discovery, (ii) the nature of the information expected to be discovered and (iii) the proposed time and place where it will be taken.

(2) If the Administrative Law Judge determines the motion should be granted, he shall issue an order and appropriate subpoenas, if necessary, for the taking of such discovery together with the conditions and terms thereof.

MOTIONS

§ 164.60 Motions.

(a) *General.* All motions, except those made orally during the course of a public hearing or as otherwise provided by this part, shall be in writing and shall state with particularity the grounds therefor, shall set forth the relief or order sought, and shall be filed with the hearing clerk and served on all parties.

(b) *Response to motions.* Within 10 days after service of any motion filed pursuant to this part, or within such other time as may be fixed by the Administrator, his designee, or the Administrative Law Judge, any party may serve and file an answer to the motion. The movant shall, if requested by the Administrator, his designee, or the Administrative Law Judge, serve and file reply papers within the time set by the request.

(c) *Decision.* The Administrative Law Judge shall rule upon all motions filed or made prior to the filing of his initial or accelerated decision at the time of filing on ex parte motions or where the movant has stated that no party objects to the granting of such motion. Otherwise, such decision shall await the answering papers and reply papers if permitted. The Administrator or the Judicial Officer shall rule upon all motions filed after the filing of the initial or accelerated decision. Oral argument of motions will be permitted only if the Administrative Law Judge or Administrator or the judicial officer deems it necessary.

SUBPOENAS AND WITNESS FEES

§ 164.70 Subpoenas.

(a) The attendance of witnesses or the production of documentary evidence may, by subpoena, be required at any designated place of hearing or place of discovery. Subpoenas may be issued by the Administrative Law Judge sua sponte or upon a showing by an applicant that evidence sought for hearing is relevant and material to the issues involved in the hearing or that the sought discovery pursuant to § 164.51 meets the standards set forth therein. The Administrative Law Judge shall be guided by the principles of the Federal Rules of Civil Procedure in making any order for the protection of a witness or the content of the documents produced.

(b) *Motion for subpoena duces tecum.* Subpoenas for the production of documentary evidence, unless issued by the Administrative Law Judge sua sponte, shall be issued only upon a written motion. Such motion shall specify, as exactly as possible, the documents desired.

(c) *Service of subpoenas.* Subpoenas shall be served as provided by the Federal Rules of Civil Procedure.

§ 164.71 Fees of witnesses.

Witnesses summoned before the Administrative Law Judge shall be paid the same fees and mileage that are paid witnesses in the courts of the United States, and persons whose depositions are taken, and the persons taking the same, shall be entitled to the same fees as are paid for like services in the courts of the United States. Fees shall be paid by the party at whose instance the witness appears or the deposition is taken.

V 38 I 139 JUL 20 73 XUM

THE HEARINGS

§ 164.80 Order of proceeding and burden of proof.

(a) At the hearing, the proponent of cancellation or change in classification has the burden of going forward to present an affirmative case for the cancellation or change in classification of the registration. In the case of the denial of an application for registration, the applicant shall have the burden of going forward. In the case of a hearing called by the Administrator, the Respondent has the burden of going forward to present an affirmative case as to the statement of issues. The party having the burden of going forward shall have the opportunity to submit evidence on rebuttal.

(b) On all issues arising in connection with the hearing, the ultimate burden of persuasion shall rest with the proponent of the registration.

(c) If any party, other than Respondent, after being duly notified, fails to appear at the hearing, he shall be deemed to have authorized the Administrative Law Judge to dismiss the proceeding with or without prejudice, as the Administrative Law Judge may determine, unless a motion excusing the failure to appear has been made and granted. In the event that a party appears at the hearing and no representative of the Agency appears, the Administrative Law Judge shall proceed *ex parte* to hear the evidence of the party: *Provided*, That failure on the part of Respondent to appear at a hearing shall not be deemed to be a waiver of Respondent's right to file proposed findings of fact, conclusions of law and orders, to be served with a copy of the Administrative Law Judge's initial or accelerated decision, and to file exceptions with and to submit argument before the Administrator with respect thereto.

§ 164.81 Evidence.

(a) *General.* The Administrative Law Judge shall admit all relevant, competent and material evidence, except evidence that is unduly repetitious. Relevant, competent and material evidence may be received at any hearing even though inadmissible under the rules of evidence applicable to judicial proceedings. The weight to be given evidence shall be determined by its reliability and probative value. In all hearings the testimony of witnesses shall be taken orally, except as otherwise provided by these rules or by the Administrative Law Judge. Parties, however, shall have the right to cross-examine a witness who appears at the hearing, provided that such cross examination is not unduly repetitious.

(b) *Report of a committee of the National Academy of Sciences.*—If questions have been submitted to a committee designated by the National Academy pursuant to § 164.50(e), the report of the committee, other material that may be required by the Administrator and a list of witnesses and evidence relied upon shall be received into evidence and made part of the record of the hearing. Objections to the report may also be made part of the record and go to the weight of its evidentiary value.

(c) *Objections.* If a party objects to the admission or rejection of any evidence or the limitation of the scope of any examination or cross-examination, he shall state briefly the grounds for such objection. The transcript shall include any argument or debate thereon, unless the Administrative Law Judge, with the consent of all parties, orders that such argument not be transcribed. The ruling and the reasons given therefor by the Administrative Law Judge on any objection shall be a part of the transcript. An automatic exception to that ruling will follow.

(d) *Exhibits.* Except where the Administrative Law Judge finds that the furnishing of copies is impracticable, a copy of each exhibit filed with the Administrative Law Judge shall be furnished to each other party. A true copy of an exhibit may, in the discretion of the Administrative Law Judge, be substituted for the original.

(e) *Official notice.* Official notice may be taken of such matters as are judicially noticed in the Federal courts: *Provided, however*, That the parties shall be given adequate opportunity to show that such facts are erroneously noticed.

(f) *Offer of proof.* Whenever evidence is deemed inadmissible, the party offering such evidence may make an offer of proof, which shall be included in the transcript. The offer of proof for excluded oral testimony shall consist of a brief statement describing the nature of the evidence excluded. If the evidence consists of a document or exhibit, it shall be inserted in the record in total. In the event the Administrator decides that the Administrative Law Judge's ruling in excluding the evidence was erroneous and prejudicial, the hearing may be reopened to permit the taking of such evidence, or, where appropriate, the Administrator may evaluate the evidence and proceed to a final decision.

(g) *Verified statements.* With the approval of the Administrative Law Judge, a witness may insert into the record, as his testimony, statements of fact or opinion prepared by him or written answers to interrogatories of counsel, or may submit as an exhibit his prepared statement, provided that such statements or answers must not include legal argument. Before any such statement or answer is read or admitted into evidence the witness shall deliver to the Administrative Law Judge, the reporter, and opposing counsel a copy of such. The admissibility of the evidence contained in such statement shall be subject to the same rules as if such testimony were produced in the usual manner and the witness shall be subject to oral cross-examination on the contents of such statements. Approval for such a procedure may be denied when it appears to the Administrative Law Judge that the memory or the demeanor of the witness is of importance.

§ 164.82 Transcripts.

(a) *Filing and certification.* Hearings shall be stenographically reported, transcribed and made available to the public as required by statute or Agency regulations. As soon as practicable after the taking of the last evidence, the Administrative Law Judge shall certify (1) that the original transcript is a true transcript of the testimony offered or received at the hearing, except in such particulars as he shall specify and (2) that the exhibits accompanying the transcript are all the exhibits introduced at the hearing, with such exceptions as he shall specify. A copy of such certificate shall be attached to each of the copies of the transcript.

INITIAL OR ACCELERATED DECISION

§ 164.90 Initial decision.

(a) *Proposed findings of fact, conclusions, and order.* Within 20 days after the last evidence is taken in a hearing, each party may file with the hearing clerk proposed orders, findings of fact, and conclusions of law based solely on the record, and a brief in support thereof. Within 10 days thereafter, each party may file a reply brief. The Administrative Law Judge may, in his discretion, extend the total time period for filing any proposed findings, conclusions, orders or briefs for an additional 30 days. In such instances, briefs and replies shall be due at such time as the Administrative Law Judge may fix by order. The hearing shall be deemed closed at the conclusion of the briefing period.

(b) *Initial decision.* The Administrative Law Judge, within 25 days after the close of the hearing, shall evaluate the record before him, and prepare and file his initial decision with the hearing clerk. A copy of the initial decision shall be served upon each of the parties, and the hearing clerk shall immediately transmit a copy to the Administrator. The initial decision shall become the decision of the Administrator without further proceedings unless an appeal is taken from it or the Administrator orders review of it, pursuant to § 164.101.

§ 164.91 Accelerated decision.

(a) *General.* The Administrative Law Judge, in his discretion, may at any time render an accelerated decision in favor of Respondent as to all or any portion of the proceeding, including dismissal without further hearing or upon such limited additional evidence such as affidavits as he may receive, under any of the following conditions:

(1) Untimely or insufficient objections filed pursuant to § 164.20;

(2) Failure to comply with discovery orders;

(3) Failure to comply with prehearing orders;

(4) Failure to appear or to proceed at prehearing conferences;

(5) Failure to appear at the hearing;

(6) Failure to state a claim upon which relief can be granted, or direct or collateral estoppel.

(7) That there is no genuine issue of any material fact and that the respondent is entitled to judgment as a matter of law; or

(8) Such other and further reasons as are just.

(b) *Effect.* A decision rendered under this section shall have the same force and effect as an initial decision entered under § 164.90.

APPEALS

§ 164.100 Appeals from or review of interlocutory orders or rulings.

Except as provided herein, appeals as a matter of right shall lie to the Administrator only from an initial or accelerated decision of the Administrative Law Judge. Appeals from other orders or rulings shall, except as provided in this section, lie only if the Administrative Law Judge certifies such orders or rulings for appeal, or otherwise as provided. The Administrative Law Judge may certify an order or ruling for appeal to the Administrator when: (a) The order or ruling involves an important question of law or policy about which there is substantial ground for difference of opinion; and (b) either (1) an immediate appeal from the order and ruling will materially advance the ultimate termination of the proceeding or (2) review after the final judgment is issued will be inadequate or ineffective. The Administrative Law Judge shall certify orders or rulings for appeal only upon the request of a party. If the Administrator determines that certification was improvidently granted, or takes no action within thirty (30) days of the certification, the appeal shall be deemed dismissed. When an order or ruling is not certified by the Administrative Law Judge, it shall be reviewed by the Administrator only upon appeal from the initial or accelerated decision except when the Administrator determines, upon request of a party and in exceptional circumstances, that delaying review would be deleterious to vital public or private interests. Except in extraordinary circumstances, proceedings will not be stayed pending an interlocutory appeal; where a stay is granted, a stay of more than 30 days must be approved by the Administrator. Ordinarily, the interlocutory appeal will be decided on the basis of the submission made to the Administrative Law Judge, but the Administrator may allow further briefs and oral argument.

§ 164.101 Appeals from or review of initial decisions.

(a) *Exceptions and request for oral argument.* (1) Within 20 days after filing of the Administrative Law Judge's initial decision, each party may take exception to any matter set forth in such decision or to any adverse order or ruling to which he objected during the hearing and may appeal such exceptions to the Administrator for decision by filing them in writing with the hearing clerk, including a section containing proposed findings of fact, conclusions, orders, or rulings. Within the same period of time each party filing exceptions and amicus curiae shall file with the hearing clerk a brief concerning each of the exceptions being appealed. The party shall include, in its brief, page references to the relevant portions of the record and to the Administrative Law Judge's initial decision.

(2) Within 7 days of the service of exceptions, and of a brief under paragraph (a) (1) of this section, any other party or amicus curiae may file and serve a brief responding to exceptions or arguments raised by any other party. Such brief shall include references to the relevant portions of the record. Such brief shall not, however, raise additional exceptions.

(3) Five copies of all material filed under this section shall be filed with the hearing clerk.

(b) *Review by Administrator when no exceptions are filed.* If no exceptions are filed within the time provided, the hearing clerk shall notify the Administrator 30 days from the date of filing of the Administrative Law Judge's initial decision. Within 10 days after said notification, the Administrator shall issue an order either declining review of the initial decision or expressing his intent to review said initial decision. Such order may include a statement of issues to be briefed by the parties and a time schedule concerning service and filing of briefs adequate to allow the Administrator to issue a final order within 90 days from the close of the hearing.

(c) *Argument before the Administrator.* (1) A party, if he files exceptions and a brief, shall state in writing whether he desires to make an oral argument thereon before the Administrator; otherwise, he shall be deemed to have waived such oral argument. The Administrator shall, however, on his own initiative, have the right to set an appeal for oral argument.

(2) If the Administrator determines that additional exceptions should be argued, counsel for the parties shall be given reasonable written notice of such determination so as to permit preparation of adequate argument on all the exceptions to be argued.

§ 164.102 Appeals from accelerated decisions.

(a) Within 20 days after filing of an accelerated decision by the Administrative Law Judge, any party may file exceptions and a supporting brief with the hearing clerk, stating with particularity the grounds upon which he asserts that the decision is incorrect. The party shall include in its brief page references to the relevant portions of the record, if applicable.

(b) Within 7 days of the service of exceptions and brief under paragraph (a) of this section, any other party or amicus curiae may file and serve a brief responding thereto, with appropriate page references to the relevant portions of the record, if applicable.

(c) Ordinarily, the appeal from an accelerated decision will be decided on the basis of the submission of briefs, but the Administrator may allow additional briefs and oral argument.

§ 164.103 Final decision or order on appeal or review.

Within 90 days after the close of the hearing or within 90 days from the filing of an accelerated decision, unless otherwise stipulated by the parties, the Administrator shall, on appeal or review from an initial or accelerated order of the Administrative Law Judge, issue his final decision and order, including his rulings on any exceptions filed by the parties; such final order may accept or reject all or part of the initial or accelerated decision of the Administrative Law Judge even if acceptable to the parties.

§ 164.110 Motion for reopening hearings; for rehearing; for reargument of any proceeding; or for reconsideration of order.

(a) *Filing; service.* A motion for reopening the hearing to take further evidence, or for rehearing or reargument of any proceeding or for reconsideration of the order, must be made by motion to the Administrator filed with the hearing clerk. Every such motion must state specifically the grounds relied upon.

(b) *Motion to reopen hearings.* A motion to reopen a hearing to take further evidence may be filed at any time prior to the issuance of the Administrator's final order. Every such motion shall state briefly the nature and purpose of the evidence to be adduced, shall show that such evidence is not merely cumulative, and shall set forth good reason why such evidence was not adduced at a hearing.

(c) *Motions to rehear or reargue proceedings, or to reconsider final orders.* A motion to rehear or reargue the proceeding or to reconsider the final order shall be filed within 10 days after the date of service of the final order. Every such motion must state specifically the matters claimed to have been erroneously decided and alleged errors must be briefly stated.

§ 164.111 Procedure for disposition of motions.

Within 7 days following the service of any motion provided for in § 164.110, any other party to the proceeding may file with the hearing clerk an answer thereto. As soon as practicable thereafter, the Administrator shall announce his decision whether to grant or to deny the motion. Unless the Administrator shall determine otherwise, operation of the order shall not be stayed pending the decision to grant or to deny the motion. In the event that any such motion is granted by the Administrator, the applicable rules of practice, as set out elsewhere herein, shall be followed.

Subpart C—General Rules of Practice for Expedited Hearings

§ 164.120 Notification.

(a) Whenever the Administrator determines that action is necessary to prevent an imminent hazard during the time required for cancellation or change in

V 38 - 139 JUL 20 73 XUM

classification proceedings, but that the hazard does not constitute an emergency, he shall notify the registrant of his intention to suspend registration of the pesticide at issue.

(b) Such notice shall include findings pertaining to the question of imminent hazard and shall either be personally served on the registrant or be sent to the registrant by registered or certified mail, return receipt requested, and filed with the hearing clerk.

§ 164.121 Expedited hearing.

(a) *Request.* (1) An expedited hearing shall be held whenever the Administrator has received from the registrant a timely request for such hearing in response to the Administrator's notice of intention to suspend.

(2) A request for an expedited hearing is timely if made in writing or by telegram and filed with the office of the hearing clerk within 5 days of the registrant's receipt of the notice of intention to suspend.

(3) At the time of filing a request for an expedited hearing, the registrant shall also file a document setting forth objections to the Administrator's notice of intention to suspend and its findings pertaining to the question of imminent hazard. Such objections shall conform to the requirements of § 164.21.

(b) *Presiding officer.* (1) An expedited hearing shall be conducted by a presiding officer appointed by the Administrator, and such officer need not be an Administrative Law Judge.

(2) The presiding officer shall not have the authority to make an initial decision on the merits but shall make a recommended decision only.

(c) *The issue.* The expedited hearing shall address only the issue of whether an imminent hazard exists.

(d) *Time of hearing.* The hearing shall commence within 5 days after the filing of the request with the office of the hearing clerk unless the registrant and respondent agree that it shall commence at a later time. As soon as possible, the presiding officer shall publish in the Federal Register notice of such hearing.

(e) *Intervention.* Any person adversely affected by the Administrator's notice may move to intervene within 5 days after the receipt by the registrant of said notice or at any time prior to the conclusion of the presentation of the evidence, upon good cause found, except

(1) Leave to intervene will be granted only if the motion to intervene meets the standards of § 164.31 and, in addition, indicates that the movant would raise matters or introduce evidence pertinent to the issue of imminent hazard which would substantially assist in its resolution.

(2) A movant denied permission to intervene under this section but who otherwise meets the standards of § 164.31 and who is adversely affected may file proposed findings and conclusions and briefs in support thereof pursuant to paragraph (j) of this section. Any person filing under this subsection shall be deemed to have been a party to the proceeding, for all purposes of its further review.

(3) When an "emergency order" is issued pursuant to § 164.123, no person other than the respondent and the registrant shall participate in the hearing except that any person adversely affected may file proposed findings and conclusions and briefs in support thereof pursuant to paragraph (j) of this section. Any person filing under this subsection shall be deemed to have been a party to the proceeding for all purposes of its further review.

(f) *Appearances and consolidation.* The provisions of §§ 164.30 and 164.32 apply to an expedited hearing insofar as may be practicable.

(g) *Order of proceeding and burden of proof.* At the hearing, the proponent of suspension shall have the burden of going forward to present an affirmative case for the suspension. However, the ultimate burden of persuasion shall rest with the proponent of the registration.

(h) *Evidence.* The provisions of § 164.81, where applicable, apply to an expedited hearing.

(i) *Transcripts.* The presiding officer shall make provision for daily transcripts and otherwise comply with the provisions of § 164.82.

(j) *Proposed findings or conclusions; recommended decision.* (1) Within 4 days of the conclusion of the presentation of evidence, the parties may propose findings and conclusions to the Presiding Officer. Such proposed findings and conclusions shall be accompanied by a brief with supporting reasons.

(2) Within 8 days of the conclusion of the presentation of evidence, the Presiding Officer shall submit to the parties his proposed recommended findings and conclusions and a statement of the reasons on which they are based.

(3) Within 10 days of the conclusion of the presentation of evidence the Presiding Officer shall submit to the Administrator his recommended findings and conclusions, together with the record.

(4) Within 12 days of the conclusion of the presentation of evidence the parties shall submit to the Administrator their objections to the Presiding Officer's recommended findings and conclusions and written briefs in support thereof.

§ 164.122 Final order and order of suspension.

(a) *Final order.* Within 7 days of receipt of the record and of the Presiding Officer's recommended findings and conclusions, the Administrator shall issue a final decision and order. Such final order may accept or reject in whole or in part the recommendations of the Presiding Officer.

(b) *Order of suspension.* No final order of suspension shall be issued unless the Administrator has issued or at the same time issues a notice of his intention to cancel the registration or change the classification of the pesticide. Such notice shall be given as provided in § 164.8.

§ 164.123 Emergency order.

(a) Whenever the Administrator determines that an emergency exists that does not permit him to hold a hearing before suspension, he may issue a suspension order in advance of notification to the registrant.

(b) The Administrator shall immediately notify the registrant of the suspension order. The registrant may then request a hearing in accordance with §§ 164.121 and 164.122, but the suspension order shall remain in effect during the hearing pending the issuance of a final order on suspension.

Dated: July 13, 1973.

DAVID D. DOMINICK,
Assistant Administrator for Hazardous Materials Control.

[FR Doc.73-14967 Filed 7-19-73;8:45 am]

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 16; Amdt. 99-7]

PART 99—EMPLOYEE RESPONSIBILITIES AND CONDUCT

Appendix C—List of Employees Required To Submit Statements of Employment and Financial Interest

PATENT COUNSEL

The purpose of this amendment is to reflect the fact that the position of Patent Advisor, GS-15, in the Office of the General Counsel of the Federal Aviation Administration has been transferred to the Office of the General Counsel in the Office of the Secretary of Transportation under the title of Patent Counsel.

Since this amendment relates to Departmental management, procedures, and practices, notice and public procedure thereon are unnecessary and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, effective July 20, 1973, Appendix C of Part 99 of Title 49, Code of Federal Regulations, is amended as follows:

1. In Part I, Office of the Secretary of Transportation, the list of employees in the Office of the General Counsel is amended by adding at the end thereof "Patent Counsel", as follows:

I. OFFICE OF THE SECRETARY OF TRANSPORTATION

* * * * * * *

OFFICE OF THE GENERAL COUNSEL

* * * * * * *

Patent Counsel.

2. In Part II, Federal Aviation Administration, the list of employees in the Office of the General Counsel is amended by deleting "Patent Advisor, GS-15".

(Executive Order 11222, 30 FR 6469; sec. 9, Department of Transportation Act, 49 U.S.C. 1657; § 1.59(m) of the Regulations, Office of Secretary of Transportation, 49 CFR 1.59(m))

Issued in Washington, D.C., on July 16, 1973.

J. THOMAS TIDD,
Acting General Counsel.

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

SUBCHAPTER B—HUNTING AND POSSESSION OF WILDLIFE

PART 10—MIGRATORY BIRDS

Hunting Seasons for Puerto Rico and the Virgin Islands—1973-74; Amendment

Open season dates for doves and pigeons in Puerto Rico and the Virgin Islands were published in the FEDERAL REGISTER on June 29, 1973 (38 FR 17231).

Based on recent information from the Secretary of Natural Resources for Puerto Rico, it is determined that the dove and pigeon season dates for Puerto Rico should be changed from September 15–November 18, 1973, to July 21–September 28, 1973.

It is determined that this change in the Puerto Rico dove and pigeon season dates will be of public benefit by permitting the hunting of these species ten weeks earlier during a period which coincides with traditional seasons of recent years. For this reason, it is found that notice and public procedure thereon are impracticable, unnecessary, and contrary to the public interest. This amendment shall be effective on July 21, 1973.

Accordingly, in § 10.101 of this part, paragraph (a) is amended to read as follows:

§ 10.101 Seasons, limits, and shooting hours for Puerto Rico and the Virgin Islands.

(a) *Puerto Rico*

	Doves	Pigeons
Daily bag limit.	10 singly or in the aggregate of all permitted species.	5 singly or in the aggregate of all permitted species.
Possession limit.	10 singly or in the aggregate of all permitted species.	5 singly or in the aggregate of all permitted species.
Open season dates.	July 21 to September 28, 1973.	

* * * * * *

Authority: 40 Stat. 755, 16 U.S.C. 703 et seq.

SPENCER H. SMITH,
Director, Bureau of Sport Fisheries and Wildlife.

July 17, 1973.

PART 32—HUNTING

Arrowwood and Chase Lake National Wildlife Refuges, North Dakota

The following special regulations are issued and are effective on July 20, 1973.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NORTH DAKOTA

ARROWWOOD NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Arrowwood National Wildlife Refuge, North Dakota, is permitted only on the area designated by signs as open to hunting. This open area, comprising 15,900 acres, is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 West 6th Avenue, Denver, Colorado 80215. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following conditions:

(1) Hunting with guns is not permitted.

(2) The open season for hunting deer on the refuge is from 12:00 Noon to sunset on August 24, 1973 and from ½ hour before sunrise to sunset thereafter thru the day before the 1973 waterfowl hunting season starts. Bow hunting will be permitted again on November 19, 1973 and remain open until December 31, 1973.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 31, 1973.

CHASE LAKE NATIONAL WILDLIFE REFUGE

Public hunting of deer on Chase Lake National Wildlife Refuge, North Dakota, is closed for the 1973 season.

JIM MATTHEWS,
Refuge Manager, Arrowwood National Wildlife Refuge, Edmunds, North Dakota.

JULY 11, 1973.

[FR Doc.73-14888 Filed 7-19-73;8:45 am]

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 2-73-2R]

PART 127—SECURITY ZONES

McClellan-Kerr Arkansas River Navigation System, Arkansas

This amendment to the Coast Guard's Security Zone Regulations establishes the Arkansas River, from Mile 51.7 to Mile 19.0, the Arkansas Post Canal, from Mile 19.0 to Mile 9.8, and the White River, from Mile 9.8 to Mile 7.1, as a security zone. This security zone is established to provide for safe movement and installation of a newly constructed bridge span from the construction site at Mile 50.5, Arkansas River, to the installation site at Mile 7.5, White River.

This amendment is issued without publication of a notice of proposed rulemaking and this amendment is effective in less than 30 days from the date of publication, because good cause exists and public procedures are impracticable because safety considerations require movement of the bridge span during river conditions anticipated during the effective period.

In consideration of the foregoing, Part 127 of Title 33 of the Code of Federal Regulations is amended by adding § 127.202, to read as follows:

§ 127.202 Security Zone, McClellan-Kerr Arkansas River Navigation System, Mile 51.7 to Mile 7.1.

The waters within the following boundary is a security zone: a line beginning at Swan Lake Light, Mile 51.7, Arkansas River; thence along the left descending river bank to the entrance to the Arkansas Post Canal; thence along the left descending bank of the Arkansas Post Canal to the juncture of the White River; thence along the left descending bank of the White River to Benzal Light, Mile 7.1; thence along a line perpendicular to the axis of the river across the river to the opposite bank; thence upstream along the right descending bank of the White River to the juncture of the Arkansas Post Canal; thence along the right descending bank of the Arkansas Post Canal to the juncture of the Arkansas River; thence along the right descending river bank to a point on aline from Swan Lake Light, Mile 51.7, Arkansas River, perpendicular to the axis of the river; thence to the beginning point.

(46 Stat. 220, as amended, Section 6(b), 80 Stat. 937, 50 U.S.C. Section 191, 49 U.S.C. Section 1655(b); E.O. 10173, E.O. 10277, E.O. 10352, E.O. 11249; 3 CFR, 1949-1953 Comp. 356, 778, 873, 3 CFR, 1964-1965 Comp. 349, 33 CFR Part 6, 49 CFR 1.46(b))

Effective date. This amendment is effective from 6:00 a.m. C.d.t., July 23, 1973 to 12:00 Midnight C.d.t., August 15, 1973.

Dated: July 17, 1973.

H. D. MUTH,
Captain, U.S. Coast Guard, Acting Commander, Second Coast Guard District, St. Louis, Missouri.

[FR Doc.73-15036 Filed 7-19-73;8:45 am]

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 595]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period July 22-28, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season averages returns to the parity price for lemons.

§ 910.895 Lemon Regulation 595.

(a) *Findings.* (1) Pursuant to the

V 381139 JUL 20 73 XUM

marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons continues similar to last week, strong for first grade fruit and somewhat weaker for second grade fruit. Demand for 165's and smaller continues strong, is steady for 140's, and has improved for 115's and larger. Supplies generally are adequate for larger sizes and are short for 140's and smaller lemons. Average f.o.b. price was $4.96 per carton the week ended July 14, 1973, compared to $5.04 per carton the previous week. Track and rolling supplies at 163 cars were down 52 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 17, 1973.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period July 22, 1973, through July 28, 1973, is hereby fixed at 300,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 19, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-15088 Filed 7-19-73;11:51 am]

[Lime Reg. 5]

PART 911—LIMES GROWN IN FLORIDA

Limitation of Handling

This regulation fixes the quantity of Florida limes that may be shipped to fresh market during the weekly regulation period July 22–July 28, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 911. The quantity of limes so fixed was arrived at after consideration of the total available supply of Florida limes, the quantity currently available for market, lime prices, and the relationship of season average returns to the parity price for Florida limes.

§ 911.405 Lime Regulation 5.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911; 37 FR 10497), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Florida Lime Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of limes that may be marketed during the ensuing week stems from the production and marketing situation confronting the Florida lime industry.

(i) The committee has submitted its recommendation with respect to the quantity of limes which it deems advisable to be handled during the succeeding week. Such recommendation results from consideration of the factors enumerated in the order. The committee further reports the fresh market demand for limes is fair to good, and prices are firmer but are unchanged. Prices f.o.b. packinghouse continue to range $1.35 to $1.55 per 10 pound container. Fresh shipments for the weeks ended July 14, 1973, and July 7, 1973, were 24,512 bushels and 15,815 bushels, respectively.

(ii) Having considered the recommendation and information submitted by the committee, and other available information the Secretary finds that the quantity of limes which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Florida limes, and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such limes; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 17, 1973.

(b) *Order.* (1) The quantity of limes grown in Florida which may be handled during the period July 22, 1973, through July 28, 1973, is hereby fixed at 26,000 bushels.

(2) As used in this section, "handled" and "limes" have the same meaning as when used in said amended marketing agreement and order, and "bushel" means 55 pounds of limes.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 18, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 1427—COTTON

Subpart—1973-Crop Supplement to Cotton Loan Program Regulations

On April 9, 1973, there was published in the FEDERAL REGISTER a notice of proposed rulemaking regarding certain determinations Commodity Credit Corporation was preparing to make with respect to the loan programs for the 1973 crops of upland and extra long staple cotton. Nine responses were received concerning the proposal to adopt strict low middling 1 1/16-inch as the base quality for computing upland cotton loans. Eight responses favored the proposal and one opposed. Ten responses were received concerning the proposed new schedule of micronaire differentials for extra long staple cotton. Six responses favored the proposal and four opposed. Other comments received dealt with matters not covered in this supplement.

The Cotton Loan Program Regulations issued by Commodity Credit Corporation and containing the regulations of a general nature with respect to loan operations for cotton are supplemented as shown below for the 1973 crop of cotton. Section 1427.101 contains the schedule of base loan rates for upland cotton and is based on strict low middling 1 1/16-inch cotton. Section 1427.105 contains the new schedule of micronaire differentials for extra long staple cotton which are to be used in determining loan rates for extra long staple cotton.

The material previously appearing in §§ 1427.100 through 1427.104 remains in full force and effect as to previous crops of cotton.

Sec.
1427.100 Purpose.
1427.101 Schedule of base loan rates for eligible 1973-crop upland cotton by warehouse location.
1427.102 Schedule of premiums and discounts for grade and staple length of eligible 1973-crop upland cotton.
1427.103 Schedule of micronaire differentials for 1973-crop upland cotton.
1427.104 Schedule of loan rates for eligible qualities of 1973-crop extra long staple cotton by warehouse location.
1427.105 Schedule of micronaire differentials of 1973-crop extra long staple cotton.

AUTHORITY: The provisions of this subpart issued under secs. 4, 5, 62 Stat. 1970, as amended; secs. 101, 103, 401, 63 Stat. 1051, as amended; 15 U.S.C. 714 b and c; 7 U.S.C. 1421, 1441, 1444.

§ 1427.100 Purpose.

This subpart is for the purpose of announcing that loans will be available on upland and extra long staple cotton of the 1973 crop under the terms and conditions stated in the Cotton Loan Program Regulations issued by Commodity Credit Corporation and contained in this Part 1427. This subpart also contains schedules to be used in determining loan rates on 1973-crop cotton.

§ 1427.101 Schedule of base loan rates for eligible 1973-crop upland cotton by warehouse location.

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER F—SECURITY SERVICING AND LIQUIDATIONS

[FHA Instruction 465.1]

PART 1872—REAL ESTATE SECURITY

Subpart A—Servicing and Liquidations

Subpart A of Part 1872, Title 7, Code of Federal Regulations (35 FR 8803; 37 FR 13159) currently in effect under §§ 1872.1 through 1872.28 is revised to reflect a change in title, "Servicing and Liquidation of Real Estate Security for Loans to Individuals;" to renumber and add sections to update policies and procedures for servicing and liquidating real estate loans, and to incorporate the provisions of the Consolidated Farm and Rural Development Act. (P.L. 92-419) The changes as set out below are being published without proposed rulemaking because of delay in making available assistance provided by this revision would be contrary to the public interest because such a delay would postpone granting advantages which buyers and sellers are now entitled to under P.L. 92-419, and its immediate adoption will enable the Farmers Home Administration to service a larger volume of loans than it can under present regulations. The change in leasing policies, the longer term on transfers, and the clarification of policies on Rural Housing loans will expedite servicing actions, and revised authorizations will save FHA personnel and borrower's time and expense.

It is the policy of this Department that rules relating to public property, loans, grants, benefits or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. See the Secretary of Agriculture's statement setting forth the policy on public participation in rulemaking 36 FR 13804, dated July 24, 1971. In accordance with the spirit of that policy, interested parties may submit written comments, suggestions, date or arguments to the Office of the Deputy Administrator Comptroller, Farmers Home Administration, U.S. Department of Agriculture, Room 5007, South Building, Washington, D.C. 20250, prior to August 20, 1973. Material thus submitted will be evaluated and acted upon in the same manner as if this document were a proposal. However, this Subpart shall remain effective until it is amended, in order to permit the public business to proceed expeditiously.

Effective Date. This revision is to become effective on July 19, 1973. The major changes are:

1. Contacts with holders of insured loans will be made by the Director, Finance Office, and in certain situations by the State Director.

2. Section 1872.2, permits the State Director to consider a subsequent loan or subordination to permit another lender to make a loan to a borrower to satisfy a third-party action for him to save his farm, and clarifies the procedure on payment of costs under a prior lien foreclosure sale.

3. Section 1872.3, authorized reamortization of FHA loans when subordinating FHA security to permit a loan of another lender; permits another lender to use its funds to reduce certain FHA debts; authorizes the County Supervisor to approve transactions up to $35,000 for refinancing, development and enlargement; authorizes the District Supervisor to approve any transactions up to $50,000; permits the approval of subordinations involving refinancing when the real estate secures only Farm Ownership (FO) or Recreation, or an FO loan and any other type FHA loan, and requires a mortgage and title services on any land acquired in the transaction.

4. Also § 1872.3, permits advances by the prior lender for taxes, insurance, emergency repairs for maintenance, and liquidation expenses; permits the approval of transactions up to $5,000 without preparing a formal appraisal report; authorizes the State Director to approve a sale of a portion of farm security on terms of ten percent down and not to exceed ten annual installments of principal plus interest at least equal to seven percent, and nonfarm security on terms of ten percent down and not to exceed five annual installments; permits use of proceeds from sale of real estate security for payment on inadequately secured FHA loans under certain conditions.

5. Section 1872.8, permits leasing of small allotment acreages that are not feasible for a borrower to operate; requires a borrower to resume personal operation of the property within three years rather than two; requires that rental income in pending liquidation cases will be applied to the FHA secured debts as extra payments; and authorizes the District Supervisor to approve annual leases for not more than five consecutive years.

6. Section 1872.10 authorizes the County Supervisor to consent to a severence agreement up to $5,000 and the District Supervisor up to $10,000.

7. Section 1872.11 includes lease proceeds in certain situations and excepts lease proceeds in some situations.

8. Section 1872.14 provides for issuance of a State Instruction for more specific guidance on handling bankruptcy and insolvency cases.

9. Section 1872.16(a) provides that the release conditions do not cover basic security for OL and EM loans and only permits release of real estate for such loans when it was taken as additional security.

10. Section 1872.17(g) authorizes the State Director to consent to an acceleration agreement for a period not to exceed 10 years for FO, SW, RL, and RH loans on farms. The acceleration of OL, EM, and RH loans on nonfarm tracts will not exceed a period of five years.

11. Section 1872.18 authorizes District Supervisors to approve transfers when the secured debts do not exceed $50,000, permits a transfer of a portion of the security with an assumption of the total indebtedness by the transferee and a release of the security retained by the borrower from the Government's lien, authorizes the State Director to consider a request by a borrower to transfer real estate as security as parcels to each of different transferees with assumption of the appropriate portion of the debt, authorizes a subordination to enable the transferor to take a first mortgage to secure his equity payment or to permit another lender to furnish the funds needed in connection with the transfer, to settle a divorce action, a subsequent loan may be made or a subordination may be granted to the remaining borrower to obtain a loan for an amount not to exceed the equity in the property, further defines an ineligible transferee to include a farming corporation or a farming partnership, requires at least a 10 percent downpayment in transfers to an ineligible applicant, and provides for a maximum of 10 amortized installments for FO, RL, SW, and RH loans on farms but the State Director under certain conditions may authorize a repayment term up to 15 years. Transfer of nonfarm security to an ineligible applicant may not exceed five years.

12. Section 1872.19 authorizes the District Supervisor to approve voluntary conveyance transactions provided the total debt against the security does not exceed $50,000, provides for title clearance to be handled by designated attorneys and approved title insurance companies, and provides that the value of the security to be conveyed will be the estimated sale price of the property based on its present market value, and for the State Director to determine whether the property is suitable for sale to eligible applicants or as surplus property according to Subpart C of Part 1872 of this chapter.

13. Section 1872.20 permits acceptance of payment in full, voluntary conveyance, or transfer after issuance of the acceleration notice without contacting the OGC, authorizes the State Director to issue acceleration notices under certain conditions without prior review by the OGC, provides that the estimated resale value means the present market value of the security, provides that when a deficiency judgment is not to be obtained, the case will be reclassified to collection-only, only when the debt cannot be settled under the provision of Part 1864 of this chapter.

14. Section 1872.21 provides for using the same mortgage form, Form FHA 427-1 (State), and describing both FHA direct and insured FHA notes on that same mortgage when a real estate lien is taken as additional security.

As amended, Subpart A of Part 1872 reads as follows:

Subpart A—Servicing and Liquidation of Real Estate Security for Loans to Individuals;

Sec.
1872.1 General
1872.2 Preservation of security property and protection of liens.
1872.3 Subordination of FHA mortgage to permit refinancing, extension, reamortization, or increase in amount of existing prior lien or to permit a prior lien.
1872.4 Consent by partial release, subordination, or otherwise, to sale or other disposition of portion of or interest in security except leases.
1872.5 Subordination of FHA real estate mortgages to easements to the Bureau of Sport Fisheries and Wildlife.
1872.6 Subordination of FHA's lien to the Commodity Credit Corporation's (CCC's) security interest taken for loans for farm storage and drying equipment.
1872.7 Consent to junior liens.
1872.8 Consent to borrower's granting lease of security.
1872.9 Transfer of upland cotton, peanut or tobacco allotments.
1872.10 Severance agreements.
1872.11 Disposition of proceeds of partial release, subordination, and consent transactions.
1872.12 Servicing real estate purchased, refinanced, or improved with economic opportunity (EO) loans to individuals and taking real estate as security.
1872.13 Deceased borrower.
1872.14 Bankruptcy and insolvency.
1872.15 Servicing note-only cases.
1872.16 Release of FHA mortgage without monetary consideration on basis of additional security or because of mutual mistake or nonexistence of evidence of indebtedness or valueless liens.
1872.17 Liquidation action.
1872.18 Transfer or real estate security.
1872.19 Voluntary conveyance of security to FHA.
1872.20 Foreclosure by the government.
1872.21 Taking liens on real estate as additional security in servicing FHA loans.
1872.22 Assignment of direct and insured notes and security instruments outside the program.
1872.23 Cosigners—RH loans.
1872.24 Assignment and release of soil bank or similar program payments.
1872.25 Submission to National Office of certain partial release, subordination, consent or other transactions.
1872.26 State instructions and reference to the Office of the General Counsel.
1872.27 Redelegation of authority.
1872.28 Nondiscrimination.

AUTHORITY. 7 U.S.C. 1989; 42 U.S.C. 1480; 40 U.S.C. 442; 42 U.S.C.; 5 U.S.C. 301; delegation of authority by the Secretary of Agriculture, 38 FR 14944, 14944, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 38 FR 14944, 14952, 7 CFR 2.70; delegations of authority by Director OEO, 29 FR 14764, 33 FR 9850.

Subpart A—Servicing and Liquidation of Real Estate Security for Loans to Individuals.

§ 1872.1 General.

(a) *Purpose.* The purpose of this Subpart is delegate authority and prescribe policies and procedures for servicing and liquidating real estate security for Farmers Home Administration (FHA) loans to individuals, including loans on leasehold interests except Rural Rental Housing (RRH) and Labor Housing (LH) loans to individuals operating under a loan agreement.

(b) *General policies.* Real estate security will be serviced in a manner to accomplish the loan objectives and protect the Government's financial interest. To accomplish these purposes, the real estate security will be serviced in accordance with the security instruments and related agreements, including any authorized modifications, so long as the borrower has reasonable prospects of accomplishing the loan objective, continues to make payments on the loan in accordance with his ability, properly maintains and accounts for the security, and otherwise meets the loan obligation in a satisfactory manner. When the above conditions are not satisfied, or it is determined that the loans must be liquidated for other reasons and sufficient legal grounds for liquidation exist, prompt action will

V 38-139 I JUL 20 73 XUM

be taken to liquidate the security to protect the Government's financial interest.

(c) *Borrower's responsibility.* Each borrower is responsible for the payment of real estate taxes, providing adequate property insurance, maintaining, protecting, and accounting to the FHA for all real estate security, and complying with other loan requirements.

(d) *County Supervisor's responsibility.* The County Supervisor is responsible for informing each borrower of his responsibilities in connection with the loan, seeing that the security is being properly maintained and accounted for and for servicing the security in accordance with this Subpart. The County Supervisor will inspect the security in accordance with § 1872.2 (a). If the security or part of the security is located in another County Office area, the County Supervisor for that area may be requested to inspect that property. When a borrower fails to maintain, protect, or account for the security to the extent that the FHA's financial interest is in jeopardy or makes unauthorized disposition or use of any security, prompt action will be instituted to protect the FHA's interests.

(1) *County Supervisor's relationship with the Office of the General Counsel (OGC) and the United States Attorney.* The County Supervisor will obtain any legal advice he needs from the OGC through the State Director and not from the designated attorney(s) except for those transactions handled and closed by the designated attorney. In cases that have been referred to the OGC for legal action, no further action will be taken by the County Supervisor or other FHA personnel without prior clearance with the OGC. If the case has been referred to the United States Attorney, clearance with him will be obtained through the OGC.

(e) *Servicing insured loans.*

(1) *Contact with holder.* Contacts with holders of insured loans will be made by the Director, Finance Office except as provided by subparagraph (2) of this paragraph.

(2) *Servicing actions.* Servicing actions for insured loans will be the same as for direct loans except that in voluntary conveyance, and foreclosure cases, the Finance Office will be requested to obtain assignment of the insured loan to the Government as provided in §§ 1872.19 and 1872.20, respectively; and when an insured Farm Ownership (FO) mortgage running to the lender as mortagee is not held by the FHA under trust assignment, or declaration of trust, or in the insurance fund (called insured FO mortgage held by the lender in this Subpart) and a written subordination or partial release or other servicing document is requested, the document will be executed by the holder on a form prepared or approved by the OGC. In such cases, contacts with the holder will be made by the State Director and the holder's execution of the document will constitute his consent.

(3) *Execution of documents by Government.*—(i) *Servicing documents.* When the mortgage names the United States as mortgagee, or when a mortgage running to the lender is not under a trust or declaration of trust and the note is held by the insurance fund, the servicing documents will be executed in the name of "United States of America."

(ii) *Execution of documents.* When an FO mortgage is held under a trust assignment or declaration of trust, regardless of whether the note is held by a lender or by the insurance fund, servicing documents will be executed in the name of "United States of America, for Itself and as Trustee."

(iii) *Trust documents.* When the mortgagee named in an FO mortgage is the United States as Trustee for a State Rural Rehabilitation Corporation (SRRC) and the mortgage is not under a trust assignment or declaration of trust and the note is not held by the insurance fund, the servicing documents will be executed in the name of "United States of America, Trustee of the Assets of the (State) Rural Rehabilitation Corporation."

(iv) *County Supervisor authority.* The County Supervisor is authorized to execute all necessary forms, satisfactions and releases, and other documents required to complete any transactions in this Subpart after the action has been approved by the appropriate approval official.

(f) *Consent of lienholders.* When this Subpart requires the consent of other lienholders, before the FHA consents to a transaction which affects its security or its lien, such consent will be obtained and furnished to the FHA by the borrower. The consent will, unless otherwise provided in a State requirement, include agreement as to the disposition of any funds involved in the transaction.

(g) *Definitions.* Unless otherwise indicated, the terms "FHA loans," "FHA accounts," "FHA interests," "FHA security," "FHA debts," and similar terms apply to indebtedness owed to or insured by the United States of America acting through the FHA, and to related security instruments. The term "note" includes any note, bond, assumption agreement, or other evidence of indebtedness. The term "mortgage" includes deeds of trust and similar real estate security instruments and chattel security instruments where appropriate.

§ 1872.2 Preservation of security property and protection of liens.

(a) *Inspection of security.* For FO, Recreation, Soil and Water (SW), and Rural Housing (RH) farm borrowers whose accounts are current, an inspection of the property will ordinarily be made every three years. An annual inspection will be made only when such a borrower is delinquent or otherwise in default or problems exist involving the security property. In such cases involving borrowers with loans on nonfarm tracts, periodic inspections ordinarily will be made only if liquidation action is likely to be taken, the property has been abandoned, or when necessary to protect the interest of the Government.

(b) *Action by FHA for account of borrower.* When necessary to protect the interest of the Government, actions will be taken by FHA for the account of the borrower as provided in this section. Advances made for such purposes will be paid by Standard Form 1034, "Public Voucher For Purchases and Services Other Than Personal," and charged to the borrower's account.

(1) *Operation of security by lessee or caretaker.* When approved by the State Director, the County Supervisor will take possession of the property and will enter into a lease or caretaker's agreement for the account of the borrower on the best terms obtainable but not to exceed the time limitations provided in § 1872.8(a). Lease or caretaker's agreements will not be used as an alternative for, or as a means of delaying, prompt liquidation of the loan. Lease agreements will be entered into on Form FHA 465–2, "Lease of Security Property," and caretaker's agreements on Form FHA 465–3, "Caretaker's Agreement (Real Property Only)."

(2) *Taxes and assessments.* Real estate taxes and assessments will be handled in accordance with Part 1863 of this chapter.

(3) *Insurance.* For FO, SW, Recreation, RH, RRH, LH, and Other Real Estate (ORE) loans, property insurance will be required and serviced in accordance with FHA Part 1806 of this chapter. For other FHA loans secured by liens on real estate, property insurance will be obtained and serviced in accordance with requirements for the kind of loan involved.

(4) *Maintenance.* Where emergency repairs are necessary to protect interests of the FHA, the State Director may authorize such repairs only in abandonment and pending liquidation cases without prior approval of the National Office. Such repairs will be properly documented on Form FHA 424–1, "Development Plan." If a prior lien is involved, expenditures for maintenance will not be made unless the prior lienholder refuses to make them. Evidence of his unwillingness to do so should be included in the case file.

(c) *Actions by third parties which affect security.* The borrower will be expected to protect his own interest in condemnation, trespass, quiet title and other cases affecting the security. Third party actions include court or other actions in which the security property is involved. The complete facts concerning any action taken by third parties which may affect the security will be furnished immediately to the State Director together with the County Supervisor's recommendations and the County Office case file. When the Government is made a party to a court action, information furnished by the County Supervisor will include a copy of the petition or complaint, if available to him, a Statement of Account, a current appraisal report, the name and address of borrower's attorney, if any, and any other pertinent information. The State Director will,

after receiving the advice of the OGC, then advise the County Supervisor of the actions to be taken to protect the Government's interest. When the State Director determines that foreclosure or other action which would cause the borrower to lose possession of his farm is imminent he may give consideration to making a subsequent FO or Recreation loan, as appropriate, or approving a subordination to permit another lender to make a loan to satisfy such action when necessary to enable the borrower to retain his farm provided he has the ability and resources necessary to overcome the problems that caused the action and the third party agrees to postpone further action pending the processing of a subsequent loan or subordination. The State Director will notify the County Supervisor of the actions to be taken to protect the Government's interest.

(1) *Sale under prior lien foreclosure.* When a prior lien foreclosure sale is to be held and the State Director determines that a substantial net recovery on the Government's interest can be made by acquiring and reselling the security, he will authorize a bid in accordance with § 1872.20(b)(4)(vi) and (vii). Such bid may provide for payment of the prior lien indebtedness and costs incidental to the sale which must be paid from the sale proceeds. If the amount of the check needed to cover the Government's bid exceeds $40,000, the prior concurrence of the National Office will be obtained before a bid on behalf of the FHA is authorized. When under State law it is necessary prior to such foreclosure to acquire the prior lienholder's rights to protect the Government's junior lien interest, and in other situations when it is advantageous to the Government to pay the prior lien in full before the foreclosure sale, payment of the prior lien and required costs may be made with the advice of the OGC, provided prior approval of the National Office is obtained for any payment in excess of $40,000; the Government will obtain a greater recovery of the secured debt (not an inventory profit) than it could by bidding at the prior lien foreclosure sale; and the FHA account after acquisition of the prior lien will be liquidated as provided in § 1872.17. Information clearly supporting the action as being the Government's financial advantage must be documented and made a part of the file. An insured loan which is not held by the insurance fund will, whenever possible, be assigned to the insurance fund before the foreclosure sale. Otherwise, the assignment will be made as soon as feasible after the foreclosure sale.

(i) *Lienholder debt.* The prior lienholder will be contacted to determine the amount of his indebtedness including the cost of foreclosure sale and if SF–1034 is acceptable to him if the Government is the successful bidder at the sale. If, however, the prior lienholder requires a cash payment, SF–1034 will be processed in sufficient time for the County Supervisor to receive a U.S. Treasury check before the sale. Requesting the check, payment of the bid and any other costs by use of SF–1034 will be in accordance with the applicable portions of § 1872.20. The costs will be charged to the borrowers account.

(ii) *Title evidence.* Prior to making a bid on the property or acquisition of the prior lienholders rights, title evidence as required by OGC will be obtained.

(iii) *Assignment.* An insured loan which is not held by the insurance fund will, whenever, possible to be assigned to the insurance fund before the foreclosure sale. Otherwise, the assignment will be completed as soon as feasible after the foreclosure sale.

(iv) *Final reporting.*

(A) When FHA enters a bid or is the successful bidder at the foreclosure sale, reporting actions will be in accordance with § 1872.20.

(B) When the State Director determines that no bid will be entered by FHA, the County Supervisor will nevertheless attend the sale and make a narrative report to the State Director outlining the results of the foreclosure sale and plans for future servicing of the account. A narrative report will be sent to the Finance Office when no recovery is made by the Government. If the Government is to rely on redemption rights, that fact will be indicated in the report.

(v) *Servicing Government redemption rights.* If the Government did not have an opportunity or for other reasons did not protect its interest at the time of the foreclosure sale by a prior lienholder and has any redemption rights, it will be determined whether to redeem the property before the redemption period expires. Such determination will be made after considering all factors including the value of the property or changes in its value after the sale and any other pertinent information. This determination will be made at a time sufficiently prior to expiration of the redemption period to permit exercise of the Government's rights. If redemption of the property is appropriate, the State Director's recommendation, accompanied by complete information showing the basis for not acquiring the security at the sale, and factors which justify redemption of the property should be sent to the National Office for prior consideration. The report should be accompanied by an opinion of the OGC stating that the redemption is legally authorized. If it is decided not to redeem the property, the right of redemption may be sold for its value by the State Director. There is no authority to dispose of redemption rights without consideration.

(2) *Foreclosure sale subject to FHA mortgage.* If a lien junior to the FHA lien is foreclosed and the property is sold subject to the FHA mortgage, the account will be transferred under § 1872.18, if appropriate. Otherwise, it will be liquidated as provided in § 1872.17.

(d) *Divorce actions.* When borrowers with loans on farms are involved the County Supervisor will submit the case to the State Director after the final divorce decree has been granted. The case will then be handled in accordance with § 1872.2(c). A subsequent loan made to settle a divorce action will be handled in accordance with § 1872.18(b)(14). When borrowers whose loans are secured by a mortgage on a nonfarm tract are involved in divorce actions, the County Office file will be submitted to the State Director for advice only if the County or District Supervisor is uncertain of the servicing actions needed to protect the Government's interest or if continuation of the loan with the remaining borrower is not authorized.

§ 1872.3 Subordination of FHA mortgage to permit refinancing, extension, reamortization, or increase in amount of existing prior lien or to permit a prior lien.

(a) *Reamortizing existing FHA debts.* Existing FHA loans may be reamortized to permit a loan of another lender in lieu of a subsequent loan of the kind involved with prior approval of the District Supervisor or State Director as applicable. The reamortization of each existing loan may be made only within the remaining period of that loan. Authority to reamortize an account will be granted in those cases in which it is determined that the borrower cannot reasonably be expected to meet installments due unless the account is reamortized. When a loan is reamortized it will be processed in accordance with Subpart A of part 1861 of this chapter.

(b) *Use of other lender funds to reduce FHA debts.* In connection with subordination primarily for other purposes, funds of another lender may be used to pay on an FO, SW, Recreation, Operating or EM loan only to the extent that is necessary to accomplish the objectives of the FHA loan involved and to establish the borrower's operations on a sound basis within his ability to pay. Also, when a borrower owes any of the afore-mentioned loans and an RH loan, the funds of another lender may be used to pay the amount delinquent on the RH loan, or to refinance the total RH debt when necessary. In such cases, the narrative justification and the case file will be sent to the National Office prior to development of the subordination. It is not intended that the FHA lien will be subordinated for removal of a delinquency that the borrower could be expected to pay within five years. It is also the policy to only permit payment of that portion of the FHA debt that is necessary to avoid failure in connection with obtaining additional resources essential to success. This authority will be used in those cases that will provide for meeting the FHA objectives as specified in § 1872.2(b).

(c) *Conditions for subordination.* A subordination may be granted subject to the following conditions:

(1) *Refinancing.* The borrower is unable to refinance FHA on terms which he can reasonably be expected to meet;

(2) *Objectives.* The transaction will further the objectives for which the FHA loan was made;

V 38 I 139 JUL 20 73 XUM

(3) *Prior lien.* The terms and conditions of the prior lien will be such that the borrower can reasonably be expected to meet them, as well as all other debts;

(4) *Market value.* The amount of any prior lien plus the balance of the FHA debt will not exceed the market value of the security; except for an FO, Recreation, Land Conservation and Development (LCD) or SW loan, it will not exceed the market value of the security or $100,000, whichever is less. When the FHA indebtedness was not fully secured by the market value of the security before the transaction, a subordination may be granted only if the market value of the total security will be increased by an amount at least equal to the amount of the additional advance. The $100,000 limitation will not apply to loans if, because of fire, flood, windstorm, or other casualties, the subordination is necessary for land development or for the repair or replacement of essential buildings to put the property in livable and operable condition or to protect it against further deterioration. However, the subordination will not permit the total indebtedness to exceed the present market value of the security.

(5) *Stock.* An assignment of the beneficial interest in any stock required in connection with a loan will be obtained as collateral security, when possible, and when needed for security; and

(6) *Security.* The FHA secured indebtedness after the subordination will be adequately secured or will not be adversely affected by the transaction.

(d) *Purposes of subordination.* A subordination may be granted to:

(1) *Refinance, extend, or reamortize.* Refinance, extend, or reamortize an existing prior lien provided the amount of the indebtedness secured by the prior lien as of the date of the transaction is not increased by more than reasonable costs incident to loan closing plus funds for the purchase of any required stock.

(2) *Increase.* Increase the amount of the prior lien or permit a new prior lien when the funds will be used:

(i) *Nonfarm tract.* On a nonfarm tract securing RH loans for purposes for which RH nonfarm loans are authorized subject to the limitations that would be applicable if an RH loan were made. When the mortgage includes nonfarm property larger than a minimum adequate site, the subordination may be granted on the excess land for purposes not inconsistent with the best interests of the borrower and the Government.

(ii) *Purposes.* On a farm which secures an FO loan only or on FO and any other type FHA loan, for any purpose for which an FO loan can be made. Also, a Recreation loan may be subordinated for any purpose for which it is made. However, if the RH loan was made to finance a dwelling and the RH loan is secured only by the dwelling and dwelling site, the RH loan will be subordinated only for purposes for which an RH nonfarm loan may be made.

(iii) *Requirements.* Any transaction approved under subdivision (i) or (ii) of this subparagraph must meet the following additional requirements:

(A) The proposed use of the funds will improve the borrower's ability to repay the FHA loan(s) or is necessary to place his operation on a sound basis.

(B) In the case of either an Operating loan or FO loan the use of the funds will not result in the farm being larger than a family farm or family farming operation.

(C) Any proposed development will be planned and performed in accordance with Subpart A of Part 1804 of this chapter in a manner directed by the creditor which reasonably attains the objectives of Subpart A of Part 1804 of this chapter concurred in by the State Director.

(D) Funds to be used for development or to acquire land will be handled as prescribed for FO loan funds in Part 1803 of this chapter, except that if the creditor will not permit the use of a supervised bank account, arrangements satisfactory to the FHA which will assure that the funds will be spent for the planned purposes may be substituted.

(E) In case of land purchase, or exchange of property, the FHA will obtain a valid mortgage on such acquired land and title clearance and loan closing will be required the same as for an initial or subsequent FO loan as appropriate. The mortgage will be recorded when the subordination is delivered to the other lender or immediately after the other lender records its mortgage.

(e) *Request for subordination.* When a borrower request the FHA to subordinate a mortgage taken in connection with a direct or insured loan so that he can refinance, extend, reamortize, or increase the amount of a prior lien, or place a lien ahead of the FHA lien, Form FHA 465–1, "Application for Partial Release, Subordination, or Consent," will be prepared. If an agreement to give notice of foreclosure is required for approval of an initial FHA loan, an agreement with a new prior lienholder will be obtained as required in Part 1807 of this chapter. In case of an insured FO mortgage held by the lender, the holder's consent will be obtained in accordance with § 1872.1(e). Any junior lienholder's consent to the transaction and use of the proceeds will be obtained as provided in § 1872.1(f). A current appraisal report will be obtained unless there is an appraisal report in the docket not over two years old which will permit the official authorized to approve the transaction to make the determination required in this section. When property is exchanged or purchased a new appraisal report will be obtained. However, a new appraisal will not be required in a refinancing, extension, or reamortization or a prior lien when the existing debt will remain the same except for a reasonable closing cost. When an appraisal is required by FHA in connection with a subordination being granted to the Federal Land Bank (FLB), the appraiser may recommend or the loan approval official may find the market value of the total security to be equal to the market value of the real estate plus the value of the FLB stock. This determination will be recorded on a separate sheet and attached to the appraisal report.

(f) *Approval authority.* The County Supervisor, District Supervisor and State Director are authorized to approve transactions under this section when the total indebtedness against the security, including the amount of the lien(s) being subordinated, does not exceed $35,000, $50,000, and $100,000 respectively. The County Supervisor, however, may not approve transactions that involve an exchange of property or refinancing of an FHA debt.

(g) *Processing.* When the approval of the transaction by the State Director is required or the County or District Supervisor desires advice before his approval of the transaction, the borrower's case folder with current documents to support the applicable determinations such as, where appropriate, Forms FHA 431–2, "Farm and Home Plan," FHA 431–1, "Long-Time Farm and Home Plan," FHA 431–3, "Family Budget," FHA 422–1, "Appraisal Report (Farm Tract)," FHA 422–8, "Property Information and Appraisal Report-Rural Housing Nonfarm Tract," FHA 440–2, "County Committee Certification or Recommendation," and other necessary forms along with Form FHA 465.1 will be sent to the State Office. After approval of the transaction, it will be closed in accordance with State requirements to the maximum extent possible as provided in § 1872.26. However, where legal advice on an individual case is necessary, Form FHA 465–1, any subordination form furnished in connection therewith, the original or a copy of the FHA mortgage, the refinancing mortgage or agreement, and related documents will be submitted to the OGC for review and preparation of the necessary instruments and closing instructions. The documents and closing instructions will be sent to the County Office. If the signature of the State Director is required on some of the instruments, the docket and closing instructions will be routed through the State Office. The transaction will be completed in accordance with the closing instructions.

§ 1872.4 Consent by partial release, subordination, or otherwise, to sale or other disposition of portion of or interest in security except leases.

The consent of FHA or other lienholders may be in the form of a partial release, subordination, or other form of written consent, depending on the circumstances. The consent authorized herein is applicable to the disposition of security or an interest in the security rather than to a release of security granted to a mortgagor upon his reduction of the debt from regular or other personal funds. A formal release may not be delivered for 15 days after the payment is received unless such payment is made in the form of cash, money order, certified check, or check from a reputable lending agency. Other executed releases not delivered will usually be voided

30 days after notification to the requesting party that the release is available. A subordination of the FHA lien will not be required for FHA financed water and waste disposal facilities in accordance with Subpart A of Part 1823 of this chapter.

(a) *Provisions of FHA mortgages.* In all FHA mortgages except RH loan mortgages prepared before October 1, 1950, and a few Operating loan, Emergency (EM) loan, Special Livestock (SL) loan, and Water Facilities (WF) loan mortgages, the borrower has agreed not to sell, transfer, assign, mortgage, or otherwise encumber the security or any portion of or interest in it, without the prior written consent of the mortgagee. Furthermore, even in the case of the few RH, Operating, EM, SL, and WF loan mortgages not requiring FHA consent, any property, or any part thereof or interest therein, which is subject to the FHA mortgage and which is disposed of by the borrower without consent remains subject to the mortgage lien. In all FHA mortgages the borrower expressly agrees not to engage, without prior consent, in certain specified transactions, including the cutting or removal of timber, or mining or removal of gravel, oil, gas, coal, or other minerals, aside from small amounts used by the borrower for ordinary domestic purposes.

(b) *Consent and partial release and subordination forms.* When FHA consent is requested, it will be given by approving a completed Form FHA 465–1 if the transaction meets the conditions of paragraph (c) of this section. Also, when requested, the FHA will give a written partial release or subordination on Form FHA 460–1, "Partial Release," Form FHA 460–2, "Subordination by the Government," or other form, approved by the OGC. Written consent of any prior or junior lienholders will be obtained by the borrower and delivered to the FHA if any proceeds are not to be applied on liens in accordance with their priorities. When an insured FO mortgage is held by the lender, his consent will be obtained only if a written partial release, subordination, or other written servicing document is requested. Any such consent will be obtained in accordance with § 1872.1(e).

(c) *Conditions of FHA consent.* FHA consent may be granted and a partial release of subordination executed if the consideration is adequate for the security property being disposed of or rights granted; orderly repayment of the FHA indebtedness will not be impaired; the transaction will not interfere with successful operation of any farming enterprise or other enterprise providing repayment ability of the borrower; the market value of the remaining security is adequate to secure the unpaid balance of the FHA debts, or if the market value of the security before the transaction was inadequate to fully secure the FHA debts, the FHA's security interest is not adversely affected; and the provisions of paragraphs (d) and (e) of this section and § 1872.11 are complied with. Exceptions to the foregoing sentence are provided in subparagraphs (1) and (2) of this paragraph.

(1) *Condemnations.* The second and third clauses of this paragraph will not apply in condemnation cases after final judgment or award which is not appealed.

(2) *Costs.* In any case of consent, partial release, or subordination the County Supervisor may authorize the borrower to use a portion of the proceeds to pay customary incidental costs appropriate to the transaction and reasonable in amount, which the borrower cannot arrange to pay from personal funds or have the purchaser pay, including real estate taxes which must be paid in order to consummate the transaction. Such costs may, for example, include the following in justifiable cases: Costs of title examination, surveys, abstracts, title insurance, reasonable attorneys' fees, and recording fees; reasonable attorneys' fees and court costs in condemnation cases; costs necessary to determine the reasonableness of an offer or asking price, such as fees for appraisal of minerals, land, or timber where the necessary appraisal cannot be obtained without costs; real estate brokers' commissions when a borrower can reasonably expect to obtain proceeds in an amount at least equal to the commission in excess of what could otherwise be obtained; and additional income tax which the borrower is required to pay for the year because of the capital gain or mineral royalty payments on the transaction. The amount of the estimated tax on the particular transaction will be deposited in the supervised bank account. Any deposited funds not needed to pay the borrower's adjusted tax liability for the year of the transaction will immediately be applied on the account as an extra payment. In any State in which it is necessary to obtain the insured note from the lender to present to the recorder before a release of a portion of the land from the mortgage, the borrower must pay any costs for postage and insurance of the note while in transit. The County Supervisor will advise the borrower when he requests a partial release that he must pay such costs. If the borrower is unable to pay the cost from personal funds they may be deducted from the sales proceeds. The amount of the charge will be based on the statement of actual cost furnished by the lender. A subordination approval will also include additional advances by the lender as may be necessary for taxes, insurance, emergency repairs for maintenance and liquidation expenses.

(3) *Appraisals.* When the official authorized to approve the transaction is uncertain whether a proposed consideration is adequate or for any other reason considers an appraisal necessary in order to complete Form FHA 465–1, or when the transaction involves more than $5,000 a new appraisal report will be obtained in accordance with the applicable appraisal procedure. However, a new appraisal report need not be obtained if there is an appraisal report not over two years old in the case file which will permit the official authorized to approve the transaction to make the proper determination as to the market value of the property being retained as well as the present market value of the portion to be released. When a new appraisal is not required, the appraiser will indicate his determination of values and the basis for it in the comments section of the existing appraisal report. The notation will be initialed and dated. Where a new appraisal report is required, it will be completed to show the present market value of the property being retained. Also, the present market value of the property being released will be shown under the comments section of the same appraisal report. Information in regard to sales of comparable properties used in arriving at the present market value of the property being released will be shown in the comments section or on an attached sheet.

(i) *Stationary units.* If timber or minerals including sand, gravel, or stone, which appear to be worth more than $2,000 are to be sold on the basis of the timber stand or the mineral deposit rather than the units to be removed, the borrower will be encouraged to obtain the assistance of a qualified technician other than an FHA employee to advise him as to the quantity or value of the timber or minerals, and the manner in which they should be sold. Generally, such assistance can be obtained from State or Federal employees who are located in the area.

(ii) *Units removed.* When timber or minerals, including sand, gravel, or stone, are to be sold on the basis of the units to be removed, or when an easement or a right-of-way is to be sold or granted, the employee authorized to make the appraisal may insert, date, and initial a notation on the existing appraisal report instead of making a new appraisal report. The notation should show the unit value of timber or minerals, or the value of the easement or right-of-way, based on the consideration being paid for similar items in the area, and the manner in which the remaining property will be affected. If the market value of the remaining property is significantly decreased, a market value appraisal of the remaining property usually will be required.

(d) *Authority of County and District Supervisors.* The County Supervisor and District Supervisors are authorized to approve transactions under this section when the total indebtedness against the security does not exceed $35,000 and $50,000 respectively. Also, when liquidation in accordance with § 1872.17 is not pending, the County Supervisor is authorized to approve transactions when the entire proceeds (other than costs authorized in paragraph (c)(2) of this section, or normal income as defined in § 1872.11(b)) will be applied on the liens in the order of their priority. The County Supervisor is authorized to approve transactions in amounts that are within his approval authority as set forth above

V 38 I 139 JUL 20 73 XUM

for development and enlargement purposes. The employee who appraises the property cannot approve the transaction. For example, if the Assistant County Supervisor makes the appraisal, the transaction may be approved by the County Supervisor; if the County Supervisor makes the appraisal, the transaction may be approved by the District Supervisor. In case of a three percent loan for forestry purposes, the application for consent or release involving the harvest or sale of forest products will be forwarded to the State Office for approval if the harvest or sale is not in strict accordance with provisions of the initially-approved forestry plan; future repayments on the three percent advance are scheduled on any basis other than equal annual installments; there is a lien on the forest land prior to the lien of the FHA; there is a delinquency on any FHA real estate loan.

(e) *State Director's authority.* The State Director is authorized to approve transactions involving exchange of all or part of the security for other real estate; use of all or part of the proceeds for development or enlargement, or as provided in subparagraph (3) of this paragraph; an easement or fee title right-of-way granted or conveyed without monetary compensation or for a token consideration if the Government's security interests are not adversely affected; sale of a portion of the security, except security for RH loans on nonfarm tracts, for its market value and on terms not less favorable than 10 percent down, and not to exceed 10 annual installments of principal plus interest at not less than 7 percent per annum; and sale of a portion of the security for RH loans on nonfarm tracts for its market value on terms not less favorable than 10 percent down, and not to exceed five annual installments of principal plus interest at not less than 7 percent per annum, provided: The Government's security rights, including the right to foreclose, are retained; The downpayment and subsequent payments are applied to the FHA debts, prior liens, or used as authorized in this section; Any security instruments the borrower obtained in the transaction are assigned to the FHA; The property sold is not released prior to full payment of the account or receipt of the sale price with proper application or release of such proceeds; and unless appropriate reamortization is made in accordance with Subpart A of Part 1861, the borrower understands and agrees that such sale proceeds will not affect his primary and continued obligation for making payments under the note. In any case in which the proceeds under § 1872.11(a) will not be applied on prior liens or FHA accounts secured by real estate liens, the following requirements must be compiled with:

(1) *Development or enlargement.* Use of any proceeds for development or enlargement must be necessary to improve the borrower's debt-paying ability and to place his operation on a sound basis or otherwise further the objectives of the loan. In the case of an FO or Operating loan, the use of proceeds for such purposes will not result in making the farm larger than an adequate family farm.

(2) *Development.* Any proposed development work will be in accordance with Subpart A of Part 1804 of this chapter.

(3) *Inadequately secured loans.* When FHA loans secured by a lien on real estate will be adequately secured after the transaction, proceeds not to exceed an amount equal to the equity in the security may, with the consent of other lienholders, be applied to inadequately secured FHA loans, to reduce them to the extent that the security is adequate or up $2,500 may be used for development of nonowned land essential to the borrower's operation whether or not taken as security for the loan. If funds are used on nonowned land it must be determined that the improvements are essential to his operation or repayment ability and that the borrower has tenure arrangements that will justify the use of such proceeds on that land. Proceeds released for payments on other FHA debts will be applied as extra payments unless the State Director approves a specific written request from the borrower to apply proceeds on a delinquency or currently maturing installment because the borrower is otherwise unable to make such payments. That part of the proceeds not applied to any prior lien or inadequately secured FHA loans must be applied to the FHA lien on the security property of the highest priority if not used to develop or enlarge the security.

(4) *Funds.* Funds to be used for farm development or enlargement will be handled in the manner prescribed for FO loan funds in Part 1803 of this chapter.

(f) *Processing.* When the approval of a transaction by the State Director is required or the County Supervisor desires advice in connection with his approval of the transaction, the borrower's case folder along with Form FHA 465–1 and any other information pertinent to the transaction will be sent to the State Office. In an exchange of security, the provisions of this Subpart applicable to a sale of a portion of the security will apply to the property being released and the present market value of the property being released will be used. The provisions of Subpart A of Part 1821 of this chapter applicable to the purchase of land will apply to land being acquired in connection with FO, Recreation and SW loans. The provisions of that Subpart applicable to the title clearance, security, and appraisals will apply to lands being acquired in connection with other loans.

§ 1872.5 Subordination of FHA real estate mortgages to easements to the Bureau of Sport Fisheries and Wildlife.

(a) *General.* The policies and procedures for subordinating FHA mortgages on wetlands on which the Bureau of Sport Fisheries and Wildlife obtain easements for waterfowl nesting habitats are set forth herein. A Memorandum of Understanding between Bureau of Sport Fisheries and Wildlife and the Farmers Home Administration outlines the procedure to follow in the processing of such subordinations. To the extent of any conflict, with other provisions of this chapter, the Memorandum of Understanding takes precedence. The following is the "Memorandum of Understanding between the Bureau of Sport Fisheries and Wildlife and the Farmers Home Administration" which is to be followed in processing subordinations.

"The purpose of this memorandum is to simplify and facilitate the obtaining by the Bureau of Sport Fisheries and Wildlife (Bureau) of subordination of mortgages held by the Farmers Home Administration (FHA) on lands with respect to which the Bureau obtains a "Conveyance of Easement for Waterfowl Management Rights" (3–1916 Rev. April 1970). In order to accomplish this purpose it is agreed that:

1. In each case in which the Bureau proposes to take an easement from a landowner whose land is subject to a mortgage held by FHA and the Bureau's proposal is acceptable to the landowner, the Bureau will notify the local FHA county supervisor. The notification will show the amount of consideration to be offered for the easement and the legal description of the land to be affected by the easement. Where there are existing drainage facilities on the land, the affected wetland areas that are to be excluded from coverage by the easement will be outlined on a map and furnished to FHA and the landowner.

2. Where a subordination agreement is required, the FHA county supervisor will advise the designated local official of the Bureau as to whether the consideration is adequate from the standpoint of FHA as mortgagee.

3. Where a subordination is required and the county supervisor advises that the consideration is adequate, said easement form will be amended by:

inserting at the end of the instrument the following: 'in consideration of payment which is determined to be adequate from the standpoint of the FHA as mortgagee, for the foregoing easement as provided in paragraph 5 thereof, the United States of America acting through FHA hereby subordinates its mortgage dated _____, recorded in Book _____, page _____, of the real estate records in _____ county, State of _____, to said easement.

'_____
Date

'UNITED STATES OF AMERICA.

By _____
FHA County Supervisor'

4. Where a subordination is not required of FHA, because of a waiver of the need for a subordination by the United States Attorney General, the Bureau nevertheless will send a copy of the agreement and the check for the easement consideration, which will include FHA as a co-payee, to the FHA county supervisor.

5. In all cases where an FHA mortgage is involved, the easement form will be amended by: inserting at the end of paragraph 5 an additional sentence as follows: 'The check for the easement consideration will be made payable to the Farmers Home Administration "(FHA) and the landowners, as co-payees, and will be mailed to the FHA to be applied to its mortgage unless applied on a prior mortgage debt or released for other use as permitted by FHA regulations.'

6. The Bureau and FHA will issue such procedures or directives to their respective field offices as may be necessary to effectuate this memorandum of understanding.

Dated: September 14, 1967.

A. V. TUNISON,
Acting Director, Bureau of Sport Fisheries and Wildlife.

Dated: August 20, 1967.

HOWARD BERTSCH,
Aministrator, Farmers Home Administration.

(b) *Authorization.* When a request for a subordination is received from the Bureau, the County Supervisor will handle the request in accordance with the steps outlined in the Memorandum of Understanding and applicable portions of § 1872.3 not in conflict with the Memorandum.

§ 1872.6 Subordination of FHA's lien to the Commodity Credit Corporation's (CCC's) security interest taken for loans for farm storage and drying equipment.

The CCC makes loans under its Farm Storage and Drying Equipment Loan program for the purchase, construction, erection, remodeling, or installation of either farm storage or drying equipment or both and requires that a loan of $10,000 or more, or for any loan at the discretion of the approving committee, be secured by a lien on the real estate. The Memorandum of Understanding and Blanket Consent and Subordination Agreement between Commodity Credit Corporation and Farmers Home Administration does not apply to loans on which the CCC requires a real estate lien.

(a) *CCC loan.* When the CCC proposes to make a loan to an FHA borrower and requests a subordination of the FHA real estate lien, the request will be handled on an individual case basis in accordance with the authorizations and requirements of § 1872.3.

(b) *FHA consent.* A borrower's request for the FHA's consent to a severance agreement or other similar instrument for an item or items to be acquired with a CCC loan willbe handled in accordance with § 1872.10.

§ 1872.7 Consent to junior liens.

(a) *Policy.* As a general policy, FHA borrowers will be discouraged from giving to other creditors junior liens on real estate securing an FHA loan. When consent is required by the FHA mortgage, the County Supervisor may consent by executing Form FHA 465–1 provided: The loan is necessary for the successful operation of the borrower's farm or because of his financial condition; the terms of the junior lien debt are such that its payment will not likely jeopardize payment of the FHA loan; any operating plans made with the junior mortgageholder are consistent with any plans made by the FHA with the borrower; and the junior creditor agrees in writing that he will not foreclose his mortgage before a discussion with the County Supervisor and after giving a reasonable specified period of notice to the FHA.

(b) *Servicing action.* When a junior lien is placed on any property without FHA consent and consent is required by the mortgage and may not be granted in accordance with the policy indicated in paragraph (a) of this section, the County Supervisor will submit the case with his recommendations to the District Supervisor. He will determine if any servicing or liquidation action is needed at that time to protect the Government's interest and notify the County Supervisor of appropriate action to be taken. For example, even though consent to a junior lien may not be given, the District Supervisor may authorize continuance with a borrower so long as he makes payments on loans as agreed and properly maintains the security.

§ 1872.8 Consent to borrower's granting lease of security.

When consent to a lease is required by the security instruments and a borrower requests FHA's consent to lease all or a portion of the security or the County Supervisor discovers that a borrower is leasing the security without consent, Form FHA 465–1 will be prepared. That form will show the terms of the proposed lease and will specify the use of proceeds including any proceeds to be released to the borrower. When another lienholder's mortgage requires consent to lease, his consent will be obtained as provided in § 1872.1(f). FHA's consent to the lease may be granted on the basis of the situation at the time of the proposed action when the lease or its terms will not adversely affect the repayment of the loan or the Government's rights under the mortgage; leasing is not an alternative to, or means of, delaying liquidation action; the operation of all or a portion of the security under the lease will not adversely affect any applicable crop allotments; the lease and use of any proceeds will further the objectives of the loan; if liquidation is not pending, rental income sufficient to make regular payments under the note, pay taxes and insurance, and maintain the security is assigned to FHA for these purposes unless such payments are otherwise reasonably assured; the lease is advantageous to the borrower and is not to the Government's disadvantage; and if foreclosure action has been approved, consent to lease and use of proceeds will be granted only under directions by the OGC or U. S. Attorney, as appropriate. Consent to lease will be subject to the additional conditions specified below for each kind of lease:

(a) *Leases of security for agricultural purposes.*

(1) *County Supervisor's authority.* When liquidation in accordance with § 1872.17 is not pending, the County Supervisor is authorized to approve annual leases on all or a part of the security for borrowers with:

(i) Section 502 RH or LH loans on farms, or SW, Recreation or ORE loans. A section 502 RH loan under this provision includes a Senior Citizen RH loan on a farm only for lease of the security property other than dwelling. For the purposes of this paragraph, leases for an annual term with option to the lessor to renew for a longer term with option to the lessor to cancel at least at the end of each year, will be considered annual leases. The consent of the FHA will reserve the right to withdraw the consent at the end of any year should liquidation or other servicing action be required by FHA.

(ii) *503 RH, Operating and FO loans.* Section 503 RH loans, Operating, or FO loans provided:

(A) Failure to personally operate the security to be leased is due to old age, poor health, or death in family and the borrower or his family will continue to occupy the security as a home, or

(B) The part of the security to be leased is insignificant to total farm acreage and is surplus to the borrower's need. For example, a surplus building, wasteland, or a few acres of land inconveniently located or otherwise unsuitable and unnecessary for the successful operation of the farm by the borrower. This will also include the leasing of small allotment acreages that are not feasible for the borrower to operate because of special equipment needs, additional labor requirements or other economical or management reasons. It must be determined that the leasing of these allotted acres will not reduce the borrower's operation to less than that of a family farm. This is not intended to cover substantial amounts of allotted crop acreas that are an important part of the total farming operation. It must also be determined that the allotted acreage in question cannot be economically disposed of by the borrower in accordance with § 1872.4 and § 1872.9.

(C) Annual consent is not given for more than two consecutive years without further authorization from the State Office.

(2) *State Director's authority.* The State Director is authorized to approve annual leases when:

(i) *Conditions (Health).* Failure to personally operate section 503 RH loans, Operating, EM, or FO security is due to old age, poor health, or death in the family and the borrower or his family will continue to occupy the security as a home. In such a situation, the State Director should authorize the County Supervisor to grant consent annually to a lease of the security property so long as the borrower's situation does not change to make further consent for a lease inappropriate.

V 38 139 JUL 20 73 XUM

(ii) *Adverse conditions.* Failure to personally operate section 503 RH loans, Operating, EM, or FO security is due to adverse conditions beyond the borrower's control and it is determined that the borrower will resume personal operation of the property within a reasonable period of time generally not to exceed three years.

(iii) *Pending liquidation.* Liquidation in accordance with § 1872.17 is pending and the lease is to protect the Government's interests. Form FHA 465–2 will be used and the rental income will be applied to the FHA secured debt as extra payments or prior lien(s). However, when the value of the property is adequate to cover the secured debts and foreclosure action has not been approved, the proceeds may be applied on unsecured or undersecured FHA debts.

(iv) *Time limit.* Consent is not granted for a lease effective for a period in excess of one year at a time without prior concurrence of the National Office.

(3) *District Supervisor's authority.* The District Supervisor is authorized to approve annual leases on the same basis as the State Director provided annual consent is not given for more than five consecutive years without further authorization from the State Office.

(b) *Lease of nonfarm tracts.* When a borrower who received an RH loan on a nonfarm tract no longer occupies the dwelling purchased, improved, or constructed and given as security for the RH loan, the loan will be serviced promptly for liquidation in accordance with § 1872.17, unless it is determined that the borrower vacated the dwelling for reasons beyond his control and intends personally to reoccupy the dwelling within a reasonable period, usually not to exceed two years.

(1) *County Supervisor's limit.* When it is determined that a borrower's request for permission to lease his RH security meets the conditions outlined above, the County Supervisor is authorized to approve the leasing for two consecutive one-year periods.

(2) *District Supervisor's limit.* When the borrower does not intend to resume personal occupancy of the dwelling but is willing to voluntarily liquidate the account, or if foreclosure is contemplated, the District Supervisor is authorized to approve the leasing pending liquidation. If the lease is for a term of more than one month it will provide for cancellation by 30 days' notice.

(3) *Additional authority.* In any other case, the County Supervisor will submit the case file along with the Form FHA 465–1 and his recommendations to the District Supervisor. He may consent to leasing for an additional one-year period or may require immediate liquidation.

(4) *Submission to National Office.* Requests for leases not authorized above may be submitted by the State Director to the National Office for advice.

(c) *Leases of security under conditions other than specified in this paragraph.*—(1) *State Director's authority.* The State Director is authorized to grant consent to the lease of the security for periods not to exceed one year at a time provided:

(i) *Conditions.* The lease is advantageous to the Government and the borrower and will not adversely affect the borrower's personal operation of the farm securing any FHA loan or the occupancy of the dwelling by a borrower with an RH loan on a nonfarm tract or a Senior Citizens RH loan and the land or building to be leased is surplus to the borrower's needs.

(ii) *Time limit.* Annual consent for lease is not granted for more than three consecutive years or consent for a lease covering a period in excess of one year at a time as specified in this section is not granted without prior approval of the National Office. In any such case recommended by the State Director, the County Office case file, the justification for a lease for a longer period of time, and the reasons why a lease is preferable to disposition of the property will be sent to the National Office for consideration.

(d) *Mineral leases.* The County Supervisor, unless restricted by a State requirement, or liquidation is pending, and the State Director in any case, are each authorized to consent on behalf of the Government and to execute recordable forms and such other forms as may be necessary, under the following conditions:

(1) *Compensation damages.* The lessee agrees in the lease or elsewhere, or is liable without any agreement, to pay adequate compensation for any damage to the real estate surface, improvements, and growing crops. When an oil and gas lease provides for payment of damage to growing crops and contains other provisions which are generally included in so-called "standard" lease forms that are used in the area, the State Director may determine that it will not be necessary to obtain any additional agreement for payment of damages if the value of the security likely will not be lessened. Damage compensation will be assigned to the FHA by the use of Form 443–16, "Assignment of Income from Real Estate Security," or to the prior lienholder. However, the crop damage payment liability requirement may be omitted or deleted from the lease on small nonfarm tract cases.

(2) *Assignment.* Royalty payments are adequate and are assigned on Form FHA 443–16.

(3) *Lease amount.* The bonus and rentals are at least equal to any minimum amounts established by a State requirement. All or a portion of delay rentals and bonus payments may be assigned on Form FHA 433–16 if needed for protection of the Government's interest.

(4) *Lease forms.* The lease, subordination, or consent form is prepared by or is acceptable to the OGC. If standard lease forms are acceptable, the use of such forms may be authorized by the State Director.

(e) *Naval stores leases.* The County Supervisor, unless liquidation is pending, and the State Director in any case, are each authorized to execute Form FHA 465–1 giving FHA consent to lease of naval stores and to execute such other forms on behalf of the FHA as may be necessary. No lease may be consented to unless it requires operation consistent with approval naval stores practices in the community and any requirement by the State Director on this subject. When naval stores are not managed or operated by the borrower, an assignment of the proceeds will be taken on Form 443–16.

§ 1872.9 Transfer of upland cotton, peanut or tobacco allotments.

(a) *General.* Agricultural Stabilization and Conservation Service (ASCS) regulations pursuant to approved legislation permits the transfer of upland cotton, peanut, or tobacco allotments by one or more of the following transactions: Sale, lease, or transfer by the owner to another farm owned or controlled by him. These regulations require, among other things, that no allotment may be transferred from a farm which is subject to a mortgage or other lien, unless the transfer is agreed to by the lienholder. It is the policy of the FHA to approve the transfer of any crop allotments permitted by the ASCS regulations if the conditions and requirements of this section can be met. FHA personnel should familiarize themselves with the State ASCS policies and requirements concerning the sale, lease, or transfer of allotments to assure compliance with established FHA policies and servicing of security.

(b) *Authorization.* The County Supervisor is authorized to approve a transfer of upland cotton, peanut, or tobacco allotment by execution of a completed Form FHA 465–1. He is also authorized to execute the lienholder or mortgagee agreement on appropriate ASCS forms provided for this purpose for those cases in which he approves a transfer.

(c) *Transfer by sale.* Crop allotments enhance the value of a farm mortgaged to the FHA and constitute basic security for the FHA loan. Accordingly, when an applicant whose farm is mortgaged to the FHA inquires about the sale of any of his allotted acres or requests the FHA to sign the required lienholder or mortgagee agreement, the request will be treated the same as for a sale of a portion of the security and approval of the sale can be granted only in accordance with the applicable conditions and requirements of § 1872.4. The sale proceeds may be used only as authorized in that section after obtaining the concurrence of the employee authorized to permit the use of the proceeds for other than application on the secured debt.

(d) *Transfer of allotment by lease.* The County Supervisor's authority to approve lease of all or a portion of an allotment for a one-year period is contingent upon compliance with the policy outlined in the introductory statement of § 1872.8, except that the operation of all or a portion of the security under the lease will not adversely affect any applicable crop allotments. If the one-year lease is approved, the lease proceeds may be used as normal income. Leases for a period of more than one year will be granted only with the concurrence of the District Supervisor. When a lease is for more than one year, an assignment of the rental proceeds should be obtained for application on the appropriate FHA debt in accordance with the distribution formula for regular payments as outlined in Subpart A of Part 1861 of this chapter.

(e) *Transfer of allotment by owner to other land owned or controlled by him.* A transfer by an owner to land owned or controlled by him is normally interpreted by the ASCS as a permanent transfer and can be avoided only by stipulating in the mortgagee approval that the transfer is to be considered as a lease for the appropriate number of years. This type of transfer will be approved only as a lease under conditions outlined in paragraph (d) of this section to assure that the crop allotment on the security is not adversely affected.

§ 1872.10 Severance Agreements.

When a borrower requests the FHA's consent to a severance agreement or other instrument of similar effect under which an item to be acquired by him through other credit will not become a part of the real estate securing the FHA debt, such as a silo, storage bin, bulk milk tank, irrigation or a nonfarm enterprise facility or recreational equipment, or other income-producing facilities and such facilities will be subject to a chattel lien, Form FHA 465–1 will be completed.

The County Supervisor, if the value of the item does not exceed $5,000, the District Supervisor, if the value of the item does not exceed $10,000, and the State Director in any case, are each authorized to give FHA consent by executing Form FHA 465–1 and any necessary severance agreements provided the following determinations are made: The financing arrangements are sound and proper; the transaction will not adversely affect the FHA's security position and will be within the borrower's debt-paying ability; and the facility is not in excess of the borrower's needs, but is modest in cost and design and otherwise in line with FHA financing policies. In any case in excess of the County Supervisor's approval authority, the County Supervisor will forward to the State Director the Form FHA 465–1, the borrower's case file, and his recommendations regarding the request. The OGC will be requested to prepare or approve the severance agreement and, where necessary, issue closing instructions.

§ 1872.11 Disposition of proceeds of partial release, subordination, and consent transactions.

(a) *Payment on FHA account or prior lien or use for development or enlargement.* Proceeds from the sale of a portion of the security, the granting of an easement or right-of-way, proceeds from leases referred to in § 1872.8(a)(2)(iii), royalties and damage compensation payments, except for compensation for damages for growing crops, the sale of timber that clearly depletes the Government's security, other than that harvested on a selective cutting basis as authorized in paragraph (b) of this section, naval stores production not managed by or under the supervision of the borrower, and all similar transactions will be either released for payment on the prior lien, applied as an extra payment on the FHA loan as provided in Subpart A of Part 1861 of this chapter, used for replacement or repair of damages for which compensation was paid, or used as provided in § 1872.4 (c), (d), and (e).

(b) *Normal Income.* Proceeds from leases authorized in § 1872.8 except lease proceeds referred to in § 1872.8(a)(2)(iii), bonuses and rentals under mineral leases, proceeds from the sale of timber that is harvested on a selective cutting basis that does not deplete the Government's security or from naval stores production managed by or under the supervision of the borrower, compensation to the borrower for growing crops, labor or services in cutting, loading, and hauling of security, and all similar transactions will be considered as normal income and may be used for the same purposes as for normal income security as outlined in Subpart A of Part 1871 of this chapter. When forestry products income is received by the borrower even though it is considered normal income, the County Supervisor must determine the amount of such proceeds that may be released to the borrower. In making such a determination, protection of the Government's security position must be fully considered in the light of the amount of forest resources remaining and the unpaid balance of the loan, together with any other debts owed the FHA.

(c) *Assignment.* Any proceeds to be paid to the FHA subsequent to the time of closing the transaction and not otherwise assigned or made payable to the FHA will be assigned by the use of Form FHA 443–16 or other assignment form approved by the OGC.

§ 1872.12 Servicing real estate purchased, refinanced or improved with economic opportunity (EO) loans to individuals and taking real estate as security.

(a) *General.* The policies and authorities are herein set forth for servicing and liquidation of real estate purchased, refinanced, or improved with Economic Opportunity (EO) loan funds when such property does not serve as security for such loans, and taking real estate as security for EO loans in addition to the security policies contained in loan making instructions. In the servicing of EO loans, liens on real estate will be taken and serviced in accordance with the applicable provisions of this Instruction.

(b) *Servicing of nonsecurity real property purchased, refinanced, or improved with EO loan funds.* Borrowers will be expected to maintain such property so as to accomplish the objectives of the loan. County Supervisors will provide borrowers with appropriate supervision to protect the interest of the borrower as well as the FHA. The EO loans of deceased borrowers will be serviced in accordance with the provisions of Subpart B of Part 1871 of this chapter. If an EO borrower becomes involved in bankruptcy or insolvency, the case will be serviced in accordance with the provisions of Subpart B of Part 1871 of this chapter.

(1) *Sale or transfer by the borrower.* If the borrower is reliable and can obtain a reasonable price for the nonsecurity real property, he will be requested to sell it and apply the necessary proceeds representing his equity in the EO debt.

(i) *Transfer with assumption of EO debt.* If a satisfactory sale of such property cannot be made for cash, sale with assumption of the EO debt may be accomplished in accordance with the provisions of Subpart B of Part 1871 of this chapter, except that:

(A) The transferring borrower will not be released of liability since the EO property involved is not security.

(B) The assuming party will be required to make as large a downpayment on the EO debt as he is financially able to under the circumstances. However, the assumption may be approved without any downpayment if the assuming party is not financially able to make a downpayment, and the approval official determines that the assumption will be in the best financial interest of FHA.

(2) *Voluntary conveyance of the nonsecurity real property to FHA.* If the nonsecurity real property is not sold as provided for in subparagraph (1) of this paragraph, and it appears that FHA could realize a substantial net amount on the borrower's equity in the property, he will be encouraged to deed it to FHA. This will be done with the understanding that his EO account will be credited with an amount equal to his equity determined by FHA on the basis of a present market value appraisal of the property. The borrower will not be released from personal liability since security property is not involved. Before such actions are taken, the case should be referred to the OGC for advice, particularly with respect to whether FHA will receive marketable title to the property. Any cash costs in connection with title examination and transfer will be paid from EO loan funds, if available, and charged to nonrecoverable costs. If real property is deeded to FHA, it will be managed and sold in accordance with the applicable provisions of Subpart C of Part 1872 of this chapter.

(3) *Referral of facts to OGC.* If the nonsecurity real property cannot be disposed of in accordance with subparagraph (1) or (2) of this paragraph, then subject to the limitations in Subpart B or Part 1871 of this chapter, the facts in the case will be referred to OGC for any appropriate action to protect the interests of FHA. Such action may involve taking possession of the property under the loan agreement through court action or obtaining judgment and levying on the property or other actions deemed appropriate by OGC.

FEDERAL REGISTER, VOL. 38, NO. 139—FRIDAY, JULY 20, 1973

V 38 139 JUL 20 73 XUM

§ 1872.13 Deceased borrower.

Deceased borrower cases will be handled in accordance with the policy outlined in Subpart B, Part 1871 of this chapter for such cases.

§ 1872.14 Bankruptcy and insolvency.

Bankruptcy and insolvency cases will be handled in accordance with the policy outlined in Subpart B, Part 1871 of this chapter for such cases, except that in continuation cases a form or acknowledgement of debt and new promise to pay prepared or approved by OGC may be used in lieu of Form FHA 452–1, "Renewal Promissory Note." The handling of bankruptcy cases varies from State to State. Therefore, the State Director will issue requirements for more specific guidance when it will expedite the handling of such cases.

§ 1872.15 Servicing note-only cases.

Each loan made on a note-only basis without mortgage security will be serviced in a manner consistent with the best interests of the borrower and the FHA.

(a) *Sale of real property on which improvements were made with note-only FHA funds except EO loans.* Any loan evidenced only by an unsecured note will be collected by voluntary means, at the time of the sale of the property, if possible. If such collection is not possible, the loan may be assumed by the purchaser of the property on the terms of the note if such assumption is determined to be to the FHA's best financial interests. If such collection or assumption cannot be affected, consideration should be given to settling the account in accordance with Part 1864 of this chapter. If it is eligible, obtaining a judgment, or classifying it as collection-only. In case of a judgment sale, the State Director with the advice of the OGC and the United States Attorney will authorize an employee to attend the sale and if appropriate, enter a bid on behalf of the Government in accordance with § 1872.20.

(b) *Assumption of note-only (except EO loans) when real property securing another FHA loan is involved.* When a borrower has an FHA loan secured by real estate and another FHA loan evidenced only by a note and the entire secured real estate debt is to be assumed, all or a part of the unsecured note up to the present market value of the property in excess of existing liens, must be assumed as appropriate under § 1872.18, if approval of assumption of the secured note and transfer of the real estate is approved. If the entire note-only account is assumed, it may be assumed by use of Form FHA 460–9, "Assumption Agreement (Same Terms—Eligible Transferee)," in accordance with the terms of the existing note. Otherwise, it may be assumed by use of Form FHA 460–5, "Assumption Agreement (New Terms)," by an applicant who meets the eligibility requirements for the type of loan involved and on terms applicable to such a loan. Form FHA 460–5 or Form 460–9 will be modified as appropriate, with the advice of OGC. The loan approval official may require a note-only loan being assumed to be secured by obtaining a new mortgage.

(c) *Deceased borrower cases.* When a borrower who dies owes an FHA unsecured note, the case will be handled in accordance with the applicable policies in Subpart B of Part 1871 of this chapter. If it is determined that there are no assets in the estate from which the claim can be collected and there are no survivors or others who will assume the account and continue to make payments on the note in accordance with its terms, the account will be settled immediately in accordance with Part 1864 of this chapter.

§ 1872.16 Release of FHA mortgage without monetary consideration on basis of additional security or because of mutual mistake or nonexistence of evidence of indebtedness or valueless liens.

(a) *Additional real estate, chattel, or miscellaneous security.* Real estate, chattel, or miscellaneous items which were taken as additional security for a loan secured by real estate may be released by the State Director without consideration before the loan is paid in full, if the market value of the remaining security for the loan is clearly adequate to secure the unpaid balance of the loan. No part of the FO, SW, Recreation, or RH farm, or the borrower's dwelling for an RH, FO, or Recreation loan is considered as additional security for this purpose. This paragraph does not cover basic security for Operating and EM loans and only permits release of real estate for such loans when it was taken as additional security. It must be determined that there is reasonable assurance that orderly payments can be made on the FHA indebtedness, and

(1) *Release.* The release is needed to help finance the borrower's operations, or

(2) *Purposes.* The purposes for which the loan was made would be facilitated, or

(3) *Repayment.* The borrower's ability to repay the loan will be improved.

(b) *Release of real estate from mortgage because of mutual mistake.* Land or buildings included in the mortgage through mutual mistake when substantiated by the factual situation may be released from the mortgage by the State Director. The release is contingent on the State Director with the advice of the OGC determining that a mutual error existed at the time such property was included in the Government's mortgage.

(c) *No evidence of indebtedness.* The FHA mortgage may be released by the County Supervisor in situations where there is no evidence of an existing indebtedness secured by the mortgage to be released in the records of the FHA County, State, or Finance Office.

(a) *Release of valueless liens.* State Directors are authorized to release FHA mortgages or other contract liens which have no present or prospective value or when their enforcement would likely be ineffectual or uneconomical. This authority does not extend to valueless judgment liens or valueless statutory redemption rights except with the consent of the OGC and the U.S. Attorney. The following will be obtained:

(1) *Appraisal report.* A market value appraisal report on the security prepared by an FHA employee authorized to make appraisals.

(2) *Lienholders.* The names of the holders of prior liens on the property and the amount secured by each lien which is prior to the FHA. Such information will be recorded in the running case record of the borrower's County Office case folder and submitted to the State Director for his review.

§ 1872.17 Liquidation action.

When it is determined by the County Supervisor, with the advice of the County Committee and the District Supervisor, that continued servicing of the loan will not accomplish the objectives of the loan or that for other reasons further servicing cannot be justified under the policy stated in § 1872.1 (b), liquidation of the account(s) will be accomplished as expeditiously as possible.

(a) *General.* When the borrower is willing to voluntarily liquidate the account immediately by selling the property and paying the account in full, transferring the total security with an assumption of all or the appropriate portion of the debt under § 1872.18, selling the property for not less than its present market value under paragraph (i) of this section, or conveying the security to the FHA under § 1872.19, the County Supervisor may give him 60 days to accomplish such action. If the property is to be sold for its present market value which is less than the total secured debts against it, the County Supervisor will appraise the property immediately. If the unpaid FHA security debt and any prior lien does not exceed $35,000, the County Supervisor will establish the present market value of the security. Otherwise, he will obtain the concurrence of the District Supervisor for secured debts of not more than $50,000 and the concurrence of the State Director if the secured debts exceed $50,000.

(b) *Problem case report.* If the borrower is unwilling to take any of the actions specified in paragraph (a) of this section, or fails to carry out any such action within 60 days, the County Supervisor will complete Form FHA 465–7, "Report on Real Estate Problem Case," and send it to the State Office through the District Supervisor so that the District Supervisor's recommendation may be attached. If the State Director agrees that forced liquidation is appropriate, he should approve such liquidation. If he considers it justifiable, he may give the borrower additional time to make the sale, transfer, or voluntary conveyance before sending the case to the OGC for initiation of foreclosure action.

(c) *Acceleration of account.* In all cases in which the State Director approves forced liquidation, the account should be accelerated even though he gives the borrower additional time to voluntarily liquidate the account. He should place a time limit on the borrower which usually should not exceed three months in the first instance. The original period fixed by the State Director plus any extension granted by him should in no case exceed one year without prior concurrence of the National Office. Prior to granting any extension after the original period fixed by him, the State Director will require the County Supervisor to report the steps taken by the borrower to liquidate the account. If a sale is involved, the County Supervisor's report should indicate whether the borrower's asking price is reasonable and whether the asking price is delaying the sale unreasonably. Acceleration or granting time for voluntary liquidation as provided for above will not preclude exercise of the authority in paragraph (g) of this section. However, the above authority should never be used for the purpose of extending the liquidation period under paragraph (f) of this section.

(d) *Assignment.* When an insured loan case is sent to the OGC to initiate liquidation action, the insured loan will be simultaneously assigned to the fund as provided in Part 1873, Subpart A of Part 1874 or Subpart B of Part 1874 of this chapter.

(e) *Multiple loans.* When a borrower is indebted to the FHA for more than one type of FHA loan, a thorough study should be made of each loan and of the effect liquidation of one or more of the loans would have on any other loan. When liquidation of one or more FHA loans secured by real estate is necessary and it will jeopardize the repayment of or the accomplishment of the purposes of other FHA loans, all FHA loans should be liquidated, for example, an Operating and FO loan, the liquidation action will be started simultaneously, and the liquidation of real estate and chattel security will be coordinated to the extent possible. However, the chattel security will be liquidated in accordance with Subpart B of Part 1871 of this chapter, except that when an account(s) is secured by both real estate and chattels and the account(s) will be transferred, such transfer(s) will be accomplished in accordance with § 1872.18.

(f) *Requirement.* An RH borrower who obtained a loan on a nonfarm tract or a section 502 Senior Citizens RH loan borrower who no longer lives in the dwelling or any FO or Recreation loan borrower who without FHA consent does not personally operate the farm or recreational facility or when required by the mortgage does not live on the security property, is violating his agreements with FHA. Such a borrower, if available, will be promptly contacted in person by the County Supervisor and advised of the violation and that it will be necessary to liquidate the account by payment in full by refinancing or otherwise, unless definite agreements are reached to remove the violation by reoccupying or resuming personal operation of the property as required or consent for lease is granted as authorized in this Subpart. If the borrower is not available for personal contact or definite agreements cannot be reached or consent to a lease is not authorized, the County Supervisor will make a narrative report of the circumstances to the State Director. Upon receiving such a report, the State Director will write the borrower, notifying him of the violation involved and advising him that, because of the violation, it will be necessary to liquidate the account and give a reasonable period of time (60 to 90 days) in which to comply. If during such period the borrower fails to remove the violation or take appropriate action for liquidation of the account in full, a notice of acceleration will be sent to the borrower by the State Director. Following the notice of acceleration, the borrower may be given additional time to voluntarily liquidate the account in accordance with the policy outlined in the general statement of this section.

(g) *Acceleration agreement.* When liquidation of the account is necessary because of failure to refinance or for other reasons and the remaining loan repayment period exceeds ten years for real estate loans and two years for Operating and EM loans, the State Director may, in lieu of foreclosure, permit the borrower to pay the account under an acceleration agreement providing for not to exceed ten equal amortized annual installments of combined principal and interest for real estate loans except RH loans on nonfarm tracts, and not to exceed five equal amortized annual installments of combined principal and interest for Operating, EM and RH nonfarm loans except that less than a full payment may be scheduled on the first January 1 after the date of the action if such period is substantially less than a full year and the borrower will not have ability to pay the full payment. Interest will be at the rate shown in the note. The State Director will determine that the FHA interests will not be adversely affected, the borrower can reasonably be expected to meet the accelerated payments, and the borrower will continue to comply with other requirements of the loan and security instruments. However, in an unusual case where a borrower owes a small amount and the remaining period of the loan is ten years or less for real estate loans and two years or less for Operating and EM loans, the State Director may authorize acceleration of the account for a shorter period, as appropriate. When an understanding to accelerate is reached with the borrower, Form FHA 465–11, "Accelerated Repayment Agreement," will be completed and executed. Separate Forms FHA 465–11 will be used for each type of loan and for direct or insured loans. If the borrower fails to meet any installment when due as provided in such an agreement, foreclosure action will be initiated.

(h) *Authority.* If an account is to be liquidated by a method other than immediate payment in full by cash, the County Supervisor will, after approval by the State Director, take appropriate action and execute all necessary forms, including satisfactions, releases, and so forth, for completion of the transaction except for those actions specifically reserved to the State Director by this Subpart.

(i) *Cash sale.* The County Supervisor is authorized to approve a cash sale of mortgaged real estate for not less than its present market value established in accordance with paragraph (a) (1) of this section, and to authorize release of the Government's liens, provided:

(1) *Substantial recovery.* A substantial recovery can be made on the FHA secured indebtedness based on a recent appraisal report showing the present market value of the property.

(2) *Application.* All the proceeds are applied on the mortgage debts in accordance with their prospective priorities except authorized costs as specified in § 1872.4.

(3) *Release.* The FHA liens are not released by the County Supervisor until receipt of the appropriate sale proceeds for application on the Government's claim. The release will be made on forms approved or prepared by the OGC. The borrower is not released from personal liability for any deficiency and the borrower is reclassified as collection-only by use of Form FHA 404–1, "Case Reclassification," unless he owes other FHA accounts and is classified as an active borrower. Also Form FHA 450–10, "Advice of Borrower's Change of Address or Name," will be sent to the Finance Office.

§ 1872.18 Transfer of real estate security.

When the mortgage requires the consent of the FHA to any proposed sale or other transfer of real estate security for FHA loans, borrower should be so advised; therefore, before firm agreements have been reached with purchasers for sale of all or a portion of the security, they should contact the County Supervisor relative to the proposed sale. If the proposed sale would not result in the FHA account being paid in full at the time of the sale, the County Supervisor should explain thoroughly the requirements of this section and § 1872.4 or § 1872.17, as appropriate, to the transaction. When the transferor is receiving a substantial downpayment in connection with the sale of his property, the purchaser should be required to contact other sources of credit to secure a loan for repayment of the FHA loan in full and make the transfer unnecessary. When real estate security, including water rights, is sold and the mortgage requires FHA consent to the sale and the transaction cannot be approved under the appropriate paragraphs of this subpart, the account will be liquidated as required in § 1872.17.

(a) *Authority.* County Supervisors, District Supervisors, and State Directors are authorized to approve transfers with assumption of FHA accounts to eligible or ineligible transferees in accordance

V 38 139 JUL 20 73 XUM

with this paragraph and release of liability when the secured debts do not exceed $35,000, $50,000 and $100,000 respectively. State Directors also are authorized to approve such transfers to and assumptions by ineligible transferees regardless of the amount of the outstanding FHA debts or the amount of prior liens. Proposed transfers to and assumptions by eligible transferees which will exceed the authorizations and limitations of the State Director for an initial or subsequent loan of the same type will be submitted to the National Office for review prior to approval.

(b) *General policies.* The following general policies will be applicable when an FHA borrower transfers or proposes to transfer real estate which is security for an FHA loan(s) and the loan account(s) is to be assumed by use of either Form FHA 460–9 or Form 460–5.

(1) *Agreement.* Form FHA 465–5, "Transfer of Real Estate Security," will be completed to reflect the agreement between the transferor and the transferee.

(2) *Assignment.* If an insured loan is involved, the Finance Office will have the insured note assigned to the fund when the assumption agreement changes the terms of the note.

(3) *Value.* All transfers will be based on present market value. When the total secured FHA debt(s) exceeds the present market value, the transferee will assume an amount equal to the present market value as determined in accordance with § 1872.17(a) less prior liens. Otherwise, the transferee will assume the total FHA secured debt(s).

(4) *Assumption agreement.* Notwithstanding that part of Part 1807 of this chapter, regarding the effect of a wife's signature on a promissory note, a deceased borrower's spouse will execute an assumption agreement when the spouse is not already liable for the indebtedness because of not having signed the note(s) or would be absolved from liability under State law after having signed the note(s). The assumption agreement, when required in such cases, will be completed and sent to the Finance Office. The interest rate and terms of the assumption agreement of such a spouse usually will remain the same as they were in the note(s). If, however, the number of years over which a note was amortized needs to be extended to be within the repayment ability of the assuming spouse, the reamortization period may be extended but cannot exceed the repayment period applicable to the kind of loan being assumed.

(5) *Joint borrowers.* When one of the joint borrowers (including the jointly liable spouse of a divorced borrower) withdraws from the operation and conveys his interest in the security or any EO property to the remaining borrower who desires to assume the total indebtedness as between himself and the other party, the assumption will be made on the basis of the existing note(s) by use of Form FHA 460–9, or in case of an ineligible transferee, on Form FHA 460–5, on terms applicable to ineligible applicants. In such case, the other spouse or joint owner will be released of liability for the indebtedness if the conditions of § 1872.17 (f) are met.

(6) *Assumption.* When the spouse or another member of a borrower's family who is eligible for the kind of loan involved will assume the indebtedness along with one or more of the existing borrowers, the assumption will be made on the same basis as the existing note(s) by use of Form FHA 460–9. Such assumptions are frequently made in accordance with all of the applicable requirements of § 1872.17 when an aged couple has a son or daughter who will assist in operating the farm or live in the RH house; help make the payments; obtain title to the property individually or jointly with the borrower(s); or subject to a life estate reservation by the existing borrower(s).

(7) *Loan type.* The kind(s) of loan will remain the same for all loans except that loans which are transferred to ineligible applicants will be classified as ORE.

(8) *Title.* Generally, title to all FHA real estate security, including water rights, must be conveyed to the transferee not later than the date of closing the transfer. However, a transfer of a portion of the FHA real estate security with an assumption of the total indebtedness may be approved, provided the portion of the FHA security transferred has a present market value at least equal to the total indebtedness owed by the borrower or such indebtedness is reduced by a cash payment to the present market value of such property, and the transaction is advantageous to the Government and the borrower. In such a transaction, the transferor will be released from personal liability for the debts. The security he retained will be released from the Government's lien.

(9) *Portion of debt.* When a request is made by a borrower to transfer the real estate security as parcels to each of different transferees with assumption of a portion of the debt, the County Supervisor may send the proposed action to the State Director for consideration if it is recommended after a determination has been made that such transaction would be advantageous to the Government. In such a case, the County Supervisor will submit to the State Director the complete factual information concerning the transaction. It will include appraisal reports showing the present market value of each portion to be transferred and such value of the total unit before subdivision, the amount of indebtedness to be assumed by each transferee, and the case file with other pertinent information outlining the reasons for the proposed actions.

(10) *Dual security.* When the account(s) is secured by both chattel and real estate, all the chattel security must be transferred, sold, or liquidated by the time of the transfer of the account(s), except that in case of EM or SL security, the real estate security may be transferred without transfer or liquidation of the chattel security upon prior approval of the National Office.

(11) *Consent.* The written consent of any lienholder must be obtained if required by the mortgage.

(12) *Junior lien.* When the full amount of the FHA debt is assumed, there must be no liens, judgments, or other claims against the security which are junior to any FHA liens being assumed unless the State Director determines that such liens, judgments, or claims will not adversely affect the Government's security interest and that the transferee's ability to pay the FHA debt will not be impaired thereby.

(13) *Restrictions.* When less than the full amount of the FHA debt is being assumed, there must be no liens, judgments, or other claims against the security which are junior to any FHA loans being assumed.

(14) *Loans.* An initial or subsequent loan for which the transferee is eligible may be made in connection with a transfer subject to the policies and procedures governing the kind of loan being made. When the transfer is being made to an eligible FO applicant, FO loan funds may be used to pay equity. When real estate security for an RH loan is transferred to a person eligible under Subpart A of Part 1822 of this chapter for an RH loan to purchase such real estate, RH loan funds may be used to pay the equity. This, however, does not include income producing land or buildings. In lieu of the subsequent loan of the kind involved, the Government's lien may be subordinated to enable the transferror to take a first mortgage to secure the amount of his equity payment or to permit another lender to furnish the funds needed in connection with the transfer. In such cases, the subordination will be processed in accordance with the applicable provisions of § 1872.3. The transferor may convey title to the property by warranty deed or when he agrees to take a first lien to secure his downpayment, he may sell the property by purchase contract or similar instrument that meets the conditions of Subpart A of Part 1821 of this chapter. In such cases, prior lienholders' agreements will be obtained in accordance with Part 1807 of this chapter. When necessary to settle a divorce action, a subsequent loan may be made or a subordination may be granted to permit the remaining borrower to obtain a loan in an amount not to exceed the equity in the property.

(15) *Payments.* If a payment to the transferor is to be made in connection with the transfer, the total FHA debt must be assumed unless the payment received by the transferor is applied on a prior lien or to the portion of the transferor's FHA debt not assumed.

(16) *Requirement.* When the full amount of the FHA secured debt is being assumed and other FHA debts owed by the transferor are not adequately secured, the State Director may, as a condition of approving the transfer, require that all or a part of any equity payment be applied on such debts.

(17) *Downpayment.* The transferee will make a downpayment on the FHA secured debts if he is financially able. When a payment is required, the transfer will not be closed nor the appropriate assumption agreement executed prior to receipt of such payment.

(18) *Date.* The effective date of the transfer will be the actual date the transfer is closed. This is the date on which Forms FHA 460–5, or FHA 460–9 are signed. In connection with use of either form, the unpaid principal balance and accrued interest will be shown in Table 1 and the accrued interest will be computed from Form FHA 451–26, "Transaction Record," or Form FHA 451–31, "Borrower Transaction Record." If Form FHA 460–9 is used the transferee will be informed of the amount of principal and interest owed, as shown on the latest Transaction Record. He also will be advised as to the total amount paid as of that date which has not been credited to the account and the amount that would be required to be paid to place the account on schedule as of the previous installment due date and any accounts that must be paid to bring any monthly payments up to date.

(19) *Civil Rights Act.* When the property transferred was subject to Title VI of the Civil Rights Act of 1964, and will continue to be used for the same or similar purpose for which Federal financial assistance was extended, the transferee will sign Form FHA 400–4, "Nondiscrimination Agreement."

(c) *Transfer of FHA direct or insured loans to eligible applicants*—(1) *Eligibility.* A direct or insured loan may be transferred to an applicant who meets the eligibility requirements for the kind of loan being assumed or whose situation after the transfer will satisfy such eligibility requirements. Also, an RH Senior Citizen loan may be transferred to anyone eligible for a section 502 RH loan. An ORE loan may be transferred to an applicant who meets the eligibility requirements for an FO loan, or to an applicant who meets the eligibility requirements for an RH loan if it is a nonfarm tract and was security for an RH loan originally. An RH loan to a person of low or moderate income may be transferred to a person whose income is above moderate and who meets the other requirements of an eligible transferee, only if there are no eligible low or moderate income applicants available for the transfer, and if the approval official determines that the transfer will be in the best financial interest of FHA. An above-moderate loan may be transferred to an applicant whose income may not be in the above moderate category provided his income is sufficient to meet the terms of the loan. Such a loan, after the transfer will continue to be classified as above moderate. Livestock or other emergency-type loans no longer being made may be transferred to an applicant who meets current EM loan requirements. Any other type of loan for which there are no present authorizations or eligibility requirements may be transferred only with the advice of the National Office after considering the recommendation of the State Director and reviewing the case file.

(2) *Repayment and reamortization terms*—(i) *Form FHA 460–9.* Except as noted below for RH loans, assumption of any FHA loan may be approved without any change in the balance owed, interest rate, or other terms. In such cases Form FHA 460–9 will be used. A loan may be transferred even though it is on schedule, ahead of schedule, or behind schedule. Whenever reasonably possible, any delinquency should be paid at the time of assumption. However, this is not required if the total FHA debt to be assumed is within the debt paying ability of the transferee.

(A) Rural Housing Disaster loans will be transferred at the current rate for section 502 loans unless the transferee is eligible for a Rural Housing Disaster loan.

(B) Direct sections 502, 503, and direct Senior Citizen RH loans will be transferred at the current rate for Section 502 loans unless the transferee is eligible for a Senior Citizen RH loan.

(C) Low and moderate RH loans transferred to a person having an above-moderate income will be transferred at the current rate for an above-moderate section 502 loan. Loans referred to in subdivision (i) (A), (B) and (C) of this subparagraph will be transferred in accordance with subdivision (ii) of this subparagraph.

(ii) *Form FHA 460–5.* If an extension of the existing loan repayment period is necessary to enable the transferee to be successful, Form FHA 460–5 will be used. The new repayment period will be the same as the repayment period for a new loan of the type involved; for example, FO—40 years, Operating—7 years, and RH—33 years. If a new repayment period is used and the current interest rate is higher than the rate specified in the note, the current interest rate for a new loan of the type involved will be used, and any insurance charge applicable to such a loan will be provided for, except in assumptions by a surviving spouse under paragraph (b)(4) of this section. In determining the new repayment period and interest rate, an ORE loan will be considered an FO or RH loan in accordance with paragraph (c)(1) of this section and a livestock or other emergency-type loan no longer being made will be considered an EM loan.

(d) *Transfer of direct and insured loans to ineligible transferees.* When a borrower sells or proposes to sell the real estate security to a person(s) who is not eligible to assume the indebtedness in accordance with paragraph (c) of this section and the mortgage requires the Government's consent for transaction, it will be the policy to immediately liquidate the account unless it is to the best financial interest of the FHA to permit assumption of the account. Except for RH loans, a person as herein used may include a farming corporation or a farming partnership but it does not include other corporations or partnerships, realtors, or financing institutions. For any type of loan for which there are no existing authorizations or eligibility requirements in FHA regulations, the loan may be transferred under the requirements and conditions of this section. If the approval official determines that it is to the best financial interest of the FHA to transfer the account, he may consent to the transfer by assumption agreement provided:

(1) *Downpayment.* Each transferee is required to make as large a downpayment on the FHA secured debt as he is financially able to make under the circumstances. However, no transfer to an ineligible applicant may be approved without at least a 10 percent downpayment.

(2) *Terms—farm.* Except for RH loans on nonfarm tracts, the balance of the FHA debt assumed is scheduled for repayment in not to exceed 10 amortized annual installments with interest to the borrower at the rate being charged for section 502 RH loans to moderate-income applicants at that time or at the rate of interest specified in the note being assumed, whichever is greater. When it has been definitely determined that a property cannot be transferred on terms of 10 years or less because of conditions in the area, the State Director may authorize a longer repayment term not to exceed 15 years.

(3) *Terms—nonfarm.* For RH loans secured by a lien on a nonfarm tract, the balance of the RH debt assumed may be scheduled for repayment is not to exceed five amortized annual installments. Interest on the amount assumed will be charged at the rate currently applicable to above-moderate RH loans, including insurance charges, or at the rate of interest specified in the note being assumed, whichever is greater.

(4) *Payment.* The transferee has ability to pay the FHA debt in accordance with the assumption agreement and the legal capacity to enter into the contract.

(5) *County Committee.* Except when use of the County Committee has been waived for RH loans, the County Committee finds that the transferee will honestly endeavor to make payments in accordance with the assumption agreements, maintain the security property, and carry out his other obligations in connection with the loan.

(6) *Conditions.* The transfer will not adversely affect the FHA program in the area.

(e) *Consent of FHA not required to transfer.* Where the FHA mortgage(s) does not require the Government's consent to the sale of the security and the borrower conveys or proposes to convey the security to a person who is ineligible or unwilling to assume the FHA debt in accordance with paragraph (c) or (d) of this section, the Government will not consent to the sale. In such a case, the County Supervisor will advise the State Director of the sale. If the account is delinquent or the loan is otherwise in default, the County Supervisor also will

V 38-139 JUL 20 73 XUM

advise the State Director of the nature of the default, and any specific plans that may have been made to correct the default. If it is determined to continue with the account, it will be serviced in the name of the borrower and otherwise serviced in the usual manner.

(f) *Release of transferor from liability.* When all of the real estate security for an FHA loan is transferred under paragraphs (c) or (d) of this section, and the total outstanding debt is assumed it will be the policy to release the borrower (and any cosigner for an RH loan) from personal liability to the FHA. However, if a portion of the outstanding debt is not assumed, the following conditions must be satisfied:

(1) *Certification.* The County Committee has made the appropriate certification and recommendations prescribed in paragraph (g)(6) of this section.

(2) *Debt-paying ability.* The transferor and any cosigner do not have reasonable debt-paying ability considering his assets and income at the time of the transfer.

(3) *Release.* For an RH loan involving a cosigner, the transferor may be released from personal liability only if the cosigner also can be released.

(g) *Processing transfer by assumption of indebtedness.* When the transfer is not within the County Supervisor's approval authority, the docket with the transferor's case file will be sent to the District Supervisor or State Office, as appropriate, for approval or disapproval.

(1) *Refund of unused funds, loan funds not advanced, transaction record.* Unexpended funds in the supervised bank account will be applied as a refund unless FO, SW, Recreation, RH, RRH, LH, or EM security is involved and the funds are needed for completing planned development. Any obligation of or request for loan funds not yet advanced will be canceled. Form FHA 451–26 or Form FHA 451–31 will be used to compute the unpaid balance due on the effective date of the transfer.

(2) *Preparation and distribution of transfer docket.*

(i) *Checking docket forms.* When the transfer docket forms listed in regulations available in all FHA offices have been completed, they will be checked thoroughly to determine that the proposed transfer conforms to the applicable requirements; each form is prepared correctly in accordance with appropriate instructions; and items such as names, addresses, and the amount of the indebtedness to be assumed are the same on all forms in which such items appear.

(ii) *Information on the availability of other credit.* The County Supervisor will record in the Running Case Record the pertinent information concerning the negotiations made by an eligible transferee and the discussion by FHA personnel with the applicant's creditors and other lenders. The investigation and availability of other credit for eligible transferees will be documented as required for the kind of loan being assumed. This must be sufficiently clear and adequate to establish that other credit is not available to pay the debt in full and make the transfer unnecessary. Any letters from lenders or other evidence which may have been obtained indicating that the applicant is unable to obtain satisfactory credit elsewhere will be included in the loan docket.

(iii) *Distribution of transfer docket forms.* The loan docket will include the forms and documents listed in regulations available in all FHA County Offices.

(3) *Collections and receipts.* During the period that a transfer is pending in the County Office, payments received by the Finance Office will continue to be applied to the transferor's account and Form FHA 451–26 or Form FHA 451–31 will be forwarded to the County Office. This includes any downpayments made in connection with the transfer for reducing the amount of the debt to be assumed. When the County Supervisor has received a payment on the account for which no Transaction Record has been issued, he should deduct such amounts from the total amount of principal and interest calculated from the latest Transaction Record before completing the assumption agreement and having it signed.

(i) Transaction record. When the borrower has made a direct payment to the Finance Office and there is no record of the payment in the County Office, the account will be assumed on the basis of the latest Transaction Record. In such cases, the application of the direct payment will be reversed from the account and the assumption agreement will be processed in the Finance Office. The Director of the Finance Office will contact the County Supervisor to determine the disposition of the proceeds from the direct payment.

(ii) Identification. For payments received on the date of transfer, Form FHA 451–2, "Schedule of Remittances," will be prepared to show "Transfer in process of account owed by (borrower's name and case number) to be transferred to (name of transferee and case number, if known)." If the borrower number portion of the case number has not yet been assigned for a transferee only the state and county portion of the case number will be shown. A statement for the information of the Finance Office will be attached to the assumption agreement showing the date of Form FHA 451–2 and the amount paid.

(iii) Payment. When a payment is due on the assumption agreement shortly after the transfer is completed, such a payment should, if possible, be collected at the time of transfer and remitted in the name of the transferee.

(4) *Farm and home plans and financial statements.* When the transfer involves an ineligible transferee, Form FHA 431–3 or Form FHA 431–2 will be used with Tables A and B being completed in the same manner as for any other borrower but other tables and portions of the Form will be completed only to the extent necessary to determine the debt-paying ability of the transferee and to give sufficient information for completing Table J. When a transfer is to be made for less than the amount of the indebtedness and a release of liability is involved, a current financial and income statement of transferor will be obtained on Form FHA 431–3 or Form FHA 431–2.

(5) *Appraisal report.* Forms FHA 422–1, FHA 422–3, "Appraisal Report for Multiunit Housing," or FHA 422–8 as appropriate will be obtained when the amount to be assumed is less than the full amount of the indebtedness; when required in connection with an initial or subsequent FO, Recreation, SW, RH, RRH, or LH loan to be processed with the transfer; or the loan approval official requests a current appraisal.

(6) *County Committee certification and recommendation.* The complete transfer docket, except where use of the County Committee for determining the eligibility of RH applicants has been waived, will be presented to the County Committee for review.

(i) Applicants. The transfer will be contingent upon the County Committee making its appropriate certification on Form FHA 440–2 for an eligible applicant other than RH applicants excepted above, or in every case when transfer is to an ineligible applicant, completing the following memorandum:

"In our opinion, the transferee, (*name of transferee*), will honestly endeavor to make payments in accordance with the assumption agreement, maintain the security, and carry out the other obligations in connection with the loan."

(ii) Release. When the County Committee recommends a release of the transferor and any cosigner from liability in any case where real estate security is being transferred under paragraph (c) or (d) of this section, with an assumption of less than the total debt, it will provide the following statement to be added to Form FHA 440–2 for an eligible applicant or the memorandum statement for an ineligible applicant:

"(*Name of transferor and any cosigner*), in our opinion do not have reasonable debt-ability to pay all or a substantial part of the balance of the debt not assumed after considering their assets and income at the time of the transfer. Transferors have cooperated in good faith, used due diligence to maintain the security against loss, and otherwise fulfilled the covenants incident to the loan to the best of their ability. Therefore, we recommend that the transferor and any cosigner be released of personal liability upon the transferees' assumption of that portion of the indebtedness equal to the present market value of the security."

(7) *Property insurance.* The transferee will obtain property insurance in accordance with the requirement for the loan(s) involved unless the approval official requires additional insurance as a condition of approval. If insurance is required, it may be obtained either by transfer of the existing coverage by the transferor or by acquisition of new coverage by the transferee. The insurance company will be notified by the County Supervisor immediately after completion of the transfer. When the full amount of the FHA indebtedness is being assumed and an insurance premium has been advanced to the account, the transfer will not be completed until the amount of the premium has been charged to the transferor's account.

(8) *Title clearance and legal services.* Title clearance and legal services for closing transfers will be accomplished in accordance with FHA Part 1807 of this chapter, in case of a transfer involving an FO, Recreation, RH, RRH to an individual, LH, or SW not coded J, or an LCD loan. Title clearance and legal services for such loans, however, is not required when a joint borrower conveys his interest in the security to the remaining borrower who assumes the total indebtedness provided a subsequent loan or subordination is not involved. For all other kinds of loans being transferred, title clearance and loan closing services will not be required unless the approval official, with the advice of the OGC, determines that such services are needed in order to maintain the FHA's security position or for other reasons. If other than an FHA mortgage is involved which requires the mortgagee's consent to the transfer, such consent will be obtained.

(9) *Assumption agreement, release from personal liability, receipts.* Forms FHA 460–5 or FHA 460–9, and FHA 451–1, "Acknowledgement of Cash Payment," and FHA 465–8, "Release from Personal Liability," in each case where the full amount of the debt is assumed or a release from personal liability is otherwise approved under this Subpart and all of the security is being transferred, will be completed and executed simultaneously with closing of the transaction. The original (and signed copy for insured loan) Form FHA 460–5 or Form FHA 460–9 and, when applicable, Form FHA 451–1, and a signed copy of Form FHA 465–8 will be transmitted immediately to the Finance Office.

(10) *Transfer of unused development funds.* Any remaining funds not to be refunded that are in the transferor's supervised bank account will be transferred to the transferee's supervised bank account simultaneously with the closing of the transfer for use in completing planned development.

(11) *Case folder.* The transferor's County Office case folder will be used for the transferee after adjustments have been made.

(12) *Nondiscrimination agreement.* If the original loan was subject to Title VI of the Civil Rights Act of 1964, the transferee will sign Form FHA 400–4, "Nondiscrimination Agreement."

(h) *Transfer not completed.* If for any reason the transfer is not completed, the Finance Office will be notified to resume servicing of the account in the name of the transferor.

§ 1872.19 Voluntary conveyance of security to FHA.

When voluntary conveyance of security to the FHA is determined to be appropriate, the voluntary conveyance docket will be assembled and submitted to the State Director or District Supervisor, as appropriate, with the borrower's County Office case folder(s). If voluntary conveyance is approved as being to the best financial interest of the Government by permitting a substantial recovery on the Government's loan, the State Director will send to the County Office any title information or evidence of ownership of water rights held in the State Office. When a prior lien(s) exist, such lien(s) will be paid by Standard Form 1034, only if it is determined that a substantially greater recovery on the Government's investment can be obtained, or the property is suitable for sale to an eligible applicant subject to the terms of the prior lien and the holder of the prior lien(s) will not agree for the Government to acquire the property and resell it subject to his lien(s). If the property is acquired subject to a prior lien(s), payment of annual installments on the prior mortgage may be made while title to the property is held by the Government. All junior liens on the property except FHA liens and taxes and assessments which are or will become a lien on the property must be satisfied by the borrower without FHA assistance, unless the State Director determines that payment of the junior liens by Government voucher will better protect the Government's interests, in the light of all pertinent factors including the results of any delay that foreclosure action would involve. The word "property" as used in this section includes the real estate items which are considered real estate, items which customarily pass with the real estate in the change of ownership, and any irrigation equipment and other equipment such as bulk milk tanks, feed storage facilities which are chattel security if it is necessary for the successful operation of the farm, will enhance the sale of the farm, and is a part of the security for the loan involved in the conveyance.

(a) *Authority.* The State Director, subject to the policies outlined in this paragraph, is authorized to approve a voluntary conveyance with or without release of personal liability. The State Director is authorized to consent to release of a borrower and any cosigner in connection with a voluntary conveyance as set forth in § 1872.18(f) applicable to a transfer. The District Supervisor is authorized to approve transactions under this section on the same basis as the State Director provided the total debts against the security do not exceed $50,000.

(b) *Preparation, processing, and distribution of voluntary conveyance docket.* When a borrower offers to voluntarily convey his property to the FHA and agrees to carry out all the conditions contained in Form FHA 465–4, "Offer to Convey Security," the form will be completed and he will signify his agreement by signing the form. A warranty deed on a State-approved form or a deed meeting the requirements of part 1807 of this chapter will be required and, whenever possible, completed and signed simultaneously with Form 465–4; however, it will not be recorded until closing of the transaction. Also, if water rights involved are not fully conveyed in the deed, any necessary assignments or transfers of water stock or membership certificates or other water right title documents required will be obtained simultaneously with the execution of Form FHA 465–4 whenever possible but not later than the execution of the deed and will be recorded, if necessary or appropriate, in connection with closing the transaction. When the borrower executes Form 465–4, a preliminary determination will be made by the County Supervisor as to whether the property constitutes a family farm as defined in Subpart A of Part 1821 of this chapter.

(1) *Acceptance of offer.* When the offer provides only for a credit to be allowed on the account equal to the value of the security as determined by the FHA less any prior liens that are to remain outstanding, the approval official will immediately accept the offer subject to the conditions outlined in Form FHA 465–4, irrespective of the amount of credit to be allowed as the value of the security. If the offer provides for full satisfaction of all FHA debts secured by the real estate, it will be accepted when it is determined that the value of the security less any prior liens to remain outstanding will satisfy the FHA debts or that the borrower will be released from personal liability for the deficiency. If the offer to convey in full satisfaction of such debts is not acceptable, it will be returned to the County Supervisor and he will attempt to obtain an offer which will convey the security for its value as determined by the FHA. When an insured loan not held by the insurance fund is involved and the State Director decides to accept the offer to convey, he will request the Director, Finance Office, to have the insured loan assigned to the insurance fund.

(2) *Taxes.* When Form FHA 465–4 is submitted to the approval official, Standard Form 1034 will be attached thereto for the payment of any taxes and assessments which are a lien or will become a lien on the property or water assessments or charges to protect the right to receive water, which are due and payable and when Form FHA 465–4 does not obligate the borrower to pay. If Form FHA 465–4 is accepted, the approval official will forward the voucher to the Finance Office.

(3) *Appraisals.* A current appraisal report for the property will be obtained in each case and will reflect the market value of the property in its present condition.

(4) *County Committee's certification and recommendation.* When property is to be voluntarily conveyed for a credit on the borrower's account of less than the FHA indebtedness secured by the property, the County Committee will determine whether in its opinion the borrower should be released of liability for any balance owned on such indebtedness. If the County Committee recommends that the borrower and any cosigner be released of liability for such balance, it will make the following certification:

V 38 I 139 JUL 20 73 XUM

"In our opinion (*Name or borrower(s) and any cosigner*) do not have reasonable debt-paying ability to pay all or a substantial part of the balance of the debt owed after the voluntary conveyance, taking into consideration their assets and income at the time of the conveyance. The borrower has cooperated in good faith, used due diligence to maintain the security property against loss, and otherwise fulfilled the covenants incident to the loan to the best of his ability. Therefore, we recommend that the borrower and any cosigner be released of personal liability for any balance due on the secured indebtedness upon conveyance of the property to the Government."

(5) *Determining the value of security to be conveyed.* The value of the security to be voluntarily conveyed to the FHA will be determined in accordance with § 1872.17(a) taking into consideration a recently prepared appraisal report. The value of such security will be the estimated sale price of the property based on its present market value. Based on the recommendation of the County Supervisor, a decision will be made by the District Supervisor or State Director as appropriate at the time of acquisition of the property as to whether such property is suitable for sale under the terms and conditions or Subpart c of Part 1872 of this chapter to eligible applicants, or as surplus property. The County Supervisor will be notified of the determination and given instructions for selling the property in accordance with Subpart c of Part 1872 of this chapter.

(6) *Obtaining statement of account and refunding unused loan funds.* Any funds remaining in the supervised bank account will be applied as a refund on the loan prior to assembling the voluntary conveyance docket. A statement of account will be requested by use of Form FHA 451–10, "Request for Statement of Account."

(7) *Checking docket forms.* When the docket forms have been completed, they will be checked thoroughly to determine that each form is prepared correctly in accordance with requirements and items such as names and addresses are the same on all forms in which such items appear.

(8) *Distribution of voluntary conveyance docket forms.* The loan docket will include the forms and documents listed in regulations available in all FHA County Offices.

(9) *Title examination and closing instructions.* Upon acceptance of the borrower's offer, the County Supervisor will determine whether title clearance and closing of conveyance will be accomplished by the assistance of the designated attorney, title insurance company, or combination thereof, or by other method, as outlined in State requirements. The County Supervisor will notify the designated attorney or insurance company to furnish title services in accordance with Part 1807 of this chapter. All junior liens and taxes and assessments to be advanced by the FHA will be removed by the borrower, unless the State Director determines that payment of the junior liens by Government vouchers will better protect the Government's interests, in the light of all pertinent factors including the results of any delay that foreclosure action would involve. Any additional title defects or encumbrances will be removed by the borrower except those recited in the FHA mortgage or subsequently approved by the FHA. When title defects or encumbrances will be removed as required, the title examination information will be submitted to the designated attorney or title insurance company with a memorandum also with Form FHA 465–4, the deed of conveyance, any water right documents the original or a conformed copy of the FHA mortgage and any assignment instruments, and conformed copies of any remaining encumbrances such as mineral leases, agricultural leases, easements, rights-of-way, and partial releases. The memorandum will include information as to items of expense incident to conveyance of title which have been paid by the FHA, but are not shown on the statement of account, items of expense which are to be paid by the FHA, a statement as to whether the account is to be fully satisfied, a request for preparation of necessary legal instruments including any necessary separate instruments of assignment (which will become effective when the deed is recorded) pursuant to Form FHA 465–4 and request a date for closing the conveyance. The designated attorney or title insurance company will determine the manner in which any necessary notices of assignment of leases will be given to the lessees. The assistance of the OGC will be obtained only in unusual or complex cases.

(10) *Closing of conveyance.* The State Director will issue regulations containing general guidelines for closing a voluntary conveyance when it will expedite such closing. The conveyance transaction will be closed by the designated attorney or title insurance company representative. When an insured loan is involved the Finance Office will be requested to repurchase and assign the borrowers promissory note to the appropriate insurance fund. The conveyance transactions may be closed and deed recorded pending, however, assignment of the insured note to the insurance fund. Expenses incident to the closing of the transaction, as authorized in the closing regulations will be paid by Standard Form 1034. After the designated attorney or title insurance company determines that the transaction has been properly closed, he will return to the County Supervisor all documents submitted to him and advise as to the date when title to the property was vested in the Government. A copy of this memorandum to the County Supervisor will be forwarded to the State Director and to the Finance Office. The County Supervisor will notify the District Supervisor of completion of any conveyance which he approved. Property insurance will be handled in accordance with Part 1806 of this chapter.

(11) *Credit of value of property on indebtedness and inventory records.* The credit to be allowed on the account will be either the value of the security to be conveyed as determined in accordance with Subparagraph (5) of this paragraph, or the total amount of the indebtedness owed on the account after all expense items have been charged thereto, whichever is less. Immediately after the transaction is closed in accordance with the closing instructions and the amount of the credit to be allowed on the account is determined, Form FHA 465–6, "Advice of Mortgaged Real Estate Acquired," and where applicable, Form FHA 465–8 will be completed and transmitted to the Finance Office by the County Supervisor for processing. Any assigned agricultural, mineral, or other lease on the property will be sent to the Finance Office along with Form FHA 465–6. In an oral lease of the property or on a portion of the property exists, it will be reduced to writing on Form FHA 462–2, "Statement of Conditions on which Lien will be Released," and if possible its execution by the lessee will be obtained. A copy of the Form FHA 465–2 will be sent to the Finance Office. After the Finance Office assigns an advice number to Form FHA 465–6 and a contract number to the lease, it will advise the County Supervisor by memorandum with a copy to the State Office of such number for proper identification of the inventory property and lease.

(i) *Satisfied account.* The Finance Office will stamp the borrower's note "Satisfied by the surrender of security and release from liability" when the account is fully statisfied or the borrower is released from personal liability for any deficiency. The Finance Office will forward the stamped note to the County Supervisor for delivery to the borrower.

(ii) *Unsatisfied account.* Where the account is not fully satisfied by surrender of the security and the borrower is not released from personal liability for the deficiency, the borrower will be classified as collection-only if appropriate by processing Form FHA 404–1 and Form FHA 450–10 and submitting them to the Finance Office together with Form FHA 465–6. The remaining amount will be accelerated by written notice of grounds for acceleration exist. The Finance Office will retain the note(s) and send the County Office a current Form FHA 451–11. Upon receipt of Form FHA 451–11 from the Finance Office, the loan record card will be reconciled with the statement of account and the account will be serviced as a collection-only case in accordance with Subpart A of Part 1861 of this chapter.

§ 1872.20 Foreclosure by the Government.

Foreclosure action will be recommended in a default case when liquidation has been decided upon, a substantial net recovery can be obtained on the FHA account, and foreclosure is determined to be the most practicable method of liquidation by which the interest of the FHA can be protected or failure to foreclose would adversely affect the FHA program in the area. If these requirements cannot be met under the circumstances existing when foreclosure is first considered, but conditions change so that the requirements can be met at a later date, foreclosure will be instituted at a later date.

When there is a prior lien(s) and the State Director has determined that foreclosure is necessary, he will contact the prior lienholder, either directly or through the County Supervisor, and give him an opportunity to institute the foreclosure proceedings, if his lien is in default, with the FHA taking whatever action is necessary to protect the interests of the Government. If the prior lienholder is unable or unwilling to institute the foreclosure, the FHA will institute foreclosure proceedings, subject to the prior lien if feasible. Whether foreclosure of the FHA mortgage will be subject to the prior lien will depend upon such factors as the State law, the action or inaction of the prior lienholder, the condition of the prior lien account, the amount of the prior lien debt in relation to the debt, and other factors. After issuance of the acceleration notice, account and security servicing actions other than acceptance of payment in full, voluntary conveyance or permitting of transfer, including payment of insurance and taxes, will be taken only with the advice of the OGC. Expenses incident to the foreclosure action which are approved by the OGC for payment by the FHA will be paid in accordance with applicable regulations. If the OGC advises that a credit on the borrower's account or a Standard Form 1034 will not be acceptable for payment of the FHA bid, the State Director will obtain a check from the Finance Office for making the payment. Standard Form 1034 will be used for this purpose and will fully explain why it is necessary to immediately obtain a check for such payment.

(a) *Authority.* The State Director is authorized to approve foreclosures and to execute any necessary documents. After such approval, the County Supervisor will take appropriate action and execute all necessary forms for completion of the transaction except as otherwise provided in this paragraph.

(b) *Processing.*

(1) *Form FHA 465–7 and recommendation for deficiency judgment.* If Form FHA 465–7 has not been recently submitted to the State Office and foreclosure is recommended in accordance with § 1872.17, the form will be completed; and if chattel security is involved, Form FHA 455–1, "Request for Legal Action," and Form FHA 455–2, "Evidence of Conversion," when appropriate, providing necessary supplementary information will be attached to Form FHA 465–7. The completed Form FHA 465–7 will be forwarded with the County Office case file to the State Office through the District Supervisor so that the District Supervisor's recommendation may be attached. If it appears that the recovery to the Government from a sale by foreclosure will be insufficient to fully satisfy the indebtedness, the borrower's situation will be reviewed by the County Supervisor to determine if there is a possibility of making a further recovery on the account. The facts revealed by his review should be included in the recommendation made on Form FHA 465–7. Where foreclosure action does not automatically result in a deficiency judgment and there are other assets from which a substantial recovery can be made, the OGC will be requested by the State Director on Form FHA 465–7 to obtain such a judgment if legally permissible.

(2) *Appraisal report, additional instructions and withdrawal of funds in supervised bank account.* The State Director will obtain a present market value appraisal report unless there is a current appraisal report that can be relied upon for completing Form FHA 465–7. Any additional instructions and the case folder will be returned to the County Office. Also, when foreclosure is approved, the State Director will include any title information or evidence of ownership of water rights held in the State Office. Any order to the bank will be included for withdrawal of any funds remaining in the supervised bank account.

(3) *Foreclosure not approved.* If foreclosure is not approved, the State Director will instruct the County Superivsor on Form FHA 465–7 on future servicing of the account. The original of Form FHA 465–7 will be forwarded to the County Supervisor, a copy retained in the State Office and a copy sent to the District Supervisor.

(4) *Actions after approval of foreclosure.* When foreclosure action is approved, steps will be taken to consummate the foreclosure as follows:

(i) *Unused loan funds.* Any funds remaining in the supervised bank account will be refunded.

(ii) *Statement of account.* Form FHA 451–10 will be forwarded to the Finance Office to obtain a statement of account for each account to be included in the foreclosure and to request the Finance Office not to issue any statements of account to the borrower until further notice.

(iii) *Issuance of acceleration notice.* When an FHA mortgage is in monetary default the State Director will date, sign, and forward the acceleration notice, if he has not already issued one in accordance with § 1872.17(c), to the borrower with two conformed copies to the County Supervisor, along with the case folder and any necessary instructions. For all other types of default the account will not be accelerated until review by the OGC. In such cases a State regulation will be issued to prescribe the information to be assembled and sent to OGC. In any case where the borrower is in the Armed Forces of the United States the acceleration notice will not be prepared until clearance is obtained from the Regional Attorney. A copy of Form FHA 465–7 will be retained in the State Office and a copy forwarded to the District Supervisor. Thereafter, except as otherwise provided in the State requirements where State law requires acceptances of defaulted installments after acceleration, the County Supervisor will not accept payment of less than the full amount of the indebtedness but will notify the State Director of any such offer and ask for instructions.

(iv) *Cancellation of foreclosure action.* When it has been determined that foreclosure is warranted and circumstances change which, in the opinion of the State Director, makes liquidation of the account unnecessary, he may stop the action or request that it be stopped. If the action is stopped, the account will be reinstated. The State and County Office records will be properly noted to indicate the situation and the borrower will be informed. The Finance Office will be notified. The OGC also will be informed of the situation if it has been consulted.

(v) *Forwarding docket to the OGC and institution of foreclosure action.* When the period provided by the acceleration notice expires, or, if one is not issued upon the advice of the OGC the following action will be taken:

(A) If a direct loan is involved, the State Director will request the Finance Office to send the original or conformed copy of the note as required by State requirements to the County Office. If an insured loan is involved and the note is not held by the insurance fund, the State Director will request the Finance Office to have the loan assigned to an insurance fund in accordance with Parts 1872, Subpart A of Part 1874, or Subpart B of 1874 of this chapter. The Finance Office will send the original or conformed copy of the assigned note as required by State requirements and related documents to the State Director with instructions as to any necessary action in connection with the assignment.

(B) The borrower's case folder, including a conformed copy of each FHA note and any assumption or cosigner agreements involved and such additional information and copies it may require will be forwarded by the State Director to the OGC for appropriate instructions to complete the foreclosure action. Also, title evidence required by the OGC will be obtained and furnished to it at that time so that an opinion can be issued as to whether the FHA will obtain a title merchantable in fact if it is the successful bidder.

(C) Ordinarily, no curative action will be taken with respect to title defects before foreclosure sale. However, where for special reasons the State Director with the advice of the OGC determines it would be in the best interest of the FHA to cure certain defects before the foreclosure sale, the State Director may authorize the necessary curative action.

(D) The expiration date of the property insurance will be called to the attention of the OGC so that office will be aware of the fact that an additional cost will be incurred if the sale is not completed before the expiration date of insurance. A copy of the acceleration notice will be sent to the Finance Office. When it has been determined that a title merchantable in fact can be obtained, the OGC will advise the County Supervisor, who will prepare and submit

V 38-139 JUL 20 73 XUM

Standard Form 1034 to the Finance Office for payment of all real estate taxes and assessments including water assessments which are due and payable. The OGC also will request the Finance Office to send it a current statement of account which reflects the amounts of vouchers it advised the County Supervisor to process in connection with foreclosure.

(E) The OGC will, except in judicial foreclosure cases, route the docket through the State Office so that any advertising notices, and so forth, may be prepared in the State Office or signed by the State Director if they were prepared by OGC.

(F) Title VI of the Civil Rights Act of 1964 applies as long as any real property continues to be used for the same or similar purposes for which the federal financial assistance was extended. If the property being sold was subject to Title VI, the advertisement of foreclosure sale should include a statement that the purchaser will be required to sign Form FHA 400–4, if he intends to use the property for its original or similar purposes.

(vi) *Maximum bid.* The State Director will establish the maximum amount of the FHA bid. Such bid will be either the estimated resale value of the security or gross investment, whichever is less.

(A) The estimated resale value means the present market value. In establishing the estimated resale value, the State Director will consider the effect that any outstanding mineral rights, easements, other interests, or title defects will have on the resale of the property, any prior liens that will remain outstanding after the foreclosure sale, and any other pertinent information affecting or indicating the resale price including an appraisal report.

(B) Gross investment means the amount of the FHA secured indebtedness, including all advances made by the FHA and charged to the mortgage debt before the foreclosure sale, plus the amount of any prior liens or other costs which the OGC advises must be paid from the proceeds of the foreclosure sale before payment of the FHA mortgage debts.

(vii) *Bidding.* The State Director of an employee designated by him is authorized to bid on behalf of the FHA. In appropriate cases the State Director may designate the U.S. Marshal. However, if the bid is to include an amount for payment of a prior lien(s) exceeding $40,000, the prior concurrence of the National Office will be obtained before authorizing the bid on behalf of the FHA. The State Director will inform the County Supervisor by memorandum, as to the maximum amount to be bid whether he or some other person is authorized to bid. A copy of this memorandum will be sent to the OGC. Ordinarily, the State Director will designate the County Supervisor to bid on behalf of the FHA unless circumstances make it necessary or desirable to designate another person. In court action foreclosures, the OGC will inform the United States Attorney of the maximum amount recommended by the FHA to bid and will suggest that an FHA employee will be available at the sale to make the bid. The FHA employee will make only one bid and that will be for the authorized maximum bid. This bid will be made when no other party makes a bid or when it appears that the bidding has slowed down and likely will stop and result in the property being sold for less than the authorized maximum bid.

(viii) *Final report on foreclosure sale.* Immediately after a foreclosure sale at which the bidder on behalf of the FHA is an FHA employee, the County Supervisor will furnish the OGC a narrative statement giving complete information relative to the sale, including a copy of Form FHA 465–6 if sufficient information is available for completion of the form at that time. When the OGC received a report of a foreclosure sale, whether from FHA or the United States Attorney, he will furnish the County Supervisor any necessary instructions for completing the transactions and advise of any rights of the Government, taking into consideration privileges provided by law and any other pertinent information. As soon as practicable, the OGC will also furnish the County Supervisor a final title opinion on any acquired property. The final opinion will include instructions concerning any additional steps which should be taken to complete the transaction. A copy of this opinion will be forwarded to the State Director and to the Finance Office.

(ix) *Completion of Form FHA 465–6.* If the FHA is the successful bidder at the foreclosure sale, Form FHA 465–6 will be completed and forwarded to the Finance Office by the County Supervisor as soon as all information necessary for completion of the Form is available except the date the Government acquired title to the property, without waiting for the final opinion of the OGC. A copy of information furnished by the OGC relative to the Government's rights acquired at the sale should be sent to the Finance Office, along with Form FHA 465–6. The form will be dated as of the date of the sale.

(x) *Leases.* If the sale is made subject to an agricultural, mineral, or other lease in which the lessor's interest is acquired by the FHA through the sale, the original or a copy of the lease will be submitted to the Finance Office along with Form FHA 465–6 for processing in accordance with § 1872.19 (b) (10). Any oral lease in effect at the time the Government acquires the property will be reduced to writing using Form FHA 465–2 and its execution by the lessee will be obtained if possible. The County Supervisor will notify any lessee in writing that the Government has acquired the lessor's rights under the lease and will direct the lessee to remit all payments to the County Office. Payments to FHA under a lease which by its terms were due and payable prior to the date of the foreclosure sale will be applied first on any deficiency claim resulting from the foreclosure and then on any other FHA claim against the borrower. Any surplus remaining will be remitted to the borrower. Payments due and payable to the FHA after the date of foreclosure will be collected and forwarded to the Finance Office as miscellaneous income. Receipts for collections made in accordance with this paragraph will be issued to: "Lease proceeds from property formerly owned by (borrower's name and case number) and leased to (name of lessee)." After a foreclosure sale is held, if a redemption period is involved and the borrower has possession of the property during such period or a right to lease proceeds during the redemption period, a lease will not be obtained by the Government or be sent to the Finance Office until the redemption period has expired and the Government has a right to such proceeds.

(xi) *Deficiency judgment.* When a deficiency judgment is obtained, the account will be classified as a judgment case and the County Supervisor will send Form FHA 455–20, "Notice of Judgment," to the Finance Office and the account will be serviced in accordance with Subpart B of part 1871 of this chapter. When action to obtain a deficiency judgment is pending at the time Form 465–6 is sent to the Finance Office, the fact that it is pending will be indicated on Form FHA 465–6. When a deficiency judgment is not to be obtained, the case will be reclassified to collection-only, the debt cannot be settled under the provisions of part 1864 of this chapter. When a case is to be reclassified to collection-only, Form FHA 404–1 and FHA 450–10 will be forwarded to the Finance Office.

(xii) *Property insurance.* Property insurance will be handled in accordance with part 1806 of this chapter.

§ 1872.21 Taking liens on real estate as additional security in servicing FHA loans.

(a) *Liens.* In servicing FHA loans the best lien obtainable will be taken on any real estate owned by the borrower, including any real estate which already serves as security for another loan. Normally, the prior concurrence of the District Supervisor will be obtained. Such liens will be taken only when:

(1) *Inadequate security.* Present security for the loan is not adequate to protect the interest of the FHA, and

(2) *Equity.* The borrower has substantial equity in the real estate to be mortgaged and it is determined that the taking of such mortgage will not prevent making of an FHA real estate loan, which he might need in the foreseeable future.

(b) *Real estate.* Before taking real estate as additional security for an FHA loan, the following items will be documented in the running record:

(1) *Justification.* The facts justifying the taking of such real estate lien;

(2) *Value.* A conservative estimate of the present market value of the real estate to be mortgaged; (It will not be necessary to submit an appraisal of the property to be mortgaged.)

(3) *Description.* A brief description of any existing liens on such property including the repayment terms and the unpaid balance on the debts secured by such

existing liens, unless this is accurately reflected on a recent financial statement; and

(4) *Identification.* The name of the title holder and how title of the property is held. (Title evidence need not be required.)

(c) *Security form.* Each real estate lien taken as additional security for both FHA direct and insured loans will be taken on Form FHA 427–1 (State), "Real Estate Mortgage for _____ (Insured Loans to Individuals)," unless a State regulation requires the use of a form of mortgage comparable to that which secures the existing loan(s) to be additionally secured. The notes evidencing both FHA direct and insured loans for which the additional security will be taken will be described in the same mortgage.

§ 1872.22 Assignment of direct and insured notes and security instruments outside the program.

The policy described in Subpart A of part 1871 of this chapter for assigning notes and security instruments to third parties will apply to all loans secured by real estate and where the State Director determines it is to the financial advantage of the Government or where the borrower has failed to refinance after an appropriate request. Payment of the FHA debt in full will be collected and transmitted to the Finance Office at the time the assigned instruments are delivered.

(a) *Insured loans.* For insured loans, an assignment may be made on a noninsured basis after the note has been assigned to the insurance fund in accordance with part 1873, Subpart A of 1874 or Subpart B of 1874 of this chapter, as appropriate. The assignment will be effected on an assignment form furnished by the OGC which will include provisions for releasing the FHA from liability as insurer and collection agent. The Government's endorsement of the promissory note will be made without recourse. The State Director will execute the assignment instruments unless he delegates authority to the County Supervisor in a State regulation. At the time the assigned instruments are delivered, the County Supervisor will write "Insurance Contract Canceled" across the face of the Government's insurance endorsement and will sign and date such cancellation.

§ 1872.23 Cosigners—RH loans.

A cosigner as defined in Subpart A of part 1822 of this chapter is personally liable for payment of the RH debt. He is not entitled as a cosigner to any interest in the security property or the rights of the borrower under the loan agreements or security instruments. However, he may pay the account in full and take any assignment of FHA's interest.

(a) *Transfer or other servicing action.* In a case of a transfer, a cosigner may be given preference to assume the FHA indebtedness as either an eligible or ineligible applicant, whichever is appropriate. Otherwise, the cosigner's status does not make inapplicable any conditions or provisions required for transactions authorized in this subpart.

(b) *Substitution or replacement of cosigner.* Any person, as determined by the County Supervisor, with ability to repay the RH loan in accordance with its terms may be substituted for the other party who is previously obligated as cosigner on the loan. The new cosigner will execute an agreement to pay the balance owed on the RH debt. This agreement will be made in consideration of the release of the existing cosigner from personal liability. The original of the new cosigner's agreement will be attached to the original note and a copy will be attached to each copy of the note. The new agreement will be prepared by OGC.

(c) *Release of liability.* A cosigner of an RH note may be released from personal liability for the debt upon satisfactory substitution of a new cosigner. The release may be accomplished by modifying and using Form FHA 465–8 with the advice of the OGC or on an appropriate form prepared by the OGC.

§ 1872.24 Assignment and release of soil bank or similar program payments.

The County Supervisor may take an assignment on income to be received under a Soil Bank or similar contract to protect the financial interest of the Government or to facilitate loan servicing. The assignment of all or a portion of the income from the assignment may be released to the borrower by the County Supervisor when not to the financial detriment of the Government, and payments due on all FHA loans have been made from other income or the income is urgently needed to meet emergency or other justifiable uses.

§ 1872.25 Submission to National Office of certain partial release, subordination, consent or other transactions.

The State Director may submit to the National Office for determination by the Administrator or his delegate any proposed transaction in which the conditions prescribed in the foregoing paragraphs for partial release, subordination, or consent by the FHA cannot be satisfied, or any servicing action that, in the opinion of the State Director, is necessary for the protection of the Government's interests and the OGC has advised that there are no legal objections to the proposed transaction. The State Director must determine that either the FHA secured indebtedness remaining after the transaction will be adequately secured or the Government's security interest will not be adversely affected, and that the transaction and use of any proceeds will further the purposes for which the loan was made; improve the borrower's debt-paying ability, and permit necessary payment of reasonable costs and expenses incident to the transaction which the borrower is unable to pay from other sources. This section is primarily intended to be used for those cases in which the use of the proceeds would be necessary for the borrower to retain the farm or rural residence that otherwise usually could not be accomplished. The State Director will submit to the National Office the full facts and justification supporting his recommendation, together with the County Office files, and the OGC opinion.

§ 1872.26 State requirements and reference to the OGC.

State requirements will be prepared, with the advice of the OGC, as necessary, to carry out this regulation and forwarded to the National Office for prior approval. Whenever, in this Subpart, reference is made to advice or approval of the OGC it is contemplated that to the maximum extent possible the legal advice or approval may be stated in a general way whether included in State regulations, State Bulletins, or other statements or explanations, rather than on the submission of individual matters to the OGC. It should be possible under such a plan to procure most efficient legal assistance in handling real estate security servicing transactions.

§ 1872.27 Redelegation of authority.

The State Director is authorized to redelegate in writing any authority delegated to the State Director in this Subpart to one or more of the following State Office employees: Chief, Rural Housing; Chief, Farmer Programs; Chief, Community Programs; Rural Housing Specialist; Farmer Programs Specialist; and Community Programs Specialist.

§ 1872.28 Nondiscrimination.

Each instrument of conveyance for any transfer or foreclosure sale of real property subject to Title VI of the Civil Rights Act of 1964 will contain the following covenant: "The property described herein was obtained or improved through Federal financial assistance. This property is subject to the provisions of Title VI of the Civil Rights Act of 1964 and the regulations issued pursuant thereto for so long as the property continues to be used for the same or similar purposes for which the Federal financial assistance was extended."

Dated: July 11, 1973.

JOSEPH R. HANSON,
Acting Administrator,
Farmers Home Administration.

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 1]

FOOD LABELING FOR CERTAIN SOFT DRINKS

Proposal for Exemption When Trademark Serves as a Statement of Identity

Notice is given that a petition has been filed by the National Soft Drink Association (NSDA) 1101 16th St., NW, Washington, DC 20036, proposing that the food labeling regulations be amended to exempt certain soft drinks from § 1.8(d) (21 CFR 1.8) which requires that the statement of identity shall be in lines generally parallel to the base on which the package rests as it is designed to be displayed. NSDA's proposal provides that soft drinks be exempted when a trademark serves as a statement of identity and at least one trademark statement of identity appears in lines generally parallel to the base.

The grounds given in support of the proposal are as follows:

1. Section 1.8(d) requires that a statement of identity appear on the principal display panel of a package and that such statement be in bold type in lines "generally parallel to the base" of the package as displayed. In those cases where the statement of identity is also the trademark, and one statement of identity is parallel to the base of the package as required by § 1.8(d), additional statements of identity (i.e., trademarks) not parallel to the base do not cause or suggest consumer confusion.

2. Repetition and prominence of the trademarks even though not parallel to the base of the package would be of additional aid in identifying the product; therefore it is unnecessary for consumer protection that all statements of identity be parrallel to the base of the package.

3. In almost all cases where the trademark also serves as the statement of identity, such trademark is well known to the consumer as the identity of a specific beverage, and is readily recognizable.

The Commissioner of Food and Drugs has considered the petition and other relevant information and concludes that reasonable grounds have been furnished to warrant publishing the proposal. Editorial changes of the petitioner's proposal have been made by the Commissioner for greater consistency with the wording of other exemptions in § 1.1c (21 CFR 1.1c), and to make it clear that the exemption encompasses only the requirement of parallelism of § 1.8(d).

Therefore, pursuant to provisions of the Fair Packaging and Labeling Act (Secs. 5(b), 6(a), 80 Stat. 1298, 1299–1300; 15 U.S.C. 1453, 1455) and the Federal Food, Drug and Cosmetic Act (Sec. 701, 52 Stat. 1055, as amended; 21 U.S.C. 371) and under authority delegated to the Commissioner (21 CFR 2.120), it is proposed that Part 1 be amended in § 1.1c(a)(5) by adding a new subdivision (iv) to read as follows:

§ 1.1c Exemptions from required label statements.

(a) • • •

(5) • • •

(iv) Where a trademark on a soft drink package also serves as or is a statement of identity, the use of such trademark on the package in lines not parallel to the base on which the package rests shall be exempted from the requirement of § 1.8(d) that the statement be in lines parallel to the base so long as there is also at least one statement of identity in lines generally parallel to the base.

• • • • •

Interested persons may, on or before September 18, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: July 16, 1973.

Associate Commissioner for Compliance.

[FR Doc.73-14917 Filed 7-19-73;8:45 am]

[21 CFR Part 135]

SULFONAMIDE-CONTAINING DRUGS FOR USE IN FOOD-PRODUCING ANIMALS

Notice of Proposed Rule Making

The Drug Amendments of 1962 required, among other things, an evaluation of the effectiveness of all drugs cleared through new drug procedures from 1938 until October 10, 1962. Following this evaluation, newer knowledge and improved technology required a reevaluation of the data upon the basis of which sulfonamide-containing animal drugs were originally marketed. Consequently, the need for additional residue data was announced in the FEDERAL REGISTER of October 23, 1970 (35 FR 16538) by publication of § 135.102 *Sulfonamide-containing drugs for the oral or parenteral treatment of food-producing animals* (21 CFR 135.102). This regulation provided an interim basis for the continued use of sulfonamide-containing drugs in food-producing animals pending receipt of residue data to support a safe withdrawal period for their use to assure that edible products from treated animals are safe for consumption.

Recently available studies indicate that the degree of thyroid response to exposure to sulfonamide drugs should be given greater significance in the evaluation of sulfonamide toxicity and the establishment of "no-effect" levels. Consequently, the determination of "no-effect" levels for sulfonamide-containing drugs, including thyroid response as one parameter of effect, is necessary for evalaution of sulfonamide toxicity and sponse to 21 CFR 135.102, as well as for a reevaluation of the adequacy of the tolerances and methods of analysis for negligible residues of sulfonamides in edible products.

The Commissioner of Food and Drugs has carefully evaluated the data and other information available to him to determine whether this new evidence, evaluated together with the evidence available when new animal drug applications for some of these drug products were approved, shows that any or all of them are not shown to be safe for use under the conditions of use upon the basis of which the applications were approved, and thus should be withdrawn from use pursuant to section 512(e)(1)(B) of the Federal Food, Drug, and Cosmetic Act. Upon the basis of all of the evidence available, the Commissioner concludes that these drugs have been shown to be safe under the conditions of use within the meaning of that term as used in section 512 of the act, and thus that there is presently no basis for withdrawing approval of any of these drugs solely on safety grounds under section 512(e) of the act. However, questions about potential and theoretical hazard continually arise and deserve special consideration. Where these questions indicate a significant health hazard, withdrawal should immediately be ordered. Where a question relates only to a potential or theoretical hazard, which does not indicate that such drug is not shown to be safe, it is the opinion of the Commissioner that the appropriate procedure is to require the submission of additional data in the form of records and reports, pursuant to section 512(l) of the act, to facilitate a determination of whether there is a ground for withdrawing approval of the drug in question under section 512(e) of the act. Failure to submit such required records and reports is itself a violation of the act, justifying withdrawal of approval of the application. The Commissioner has therefore concluded that while there is insufficient evidence to justify a finding that these drugs have not been shown to be safe, there is sufficient question to invoke the authority under section 512(l) to fully investigate these questions in order to obtain more definitive data to resolve the issues.

In view of the foregoing, the Commissioner is of the opinion that no sulfonamide-containing drug labeled for oral, injectable, intrauterine or intramammary use in food-producing animals can properly be considered generally recognized as safe and effective within the meaning of section 201(w) of the act. Therefore, all such drugs are new animal drugs for which approved new animal drug applications are required. All persons or firms marketing such drugs which are not now the subject of an approved new animal drug application must submit a new animal drug application within 90 days following the effective date of an order acting on this proposal if marketing is to continue during the interim. Following that 90-day period any such drug then on the market which is not the subject of a new animal drug application submitted for such drug will be deemed adulterated within the meaning of section 501(a)(5) of the act and subject to regulatory action. The submission of applications for sulfonamide-containing drugs pursuant to § 135.109 which are required to be submitted by July 19, 1973 will be considered adequate to meet the requirements for submission of an application pursuant to this section.

Accordingly, the Commissioner proposes to amend § 135.102, as set forth below, to require that each sponsor of an approved new animal drug application for such use submit for each such drug the results of 90-day subacute toxicity studies in one rodent and one nonrodent species. The studies shall include a determination of a "no-effect" level using thyroid response as one parameter. Protocols may be submitted to the Food and Drug Administration for review prior to the initiation of studies. If an evaluation of the results of these studies shows that the existing methodology used to establish negligible tolerances for residues of the sulfonamide drugs in edible products from treated animals is not of adequate sensitivity and specificity, improved methodology will be required.

Accordingly, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 512, 701(a), 52 Stat. 1055, 82 Stat. 343–351; 21 U.S.C. 360b, 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), it is proposed that § 135.102 be revised to read as follows:

§ 135.102 Sulfonamide-containing drugs for oral, injectable, intramammary, or intrauterine use in food-producing animals.

(a) The Commissioner of Food and Drugs announced in the FEDERAL REGISTER of October 23, 1970 (35 FR 16538) the need for additional information regarding the labeling and residues of sulfonamide-containing drugs as follows:

(1) New information available to the Commissioner of Food and Drugs has shown that, under certain circumstances where food-producing animals have been treated with oral or parenteral sulfonamide-containing drugs, sulfonamide residues may be detected in the edible products of such animals when they are slaughtered within 10 days of the last treatment.

(2) The presence of sulfonamide residues in food constitutes an adulteration within the meaning of section 402(a)(2)(D) of the act in the absence of a tolerance for such residues established pursuant to section 512(i) of the act.

(3) To assure that edible products from treated animals are safe for human consumption, the labeling of preparations which contain sulfonamide drugs intended for oral or parenteral use and which are not the subject of a regulation providing for such use shall bear:

(i) A statement that the use of the drug (other than use in poultry) must be discontinued 10 days before treated animals are slaughtered for food; or

(ii) A statement of withdrawal period which has been established based upon data submitted to the Commissioner and found satisfactory for the elimination of drug residues from edible products.

(4) It has been concluded that, because of poultry husbandry practices, withdrawal periods exceeding 5 days for drugs administered continuously, are not generally practical and cannot reasonably be expected to be followed. Therefore, it is concluded that such sulfonamide drugs are not to be used in poultry unless a withdrawal period which does not exceed 5 days has been established in accordance with subparagraph (3)(ii) of this paragraph.

(5) Labeling revisions required for compliance with this paragraph were to be made at the earliest possible time and, in any case by January 21, 1971. Any such products now on the market and not in compliance with this paragraph are subject to regulatory action.

(6) The labeling requirements of subparagraph (3)(i) of this paragraph were adopted as an interim measure. Sponsors of sulfonamide-containing drugs subject to the provisions of this section were required to submit by October 22, 1971, adequate data to permit the establishment of appropriate withdrawal periods as required by subparagraph (3)(ii) of this paragraph.

(b) Recently available studies indicate that the degree of thyroid response to exposure to sulfonamide drugs should be given greater significance in the evaluation of sulfonamide toxicity and in the determination of "no-effect" levels of the drugs in laboratory animals to support the establishment of tolerances for negligible residues of sulfonamides, in edible products from treated animals.

(c) The Commissioner has concluded that because of questions raised regarding sulfonamide toxicity there is a need to facilitate a determination of whether there are grounds to invoke section 512(e) of the act regarding the continued use of these sulfonamide-containing drugs. Therefore, it has been concluded that sulfonamide-containing drugs for oral, injectable, intrauterine or intramammary use in food-producing animals are new animal drugs for which approved new animal drug applications are required. All persons or firms marketing such drugs which are not now the subject of an approved new animal drug application must submit a new animal drug application on or before October 18, 1973 on this matter if marketing is to continue during the interim. Any such drug then on the market which is not the subject of an application submitted for such drug will be deemed adulterated within the meaning of section 501(a)(5) of the act and subject to regulatory action. The submission of applications for sulfonamide-containing drugs pursuant to § 135.109 (38 FR 9811) which are required to be submitted by July 19, 1973 will be adequate to meet the requirements for submission of an application pursuant to this section. No extension of time will be granted.

(d) Under the provisions of section 512(i) of the act, within 12 months of the date of publication of the final regulation on this matter, each sponsor of a new animal drug application for a sulfonamide-containing drug labeled for oral, injectable, intrauterine or intramammary use in food-producing animals shall submit, for each such drug, the results of 90-day subacute toxicity studies in one rodent and one non-rodent species. The studies shall include a determination of a "no-effect" level of the drug using thyroid response as one parameter. Protocols may be submitted to the Food and Drug Administration for review prior to the initiation of studies. If an evaluation of the results of these studies shows that existing methodology used to establish negligible tolerances for residues of the sulfonamide drugs in edible tissues is not of adequate sensitivity and specificity, improved methodology will be required. Any such drug then on the market which is not the subject of such submitted studies will be deemed adulterated within the meaning of section 501(a)(5) of the act and subject to regulatory action. No extension of time will be granted.

(e) New animal drug applications and the data required by this section pursuant to section 512(l) of the act shall be submitted to the Food and Drug Administration, Bureau of Veterinary Medicine, Division of New Animal Drugs, VM–300, 5600 Fishers Lane, Rockville, MD 20852.

Interested persons may, on or before September 18, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the

V 38 139 JUL 20 73 XUM

above office during working hours, Monday through Friday.

Dated: July 16, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Office of Human Development

[45 CFR Chapter XIII]

JUVENILE DELINQUENCY PREVENTION PROGRAMS AND ACTIVITIES

Notice of Proposed Rule Making

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Assistant Secretary for Human Development, with the approval of the Secretary of Health, Education, and Welfare. The proposed regulations implement the Juvenile Delinquency Prevention Act, Public Law 92-381, approved August 14, 1972 which authorizes programs and activities for the prevention of juvenile delinquency.

These regulations will replace those in Part 270 of this title established for Public Law 90-445, the Juvenile Delinquency Prevention and Control Act of 1968. Title I of Public Law 92-381 provides for grants for the establishment of coordinated youth services systems for the prevention of delinquency. Titles II, III, and IV (Training, Technical Assistance and Information Services, Administration) are essentially the same as those in Public Law 90-445, with the exception that the entire focus of Public Law 92-381 is on prevention of delinquency rather than on rehabilitation.

Prior to the adoption of the proposed regulations, consideration will be given to any comments, suggestions, or objections thereto which are submitted in writing to the Acting Assistant Secretary for Human Development, Office of the Secretary, Department of Health, Education, and Welfare, 330 Independence Avenue, SW., Washington, D.C. 20201 on or before August 20, 1973. Comments received will be available for public inspection in Room 2038, Switzer Building, 301 C Street, SW., Washington, D.C. on Monday through Friday of each week from 8:30 a.m. to 5:00 p.m. (area code 202-963-4131).

Federal financial assistance extended under Part 1350 is subject to the regulations in 45 CFR Part 80, issued by the Secretary of Health, Education, and Welfare, and approved by the President, to effectuate the provisions of section 601 of the Civil Rights Act of 1964 (42 U.S.C. 2000d).

Dated: June 6, 1973.

STANLEY B. THOMAS, JR.,
Acting Assistant Secretary for Human Development.

Approved: July 16, 1963.

FRANK CARLUCCI,
Acting Secretary.

(Catalog of Federal Domestic Assistance Program No. 13.764, Youth Development and Delinquency Prevention.)

Title 45 of the Code of Federal Regulations is amended as set forth below:

1. Section 204.1 of Chapter II is revised by deleting the reference to title I of the Juvenile Delinquency Prevention and Control Act of 1968 as follows:

§ 204.1 Submittal of State plans for Governor's review.

A State plan under title I, IV-A, IV-B, X, XIV, XVI, or XIX of the Social Security Act, section 5 or 15 of the Vocational Rehabilitation Act, title I of the Mental Retardation Facilities and Community Mental Health Centers Construction Act, or title III of the Older Americans Act, must be submitted to the State Governor for his review and comments, and the State plan must provide that the Governor will be given opportunity to review State plan amendments and long-range program planning projections or other periodic reports thereon. This requirement does not apply to periodic statistical or budget and other fiscal reports. Under this requirement, the Office of the Governor will be afforded a specified period in which to review the material. Any comments made will be transmitted to the Social and Rehabilitation Service with the documents.

§§ 270.1—270.214 [Revoked]

2. Part 270 of Chapter II is revoked.

3. Chapter XIII is amended by changing the heading thereof, and by adding a new Part 1350, as set forth below:

CHAPTER XIII—OFFICE OF HUMAN DEVELOPMENT, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 1350—JUVENILE DELINQUENCY PREVENTION PROGRAMS AND ACTIVITIES

Subpart A—Definitions

Sec.
1350.1 Definitions.

Subpart B—Preventive Services

1350.10 Purpose.
1350.11 Eligibility.
1350.12 Duration of Federal assistance for project.
1350.13 Matching requirements.
1350.14 Application; scope.
1350.15 Application; content.
1350.16 Factors considered in evaluating applications.
1350.17 Characteristics of a coordinated youth services system.
1350.18 Notification to jurisdictions affected.
1350.19 Construction; purpose.
1350.20 Construction; matching requirements.
1350.21 Construction; use of funds.
1350.22 Construction; application and assurances.
1350.23 Construction; standards.
1350.24 Common provisions.

Subpart C—Training

1350.30 Purpose.
1350.31 Eligibility.
1350.32 Matching requirements.
1350.33 Application.
1350.34 Factors considered in evaluating applications.
1350.35 Common provisions.

Subpart D—Technical Assistance

1350.40 Purpose.
1350.41 Eligibility.
1350.42 Matching requirements.
1350.43 Application.
1350.44 Common provisions.

Subpart E—Grants to States for Technical Assistance to Local Units

Sec.
1350.50 Purpose.
1350.51 Eligibility.
1350.52 Matching requirements.
1350.53 Application.

1350.55 Common provisions.

Subpart F—Common Provisions

1350.60 Applicability.
1350.61 Protection of rights of recipient.
1350.62 Application review.
1350.63 Grant awards.
1350.64 Expenditures.
1350.65 Payments.
1350.66 Reports and records.
1350.67 Fiscal and auditing procedures.
1350.68 Publications and copyrights.
1350.69 Interest.
1350.70 Termination.

Subpart G—Contracts

1350.80 Contracts.

AUTHORITY: Secs. 101-411, 86 Stat. 532-539 (42 U.S.C. 3811-3891)

Subpart A—Definitions

§ 1350.1 Definitions.

For the purposes of this part, unless the context otherwise requires:

(a) "Act" means the Juvenile Delinquency Prevention Act;

(b) "Assistant Secretary" means the Assistant Secretary for Human Development;

(c) "Construction" means construction of new buildings and acquisition, expansion, remodeling, and alteration of existing buildings, and initial equipment of any such buildings, or any combination of such activities (including architects' fees but not the cost of acquisition of land for new buildings). For the purpose of this paragraph, the term "equipment" includes machinery, utilities, and built-in equipment and any necessary enclosures or structures to house them;

(d) "Coordinated youth services system" means a comprehensive community-based service delivery system, separate from the system of juvenile justice (which encompasses agencies such as the juvenile courts, law enforcement agencies, and detention facilities) for providing youth services to an individual who is in danger of becoming delinquent and to his family in a manner designed to:

(1) Facilitate accessibility to and utilization of all appropriate youth services provided within the geographic area served by such system by any public or private agency or organization which desires to provide such services through such system;

(2) Identify the need for youth services not currently provided in the geographic area covered by such system, and, where appropriate, provide such services through such system;

(3) Make the most effective use of youth services in meeting the needs of young people who are in danger of becoming delinquent, and their families;

(4) Use available resources efficiently and with a minimum of duplication in order to achieve the purposes of the Act; and

(5) Identify the types and profiles of individual youths who are to be served by such a comprehensive system;

(e) "Local educational agency" means a public board of education or other public authority legally constituted within a State for either administrative control or direction of, or to perform a service function for, public elementary or secondary schools in a city, county, township, school district, or other political subdivision of a State, or such combination of school districts or counties as are recognized in a State as an administrative agency for its public elementary or secondary schools;

(f) "Nonprofit private agency" means any accredited institution of higher education, and any other agency, organization, or institution no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual, or which is owned and operated by one or more such agencies, but only if such agency, organization, or institution was in existence at least two years before the date of an application under the Act. The term shall not be construed to include the Office of Economic Opportunity. Participation by the Office of Economic Opportunity is expressly prohibited in administering the Act;

(g) "Office" means the Office of Human Development of the Department of Health, Education, and Welfare;

(h) "Public agency" means a duly elected political body or a subdivision thereof and shall not be construed to include the Office of Economic Opportunity. Such term includes an Indian tribal council;

(i) "State" means the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands;

(j) "Technical assistance" refers to consultation to State, local, or other public or private agencies or organizations in matters relating to prevention of delinquency;

(k) "Youth in danger of becoming delinquent" refers to any youth whose conduct is such as to bring him within the jurisdiction of the juvenile court;

(l) "Youth services" means services which assist in the prevention of juvenile delinquency, including but not limited to: Individual and group counseling; family counseling; diagnostic services; remedial education; tutoring; alternate schools (institutions which provide education to youths outside the regular or traditional school system); vocational testing and training; job development and placement; emergency shelters; halfway houses; health services; drug abuse programs; social, cultural, and recreational activities; the development of paraprofessional or volunteer programs; community awareness programs; foster care and shelter care homes; and community-based treatment facilities or services.

Subpart B—Preventive Services

§ 1350.10 Purpose.

(a) The purpose of this subpart is to assist States, local educational agencies and other public and nonprofit private agencies to establish and carry out community-based programs, including programs in schools, for the prevention of delinquency in youths.

(b) Grants will be made under this subpart for the purpose of establishing or operating coordinated youth services systems.

(c) For contracts, see Subpart G of this part.

§ 1350.11 Eligibility.

Grants under this subpart may be made to public or nonprofit private agencies: *Provided, however,* That agencies which are part of the juvenile justice system such as police, courts, correctional institutions, detention homes, and probation and parole authorities are not eligible applicants. Multiple-function agencies having authority to administer a variety of programs, which may include corrections, are eligible applicants: *Provided,* That the corrections or other juvenile justice component is not responsible for the administration of the grant or the operation of the project and that the coordinated youth services system is developed and operated separately from such component.

§ 1350.12 Duration of Federal assistance for project.

(a) A project grant shall be awarded for a specified period not in excess of 24 months, and only for the period reasonably necessary for the community to assume responsibility for the continuation of the coordinated youth services system.

(b) The project period may be extended, without additional grant support, for a period not in excess of 12 months where required to assure adequate completion of the approved project.

§ 1350.13 Matching requirements.

(a) Federal financial participation for delinquency prevention services projects will not exceed 75 percent of the total cost of the project or program for which the grant is made, except as provided in paragraph (c) of this section. See also § 1350.20 for Federal financial participation in construction costs.

(b) Grantee funds or services derived from other Federal funds or used for matching any other Federal grant may not be used to match the Federal funds in this program, except as otherwise specifically allowed by Federal statute.

(c) If an applicant applying for a grant does not have sufficient funds available to meet the non-Federal share of the cost of a project or program, the Assistant Secretary may increase the Federal share of the cost to the extent necessary. An application from an applicant requesting an increased Federal share must be accompanied by a complete financial statement showing that no existing resources of the applicant can reasonably be diverted to support the project and that it is not reasonable to expect that any additional funds can be obtained from other sources for this purpose.

§ 1350.14 Application; scope.

An application for establishing or operating a coordinated youth services system may include planning and construction. No application will be considered which is limited either to planning or to construction, or both.

§ 1350.15 Application; content.

(a) An application for funds under this subpart shall contain the following information:

(1) A budget and budget justification;

(2) A description of the qualifications for the principal staff positions to be responsible for the project;

(3) A statement of the goals of the proposed coordinated youth services system, and how it relates to the purposes of delinquency prevention;

(4) A description of the methods to be employed in implementing the goals of the system;

(5) A description of the services for youths who are in danger of becoming delinquent and which are available in the State or community;

(6) A statement of the method or methods of linking the agencies and organizations, public and private, providing these and other services, including local educational agencies and nonprofit private schools;

(7) The functions and services to be included;

(8) The procedures which will be established for protecting the rights, under Federal, State and local law, of the parents, guardians and youth who are recipients of services, and for insuring appropriate privacy with respect to records relating to such services, provided to any individual under the coordinated youth services system developed by the applicant;

(9) The procedures through which the applicant agency can adequately carry out its continuing responsibility and accountability for services to recipients;

(10) When the application includes funds for construction:

(i) A set of schematic drawings;

(ii) A description of the proposed facility and staffing pattern, and

(iii) A description of the facility's function in the proposed coordinated youth services system;

(11) The procedures which will be established for evaluation;

(12) The strategy for phasing out support under the Act and the continuance of a proven program through other means;

(13) A description of the relationship of the project to other Federal, State or local preventive services within the designated area of concern;

(14) A description of how public and private agencies and organizations concerned with youth, as well as youth themselves, have been involved signifi-

V 38 I 139 JUL 20 73 XUM

cantly in determining the appropriateness of the project and in designing the nature and scope of the activities to be conducted;

(15) A statement showing the different sources of funding and the amount each has currently committed and proposed for future commitment;

(16) When the application includes funds for planning, a description of the nature of such planning; and

(17) Such other information as the Assistant Secretary may require.

(b) In addition, an application shall contain assurances that:

(1) Steps have been taken or will be taken toward the provision, within a reasonable period of time, of a program of coordinated youth services in the area served which will make a substantial contribution toward the prevention of delinquency of youths, including diagnosis and treatment of youths in danger of becoming delinquent;

(2) The applicant will make special efforts to assure that the services provided by the coordinated youth services system will be available for youths with the most serious behavioral problems;

(3) The applicant (if it is not a local educational agency) has consulted on its application with the local educational agencies, nonprofit private schools, and other youth services agencies in the area to be served and has adopted procedures to coordinate its project with related efforts being made by these schools and agencies;

(4) The applicant will provide, to the extent feasible, for coordinating on a continuing basis, its operations with the operations of other agencies and nonprofit private organizations furnishing youth services within the geographic area, taking into account the services and expertise of such agencies and organizations, and with a view to adopting such services to the better fulfillment of the purposes of this subpart;

(5) The applicant will make reasonable efforts to secure or provide any services which are necessary for diagnosing and treating youths in danger of becoming delinquent and which are not otherwise being provided in the community, or if being provided are not adequate to meet its needs;

(6) Maximum use will be made under the program of other Federal, State or local resources available for the provision of such services;

(7) In developing coordinated youth services, youth and public or private agencies, and organizations providing youth services within the geographic area to be served by the applicant, will be given the opportunity to present their views to the applicant with respect to such development;

(8) The applicant will be responsible for organizing, maintaining, and facilitating accessibility to all available youth services; and

(9) Participation has been formally committed by those public and private agencies whose services are necessary to the system's success.

(c) The application shall be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of any award, including the provisions of this part.

(d) Any major proposed amendments to an approved application shall be submitted in writing, in advance to the Assistant Secretary. No such changes shall be put into effect without the approval of the Assistant Secretary.

§ 1350.16 Factors considered in evaluating applications.

(a) In determining whether or not to approve an application under this subpart, the Assistant Secretary shall consider the following factors in the geographic area to be served. Information concerning each factor shall accompany the application:

(1) The relative costs and effectiveness of the project;

(2) The incidence of, and rate of increase in, youth offenses and juvenile delinquency;

(3) School dropout rates;

(4) The adequacy of existing facilities and service for carrying out the purposes of the project;

(5) The extent of comprehensive planning in the community;

(6) Youth unemployment rates;

(7) The extent to which the proposed program incorporates new or innovative techniques within the State or community;

(8) The extent to which the proposed program will make effective use of the facilities and services of the appropriate local educational agencies;

(9) The extent to which the proposed program incorporates participation of the parents of youths who are in danger of becoming delinquent, as well as the participation of other adults or youth who offer guidance or supervision to such youths; and

(10) The extent to which the proposed program will be coordinated with similar programs assisted under other Federal laws related to the purposes of this subpart.

(b) The Assistant Secretary, in making grants under this subpart, shall give priority to applications serving communities which exhibit to the highest degree the factors listed in subparagraphs (2), (3), and (6) of paragraph (a) of this section.

§ 1350.17 Characteristics of a coordinated youth services system.

A project, to be eligible for funding, must provide for a coordinated youth services system, with the following basic procedural and operational characteristics:

(a) *Procedural.* (1) The involvement of Federal, State and local public and private agencies and organizations in the planning and development phases;

(2) The involvement of adults and youth, in the planning and development phases of the system, who are from the area to be served, including those who may be recipients of services;

(3) Structure and procedures of such a nature as to insure flexibility and adaptability on the part of the system to meet the changing needs of youth;

(4) A plan for the continuation of the system following termination of funds under the Act.

(b) *Operational.* (1) Evidence that, in addition to the funds required to meet the non-Federal share of the cost of the project, community funding is available from multiple sources at the Federal, State, or local levels to support the system;

(2) The involvement of adults and youth, in the operational phase, who are from the area to be served, including those who may be recipients of service;

(3) Provision for services which are comprehensive in scope;

(4) An Information and Referral Service to insure that all youth within the geographic area served will receive assistance in the resolution of problems directly or by referral;

(5) The provision of services (which are not otherwise being provided or if being provided are not adequate to meet the community's needs) directly by the applicant agency or by member agencies of the system through contract or written agreements with the applicant agency;

(6) A centralized data collection and maintenance system sufficient in substance to enable the applicant agency to discharge its continuing responsibility and accountability for services to the individual recipient, as well as to carry out an effective evaluation of the system or one of its component parts;

(7) Provision of services to the recipient on a consensual basis without involving in any way the authority of the juvenile justice system;

(8) The applicant is not a juvenile justice agency and the system will be developed and operated separately and apart from the juvenile justice system.

§ 1350.18 Notification to jurisdictions affected.

(a) Applicants must send copies of the application and attachments to:

(1) The governor or his designee;

(2) The State Law Enforcement Planning Agency required under section 202 of the Omnibus Crime Control and Safe Streets Act of 1968, P.L. 90–351; and

(3) The governing body of the general purpose government in which the system is geographically located.

(b) Such governing bodies, officials and planning agencies have thirty days from the receipt of copies of the application to submit comments or recommendations on the proposed coordinated youth services system. They may request additional time to comment from the Assistant Secretary. The applicant shall indicate to whom copies of the application have been submitted for comment.

§ 1350.19 Construction; purpose.

Grants under this subpart are available to pay part of the cost of construction of community-based special purpose or innovative types of facilities, including halfway houses, and small residential facilities, for the diagnosis and treatment of youth who are in danger of becoming delinquent, when needed for the effective operation of a coordinated youth services system.

§ 1350.20 Construction; matching requirements.

(a) Federal financial participation in construction costs may not exceed 50 percent of the total cost of construction.

(b) Grantee funds or services derived from other Federal funds or used for matching any other Federal grant may not be used to match the Federal funds in this program, except as otherwise specifically allowed by Federal statute.

§ 1350.21 Construction; use of funds.

(a) Project funds, Federal and matching, may be used for:

(1) Construction of new buildings;

(2) Acquisition of existing buildings;

(3) Expansion, remodeling or alteration of existing buildings;

(4) Initial equipment for such buildings;

(5) Architectural plans and designs.

(b) Project funds, Federal and matching, may not be used for:

(1) Purchase of land for new buildings;

(2) Off-site improvements.

§ 1350.22 Construction; application and assurances.

(a) If an application includes a request for funds for construction of new buildings, such application must be sent to State and regional or metropolitan clearinghouses for comment in accordance with the requirements of Office of Management and Budget Circular A–95.

(b) Application for funds for construction, as part of the total application for support of a coordinated youth services system, shall be made on HEW construction application forms. In addition to any other requirement imposed by law, each construction grant shall be subject to the condition that the applicant will furnish and comply with assurances set forth in HEW construction application forms. The Assistant Secretary may, at any time, approve exceptions to these conditions and assurances where he finds that such exceptions are not inconsistent with the Act and the purposes of the system.

§ 1350.23 Construction; standards.

Construction shall be in accordance with applicable State and local codes and regulations for the type of facility involved.

§ 1350.24 Common provisions.

See Subpart F of this part.

Subpart C—Training

§ 1350.30 Purpose.

(a) The purpose of this subpart is to utilize training as a means of increasing the number of qualified individuals to work with youth in danger of becoming delinquent; to increase the capacity and ability of persons now employed in such activities; to improve counseling or instruction of parents in the supervision of youth in danger of becoming delinquent; and to provide special programs with training for career opportunities for youths and adults.

(b) Grants made under this subpart are for the development of courses of study and of interrelated curricula in schools, colleges and universities, the establishment of short-term institutes for training at schools, colleges and universities, in-service training and traineeships, and stipends, including allowances for travel and subsistence expenses.

(c) For contracts, see Subpart G of this part.

§ 1350.31 Eligibility.

Grants under this subpart may be made to any Federal, State or local public agency or any private nonprofit agency or organization: *Provided, however,* That agencies which are part of the juvenile justice system are not eligible applicants. Multiple-function agencies having authority to administer a variety of programs, which may include corrections, are eligible applicants provided that the corrections or other juvenile justice component is not responsible for the administration of the grant or the operation of the project.

§ 1350.32 Matching requirements.

There are no specific matching requirements. The Assistant Secretary shall require the recipient to contribute money, facilities or services, to the extent he deems appropriate.

§ 1350.33 Application.

(a) An application for funds under this subpart shall contain the following:

(1) A budget and budget justification;

(2) A description of the qualifications for the principal staff positions to be responsible for the project;

(3) A statement of the goals of the proposed project, and how they relate to the purposes of delinquency prevention;

(4) A description of the methods to be employed in implementing the goals of the proposed project;

(5) Where appropriate, a description of the types of training materials, publications, films, curriculum materials, training tapes or other products anticipated from the project;

(6) Where appropriate, a description of the role of youth in the project;

(7) A description of the provisions that have been made for a systematic evaluation of the project results;

(8) A description of the criteria to be used in selecting trainees, and the methods to be used in evaluating their progress during training and their suitability for employment;

(9) Such other information as the Assistant Secretary may require.

(b) The application shall be executed by an individual authorized to act for the applicant, and to assume on behalf of the applicant the obligations imposed by the terms and conditions of any award, including the provisions of this part.

(c) An award of a grant under this subpart will be forwarded by the Assistant Secretary or other delegate official to the Secretary of Labor or his designee for concurrence.

(d) Any major proposed amendments to an approved application shall be submitted in writing, in advance to the Assistant Secretary. No change shall be put in effect without the approval of the Secretary of Labor or his designee and the Assistant Secretary.

§ 1350.34 Factors considered in evaluating applications.

In evaluating an application, the Assistant Secretary will consider a number of factors, including the following:

(a) The relative need for the project in relation to national, State or local priorities;

(b) The relative extent to which financial support is committed by the applicant for the operation of the project;

(c) The relative ability of the applicant to employ innovative and effective methods and techniques;

(d) The relative extent to which the project will result in new employment and new career opportunities in the field of delinquency prevention.

§ 1350.35 Common provisions.

See Subpart F of this part.

Subpart D—Technical Assistance

§ 1350.40 Purpose.

(a) Grants made under this subpart are to aid States, local or other public or private agencies or organizations in matters relating to the prevention of delinquency, through the provision of technical assistance. Particular emphasis will be placed on providing technical assistance in the development of coordinated youth services systems under Subpart B of this part.

(b) For contracts, see Subpart G of this part.

§ 1350.41 Eligibility.

Grants under this subpart may be made to any public agency or nonprofit private agency or organization: *Provided, however,* That agencies which are part of the juvenile justice system are not eligible applicants. Multiple-function agencies having authority to administer a variety of programs, which may include corrections, are eligible applicants provided that the corrections or other juvenile justice component is not responsible for the administration of the grant or the operation of the project.

§ 1350.42 Matching requirements.

There are no specific matching requirements for grants under this subpart. However, to the extent deemed appropriate, the Assistant Secretary may require matching funds, facilities or services for carrying out the project.

§ 1350.43 Application.

(a) An application for funds under this subpart shall contain the following:

(1) A budget and budget justification;

(2) A description of the qualifications for the principal staff positions to be responsible for the project;

V 38 I 139 JUL 20 73 XUM

(3) A narrative description of the methods to be used by the applicant in rendering technical assistance, and the time schedule for rendering this assistance;

(4) An assurance that reports and recommendations, including the supporting data, will be submitted to the recipient of the technical assistance in writing, with a copy to the Assistant Secretary;

(5) Such other information as the Assistant Secretary may require.

(b) The application shall be executed by an individual authorized to act for the applicant, and to assume on behalf of the applicant, the obligations imposed by the terms and conditions of any award, including the provisions of this part.

(c) Any major proposed amendments to an approved application shall be submitted in writing, in advance to the Assistant Secretary. No such changes shall be put into effect without the approval of the Assistant Secretary.

§ 1350.44 Common provisions.

See Subpart F of this part.

Subpart E—Grants to States for Technical Assistance to Local Units

§ 1350.50 Purpose.

The purpose of this subpart is to provide for grants to States for the provision of technical assistance to local public agencies and nonprofit private agencies and organizations engaged in, or preparing to engage in, activities for which aid may be provided under Subpart B of this part.

§ 1350.51 Eligibility.

Grants under this subpart may be made to any non-Juvenile Justice State agency which is able and willing to provide such technical assistance.

§ 1350.52 Matching requirements.

(a) Federal financial participation in the cost of providing technical assistance shall not exceed 90 percent of the total cost of the technical assistance for which the grant is made.

(b) Grantee funds or services derived from other Federal funds or used for matching any other Federal grant may not be used to match the Federal funds in this program, except as otherwise specifically allowed by Federal statute.

§ 1350.53 Application.

(a) An application for funds under this subpart shall contain the following:

(1) A budget and budget justification;

(2) A description of the qualifications for principal staff positions to be responsible for the project;

(3) A statement of the goals of the proposed technical assistance project, and how they relate to the purposes of the Act;

(4) A narrative description of the methods to be used by the applicant in rendering technical assistance, and the time schedule for rendering this assistance;

(5) An assurance that reports and recommendations, including the supporting data, will be submitted to the recipient of the technical assistance in writing, with a copy to the Assistant Secretary;

(6) Such other information as the Assistant Secretary may require.

(b) The application shall be executed by an individual authorized to act for the applicant, and to assume on behalf of the applicant, the obligations imposed by the terms and conditions of any award, including the provisions of this part.

(c) Any major proposed amendments to an approved application shall be submitted in writing, in advance to the Assistant Secretary. No such changes shall be put into effect without the approval of the Assistant Secretary.

§ 1350.54 Factors considered in evaluating proposals.

In evaluating applications, the Assistant Secretary will consider a number of factors, including the following:

(a) The need for the technical assistance project;

(b) The capability of the State agency to provide technical assistance;

(c) The capability of the State agency to continue such technical assistance after support is terminated.

§ 1350.55 Common provisions.

See Subpart F of this part.

Subpart F—Common Provisions

§ 1350.60 Applicability.

The provisions of this part are applicable to the programs conducted under Subparts B, C, D, and E of this part.

§ 1350.61 Protection of rights of recipient.

(a) No child shall be the subject of any research or experimentation, under this part, other than routine testing and normal program evaluation, unless the parent or guardian is informed and given an opportunity as of right to exempt such child therefrom.

(b) No child shall be subject to medical, psychiatric or psychological treatment, under this part, without the consent of the parent or guardian unless otherwise permitted under State law.

(c) All information obtained by a grantee as to personal facts about individuals served by the coordinated youth services system, including lists of names and records of addresses and evaluation, shall be held to be confidential. The use of such information and records shall be limited to purposes directly connected with the system and may not be disclosed, directly or indirectly, other than in the administration thereof, unless the consent of the agency providing the information and the individual to whom the information applies, or his representative, has been obtained in writing. Descriptive material or evaluation reports of the project shall not reveal any information that may serve to identify any person about whom information has been obtained without his written consent, or the written consent of his representative.

§ 1350.62 Application review.

All applications which meet the legal requirements for a grant under the Act will be reviewed by the Office. The applicant may be requested to submit additional information either before or after review of the application. The Office may submit the application to technical consultants. On the basis of the recommendations received, the Assistant Secretary or other delegated official determines the action to be taken with respect to each application and notifies the applicant accordingly.

§ 1350.63 Grant awards.

All grant awards shall be in writing, shall specify the amount of funds and the purposes for which these funds are granted, the budget period for which support is given, and the total project period for which support is contemplated. For continuation support, grantees must make separate applications in the form and detail required by the Assistant Secretary.

§ 1350.64 Expenditures.

(a) Except as otherwise authorized, where the applicant for any grant under this part is a State or local public agency, the administrative provisions of State or local law applicable to the monies appropriated to the agency shall apply to Federal monies paid to the agency under this part.

(b) Grants under this part are available for the following types or expenditures for approved coordinated youth services systems, training projects or technical assistance projects:

(1) Salaries, cost of travel, and related expenses of system or project personnel;

(2) Necessary supplies and equipment (subject to such prior approval as the Assistant Secretary may require);

(3) For preventive projects under Subpart B of this part;

(i) Alterations or remodeling or existing buildings and related expenses; and

(ii) Purchase or provision of services to individuals served by the coordinated youth services system.

(b) Grants under this part are available for the following types of expenditures for approved coordinated youth services systems, training projects or technical assistance projects:

(1) Salaries, cost of travel, and related expenses of system or project personnel;

(2) Necessary supplies and equipment (subject to such prior approval as the Assistant Secretary may require);

(3) For preventive projects under Subpart B of this part;

(i) Alterations or remodeling of existing buildings and related expenses; and

(ii) Purchase or provision of services to individuals served by the coordinated youth services system, including purchase of preventive services from a juvenile justice or correctional agency on condition that such services are provided outside of and separate and apart from its juvenile justice and correctional activities, and the services to be purchased are not otherwise available in the community;

(4) Costs of administration and other indirect costs, subject to such limitations as are set forth in Office of Management and Budget Circulars A-21 and A-87, and as the Assistant Secretary may establish;

(5) For training projects under Subpart C of this part, stipends, traineeships, travel allowances, and subsistence;

(6) Such other items as are included in the approved application subject to applicable limitations set forth in Office of Management and Budget circulars on allowable costs.

(c) Expenditures shall be in connection with the conduct of the system or project as approved.

§ 1350.65 Payments.

(a) The Assistant Secretary shall from time to time authorize payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement for expenses to be incurred in the project period, to the extent he determines such payments are necessary to promote prompt initiation and advancement of the approved project. All such payments shall be recorded by the grantee in accounting records separate from all other fund accounts, including funds derived from other grant awards. Amounts paid shall be available for expenditure by the grantee in accordance with the regulations of this part throughout the project period, subject to such limitations as the Assistant Secretary may prescribe.

(b) In the case of construction funds under Subpart B of this part, payments will be made on the basis of a certification by a qualified individual as to the amounts due the applicant for the cost of work performed and materials and equipment furnished. Such certification shall be based on adequate inspections to determine that the work has been performed upon a project or purchases have been made in accordance with the approved plans and specifications. Payments shall be made at periodic intervals consistent with the construction progress of the project. In extraordinary circumstances, when necessary to maintain construction progress, advance payments may be made. Final payment shall not be made until after the completion of the project.

§ 1350.66 Reports and records.

The grantee shall make reports to the Assistant Secretary in such form and containing such information as may reasonably be necessary to enable the Assistant Secretary to perform his functions under this part, and shall keep such records and afford such access thereto as the Assistant Secretary may find necessary to assure the correctness and verification of such reports.

§ 1350.67 Fiscal and auditing procedures.

(a) *Fiscal procedures.* The grantee shall provide for such fiscal control and fund accounting procedures as are necessary to assure proper disbursement of, and accounting for, the Federal funds paid to it. Accounts and supporting documents relating to project expenditures shall be adequate to permit an accurate and expeditious audit. All grant accounting records shall be retained for periods prescribed in manuals or other issuances of the Assistant Secretary.

(b) *Auditing procedures.* Each grantee shall make appropriate provision for the auditing of project expenditure records, and such records, as well as the audit reports, shall be available to auditors of the Federal government.

§ 1350.68 Publications and copyrights.

(a) *Publications.* Grantees under this part may publish the results of any project without prior review by the Office, provided that such publications carry an acknowledgment of assistance received under the Act, and a statement that the claimed findings and conclusions do not necessarily reflect the views of the Office; *And provided,* That copies of the publications are furnished to the Office.

(b) *Copyright.* Where the grant-supported activity results in a book or other copyrightable material, the grantee is free to copyright, but the Office reserves a royalty-free, nonexclusive and irrevocable license to reproduce, publish, translate, or otherwise use, and to authorize others to use, all copyrightable or copyrighted material resulting from the grant-supported activity.

§ 1350.69 Interest.

Pursuant to section 203 of the Intergovernmental Cooperation Act of 1968 (Public Law 90-577), a State, as defined in section 102 of that Act, will not be held accountable for interest earned on grant funds pending their disbursement for program purposes. A State, as defined in the Intergovernmental Cooperation Act, section 102, means any one of the several States, the District of Columbia, Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State, but does not include the governments of the political subdivisions of the State. All other grantees must return to the Office all interest earned on grant funds.

§ 1350.70 Termination.

(a) A grant may be terminated, in whole or in part, at any time within the project period whenever it is determined by the Office that the grantee has failed to comply with the terms and conditions of the grant. The grantee shall be promptly notified of such termination in writing and given the reasons therefor. Payments and recoveries shall be in accord with the legal rights and liabilities of the Office and the grantee.

(b) The Office or the grantee may terminate grants, in whole or in part, when both parties agree that continuation would not produce beneficial results commensurate with the further expenditure of funds. Termination conditions and procedures shall be in accordance with requirements set forth in manuals or other issuance of the Assistant Secretary.

Subpart G—Contracts

§ 1350.80 Contracts.

(a) Subject to applicable provisions of this part, the Assistant Secretary is authorized to make contracts under Subparts B, C, and D of this part.

(b) *Provisions.* Any contract under this part shall be entered into in accordance with, and shall conform to all applicable laws, regulations and Department policy.

(c) *Payments.* Payments under any contract under this part may be made in advance or by way of reimbursement and in such installments and on such conditions as the Assistant Secretary may determine.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[46 CFR Parts 35, 78, 97, 196]

[CGD 72-134P]

MANEUVERING CHARACTERISTICS

Proposed Requirements for Information in Pilothouse

The Coast Guard is considering amendments to the operations regulations for several classes of vessels to require that tankships and ocean and coastwise vessels of 1,600 gross tons or more carry maneuvering information in their pilothouses.

Interested persons may participate in this rule making by submitting written data, views, or arguments to the Coast Guard (GCMC), Room 8234, 400 Seventh Street SW., Washington, D.C. 20590 (phone 202-426-1477). Each person submitting a comment should include his name and address, identify the notice (CGD 72-134P), the specific section of the proposal to which each comment is addressed, and the reasons for any recommendation.

Copies of all written comments received will be available for examination in Room 8234 of the above stated address. The proposal may be changed in the light of the commen's received. The deadline for comments on this notice will be August 31, 1973.

No hearing is contemplated but may be held at a time and place set in a later notice in the FEDERAL REGISTER, if requested by an interested person desiring an opportunity to comment orally at a public hearing and raising a genuine issue.

The Coast Guard published a notice of proposed rule making in the August 22, 1972 issue of the FEDERAL REGISTER (37 FR 16879) which proposed amendments to the operations regulations for several classes of vessels of 1600 gross tons or more to require maneuvering information posted in the pilothouse. Two oral comments were made at the public hearing which was held on September 28, 1972 in Washington, D.C., and 9 written comments were submitted before October 13, 1972.

Most commenters felt that requirements in paragraph (a) of each of the

V 38 139 JUL 20 73 XUM

proposed sections for information "computed at normal load and normal light condition" (normal ballast conditions in the tanker regulations) were too restrictive. One commented that the information should not be a requirement for certification of a new vessel but that a reasonable operating time after delivery should be allowed for development of the information.

The Coast Guard recognizes that, as some respondents commented, wind, sea, current, conditions of loading, depth of water, conditions of hull, and similar conditions, will vary and that seldom will two situations be identical. The proposed information was intended to be used only as a guideline. In response to the comments, the Coast Guard changed the proposal to include a warning that the vessel's response may differ significantly under different conditions. Also, a requirement for the prominent display of the information in the pilothouse has been added and the wording of the regulation was made less restrictive. A section was added which requires that preliminary information be provided before a vessel is issued a certificate of inspection and allows up to nine months for verification or modification of the information based on operational experience. Wording has also been included which will allow the use of established information for a sister vessel.

Several comments were received suggesting a table of shaft revolutions for each knot of the vessel's speed instead of the proposed requirement which would result in awkward figures such as "58.62 revolutions per minute gives 10 knots." Based on this suggestion, wording was changed to require a table of revolutions per minute for a representative range of speeds.

It was also pointed out that for vessels with controllable pitch propellers "revolutions per minute" has little meaning. Accordingly, a provision was added that allows vessels with controllable pitch propellers to indicate control settings for a representative range of speed.

Comments were received suggesting the inclusion of information for vessels equipped with bow thrusters or other devices designed to assist in maneuvering a vessel. A requirement was added for vessels equipped with such auxiliary devices to include information as to the maximum speed at which the device is effective in mancuvering the vessel.

Most respondents felt that since there is presently no recognized criteria to judge when a vessel loses steerageway, the requirement for the lowest constant shalt revolutions per minute at which the vessel can be steered in still water is unrealistic. The Coast Guard approved the comment and deleted the proposed amendment.

Several comments were received regarding problems created in each paragraph (a)(3) of the proposed regulations pertaining to turning circles at constant shaft revolutions per minute. In general, the comments pointed out that careful adjustment of the throttle would be necessary to maintain constant RPM. The Coast Guard agreed with the comments and changed the words "constant shaft revolutions per minute" to "constant power settings" which reflects the actual situation.

Comments made on paragraph (a)(4) of the proposed regulations suggested including the time required for the transmission of an order and the reaction of the machinery. The Coast Guard accepted this comment and changed the requirement from, "The approximate time and distance to stop the vessel from full and half speed, after the application of emergency full astern power" to, "The time and distance to stop the vessel from full and half speed while maintaining approximately the initial heading with minimum application of rudder."

With all the changes made, the Coast Guard determined that the regulations were substantively different from those proposed on August 22, 1972. It is necessary, under the circumstances, to withdraw the original proposal, and issue a new proposal that contains those changes described in this preamble.

In consideration of the foregoing, it is proposed to amend Chapter I of Title 46, Code of Federal regulations, as follows:

1. By amending Subpart 35.20 by adding a new § 35.20–40 to follow § 35.20–20 and to read as follows:

§ 35.20–40 Maneuvering characteristics—T/ALL.

For each tankship of 1600 gross tons or over, the following apply:

(a) The following maneuvering information must be prominently displayed in the pilothouse on a Fact Sheet before a vessel is issued a certificate of inspection:

(1) For full and for half speed, a turning circle diagram to port and starboard that shows the time and the distance of advance and transfer required to alter the course 90 degrees with maximum rudder angle and constant power settings.

(2) The time and distance to stop the vessel from full and half speed while maintaining approximately the initial heading with minimum application of rudder.

(3) For each vessel with a fixed propeller, a table of shaft revolutions per minute for a representative range of speeds.

(4) For each vessel with a controllable pitch propeller, a table of control settings for a representative range of speed.

(5) For each vessel that is fitted with an auxiliary device to assist in maneuvering, such as a bow thruster, the maximum vessel speed at which the auxiliary device is effective in maneuvering the vessel.

(b) The maneuvering information must be established in the normal load and normal ballast condition for:

(1) Calm weather;

(2) No current;

(3) Deep water conditions; and

(4) Clean hull.

(c) At the bottom of the Fact Sheet, the following statement must appear:

WARNING

The response of the (*name of vessel*) may be different than those listed above if the conditions are changed, such as shallow water.

(d) The information on the Fact Sheet must be

(1) Verified six months after the vessel is placed in service; **or**

(2) Modified six months after the vessel is placed into service and verified 3 months thereafter.

(e) The information that appears on the Fact Sheet may be information that is established for another vessel that has a similar hull form, power, rudder, and propeller.

2. By amending Parts 78, 97, and 196 by adding Subparts 78.21, 97.19, and 196.19, headed "Maneuvering Characteristics" and consisting of §§ 78.21–1, 97.19–1, and 196.19–1 respectively, that read the same as § 35.20–40, except the headings of each section would read Data required and the introductory text of the sections and paragraph (b) would read as follows:

§ ____ **Data required.**

For each ocean and coastwise vessel of 1600 gross tons or over, the following apply:

* * * * *

(b) The maneuvering information must be established in the normal load and normal light condition for— * * *

* * * * *

(R.S. 4405, as amended, R.S. 4417a, as amended, R.S. 4462, as amended, sec. 6(b)(1), 80 Stat. 937; 46 U.S.C. 375, 391a, 416, 49 U.S.C. 1655(b)(1); 49 CFR 146 (b) and (c)(4))

Dated, July 16, 1973.

[CGD 73–1427]

SACRAMENTO RIVER, OLD RIVER, GEORGIANA SLOUGH AND STEAMBOAT SLOUGH, CALIF.

Proposed Drawbridge Operation Regulations

At the request of the Southern Pacific Transportation Company, the Atchison, Topeka and Santa Fe Railway Company, the State of California and the County of Sacramento, the Coast Guard is considering amending the regulations for the drawbridges across the Sacramento River at Isleton, Walnut Grove, Paintersville, Freeport and a highway bridge and a railroad bridge at Sacramento; across Steamboat Slough at Grand Island; across Old River at Orwood and at Victoria Island and the highway drawbridges across Georgiana Slough at Isleton and Walnut Grove and the railroad bridge at Isleton. These changes would reduce the times at which the draws of these bridges would be required to open on signal. This is being considered because of reduced navigation on these stretches of the waterway due in part to the increased use of the Sacramento River Deep Water Ship Channel. The proposal pertaining to the Georgiana Slough was originally published in the FEDERAL REGISTER as a notice of proposed rulemaking (CGFR 71–65) on July 10, 1971 (36 FR 12987). However, the proposal is being reissued with some modifications to integrate it in this proposal.

Interested persons may participate in this proposed rulemaking by submitting written data, views, or arguments to the Commander (oan), Twelfth Coast Guard District 630 Sansome Street, San Francisco, California 94126. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Twelfth Coast Guard District.

The Commander, Twelfth Coast Guard District, will forward any comments received before August 21, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal regulations, be amended by:

1. Adding paragraph (k) to § 117.714 to read as follows:

§ 117.714 San Joaquin River and its tributaries, California

* * * * *

(k) *Old River*—(1) *Atchison, Topeka, and Santa Fe Railway Company bridge at Orwood.* (i) From April 1 through November 30, the draw shall open on signal from 6 a.m. to 10 p.m.

(ii) From December 1 through March 31, the draw shall open on signal from 9 a.m. to 5 p.m.

(iii) At all other times, the draw shall open on signal if at least 4 hours notice is given, except that the draw shall open on signal if at least 1 hour's notice is given for emergency vessels owned, operated, or controlled by the United States or the State of California.

(2) *State of California highway bridge between Victoria Island and Byron Tract.* (i) From May 1 through October 31, the draw shall open on signal from 6 a.m. to 10 p.m.

(ii) From November 1 through April 30, the draw shall open on signal from 9 a.m. to 5 p.m.

(iii) At all other times, the draw shall open on signal if at least 4 hours notice is given, except that the draw shall open on signal if at least 1 hours notice is given for emergency vessels owned, operated or controlled by the United States or the State of California.

2. Revising § 117.715 to read as follows:

§ 117.715 Georgiana Slough, California.

(a) Opening signal. One long blast followed by one short blast.

(b) Sacramento County highway bridges near Isleton and Walnut Grove.

(1) From March 1 through March 31 and from November 1 through November 30 the draws of these bridges shall open on signal from 9 a.m. to 5 p.m. on Saturdays, Sundays and holidays.

(2) From April 1 through October 31 the draws of these bridges shall open on signal from 8 a.m. to 9 p.m.

(3) At all other times the draws shall open on signal if at least 16 hours notice is given. However, the District Commander may require constant drawtender attendance for such periods as he deems necessary for the safety of navigation and the draws shall open on signal during such periods.

(c) Southern Pacific railroad bridge near Isleton. The draw shall be maintained in the fully open position, except that the draw may close for the passage of trains. When the draw is closed and visibility from the drawtender's station is less than 1 mile up or down the channel, the drawtender shall sound 2 long blasts every minute. When the draw is reopened, the drawtender shall sound one long blast followed by one short blast.

3. Revising § 117.716(a)(1) by adding subparagraphs (iii), (iv) and (v) immediately after subparagraph (ii) and paragraphs (a)(2) and (b) to read as follows:

§ 117.716 Sacramento River and its tributaries, California.

(a) *Sacramento River*—(1) *Sacramento County highway bridge at Walnut Grove and State of California highway bridge at Paintersville.* * * *

(iii) From May 1 through October 31, the draws of these bridges shall be opened on signal from 6 a.m. to 10 p.m.

(iv) From November 1 through April 30, the draws of these bridges shall be opened on signal from 9 a.m. to 5 p.m.

(v) At all other times, the draws of these bridges shall open on signal if at least 4 hours notice is given, except that the draws shall open on signal if at least 1 hours notice is given for emergency vessels owned, operated or controlled by the United States.

(2) *State of California highway bridges at Isleton and Sacramento Tower bridge, Sacramento-Yolo Counties highway bridge at Freeport and Southern Pacific Company railroad I Street bridge at Sacramento.* (i) From May 1 through October 31, the draws of these bridges shall open on signal from 6 a.m. to 10 p.m.

(ii) From November 1 through April 30, the draws of these bridges shall open on signal from 9 a.m. to 5 p.m.

(iii) At all other times, the draws of these bridges shall open on signal if at least 4 hours notice is given, except that the draws shall open on signal if at least 1 hours notice is given for emergency vessels owned, operated or controlled by the United States or the State of California.

(iv) The signal for opening the Southern Pacific Railroad Company bridge shall be four long blasts.

(b) *Steamboat Slough State of California highway bridge at the head of Grand Island.* (i) The opening signal for this bridge is two long blasts followed by one short blast.

(ii) From May 1 through October 31, the draw shall open on signal from 6 a.m. to 10 p.m.

(iii) At all other times, the draw shall open on signal if at least 4 hours notice is given, except that the draw shall open on signal if at least 1 hours notice is given for emergency vessels owned, operated or controlled by the United States or the State of California.

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 73–CE–8]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Dubuque, Iowa.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received by August 19, 1973 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements, for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief.

Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

A new public use instrument approach procedure is being developed for the

V 38 I 139 JUL 20 73 XUM

Dubuque, Iowa, Municipal Airport. Accordingly, in order to adequately protect aircraft executing this new approach procedure it is necessary to alter the Dubuque, Iowa, transition area.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (38 FR 435), the following transition area is amended to read:

DUBUQUE, IOWA

That airspace extending upward from 700 feet above the surface within an 8½ mile radius of the Dubuque Municipal Airport (latitude 42°24'10" N., longitude 90°42'32" W; and within 3 miles on either side of the Dubuque VORTAC 321° radial, extending from the VORTAC to 8 miles northwest of the airport reference point; and within 3½ miles on either side of the Dubuque VORTAC 131° radial, extending from the VORTAC to 15½ miles southeast of the airport reference point, and that airspace extending upward from 1200 feet above the surface, bounded by a line beginning at latitude 42°06'00" N., longitude 91°00'00" W., thence W along latitude 42°05'00" N., to and N along longitude 92°15'00" W., to and counterclockwise along the arc of a 29-mile radius circle centered on the Waterloo, Iowa VORTAC, to and E along the S edge of V-100, to and clockwise along the arc of a 29-mile radius circle centered on the Dubuque VORTAC, to and SE along the SW edge of V-218, to and S along longitude 89°55'00" W., to and SW along the NW edge of V-216, to 90°08'00" W., and S to the N edge of V-172, to and N along longitude 91°00'00" W., to the point of beginning, excluding the portion which overlies the State of Illinois.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; Sec 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Kansas City, Missouri, on June 27, 1973.

JOHN M. CYROCKI,
Director, Central Region.

[14 CFR Part 71]

[Airspace Docket No. 73-CE-12]

ALTERATION OF TRANSITION AREA

Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Lincoln, Nebraska.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received by August 19, 1973 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief.

Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

Since designation of controlled airspace at Lincoln, Nebraska, an FAA Airport Surveillance Radar (ASR) has been installed at Lincoln so that the Lincoln Air Traffic Control Tower can provide radar control service to flights in the Lincoln terminal area. Accordingly, it is necessary to alter the 1200-foot floor transition area at Lincoln to enable the Lincoln Air Traffic Control Tower to provide this service. The existing 700-foot floor transition area designation at Lincoln is not affected by this alteration.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (38 FR 435), the following transition area is amended to read:

LINCOLN, NEBRASKA

That airspace extending from 700 feet above the surface within a 9-mile radius of Lincoln Municipal Airport (latitude 40°50'45" N., longitude 96°45'20" W.); within the area bounded by a line five miles west of and parallel to the Lincoln ILS localizer south course clockwise along a 17-mile arc centered on the Lincoln Municipal Airport to a line 2 miles east of and parallel to the Lincoln VORTAC 015° radial; and within 5 miles west and 9 miles east of the Lincoln ILS localizer south course, extending from the 9 mile radius area to 13 miles south of the OM; that airspace extending upward from 1,200 feet above the surface bounded by a line starting at the intersection of longitude 97°25'00" W., and the south edge of V-138, thence northwest to longitude 97°42'00" W., latitude 41°00'00" N., thence north to latitude 41°05'00" N., and the southeast edge of V-220, thence northeast following the southeast edge of V-220 until intercepting the south edge of V-172, thence east to longitude 96°22'00" W., and the south edge of V-172, thence south to longitude 96°22'00" W., latitude 41°15'00" N., thence along a 35-mile arc from the Lincoln Municipal Airport clockwise to the point of beginning, excluding that portion which overlies the Beatrice, Nebraska, Fremont, Nebraska, Columbus, Nebraska and Omaha, Nebraska transition areas.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348); Sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Kansas City, Missouri, on June 27, 1973.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc.73-14884 Filed 7-19-73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73-NW-07]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Eugene, Oregon Transition Area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Operations, Procedures and Airspace Branch, Northwest Region, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Washington, 98108. All communications received on or before August 20, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Northwest Region, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Washington 98108.

A review of the airspace requirements at Eugene, Oregon disclosed that additional controlled airspace would be required for vectoring aircraft in the Eugene area. In addition, the present description is being revised at this time to eliminate redundancy in description. Except as noted herein, the geographical boundaries of the area remain as presently described.

In consideration of the foregoing, the FAA proposes the following airspace action:

In § 71.181 (38 FR 435) the description of the Eugene, Oregon Transition Area is amended to read as follows:

EUGENE, OREGON

That airspace extending upward from 700' above the surface within 2-miles east and 10-miles west of the Eugene VORTAC 007° radial, extending from the VORTAC to 14-miles north; within 2-miles southeast and 3-miles northwest of the Eugene VORTAC 030° radial, extending from the VORTAC to 13-miles northeast; that airspace south of Eugene bounded on the east by a line 4.5 miles east of and parallel to the Eugene VORTAC 172° radial, on the south by an arc of a 21-mile radius circle centered on the Eugene VORTAC, on the west by a line 5-miles northwest of and parallel to the Eugene VORTAC 224° radial; within 2-miles each side of the Eugene VORTAC 272° radial extending from the VORTAC to 12-miles west; that airspace extending upward from 1200-feet above the surface, east of Eugene bounded on the north by V-121; on the east by Longitude 123°01'00" W, on the southeast by V-452; that airspace northeast of Eugene, bounded on the north by V-536, on the south by V-121 and on the west by V-23E.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Seattle, Washington on July 12, 1973.

C. B. WALK, Jr.,
Director, Northwest Region.

[14 CFR Parts 71, 73]

[Airspace Docket No. 73-WA-31]

RESTRICTED AREAS AND CONTINENTAL CONTROL AREA

Withdrawal of Proposed Designation and Alteration

On April 24, 1973, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (38 FR 10117) stating that the Federal Aviation Administration (FAA) was considering amendments to Parts 71 and 73 of the Federal Aviation Regulations (FARs). This amendment would designate a joint-use restricted area, R-5107H, White Sands Missile Range (WSMR), N. Mex., within the VFR corridor between El Paso, Tex., and Alamogordo, N. Mex., and include it in the Continental Control Area. On May 17, 1973, a Supplemental NPRM was published in the FEDERAL REGISTER (38 FR 12934) that proposed an alteration of the time of designation for proposed restricted area R-5107H. The proposed restricted area would contain hazards which could result from inadvertent fallout of debris from missiles entering the restricted airspace over WSMR.

On May 10, 1973, an NPRM was published in the FEDERAL REGISTER (38 FR 12216) stating that the FAA was considering amendments to Parts 71 and 73 of the FARs that would designate a joint-use restricted area, R-6410, Blanding, Ut., and include it in the Continental Control Area. This proposal was developed by the using agency in conjunction with the proposal for R-5107H. This proposed restricted area would be used as the launching site for the Pershing missiles that would impact at WSMR.

Interested persons were afforded opportunities to participate in both proposed rule-making actions through the submission of comments. Public comments on the first proposal, proposed designation of R-5107H, were generally in opposition.

Subsequently, the military agencies concerned with the conduct of this test program have determined that, with computer assistance to the flight safety system, the missile impact points can be safely retargeted within the existing WSMR complex and its current associated restricted airspace so that proposed R-5107H would not be required. This retargeting has required that the launch area be moved from proposed restricted area R-6410, Blanding, Ut., (Airspace Docket No. 73-RM-15) to a former restricted area, R-6413, Green River, Ut. Therefore, the FAA has determined that rule-making actions on the proposed amendments are not appropriate at the present time, and that these notices should be withdrawn. Separate rule-making actions will be undertaken to propose the reestablishment of R-6413 (Airspace Docket No. 73-RM-21).

The withdrawal of these notices, however, does not preclude the FAA from issuing similar notices in the future or commit the FAA to any course of action.

In consideration of the foregoing, the proposals contained in Airspace Dockets Numbers 73-SW-20 (38 FR 10117), its Supplemental NPRM (38 FR 12934) and 73-RM-15 (38 FR 12216) are withdrawn.

This withdrawal of the notices of proposed rulemaking is made under the authority of Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on July 13, 1973.

CLAUDE FEATHERSTONE,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-14885 Filed 7-19-73;8:45 am]

[14 CFR Part 75]

[Airspace Docket No. 73-RM-19]

JET ROUTE

Proposed Extension

The Federal Aviation Administration (FAA) is considering an amendment to Part 75 of the Federal Aviation Regulations that would extend Jet Route 148 from Delta, Utah, to Coaldale, Nev.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Rocky Mountain Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Park Hill Station, P.O. Box 7213, Denver, Colo. 80207.

All communications received by August 19, 1973 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would extend J-148 from Delta, Utah, direct to Coaldale, Nev. Extending this airway would permit flight planning to Coaldale VORTAC thence via STAR route to the Oakland and San Francisco, Calif., terminal areas. This amendment should reduce controller workload, increase safety and improve flight planning.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on July 16, 1973.

CLAUDE FEATHERSTONE,
Acting Chief, Airspace and Air Traffic Rules Division.

CIVIL AERONAUTICS BOARD

[14 CFR Part 399]

[Docket No. 25708; Reg. PSDR 36]

FOREIGN AIR CARRIERS

Policy Statement on Oral Confirmed Reservations

Notice is hereby given that the Civil Aeronautics Board proposes to amend Part 399 of its Statement of General Policy (14 CFR Part 399) so as to make applicable to foreign air carriers the Policy Statement on unfair or deceptive reservations practices involving orally confirmed reservations. The purpose of the proposed amendment is explained in the attached Explanatory Statement, and the proposed amendment is set forth in the proposed rule. The amendment is proposed under the authority of sections 204, 402, 403, 404, and 411 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 757, 758 (as amended by 74 Stat. 445), 760 (as amended by 86 Stat. 95), 769; 49 U.S.C. 1324, 1372, 1373, 1374, 1381.

Interested persons may participate in the proposed rule making through submission of twelve (12) copies of written data, views or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before August 20, 1973, will be considered by the Board before taking final action on the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 712 Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C. upon receipt thereof.

Dated: July 17, 1973.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

Explanatory statement. The Board recently adopted a Policy Statement[1] to the effect that the Board considers it is an unfair or deceptive practice for an air carrier or ticket agent to purport to confirm reserved space by any means not provided for by the carrier's tariff; and simultaneously the Board amended its "denied boarding compensation" rule (Part 250 of its Economic Regulations) so as to apply not only to confirmed reservations noted on a passenger's

[1] PS-52, adopted May 23, 1973; 14 CFR 399.83.

V 38 1 139 JUL 20 73 XUM

ticket, but also to reservations confirmed by any other means provided for in an air carrier's tariff.[2]

The Board's purpose in adopting these amendments was to protect the public against employees and agents of carriers representing that telephone reservations for scheduled flights made by prospective passengers are "confirmed" when, in fact, under the terms of the carrier's tariff, they are not; and, on the other hand, to extend the remedy of denied boarding compensation [3] to passengers holding reservations confirmed in any manner provided for by the carrier's tariff, even if not evidenced by a ticket notation.

Subsequent to the adoption of these amendments, by notice of proposed rule making EDR–248, dated June 4, 1973, the Board gave notice that it had under consideration the adoption of a further amendment to Part 250, so as to extend its coverage (presently limited to certificated U.S. air carriers) to foreign air carriers holding a permit, issued by the Board pursuant to section 402 of the Act, to perform foreign air transportation on an individually-ticketed basis. If this proposed amendment to Part 250 is adopted, then the recent amendment to that part, made by ER–804, will by its terms apply to such foreign air carriers. However, adoption of the proposed amendment to Part 250 would not affect the recent amendment to Part 399, so that the latter would continue to apply by its terms only to U.S. certificated air carriers.

It seems clear that if foreign air carriers are to be covered by the "denied boarding compensation" rule to the same extent as U.S. certificated air carriers, then they should also be equally covered by the new Policy Statement on unfair or deceptive reservation practices, under section 411 of the Act, which applies to foreign and U.S. carriers. Accordingly, we are proposing herein to amend § 399.83 of the Board's Statements of General Policy so as to apply to foreign air carriers. Although the proceeding instituted herein is separate from the rule making proceeding instituted by EDR–248, we would expect to consider the two matters simultaneously when taking final action.

Proposed rule. It is therefore proposed to amend Part 399 of the Board's Statements of General Policy (14 CFR Part 399) as follows:

1. Amend the Table of Contents of Part 399 by changing the heading of § 399.83, the table as amended to read as follows:

Sec.
399.82 Passing off • • •
399.83 Unfair or deceptive practice of air carrier, foreign air carrier, or ticket agent in orally confirming to prospective passenger reserved space on scheduled flights.

2. Amend § 399.83 to read as follows:

§ 399.83 Unfair or deceptive practice of air carrier, foreign air carrier, or ticket agent in orally confirming to prospective passenger reserved space on scheduled flights.

It is the policy of the Board to consider the practice of an air carrier, foreign air carrier, or ticket agent, of stating to a prospective passenger by telephone or other means of communication that a reservation of space on a scheduled flight in air transportation is confirmed before a passenger has received a ticket specifying thereon his confirmed reserved space, to be an unfair or deceptive practice and an unfair method of competition in air transportation or the sale thereof within the meaning of section 411 of the Act, unless the tariff of the particular air carrier or foreign air carrier provides for confirmation of reserved space by the means so used.

[FR Doc.73–14962 Filed 7–19–73;8:45 am]

[2] ER–804, adopted May 23, 1973; 14 CFR 250.1.

[3] In general, Part 250 requires certificated carriers, with certain exceptions, to file with the Board: (1) Priority rules for determining which passengers holding confirmed reserved space shall be denied boarding on oversold flights; (2) tariffs providing denied boarding compensation to such passengers at the rate of 100 percent of the value of the first remaining flight coupon with a $25 minimum and a $200 maximum; and (3) reports of unaccommodated passengers on a market and system basis.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 180]

STREPTOMYCIN

Proposed Tolerances

Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4, State Agricultural Experiment Station, Rutgers University, New Brunswick, NJ 08903, on behalf of the Agricultural Experiment Stations of California, Florida, Idaho, Minnesota, North Carolina, North Dakota, Ohio, Oregon, South Carolina, South Dakota, Utah, Washington, and Wisconsin submitted a petition (PP 1E1095), proposing establishment of tolerances for negligible residues of the fungicide streptomycin in or on the raw agricultural commodities celery, hops, peppers, potatoes, and tomatoes at 0.25 part per million.

Subsequently, the petitioner amended the petition by withdrawing the requested tolerance for residues of the fungicide in or on hops.

Recent available information has indicated that (1) streptomycin is not absorbed in the gastrointestinal tract (2) the emergence of resistant strains of microorganisms in humans due to agricultural use of streptomycin is not likely, and (3) sensitization of exposed individuals occurs only through inhalation or skin absorption.

Based on consideration given data submitted in the petition and other relevant material, it is concluded that:

1. The fungicide is useful for the purpose for which the tolerances are proposed.

2. Residues, if any, in celery, peppers, potatoes, and tomatoes from the proposed uses, will not exceed the proposed tolerances. The tolerances of 0.25 part per million represent the sensitivity of the analytical method.

3. There is no reasonable expectation of residues in eggs, meat, milk, or poultry, and § 180.6(a)(3) applies.

4. The proposed tolerances will protect the public health. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (see 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), it is proposed that § 180.245 be revised to read as follows:

§ 180.245 Streptomycin; tolerances for residues.

Tolerances of 0.25 part per million are established for negligible residues of the fungicide streptomycin in or on the raw agricultural commodities celery, peppers, pome fruits, potatoes, and tomatoes.

Any person who has registered or submitted an application for the registration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed herein may request, on or before August 20, 1973, that this proposal be referred to an advisory committee in accordance with section 408(e) of the act.

Interested persons may, on or before August 20, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets, SW., Waterside Mall, Washington, D.C. 20460, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. All written submissions made pursuant to this proposal will be made available for public inspection at the office of the Hearing Clerk.

Dated: July 17, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.73–14971 Filed 7–19–73;8:45 am]

FEDERAL HOME LOAN BANK BOARD

[12 CFR Parts 541, 545]

[No. 73–955]

FEDERAL SAVINGS AND LOAN SYSTEM

Private Mortgage Insurance for 90–95% Loans

JULY 11, 1973.

Section 545.6–1(a)(5) of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.6–1(a)(5)) authorizes Federal savings and loan associations to make loans in excess of 90 percent of value secured by single-family dwellings subject to various requirements. Under subdivision (iv) of said § 545.6–1(a)(5) one of those requirements is that either the portion of the unpaid balance of such a loan which is in excess of 90 percent of value must be guaranteed or insured by a "qualified private insurer" as determined by the Federal Home Loan Mortgage Corporation or the association must establish a specific reserve with respect to such loan in the amount specified in that subdivision.

The Board considers it desirable to amend the requirement relating to qualified private mortgage insurance so as to require that with regard to loans in excess of 90 percent of value secured by single-family dwellings, as long as the unpaid balance of such a loan is in excess of 90 percent of value, the portion of the unpaid balance of such loan which is in excess of 80 percent of value must be insured or guaranteed by a "qualified private insurer". The Board considers this increase in the required amount of mortgage insurance desirable in order to cause this mortgage insurance requirement to more accurately reflect default experience on loans in excess of 90 percent of value.

In addition, the phrase "value or purchase price of the real estate security, whichever is less, determined at the time the loan was made" is proposed to be added to § 545.6–1(a)(5)(iv)(*a*) in order to clarify when such value or purchase price is to be established for the purpose of that section.

Accordingly, the Board hereby proposes to amend § 545.6–1(a)(5)(iv) by revising subdivision (*a*) thereof to read as set forth below.

Interested persons are invited to submit written data, views, and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 101 Indiana Avenue, N.W., Washington, D.C., 20552, by August 20, 1973, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the General Regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

§ 545.6–1 Lending powers under sections 13 and 14 of Charter K.

Any Federal association which has Charter K may, under sections 13 and 14 thereof, make the following types of loans on the security of first liens on improved real estate and the use by such an association of loan plans, practices, and procedures which comply with the applicable provisions of §§ 545.6 to 545.6–13, are hereby approved by the Board:

(a) *Homes or combination of homes and business property—*

(1) *Monthly installment loans.* Subject to the limitations of § 545.6–7, installment loans may be made on homes or combinations of homes and business property for an amount not in excess of 75 percent of the value thereof, repayable monthly within 30 years or, if an insured or guaranteed loan, within the period acceptable to the insuring or guaranteeing agency: *Provided*, That, when the members of such an association have authorized loans to be made for an amount exceeding 75 percent of the value, such loans may be made up to the percentage of value authorized by the members but not in excess of:

(i) 80 percent of the value, if the loan is not an insured or guaranteed loan;

(ii) The maximum percentage of the value acceptable to the insuring agency, if an insured loan;

(iii) 80 percent of the value, plus the amount guaranteed if a guaranteed loan.

• • • • •

(5) *Loans in excess of 90 percent of value.* The limitation of 80 percent set forth in paragraph (a)(1)(i) of this section shall be 95 percent in the case of any loan with respect to which the requirements set forth in paragraph (a)(4)(i), (ii), (iv), (v), (vi), and (viii) of this section are met with respect to which the following additional requirements are met:

• • • • •

(iv) Either—

(*a*) That as long as the unpaid balance of such a loan is in excess of an amount equal to 90 percent of the value or purchase price of the real estate security, whichever is less, determined at the time the loan was made, that portions of the unpaid balance of such loan which is in excess of an amount equal to 80 percent of such value or purchase price of the real estate security is guaranteed or insured by a mortgage insurance company which has been determined to be a "qualified private insurer" by the Federal Home Loan Mortgage Corporation; or

(*b*) The association establishes and maintains a specific reserve with respect to such loan equal to one percent of the unpaid principal balance thereof until the unpaid principal balance has been reduced to an amount not in excess of 90 percent of the value or purchase price of the real estate security, whichever is less, determined at the time the loan was made.

• • • • •

VETERANS ADMINISTRATION

[38 CFR Part 21]

VETERANS' EDUCATIONAL ASSISTANCE

Entitlement Charges

The proposed change to § 21.1045 provides for the charging of entitlement proportionately to the educational assistance or training allowance paid when a reduction in the monthly allowance was required due to excessive absences.

Interested persons are invited to submit written comments, suggestions or objections regarding the proposal to the Administrator of Veterans Affairs (232H), Veterans Administration, 810 Vermont Avenue, NW., Washington, D.C. 20420. All relevant material received before Aug. 20, 1973 will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m. Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above room number.

Notice is also given that it is proposed to make any regulation that is adopted effective the date of final approval.

In § 21.1045(a), subparagraph (6) is added to read as follows:

§ 21.1045 Entitlement charges.

(a) *Residence courses.* • • •

(6) *Excessive absences and less than full payment for job training.* Where deductions are made throughout an enrollment period, the combined portions of a month for which deductions were made will be computed and no entitlement charge will be made for the combined deductions. Where the computation results in a period of time other than a full month, or other than exactly ¾, ½ or ¼ fractional part of a month, the figure will be raised to the next higher quarter fraction of a month.

• • • • •

Approved: July 13, 1973.

By direction of the Administrator.

[SEAL] RUFUS H. WILSON,
Associate Deputy Administrator.

VIKING SAUNA CO.

Notice of Recordation of Trade Name

On April 30, 1973, there was published in the FEDERAL REGISTER (38 FR 10646) a notice of application for the recordation under section 42 of the Act of July 5, 1946, as amended (15 U.S.C. 1124), of the trade name Viking Sauna Company used by Viking Sauna Company. The notice advised that prior to final action on the application, filed pursuant to § 133.12, Customs Regulations (19 CFR 133.12), consideration would be given to relevant data, views, or arguments submitted in opposition to the recordation and received not later than 30 days from the date of publication of the notice. No responses were received in opposition to the application.

The name "Viking Sauna Company" is hereby recorded as the trade name of Viking Sauna Company, a partnership composed of Robert H. Jones, Robert E. Hanley and Shoji Koga, located at 909 Park Avenue, San Jose, California 95126, when applied to electrical heaters and prebuilt insulated rooms which can be heated or cooled to a desired temperature and particularly heated for use as a sauna bath and the like, and accessories for such equipment including thermostats, electrical timing devices, etc. The heating units are manufactured in Sweden. Thermometers are manufactured in Finland. The timing and clock apparatus are manufactured in France. The sauna rooms themselves are manufactured in the United States. Viking Sauna of Australia is authorized to use the trade name.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[INT DES 73-41]

OUTER CONTINENTAL SHELF OFFSHORE MISSISSIPPI, ALABAMA, AND FLORIDA

Notice of Availability of Draft Environmental Impact Statement and of Public Hearing

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental impact statement relating to a possible Outer Continental Shelf general oil and gas lease sale of 159 tracts of submerged lands on the Outer Continental Shelf in the Gulf of Mexico offshore Mississippi, Alabama, and Florida.

Single copies of the draft environmental statement can be obtained from the Office of the Manager, New Orleans Outer Continental Shelf Office, Bureau of Land Management, Suite 3200, The Plaza Tower, 1001 Howard Avenue, New Orleans, Louisiana 70113, and from the Office of Public Affairs, Bureau of Land Management (130), Washington, D.C. 20240. Additional copies may be obtained by writing the National Technical Information Service, Department of Commerce, Springfield, Virginia 22151.

Copies of the draft environmental statement will also be available for public review in the main public libraries in the following cities: Gulf Port, Mississippi; Mobile, Alabama; and Pensacola, Panama City, Tallahassee, Tampa, and St. Petersburg, Florida.

A composite map of the area of the Gulf of Mexico offshore Mississippi, Alabama, and Florida, upon which tracts being considered for leasing have been depicted and a listing of these tracts may also be obtained from either the Bureau of Land Management's New Orleans Outer Continental Shelf Office or the Office of Public Affairs, Bureau of Land Management at the above listed addresses.

In accordance with 43 CFR 3301.4, a public hearing will be held beginning at 9:00 a.m. on August 21, 1973, in the Lee Hall Auditorium, Florida A & M University, South Boulevard Street, Tallahassee, Florida 32304, for the purpose of receiving comments and suggestions relating to the possible lease sale. The hearing has been scheduled to extend through August 23.

The hearing will provide the Secretary with additional information from both the public and private sectors to help evaluate fully the potential effects of the possible offering of the 159 tracts on the total environment, aquatic resources, aesthetics, recreation and other resources in the entire area during the exploration, development and operation phases of the leasing program.

The hearing will also provide the Secretary, under section 102(2)(C) of the National Environmental Policy Act of 1969, with the opportunity to receive additional comments and views of interested state and local agencies.

Interested individuals, representatives of organizations and public officials wishing to testify at the hearing are requested to contact the Manager, New Orleans Outer Continental Shelf Office, Bureau of Land Management, at the above listed address by 4:15 p.m., August 15, 1973. Written comments from those unable to attend the hearing should be addressed to the Director (Attn: 390), Bureau of Land Management, U.S. Department of the Interior, Washington, D.C. 20240. The Department will accept written testimony and comments on the draft environmental statement until September 4, 1973. This should allow ample time for those unable to testify at the hearing to make their views known and for the submission of supplemental materials by those presenting oral testimony. Time limitations make it necessary to limit the length of oral presentations to ten minutes. An oral statement may be supplemented, however, by a more complete written statement which may be submitted to the hearing officer at the time of presentation of the oral statement. Written statements presented in person at the hearing will be considered for inclusion in the hearing record. To the extent that time is available after presentation of oral statements by those who have given advance notice, the hearing officer will give others present an opportunity to be heard.

After all testimony and comments have been received and analyzed a final environmental statement will be prepared.

GEORGE L. TURCOTT,
Acting Director, Bureau of Land Management.

Approved: July 18, 1973.

LAURENCE E. LYNN JR.,
Assistant Secretary of the Interior.

DIRECTOR'S WATERFOWL ADVISORY COMMITTEE

Notice of Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), announcement is made of the following Committee meeting:

Name: Director's Waterfowl Advisory Committee.

Date: August 7, 1973.

Place: Conference Room 2008, New Executive Office Building, 726 Jackson Place, NW., Washington, D.C. 20006.

Time: 9 a.m.

Purpose of meeting: The Committee will review the staff recommendations of the Bureau of Sport Fisheries and Wildlife for 1973-74 waterfowl regulations, and present to the Director their recommendations for 1973-74 waterfowl season frameworks.

This meeting will be open to the public. Persons wishing to attend should notify the Director, Bureau of Sport Fisheries and Wildlife, U.S. Department of the Interior, Washington, D.C. 20240, or call AC202-343-8655. Statements of interested persons other than Committee members must be filed in writing with the Director before or after the meeting. To the extent time permits, the Chairman of the meeting will accept brief oral statements from the public at the close of the Committee's agenda providing that such statements are also submitted in writing before or after the meeting.

SPENCER H. SMITH,
Director Bureau of Sport Fisheries and Wildlife.

[Docket No. M 73-70]

CONSOLIDATION COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861 (c) (1970), Consolidation Coal Company has filed a petition to modify the application of section 303(1)(3) and § 75.310 of the implementing regulations (30 CFR 75.310) to its Blacksville No. 1 Mine located at Monongalia County, West Virginia.

Section 303(1)(3) of the Act reads as follows:

(3) In virgin territory, if the quantity of air in a split ventilating the active workings in such territory equals or exceeds twice the minimum volume of air prescribed in subsection (b) of this section for the last open crosscut, if the air

V 38 I 139 JUL 20 73 XUM

in the split returning from such workings does not pass over trolley wires or trolley feeder wires, and if a certified person designated by the operator is continually testing the methane content of the air in such split during mining operations in such workings, it shall be necessary to withdraw all persons, except those referred to in section 104(d) of this Act, from the area of the mine endangered thereby to a safe area and all electric power shall be cut off from the endangered area only when the air returning from such workings contains 2.0 volume per centum or more of methane.

Petitioner requests modification of that portion of section 303(i)(3) which reads "* * * if a certified person designated by the operator is continually testing the methane control of the air in such split during mining operations in such working * * *." As an alternative petitioner proposes that it be allowed to install a methane monitoring system. Petitioner states that some of the methane which is contained in the return air split comes from the working faces, but the major portion comes from rib liberations outby the last open crosscut. To implement the alternative plan, a permissible methane sensor head will be located in the return airway of the air split to be monitored at a point just inby the location where that air split joins another. The methane monitor in the intake entry will be located in close proximity to the sensor head and the monitor will be provided with a methane recorder.

The methane monitor will be set to de-energize all equipment on the section when the methane concentration in the return air reaches 2 volume per centum or a malfunction of the monitor occurs. A weekly calibration and function test will be made and the results will be recorded to determine the operation of the monitor and the system will provide a warning at an arbitrary concentration of methane less than 2 volume per centum.

Petitioner contends that the alternative method will at all times guarantee no less than the same measure of protection afforded the miners by the mandatory standard and will in fact provide greater safety than the standard requires. Petitioner contends that the system will assure a reliable and constant, rather than intermittent, methane testing system during mining operations and will reduce the human failure element. The system will provide a quicker notification time period to de-energize all equipment on the section in the return air split and in the face area when methane concentrations reach certain limits. The system will eliminate the need of having a person exposed to respirable dust in the return air and a test of the return air at or near the sensor head will be made to check with the methane recorder once each shift.

Persons interested in this petition may request a hearing on the petition or furnish comments by August 19, 1973. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia, 22203. Copies of the petition are available for inspection at that address.

JAMES M. DAY,
Director,
Office of Hearings and Appeals.

[Docket No. M 73-71]

CONSOLIDATION COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), Consolidation Coal Company has filed a petition to modify the application of section 303(i)(3) and § 75.310 of the implementing regulations (30 CFR 75.310) to its Blacksville No. 2 Mine located at Monongalia County, West Virginia.

Section 303(i)(3) of the Act reads as follows:

(3) In virgin territory, if the quantity of air in a split ventilating the active workings in such territory equals or exceeds twice the minimum volume of air prescribed in subsection (b) of this section for the last open crosscut, if the air in the split returning from such workings does not pass over trolley wires or trolley feeder wires, and if a certified person designated by the operator is continually testing the methane content of the air in such split during mining operations in such workings, it shall be necessary to withdraw all persons, except those referred to in section 104(d) of this Act, from the area of the mine endangered thereby to a safe area and all electric power shall be cut off from the endangered area only when the air returning from such workings contains 2.0 volume per centum or more of methane.

Petitioner requests modification of that portion of the subparagraph which reads "* * * if a certified person designated by the operator is continually testing the methane control of the air in such split during mining operations in such working * * *" As an alternative petitioner proposes that it be allowed to install a methane monitoring system. Petitioner states that some of the methane which is contained in the return air split comes from the working faces, but the major portion comes from rib liberations outby the last open crosscut. To implement the alternative a permissible methane sensor head will be located in the return airway of the air split to be monitored at a point just inby the location where that air split joins another. The methane monitor in the intake entry will be located in close proximity to the sensor head and the monitor will be provided with a methane recorder.

The methane monitor will be set to de-energize all equipment on the section when the methane concentration in the return air reaches 2 volume per centum or a malfunction of the monitor occurs. A weekly calibration and function test will be made and the results recorded to determine the operation of the monitor and the system will provide a warning at an arbitrary concentration of methane less than 2 volume per centum.

Petitioner contends that the alternative method will at all times guarantee no less than the same measure of protection afforded the miners by the mandatory standard and will in fact provide greater safety than the standard requires. Petitioner contends that the system will assure a reliable and constant, rather than intermittent, methane testing system during mining operations and will reduce the human failure element. The system will provide a quicker notification time period to de-energize all equipment on the section in the return air split and in the face area when methane concentrations reach certain limits. The system will eliminate the need of having a person exposed to respirable dust in the return air and a test of the return air at or near the sensor head will be made to check with the methane recorder once each shift.

Persons interested in this petition may request a hearing on the petition or furnish comments by August 19, 1973. [Docket No. M 73-69]

EASTERN COAL CORPORATION

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), Eastern Coal Corporation has filed a petition to modify the application of 30 CFR 75.1403-10(j) to its Stone Nos. 4, 7 and 8 mines, F-1 Mine and A-4 Mine, all located at Stone, Kentucky.

30 CFR 75.1403-10(j) reads as follows:

(j) Operators of self-propelled equipment should face in the direction of travel.

Petitioner states that under the interpretation of this mandatory standard, the shuttle car operator must physically change his seating position each time he reverses the direction of travel. As an alternative method petitioner requests that the standard be modified so that the operator is not required to be seated facing the direction of travel, provided that the operator's body is in such a position that he can comfortably and readily turn his head to face the direction of travel. Petitioner contends that most shuttle car operators at the affected mines are trained and experienced in operating the shuttle cars in the proposed alternative manner.

Petitioner avers that the application of the mandatory safety standard will result in a diminution of safety to miners at the affected mines in that at times the shuttle cars operate in heavily timbered seams as low as 36 inches. This causes abrupt changes in vertical clearances and a shuttle car operator that must sit facing the direction of travel can not readily adjust to such clearances. The operator tires more quickly while maintaining the position required by the mandatory standard. Petitioner contends that the miners prefer the proposed alternative method and that since the effective date of the mandatory standard, it has experienced more injuries to shuttle car operators than during a like period before such date.

Persons interested in this petition may request a hearing on the petition or furnish comments by August 19, 1973. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES M. DAY,
Director,
Office of Hearings and Appeals.

KENTLAND-ELKHORN COAL CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), Kentland-Elkhorn Coal Corporation has filed a petition to modify the application of 30 CFR 75.1403-10 (j) to its Kentland Nos. 2 and 3 mines, Feds Creek Nos. 2 and 3 mines and Peter Creek Mine all located at Mouthcard, Kentucky.

30 CFR 75.1403-10(j) reads as follows:

(j) Operators of self-propelled equipment should face in the direction of travel.

Petitioner states that under the interpretation of this mandatory standard, the shuttle car operator must physically change his seating position each time he reverses the direction of travel. As an alternative method petitioner requests that the standard be modified so that the operator is not required to be seated facing the direction of travel, provided that the operator's body is in such a position that he can comfortably and readily turn his head to face the direction of travel. Petitioner contends that most shuttle car operators at the affected mines are trained and experienced in operating the shuttle cars in the proposed alternative manner.

Petitioner avers that the application of the mandatory safety standard will result in a diminution of safety to miners at the affected mines in that at times the shuttle cars operate in heavily timbered seams as low as 36 inches. This causes abrupt changes in vertical clearances and a shuttle car operator that must sit facing the direction of travel can not readily adjust to such clearances. The operator tires more quickly while maintaining the position required by the mandatory standard. Petitioner contends that the miners prefer the proposed alternative method and that since the effective date of the mandatory standard, it has experienced more injuries to shuttle car operators than during a like period before such date.

Persons interested in this petition may request a hearing on the petition or furnish comments by August 19, 1973. JULY 7, 1973

[FR Doc.73-14931 Filed 7-19-73;8:45 am]

[Docket No. M 73-66]

VALLEY CAMP COAL COMPANY

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), the Valley Camp Coal Company has filed a petition to modify the application of 30 CFR 75.1105 and section 311(c) of the Act to its Alexander Mine located in Marshall County, West Virginia.

30 CFR 75.1105 and section 311(c) of the Act provide in identical language:

§ 75.1105 Housing of underground transformer stations, battery-charging stations, substations, compressor stations, shops, and permanent pumps.

Underground transformer stations, battery-charging stations, substations, compressor stations, shops, and permanent pumps shall be housed in fireproof structures or areas. Air currents used to ventilate structures or areas enclosing electrical installations shall be coursed directly into the return. Other underground structures installed in a coal mine as the Secretary may prescribe shall be of fireproof construction.

Petitioner requests that the application of the mandatory standard be modified as it applies to the 60 horsepower pump located near the 7 South Section. Petitioner states that the pump is located adjacent to the main haulage road and the road is ventilated with intake air from the Fourth Street fan. This air is discharged from the mine by way of the Supply Slope and the Belt Conveyor Slope. Return airways outby the Fourth Street Shaft have not been maintained, therefore, there are no return airways in the immediate vicinity of this pump. Petitioner states that the pump is located in a lower area of the mine and must be operated daily to prevent flooding of the haulage road.

As an alternative method petitioner states that the pump will be housed in a fireproof enclosure equipped with fireproof doors which will remain closed. A fire suppression device that meets the requirements of the mandatory standards will be installed over the pump and no combustible material will be stored within the pump enclosure. Electrical circuits and inspections of the pump stations will comply with applicable standards.

Petitioner contends that the alternative method will provide no less than the same protection afforded the miners in the area by application of the mandatory safety standard. Petitioner avers that the intake air that passes this pump is not and can not be used to directly ventilate a working section and that the number of miners working outby the pump rarely exceeds 5.

Persons interested in this petition may request a hearing on the petition or furnish comments by August 19, 1973. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES M. DAY,
Director,
Office of Hearings and Appeals.

[Docket No. M 73-62]

WESTMORELAND COAL COMPANY

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), Westmoreland Coal Company has filed a petition to modify the application of section 314(f) of the Act and § 75.1405 of the Regulations (30 CFR § 75.1405) to its Eccles No. 5 and Eccles No. 6 mines located at Raleigh County, West Virginia.

Section 314(f) reads as follows:

All haulage equipment acquired by an operator of a coal mine on or after one year after the operative date of this title shall be equipped with automatic couplers which couple by impact and uncouple without the necessity of persons going between the ends of such equipment. All haulage equipment without automatic couplers in use in a mine on the operative date of this title shall also be so equipped within four years after the operative date of this title.

V 38 I 139 JUL 20 73 XUM

Petitioner states that with the installation of automatic couplers the present clearance of 4½ inches at the coping and below will be reduced to 1⁹⁄₁₆ inches in the dump end and to 1⁵⁄₁₆ on the opposite end. Above the coping, the present clearance of 2½ inches will be over extended by 7⁄₁₆ of an inch.

As an alternative method, petitioner requests that it be allowed to use the existing cars at both mines. Mine cars at the Eccles No. 5 mine are equipped with semi-automatic couplers which couple on impact. Petitoner proposes to add a lever which would be used to uncouple the cars. The lever would extend to the side of the car and would permit the cars to be uncoupled without persons going between the cars. The design of mine cars used at the Eccles No. 6 mine limits available space and it is impractical to install an automatic coupler. Petitioner proposes that it be allowed to use coupling hooks so that cars may be coupled and uncoupled without requiring that persons go between the cars. Petitioner will institute a rigid training program in the use of coupling hooks and the hazards of going between cars.

Persons interested in this petition may request a hearing on the petition or furnish comment by August 19, 1973. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES M. DAY,
Director,
Office of Hearings and Appeals.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No. NFD-109]

MISSISSIPPI

Amendment to Notice of Major Disaster

Notice of Major Disaster for the State of Mississippi, dated March 27, 1973, and published April 2, 1973 (38 FR 8489); amended April 5, 1973, and published April 9, 1973 (38 FR 9049); amended April 12, 1973, and published April 18, 1973 (38 FR 9624); amended May 11, 1973, and published May 17, 1973 (38 FR 12958); and amended June 21, 1973, and published June 27, 1973 (38 FR 16937), is hereby further amended. Notice is hereby given that on July 14, 1973, the President amended his declaration of a major disaster of March 27, 1973, for Mississippi, as follows:

I hereby amend my March 27, 1973, declaration of a "major disaster" in the State of Mississippi to read as follows:

I have determined that the damage in certain areas of the State of Mississippi from heavy rains and flooding beginning on or about March 14, 1973, and tornadoes occurring on April 24, 1973, and May 27, 1973, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 91-606. I therefore declare that such a major disaster exists in the State of Mississippi. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

In order to provide Federal assistance, you are hereby authorized to allocate, from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses.

The purpose of this amendment is to authorize Federal assistance for Tallahatchie County for the period March 14–June 10 for flood damage and for April 24 for tornado damage; for Lauderdale County for flood damage during the period March 14–18 and for tornado damage on May 27; for Clarke and Jones Counties for flood damage during the period March 14–June 10 and for tornado damage on May 27; and for Wayne County for tornado damage only on May 27.

In accordance with the President's amendment, the following county is hereby included among those counties determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of March 27, 1973:

The County of:

Wayne

(Catalog of Federal Domestic Assistance Program No. 50.002, Disaster Assistance)

Dated: July 16, 1973.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

ATOMIC ENERGY COMMISSION

[Source Material License SUB-1010]

KERR-McGEE CORP.

Establishment of Atomic Safety and Licensing Board

On July 16, 1973, the Commission published in the FEDERAL REGISTER, 38 FR 18921, a notice of hearing to consider the May 10, 1972, application for amendment of Source Material License No. SUB-1010 held by the licensee. The notice indicated that the Safety and Licensing Board for this proceeding would be designated at a later date, and that notice of its membership would be published in the FEDERAL REGISTER.

Pursuant to the Atomic Energy Act of 1954, as amended, the regulations of Title 10, Code of Federal Regulations, Part 2, rules of practice, and the notice of hearing referred to above, notice is hereby given that the Safety and Licensing Board in this proceeding will consist of Dr. Dale F. Babcock, Mr. Lester Kornblith, Jr., and John B. Farmakides, Esq., Chairman.

The positions and mailing addresses of the Board members are as follows:

1. John B. Farmakides, Esq., Chairman, an attorney member of the Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545.

2. Dr. Dale F. Babcock, 711 River Road, Wilmington, Delaware 19809.

3. Mr. Lester Kornblith, Jr., a technical member of the Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545.

As provided in the notice of hearing, the date and place of a prehearing conference and of a hearing will be scheduled by the Board and will be published in the FEDERAL REGISTER.

Dated at Washington, D.C., this 17th day of July 1973.

NATHANIEL H. GOODRICH,
Chairman, Atomic Safety and Licensing Board Panel.

[Docket No. 50-422]

MITSUBISHI INTERNATIONAL CORP.

Issuance of Facility Export License

Please take notice that no request for a hearing or a petition for leave to intervene having been filed following publication of notice of proposed action in the FEDERAL REGISTER on April 18, 1973 (38 FR 9618) and the Atomic Energy Commission having found that:

(a) The application filed by Mitsubishi International Corporation, Docket No. 50-422, complies with the requirements of the Act, and the Commission's regulations set forth in Title 10, Chapter I, Code of Federal Regulations, and

(b) The reactor proposed to be exported is a utilization facility as defined in said Act and regulations,

the Commission has issued License No. XR-87 to Mitsubishi International Corporation, authorizing the export of a pressurized water reactor with a thermal power level of 2,440 megawatts to the Kansai Electric Power Co., Inc., Osaka, Japan, (Takahama-Ohi-cho site).

The export of this reactor to Japan is within the purview of the present Agreement for Cooperation Between the Government of the United States of America and the Government of Japan Concerning Civil Uses of Atomic Energy.

Dated at Bethesda, Maryland this 13th day of July 1973.

For the Atomic Energy Commission.

RICHARD E. CUNNINGHAM,
Acting Deputy Director for Fuels and Materials, Directorate of Licensing.

[Notice 316]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before August 9, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74089. By order of July 11, 1973, the Motor Carrier Board approved the transfer to Central Moving & Storage Corp., 3100 W. Burleigh Street, Milwaukee, Wis. 53210, of the operating rights in Certificate No. MC-82226 issued December 16, 1970, to Robert W. Lister and Robert G. Wood, a partnership, doing business as Central Moving & Storage Company, 3100 W. Burleigh Street, Milwaukee, Wis. 53210, authorizing the transportation of household goods, as defined by the Commission, between points in Milwaukee County, Wis., on the one hand, and, on the other, points in Illinois, Indiana, Ohio, Minnesota, Iowa, and Michigan.

No. MC-FC-74438. By order of July 11, 1973, the Motor Carrier Board approved the transfer to Ronald Hackenberger, Doing Business As Ron's Trucking Service, Norwalk, Ohio, of Permit No. MC-129394 issued to State Sales, Inc., North Ridgeville, Ohio, authorizing the transportation of: Burnt lime and sludge, from Huron, Ohio, to specified points in West Virginia and Pennsylvania. J. A. Kundtz, Attorney, Cleveland, Ohio 44114.

No. MC-FC-74515. By order of July 13, 1973, the Motor Carrier Board approved the transfer to Keith E. Proud Moving & Storage, Inc., South Bend, Indiana, of Certificate No. MC-17804 issued August 20, 1943, to Keith E. Proud, South Bend, Indiana, authorizing the transportation of household goods between South Bend, Ind., and points within 15 miles of South Bend, on the one hand, and, on the other, points in Illinois, Michigan, Kentucky, Ohio, and Pennsylvania. Milton A. Johnson, 1800 American National Bank Bldg., South Bend, Ind. 46601, Attorney for Applicants.

No. MC-FC-74519. By order of July 13, 1973, the Motor Carrier Board approved the transfer to John David, Oswego, Illinois, of Certificate of Registration No. MC 96986 (Sub-No. 1), issued October 18, 1963, to Valley City Transfer, Inc., Aurora, Illinois, evidencing a right to engage in transportation in interstate commerce corresponding in scope to Certificates of Convenience and Necessity No. 7355MC dated February 4, 1958, issued by the Illinois Commerce Commission. John David, Box 328 Riverview Dr., Oswego, Illinois.

No. MC-FC-74530. By order of July 11, 1973, the Motor Carrier Board approved the transfer to Pace Motor Lines, Inc., Bloomfield, Conn., of the operating rights in Certificates No. MC-9268 and MC-9268 (Sub-No. 12) issued August 16, 1960 and September 18, 1972 respectively to Albert A. Fillmore, doing business as Fillmore Transportation, Bloomfield, Conn., authorizing the transportation of various commodities from, to and between specified points and areas in Connecticut, New York, New Jersey, Massachusetts and Rhode Island.

John E. Fay, 630 Oakwood Ave., West Hartford, Conn., 06110 Attorney for applicants.

[Notice 92]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 10, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

V 38 I 139 JUL 20 73 XUM

MOTOR CARRIERS OF PROPERTY

No. MC 113908 (Sub-No. 276 TA) (CORRECTION) filed June 14, 1973, published in the FEDERAL REGISTER issue of July 5, 1973, and republished as corrected this issue. Applicant: ERICKSON TRANSPORT CORPORATION 2105 East Dale Street P.O. Box 3180 Glenstone Station Springfield, Mo. 65804 Applicant's representative: B. B. Whitehead (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Vinegar and vinegar stock*, in bulk, in tank and hopper type vehicles and (2) *fermented, quick process and distilled vinegar, vinegar malt naptha* (ethyl acetate), *salt* (calcium acetate), *vinegar acid* (acetic acid), and *vinegar wine*, etc., between the following points and the commercial zone thereof, except that no transportation service shall be provided wholly within the same or one state in Rogers, Ark.; Delta and Denver, Colo.; Chicago, Ill.; Hutchinson and Wichita, Kans.; Bailey, Belding and Freemont, Mich.; St. Paul, Minn.; Kansas City, Marionville and Nixa, Mo.; Lyndonville and North Rose, N.Y.; Charlotte, N.C.; Oklahoma City, Okla.; Memphis, Tenn.; Dallas, Houston and Paris, Tex.; and Wenatchee and Yakima, Wash., for 180 days. SUPPORTING SHIPPER: Speas Company, 2400 Nicholson Avenue, Kansas City, Mo. 64120. SEND PROTESTS TO: John V. Barry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 600 Federal Office Building, 911 Walnut Street, Kansas City, Mo. 64106. Note: The purpose of this republication is to correct the MC number to No. MC 113908 (Sub-No. 276 TA) in lieu of No. MC 113908 (Sub-No. 277) which was published in error.

No. MC 119522 (Sub-No. 23 TA) (CORRECTION) filed May 21, 1973, published in the FEDERAL REGISTER issue of June 7, 1973, and republished as corrected this issue. Applicant: McLAIN TRUCKING, INC. P.O. Box 2159 2425 Walton Street Anderson, Ind. 46011 Applicant's representative: Donald W. Smith 900 Circle Tower Indianapolis, Ind. 46204 Note: The purpose of this republication is to show that applicant now seeks to operate as a *common carrier*, in lieu of a contract carrier, which was published in error. The rest of the application remains the same.

No. MC 123577 (Sub-No. 15 TA) (CORRECTION) filed June 18, 1973, published in the FEDERAL REGISTER issue of July 2, 1973, and republished as corrected this issue. Applicant: WARWICK-GREENWOOD LAKE AND NEW YORK TRANSIT, INC. (Donald A. Robinson, Trustee) 419 Anderson Avenue Fairview, N.J. 07022 Applicant's representative: Edward F. Bowes 744 Broad Street Newark, N.J. 07102 Note: The purpose of this republication is to show the correct name of applicant. Also, the application is supported by various petitions with many signatures, copies of which are available for inspection here at the Interstate Commerce Commission in Washington, D.C., or at the field office named below. The route description remains as previously published. SEND PROTESTS TO: District Supervisor Joel Morrows, Bureau of Operations, Interstate Commerce Commission, 9 Clinton Street, Newark, N.J. 07102.

[Notice 56]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

JULY 13, 1973.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

No. MC 200 (Sub-No. 261) filed May 24, 1973 Applicant: RISS INTERNATIONAL CORPORATION 903 Grand Ave. Kansas City, Mo. 64142 Applicant's representative: Ivan E. Moody 12th Floor Temple Bldg. 903 Grand Ave. Kansas City, Mo. 64106 Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General Commodities*, (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the warehouse site of Western Electric Company, Inc., at or near Underwood, Iowa as an off-route point in connection with applicant's regular-route operations to and from Council Bluffs, Iowa. Note: If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr. or Kansas City, Mo.

No. MC 522 (Sub-No. 2) filed October 24, 1972 Applicant: GLEN B. SMITH AND J. MILFORD SMITH a Partnership, doing business as SMITH TRANSFER 511 East Ontario Street Missouri Valley, Iowa 51555 Applicant's representative: Patrick E. Quinn P.O. Box 82028 Lincoln, Nebr. 68501 Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, commodities in bulk, and commodities requiring special equipment), serving points in Harrison County, Iowa, as off-route points in connection with applicant's existing regular route authority between Omaha, Nebr., and Missouri Valley, Iowa. Note: If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 730 (Sub-No. 348) filed June 4, 1973 Applicant: PACIFIC INTERMOUNTAIN EXPRESS CO. a Corporation 1417 Clay Street, P.O. Box 958 Oakland, Calif. 94604 Applicant's representative: Alfred G. Krebs (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite facilities of Nelco Corporation at or near Orting, Wash., as an off-route point in connection with applicant's regular-route operations to and from Tacoma, Wash. Note: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash. or San Francisco, Calif.

No. MC 22229 (Sub-No. 75) (AMENDMENT) filed February 26, 1973, published in the FEDERAL REGISTER issue of March 29, 1973, and republished, as amended, this issue. Applicant: TERMINAL TRANSPORT COMPANY, INC., 248 Chester Avenue, S.E., Atlanta, Ga. 30316. Applicant's representative: Ralph B. Matthews (same address as applicant). Note: The sole purpose of this republication is to show that the location of the plantsite of the Pulvair Corporation is located in Shelby County, Tenn., rather than at Woodstock, Tenn., as originally published. The rest of the notice remains as previously published.

No. MC 6945 (Sub-No. 35) filed May 15, 1973. Applicant: THE NATIONAL TRANSIT CORPORATION, 4401 Stecker Avenue, Dearborn, Mich. 48126. Applicant's representative: A. David Millner, 744 Broad Street, Newark, N. J. 07102. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk (other than metal scrap in bulk), and those requiring special equipment), serving the plant sites of Dow Chemical U.S.A. at Midland, Mich., as an off-route point in connection with carrier's presently authorized regular-route operations to and from Bay City, Mich. and Covington, Ky. Note: If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich. or Washington, D.C.

No. MC 19105 (Sub-No. 41) filed June 7, 1973 Applicant: FORBES TRANSFER COMPANY, INC. P.O. Box 3544 So. Goldsboro St. Ext. Wilson, N.C. 27893 Applicant's representative: Morton E. Kiel Suite 6193 5 World Trade Center New York, N.Y. 10048 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building materials* (except commodities in bulk), from the plant sites and facilities of United States Gypsum Company at Chamblee and Morrow, Ga., to points in Alabama, Arkansas, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee and Virginia; restricted to traffic originating at the above described facilities and destined to points in the above named territory. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Raleigh, N.C.

No. MC 19227 (Sub-No. 185) (CORRECTION) filed February 2, 1973, published in the FEDERAL REGISTER issue of March 15, 1973, and republished, as corrected, this issue. Applicant: LEONARD BROS. TRUCKING CO., INC. 2595 N.W. 20th Street Miami, Florida 33152 Applicant's representative: J. Fred Dewhurst (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Signs, sign parts, attachments, accessories and equipment* used in connection with or installation thereof, between points in California, on the one hand, and, on the other, points in Arizona, New Mexico, Texas, Nebraska, Kansas, Oklahoma, Colorado, Nevada, Oregon, Washington, Utah, Montana, and Idaho. Note: The purpose of this republication is to indicate that applicant seeks to perform a radial movement as described above, in lieu of a nonradial movement as previously published. Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif. or Washington, D.C.

No. MC 25798 (Sub-No. 239) filed May 31, 1973. Applicant: CLAY HYDER TRUCKING LINES, INC., 502 East Bridgers Avenue Auburndale, Fla. 33823. Applicant's representative: Tony G. Russell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Fountain Inn, S.C., to points in Arizona, California, Colorado, Kansas, Oregon, Texas and Washington. Note: Common control may be involved. Applicant states that its existing authority could be tacked with the requested authority at Fountain Inn, S.C., on frozen foods to provide a through service, but that it is not intended. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 28990 (Sub-No. 8) filed May 14, 1973 Applicant: SEYMOUR TRANSFER LINES, INC. 800 East Factory St. Seymour, Wis. 54165 Applicant's representative: Michael J. Wyngaard 329 West Wilson St. Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Class A & B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Fond du Lac and Oshkosh, Wis.: (1) from Fond du Lac over U.S. Highway 45 to Oshkosh, and return over the same route; (2) from Fond du Lac over U.S. Highway 41 to Oshkosh, and return over the same route; and (3) from Fond du Lac over Wisconsin Highway 175 to junction of U.S. Highway 45, thence over U.S. Highway 45 to Oshkosh, and return over the same route, serving all intermediate points on (1), (2), and (3) above. Note: If a hearing is deemed necessary, applicant requests it be held at either Madison, Oshkosh, or Fond du Lac, Wis.

No. MC 30530 (Sub-No. 11) filed May 16, 1973. Applicant: NORTH EASTERN MOTOR FREIGHT, INC., 5231 Monroe Street, Denver, Colo. 80216. Applicant's representative: Leslie R. Kehl, Suite 1600 Lincoln Center, 1600 Lincoln Street, Denver, Colo. 80202. Authority sought to operate as a *common carrier*,

V 38 I 139 JUL 20 73 XUM

by motor vehicle, over regular routes, transporting: *General commodities* (except household goods, commodities in bulk and those requiring special equipment), between Cheyenne, Wyo., and Billings, Mont.: From Cheyenne over Interstate 25 to the junction of Interstate Highway 90 and U.S. Highway 87, thence over Interstate Highway 90 and U.S. Highway 87 to Billings, and return over the same route, serving the intermediate points of Wheatland, Douglas, Casper, Buffalo and Sheridan, Wyo. and Hardin and Crow Agency, Mont. Note: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Denver, Colo., Billings, Mont., or Casper, Wyo.

No. MC 30657 (Sub-No. 27) filed May 29, 1973. Applicant: DIXIE HAULING COMPANY, a Corporation, 540 Englewood Avenue, S.E., Atlanta, Ga. 30315. Applicant's representative: Monty Schumacher, Suite 310, 2045 Peachtree Road, N.E., Atlanta, Ga. 30309. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Pipe and pipe covering, preventive coating and wrapping materials, steel piling, steel bearing pile, pile hammers and extractors, steel rail and track materials, and related parts, fittings and accessories* used in the installation and repair of such commodities, from the plant sites of L. B. Foster Company and Southern Pipe Coating Company at: (1) Savannah, Ga., to points in Florida, North Carolina, Georgia, South Carolina, Alabama, Tennessee and Mississippi; (2) Orlando, Fla., to points in Georgia, Alabama, North Carolina, South Carolina, Tennessee and Mississippi; (3) Birmingham, Ala., to points in Mississippi, Florida, Georgia, Tennessee, North Carolina and South Carolina; (4) points in Gwinnett County, Ga., to points in North Carolina and South Carolina; and (5) Charlotte, N.C., to points in South Carolina, Georgia, Alabama, Florida, Mississippi and Tennessee, restricted to a transportation service to be performed under a continuing contract, or contracts, with L. B. Foster Company of Doraville, Ga. Note: If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 30844 (Sub-No. 462) filed April 20, 1973. Applicant: KROBLIN REFRIGERATED XPRESS, INC. 2125 Commercial Street, P.O. Box 5000, Waterloo, Iowa 50702. Applicant's representative: Paul Rhodes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods, as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) from points in Connecticut, the District of Columbia, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, to points in Arkansas, Colorado, Kansas, Louisiana, Mississippi, Missouri, Oklahoma, Tennessee, and Texas; and (2) from points in Illinois, Missouri, and Wisconsin to points in Arkansas, Colorado, Louisiana, Oklahoma and Texas, restricted to shipments originating at and destined to the terminal and other facilities of A B C Freight Forwarding Corporation, Midland Forwarding Corporation, Inc., and National Carloading Corporation, located in the above-named states, and further restricted to shipments moving on bills of lading issued by the above-named carloaders. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y. or Washington, D.C.

No. MC 33320 (Sub-No. 137) (CORRECTION) filed May 4, 1973, published in the FEDERAL REGISTER issue June 28, 1973, and republished, as corrected, this issue. Applicant: T.I.M.E.-DC, INC. 2598 74th Street P.O. Box 2550 Lubbock, Tex. 79405 Applicant's representative: Chandler L. van Orman 704 Southern Building 15th and H Streets, N.W. Washington, D.C. 20005 Note: The sole purpose of this partial republication is to correct the restriction to read: "restricted against the handling of traffic originating at, destined to, or interlined at Memphis, Tenn., and its Commercial Zone" in lieu of "restricted to," which was published in error in the original notice. The rest of the publication remains as previously published.

No. MC 41432 (Sub-No. 133) filed May 24, 1973. Applicant: EAST TEXAS MOTOR FREIGHT LINES, INC., 2355 Stemmons Freeway, P.O. Box 10125, Dallas, Tex. 75207. Applicant's representative: W. P. Furrh (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Birmingham, Ala., and South Bend., Ind., from Birmingham over Interstate Highway 65 to Indianapolis, Ind., thence over U.S. Highway 31 to South Bend, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's presently authorized operations. Note: If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 52464 (Sub-No. 8) filed May 10, 1973. Applicant: EVANS TRUCKING CO., a Corporation 2773 Darlington Road, Beaver Falls, Pa. 15010. Applicant's representative: Irwin W. Goldstein (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, between points in Allegheny and Beaver Counties, Pa., on the one hand, and, on the other, points in New York, Ohio, West Virginia and Maryland. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa.

No. MC 57311 (Sub-No. 10) filed June 7, 1973. Applicant: PUTNAM TRANSFER & STORAGE CO. a Corporation 1502 Woodlawn Avenue Zanesville, Ohio 43701. Applicant's representative: A. Charles Tell 100 East Broad Street Columbus, Ohio 43215 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pebble stone* from Newark, Ohio, to Glass Rock and Millwood, Ohio, restricted to shipments having a prior movement by rail TOFC service. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 57591 (Sub-No. 16) (AMENDMENT) filed December 8, 1972, published in the FEDERAL REGISTER issue of March 29, 1973, and republished as amended this issue. Applicant: EVANS DELIVERY COMPANY, INC. P.O. Box 268 Pottsville, Pa. 17901 Applicant's representative: Kenneth R. Davis 999 Union Street Taylor, Pa. 18517 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), in cargo containers or cargo vans, between Philadelphia, Pa., on the one hand, and, on the other, points in Lancaster, Montgomery, Lebanon, Berks, Dauphin, Schuylkill, Lehigh, Northampton, Carbon, Northumberland, Union, Montour, Columbia, Luzerne and Lycoming (south of U.S. Highway 220) Counties, Pa., restricted to shipments having a prior or subsequent movement by water. Note: The purpose of this republication is to indicate that applicant seeks authority to points in Lycoming County, Pa. south of U.S. Highway 220 in its destination territory, in lieu of points in Lycoming County, Pa., west of Interstate Highway 80 and north of U.S. Highway 611, as previously published. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 59150 (Sub-No. 78) filed May 18, 1973 Applicant: PLOOF TRANSFER COMPANY, INC. 1901 Hill Street Jacksonville, Fla. 32202 Applicant's representative: Martin Sack, Jr. 1754 Gulf Life Tower Jacksonville, Fla. 32207 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Composition board, particle board and plywood, accessories, materials and supplies* used in the sale and installation thereof from points in Calhoun County, Fla., to points in the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas (including the District of Columbia); and (2) *materials, supplies and accessories* used in the manufacture and installation of the commodities in (1) above from the destination points specified in part (1) above to the plant and warehouse sites of Abitibi Corporation in Calhoun County, Fla., (1) and (2) above are restricted against the transportation of commodities in bulk. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary applicant requests it be held at Jacksonville, Fla.

No. MC 59150 (Sub-No. 79) filed June 4, 1973 Applicant: PLOOF TRANSFER COMPANY, INC. 1901 Hill Street Jacksonville, Fla. 32202 Applicant's representative: Martin Sack, Jr. 1754 Gulf Life Tower Jacksonville, Fla. 32207 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap or waste paper*, from points in Alabama, Tennessee, Georgia, South Carolina, Virginia, and District of Columbia, to the plantsite and facilities of the Celotex Corporation located in Wayne County, N.C. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Tampa or Jacksonville, Fla.

No. MC 61502 (Sub-No. 7) filed May 24, 1973 Applicant: Wm McCULLOUGH TRANSPORTATION CO., INC. 1130 U. S. Highway 1 Elizabeth, N.J. 07201 Applicant's representative: A. David Millner 744 Broad Street, Suite 2005 Newark, N.J. 07102 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic materials*, such as plastic powder, flakes, granules, lumps, pellets, or solid mass in bulk, in plastic liners, in van type vehicles, on traffic having a prior or subsequent movement by water, from the plantsite of General Electric Company located at or near Selkirk, N.Y., to the New York-New Jersey Port Authority Terminals in Port Elizabeth and Port Newark, N.J. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y. or Washington, D.C.

No. MC 73165 (Sub-No. 326) filed June 11, 1973 Applicant: EAGLE MOTOR LINES, INC. 830 North 33rd Street P.O. Box 11086 Birmingham, Ala. 35202. Applicant's representative: Robert M. Pearce, P.O. Box E, Bowling Green, Ky. 42101 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Aluminum, aluminum articles, and aluminum products;* and (2) *materials, equipment and supplies* used in connection with the manufacture of the commodities described in (1) above, (except commodities in bulk), between points in Colbert County, Ala., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). Note: Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala.
